

FACT SHEET

COMPANY PROFILE

Celanese Corporation is a global technology leader in the production of specialty materials and chemical products which are used in most major industries and consumer applications. Our products, essential to everyday living, are manufactured in North America, Europe and Asia. We are one of the world's largest producers of acetyl products, which are intermediate chemicals for nearly all major industries. We are also a leading global producer of high performance engineered polymers that are used in a variety of high-value applications.
