

VMworld 2020 will be a global online event held September 29th – October 1st, 2020.

Recommended Track for Financial Analysts

(available at the times below and on-demand following the initial viewing)

1. Executive General Session

Tuesday, September 29th 9.00am – 9.55am PT

- **Pat Gelsinger**, Chief Executive Officer, VMware
- **Sanjay Poonen**, Chief Operating Officer, Customer Operations, VMware

CEO Pat Gelsinger will kick off VMworld 2020 welcoming attendees to the first ever virtual event in VMworld history.

2. VMware & NVIDIA CEO's Discussion on AI and ML

Tuesday, September 29th 10.00am – 10.25am PT

- **Pat Gelsinger**, Chief Executive Officer, VMware
- **Jensen Huang**, Chief Executive Officer, NVIDIA

Join VMware CEO Pat Gelsinger and NVIDIA CEO Jensen Huang as they discuss the future of enterprise AI and ML applications.

3. Solutions Keynote: Intrinsic Security

Tuesday, September 29th 10.00am – 10.25am PT

- **Sanjay Poonen**, Chief Operating Officer, Customer Operations, VMware
- **Patrick Morley**, SVP/GM Security Business Unit, VMware

In this keynote, you will hear Sanjay Poonen lead a discussion about how VMware is stepping up to the security challenge. He will outline the VMware vision and strategy for security and highlight key areas of innovation.

4. Solutions Keynote: Journey to a Future Ready Workforce (EUC)

Tuesday, September 29th 10.00am – 10.25am PT

- **Shankar Iyer**, SVP and GM, EUC, VMware

As remote work takes hold, businesses are seizing the opportunity to evolve their distributed workforce with the tools needed to work in new ways. It's technology, not location, that holds today's distributed organization together.

5. Solutions Keynote: Modern Apps - Get Better Software into Production Faster

Tuesday, September 29th 10.00am – 10.25am PT

- **Ajay Patel**, SVP/GM Modern Applications, VMware

In this keynote, we'll talk about how Developers are adopting cloud native patterns like microservices and APIs to more rapidly innovate and iterate on applications and discuss how Operators are leveraging Kubernetes to better manage applications on-premises and across public clouds with consistency and control.

6. [Solutions Keynote: 5G \(Part 1\) A Transformative Moment for CSPs](#)

Tuesday, September 29th 10.00am – 10.25am PT

- **Pat Gelsinger**, Chief Executive Officer, VMware
- **Shekar Ayyar**, EVP and General Manager Telco Edge Cloud, VMware

Join Shekar as he takes us on a globetrotting virtual tour of the ways VMware is supporting mission-critical engagements in Telco and Edge for the transition to 5G and beyond.

7. [Solutions Keynote: 5G \(Part 2\) CSPs Share Their Success](#)

Tuesday, September 29th 10.30am – 10.55am PT

- **Pat Gelsinger**, Chief Executive Officer, VMware
- **Shekar Ayyar**, EVP and General Manager Telco Edge Cloud, VMware

Industry leaders will share their stories of how VMware Telco and Edge cloud solutions helped support their infrastructure, automation, and operations -- driving new levels of efficiency, agility, and innovative service delivery.

8. [Solutions Keynote: Multi-Cloud Strategy to Deliver Modern Apps to Any Cloud](#)

Tuesday, September 29th 10.30am – 10.55am PT

- **Raghu Raghuram**, Chief Operating Officer, Products and Cloud Services, VMware

Learn how VMware can uniquely accelerate app modernization, delivering powerful applications on any cloud, migrating apps to any cloud and transforming apps with the most innovative cloud services.

9. [Solutions Keynote: Virtual Cloud Network](#)

Tuesday, September 29th 10.30am – 10.55am PT

- **Tom Gillis**, Senior Vice President/General Manager - NSBU, VMware

This keynote covers the Virtual Cloud Network, VMware's vision for networking in the digital age.

10. [Solutions Keynote: Innovation @ VMware - The CTO Perspective](#)

Tuesday, September 29th 10.30am – 10.55am PT

- **Greg Lavender**, SVP & Chief Technology Officer, VMware

In this keynote, you'll learn about what's on the horizon from VMware's innovation engine.

11. [The Future Ready Security Operations Center](#)

Tuesday, September 29th 10.30am – 10.55am PT

- **Tom Corn**, Senior Vice President, Security Products, VMware

Come hear the latest about the Carbon Black Cloud platform. Come see what a future ready SOC looks like.

12. [Datacenter Firewalling](#)

Tuesday, September 29th 11.00am – 11.25am PT

- **Tom Gillis**, Senior Vice President/General Manager - NSBU, VMware

Learn about innovations in internal firewalling and how this extends to the branch to deliver on the SASE vision.

13. [Q&A with VMware CTO Leadership](#)

Tuesday, September 29th 11.00am – 11.30am PT

- **Greg Lavender**, SVP & Chief Technology Officer, VMware

Questions about VMware technology strategy, innovation, and more.

14. [Management & Security](#)

Tuesday, September 29th 12.00pm – 12.25pm PT

- **Shawn Bass**, VP & Chief Technology Officer, EUC, VMware

How VMware is changing endpoint security and bringing security and management teams together.

15. [Work from Anywhere](#)

Tuesday, September 29th 12.00pm – 12.25pm PT

- **Sanjay Uppal**, SVP & GM, VMware

Learn how VMware technologies including SD-WAN, Workspace One, Avi, and NSX are coming together to support your plans for SASE transformation.
