Company overview

- Bikeleasing as a FinTech provides B2B customers with a leading digital platform for leasing of employee benefits (today bicycles)
- The Platform enables the highly automated connection between retailer, employee, employer, financing provider and insurer
- Mainly transaction-based business model with revenue per facilitated leasing object
- Brockhaus Technologies' share: 52%

The Bikeleasing platform

Exceptional platform performance

in thousand new leasing objects

On continued strong growth path

Financial results H1 2022¹ (€m)

Operational update

+40% to ~61,000
of facilitated bikes in 2022

>40,000
of total corporate customers with
>2.1 million
employees

Early repayment of parts of the acquisition loans
voluntary €5.7 million repayment due to strong organic cash flow

Levers for future growth

Expand market penetration by continuously onboarding new corporate customers

Extending the platform by additional employee benefits next to bicycles

Continued internationalization (first step to Austria conducted in 2021)

Strong rebound and back on growth-track

Financial results H1 2022 (€m)

Operational update

Strong rebound with 17% revenue growth

due to partial lifting of travel and contact restrictions

Improvement in EBITDA margin year over year

though still below the target level of 35%

Record high order backlog

due to supply chain challenges with regards to semiconductor parts

Levers for future growth

Continued market penetration with proprietary, new IP and hybrid solutions

Vertical growth in currently under-penetrated end markets (e.g. healthcare, industrials or e-sports)

Development of completely new applications (e.g. control rooms for autonomous driving)

Experts for aerosol & environmental technology

Company overview

- Developer of high precision devices for certified measurement and characterization of particles in the air (e.g. fine dust or nanoparticles)
- Combination of optical sensorics with proprietary software built on several years of measurement data
- Technology and cost leadership, delivering highest measurement precision at lowest total cost
- Brockhaus Technologies' share: 70%

Global presence directly and through partners

Products (selected)

Filter test rigs

Air quality measurement

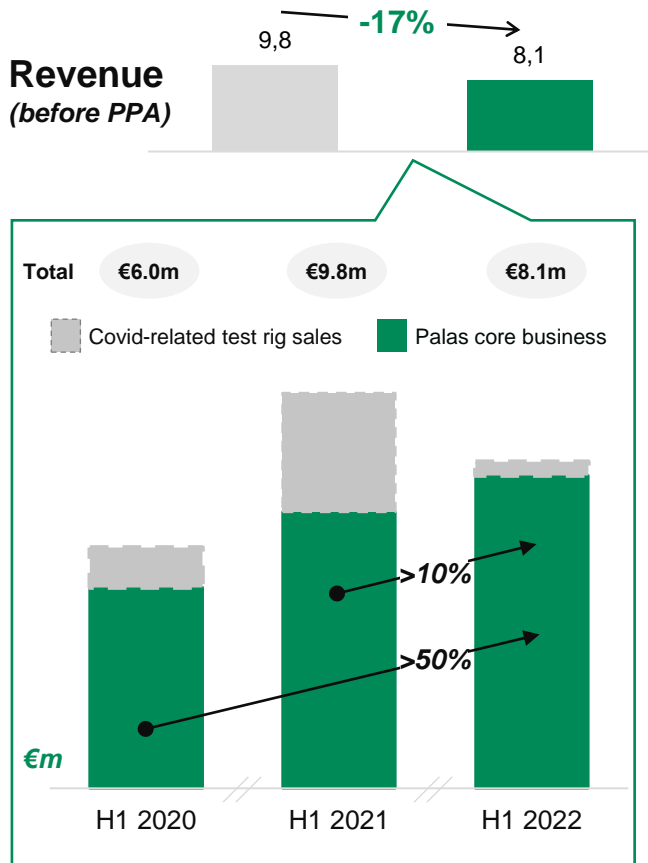

Regulatory fine dust monitoring

Continuous demand for core products

Financial results H1 2022 (€m)

Operational update

Second strongest H1 in Palas' corporate history
except for Covid-fueled H1 2021

Palas' core business continued to grow strongly with double-digit %
excl. Covid-related test rig sales

Significant delay in revenue recognition due to lockdowns in China during H1 2022
Almost ~€2 million backlog in China alone

Levers for future growth

Roll-out of data platform my-atmosphere.net for real-time management of air quality data

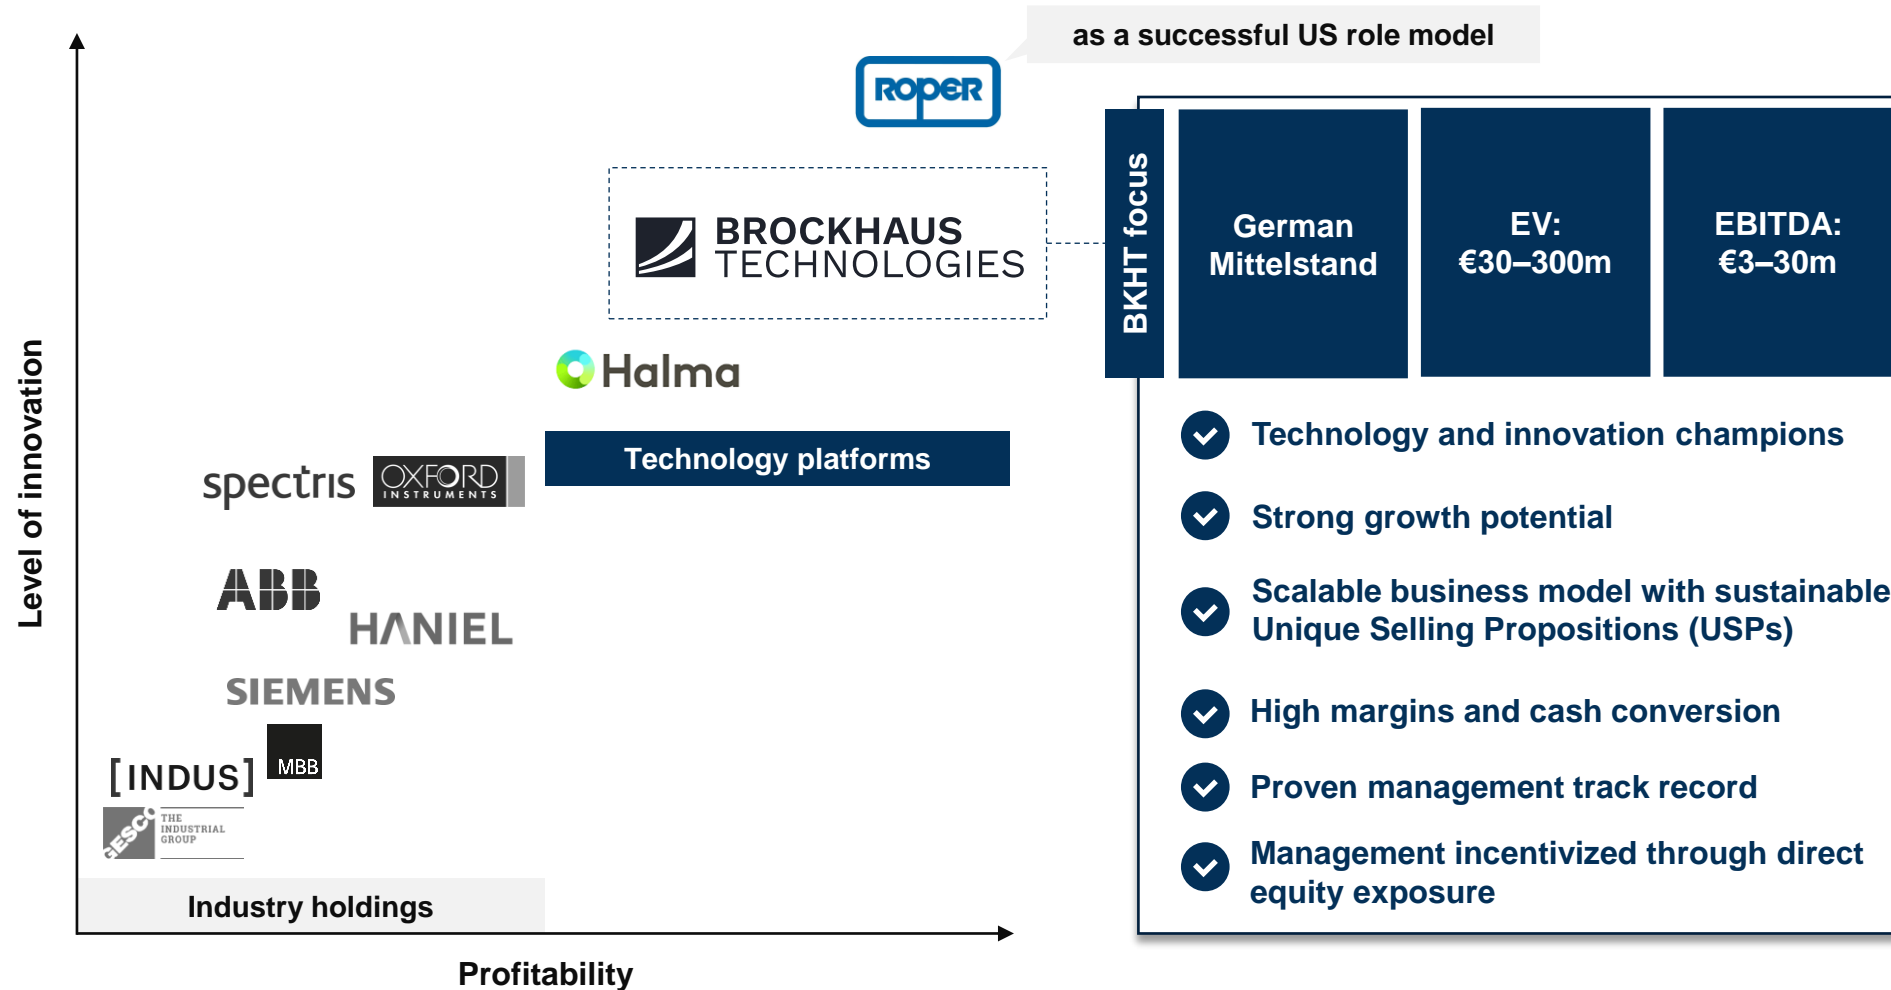

Continued internationalization (first step to China conducted in 2020)

Expansion into new product applications (e.g. unregulated market, indoor, emission control)

Uniquely positioned with a proven and successful business model
