

Earnings Release Q1 FY 2024

October 1 to December 31, 2023

Munich, Germany, February 7, 2024 – Siemens Energy today announced its results for the first quarter of fiscal year 2024 that ended December 31, 2023.

Solid start to the year, turnaround of wind business remains focus

“The solid first quarter is encouraging, in part also due to project shifts, which are normal in plant engineering, especially with the market dynamics we are currently seeing. That is why our focus remains on solving the quality problems in our onshore wind business and making the most of the growth potential for the rest of the company”, says Christian Bruch, President and CEO of Siemens Energy AG.

- Siemens Energy’s business development in the first quarter of the fiscal year was supported by continued favorable energy market trends. With a strong order development, in particular Grid Technologies and Transformation of Industry were able to take advantage of these favorable conditions leading to the highest orders in a quarter to date.
- For the full fiscal year, Siemens Energy confirms its previously communicated outlook.
- Orders increased year-over-year by 23.9% on a comparable basis (excluding currency translation and portfolio effects) to €15.4bn. The book-to-bill ratio (ratio of orders to revenue) was slightly above 2, driving the order backlog to a new high of €118bn.
- Revenue came in at €7.6bn reflecting a 12.6% increase on a comparable basis. While all segments contributed to growth, the increase was particularly strong at Grid Technologies.
- Siemens Energy’s Profit before special items sharply improved to positive €208m. Prior year quarter’s result came in, burdened by quality related charges at Siemens Gamesa, at negative €282m. Special items amounted to positive €1,670m (Q1 FY 2023: negative €103m), driven by a pre-tax gain related to the sale of an 18 percent stake in Siemens Limited, India, of €1,729m. As a result, Profit for Siemens Energy came in at positive €1,878m (Q1 FY 2023: negative €384m).
- Due to the special items, Siemens Energy showed a Net income of €1,582m (Q1 FY 2023: Net loss €598m). Corresponding basic earnings per share (EPS) were positive €1.79 (Q1 FY 2023: negative €0.60).
- Free cash flow pre tax was negative with €283m (Q1 FY 2023: negative €58m). The decrease was primarily due to Siemens Gamesa, which suffered a high cash outflow due to a loss and a build-up of operating net working capital in a seasonal weak quarter. Related to the sale of the stake in Siemens Limited, India, Siemens Energy recorded a cash inflow of nearly €2.1bn which is not reflected in Free cash flow pre tax however contributing to Adjusted Net cash.

¹ Comparable basis: Excluding currency translation and portfolio effects. Orders developed year-over-year by 20.9% on a nominal basis, revenue respectively by 8.3%.

- Orders exceeded prior-year's high comparative basis primarily due to growth at Grid Technologies and Transformation of Industry. Based on a substantially higher volume from large orders all segments reported an increase.
- Book-to-bill ratio came in at 2.01. Therefore, the order backlog once again exceeded the previous record level and rose to €118bn.
- Revenue increased significantly. All segments contributed to the growth with a substantial rise at GT.
- Service revenue improved significantly and growing somewhat stronger than the new unit business.
- Profit before Special items sharply increased with all segments improving or around prior year's level. Prior year's quarter was burdened by quality related charges at Siemens Gamesa of €0.5bn.
- Special items included the pre-tax gain from the sale of the centrally held stake in Siemens Limited, India, reported under Reconciliation to Consolidated Financial Statements (as strategic portfolio decisions).
- Negative Free cash flow pre tax was driven by Siemens Gamesa which more than offset positive contributions from all other segments.

Gas Services

(in millions of €)	Q1

¹ Comparable basis: Excluding currency translation and portfolio effects. Orders developed year-over-year by 9.2% on a nominal basis, revenue respectively by 4.4%.

- Orders increased year-over-year, mainly due to a significantly higher volume from large orders especially in Eastern Europe and Central Asia. This more than offset a decrease in the Americas region from the high prior year's level.
- Book-to-bill ratio was 1.53. The order backlog rose to €42bn.
- Clear revenue increase in a seasonally strong quarter, with the service business making the higher contribution to growth in absolute terms.
- Profit before Special items nearly on the high level of prior year's quarter benefiting from increased service revenue and timing effects.

Grid Technologies

(in millions of €)	Q1		
	FY 2024	FY 2023	Change
Orders	8,236	6,309	32.9% ¹

Profit before SI	213	114	87.3%
Profit margin before SI	10.2%	7.1%	3.1 p.p.

¹ Comparable basis: Excluding currency translation and portfolio effects. Orders developed year-over-year by 30.6% on a nominal basis, revenue respectively by 30.7%.

- Exceptionally high orders exceeded an already outstanding level in prior year's quarter mainly driven by Grid Technologies' product business and high-voltage direct current (HVDC) transmission system orders in Germany, in part benefiting from timing effects.
- Grid Technologies reported a Book-to-bill ratio of 3.96 with the order backlog rising to €28bn.
- Revenue grew substantially in all businesses with main contributions both from the product and solution businesses.
- Profit before Special items and the corresponding margin rose sharply driven by higher volume as well as a comparatively higher margin of the processed order backlog.
- Negative Special items mainly in connection with the signed deal to sell the Trench business (reported under strategic portfolio decisions).

¹ Comparable basis: Excluding currency translation and portfolio effects. Orders developed year-over-year by 36.0% on a nominal basis, revenue respectively by 14.6%.

- A sharp increase of orders year-over-year was mainly driven by two large orders in the Compression and in Industrial Steam Turbines & Generators businesses.
- Book-to-bill ratio was 1.44. The order backlog at the end of the quarter amounted to €7bn.
- Revenue was above prior-year quarter's level in all businesses, at least with significant growth, based on execution of a strong order backlog and continuing service strength, particularly in the Compression and Industrial Steam Turbines & Generators businesses.
- Profit before Special items nearly doubled year-over-year driven by higher revenue, better pricing, and increased service revenue.

¹ Comparable basis: Excluding currency translation and portfolio effects. Orders developed year-over-year by (2.7)% on a nominal basis, revenue respectively by 1.7%.

- Orders were slightly above prior year quarter's level on a comparable basis as offshore and service businesses reported clear and significant increases, respectively while onshore orders more than halved, largely due to a temporary interruption of sales activities for the 4.X and 5.X onshore turbines. Growth in the reporting regions Asia, Australia and EMEA offset a sharp decline in the Americas.
- Book-to-bill ratio came in at 0.77. The order backlog decreased to €41 bn.
- Revenue grew moderately based on increased service revenue which more than offset a decline in the onshore and offshore businesses.
- Profit before Special items was negative but sharply improved compared to prior year's quarter which included charges of €472m related to quality issues. Recent quarter's result was driven by project margins burdened by higher planned costs due to the known quality issues as well as the increased product costs and ramp-up challenges in the offshore area in the prior fiscal year.

Reconciliation to Consolidated Financial Statements

Profit before Special items (SI) (in millions of €)	Q1	
	FY 2024	FY 2023
Total Segments	204	(266)
Reconciliation to Consolidated Financial Statements	4	(15)
Siemens Energy	208	(282)

Reconciliation to Consolidated Financial Statements includes items, which management does not consider to be indicative of the segments' performance – mainly group management costs (management and corporate functions) and other central items, Treasury activities as well as eliminations. Other central items include Siemens brand fees, corporate services (e.g. management of the Group's real estate portfolio except Siemens Gamesa), corporate projects, centrally held equity interests and other items.

Outlook

We confirm our outlook for fiscal year 2024. We expect for **Siemens Energy** a comparable revenue growth (excluding currency translation and portfolio effects) in a range of 3 % to 7 % and a Profit margin before special items between negative 2 % and positive 1 %. Furthermore, we expect a Net income of up to €1bn including impacts from disposals and the acceleration of the portfolio transformation. We assume a negative Free cash flow pre tax of around €1.0bn. In addition, we expect proceeds in a range of positive €2.5bn to €3.0bn from disposals and the acceleration of the portfolio transformation.

The outlook for Siemens Energy does not include charges related to legal and regulatory matters.

Overall assumptions per business area

- **Gas Services** assumes a comparable revenue growth of negative 4 % to 0 % and a Profit margin before special items of 9 % to 11 %.
- **Grid Technologies** plans to achieve a comparable revenue growth of 18 % to 22 % and a Profit margin before special items between 7 % and 9 %.
- **Transformation of Industry** expects a comparable revenue growth of 8 % to 12 % and a Profit margin before special items of 5 % to 7 %.
- **Siemens Gamesa** assumes a comparable revenue growth of 0 % to positive 4 % and a negative Profit before special items of around €2bn.

This document contains statements related to our future business and financial performance, and future events or developments involving Siemens Energy that may constitute forward-looking statements. These statements may be identified by words such as "expect," "look forward to," "anticipate" "intend," "plan," "believe," "seek," "estimate," "will," "project," or words of similar meaning. We may also make forward-looking statements in other reports, prospectuses, in presentations, in material delivered to shareholders, and in press releases. In addition, our representatives may from time to time make oral forward-looking statements. Such statements are based on the current expectations and certain assumptions of Siemens Energy's management, of which many are beyond Siemens Energy's control. These are subject to a number of risks, uncertainties, and other factors, including, but not limited to, those described in disclosures, in particular in the chapter "Report on expected developments and associated material opportunities and risks" in the Annual Report. Should one or more of these risks or uncertainties materialize, should acts of force majeure, such as pandemics, occur, or should underlying expectations including future events occur at a later date or not at all, or should assumptions not be met, Siemens Energy's actual results, performance, or achievements may (negatively or positively) vary materially from those described explicitly or implicitly in the relevant forward-looking statement. Siemens Energy neither intends, nor assumes any obligation, to update or revise these forward-looking statements in light of developments which differ from those anticipated. This document includes supplemental financial measures – that are not clearly defined in the applicable financial reporting framework – and that are or may be alternative performance measures (non-GAAP-measures). These supplemental financial measures should not be viewed in isolation or as alternatives to measures of Siemens Energy's net assets and financial position or results of operations as presented in accordance with the applicable financial reporting framework in its consolidated financial statements. Other companies that report or describe similarly titled alternative performance measures may calculate them differently. Due to rounding, numbers presented throughout this and other documents may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.
