Safe Harbor Statement

This presentation contains forward-looking statements that are subject to various risks and uncertainties. Future results could differ materially from those described in these forward-looking statements due to certain factors, e.g. changes in business, economic and competitive conditions, regulatory reforms, results of clinical trials, foreign exchange rate fluctuations, uncertainties in litigation or investigative proceedings, and the availability of financing. Fresenius does not undertake any responsibility to update the forward-looking statements contained in this presentation.

Fresenius Group: FY/17 Highlights

-  **Delivered on all targets: 14th consecutive record year and 25th consecutive dividend increase**
-  **Flawless integration of Quirónsalud**
-  **Successful entry into the biosimilars business**
-  **NxStage to strengthen vertically integrated dialysis business of Fresenius Medical Care**
-  **Ongoing organic growth across all business segments**
-  **Mid-term growth targets confirmed**

Fresenius Kabi: Update on US Generic IV Drug Market

2018 pricing environment expected to be in line with recent years

- Nothing 'out of the ordinary' in generic injectables market
- Key molecules to see more competition, however unchanged pricing environment in large base business
- Continued low single-digit price decline for base business anticipated in 2018
- Healthy volume growth projected to more than offset price decline

Strong customer relationships

- New FDA focus on accelerating generics approvals - excellent relationships with GPOs mitigate risk
- Broad portfolio, supply reliability and strong pipeline of new products are key assets in relationships with GPOs

¹ Association for Accessible Medicines, 2018

Generics help to keep health care expenses down

- Generic drugs represent 89% of US prescriptions but just 27% of costs¹

Fresenius Kabi: Prepared for the Next Decade

North America growth initiatives

- Substantial investments in U.S. plants to increase capacity and foster automation
- Growth and expansion of product portfolio
 - Ramp-up of pre-filled syringe business
 - Good progress with Parenteral Nutrition
 - IV solutions – production planned on U.S. ground in the medium-term
 - New compounding center with high levels of automation
 - Introduction of Agilia and INfusia pump

Worldwide growth initiatives

- New building with two additional antibiotics production lines in Portugal
- Intensified retail strategy for Enteral Nutrition
- Launch of Propofol in pre-filled syringe in China

Biosimilars

- Three late stage molecules making good progress
 - Adalimumab launch expected early 2019
 - Pegfilgrastim pivotal studies initiated for EU and U.S. on time
 - Tocilizumab phase I studies for EU and U.S. initiated

Fresenius Kabi: Current Topics

AKORN

- Fresenius is conducting an independent investigation, using external experts, into alleged breaches of FDA data integrity requirements relating to product development at Akorn, Inc.
- Management and Supervisory Boards of Fresenius will assess the findings of that investigation.
- Consummation of transaction may be affected if the closing conditions under the merger agreement are not met.
- Fresenius continues to seek FTC clearance.

HES

- EMA's committees recommended suspending market authorization for HES in Europe
- Fresenius is convinced that HES should remain on the market
- Kabi's outlook for 2018 considers meaningful risk adjustment

Fresenius Helios: Prepared for the Next Decade

Helios Health

- Organizational structure to manage cross-border synergies and knowledge transfer
- Building a platform for future growth

German Hospital Market

- Regulatory focus on minimum nursing staff levels
- Quality of care to be factored into remuneration
- Digitalization and clustering to raise efficiencies of Helios Germany

Spanish Hospital Market

- Adding capacities through expansion of existing facilities
- Setting up greenfield hospitals
- Pursuing market consolidation opportunities

Fresenius Kabi: Expected Organic Sales Growth 2018

North America

Mid-single-digit growth

- Growth in 2018 driven by increased number of new drug launches, ramp-up of pre-filled syringe business, standard IV solutions and parenteral nutrition
- More competition for key molecules; unchanged pricing environment in base business
- Vigorous launch activity in 2018: 15+ product launches expected

Europe

Low to mid-single-digit growth

- Enteral nutrition continues to drive growth

Fresenius Kabi: Expected Organic Sales Growth 2018

Emerging Markets

Likely double-digit growth

China

- New tender policy implementation now expected to be mostly completed mid 2018
- Low to mid single-digit price decline and continued double-digit volume growth projected
- Significant organic growth expected

Asia-Pacific ex China:

- Excellent growth momentum expected

Latin America/Africa:

- Continued strong growth expected despite difficult situation for local economies

Fresenius Helios

Helios Germany

- Lack of privatization opportunities limits growth potential
- No new acquisitions for almost two years
- 2018 DRG inflator set at 2.97% - final price increase will be lower
- Additional “DRG catalogue effects” in FY/18

Helios Spain

- Strong growth in Q4/17:
 - 12% sales growth
 - EBIT growth exceeds sales growth
- Seizing growth opportunities

Reconciliation Q4/17

Consolidated results for 2017 include special items related to the acquisition of the biosimilars business of Merck KGaA, the announced acquisition of the shares in Akorn, Inc. (acquisition related expenses). These are mainly transaction costs in the form of legal and consulting fees as well as costs of the financing commitment for the Akorn transaction. Moreover special items arose from a book gain from the revaluation of deferred tax liabilities due to U.S. tax reform as well as from the FCPA provision. In order to compare the results with the scope of original guidance, key figures are additionally adjusted for expenditures for further development of the biosimilars business. The following presentation shows the corresponding reconciliation to the IFRS values. There were neither adjustments nor special items in 2016.

€m	Basis for guidance comparison: Before special items and before biosimilars business	Expenditures for further development of biosimilars business	Before special items	Special items (acquisition-related expenses)	Special items (book gain U.S. tax reform)	Special items (FCPA provision)	After special items (IFRS reported)

Reconciliation FY/17

Consolidated results for 2017 include special items related to the acquisition of the biosimilars business of Merck KGaA, the announced acquisition of the shares in Akorn, Inc. (acquisition related expenses). These are mainly transaction costs in the form of legal and consulting fees as well as costs of the financing commitment for the Akorn transaction. Moreover special items arose from a book gain from the revaluation of deferred tax liabilities due to U.S. tax reform as well as from the FCPA provision. In order to compare the results with the scope of original guidance, key figures are additionally adjusted for expenditures for further development of the biosimilars business. The following presentation shows the corresponding reconciliation to the IFRS values. There were neither adjustments nor special items in 2016.

€m	Basis for guidance comparison: Before special items and before biosimilars business	Expenditures for further development of biosimilars business	Before special items	Special items (acquisition-related expenses)	Special items (book gain U.S. tax reform)	Special items (FCPA provision)	After special items (IFRS reported)
