Debottlenecking production capacities

Topic: Cantourage and Portocanna entered into a strategic partnership which offers Cantourage a capital light way to increase its production capacities significantly amid the surging demand for medical cannabis in Germany.

Legalization light is transforming the market. As of the beginning of April, cannabis is no longer being considered a narcotic in Germany, notably simplifying dispensing by pharmacies and prescriptions by doctors. Receiving a prescription for medical cannabis has become as easy as for ibuprofen 600. With its own telemedicine platform, telecan°, and the global supplier network consisting of more than 60 grower partners, Cantourage is well positioned to benefit from it. This change can also be seen in sales growth figures.

While Q1 (on preliminary basis) started out with "only" 26% yoy sales growth to € 6.2m, **growth in April** (the first month following the changes from the Cannabis Act) **has already shown a significant acceleration to 160%** compared to last year. While we do expect growth to somewhat slow down, it is seen to remain in the high double-digits throughout the remainder of the year; eNuW FY24e sales +81% yoy. As a result, EBITDA should turn positive following last year's € 500k loss (eNuW € 1.8m).

In order to facilitate the surged demand, Cantourage entered into a strategic agreement with Portocanna, a Portuguese medical cannabis processor. Thanks to its state-of-the-art production facility, **Cantourage is increasing its annual processable capacities from currently 7-8t to roughly 14t** without having to significantly invest. Assuming an average selling price of € 7.5 per gram, this should enables Cantourage to process products worth more than € 100m p.a., in our view. Importantly, this agreement also provides the company with additional flexibility in regards to further scaling production capacities if needed during the next few years.

Besides the additional production capacities, Cantourage is also able to exclusively distribute Portocanna's own production line "Hexacan", under which Portocanna brings together the products of numerous growers from Portugal and Spain.

Cantourage remains a BUY with an unchanged € 10 PT based on DCF.

1. General Information/Liabilities

This research report has been produced for the information purposes of institutional investors only, and is not in any way a personal recommendation, offer or solicitation to buy or sell the financial instruments mentioned herein. The document is confidential and is made available by NuWays AG exclusively to selected recipients in the European Union (EU) or, in individual cases, also in other countries. It is not allowed to pass the research report on to persons other than the intended recipient without the permission of NuWays AG. Reproduction of this document, in whole or in part, is not permitted without prior permission NuWays AG. All rights reserved.

Under no circumstances shall NuWays AG, any of its employees involved in the preparation, have any liability for possible errors or incompleteness of the information included in this research report – neither in relation to indirect or direct nor consequential damages. Liability for damages arising either directly or as a consequence of the use of information, opinions and estimates is also excluded. Past performance of a financial instrument is not necessarily indicative of future performance.

2. Responsibilities

This research report was prepared by the research analyst named on the front page (the "Producer"). The Producer is solely responsible for the views and estimates expressed in this report. The report has been prepared independently. The content of the research report was not influenced by the issuer of the analysed financial instrument at any time. It may be possible that parts of the research report were handed out to the issuer for information purposes prior to the publication without any major amendments being made thereafter.

3. Organisational Requirements

NuWays AG took internal organisational and regulative precautions to avoid or accordingly disclose possible conflicts of interest in connection with the preparation and distribution of the research report. All members of NuWays AG involved in the preparation of the research report are subject to internal compliance regulations. No part of the Producer's compensation is directly or indirectly related to the preparation of this financial analysis. In case a research analyst or a closely related person is confronted with a conflict of interest, the research analyst is restricted from covering this company.

4. Information Concerning the Methods of Valuation/Update

The determination of the fair value per share, i.e. the price target, and the resultant rating is done on the basis of the adjusted free cash flow (adj. FCF) method and on the basis of the discounted cash flow – DCF model. Furthermore, a peer group comparison is made.

The adj. FCF method is based on the assumption that investors purchase assets only at a price (enterprise value) at which the operating cash flow return after taxes on this investment exceeds their opportunity costs in the form of a hurdle rate of 7.5%. The operating cash flow is calculated as EBITDA less maintenance capex and taxes.

Within the framework of the DCF approach, the future free cash flows are calculated initially on the basis of a fictitious capital structure of 100% equity, i.e. interest and repayments on debt capital are not factored in initially. The adjust-

ment towards the actual capital structure is done by discounting the calculated free cash flows with the weighted average cost of capital (WACC), which takes into account both the cost of equity capital and the cost of debt. After discounting, the calculated total enterprise value is reduced by the interest-bearing debt capital in order to arrive at the equity value.

NuWays AG uses the following three-step rating system for the analysed companies:

Buy: Sustainable upside potential of more than 20% within 12 months

Sell: Sustainable downside potential of more than 20% within 12 months.

Hold: Upside/downside potential is limited. No immediate catalyst visible.

The decision on the choice of the financial instruments analysed in this document was solely made by NuWays AG. The opinions and estimates in this research report are subject to change without notice. It is within the discretion of NuWays AG whether and when it publishes an update to this research report, but in general updates are created on a regular basis, after 6 months at the latest. A sensitivity analysis is included and published in company's initial studies.

5. Major Sources of Information

Part of the information required for this research report was made available by the issuer of the financial instrument. Furthermore, this report is based on publicly available sources (such as, for example, Bloomberg, Reuters, VWD-Trader and the relevant daily press) believed to be reliable. NuWays AG has checked the information for plausibility but not for accuracy or completeness.

6. Competent Supervisory Authority

NuWays AG is an affiliated company of Hauck Aufhäuser Lampe Privatbank AG which is under supervision of the BaFin – German Federal Financial Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht), Graurheindorfer Straße 108, 53117 Bonn and Marie-Curie-Straße 24 – 28, 60439 Frankfurt a.M.
