## Annual report postponed due to prolonged bond negotiations

Yesterday, DEMIRE announced the **postponement of the publication of the 2023 annual report** due to the ongoing negotiations with the bondholders regarding the restructuring of the company's corporate bond. The company recently confirmed the restructuring negotiations, which likely include an extension as well as an increased coupon (see our last update). The bond's current maturity is on October 15th 2024 (€ 499m outstanding nominal amount). The publication of the annual report was originally scheduled for 25 April. Now, management aims to provide the capital market with the audited figures in the course of May.

In this context, the company also published preliminary FY '23 figures. FY rental income looks set to decline by 3.2% yoy to € 78.5m (eNuW: € 79.4m), mainly due to property sales throughout the year, which overcompensated for CPI linked organic rent increases. Accordingly, FFO is seen to come in at € 36.7m, down 12.0% yoy. The sharper decline compared to rental income can be mainly explained by increased FFO-relevant income taxes.

With this, the company reached its guidance regarding rental income (€ 78-80m) as well as FFO (€ 35-37m). Mind you, the company increased the guidance twice during the year following lower than expected property disposals.

The preliminary FY '23 **EBIT** came in at € -187.9m, which compares to € -72.9m in the previous year. The steep decline is mainly explained by the devaluation of the property portfolio as well as the recognition of provisions for some properties. In total, the **portfolio was impaired by 13.2% on a like-for-like basis** 

On a different note, the supervisory board of **DEMIRE recently appointed a new CEO**, as Mr. Frank Nickel succeeds Mr. Alexander Goepfert. Nickel, who joined DEMIRE in September 2023 as a Senior Advisor, provides extensive industry experience, including positions as CEO of CA Immo as well as CEO Germany of Cushman & Wakefield.

The stock remains a **HOLD with an unchanged PT of € 1.20** given the prevailing uncertainty.

#### 1. General Information/Liabilities

This research report has been produced for the information purposes of institutional investors only, and is not in any way a personal recommendation, offer or solicitation to buy or sell the financial instruments mentioned herein. The document is confidential and is made available by NuWays AG exclusively to selected recipients in the European Union (EU) or, in individual cases, also in other countries. It is not allowed to pass the research report on to persons other than the intended recipient without the permission of NuWays AG. Reproduction of this document, in whole or in part, is not permitted without prior permission NuWays AG. All rights reserved.

Under no circumstances shall NuWays AG, any of its employees involved in the preparation, have any liability for possible errors or incompleteness of the information included in this research report – neither in relation to indirect or direct nor consequential damages. Liability for damages arising either directly or as a consequence of the use of information, opinions and estimates is also excluded. Past performance of a financial instrument is not necessarily indicative of future performance.

#### 2. Responsibilities

This research report was prepared by the research analyst named on the front page (the "Producer"). The Producer is solely responsible for the views and estimates expressed in this report. The report has been prepared independently. The content of the research report was not influenced by the issuer of the analysed financial instrument at any time. It may be possible that parts of the research report were handed out to the issuer for information purposes prior to the publication without any major amendments being made thereafter.

#### 3. Organisational Requirements

NuWays AG took internal organisational and regulative precautions to avoid or accordingly disclose possible conflicts of interest in connection with the preparation and distribution of the research report. All members of NuWays AG involved in the preparation of the research report are subject to internal compliance regulations. No part of the Producer's compensation is directly or indirectly related to the preparation of this financial analysis. In case a research analyst or a closely related person is confronted with a conflict of interest, the research analyst is restricted from covering this company.

#### 4. Information Concerning the Methods of Valuation/Update

The determination of the fair value per share, i.e. the price target, and the resultant rating is done on the basis of the adjusted free cash flow (adj. FCF) method and on the basis of the discounted cash flow – DCF model. Furthermore, a peer group comparison is made.

The adj. FCF method is based on the assumption that investors purchase assets only at a price (enterprise value) at which the operating cash flow return after taxes on this investment exceeds their opportunity costs in the form of a hurdle rate of 7.5%. The operating cash flow is calculated as EBITDA less maintenance capex and taxes.

Within the framework of the DCF approach, the future free cash flows are calculated initially on the basis of a fictitious capital structure of 100% equity, i.e. interest and repayments on debt capital are not factored in initially. The adjust-

ment towards the actual capital structure is done by discounting the calculated free cash flows with the weighted average cost of capital (WACC), which takes into account both the cost of equity capital and the cost of debt. After discounting, the calculated total enterprise value is reduced by the interest-bearing debt capital in order to arrive at the equity value.

NuWays AG uses the following three-step rating system for the analysed companies:

Buy: Sustainable upside potential of more than 20% within 12 months

Sell: Sustainable downside potential of more than 20% within 12 months.

Hold: Upside/downside potential is limited. No immediate catalyst visible.

The decision on the choice of the financial instruments analysed in this document was solely made by NuWays AG. The opinions and estimates in this research report are subject to change without notice. It is within the discretion of NuWays AG whether and when it publishes an update to this research report, but in general updates are created on a regular basis, after 6 months at the latest. A sensitivity analysis is included and published in company's initial studies.

#### 5. Major Sources of Information

Part of the information required for this research report was made available by the issuer of the financial instrument. Furthermore, this report is based on publicly available sources (such as, for example, Bloomberg, Reuters, VWD-Trader and the relevant daily press) believed to be reliable. NuWays AG has checked the information for plausibility but not for accuracy or completeness.
