#### Solid Q2'24 results // FY'24 guidance confirmed; chg.

Westwing released solid Q2 results and was able to continue the trend of yoy GMV growth witnessed in the recent quarters (+5% yoy to  $\in$  114m in Q2). **Q2 sales were slightly higher than expected and increased by 4.1% yoy to \in 106m (eNuW: \in 104m), driven by healthy growth in active customers (+2% yoy to 1.28m) and a surging basket size (+11% yoy to \in 198). DACH grew 4.5%, while International remained flat yoy, implying continued market share gains amid a flat German online Home & Living market yoy.** 

At the same time, adj. EBITDA was below estimates at € 3.9m in Q2 (eNuW: € 5.7m), representing a margin of 3.7% (-0.7ppts yoy), as a result of elevated investments in brand awareness, which - although flagged in our last update - came in higher than expected. Having said that, Westwing's higher marketing ratio should be regarded as a net positive since it allows the company to increase share of mind with the consumer which eventually can be translated into a higher share of customer wallet once the macroeconomic picture improves.

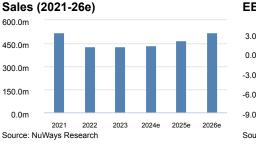

Nonetheless, Westwing demonstrated a contribution margin expansion of +1.8ppts yoy to 30.6%, thanks to a favorable product mix (i.e. significantly higher private label share, +7ppts yoy to 53% of GMV in Q2), and reduced fulfilment expenses (-1.4ppts yoy) as a result of cost savings through consolidation in logistics. Working capital increased by € 7.7m but was once again negative at € -11m (Q1: € -19m) due to payment-related timing effects in Q1 as well as the seasonal build-up of inventory, leading to Q2 FCF of € -7.3m (Q2'23 FCF: € 0.2m).

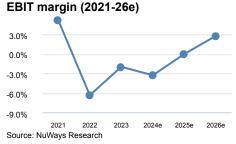

The company confirmed its FY24 guidance with sales growth seen at -3% to 4% yoy to € 415-445m (eNuW new: € 435; eNuW old: € 442m). Management continues to expect H2'24 sales to be weighed down by complexity reductions and strategic adjustments of the product offering in Spain and Italy (now completed) as well as Czech Republic, Poland, and Slovakia (to be implemented in H2), and the ongoing challenges in the general home & living market.

#### Comment on changes

 Changes reflect slightly lower estimated revenues for H2 due to strategic adjustments of the product portfolio in Central & Eastern Europe as well as a higher marketing ratio in 2024-25e

Preview / Review - 09.08.2024

The adj. EBITDA outlook was reiterated at € 14m to € 24m, implying a 3-6% margin (eNuW new: € 18.5m; eNuW old: € 23.7m). Considering € 10.2m adj. EBITDA in H1, the bottom-line guidance looks achievable, in our view, while FCF for the full year should likely be close to break-even (eNuW: € 0.3m) due to one-off restructuring costs (i.e. complexity reduction, SaaS transition) and normalizing inventory patterns.

All in all, the company impresses with (1) a clear vision and action plan for reviving and continuing its growth story, (2) management's long-term focus over short-term considerations, and (3) its cost-conscious and sensible capital allocation to the benefit of the brand. Considering the currently very undemanding valuation, we continue to like the stock and reiterate our BUY rating with a changed PT of € 17.50 (old: € 18.00), based on DCF.

#### 1. General Information/Liabilities

This research report has been produced for the information purposes of institutional investors only, and is not in any way a personal recommendation, offer or solicitation to buy or sell the financial instruments mentioned herein. The document is confidential and is made available by NuWays AG exclusively to selected recipients in the European Union (EU) or, in individual cases, also in other countries. It is not allowed to pass the research report on to persons other than the intended recipient without the permission of NuWays AG. Reproduction of this document, in whole or in part, is not permitted without prior permission NuWays AG. All rights reserved.

Under no circumstances shall NuWays AG, any of its employees involved in the preparation, have any liability for possible errors or incompleteness of the information included in this research report – neither in relation to indirect or direct nor consequential damages. Liability for damages arising either directly or as a consequence of the use of information, opinions and estimates is also excluded. Past performance of a financial instrument is not necessarily indicative of future performance.

#### 2. Responsibilities

This research report was prepared by the research analyst named on the front page (the "Producer"). The Producer is solely responsible for the views and estimates expressed in this report. The report has been prepared independently. The content of the research report was not influenced by the issuer of the analysed financial instrument at any time. It may be possible that parts of the research report were handed out to the issuer for information purposes prior to the publication without any major amendments being made thereafter.

#### 3. Organisational Requirements

NuWays AG took internal organisational and regulative precautions to avoid or accordingly disclose possible conflicts of interest in connection with the preparation and distribution of the research report. All members of NuWays AG involved in the preparation of the research report are subject to internal compliance regulations. No part of the Producer's compensation is directly or indirectly related to the preparation of this financial analysis. In case a research analyst or a closely related person is confronted with a conflict of interest, the research analyst is restricted from covering this company.

#### 4. Information Concerning the Methods of Valuation/Update

The determination of the fair value per share, i.e. the price target, and the resultant rating is done on the basis of the adjusted free cash flow (adj. FCF) method and on the basis of the discounted cash flow – DCF model. Furthermore, a peer group comparison is made.

The adj. FCF method is based on the assumption that investors purchase assets only at a price (enterprise value) at which the operating cash flow return after taxes on this investment exceeds their opportunity costs in the form of a hurdle rate of 7.5%. The operating cash flow is calculated as EBITDA less maintenance capex and taxes.

Within the framework of the DCF approach, the future free cash flows are calculated initially on the basis of a fictitious capital structure of 100% equity, i.e. interest and repayments on debt capital are not factored in initially. The adjust-

ment towards the actual capital structure is done by discounting the calculated free cash flows with the weighted average cost of capital (WACC), which takes into account both the cost of equity capital and the cost of debt. After discounting, the calculated total enterprise value is reduced by the interest-bearing debt capital in order to arrive at the equity value.

NuWays AG uses the following three-step rating system for the analysed companies:

Buy: Sustainable upside potential of more than 20% within 12 months

Sell: Sustainable downside potential of more than 20% within 12 months.

Hold: Upside/downside potential is limited. No immediate catalyst visible.

The decision on the choice of the financial instruments analysed in this document was solely made by NuWays AG. The opinions and estimates in this research report are subject to change without notice. It is within the discretion of NuWays AG whether and when it publishes an update to this research report, but in general updates are created on a regular basis, after 6 months at the latest. A sensitivity analysis is included and published in company's initial studies.

#### 5. Major Sources of Information

Part of the information required for this research report was made available by the issuer of the financial instrument. Furthermore, this report is based on publicly available sources (such as, for example, Bloomberg, Reuters, VWD-Trader and the relevant daily press) believed to be reliable. NuWays AG has checked the information for plausibility but not for accuracy or completeness.

#### 6. Competent Supervisory Authority
