2) Earnings per preference share account for the retrospective adjustment due to the issue of bonus shares (please see Note 6 in the Notes to the Consolidated Financial Statements).

INTERIM GROUP MANAGEMENT REPORT

Summary

- **Third-quarter sales slightly up on previous year**
- **Earnings down on previous year**
- **Weakening sales performance, especially in other European countries**

The sales performance of the HORNBACH HOLDING AG Group (HORNBACH Group) lost momentum in the third quarter of 2012/2013 compared with the previous quarter. Third-quarter earnings fell short of the previous year's figures. Consolidated sales grew by 1.0% to € 809.5 million in the period from September 1 to November 30, 2012 (previous year: € 801.7m). The Group's nine-month sales grew by just under 1% to € 2,607.0 million (previous year: € 2,581.9m).

At HORNBACH-Baumarkt-AG, the Group's largest operating subgroup, the 137 locations across 9 European countries posted slight sales growth of 0.8% to € 2,428.3 million in the first nine months (previous year: € 2,409.8m). On a like-for-like basis, i.e. excluding sales at stores newly opened or closed, and net of currency items, HORNBACH's third-quarter sales dropped by 2.0% (including currency items: minus 1.9%). Cumulative like-for-like sales at HORNBACH's DIY megastores with garden centers fell by 0.8% in the first nine months. While sales at the HORNBACH DIY megastores with garden centers in Germany still showed slight growth of 0.7%, like-for-like sales net of currency items in the international store network fell 2.6% short of the previous year's figure (including currency items: 2.7%).

In terms of its earnings, the HORNBACH Group was unable to match the previous year's strong results either in the third quarter or in the nine-month period. This weaker earnings performance compared with the previous year is chiefly due to the downturn in like-for-like sales at DIY megastores with garden centers in other European countries in conjunction with increased store and administration expenses. Consolidated operating earnings (EBIT) for the first nine months fell by 9.5% to € 173.0 million (previous year: € 191.2m). The sales and earnings forecast for the 2012/2013 financial year as a whole has been adjusted.

Macroeconomic Framework

The global economic slowdown continued in the third quarter of 2012. While the euro area crisis still remains the key focal point of this global economic weakness, large emerging economies are now also witnessing a deterioration in their economic performance. Most major industrialized and emerging economies have been affected by the downturn in growth.

Europe has seen disparate developments in terms of economic output. According to Eurostat, the European statistics authority, seasonally-adjusted real-term gross domestic product (GDP) in the European Union as a whole (EU 27) improved by 0.1% in the third quarter of 2012 compared with the previous quarter. Economic output in the euro area (EU 17), by contrast, deteriorated by 0.1% in the third quarter compared with the previous quarter. Economic growth in Germany as well slowed further in the summer. According to the Federal Statistical Office, real-term gross domestic product adjusted for seasonal and calendar factors grew by a mere 0.2% in the third quarter compared with the previous quarter, having still grown by 0.3% in the spring and by 0.5% in the winter. On the other hand, persistently low interest rates and the European sovereign debt crisis have stimulated the German housing construction market. Ongoing strong demand for residential property for own use and for investment has not only driven house prices upwards, but has also provided added momentum in this segment of the construction market. Public construction, by contrast, is developing weakly now that the effects of the economic stimulus programs implemented in the course of the crisis are waning. Seasonally-adjusted private consumer spending increased in summer 2012, a development also promoted by the pleasing situation on the labor market and substantial pay increases. Due not least to the low level of credit interest, customers have recently become less willing to save. The deterioration in the macroeconomic climate has now left visible marks on the labor market in Germany. The expansion in employment totals came to a halt in the course of the summer, while seasonally-adjusted unemployment has noticeably increased.

Macroeconomic conditions showed disparate developments in the international network covered by the HORNBACH-Baumarkt-AG subgroup in the third quarter. Based on the macroeconomic data available upon the completion of this report, economic output declined in the Czech Republic, Netherlands, and Romania, while Austria, Germany, Slovakia, Sweden and Switzerland posted GDP growth.

GDP growth rates in countries with HORNBACH DIY megastores and garden centers (calendar year)

Percentage change on previous quarter Source: Eurostat (calendar year disclosures)	4th Quarter 2011	1st Quarter 2012	2nd Quarter 2012	3rd Quarter 2012
Germany	-0.1	0.5	0.3	0.2
Austria	0.1	0.3	0.1	0.1
Czech Republic	0.0	-0.6	-0.4	-0.3
Luxembourg	-0.4	0.1	0.4	n.a.
Netherlands	-0.7	0.1	0.1	-1.1
Romania	-0.2	-0.2	0.1	-0.5
Slovakia	0.8	0.5	0.6	0.6
Sweden	-1.1	0.5	0.7	0.5
Switzerland	0.3	0.5	-0.1	0.6
Euro area (EU 17)	**-0.4**	**0.0**	**-0,2**	**-0,1**
EU 27	**-0.3**	**-0.1**	**-0,2**	**0,1**

The extent to which consumer confidence will be affected by any potential change in outlook on the labor market remains to be seen. All in all, the economy currently presents a mixed picture, one that can in all likelihood be expected to darken further towards the end of the year. Here, the uncertainties resulting from the smoldering sovereign debt crisis in the euro area are just as relevant as the mixed economic signals coming from other regions around the world.

Earnings, Financial and Net Asset Situation

Sales performance

The HORNBACH Group's sales in the third quarter of 2012/2013 were slightly ahead of the previous year's figure. Consolidated sales for the period from September 1 to November 30, 2012 grew by 1.0% to € 809.5 million (previous year: € 801.7m). Sales for the nine-month period (March 1 to November 30, 2012) increased across the Group by 1.0% to € 2,607.0 million (previous year: € 2,581.9m). The HORNBACH HOLDING AG Group comprises the HORNBACH-Baumarkt-AG, HORNBACH Baustoff Union GmbH and HORNBACH Immobilien AG subgroups.

HORNBACH-Baumarkt-AG subgroup

No further HORNBACH DIY megastores with garden centers were opened in the third quarter of 2012/2013. Including three new stores already opened in the first half of the year in Romania (Timisoara), Sweden (Sundbyberg) and Switzerland (Riddes), HORNBACH was operating 137 retail outlets across the subgroup as of November 30, 2012 (February 29, 2012: 134). Of these, 91 stores are located in Germany and 46 in other European countries. Total sales areas at the HORNBACH-Baumarkt-AG subgroup amounted to around 1,592,000 m² as of November 30, 2012, while the average size of a HORNBACH DIY megastore with a garden center now exceeds 11,600 m².

The subgroup's sales performance lost momentum in the third quarter of 2012/2013 compared with the previous quarter. Consolidated sales thus only showed slight growth of 0.6% to € 746.4 million in the period from September 1 to November 30, 2012 (previous year: € 742.3 million). On a like-for-like basis, i.e. excluding sales at stores newly opened or closed, and net of currency items third-quarter sales declined by 2.0%. Including currency items in non-euro countries, namely the Czech Republic, Romania, Sweden and Switzerland, like-for-like sales decreased by 1.9% in the third quarter of 2012/2013.

Consolidated sales for the nine-month period (March 1 to November 30, 2012) showed slight growth of 0.8% to € 2,428.3 million (previous year: € 2,409.8m). Cumulative like-for-like sales net of currency items declined by 0.8%. Including currency items, the downturn in sales also amounts to 0.8%. As already the case in the first half of the year, the Group's sales performance varied from region to region in the nine-month period as well. While HORNBACH's stores in Germany, Luxembourg and Romania posted sales growth, the uncertainty created by the euro debt crisis left its mark on consumer behavior at the DIY stores and garden centers in the other countries within our European network.

■ Germany

The sales performance at the stores in HORNBACH's home market weakened in the third quarter. Following slight growth in the first quarter (plus 0.2%) and second quarter (plus 1.6%), in the third quarter sales dropped by 0.8% to € 424.1 million (previous year: € 427.4m). The Group's like-for-like sales performance in Germany was also unable to match the growth seen in the first half (plus 1.3%). In the period from September 1 to November 30, 2012, like-for-like sales in Germany thus slipped by 0.6%. On a cumulative basis for the first nine months, overall sales in Germany grew by 0.8% to € 1,395.4 million (previous year: € 1,384.5m), while like-for-like sales rose by 0.7% in the first nine months. However, HORNBACH's domestic like-for-like sales performance outstripped the German sector average in all months in the period under comparison from March to November 2012.

■ Other European countries

Sales at the HORNBACH DIY megastores with garden centers outside Germany grew by 2.4% to € 322.3 million in the third quarter of 2012/2013 (previous year: € 314.9m). In the first nine months of 2012/2013, sales in other European countries, including sales at newly opened stores, increased slightly by 0.7% to € 1.032.9 million (previous year: € 1,025.3m). At 42.5%, the international share of consolidated sales at HORNBACH-Baumarkt-AG remained unchanged compared with the previous year.

The slowdown in sales was more marked in other European countries than in Germany. The decline in consumer confidence as a result of the smoldering sovereign debt crisis was felt more clearly outside Germany. Consumers' waning propensity to spend is reflected in the development in like-for-like sales. Net of currency items, overall like-for-like sales in other European countries fell short of the previous year's figures, and are reported at minus 3.8% for the third quarter and at minus 2.6% for the first nine months. Including currency items, sales fell by 3.5% in the third quarter, and by 2.7% in the first nine months. Virtually all of the countries in HORNBACH's network outside Germany reported reductions in like-for-like sales net of currency items. Luxembourg and Romania were the only countries to report increased sales, with significant sales growth in the case of Romania.

HORNBACH Baustoff Union GmbH subgroup

Thanks to its strong market position in the regional builders' merchant business, the HORNBACH Baustoff Union GmbH subgroup was able to increase its sales both in the third quarter and in the first nine months of the current 2012/2013 financial year. Sales grew by 6.1% to € 62.7 million in the third quarter (previous year: € 59.1m) and by 3.8% to € 177.5 million in the nine-month period (previous year: € 170.9m). As of November 30, 2012, HORNBACH Baustoff Union GmbH was operating 25 outlets in South-Western Germany.

Earnings performance

The following comments refer to the earnings performance of the overall HORNBACH HOLDING AG Group.

3rd quarter of 2012/2013

The decline in like-for-like sales led to a deterioration in the HORNBACH Group's earnings performance in the third quarter. In the period from September to November 2012, earnings before interest, taxes, depreciation and amortization (EBITDA) fell by 26.7% to € 38.5 million (previous year: € 52.5m). Operating earnings (EBIT) dropped by 40.8% to € 19.8 million (previous year: € 33.4m). Given the year-on-year decline in net financial expenses to minus € 11.9 million (previous year: minus € 7.2m), pre-tax earnings fell by 70.0% to € 7.9 million (previous year: € 26.2m). Net income for the period decreased by 66.1% to € 6.5 million (previous year: € 19.1m). Third-quarter earnings per preference share are reported at € 0.43 (previous year: € 1.01).

First nine months of 2012/2013

Compared with the record figures reported in the previous year, the HORNBACH HOLDING AG Group's earnings declined in the first nine months of 2012/2013. This was mainly due to the downturn in like-for-like sales in conjunction with higher store and administration expense ratios. By contrast, the gross profit as a percentage of net sales amounted to 36.5%, thus matching the high previous year's figure (36.5%). Selling and store expenses at the Group grew by 3.4% to € 675.5 million (previous year: € 653.4m), and thus more rapidly than consolidated sales. As a percentage of net sales, store expenses increased from 25.3% to 25.9% (store expense ratio). Due to the Group's expansion, pre-opening expenses grew by € 1.2 million to € 6.8 million (previous year: € 5.6m). Driven mainly by costs for central forward-looking projects, the administration expense ratio rose to 4.1% (previous year: 3.8%).

EBITDA for the first nine months of 2012/2013 decreased by 7.1% to € 228.5 million (previous year: € 245.9m). Consolidated earnings (EBIT) slipped by 9.5% to € 173.0 million (previous year: € 191.2m). At minus € 28.8 million, the net financial expenses of the HORNBACH HOLDING AG Group were at the same level as in the previous year (minus € 28.9 million). Consolidated earnings before taxes reduced by 11.1% to € 144.2 million (previous year: € 162.2m). Net income for the period dropped by 12.7% to € 103.1 million (previous year: € 118.1m). Earnings per preference share for the first nine months are reported at € 5.24 (previous year: € 5.90).

Earnings performance by segment

The overall Group's key earnings figures for the period under report were largely shaped by the earnings performance of the **HORNBACH-Baumarkt-AG subgroup**. Here, operating earnings (EBIT) for the nine-month period reduced by 13.8% to € 133.1 million (previous year: € 154.3m). Further details about the earnings performance can be found in the interim report published separately by the HORNBACH-Baumarkt-AG subgroup.

Earnings at the **HORNBACH Baustoff Union GmbH subgroup** showed disproportionate growth compared with sales in the first nine months of the 2012/2013 financial year. EBIT increased by 21.2% to € 8.4 million (previous year: € 6.9m). This earnings growth was driven not only by pleasing sales growth in the builders' merchant business, but also by cost discipline in the subgroup's administration and outlets.

At the **HORNBACH Immobilien AG subgroup**, higher rental income accompanied by a less marked rise in real estate expenses led operating earnings to increase by 7.4% to € 34.7 million (previous year: € 32.3m).

Financial and net asset position

The HORNBACH Group invested € 106.3 million in the first nine months of 2012/2013 (previous year: € 121.4m). Of this total, around 60% was invested in land and buildings, while the rest was mainly channeled into plant and office equipment at new and existing stores, as well as into intangible assets (predominantly IT software). Investments were fully financed by the cash flow of € 199.3 million from operating activities (previous year: € 210.2m). Information about the financing and investment activities of the HORNBACH Group can be found in the cash flow statement on Page 12.

Total assets grew to € 2,391.2 million as of November 30, 2012, up by 5.5% compared with the balance sheet date on February 29, 2012. This growth was chiefly driven by the increases in cash and cash equivalents by € 69.9 million to € 492.2 million, and in property, plant and equipment by € 49.9 million to € 1,188.7 million. Shareholders' equity as reported in the balance sheet rose to € 1,123.3 million, up 7.9%, or € 82.0 million, compared with the balance sheet date. As a result, the equity ratio increased from 45.9% to 47.0%. As of November 30, 2012, the net financial debt of the HORNBACH Group amounted to € 273.0 million (February 29, 2012: € 347.8m).

Employees

A total of 14,900 individuals across Europe were in fixed employment at the HORNBACH Group at the reporting date on November 30, 2012 (February 29, 2012: 14,320).

Outlook

Two further HORNBACH DIY megastores with garden centers are scheduled to be opened in Germany in the fourth quarter of the current 2012/2013 financial year. New store openings are thus on the agenda in Oberhausen (December 2012) and Bremen (February 2013). The new store in Bremen is set to replace an older existing location. Including these new store openings, the total number of HORNBACH DIY megastores with garden centers is expected to reach 138 (of which 46 in other European countries) by the end of the financial year (February 28, 2013).

Against the backdrop of the macroeconomic trends outlined above and declining sales momentum, the basis for forecasting the future business performance of the HORNBACH HOLDING AG Group in the 2012/2013 financial year has changed since the situation one quarter ago. We have therefore revised our growth expectations and reduced our sales and earnings forecast. We already informed the public of this in an ad-hoc announcement released on November 27, 2012.

With regard to our full-year sales forecast for 2012/2013, as a result of the deteriorating economic climate we now expect consolidated sales only to match the previous year's figure (€ 3,204m). We have revised our expectations here, as we now assess the trend in sales both in Germany and in other European countries less favorably than in spring 2012 and at the end of the first half. In terms of like-for-like sales, we expect to see zero growth in Germany and a reduction in other European countries. Our like-for-like sales performance in Germany should nevertheless exceed the sector average. This assessment is based on the assumption that the euro debt crisis does not trigger any sudden drastic deterioration in the macroeconomic framework and in consumer confidence in Germany.

When revising our sales expectations, we also adjusted our earnings forecast. Based on this assessment, the operating earnings (EBIT) of the HORNBACH HOLDING AG Group for the 2012/2013 financial year as a whole will also fall short of the previous year's figure (€ 169m).

Cash Flow Statement

€ million	Nine Months 2012/2013	Nine Months 2011/2012
Consolidated net income	**103.1**	**118.1**
Depreciation and amortization of non-current assets	55.5	55.5
Change in provisions	(0.1)	3.2
Gains/losses on disposals of non-current assets and of non-current assets held for sale	(1.0)	(0.1)
Change in inventories, trade receivables, and other assets	(9.7)	(21.9)
Change in trade payables and other liabilities	54.3	54.5
Other non-cash income/expenses	(2.8)	1.0
Cash flow from operating activities	**199.3**	**210.2**
Proceeds from disposal of non-current assets and of non-current assets held for sale	3.8	4.1
Payments for investments in property, plant, and equipment	(104.5)	(110.0)
Payments for investments in intangible assets	(1.3)	(2.8)
Payments for investments in financial assets	(0.5)	0.0
Payments for acquisitions of shareholdings and other business units	0.0	(8.6)
Cash flow from investing activities	**(102.5)**	**(117.2)**
Dividends paid	(14.2)	(14.2)
Proceeds from taking up long-term debt	102.4	96.3
Repayment of long-term debt	(91.8)	(117.3)
Payments for transaction costs	(1.2)	(1.8)
Change in current financial debt	(21.7)	4.2
Cash flow from financing activities	**(26.6)**	**(32.8)**
Cash-effective change in cash and cash equivalents	70.2	60.1
Change in cash and cash equivalents due to changes in exchange rates	(0.3)	0.4
Cash and cash equivalents at March 1	422.3	474.0
Cash and cash equivalents at November 30	**492.2**	**534.5**

Rounding up or down may lead to discrepancies between totals.

Cash and cash equivalents include cash on hand, credit balances at banks and other short-term deposits.

The cash flow from operating activities was reduced by € 26.4 million on account of income tax payments (previous year: € 31.3m) and by € 34.2 million on account of interest payments (previous year: € 34.5m) and increased by € 1.9 million on account of interest received (previous year: € 5.2m).

The other non-cash income/expenses item largely consists of unrecognized foreign currency differences, changes in the value of derivative financial instruments (cash flow hedges), prorated reversals of deferred expenses for financial liabilities and deferred taxes.

NOTES TO THE GROUP INTERIM REPORT

Notes to the Interim Consolidated Financial Statements as of November 30, 2012

(1) Accounting principles

This unaudited group interim report of HORNBACH HOLDING AG and its subsidiaries for the first nine months as of November 30, 2012 has been prepared in accordance with § 315a of the German Commercial Code (HGB) based on International Financial Reporting Standards (IFRS) in the form requiring mandatory application in the European Union. The interim report has been prepared in accordance with IAS 34 "Interim Financial Reporting".

The accounting principles applied in the preparation of this interim report are basically consistent with those applied in the consolidated financial statements as of February 29, 2012. Furthermore, the HORNBACH Group has applied all of the new and revised International Financial Reporting Standards and Interpretations of the Financial Reporting Interpretation Committee requiring first-time application from the 2012/2013 financial year – to the extent that these are relevant for the HORNBACH HOLDING AG Group. These new and revised regulations requiring first-time application have not had any material implications for the Group's net asset, financial or earnings position.

Pursuant to IAS 34 "Interim Financial Reporting", income tax expenses for the first nine months of 2012/2013 have been calculated using the average annual tax rate expected for the financial year as a whole. This interim report is to be read in conjunction with the consolidated financial statements of HORNBACH HOLDING AG for the 2011/2012 financial year. Reference is made to these financial statements on account of the additional information they contain as to the specific accounting and valuation methods applied. The notes included therein also apply to this interim report, unless any amendments are expressly indicated. Moreover, this interim report is also consistent with German Accounting Standard No. 16 (DRS 16) – Interim Reporting – of the German Accounting Standards Committee (DRSC).

(2) Scope of consolidation

There were no changes in the scope of consolidation in the first nine months of 2012/2013.

(3) Seasonal influences

Due to weather conditions, the HORNBACH HOLDING AG Group generally reports a weaker business performance in the fall and winter than in the spring and summer months. These seasonal fluctuations are reflected in the figures for the first nine months. The business results for the first nine months as of November 30, 2012 do not necessarily provide an indication of the results to be expected for the year as a whole.

(4) Other income and expenses

Other income and expenses are structured as follows:

€ million	3rd Quarter 2012/2013	3rd Quarter 2011/2012	Change %
Other income	5.0	5.2	(4.3)
Other expenses	2.5	4.0	(37.6)
Other income and expenses	**2.4**	**1.1**	**113.8**

€ million	Nine Months 2012/2013	Nine Months 2011/2012	Change %
Other income	19.8	14.8	33.5
Other expenses	7.3	8.1	(9.8)
Other income and expenses	**12.5**	**6.7**	**85.7**

Percentages calculated on the basis of € 000s. Rounding up or down may lead to discrepancies between totals.

The other income for the first nine months of 2012/2013 consists of operating income of € 19.2 million (previous year: € 13.6m) and non-operating income of € 0.6 million (previous year: € 1.2m). Operating income includes an amount of € 6.1 million in connection with energy tax refunds, an amount of € 3.9 million from the reversal of provisions recognized in the 2010/2011 financial year, and an amount of € 2.2 million for compensation not yet invoiced. Other than these items, operating income mainly consists of income from advertising grants and other supplier credits, ancillary revenues at DIY megastores with garden centers, income in connection with damages, and income from the disposal of non-current assets. The non-operating income for the first nine months of 2012/2013 results from the disposal of a DIY megastore with a garden center no longer in use (€ 0.5m), along with the relevant plant and office equipment (€ 0.1m). The non-operating income in the previous 2011/2012 financial year chiefly involved write-ups of € 0.9 million in the "HORNBACH-Baumarkt-AG subgroup" segment and income of € 0.2 million the sale of land not required for operations. The write-ups were based on contractually agreed sale prices. Of the write-ups, € 0.4 million related to a piece of land held for sale and € 0.5 million to two pieces of land already disposed of in the first nine months of the previous year.

The other expenses for the first nine months of 2012/2013 consist of operating expenses of € 5.5 million (previous year: € 3.8m) and non-operating expenses of € 1.8 million (previous year: € 4.2m). Operating expenses mainly involve impairments of receivables, losses incurred in connection with damages, and expenses for legal disputes. Furthermore, the operating expenses for the first nine months of 2012/2013 also include service fees of € 0.6 million incurred in connection with energy tax compensation. The non-operating expenses for the first nine months of 2012/2013 mainly involve the addition of an amount of € 1.4 million to a provision for the refurbishment obligation at a DIY store property sold and leased back (previous year: € 1.5m) and expenses of € 0.2 million incurred for investment projects not subject to further development (previous year: € 0.6m). The non-operating expenses for the first nine months of 2011/2012 also included impairment losses of € 1.1 million, an amount of € 0.7 million for the redevelopment agreement intended for historic burdens in connection with DIY store land owned by the Group, and an amount of € 0.2 million for expenses to remedy defects on a property already sold. The impairment losses were based on contractually agreed sale prices and relate to a piece of land held for sale in the "HORNBACH Immobilien AG subgroup" segment (€ 1.0m) and a property held for sale in the "HORNBACH-Baumarkt-AG subgroup" segment (€ 0.1m).

(5) Net financial expenses

HORNBACH-Baumarkt-AG is currently reviewing the possibility of prematurely repaying its corporate bond of € 250 million (please see Note 10). As a result, the estimate of the remaining term of the bond issue expenses deferred using the effective interest rate method has been reassessed. This has resulted in interest expenses of € 1.8 million.

(6) Earnings per share

Basic earnings per share are calculated pursuant to IAS 33 "Earnings per Share" as the quotient of the income attributable to the shareholders of HORNBACH HOLDING AG for the period under report and the weighted average number of shares issued. As in the previous year, no dilutive effects had to be accounted for when calculating earnings per share.

	3rd Quarter 2012/2013	3rd Quarter 2011/2012
Consolidated net income in € million	6.6	15.9
Additional dividend for preference shares in € million	0.2	0.2
Consolidated net income adjusted to account for additional dividend claims in € million	**6.3**	**15.6**
Number of ordinary shares issued	8,000,000	8,000,000
Number of preference shares issued	8,000,000	8,000,000
	16,000,000	**16,000,000**
Earnings per share in €	**0.40**	**0.98**
Additional dividend claim per preference share in €	0.03	0.03
Earnings per preference share in €	**0.43**	**1.01**

	Nine Months 2012/2013	Nine Months 2011/2012
Consolidated net income in € million	83.6	94.2
Additional dividend for preference shares in € million	0.2	0.2
Consolidated net income adjusted to account for additional dividend claims in € million	**83.3**	**94.0**
Number of ordinary shares issued	8,000,000	8,000,000
Number of preference shares issued	8,000,000	8,000,000
	16,000,000	**16,000,000**
Earnings per share in €	**5.21**	**5.87**
Additional dividend claim per preference share in €	0.03	0.03
Earnings per preference share in €	**5.24**	**5.90**

Rounding up or down may lead to discrepancies between totals.

(7) Other disclosures

The personnel expenses of the HORNBACH HOLDING AG Group amounted to € 412.1 million at the end of the first nine months as of November 30, 2012 (previous year: € 395.2m).

Depreciation and amortization totaling € 55.5 million was recognized on intangible assets and property, plant and equipment at the HORNBACH HOLDING AG Group in the first nine months of the 2012/2013 financial year (previous year: € 55.5m).

(8) Shareholders' equity

By resolution of the Annual General Meeting held on July 8, 2011, the share capital of HORNBACH HOLDING AG was increased in the first nine months of the previous year by issuing bonus shares at a ratio of 1:1. As a result, the number of shares in HORNBACH HOLDING AG has doubled. By converting a partial amount of € 24,000,000.00 of the revenue reserves reported in the annual balance sheet as of February 28, 2011 into share capital, the company's share capital doubled to € 48,000,000.00. The share capital is divided into 8,000,000 individual preference shares and 8,000,000 individual ordinary shares with a prorated nominal value of € 3.00 per share. The bonus shares have been included in the stock market listing since July 29, 2011 and have enjoyed profit entitlement since March 1, 2011.

(9) Dividends

As proposed by the Board of Management and Supervisory Board of HORNBACH HOLDING AG, following approval by the Annual General Meeting on July 6, 2012 dividends of € 0.64 per ordinary share and € 0.67 per preference share were distributed to shareholders for the 2011/2012 financial year.

(10) Financial debt

The Board of Management of HORNBACH-Baumarkt-AG intends to prematurely redeem the corporate bond with a term originally agreed to run until November 15, 2014. Since November 15, 2012, the redemption price pursuant to the contractually agreed termination option amounts to 100%. This premature redemption is subject to a notice period of 30 to 60 days.

Subject to approval by the Supervisory Board, the redemption amount, with a nominal total of € 250 million, is to be refinanced by issuing a new long-term bond. The precise termination date is to be set in the coming months depending on the capital market climate for issuing the new bond. The Board of Management reserves the right to waive its intention to terminate the bond in the event of unfavorable capital market conditions.

This debt restructuring measure is intended to strengthen the company’s capital structure on more favorable terms in the long term. The funds will serve to finance further expansion. In particular, the company plans to maintain a supply of liquidity enabling it to act flexibly to exploit growth opportunities.

A promissory note bond of € 70 million was concluded at the HORNBACH Immobilien AG subgroup on April 18, 2012. The loan amount was disbursed as of June 29, 2012. The promissory note bond serves in particular to refinance a promissory note bond of € 60 million maturing as of the same date. The promissory note bond charges floating interest on the basis of the 6-month Euribor, plus a bank margin, and is repayable at the end of a five-year term. To secure the interest rate, a swap was concluded with congruent terms. The swap enables the floating interest payable to be converted into fixed interest payments.

A Swedish subsidiary at the HORNBACH Immobilien AG subgroup also took up a long-term EUR mortgage loan in the first nine months of 2012/2013. This loan of € 30 million has a term running until June 30, 2022 and charges interest on the basis of the 3-month Euribor plus a fixed bank margin. To secure the interest rate and the exchange rate, an interest currency swap consistent with the loan structure was concluded. This swap enables the floating interest payable in EUR to be converted into fixed-interest SEK payment installments.

In the first nine months of the previous year, the HORNBACH-Baumarkt-AG subgroup took up an unsecured promissory note bond of € 80 million with a floating interest rate and a term running until June 30, 2016. These funds served to provide follow-up financing for the promissory note bond of the same amount maturing on June 30, 2011. The promissory note bond charges interest on the basis of the 6-month Euribor, plus a bank margin. To secure the interest rate, a forward swap with congruent terms was concluded in the 2010/2011 financial year already. The swap enables the interest payable to be exchanged for fixed interest payments.

Customary bank covenants were agreed for the promissory note bonds, non-compliance with which could lead to a premature repayment obligation. These involve pari passu clauses and negative pledge declarations. Moreover, specific financial ratios also have to be complied with. These key financial ratios are based on consolidated figures at the HORNBACH-Baumarkt-AG subgroup and require interest cover of at least 2.25 times and an equity ratio of at least 25%. Furthermore, maximum limits were also agreed in particular for financing facilities secured by land charges and financial debt taken up by subsidiaries of HORNBACH-Baumarkt-AG. The conditions governing the promissory note bond at the HORNBACH Immobilien AG subgroup require in particular a specified volume of unencumbered property, plant and equipment to be maintained.

As the aforementioned hedges meet the requirements for hedge accounting, changes in the value of the swaps are reported in the hedging reserve.

(11) Employee shares

On August 13, 2012, the Board of Management of HORNBACH-Baumarkt-AG resolved pursuant to § 71 (1) No. 2 of the German Stock Corporation Act (AktG) to acquire up to 50,000 treasury stock shares. These shares are to be acquired for the (annual) issue of employee shares scheduled to take place at the end of 2012. The share buyback program began on August 14, 2012 and is limited until February 28, 2013. The buyback of shares pursuant to this management board resolution is being undertaken in accordance with the safe harbor regulations set out in § 20a (3) of the German Securities Trading Act (WpHG) in conjunction with Regulation (EC) No. 2273/2003 of the Commission dated December 22, 2003.

HORNBACH HOLDING AG made 21,203 shares available to HORNBACH-Baumarkt-AG by way of a securities loan effective as of November 13, 2012 for the purpose of issuing employee shares. The securities loan will expire upon the return of the 11,425 shares still outstanding as of November 30, 2012.

In connection with the employee share program at HORNBACH-Baumarkt-AG, HORNBACH HOLDING AG has issued 80 shares in HORNBACH-Baumarkt-AG to employees at HORNBACH HOLDING AG.

(12) Contingent liabilities and other financial obligations

These mainly involve obligations for rental, hiring, leasehold and leasing contracts for which the companies of the HORNBACH HOLDING AG do not constitute the economic owners of the assets thereby leased pursuant to IFRS regulations (Operating Lease). These amounted to € 696.4 million at the end of the first nine months of 2012/2013 (February 29, 2012: € 725.8m).

(13) Related party disclosures

In addition to the subsidiaries included in the consolidated financial statements, HORNBACH HOLDING AG also has direct or indirect relationships with associated companies when performing its customary business activities. Apart from the transactions reported in the annual financial statements, no major transactions were undertaken with closely related companies and persons during the first nine months of 2012/2013.

DISCLAIMER

This interim report contains forward-looking statements based on assumptions and estimates made by the Board of Management of HORNBACH. Statements referring to the future are always only valid at the time at which they are made. Although we assume that the expectations reflected in these forecast statements are realistic, the company can provide no guarantee that these expectations will also turn out to be accurate. The assumptions may involve risks and uncertainties which could result in actual results differing significantly from the forecast statements. The factors which could produce such variances include changes in the economic and business environment, particularly in respect of consumer behavior and the competitive environment in those retail markets of relevance for HORNBACH. Furthermore, they include a lack of acceptance of new sales formats or new product ranges, as well as changes to the corporate strategy. HORNBACH has no plans to update the forecast statements, neither does it accept any obligation to do so.
