

THE EUROSHOPPER

Company | Equity Story

- Deutsche EuroShop is Germany's only public company that invests solely in shopping centers.
- Shopping centers are attractive investments because of
 - continuously positive development of rents
 - stable long term growth
 - prime locations
 - high quality standards

Company | At a Glance

- 17 shopping centers on high street and in established locations – 13 in Germany, 2 in Poland and one each in Austria and Hungary

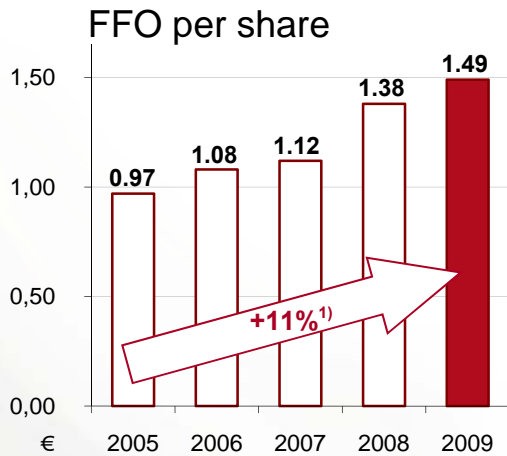

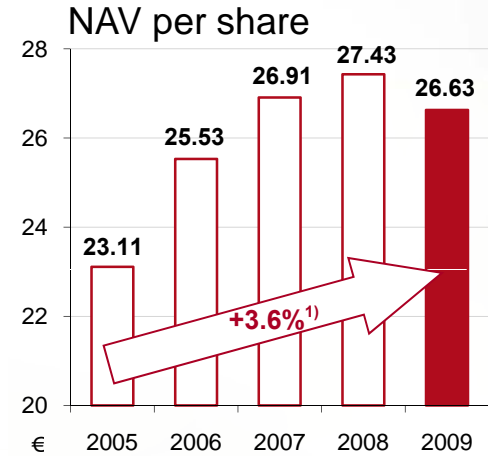

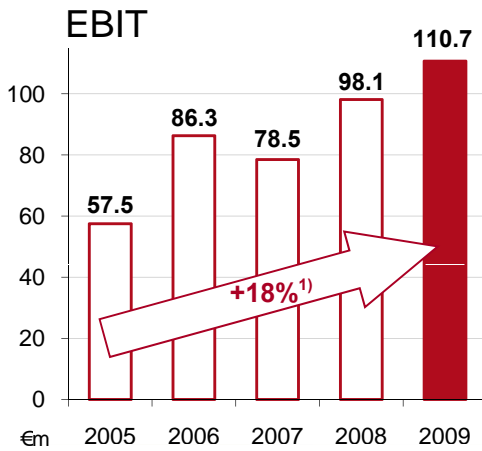

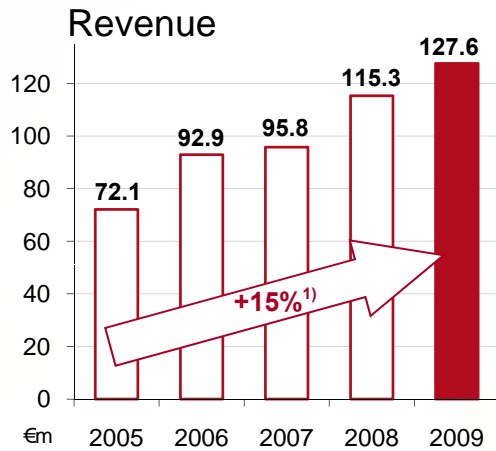

▪ Lettable space	approx. 805,000 sqm*
Retail shops	approx. 2,035*
Market value	approx. €3.1 billion*
Rents per year	€208 million*
Occupancy rate	> 99%

- 2009 portfolio valuation: 5.82% net initial yield
FFO yield 2009: approx. 6.4%
- Professional center management by ECE,
the European market leader in this industry

*incl. development/extension of Wildau, Dresden and Sulzbach, 100%-view

Company | Key Figures

¹⁾2005-2009, Compound Annual Growth Rate (CAGR) ²⁾proposal

Company | Lease System

General form of
lease contracts
for DES-tenants

Participation in
sales growth of
retail industry

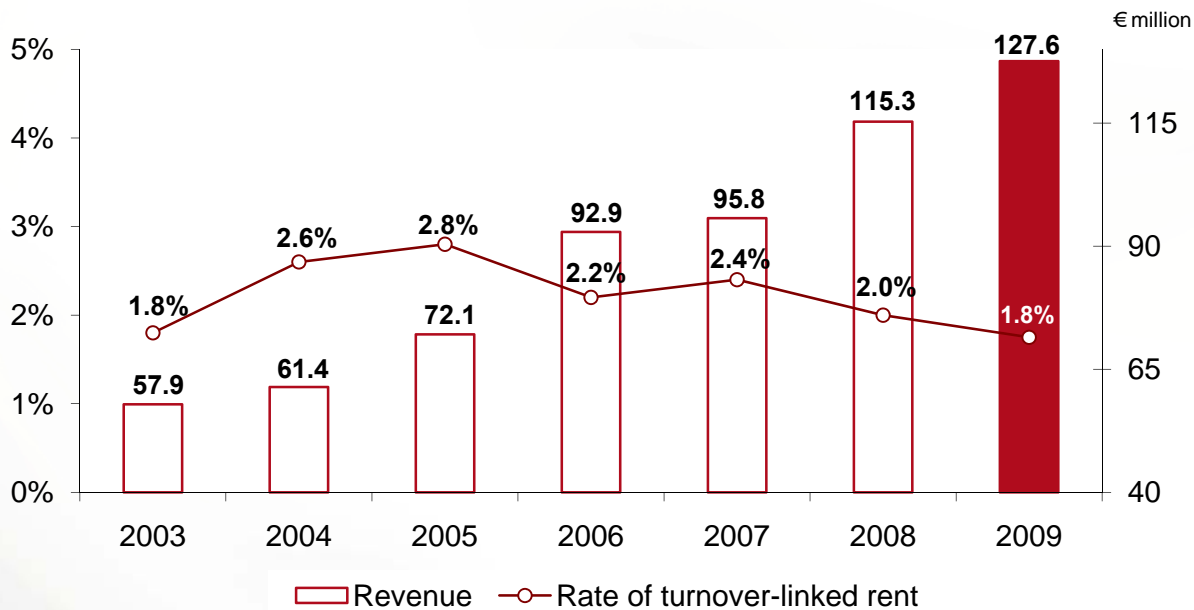

- Lease standards:
 - 10 years lease only
 - no break-up option
 - turnover-linked rents
 - minimum rents are CPI-linked

Company | Lease System

- avg. rent per sqm and year: €250
- avg. turnover per sqm and year: €4,700
- Rent-to-sales-ratio: 7-11%
- weighted maturity of rental contracts: 6.7 years

avg. German retail:
€3,330

Company | Targets

- Long term net asset value enhancement
- “buy & hold”-strategy
- Stable and attractive dividends
Dividend yield: currently **4.6%**
- Investment-focus: Germany and up to 25% Europe
- Portfolio extension by 10% per year
 - by acquisition of new shopping centers
 - by increasing existing amounts of holdings
 - by expanding holdings

Main focus on
NAV and dividend

Continuous growth

Appendix I Environment

- Climate protection is one of the most important issues for Deutsche EuroShop. We believe that sustainability and profitability, the shopping experience and environmental awareness do not have to be opposites. Long-term thinking is part of our strategy. This includes playing our part in environmental protection.
- All our German shopping centers have contracts with suppliers that use regenerative energy sources such as hydroelectric power for their electricity needs. The “EnergieVision” organisation certified the green electricity for eleven of our German centers with the renowned “ok-power” accreditation in 2009. We plan to switch the centers in other countries to green electricity as well in the next few years.
- The twelve participating centers used a total of around 49 million kWh of green electricity. This represented 100% of the electricity requirements in our German shopping centers. As a result, based on conservative calculations this meant a reduction of around 19,300 tonnes in carbon dioxide emissions – this equates to the annual CO₂ emissions of just under 900 two-person households. We have already reduced the energy consumption of our shopping centers by using heat exchangers and energy-saving light bulbs.
- Deutsche EuroShop, through its shopping centers, also supports a range of activities at local and regional level in the areas of ecology, society and economy.
