 - Continued commitment to Responsible Care / Distribution
- **Maintain focus on profitability and returns**
- **Global top initiatives and regional strategies**

Top Initiative – Turned-over Business

Substantially increase supplier penetration by proactively taking over smaller customers from suppliers

Top Initiative – Focused Segment Growth

Significantly increase share in customer industries where Brenntag can achieve above average growth

Top Initiative – Key Accounts

Increase business with pan-regional / global key customers based on increased demand

Concept

- **Management believes customers' distribution chemical spend may be 15% - 25% of their total chemical spend**
- **Partnering with an international distributor can greatly reduce the cost and time of supplier management, allowing customer procurement to focus on strategic materials**
- **International distribution can bundle customers' global usage to simplify the interaction with producers**
- **Knowledge gain at one customer site can be rapidly transferred to all other sites, thus lessening project development time, approval of alternate sources, or implementing best-in-class logistics**
- **One contract or working document applies to all business interactions leading to quicker implementation, reduced misunderstandings and elimination of regional differences**
- **An international distributor can grow with the customer as the customer enters new geographical and business markets**

Top Initiative – Air1 / DEF¹⁾

High volume growth of high quality urea solution needed for catalytic reaction in trucks to fulfill regulatory requirements in Europe (Air1) and North America (DEF)

Concept

- In Europe and North America new trucks have to meet specific norms for reduced emissions
- High quality urea solution is needed for catalyst reaction to fulfill those norms
- Brenntag has developed special logistics and consultancy concepts to facilitate supply of our customers with Air1 / DEF. This concept focuses on guaranteeing a consistently high quality standard throughout the supply chain from production and all logistics services to the arrival of the product at the customer's premises

1) Diesel Exhaust Fuel

North America – Efficient Hub & Spoke System

Hub & spoke system – Efficient management of stock and storage utilization

- **Larger distribution sites (“hubs”)** are fully equipped with tanks, filling stations, mixing and blending facilities and storage facilities for packaged products
- **Smaller distribution sites (“spokes”)** represent warehouse facilities for packaged products that are supplied from the larger sites

1) BEA Bureau of Economic Analysis

Committed to Health, Safety and the Environment

Committed to the Principles of Responsible Care / Responsible Distribution¹⁾

- **Product responsibility**
- **Plant safety**
- **Occupational safety and health**
- **Comprehensive environmental protection (air, water, soil, raw materials, waste)**
- **Transport safety**
