

#### **COMPANY**

## **Equity Story**

- Deutsche EuroShop is Germany's only public company that invests solely in shopping centers.
- Shopping centers are attractive investments because of
  - continuously positive development of rents
  - stable long term growth
  - prime locations
  - high quality standards
- Deutsche EuroShop does not seek short-term success, but rather long-term growth and the resulting stable increase in the value of the portfolio.

#### **COMPANY**

## At a Glance

19 shopping centers on high street and in established locations –
 16 in Germany and one each in Austria, Hungary and Poland.

Lettable space	approx. 930,000 sqm
Retail shops	approx. 2,350
Market value	approx. €3.7 billion
Rents per year	€240 million <sup>1)</sup>
Occupancy rate	99%

avg. lettable space per DES-center: inner city 39,200 sqm est. Locations 100,900 sqm

- 2014 portfolio valuation: 5.87% net initial yield (EPRA)
- Professional center management by ECE, the European market leader in this industry

## Online vs. stationary retail?

Turnover distribution of a fashion retailer

- Stationary retail transforms from "Point of Purchase" to "Touch Point" (product experience).
- New store concepts (flagship store, show room, multi-channel store, pick-up store), click & collect, augmented reality, online goes offline, mobile services
- Location, location, location newly interpreted: convenience, attractivity & likeability

Source: GfK

Our partner: ECE

Bank of America

- ECE develops, plans, builds, leases and manages large commercial real estate in the sectors shopping, office, industries since 1965
- originally ECE was an abbreviation for the German word Einkaufscenterentwicklung (Shopping center development)
- 100% privately owned by the Otto family
- active in 16 European countries
- European market leader in the shopping center business
- Assets under management:
  - 196 shopping centers
  - 6.5 million sqm overall sales area
  - approx.19,500 retail businesses
  - 4.3 million daily visitors
  - €27 billion assets under management

#### MANY INVESTORS RELY ON ECE:

APPENIDID

### **Environment**

- Climate protection is one of the most important issues for Deutsche EuroShop. We believe
  that sustainability and profitability, the shopping experience and environmental awareness
  are not opposing forces. Long-term thinking is part of our strategy. This includes playing our
  part in environmental protection.
- In 2013, all our German shopping centers had contracts with suppliers that use regenerative energy sources such as hydroelectric power for their electricity needs. The "EnergieVision" organisation certified the green electricity for our centers in Germany with the renowned "ok-power" accreditation in 2013. We plan to switch the centers in other countries to green electricity as well in the next few years.

- The German centers used a total of around 67.4 million kWh of green electricity in 2013. This represented 100% of the electricity requirements in these shopping centers. As a result, based on conservative calculations this meant a reduction of around 22,500 tonnes in carbon dioxide emissions this equates to the annual CO<sub>2</sub> emissions of around 1,020 two-person households. We have already reduced the energy consumption of our shopping centers by using heat exchangers and energy-saving light bulbs.
- Deutsche EuroShop, through its shopping centers, also supports a range of activities at local and regional level in the areas of ecology, society and economy.
