POSITIVE FY/21 RESULTS, PORTFOLIO HOLDINGS ON TRACK

Deutsche Effecten- und Wechsel- Beteiligungsgesellschaft's (DEWB) FY/21 results were in line with our expectations. DEWB achieved other operating income of €9.4m (FBe: €9.4m, FY/20: €5.0m) thanks to the exit of its non-core holding MueTec to the Chinese group TZTEK. EBIT came in at €8.1m (FBe: €8.0m; FY/20: €3.2m). The portfolio holdings developed positively. DEWB's anchor shareholding, Lloyd Fonds AG (LFAG), delivered a strong and much improved cash flow in FY/21. LFAG also successfully completed the acquisition of a 98% stake (target: >90%) in the leading German asset management firm, BV Holding AG. The deal will more than double LFAG's assets under management (AuM) to ~€5.0bn (FY/21 €22bn), and the company recently completed a capital increase raising €7.4m by placing 615k shares at €12 p/s to finance the acquisition. LFAG likewise completed the acquisition of 17.75% (with the option to expand to 100%) in the fast-growing roboadvisory startup, Growney GmbH. In FY/21, DEWB's factoring specialist Aifinyo delivered a turnover increase of ~40% to €45m and a positive EBT of €0.7m (FY/20: €-3.5m). Overall, DEWB successfully conducted five Fintech investments in FY/21: the securities tokenisation technology provider Cashlink; the neobrokers Naga Group and Nextmarkets; the marketplace for alternative investments Stableton; and the wealth management robo advisor LAIC. Unfortunately, the recent capital markets downturn following the Russian invasion of Ukraine has negatively impacted DEWB's NAV and share price. However, with its highly attractive portfolio, we see DEWB as well positioned to benefit from the buoyant, disruptive Fintech industry. We reiterate our Buy recommendation and our €2.90 price target.

Solid income from investments driven by the successful sale of non-core holding MueTec Other operating income came in as anticipated at €9.4m (FBe: €9.4m; FY/20: €5.0). This figure reflects profit from the sale of the optical measurement company MueTec to the Chinese group TZTEK Technology Ltd. (p.t.o.)

RISKS

Risks include, but are not limited to, portfolio risk (particularly its largest holding Lloyd Fonds), portfolio liquidity (exit possibilities) and lack of transparency in the private holdings.

COMPANY PROFILE

DEWB is a boutique private equity firm. It focuses on investing in young and high growth Fintech companies within the asset management sector, including technology companies with business models that are key to digitalising this industry. The company is based in Jena and has a regional focus on German-speaking countries.

In September 2020, DEWB received a €7.1m payment for the sale of 25% in MueTec. DEWB completed the sale of its remaining shares in MueTec in May 2021. This led to the previously agreed payment of further €10.3m and the corresponding booking of a €9.4m profit as other operating income. The initial investment was ~€2.4m in 2014. The MueTec exit was highly lucrative for DEWB equating to a ~6.8x multiple and ~36% IRR.

EBIT and net income slightly better than expected In FY/21, OPEX amounted to €1.3m (FBe: €1.4m; FY/20: €770k). This line item included a performance bonus payment for management due to the successful sale of MueTec, which was split over the two years required to complete the transaction. Personnel expenses rose from €365k in 2019 to €546k in 2020 and €829k in 2021. DEWB thus recorded EBIT of €8.1m, close to our €8.0m projection (FY/20: €3.2m). Net income for the period amounted to €7.5m (FBe: €7.4m; FY/20: €2.4m), which was also in line with the company's guidance of "net income exceeding €7m". EPS came in at €0.45 (FBe: €0.44; FY/20: €0.15).

Source: First Berlin Equity Research, DEWB

Solid FY/21 balance sheet... DEWB's cash position rose slightly to €0.8m (FY/20: €0.5m). The company generated a cash inflow of €10.3m (FY/20: €7.2m) driven by the MueTec sale completed in May 2021. However, DEWB closed five Fintech acquisitions representing a cash outflow of €5.9m in FY/21 (Nextmarkets, Stableton, LAIC, Cashlink and Naga Group). In addition, DEWB fully repaid its remaining ST borrowings of €2.5m. According to management, this credit line is quite flexible, can be expanded again if required, and has very attractive interest rate terms. Receivables increased to €1.4m (FY/20: €0.5m), and represent the remaining amount of MueTec's sale price (€0.5m in September 2020 and €0.9m in May 2021), which was deposited in an escrow account for potential guarantee payments for a period of 18 months. The company anticipates full clearance and repayment of these receivables by the end of FY/22. Financial assets rose to €30.0m (FY/20: €25.6m), with new Fintech acquisitions exceeding the value reduction caused by the MueTec exit (measured at book values in accordance with German HGB accounting principles). Equity increased to €21.3m (FY/20: €13.7m), corresponding to an equity ratio of 60% (FY/20: 46%).

...with comfortable financing scope of €11m to finance further investments if required

DEWB reported an unchanged corporate debt position of €12.5m, which comprises its 2018-2023 corporate bond of up to €15m (€2.5m still unplaced) with maturity of 30 June 2023 and 4% coupon. Considering that DEWB repurchased €2.5m of its own Bonds from investors in late 2020 (they are booked on the balance sheet under other short-term assets), the company will be able to access funds of €5m with this instrument when needed. If added to DEWB's unused ST credit line amounting to €6.0m, financial firepower amounts to €11m. We also anticipate that the company will refinance the five-year bond upon maturity in 2023 to continue financing operations.

Positive guidance for 2022 DEWB plans to be active both on the exit and on the investment sides, which should lead to a positive financial result. Our current 2022E projections are for €2.1m other operating income from exits, and net income of €0.3m. These forecasts are in line with DEWB guidance.

PROGRESS REPORTED BY THE HOLDINGS

PORTFOLIO OVERVIEW

The portfolio holdings performed nicely in FY/21 – NAV closed the year at a record high of €46.9m or €2.80 p/s During FY/21, the majority of DEWB's holdings delivered positive news flow on the achievement of certain milestones, including: solid sales growth and outlook, client base expansion, acquisitions (LFAG's acquisition of BV Holding AG and Growney), and financing rounds (LFAG, LAIC and Aifinyo). DEWB's FinTech portfolio, comprising three listed companies, Lloyd Fonds (LFAG), Aifinyo and Naga Group, delivered an excellent performance in FY/21. The anchor holding LFAG is by far DEWB's largest portfolio's position. Its share price performed particularly well, increasing by >50%. Aifinyo's share price has risen by >40%, and Naga Group ended the reporting year with a plus of >30% from DEWB's purchase level. Accordingly, the NAV at year-end amounted to €46.9m or €2.80 p/s, which included hidden reserves of €256m or €1.53 p/s. Unfortunately, the Russian-Ukrainian war has had a substantial negative impact on stock markets and DEWB's listed portfolio has not been spared, and DEWB's NAV presently stands at €33.1m or €1.97 p/s. The NAV update reflects the latest share price developments of the three listed holdings. DEWB also disclosed the percentage size of the stake acquired in Naga Group. We give an updated overview of DEWB's portfolio in table 2.

Table 2: DEWB's investment portfolio of seven holdings

	Company	Field	Based	Stake	Since	Status	Market cap	Stake value	
1	Lloyd Fonds	Asset management	Hamburg	22.3%	03/2018	listed	€145.9m	€32.5m	} LISTED PORTFOLIO
2	Aifinyo	Digital lending	Dresden	4.7%	01/2020	listed	€76.2m	€3.6m	
3	Naga Group	Neobrokerage	Hamburg	0.8%	12/2021	listed	€243.9m	~€2-3.0m	
4	Nextmarkets	Neobrokerage	Cologne	1.4%	03/2021	private	-	-	
5	Stableton	Marketplace alternative investments	Zurich	12.0%	04/2021	private	-	-	
6	LAIC	WealthTech	Hamburg	3.4%	08/2021	private	-	-	
7	Cashlink	Tokenization of securities	Frankfurt	1.4%	12/2021	private	-	-	

Source: First Berlin Equity Research, DEWB, Bloomberg

Non-listed holdings appear to be doing well, although they provide little news flow due to their privately held nature Nextmarkets, Stableton, LAIC and Cashlink are developing well, but these companies do not disclose much information to the public. Nevertheless, DEWB's management gave a positive outlook about these companies.

On track to achieve "Strategy 2020-2024" In accordance with DEWB's "Strategy 2020-2024", management envisages expanding the Fintech portfolio from the current seven holdings to more than ten by 2024, funded chiefly from cash recycling from exit returns. DEWB management intends to acquire about two Fintechs p.a., thereby expanding the portfolio's value from €28m in 2019 to more than €100m by 2024. At year-end 2021, portfolio's market value was €56m, which suggests the company is on track to achieve its 2024 goal.

UPDATE ON THE LISTED HOLDINGS

LLOYD FONDS AG – 22.3% ANCHOR STAKE

Preliminary sales and EBITDA figures saw declines following record 2020 results,...

The company's turnover declined by 7.2% to €25.7m (FY/20: €27.7m). The main reason was lower performance fees of only €0.6m in H2/21 after €7.9m in H1/21. EBITDA declined by 29% to €5.0m in FY/21 (FY/20: €7.0m), equating to an EBITDA margin of 19.5% (FY/20: 25.3%).

Figure 1: LFAG's operating performance in FY/21

Source: LFAG

...but a positive contribution from the non-core real asset business led to an excellent EAT and operating cash flow performance Thanks to a dividend payment of €5.0m due to value gain in its old business with closed-end funds (LLOYD FONDS REAL ASSETS segment - LFRA) booked as financial result, Earnings after tax (EAT) increased to €4.0m (FY/20: €-0.7m). LFRA's positive performance also positively impacted operating cash flow, which rose from €-0.9m in FY/20 to €20.0m in FY/21 and was well above the company guidance of €14-16m. Even after stripping out the LFRA dividend, operating cash flow amounted to €15m and was within the guided range. The company will publish its final FY/21 report on 30 March 2022.

Assets under management (AuM) increased organically by >32% to €2.2bn This figure is slightly below management guidance of an AuM "just under €2.4bn corresponding to an increase of ~45%".

Outlook 2024 confirmed—AuM >€7bn by 2024 and EBITDA margin >45% Management has confirmed the positive guidance for AUM of >€7bn by 2024 with an EBITDA margin on net sales of >45%. Considering that LFAG's recently completed acquisition of the leading German asset management firm BV Holding AG will more than double AuM to ~€5.0bn, management's 2024 EBITDA guidance appears conservative.

Acquisition of 98% in BV Holding AG expanded LFAG's AuM to ~€5.0bn— required capital increase completed LFAG completed the acquisition of a 98% stake (target: >90%) in the leading German asset management firm BV Holding AG, thereby more than doubling AuM to ~€5.0bn (FY/21 €2.2bn). The acquisition price will amount to ~€18.5m and be financed through an equity and debt mix. On 17 February 2022, LFAG conducted a capital increase raising €7.4m by placing 615k shares at €12 p/s. Management will finance the remaining amount through a loan from an undisclosed German bank.

Acquisition of 17.75% in Growney also completed LFAG completed the acquisition in the fast-growing roboadvisory startup Growney GmbH by means of a cash contribution totalling €3m. LFAG also has option agreements regarding the possible gradual acquisition of up to 100% of Growney GmbH against the issuance of shares in LFAG and cash payments.

Our positive view on LFAG remains unchanged We believe LFAG's recent acquisitions are significant strategic steps for the company. They have the potential to improve LFAG's ability to generate above-average returns for investors. We expect substantial business growth over the next few years, which should positively impact the company's valuation.

AIFINYO AG – 4.7% STAKE

Strong top-line growth and return to profitability in FY/21 DEWB's Fintech Aifinyo (financing services for freelancers & SMEs including factoring, finetrading, leasing and debt collection) suffered from negative effects of the Corona pandemic during FY/20, but saw a clear business recovery in FY/21. Aifinyo increased revenues y-o-y by 41% to €45.4m (FY/20: €31.8m). The business recovery also led to better profitability. EBIT came in at €0.9m in FY/21, after a substantial EBIT loss of €-25m in FY/20. The EBT loss also improved from €-3.5m in FY/20 to a positive figure of €0.7m in FY/21 (see figure 2). The figures do not take into account exceptional expenses of €622k for the two capital increases conducted in 2021, which provided funds of €12m to support the acceleration of organic and inorganic growth. Even if these one-off expenses are considered, the company met its goal of break-even on a full-year basis.

Figure 2: Financial performance 2017-2021

Source: Aifinyo AG

New payment tools and services may provide additional sales momentum during FY/22 Aifinyo has expanded its billing software platform with a professional liquidity management tool that enables customers to analyse, plan, and monitor cash flow and liquidity in real-time, reducing the administrative burden of invoice management. In addition, Aifinyo AG's subsidiary Aifinyo Payments GmbH received a license for financial transfer transactions (ZAG) from the Federal Financial Supervisory Authority (BaFin). The ZAG license is the basis for gradually expanding the existing smart billing platform with various payment solutions. For example, the ZAG license enables businesses to make international money transfers at competitive prices. Aifinyo intends to apply for an e-money institute

license to round out its payment offering with a business account coupled with a credit card. This will allow Aifinyo to enter an additional highly attractive market, providing a potential revenue boost.

Acquisition of billing company Billomat strengthens Aifinyo's competitive position

On 22 March, Aifinyo acquired the billing software Fintech peer Billomat GmbH & Co. KG through a mix of cash and share exchange. The transaction should be completed in Q2/22, and will improve Aifinyo's market position.

NAGA GROUP AG – <1% STAKE

In FY/21 sales more than doubled to €55.3m and EBITDA almost doubled to €12.8m

FY/21 sales increased by 127% to €55.3m (FY/20: €24.4m). EBITDA has also improved from €6.6m in FY/20 to an EBITDA of €12.8m (+94% YoY) in FY/21. The sales figure was slightly better than management guidance of ~€50m, while EBITDA almost met guidance of ~€13m. The company also reported buoyant January sales of ~€8m (January 2020: €2.8m), which represents a YoY growth of ~186%. Considering this excellent start, the company's 2022 guidance to ~double FY/21 sales and EBITDA looks achievable.

NAGA launched a new cryptocurrency-focused social trading platform

On 7 March, Naga launched NAGAX (<https://nagax.com/>), its new cryptocurrency-focused social trading platform, which offers spot, futures and derivative exchange for cryptocurrencies, a crypto-wallet and an NFT-platform (for non-fungible tokens). The platform will be built around a "Web3 Social Investing Feed" that automatically converts every user contribution on the platform into an NFT that can be monetised. The platform represents an attractive offering for the growing community of NFT enthusiasts. Given that the company is well-financed, it is likely that the platform will be well promoted, and will become a substantial revenue source in the next few years.

VALUATION MODEL

Price target and Buy rating reiterated In FY/21, DEWB management delivered solid financial results and successfully expanded its fintech portfolio from two to seven companies. In particular, DEWB's anchor holding and largest position by far, LFAG, excelled by reporting good financial results and closing two attractive acquisitions. We highlight the acquired asset management firm BV Holding AG which roughly doubled LFAG's AuM to ~€5.0bn thereby positioning it among the top 5 asset managers in Germany. As a result, DEWB's stock price saw a positive development reaching €2.14 on 31 December 2021 and peaking at €2.26 in January 2022. Unfortunately, the Russian-Ukrainian war hit European stock markets hard, including the share prices of DEWB's listed portfolio and its own stock, which declined to a range of €1.40 to €1.80. Based on intact fundamentals and unchanged estimates, we believe the company is significantly undervalued at current levels. Our residual income model based on portfolio NAV still yields a price target of €2.90. We reiterate our Buy recommendation.

Table 3: Residual Income Model

In €'000	2022	2023	2024	2025	2026	2027	2028	2029	2030	2031

Source: First Berlin Equity Research

Additionally, our residual income model is based on the following assumptions:

- Following FY/21 reporting, we have rolled our model forward from 2021E to 2022E. 2022E NAV reflects our forecast for YE22 portfolio book value. In accordance with our assumption that the company is able to generate a positive economic profit over a ten-year forecasting period, our model now extends to YE 2031 (previously: YE 2030).
- We conservatively project DEWB will achieve a revaluation rate of financial assets (RRFA) of 20-22% in 2022-2024, which is below the RRFA of >25% laid out in the company's 2020-2024 strategy. Going forward, we assume RRFA will decline to 13.5% after 2031.

Copyright© 2022 First Berlin Equity Research GmbH No part of this financial analysis may be copied, photocopied, duplicated or distributed in any form or media whatsoever without prior written permission from First Berlin Equity Research GmbH. First Berlin Equity Research GmbH shall be identified as the source in the case of quotations. Further information is available on request.

INFORMATION PURSUANT TO SECTION 85 (1) SENTENCE 1 OF THE GERMAN SECURITIES TRADING ACT [WPHG], TO ART. 20 (1) OF REGULATION (EU) NO 596/2014 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL OF APRIL 16, 2014, ON MARKET ABUSE (MARKET ABUSE REGULATION) AND TO ART. 37 OF COMMISSION DELEGATED REGULATION (EU) NO 2017/565 (MIFID) II.

First Berlin Equity Research GmbH (hereinafter referred to as: "First Berlin") prepares financial analyses while taking the relevant regulatory provisions, in particular section 85 (1) sentence 1 of the German Securities Trading Act [WpHG], art. 20 (1) of Regulation (EU) No 596/2014 of the European Parliament and of the Council of April 16, 2014, on market abuse (market abuse regulation) and art. 37 of Commission Delegated Regulation (EU) no. 2017/565 (MiFID II) into consideration. In the following First Berlin provides investors with information about the statutory provisions that are to be observed in the preparation of financial analyses.

CONFLICTS OF INTEREST

In accordance with art. 37 (1) of Commission Delegated Regulation (EU) no. 2017/565 (MiFID) II and art. 20 (1) of Regulation (EU) No 596/2014 of the European Parliament and of the Council of April 16, 2014, on market abuse (market abuse regulation) investment firms which produce, or arrange for the production of, investment research that is intended or likely to be subsequently disseminated to clients of the firm or to the public, under their own responsibility or that of a member of their group, shall ensure the implementation of all the measures set forth in accordance with Article 34 (2) lit. (b) of Regulation (EU) 2017/565 in relation to the financial analysts involved in the production of the investment research and other relevant persons whose responsibilities or business interests may conflict with the interests of the persons to whom the investment research is disseminated. In accordance with art. 34 (3) of Regulation (EU) 2017/565 the procedures and measures referred to in paragraph 2 lit. (b) of such article shall be designed to ensure that relevant persons engaged in different business activities involving a conflict of interests carry on those activities at a level of independence appropriate to the size and activities of the investment firm and of the group to which it belongs, and to the risk of damage to the interests of clients.

In addition, First Berlin shall pursuant to Article 5 of the Commission Delegated Regulation (EU) 2016/958 disclose in their recommendations all relationships and circumstances that may reasonably be expected to impair the objectivity of the financial analyses, including interests or conflicts of interest, on their part or on the part of any natural or legal person working for them under a contract, including a contract of employment, or otherwise, who was involved in producing financial analyses, concerning any financial instrument or the issuer to which the recommendation directly or indirectly relates.

With regard to the financial analyses of Deutsche Effecten- und Wechsel- Beteiligungsgesellschaft AG the following relationships and circumstances exist which may reasonably be expected to impair the objectivity of the financial analyses: The author, First Berlin, or a company associated with First Berlin reached an agreement with the Deutsche Effecten- und Wechsel- Beteiligungsgesellschaft AG for preparation of a financial analysis for which remuneration is owed.

Furthermore, First Berlin offers a range of services that go beyond the preparation of financial analyses. Although First Berlin strives to avoid conflicts of interest wherever possible, First Berlin may maintain the following relations with the analysed company, which in particular may constitute a potential conflict of interest:

- The author, First Berlin, or a company associated with First Berlin owns a net long or short position exceeding the threshold of 0,5 % of the total issued share capital of the analysed company;
- The author, First Berlin, or a company associated with First Berlin holds an interest of more than five percent in the share capital of the analysed company;

- The author, First Berlin, or a company associated with First Berlin provided investment banking or consulting services for the analysed company within the past twelve months for which remuneration was or was to be paid;
- The author, First Berlin, or a company associated with First Berlin reached an agreement with the analysed company for preparation of a financial analysis for which remuneration is owed;
- The author, First Berlin, or a company associated with First Berlin has other significant financial interests in the analysed company;

With regard to the financial analyses of Deutsche Effecten- und Wechsel- Beteiligungsgesellschaft AG the following of the aforementioned potential conflicts of interests or the potential conflicts of interest mentioned in Article 6 paragraph 1 of the Commission Delegated Regulation (EU) 2016/958 exist: The author, First Berlin, or a company associated with First Berlin reached an agreement with the Deutsche Effecten- und Wechsel- Beteiligungsgesellschaft AG for preparation of a financial analysis for which remuneration is owed.

In order to avoid and, if necessary, manage possible conflicts of interest both the author of the financial analysis and First Berlin shall be obliged to neither hold nor in any way trade the securities of the company analysed. The remuneration of the author of the financial analysis stands in no direct or indirect connection with the recommendations or opinions represented in the financial analysis. Furthermore, the remuneration of the author of the financial analysis is neither coupled directly to financial transactions nor to stock exchange trading volume or asset management fees.

INFORMATION PURSUANT TO SECTION 64 OF THE GERMAN SECURITIES TRADING ACT [WPHG], DIRECTIVE 2014/65/EU OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL OF 15 MAY 2014 ON MARKETS IN FINANCIAL INSTRUMENTS AND AMENDING DIRECTIVE 2002/92/EC AND DIRECTIVE 2011/61/EU, ACCOMPANIED BY THE MARKETS IN FINANCIAL INSTRUMENTS REGULATION (MIFIR, REG. EU NO. 600/2014).

First Berlin notes that it has concluded a contract with the issuer to prepare financial analyses and is paid for that by the issuer. First Berlin makes the financial analysis simultaneously available for all interested security financial services companies. First Berlin thus believes that it fulfils the requirements of section 64 WpHG for minor non-monetary benefits.

PRICE TARGET DATES

Unless otherwise indicated, current prices refer to the closing prices of the previous trading day.

AGREEMENT WITH THE ANALYSED COMPANY AND MAINTENANCE OF OBJECTIVITY

The present financial analysis is based on the author's own knowledge and research. The author prepared this study without any direct or indirect influence exerted on the part of the analysed company. Parts of the financial analysis were possibly provided to the analysed company prior to publication in order to avoid inaccuracies in the representation of facts. However, no substantial changes were made at the request of the analysed company following any such provision.

ASSET VALUATION SYSTEM

First Berlin's system for asset valuation is divided into an asset recommendation and a risk assessment.

ASSET RECOMMENDATION

The recommendations determined in accordance with the share price trend anticipated by First Berlin in the respectively indicated investment period are as follows:

Category		1	2
Current market capitalisation (in €)		0 - 2 billion	> 2 billion
Strong Buy ¹	An expected favourable price trend of:	> 50%	> 30%
Buy	An expected favourable price trend of:	> 25%	> 15%
Add	An expected favourable price trend of:	0% to 25%	0% to 15%
Reduce	An expected negative price trend of:	0% to -15%	0% to -10%
Sell	An expected negative price trend of:	< -15%	< -10%

¹ The expected price trend is in combination with sizable confidence in the quality and forecast security of management.

Our recommendation system places each company into one of two market capitalisation categories. Category 1 companies have a market capitalisation of €0 – €2 billion, and Category 2 companies have a market capitalisation of > €2 billion. The expected return thresholds underlying our recommendation system are lower for Category 2 companies than for Category 1 companies. This reflects the generally lower level of risk associated with higher market capitalisation companies.

RISK ASSESSMENT

The First Berlin categories for risk assessment are low, average, high and speculative. They are determined by ten factors: Corporate governance, quality of earnings, management strength, balance sheet and financial risk, competitive position, standard of financial disclosure, regulatory and political uncertainty, strength of brandname, market capitalisation and free float. These risk factors are incorporated into the First Berlin valuation models and are thus included in the target prices. First Berlin customers may request the models.

RECOMMENDATION & PRICE TARGET HISTORY

Report No.:	Date of publication	Previous day closing price	Recommendation	Price target
Initial Report	24 June 2021	€1.61	Buy	€2.50
2	30 September 2021	€1.79	Buy	€2.50
3	16 December 2021	€1.88	Buy	€2.90
4	Today	€1.72	Buy	€2.90

INVESTMENT HORIZON

Unless otherwise stated in the financial analysis, the ratings refer to an investment period of twelve months.

UPDATES

At the time of publication of this financial analysis it is not certain whether, when and on what occasion an update will be provided. In general First Berlin strives to review the financial analysis for its topicality and, if required, to update it in a very timely manner in connection with the reporting obligations of the analysed company or on the occasion of ad hoc notifications.

SUBJECT TO CHANGE

The opinions contained in the financial analysis reflect the assessment of the author on the day of publication of the financial analysis. The author of the financial analysis reserves the right to change such opinion without prior notification.

EXCLUSION OF LIABILITY (DISCLAIMER)

RELIABILITY OF INFORMATION AND SOURCES OF INFORMATION

The information contained in this study is based on sources considered by the author to be reliable. Comprehensive verification of the accuracy and completeness of information and the reliability of sources of information has neither been carried out by the author nor by First Berlin. As a result no warranty of any kind whatsoever shall be assumed for the accuracy and completeness of information and the reliability of sources of information, and neither the author nor First Berlin, nor the person responsible for passing on or distributing the financial analysis shall be liable for any direct or indirect damage incurred through reliance on the accuracy and completeness of information and the reliability of sources of information.

RELIABILITY OF ESTIMATES AND FORECASTS

The author of the financial analysis made estimates and forecasts to the best of the author's knowledge. These estimates and forecasts reflect the author's personal opinion and judgement. The premises for estimates and forecasts as well as the author's perspective on such premises are subject to constant change. Expectations with regard to the future performance of a financial instrument are the result of a measurement at a single point in time and may change at any time. The result of a financial analysis always describes only one possible future development – the one that is most probable from the perspective of the author – of a number of possible future developments.

Any and all market values or target prices indicated for the company analysed in this financial analysis may not be achieved due to various risk factors, including but not limited to market volatility, sector volatility, the actions of the analysed company, economic climate, failure to achieve earnings and/or sales forecasts, unavailability of complete and precise information and/or a subsequently occurring event which affects the underlying assumptions of the author and/or other sources on which the author relies in this document. Past performance is not an indicator of future results; past values cannot be carried over into the future.

Consequently, no warranty of any kind whatsoever shall be assumed for the accuracy of estimates and forecasts, and neither the author nor First Berlin, nor the person responsible for passing on or distributing the financial analysis shall be liable for any direct or indirect damage incurred through reliance on the correctness of estimates and forecasts.

INFORMATION PURPOSES, NO RECOMMENDATION, SOLICITATION, NO OFFER FOR THE PURCHASE OF SECURITIES

The present financial analysis serves information purposes. It is intended to support institutional investors in making their own investment decisions; however in no way provide the investor with investment advice. Neither the author, nor First Berlin, nor the person responsible for passing on or distributing the financial analysis shall be considered to be acting as an investment advisor or portfolio manager vis-à-vis an investor. Each investor must form his own independent opinion with regard to the suitability of an investment in view of his own investment objectives, experience, tax situation, financial position and other circumstances.

The financial analysis does not represent a recommendation or solicitation and is not an offer for the purchase of the security specified in this financial analysis. Consequently, neither the author nor First Berlin, nor the person responsible for passing on or distributing the financial analysis shall as a result be liable for losses incurred through direct or indirect employment or use of any kind whatsoever of information or statements arising out of this financial analysis.

A decision concerning an investment in securities should take place on the basis of independent investment analyses and procedures as well as other studies including, but not limited to, information memoranda, sales or issuing prospectuses and not on the basis of this document.

NO ESTABLISHMENT OF CONTRACTUAL OBLIGATIONS

By taking note of this financial analysis the recipient neither becomes a customer of First Berlin, nor does First Berlin incur any contractual, quasi-contractual or pre-contractual obligations and/or responsibilities toward the recipient. In particular no information contract shall be established between First Berlin and the recipient of this information.

NO OBLIGATION TO UPDATE

First Berlin, the author and/or the person responsible for passing on or distributing the financial analysis shall not be obliged to update the financial analysis. Investors must keep themselves informed about the current course of business and any changes in the current course of business of the analysed company.

DUPLICATION

Dispatch or duplication of this document is not permitted without the prior written consent of First Berlin.

SEVERABILITY

Should any provision of this disclaimer prove to be illegal, invalid or unenforceable under the respectively applicable law, then such provision shall be treated as if it were not an integral component of this disclaimer; in no way shall it affect the legality, validity or enforceability of the remaining provisions.

APPLICABLE LAW, PLACE OF JURISDICTION

The preparation of this financial analysis shall be subject to the law obtaining in the Federal Republic of Germany. The place of jurisdiction for any disputes shall be Berlin (Germany).

NOTICE OF DISCLAIMER

By taking note of this financial analysis the recipient confirms the binding nature of the above explanations.

By using this document or relying on it in any manner whatsoever the recipient accepts the above restrictions as binding for the recipient.

QUALIFIED INSTITUTIONAL INVESTORS

First Berlin financial analyses are intended exclusively for qualified institutional investors.

This report is not intended for distribution in the USA and/or Canada.
