Deutsche Annington Immobilien SE, Düsseldorf, (DAIG) is a capital market-oriented company within the meaning of Section 264d of the German Commercial Code (HGB), meaning that it is considered to be a large corporation within the meaning of Section 267 HGB.

Monterey Holdings I S.à r.l., Luxembourg's shareholding fell below the threshold of 50 % mark on May 20, 2014. The management board of Deutsche Annington Immobilien SE is obliged to prepare a dependency report up to this point.

On September 3, 2014, German Stock Exchange admitted DAIG to the MDAX with effect as at September 22, 2014.

Back on June 10, 2013, the rating agency Standard & Poor's (S&P) gave the company a "BBB" investment grade rating (long-term corporate credit rating). In the course of the announced takeover of GAGFAH S.A., Luxembourg, (GAGFAH) S&P not only confirmed this rating, but also indicated that the company would be upgraded to a "BBB+" rating once the takeover had been successfully completed.

Deutsche Annington Immobilien SE performs the function of the management holding company within the Group. On the one hand, it is responsible for strategic management, while on the other hand, it coordinates and pools overarching operational tasks, which are performed in a standardised manner for the Group companies under service agreements.

In accordance with the cash pooling agreement according to the arm's length principle, Deutsche Annington Immobilien SE performs, as the main account holder and the cash pool manager, the intra-Group cash pooling with the exception of the companies that are financed through the structured loans with a consortium of the Berlin Hyp AG, the Landesbank Berlin and the Landesbank Baden-Württemberg. The purpose of cash pooling is to optimise liquidity management and the Group's financial result.

In the 2014 financial year, DAIG SE concluded a Revolving Credit Facility with Commerzbank worth € 130 million, and with a term of two years commencing on March 4, 2014, to finance its normal business activities. By the end of the financial year, € 4.6 million of this credit line had been utilised in the form of issued guarantees.

In the 2014 financial year, Deutsche Annington Informationssysteme GmbH, Düsseldorf, merged with DAIG, by way of absorption, with effect from January 1, 2014.

As the parent company of the Deutsche Annington Immobilien Group, DAIG prepares consolidated financial statements in accordance with the IFRS standards as they are to be applied in the EU and in accordance with the supplementary commercial law provisions under Section 315a (1) HGB. The annual financial statements and the consolidated financial statements are published in the electronic Federal Gazette. Furthermore, the consolidated financial statements can be accessed on the company's website.

In application of Section 315 (3) HGB in conjunction with Section 298 (3) HGB, the Group management report of Deutsche Annington Immobilien SE was combined and published together with the consolidated financial statements.

### A. Accounting and valuation principles

The annual financial statements for the financial year from January 1 to December 31, 2014 have been prepared in euros ( $\in$ ) according to the accounting principles of the German Commercial Code (HGB) and the German Stock Corporation Act (AktG). The amounts disclosed in the Notes are in euros ( $\in$ ) or in thousands of euros ( $\in$  k).

The income statement has been prepared using the nature of expense method. To improve clarity and informative value, certain items in the income statement and balance sheet are combined. These items are shown separately and explained in the Notes.

Intangible assets are carried at acquisition cost and amortised on a straight-line basis over a period of 3 years.

**Tangible assets** are valued at acquisition cost and, insofar as they are subject to depreciation, depreciated over their respective useful lives.

Fixtures, furniture and office equipment are depreciated on a straight-line basis over periods of between 3 and 13 years. New movable assets are depreciated exclusively pro rata temporis. Minor assets, i.e. assets whose acquisition cost is up to and including € 410.00, are written off in full in their year of purchase.

**Financial assets** are reported at cost, or, if permanent impairment is anticipated, at the lower fair value. If the reasons for amortisation cease to exist, write-ups are applied accordingly.

**Interest-free and low-interest loans** are stated at their present values, with other loans being reported at their nominal value.

**Receivables and other assets** are stated at their nominal value. The fund assets for pensions and obligations of a similarly long-term nature are stated at fair value. Allowance is made for all discernible individual risks by stating values cautiously. Any further general risks are covered by general valuation allowances.

Securities classified as current assets are stated at cost.

Cash and cash equivalents are reported at their nominal value on the balance sheet date.

**Prepaid expenses** are expenses incurred prior to the balance sheet date insofar as they constitute expenses for a certain period after this date.

The provisions of Section 272 HGB as well as Sections 150 et seq. AktG apply to the accounting treatment of equity.

**Subscribed capital** is valued at its nominal value.

The **provisions** allow for all discernible risks and uncertain obligations. Provisions are established in the amount of the settlement amount considered necessary using reasonable commercial judgement.

With provisions with a residual term of more than one year, future price and cost increases are taken into consideration and discounting to the balance-sheet date is performed. The interest rates corresponding to the residual terms of the provisions are used, as announced by the Deutsche Bundesbank in accordance with the German Provision Discounting Ordinance (Rückstellungsabzinsungsverordnung).

**Provisions for pensions and similar obligations** are determined on the basis of recognised actuarial principles using the projected unit credit method. In accordance with Section 253 (2) sentence 2 HGB, a residual term of 15 years is assumed. A discount rate of 4.55 % is therefore used for the valuation. The biometric basis for calculation is still the Heubeck 2005G mortality tables. The projected salary increases are assumed to be 2.75 % p. a. and the projected pension payment increases 2.00 % p. a.

The provisions for part-time phased early retirement obligations are determined in line with actuarial principles using the projected unit credit method with a discount rate of 3.26 % p. a. and an assumed remaining term of 4 years. The projected salary increases are assumed to be 2.50 % p. a. The Heubeck 2005G mortality tables are taken as a basis for the calculation.

Pursuant to Section 246 (2) sentence 2 HGB, the assets of the insolvency policy to secure fulfilment shortfalls arising from part-time phased early retirement contracts are offset against the amounts for fulfilment shortfalls contained in the provisions for part-time phased early retirement obligations. Surplus asset values are shown separately in the balance sheet as a surplus arising from offsetting.

Reinsurance contracts for the pension benefits of individual persons were taken out against payment of a one-off insurance premium. Furthermore, securities and, to a minor extent, bank credit balances are held which also serve to secure the pension claims. The invested assets were pledged in favour of the beneficiaries and cannot be accessed by other creditors. They will be offset against the underlying obligations as what are known as "plan assets" in accordance with Section 246 (2) sentence 2 HGB.

The other long-term personnel provisions for anniversary bonuses and temporary assistance were calculated based on the projected unit credit method, applying actuarial principles, at an interest rate of 4.55 % p. a. based on the 2005G tables of Prof. Dr Klaus Heubeck. A general residual term of 15 years is assumed. The projected salary increases for temporary assistance are assumed to be 2.75 % p. a.

**Liabilities** are stated at the amount repayable.

In line with Section 274 HGB, **deferred taxes** are determined according to the balance sheet-based concept. Deferred taxes are determined for temporary differences between the amount of assets, liabilities, prepaid expenses and deferred income in the commercial financial statements and those prepared for tax purposes, including loss carryforwards which can be taken into account. As well as differences resulting from its own balance-sheet items, DAIG also includes those relating to subsidiaries and partnerships with which it forms a fiscal entity for tax purposes. Deferred taxes are measured with regard to corporate income tax and the solidarity charge on the basis of a tax rate of 15.825% and with regard to municipal trade tax on the basis of a tax rate of 16.625%. Deferred taxes of the same kind are shown netted. Any resulting overall excess of tax burdens is recognised in the balance sheet as deferred tax liabilities. The option under Section 274 (1) HGB is exercised and capitalisation of any possible net deferred tax asset is dispensed with.

DAIG only assumes contingent liabilities after carefully weighing up the risks. Based on the ongoing assessment of the risk situation for the contingent liabilities that have been assumed and taking into account the information obtained up until the time of preparation of these financial statements, DAIG expects the main debtors to be able to meet the obligations underlying these contingent liabilities. As a result, it considers the risk of claims arising from any of the contingent liabilities listed above to be unlikely.

The financial obligations are as follows:

€ k	2015	2016	2017	2018	from 2019
Under rental and service contracts	20,481	9,896	5,445	2,078	206

under TV basic-service contracts	9,407	9,407	9,407	9,407	87,516

In the 2011 financial year, Deutsche Multimedia Service GmbH, Düsseldorf signed contracts with Telekom Deutschland GmbH, Bonn with a view to creating a joint strategic partnership. As regards assumption of debt, Telekom Deutschland GmbH and DAIG have agreed that, in addition to Deutsche Multimedia Service GmbH, DAIG will jointly and severally enter into all existing and future obligations arising from the contracts. As at the balance sheet date, there are financial obligations of € 125 million resulting from the contract for the basic TV service. These obligations are offset against future income from marketing the basic TV service to the tenants.

# Auditor's Report

We have audited the annual financial statements, comprising the balance sheet, the income statement and the notes to the financial statements, together with the bookkeeping system and its combined management report prepared by Deutsche Annington Immobilien SE, Düsseldorf for the business year from January 1 to December 31, 2014. The maintenance of the books and records and the preparation of the annual financial statements and management report in accordance with German commercial law and supplementary provisions of the articles of association are the responsibility of the Company's executive board. Our responsibility is to express an opinion on the annual financial statements, together with the bookkeeping system, and the combined management report based on our audit.

We conducted our audit of the annual financial statements in accordance with § 317 HGB ["Handelsgesetzbuch": "German Commercial Code"] and German generally accepted standards for the audit of financial statements promulgated by the Institut der Wirtschaftsprüfer [Institute of Public Auditors in Germany] (IDW). Those standards require that we plan and perform the audit such that misstatements materially affecting the presentation of the net assets, financial position and results of operations in the annual financial statements in accordance with [German] principles of proper accounting and in the combined management report are detected with reasonable assurance. Knowledge of the business activities and the economic and legal environment of the Company and expectations as to possible misstatements are taken into account in the determination of audit procedures. The effectiveness of the accounting-related internal control system and the evidence supporting the disclosures in the books and records, the annual financial statements and the management report are examined primarily on a test basis within the framework of the audit. The audit includes assessing the accounting principles used and significant estimates made by the executive board, as well as evaluating the overall presentation of the annual financial statements and combined management report. We believe that our audit provides a reasonable basis for our opinion.

Our audit has not led to any reservations.

In our opinion, based on the findings of our audit, the annual financial statements comply with the legal requirements and supplementary provisions of the articles of incorporation and give a true and fair view of the net assets, financial position and results of operations of the Company in accordance with [German] principles of proper accounting. The combined management report is consistent with the annual financial statements and as a whole provides a suitable view of the Company's position and suitably presents the opportunities and risks of future development.
