ROCE = Adjusted EBIT / (total equity + financial liabilities (excl. refinancing costs, incl. lease liabilities) + pension and other similar benefits - cash and cash equivalents).

PORTRAIT

SAF-HOLLAND SE is a leading international manufacturer of chassis-related assemblies and components for trailers, trucks and buses. The product range includes, among other things, axle and suspension systems for trailers as well as fifth wheels for trucks and coupling systems for trucks, trailers and semi-trailers. In addition, SAF-HOLLAND develops innovative products to increase the efficiency, safety and environmental friendliness of commercial vehicles. The focus here is on the digitalization and networking of trailers as well as the electrification of axles. The products and solutions are marketed under the brands SAF, Holland, V.Orlandi, TrailerMaster, Neway, KLL and York. SAF-HOLLAND supplies original equipment to vehicle manufacturers on six continents. In the aftermarket business, the company supplies spare parts to the manufacturers' service networks as well as to wholesalers and, through an extensive global distribution network, to end customers and service centers. Around 3,600 dedicated employees worldwide are already working on the future of the transport industry.

INDUSTRY ENVIRONMENT

VERY DIFFERENTIATED DEVELOPMENT OF THE TRAILER AND TRUCK MARKETS

The largest trailer and truck markets in terms of volume developed very differently year-over-year in Q1 2022. The particularly relevant trailer markets for SAF-HOLLAND – Europe, North America, and India – developed very well. In the high-volume truck markets of Europe and North America, semiconductor shortage was still apparent.

EXTRAORDINARY ITEMS

SAF-HOLLAND eliminates certain income and expenses for the management of its operations. The adjusted earnings presented below correspond to the management perspective.

In Q1 2022, net expenses of EUR 2.4 million (previous year EUR 2.5 million) were adjusted from earnings before interest and taxes (EBIT). These include restructuring costs of 0.2 million euros (previous year 0.2 million euros) as well as depreciation and amortisation from purchase price allocations of 2.3 million euros (previous year 2.3 million euros).

Within cost of sales, net expenses totalling 0.5 million euros (previous year 0.5 million euros) were adjusted in Q1 2022. These include almost exclusively depreciation from purchase price allocations of 0.5 million euros (previous year 0.5 million euros).

Within selling expenses, net expenses totalling 1.7 million euros (previous year 1.8 million euros) were adjusted in Q1 2022. These mainly include depreciation from purchase price allocations of 1.7 million euros (previous year 1.7 million euros).

Adjustments of 0.1 million euros (previous year -0.1 million euros) were made within the general administrative expenses and relate almost exclusively to restructuring expenses.

Research and development costs were adjusted by 0.1 million euros (previous year 0.3 million euros). This includes restructuring expenses of 0.0 million euros (previous year 0.2 million euros) as well as depreciation from purchase price allocations of 0.1 million euros (previous year 0.1 million euros).

EARNINGS POSITION

The following development describes the changes in the main items of the income statement in the reporting period, adjusted for the aforementioned extraordinary items.

GROUP SALES AT RECORD LEVEL BASED ON HIGH DEMAND

Based on high demand, Group sales in Q1 2022 of 369.7 million euros were 29.4% higher than in the previous year (285.6 million euros). Exchange rate effects amounted to 9.0 million euros (previous year -13.7 million euros). Adjusted for exchange rate effects, revenues rose by 26.3% to 360.7 million euros.

Group sales by segment Q1 2022

in %

STRONG GROWTH IN OE AND AFTERMARKET BUSINESS

Sales of the OE business increased by 31.7% to 273.3 million euros in Q1 2022. The share of Group sales from the OE business increased from 72.6% to 73.9%.

Sales of the aftermarket business increased by 23.3% to 96.4 million euros. The share of Group sales from the aftermarket business decreased from 27.4% to 26.1%.

in EUR million

	Q1/2022	Q1/2021	Change absolute	Change in %
Original equipment business	273.3	207.5	65.8	31.7%
Aftermarket business	96.4	78.2	18.2	23.3%
Group sales	369.7	285.6	84.1	29.4%
Original equipment business in % of Group sales	73.9%	72.6%		
Aftermarket business in % of Group sales	26.1%	27.4%		

ADJUSTED GROSS MARGIN AT 15.8%

In Q1 2022, adjusted cost of sales rose disproportionately by 35.5% to 311.2 million euros (previous year 229.6 million euros) compared to the previous year due to the increase in demand, but in particular due to high steel prices as well as high freight and energy costs, which are passed on with a time lag. This corresponds to an adjusted cost of sales ratio of 84.2% (previous year 80.4%). Price adjustments and efficiency increases could not compensate for the disproportionate cost increases.

The adjusted gross profit in Q1 2022 improved by 4.5% to 58.5 million euros (previous year 56.0 million euros). The adjusted gross margin of 15.8% was below the previous year's level of 19.6%.

ADJUSTED EBIT MARGIN AT 6.4%

SAF-HOLLAND increased the adjusted EBIT in Q1 2022 by 7.0% to EUR 23.5 million (previous year EUR 22.0 million). This corresponds to an adjusted EBIT margin of 6.4% (previous year 7.7%). The significantly lower administrative and research and development cost ratios could only partially compensate for the higher cost of sales ratio.

Currency effects had no impact on the adjusted EBIT margin.

SLIGHT DETERIORATION OF FINANCIAL RESULT

The financial result deteriorated slightly in Q1 2022 to -2.8 million euros (previous year -1.7 million euros). This is mainly due to slightly higher financial expenses.

UNADJUSTED RESULT FOR THE PERIOD 16.1% HIGHER THAN IN Q1 2021

With an effective Group tax rate of 28.3% (previous year 36.6%), an unadjusted profit for the period of 13.1 million euros (previous year 11.3 million euros) was achieved in Q1 2022. The adjusted result for the period improved by 1.8% to 15.1 million euros (previous year 14.9 million euros) with an expected Group tax rate of 26.8% (previous year 26.7%).

Based on the unchanged number of approximately 45.4 million ordinary shares issued, undiluted unadjusted earnings per share in Q1 2022 amounted to 0.29 euros (previous year 0.24 euros) and adjusted earnings per share to 0.33 euros (previous year 0.32 euros).

In the EMEA region, sales in Q1 2022 improved by 23.9% to 208.5 million euros (previous year: 168.3 million euros), in particular due to the strong trailer OE business. Adjusted for exchange rate effects, sales grew by 24.5% to 209.6 million euros.

High steel prices as well as high freight and energy costs, which are passed on with a time lag, have weighed heavily on the cost of sales ratio, while the share of administrative and research and development costs declined significantly. In total, this led to an adjusted EBIT of 10.1 million euros (previous year 16.2 million euros) and corresponds to an adjusted EBIT margin of 4.9% (previous year 9.6%).

In the Americas region, sales in Q1 2022 increased by 40.8% to 127.0 million euros (previous year: 90.2 million euros) due to the strong aftermarket and trailer OE business. Adjusted for exchange rate effects, sales improved by 30.7% to 117.8 million euros.

Cost increases for steel as well as higher freight and energy costs also had a negative impact on the cost of sales ratio in the Americas region, but by far less than in the EMEA region. The significantly lower share of administrative and research and development costs had a positive margin effect. In total, this led to an adjusted EBIT of 9.9 million euros (previous year 5.4 million euros) and corresponds to an adjusted EBIT margin of 7.8% (previous year 6.0%).

The APAC region generated sales of 34.2 million euros in Q1 2022 (previous year 27.1 million euros). Adjusted for exchange rate effects, sales increased by 22.7% year-over-year to 33.3 million euros. The main reason for this significant increase in sales was the strong growth in the trailer OE business in India and Australia.

Compared to the strong increase in sales, the increase in cost of sales was disproportionately low. The significantly lower sales and administrative cost ratio also had a positive margin effect. The adjusted EBIT improved from 0.4 million euros to 3.5 million euros. The adjusted EBIT margin was 10.1% (previous year 1.4%).

Compared to December 31, 2021, equity has increased by 19.5 million euros to 390.5 million euros. This corresponds to an equity ratio of 36.8% (December 31, 2021: 36.6%).

The increase in equity was based on the net profit for the period of 13.1 million euros and exchange rate differences from the translation of foreign operations of 6.4 million euros.

Non-current liabilities decreased by 0.1 million euros to 418.3 million euros compared to December 31, 2021 and thus accounted for 39.4% (December 31, 2021: 41.3%) of the balance sheet total.

Current liabilities increased by 26.7 million euros to 251.5 million euros compared to December 31, 2021 and thus accounted for 23.7% (December 31, 2021: 22.2%) of total assets. The main reason for the increase was the rise in trade payables due to the positive business development.

Net working capital (inventories and trade receivables less trade payables) was 208.7 million euros as at March 31, 2022 (December 31, 2021: 184.4 million euros).

Based on demand, the net working capital ratio – net working capital in relation to Group sales for the last twelve months – increased slightly from 14.8% to 15.7% compared to December 31, 2021. An increase in 12-month sales of 6.7% was offset by the disproportionate increase in inventories (9.2%), trade receivables (29.3%) and trade payables (23.0%).

OPERATING FREE CASH FLOW NEGATIVE

The net cash flow from operating activities reached -5.2 million euros in Q1 2022 (previous year 5.7 million euros). This development is due in particular to the change in “Other provisions and pensions” and “Other assets” as well as higher taxes paid.

Net cash flow from investing activities in property, plant and equipment and intangible assets was -4.8 million euros, 0.4 million euros lower year-over-year. Investments focused on measures to increase efficiency and optimize the global production footprint.

The operating free cash flow and total free cash flow were both negative at -10.0 million euros.

NET FINANCIAL DEBT INCREASED SLIGHTLY

Net financial debt (including lease liabilities) increased slightly by 12.3 million euros to 210.3 million euros as at March 31, 2022 compared to December 31, 2021. SAF-HOLLAND had cash and cash equivalents of 148.9 million euros as at March 31, 2022 (December 31, 2021: 165.2 million euros).

RISK AND OPPORTUNITY REPORT

In the assessment of the risks and opportunities for the SAF-HOLLAND Group, the following significant change has occurred compared to the risk and opportunity-related statements in the Annual Report 2021 (pages 101 to 112):

In recent months, prices for steel and freight rates have once again increased significantly. The passing on of the higher purchase prices for steel is taking place with a time lag. In the OE business, there is a time lag of three to six months; in the aftermarket business, this occurs more quickly. Due to the exceptional circumstances, SAF-HOLLAND has initiated or conducted discussions with its customers aimed at faster price adjustments.

OUTLOOK

ECONOMIC ENVIRONMENT: RUSSIA-UKRAINE-WAR AFFECTS GLOBAL ECONOMIC GROWTH

The International Monetary Fund (IMF) expects the global economy to continue its growth trend this year. Due to the Russia-Ukraine war, the IMF has adjusted its January 2022 forecast and now predicts a growth rate of 3.6% for 2022 (previously 4.4%). The adjustment affects Russia and the euro zone in particular.

SECTOR ENVIRONMENT: RUSSIA-UKRAINE-WAR COULD ALSO INFLUENCE GLOBAL COMMERCIAL VEHICLE MARKETS OVER THE COURSE OF THE YEAR

In the commercial vehicle markets relevant to SAF-HOLLAND, the outlook remains favourable in 2022, although the somewhat slower growth dynamics of the global economy could in all likelihood also have a dampening effect on the global trailer and truck markets in the further course of the year. The trailer markets in Europe and the USA, which are particularly important for SAF-HOLLAND, are expected to remain robust according to external industry experts or based on own market intelligence. The Indian trailer market should grow by 41% according to estimates by SIAM (Society of Indian Automobile Manufacturers).

For the North American truck market, which is important for SAF-HOLLAND, ACT Research expects a growth rate for Class 8 trucks of around 12% for 2022.

FUTURE DEVELOPMENT OF SAF-HOLLAND

Based on the figures for the first quarter of 2022, the Management Board of SAF-HOLLAND SE has decided to raise the forecast for Group sales for the 2022 financial year and to concretise the forecast for the adjusted EBIT margin.

Based on the expected macroeconomic and industry-specific conditions and weighing up the potential risks and opportunities, the Management Board now expects Group sales for 2022 financial year to be in a range of EUR 1.2 billion to EUR 1.35 billion (previously EUR 1.15 billion to EUR 1.3 billion).

Based on this assumption, SAF-HOLLAND also expects an adjusted EBIT margin of 6.5% to 7.0% for the 2022 financial year (previously: significantly below the previous year).

In order to support the strategic goals, the company continues to plan investments in the range of 2% to 2.5% for the 2022 financial year. The investments will focus on the continuation of the capacity expansions already started in Turkey and Mexico as well as a capacity expansion in India. Furthermore, the company plans to invest in efficiency-enhancing measures, especially in Germany and the USA.

DISCLAIMER

The quarterly statement is also available in German. In cases of doubt, the German version shall prevail. The figures in this report have been rounded using commercial principles. In isolated instances, this can lead to rounding differences in the sum totals and percentages.

This report contains certain statements that are neither reported financial results nor other historical information. This report contains forward-looking statements. Such forward-looking statements are based on certain assumptions, expectations and forecasts made at the time of publication of this report. Consequently, they are inherently subject to risks and uncertainties. Moreover, the actual events could diverge significantly from the events described in the forward-looking statements. Many of these risks and uncertainties relate to factors that are beyond the ability of SAF-HOLLAND SE to control or estimate precisely, such as future market and economic conditions, the behavior of other market participants, the achievement of anticipated synergies, and the actions of government regulators. Readers are cautioned not to place undue reliance on these forward-looking statements, which apply only as of the date of this publication. Likewise, SAF-HOLLAND SE does not undertake any obligation to publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date of publication of these materials.
