### **Evolving our loyalty programme Zalando Plus**

### Introducing a free Loyalty programme to feel recognized & rewarded

### Why do we evolve Plus?

We open Plus to all of our customers, not just top tier (Plus customers around 2.6m)

In line with our updated group strategy we aim to **drive customer engagement**, create emotional connections and multi-proposition adoption thereby increasing order frequency and customer retention

## How does the Loyalty programme work?

### Customers earn points for the money and time spent

Based on the amount of collected points, customers reach different levels

Depending on the achieved level, customers are rewarded through benefits, surprises and personalization

e.g. birthday gifts, special member offers, fee-free shipping, free faster shipping when you need it, fast customer care, early access to new products, priority notifications for back in stock products, exclusive invites, etc.

### Timing and financial indications

Roll-out started in Spain, France and Austria, with more markets to follow in 2025 and beyond

The reshaping will come with additional one-off costs associated with the payback of Plus subscription fees.

Additionally, Zalando will build up provisions to account for the collected points, these will lead to a deferral of revenues
