The Credit Agreement provides the Company with a solid and reliable source of financing for the next years, with no significant debt maturing before 2007. The terms and conditions of the new Credit Agreement are fully reflected in the Company's reconfirmed outlook for 2003.

Dividends

Consistent with prior years the Company will continue to follow an earnings driven dividend policy. For the <u>sixth year in a row</u>, Shareholders can expect an **increasing dividend** for the fiscal year 2002. OUTLOOK 2003

For the year 2003, the Company <u>reconfirms</u> it's <u>outlook</u> and expects mid single digit revenue growth before acquisitions (in constant currency) and net income growth in the high single digit to low double digits range.

Ben Lipps, Chief Executive Officer of Fresenius Medical Care, commented: "We are pleased to have achieved an operating margin improvement in North America in the fourth quarter of 2002. We also continued our momentum with strong fourth quarter cash flow performance and record Free Cash Flow for the full-year. In North America we completed our strategic objective of developing and implementing a unique and differentiated dialysis therapy based on Fresenius Medical Care's technology, which includes the UltraCare[™] NR a program that uses the latest technology of single use high-flux Fresenius Polysulfone dialyzers.

Making this program cost neutral was an important milestone. We are well positioned in the United States where the net patient growth rate currently is in the range of 4 5%, and we believe this strategy provides for growth opportunities above market and new opportunities for future margin expansion. We are also positioned to succeed in a reimbursement environment that allows the provider to share in the healthcare savings achieved. In International, we continued to strengthen our position in both our patient care and products business. In our worldwide products business we achieved a growth rate of 6%, in constant currency, which exceeds the market growth rate and is a clear sign that our product technologies continue b be well received in the market place. Finally, I would like to thank all our employees again for their dedication to patient care and for their commitment to the Company's vision and values."
