## Strategic acquisition to improve profitability; chg

Yesterday, Netfonds announced to have acquired a majority stake in "Meine Finanzkanzlei GmbH" ("MFK") through its fully owned subsidiary NVS Netfonds Versicherungsservice AG. In detail:

We assume that Netfonds has acquired a **stake of 65-85%** (eNuW) at a **low to mid, single digit EV/EBITDA multiple** (eNuW). As the network of advisors from MFK has already been cooperating with NVS for many years, we do not expect a significant increase of gross sales. Stand alone, **MFK should generate gross sales of c. € 1.5-2.0m** (eNuW). Due to synergy effects, we expect a **positive EBITDA effect of some € 0.3-0.5m** (eNuW).

Importantly, MFK is actively supporting NVS in customer advice for banks that are affiliated with NVS. These services are increasingly important for banks, hence providing a **significant growth potential for Netfonds going forward**.

Overall, **we consider the acquisition as highly value accretive**. While the price should have been absolutely reasonable, MFK is seen to strengthen the insurance division of Netfonds and contributing to its profitability.

More positive newsflow comes from IGBCE Bonusagentur, which extended its cooperation agreement with NVS in connection with the acquisition of MFK. With that, NVS keeps its access to more than **3m potential CareFlex customers**. As a strategic partner of IGBCE, MFK should support NVS in the distribution of CareFlex by advising selected private and corporate customers.

Apart from the value accretive acquisition, Netfonds **proprietary, 360° finfire platform**, which enables onboarded advisors to offer a wide range of investment, insurance, financing and banking solutions to its customers via one **holistic platform**, remains the company's key mid- to long-term growth and scalability driver and should start to lift off in FY24.

That, paired with 1) Netfonds **market leading position** in an **oligopolistic market** with high entry barriers and **long-term structural growth drivers** (growing AuM's and number of advisors, ongoing digitization of the financial sector, stricter regulation), 2) the likely guidance beat in FY23 and 3) the promising mid-term guidance makes the stock a clear **BUY** with a new **PT of € 71.00**, based on DCF.

## 1. General Information/Liabilities

This research report has been produced for the information purposes of institutional investors only, and is not in any way a personal recommendation, offer or solicitation to buy or sell the financial instruments mentioned herein. The document is confidential and is made available by NuWays AG exclusively to selected recipients in the European Union (EU) or, in individual cases, also in other countries. It is not allowed to pass the research report on to persons other than the intended recipient without the permission of NuWays AG. Reproduction of this document, in whole or in part, is not permitted without prior permission NuWays AG. All rights reserved.

Under no circumstances shall NuWays AG, any of its employees involved in the preparation, have any liability for possible errors or incompleteness of the information included in this research report – neither in relation to indirect or direct nor consequential damages. Liability for damages arising either directly or as a consequence of the use of information, opinions and estimates is also excluded. Past performance of a financial instrument is not necessarily indicative of future performance.

## 2. Responsibilities

This research report was prepared by the research analyst named on the front page (the "Producer"). The Producer is solely responsible for the views and estimates expressed in this report. The report has been prepared independently. The content of the research report was not influenced by the issuer of the analysed financial instrument at any time. It may be possible that parts of the research report were handed out to the issuer for information purposes prior to the publication without any major amendments being made thereafter.

## 3. Organisational Requirements

NuWays AG took internal organisational and regulative precautions to avoid or accordingly disclose possible conflicts of interest in connection with the preparation and distribution of the research report. All members of NuWays AG involved in the preparation of the research report are subject to internal compliance regulations. No part of the Producer's compensation is directly or indirectly related to the preparation of this financial analysis. In case a research analyst or a closely related person is confronted with a conflict of interest, the research analyst is restricted from covering this company.

## 4. Information Concerning the Methods of Valuation/Update

The determination of the fair value per share, i.e. the price target, and the relevant rating is done on the basis of the adjusted free cash flow (adj. FCF) method and on the basis of the discounted cash flow – DCF model. Furthermore, a peer group comparison is made.

The adj. FCF method is based on the assumption that investors purchase assets only at a price (enterprise value) at which the operating cash flow return after taxes on this investment exceeds their opportunity costs in the form of a hurdle rate of 7.5%. The operating cash flow is calculated as EBITDA less maintenance capex and taxes.

Within the framework of the DCF approach, the future free cash flows are calculated initially on the basis of a fictitious capital structure of 100% equity, i.e. interest and repayments on debt capital are not factored in initially. The adjust-

ment towards the actual capital structure is done by discounting the calculated free cash flows with the weighted average cost of capital (WACC), which takes into account both the cost of equity capital and the cost of debt. After discounting, the calculated total enterprise value is reduced by the interest-bearing debt capital in order to arrive at the equity value.

NuWays AG uses the following three-step rating system for the analysed companies:

**Buy:** Sustainable upside potential of more than 20% within 12 months

**Sell:** Sustainable downside potential of more than 20% within 12 months.

**Hold:** Upside/downside potential is limited. No immediate catalyst visible.

The decision on the choice of the financial instruments analysed in this document was solely made by NuWays AG. The opinions and estimates in this research report are subject to change without notice. It is within the discretion of NuWays AG whether and when it publishes an update to this research report, but in general updates are created on a regular basis, after 6 months at the latest. A sensitivity analysis is included and published in company's initial studies.
