

08.2013

# **Equity Story**

- Deutsche EuroShop is Germany's only public company that invests solely in shopping centers.
- Shopping centers are attractive investments because of
  - continuously positive development of rents
  - stable long term growth
  - prime locations
  - high quality standards
- Deutsche EuroShop does not seek short-term success, but rather long-term growth and the resulting stable increase in the value of the portfolio.

# At a Glance

20 shopping centers on high street and in established locations –
 16 in Germany, 2 in Poland and one each in Austria and Hungary

Lettable space	approx. 955,000 sqm
Retail shops	approx. 2,450
Market value	approx. €3.8 billion
Rents per year	€257 million <sup>1)</sup>
Occupancy rate	99%

avg. lettable space per DES-center: inner city 38,150 sqm est. Locations 102,000 sqm

- 2012 portfolio valuation: 5.98% net initial yield (EPRA)
- Professional center management by ECE, the European market leader in this industry

# **Environment**

- Climate protection is one of the most important issues for Deutsche EuroShop. We believe
  that sustainability and profitability, the shopping experience and environmental awareness
  are not opposing forces. Long-term thinking is part of our strategy. This includes playing our
  part in environmental protection.
- In 2012, all our German shopping centers had contracts with suppliers that use regenerative energy sources such as hydroelectric power for their electricity needs. The "EnergieVision" organisation certified the green electricity for our centers in Germany with the renowned "ok-power" accreditation in 2012. We plan to switch the centers in other countries to green electricity as well in the next few years.

- The German centers used a total of around 69.2 million kWh of green electricity in 2011. This represented 100% of the electricity requirements in these shopping centers. As a result, based on conservative calculations this meant a reduction of around 25,800 tonnes in carbon dioxide emissions this equates to the annual CO<sub>2</sub> emissions of around 1,170 two-person households. We have already reduced the energy consumption of our shopping centers by using heat exchangers and energy-saving light bulbs.
- Deutsche EuroShop, through its shopping centers, also supports a range of activities at local and regional level in the areas of ecology, society and economy.
