This presentation contains forward-looking statements and information relating to Befesa and its affiliates that are based on the beliefs of its management, including assumptions, opinions and views of Befesa and its affiliates as well as information cited from third party sources. Such statements reflect the current views of Befesa and its affiliates or of such third parties with respect to future events and are subject to risks, uncertainties and assumptions.

Many factors could cause the actual results, performance or achievements of Befesa and its affiliates to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements, including, among others: changes in general economic, political, governmental and business conditions globally and in the countries in which Befesa and its affiliates do business; changes in interest rates; changes in inflation rates; changes in prices; changes to national and international laws and policies that support industrial waste recycling; legal challenges to regulations, subsidies and incentives that support industrial waste recycling; extensive governmental regulation in a number of different jurisdictions, including stringent environmental regulation; management of exposure to credit, interest rate, exchange rate and commodity price risks; acquisitions or investments in joint ventures with third parties; inability to obtain new sites and expand existing ones; failure to maintain safe work environments; effects of catastrophes, natural disasters, adverse weather conditions, unexpected geological or other physical conditions, or criminal or terrorist acts at one or more of our plants; insufficient insurance coverage and increases in insurance cost; loss of senior management and key personnel; unauthorised use of Befesa's intellectual property and claims of infringement by Befesa of others' intellectual property; Befesa's ability to generate cash to service its indebtedness changes in business strategy and various other factors. Should one or more of these risks or uncertainties materialise, or should underlying assumptions prove incorrect, actual results may vary materially from those described herein as anticipated, believed, estimated, expected or targeted.

Befesa and its affiliates do not assume any guarantee that the assumptions underlying forward-looking statements are free of errors nor do they accept any responsibility for the future accuracy of the opinions expressed herein or the actual occurrence of the forecasted developments. No representation (express or implied) is made as to, and no reliance should be placed on, any information, including projections, estimates, targets and opinions, contained herein, and no liability whatsoever is accepted as to any errors, omissions or misstatements contained herein or otherwise resulting, directly or indirectly, from the use of this document.

This presentation is intended for information only and should not be treated as investment advice. It is not intended as an offer for sale, or as a solicitation of an offer to purchase or subscribe to, any securities in any jurisdiction. Neither this presentation nor anything contained therein shall form the basis of, or be relied upon in connection with, any commitment or contract whatsoever. This presentation may not, at any time, be reproduced, distributed or published (in whole or in part) without prior written consent of Befesa.

Second quarter and first half 2021 figures contained in this presentation have not been audited or reviewed by external auditors.

This presentation includes Alternative Performance Measures (APM), including EBITDA, EBITDA margin, EBIT, EBIT margin, net debt and capital expenditures which are not measures of liquidity or financial performance under International Financial Reporting Standards (IFRS). EBITDA is defined as operating profit for the period (i.e. EBIT) before the impact of amortisation, depreciation, impairment and provisions. EBITDA margin is defined as EBITDA divided by revenue. EBIT is defined as Operating profit for the year. The Company uses EBIT to monitor its financial return after both operating expenses and a charge representing the cost of usage of both its property, plant and equipment and definite-life intangible assets. EBIT margin is defined as EBIT as a percentage of revenue. These non-IFRS measures should not be considered in isolation or as an alternative to results from operating activities, cash flow from operating, investing or financing activities, or other financial measures of Befesa's results of operations or liquidity derived in accordance with IFRS. Befesa believes that the APM included in this report are useful measures of its performance and liquidity. Other companies, including those in the industry in which Befesa operates, may calculate similarly titled financial measures differently than Befesa does. Because all companies do not calculate these financial measures in the same manner, Befesa's presentation of such financial measures may not be comparable to other similarly titled measures of other companies. These APM are not audited.

EAF steel production -&- Befesa's steel portfolio growth & diversification

China is the largest and growing EAF steel producer worldwide;
Befesa growing and diversifying its portfolio to capture China and US addressable markets

EAF steel production: EU-27 / US / China, million tonnes

Study by IEA⁴, Oct 2020:

- Primary steel consumes 7x more CO₂/t vs. secondary steel
- Europe to grow to 50% EAF and China 40% by 2050

EAF % of total steel production:

- **China EAFD addressable market > 1.5 million tonnes¹⁾** vs. c. 1.0–1.3 million tonnes¹⁾ in EU-27 and US each;
Expected to grow in share and tonnage

BEFESA acquired **AZR** AMERICAN
ZINC RECYCLING
creating a global leader
in EAFD recycling

02 / Acquisition of AZR
closed on 17 August 2021

Transaction highlights

- On 16 June 2021, **Befesa** signed the **acquisition of 100% of American Zinc Recycling (AZR)'s recycling** assets for a **purchase price of \$450m / €372m** – implying an **attractive c. 6x post near-term synergies EBITDA acquisition multiple**, about **half of Befesa's current 2021E trading multiple** of c. 13x
 - **AZR** is a **US market leader¹⁾ in recycling** electric arc furnace **steel dust** (EAFD) with c. 620kt EAFD capacity; Similar to Europe, a **highly-regulated, mature** market; full-service model incl. **collection fees**
 - Through this acquisition, **Befesa becomes a global leader¹⁾ in EAFD recycling** with c. **1.7 million tons combined EAFD capacity**, and a **geographically diversified and balanced footprint** in Europe, Asia and the US across **12 facilities**
 - **Funded** through a mix of
 - **accelerated equity offering** (5.9m shares as per authorized capital), completed on 17 June, -and-
 - pre-approved **term loan B (TLB) add-on** (€100m), allocated and priced at par, **ensuring leverage neutral**
 - **Highly accretive** transaction for Befesa shareholders with **strong expected returns** achievable within first 3 years of combination:
 - **> €300m value** creation;
 - **Strong double-digit EPS** accretion;
 - **ROIC >> Befesa's WACC**
 - On **17 August 2021**, **Befesa closed the transaction** as expected and on time
-
- As part of this transaction, Befesa signed the acquisition of a minority 6.9% stake in a US **strategic zinc refining plant** for a purchase price of \$10m, and **secured an option** for the acquisition of the **remaining 93.1% stake upon fulfilment** of two-phased **operational and financial milestones** of the zinc refining plant

AZR's zinc refining asset: strategic integration opportunity to support EAFD recycling operations in the US

Plant footprint

- Close proximity to AZR recycling plants, at Rutherford County, NC
- Applies new solvent extraction technology for zinc refining
- Restarted operations in 2020; Ramping up; Capacity to produce c. 141kt pure zinc (SHG) per year

- 1 Barnwell, SC
- 2 Rockwood, TN
- 3 Calumet, IL
- 4 Palmerton, PA
- 5 Rutherford County, NC

- EAF mini mills
- ➡ WOX
- ➡ SHG

Strategic rationale

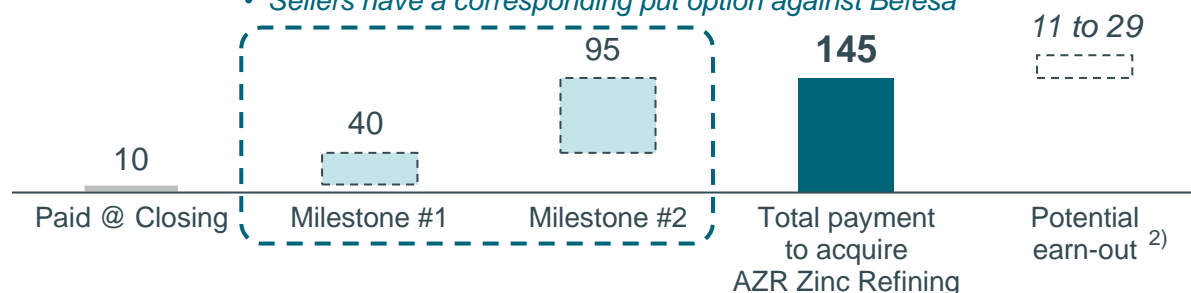

- Process WOX from all AZR recycling plants into pure zinc (SHG)
- WOX purchased from AZR recycling at market prices
- Address shortage of zinc refining capacity in the US/North America
- Supports AZR to become vertically-integrated:
 - Closed-loop, end-to-end, 100% green to AZR's EAF steel clients
 - Reduces exposure to zinc treatment charge volatility
- No change in Befesa's global strategy

Secured option to acquire AZR's zinc refining asset only upon fulfilling operational & financial performance milestones

Payment schedule to acquire AZR's zinc refining asset¹⁾, \$m

\$135m for remaining 93.1% stake in AZR's zinc refining asset:

- Only upon fulfillment of 2-phased operational and financial milestones of new solvent extraction technology
- Max. time frame: 31 December 2023
- Payable in cash or Befesa common shares
- Sellers have a corresponding put option against Befesa

Performance milestones:

1) Conversion cost	≤ \$0.44/lb.	≤ \$0.40/lb.	\$0.36 to \$0.35/lb.
2) Capacity utilisation	≥ 85.0%	≥ 92.5%	96.0% to 100.0%

Befesa overview

Figures do not include the contribution from AZR's acquisition

Befesa at a glance

Global leader in Europe, Asia and US in providing regulated critical hazardous waste recycling services to the steel and aluminium industries

3-year average (2018-2020)¹⁾

Steel Dust Recycling¹⁾

Aluminium Salt Slags Recycling

Source: Company information, International Consulting Firm based on World Steel Association's Steel Statistical Yearbooks, WBMS, industry research, expert Interviews.

1) Figures do not include the contribution from AZR's acquisition closed on 17 August 2021

2) Excluding internal revenue; revenue split is calculated on revenues including internal revenue; 3) Including recycling of SPL (a hazardous waste generated in primary aluminium production)

Key milestones

Befesa has grown successfully through organic initiatives and acquisitions

1) Through 51/49 JV with Canadian Silvermet; 2) By acquiring subsequent stakes in the Korean Hankook; 3) Free-float at 100% after Triton's exit on 6 June 2019

Investment highlights

Environmental solutions

in high demand for the steel and aluminium industry improving sustainability

Favourable mega trends

supporting secondary steel and aluminium markets e.g. CO₂ reduction, emission controls

Global leader

in Europe, Asia & US, in niche recycling markets, applying best available technology with plant footprint close to clients

Strong regulation

getting stricter and expanding into new geographies to protect the environment

Robust & long-term service

supports business model with strong barriers to entry and high captive demand

Proven resilience

through the cycle with strong growth, margins and cash flow generation

Expansion opportunities

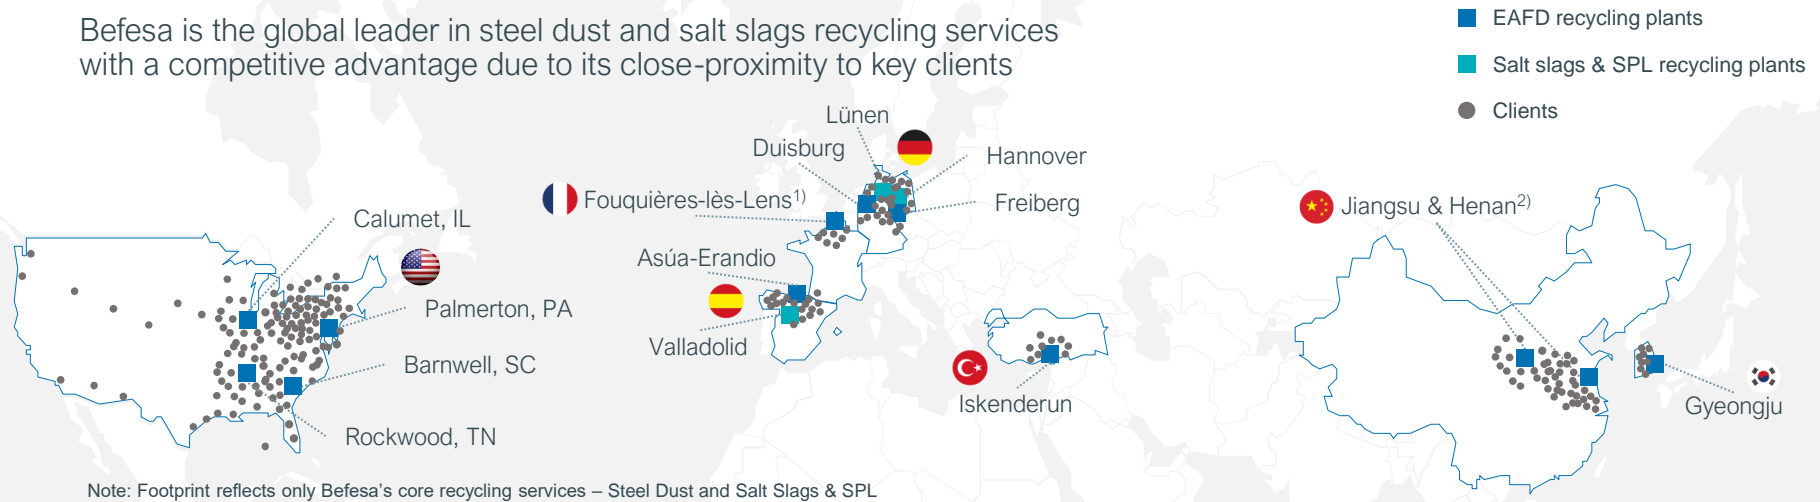

organic & inorganic, focused on core segments with attractive returns

Experienced team

focused on compliance, ESG and profitable growth = shareholder value

Global leader in Europe, Asia & North America

Befesa is the global leader in steel dust and salt slags recycling services with a competitive advantage due to its close-proximity to key clients

Note: Footprint reflects only Befesa's core recycling services – Steel Dust and Salt Slags & SPL

STEEL DUST RECYCLING

ALU SALT SLAGS RECYCLING

1) 50/50 joint venture with Recylex

2) Changzhou, Jianguo province: construction completed in Q1'21, commissioning in process and commercial output expected in H2; Xuchang, Henan province: completion of construction expected after summer of 2021, with ramp-up in H2

Highly regulated & critical service model

Befesa is the leading environmental services partner in the circular economy of the 2nd steel and aluminium industry by recycling and avoiding the landfilling of c. 2 MT hazardous residues and recovering c. 1.5 MT of new valuable materials

All figures are the average of the fiscal years 2018, 2019 and 2020 and do not include contribution from AZR's acquisition closed on 17 August 2021

Value chains are simplified and only reflect Befesa's core business segments (i.e. Steel Dust; Aluminium Salt Slags):

- Within Steel Dust Recycling Services business segment Befesa manages a Stainless sub-segment (94 kt stainless steel dust throughput, average over L3Y period 2018-2020)

- Within Aluminium Salt Slags Recycling Services business segment Befesa manages a Secondary Aluminium sub-segment (173 kt 2nd aluminium alloys produced, average over L3Y period 2018-2020)

Experienced management team

Senior management team delivering results through long-standing industry expertise, entrepreneurial spirit and focus on operational excellence as well as governance and compliance processes

Key achievements / track record

Extensive experience in steel and aluminium recycling business, including managing through the cycle

Strong performance results through focus on operational excellence

Building strong business foundation of ESG, compliance and health & safety processes

Successful international expansion

Track record of successful acquisitions and turnarounds, e.g., BUS, Agor, Alcasa, Hankook, Silvermet, AZR

Experience in developing greenfield projects, e.g., Gravelines, South Korea, Bernburg, China

Waelz kiln at EAFD recycling plant in Gyeongju, South Korea
