QIAGEN N.V., Hulsterweg 82, 5912 PL Venlo, The Netherlands

(Name, Telephone, E-mail and/or Facsimile number and Address of Company Contact Person)

---

Securities registered or to be registered pursuant to Section 12(b) of the Act:

Title of class:	Trading Symbol	Name of each exchange on which registered:
Common Shares, par value EUR 0.01 per share	QGEN	New York Stock Exchange

Securities registered or to be registered pursuant to Section 12(g) of the Act:

None

Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act:

None

---

The number of outstanding Common Shares as of December 31, 2023 was 228,202,755.

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.  Yes  No

If this report is an annual or transition report, indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934.  Yes  No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.  Yes  No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).  Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or an emerging growth company. See definition of "large accelerated filer," "accelerated filer," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer  Accelerated filer  Non-accelerated filer  Emerging Growth Company

If an emerging growth company that prepares its financial statements in accordance with U.S. GAAP, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards\* provided pursuant to Section 13(a) of the Exchange Act.

\* The term "new or revised financial accounting standard" refers to any update issued by the Financial Accounting Standards Board to its Accounting Standards Codification after April 5, 2012.

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effective of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report.

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements.

Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to §240.10D-1(b).

Indicate by check mark which basis of accounting the registrant has used to prepare the financial statements included in this filing:

- U.S. GAAP
- International Financial Reporting Standards as issued by the International Accounting Standards Board
- Other

If "Other" has been checked in response to the previous question, indicate by check mark which financial statement item the registrant has elected to follow:

- Item 17
- Item 18

If this is an annual report, indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).  Yes  No

Unless the context otherwise requires, references herein to “we,” “us,” “our,” the “Company” or to “QIAGEN” are to QIAGEN N.V. and its consolidated subsidiaries. Totals within tables presented in U.S. dollar millions may contain rounding differences.

---

### **EXCHANGE RATES**

QIAGEN publishes its financial statements in U.S. dollars. In this Annual Report on Form 20-F, references to “dollars” or “\$” are to U.S. dollars, references to CHF are to the Swiss franc, and references to “EUR”, the “euro” or “€” are to the European Monetary Union euro. Except as otherwise stated herein, all monetary amounts in this Annual Report on Form 20-F have been presented in U.S. dollars.

The exchange rate used for the euro was obtained from the European Central Bank and is based on the daily concertation procedure between central banks across Europe, which normally takes place around 2:10 P.M. Central European Time. This rate at March 7, 2024 was \$1.0895 per €1.

For information regarding the effects of currency fluctuations on our results, see "Operating and Financial Review."

### **TRADEMARKS**

We have proprietary rights to trademarks, trade names and service marks used in this Annual Report on Form 20-F that are important to our business, many of which are registered under applicable intellectual property laws. Solely for convenience, trademarks, trade names and service marks referred to in this Annual Report on Form 20-F may appear without the “®” or “™” symbols, but such references are not intended to indicate, in any way, that we will not assert, to the fullest extent possible under applicable law, our rights or the rights of the applicable licensor to these trademarks, trade names and service marks. We do not intend our use or display of other companies’ trademarks, trade names or service marks to imply a relationship with, or endorsement or sponsorship of us by, any other companies. Each trademark, trade name or service mark of any other company appearing in this Annual Report on Form 20-F is the property of its respective holder.

Overview

## Common Shares

### Market Environment

Despite concerns over inflation, rising interest rates, and increasing geopolitical tensions around the world, various stock markets defied expectations in 2023 and posted gains during very volatile conditions for the year.

This rally, however, was dominated by a select group of stocks as many others were held back by fears of recession and higher interest rates.

All three major U.S. indices ended 2023 with gains, making up for losses in 2022. The Dow Jones Industrial Average was up 14% and the S&P 500 returned 24%. Mega-cap tech companies made the biggest comeback, reflected in the 54% rise in the NASDAQ 100 Index.

In Germany, the blue-chip DAX-40 Index (QIAGEN is a member) rose 20%, while the TecDAX Index of top technology companies (QIAGEN is also a member) closed up 14% for the year. This overall performance reflects the impact on valuations due to inflation in tandem with the continued economic recovery following the COVID-19 pandemic.

### Global Shares listed in the U.S. and Europe

QIAGEN Global Shares have been registered and traded in the United States since 1996 and are traded on the New York Stock Exchange (NYSE).

These Shares have also traded in Germany on the Frankfurt Stock Exchange since 1997, and the Prime Standard segment since its launch in 2003, where shares are traded on the XETRA electronic trading platform as well as on the Frankfurt Börse involving floor trading.

The dual listing on the NYSE and the Frankfurt exchange offers advantages for QIAGEN, our shareholders and employees. The presence in both markets enhances liquidity, and increases the opportunity to attract investors, particularly those in the U.S. restricted to only holding in U.S. dollar-denominated investments. Unlike American Depositary Receipts (ADRs), QIAGEN’s global shares provide equal rights for all shareholders and can be traded on either exchange, in U.S. dollars or euros.

### Share Price and Liquidity

QIAGEN’s share price fared relatively well in 2023 as the life sciences and diagnostic industry continued to reset business conditions following significant gains during the COVID-19 pandemic, ending the year with a 13% decline to \$43.43 on the NYSE, and a 16% decline to EUR 39.40 on the Frankfurt Stock Exchange (XETRA).

Our shares continued to offer high liquidity, with average daily trading volume of approximately 1.5 million in 2023 - around 1.0 million in the U.S., and 0.5 million in Germany.

As of December 31, 2023, the free float, which affects weighting of QIAGEN shares in various indices, was approximately 99%.

### Shareholder Structure

QIAGEN has a global investor base comprised of more than 600 identified institutional investors, with approximately 46% in North America, 50% in Europe, and the remaining shares held in the rest of the world. Members of the Managing Board and the Supervisory Board, in total, owned less than 1% of QIAGEN’s outstanding common shares at the end of 2023.

### Market Capitalization

	2023
Year-end market capitalization (in \$ million)	9,911
Year-end market capitalization (in € million)	8,991

Overview

2023 Shareholder Structure by Geography

2023 Shareholder Structure by Investor Type

Annual Shareholder Meeting

At the Annual General Meeting on June 22, 2023, in Venlo, the Netherlands, shareholders gave overwhelming approval to all agenda items. Shareholders present or represented at the meeting held approximately 158.7 million shares, or 69% of QIAGEN’s approximately 230.8 million issued shares as of the record date for the meeting. Details of attendance and voting results are available at [corporate.QIAGEN.com](https://corporate.QIAGEN.com).

Investor Relations and Shareholder Engagement

QIAGEN is committed to offering shareholders, analysts and communities around the world transparent, comprehensive and readily accessible information on our performance, strategy and future prospects, as well as our vision and mission. Interactions included individual calls, roadshows and attendance at broker-sponsored investor conferences.

These efforts were acknowledged in the annual “Institutional Investor” magazine survey of investors, with the QIAGEN Investor Relations team being recognized as the top team in the EMEA region within the Medtech industry, and among the top five in the Healthcare sector.

# Management Report

## Business and Operating Environment

### Company Overview

QIAGEN is a leading global provider of Sample to Insight solutions that enable customers to gain valuable molecular insights from any biological sample. Our sample technologies isolate and process deoxyribonucleic acid (DNA), ribonucleic acid (RNA) and proteins – the building blocks of life – from blood, tissue and other materials. Assay technologies make these biomolecules visible and ready for analysis using a range of technologies. Bioinformatics software and knowledge bases are used to interpret complex genomic data sets to provide relevant, actionable insights. Instruments and automation solutions are used to tie together these products into seamless and cost-effective workflows. We provide solutions to more than 500,000 customers around the world in Molecular Diagnostics (human healthcare) and Life Sciences (academic research, pharma and biotech companies, and applied applications such as human identification / forensics and food safety). As of December 31, 2023, we employed approximately 6,000 people in more than 35 locations worldwide.

QIAGEN was founded in 1984 and began operations in 1986 as a pioneer in the emerging biotechnology sector with a revolutionary method that standardized and accelerated the extraction and purification of nucleic acids from biological samples, which means any material containing DNA, RNA or proteins. As molecular biology and genomic knowledge has grown to influence many areas of daily life, we have expanded to serve the full spectrum of market needs, developing new instruments, consumables and digital solutions; partnering with researchers and pharmaceutical companies, and acquiring companies and technologies that best complement our portfolio. We believe the addressable global market for our portfolio totals more than \$11 billion. We continue to accelerate our portfolio growth and increase our efficiency and effectiveness while also enhancing our customer experience, our corporate citizenship, and our position as an employer of choice. Our growth strategy is anchored in our Five Pillars of Growth: sample technologies, the digital PCR (Polymerase Chain Reaction) platform QIAcuity, the clinical PCR automation

solutions QIAstat-Dx and NeuMoDx and the QuantiFERON technology platform used to detect medical conditions such as latent tuberculosis. Our growth has been funded through internally generated funds, as well as debt offerings and the public sales of equity securities. Our global shares are listed on the New York Stock Exchange under the ticker symbol QGEN and on the Frankfurt Stock Exchange as QIA.

QIAGEN N.V. is the holding company for more than 50 consolidated subsidiaries, many of which have the primary function of distributing our products and services on a regional basis. Certain subsidiaries also have research and development or production activities. The Company is registered under its commercial and legal name QIAGEN N.V. with the trade register (kamer van koophandel) of the Dutch region Limburg Noord under file number 12036979. QIAGEN N.V. is incorporated under Dutch law as a public limited liability company (naamloze vennootschap) and is organized as a holding company. Our principal executive office is located at Hulsterweg 82, 5912 PL Venlo, The Netherlands, and our telephone number is +31-77-355-6600.

Further information on QIAGEN can be found at [www.qiagen.com](http://www.qiagen.com). The U.S. Securities Exchange Commission (SEC) website at [www.sec.gov](http://www.sec.gov) contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC. Information contained in, or that can be accessed through, our website is not a part of, and shall not be incorporated by reference into, this Annual Report. We have included our website address in this document solely as an inactive textual reference.

### Operating Environment

#### Economic Environment

The global economy grew by approximately 2.9% in 2023, slightly below the 3.1% growth rate recorded for 2022, marking it one of the more modest annual growth performances of the last 20 years. This soft growth trajectory can be attributed to ongoing inflationary pressures and the complex unwinding of post-pandemic economic disruptions. Central banks around the world continued to walk a fine line of monetary tightening, adjusting interest rates to curb inflation while trying to mitigate impacts on national economies. The U.S.

## Management Report

Dollar Index, after seeing volatility in 2022, maintained a relatively stable performance throughout 2023, with minor fluctuations reflecting ongoing economic uncertainties.

### Industry Environment

Life Sciences and Molecular Diagnostics faced diverging trends in 2023 - there was growth in areas that had been adversely affected by the pandemic lockdowns, but another significant drop in demand for COVID-19 testing and surveillance products compared with the peak level in 2021. The pandemic had led to significant growth in the installed base of instruments, and competitors were now seeking to expand this base to other applications in Life Sciences and Molecular Diagnostics. Although numerous smaller companies have emerged in recent years, larger companies such as QIAGEN boast the crucial advantage of better global distribution and production capacity, as well as brand recognition and credibility.

The addressable Life Sciences and Molecular Diagnostics industry segments generate an estimated \$11 billion of annual sales, and are expected to maintain a healthy rate of single-digit sales growth in the coming years. Key growth drivers include continued research funding to advance our

understanding of biology, as well as consistently strong medical demand for molecular clinical testing.

### QIAGEN Products

Our leadership in molecular research and testing solutions leverages our product portfolio across a wide range of applications. These are grouped into two main categories:

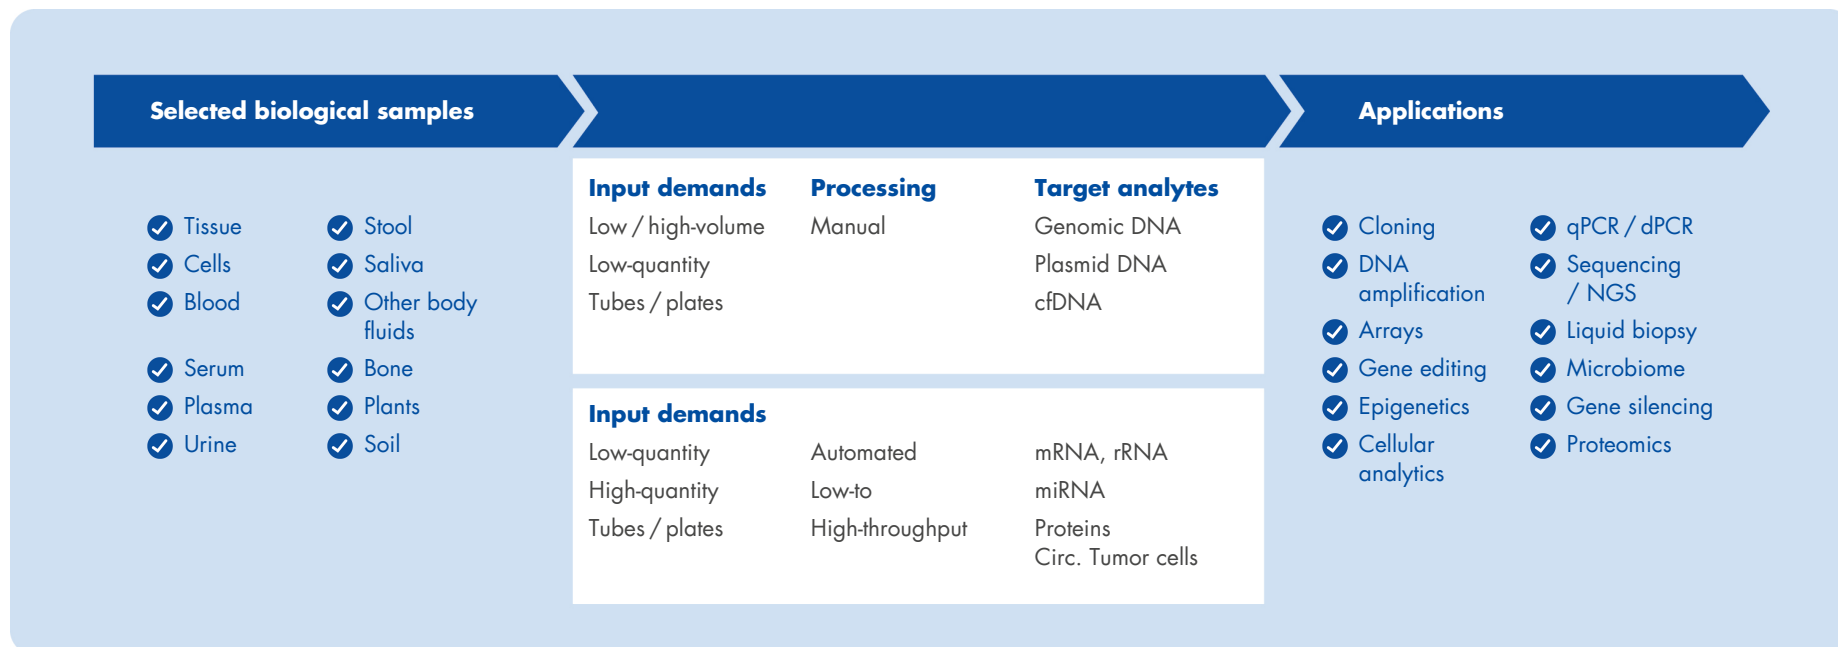

- Consumables and related revenues involve our consumables kits, bioinformatics solutions, royalties, co-development milestone payments and services (88% of total net sales in 2023); and
- Instruments and related services and contracts (12% of total net sales in 2023).

### QIAGEN Product Groups

#### Sample Technologies

Sample Technologies is the first of our Five Pillars of Growth and includes products involved in the first step of any molecular lab process.

**Management Report**

Our broad portfolio of Sample technologies includes consumables and instruments used in sample collection, stabilization, storage, purification and quality control. Some of our consumables are designed to run on our instruments, while others are universal kits designed for use with any molecular-testing platform. These products are used in research and applied testing (forensics / human identification and food safety) laboratories as well as clinical testing.

## Management Report

Sample technologies	Selected QIAGEN brands
<b>Primary Sample technology consumables</b> <ul style="list-style-type: none"> <li>Nucleic acid stabilization and purification kits designed for primary sample materials (DNA, RNA), manual and automated processing for genotyping, gene expression, viral and bacterial analysis</li> <li>Mainly based on silica membrane and magnetic bead technologies</li> </ul>	<ul style="list-style-type: none"> <li>QIAamp</li> <li>PAXgene</li> <li>AllPrep</li> <li>DNeasy</li> <li>AdnaTest</li> <li>QIAprep&amp;amp;</li> <li>RNeasy</li> <li>MagAttract</li> </ul>

### Diagnostic Solutions

Diagnostic solutions include our molecular testing platforms and consumables covering three of our Pillars of Growth, which are QuantiFERON, QIAstat-Dx and NeuMoDx, as well as Precision Diagnostics which involves companion diagnostic co-development revenues from projects with pharmaceutical companies, regulated assays and solutions for laboratory developed tests. Additional areas include Oncology and Sexual & Reproductive Health for detection of various diseases and for other laboratory processes.

Diagnostic solutions	Selected QIAGEN brands
<b>Immune response consumables</b> <ul style="list-style-type: none"> <li>Interferon-Gamma Release Assay (IGRA) for latent TB testing</li> <li>Assays for post-transplant testing, viral load monitoring, assessment of T-Cell response to COVID-19</li> </ul>	<ul style="list-style-type: none"> <li>QuantiFERON</li> </ul>
<b>Oncology and Sexual &amp; Reproductive health consumables</b> <ul style="list-style-type: none"> <li>Assays for analysis of genomic variants such as mutations, insertions, deletions and fusions</li> <li>Assays for prenatal testing and detection of sexually transmitted diseases and HPV</li> </ul>	<ul style="list-style-type: none"> <li>therascreen</li> <li>AmniSure / PartoSure</li> <li>ipsogen</li> <li>digene HC2</li> </ul>
<b>Sample to Insight instruments and dedicated assays</b> <ul style="list-style-type: none"> <li>One-step molecular analysis of hard-to-diagnose syndromes</li> <li>Fully integrated PCR testing</li> </ul>	<ul style="list-style-type: none"> <li>QIAstat-Dx</li> <li>QIAstat-Dx Rise</li> <li>NeuMoDx</li> </ul>

## Management Report

### PCR / Nucleic Acid Amplification

PCR / Nucleic Acid Amplification involves our research and applied PCR solutions and components. The product group includes another of our Five Pillars of Growth: QIAcuity. We offer optimized solutions for end-point PCR, quantitative PCR and digital PCR. Our kits, assays, instruments and accessories amplify and detect targets and streamline workflow for virtually any application.

PCR/Nucleic acid amplification	Selected QIAGEN brands
Research PCR consumables <ul style="list-style-type: none"> <li>Different generations of PCR, quantitative PCR, reverse transcription and combinations (RT-PCR) kits for analysis of gene expression, genotyping and gene regulation, running on QIAGEN or third-party instruments and technologies</li> </ul>	<ul style="list-style-type: none"> <li>QuantiTect</li> <li>OneStep RT-PCR</li> <li>Type-it</li> <li>OmniScript</li> <li>QuantiFast</li> <li>QIAGEN Multiplex</li> <li>miRCURY LNA</li> <li>miScript</li> <li>QuantiNova</li> <li>HotStarTaq</li> <li>TopTaq</li> </ul>
Human ID / Forensics assay consumables <ul style="list-style-type: none"> <li>STR assays for Human ID, additional assays for food contamination</li> </ul>	<ul style="list-style-type: none"> <li>Investigator (human ID / forensics)</li> <li>mericon (food safety)</li> </ul>
PCR instruments <ul style="list-style-type: none"> <li>Digital PCR solutions</li> <li>qPCR solutions</li> </ul>	<ul style="list-style-type: none"> <li>QIAcuity</li> <li>Rotor-Gene Q</li> <li>QIAquant</li> <li>QIAgility</li> </ul>
OEM consumables <ul style="list-style-type: none"> <li>Custom-developed and configured enzymes and PCR solutions that are sold to OEM customers</li> </ul>	<ul style="list-style-type: none"> <li>Provided on an individualized contract basis</li> </ul>

### Genomics / NGS

This product group includes our universal NGS (next-generation sequencing) solutions for use with any NGS sequencer as well as the full bioinformatics portfolio offered by QIAGEN Digital Insights.

## Management Report

Genomics / NGS	Selected QIAGEN brands		
Universal NGS consumables <ul style="list-style-type: none"> <li>• Predefined and custom NGS gene panels (DNA, RNA), library prep kits and components, whole genome amplification, etc.</li> <li>• Sequence-based assays for forensic genetic genealogy</li> </ul>	<ul style="list-style-type: none"> <li>• QIAseq</li> </ul>	<ul style="list-style-type: none"> <li>• REPLI-g Epitect</li> </ul>	<ul style="list-style-type: none"> <li>• ForenSeq Kintelligence</li> </ul>
QIAGEN Digital Insights solutions <ul style="list-style-type: none"> <li>• Bioinformatics solutions analyze and interpret data to deliver actionable insights from NGS. This includes freestanding software or cloud-based solutions and is also integrated into many QIAGEN consumables and instruments</li> </ul>	<ul style="list-style-type: none"> <li>• QIAGEN Clinical Insight</li> <li>• QCI Interpret One</li> <li>• Ingenuity Variant Analysis</li> </ul>	<ul style="list-style-type: none"> <li>• CLC Genomics Workbench</li> <li>• OmicSoft</li> <li>• Ingenuity Pathway Analysis</li> </ul>	<ul style="list-style-type: none"> <li>• QIAGEN Knowledge Base</li> <li>• HGMD</li> </ul>
Custom laboratory and genomic services <ul style="list-style-type: none"> <li>• Custom services such as DNA sequencing, whole genome amplification, and non-cGMP DNA production</li> </ul>	<ul style="list-style-type: none"> <li>• Provided on an individualized contract basis</li> </ul>		

### Other

Revenues from various sources including protein biology products, royalties, intellectual property and freight charges.

### Principal Markets

We sell our products to more than 500,000 customers in two broad customer groups: Molecular Diagnostics (clinical testing) and Life Sciences (academia, pharmaceutical R&D and applied testing). Sales to these groups were as follows:

Net sales (in millions)	2023	2022	2021
Molecular Diagnostics	\$1,035.5	\$1,126.2	\$1,143.7
Life Sciences	929.8	1,015.3	1,108.0
<b>Total</b>	<b>\$1,965.3</b>	<b>\$2,141.5</b>	<b>\$2,251.7</b>

We estimate the total addressable market at over \$11 billion annually.

### Molecular Diagnostics

The molecular diagnostics market includes healthcare providers engaged in many aspects of patient care that require accurate diagnoses and insights to

guide treatment decisions in oncology, infectious diseases and immune monitoring.

We offer one of the broadest portfolios of molecular technologies for healthcare. The success of molecular testing in healthcare depends on the ability to accurately analyze purified nucleic acid samples from sources such as blood, tissue, body fluids and stool. Automated systems process tests reliably and efficiently, often handling hundreds of samples simultaneously. Our range of assays for diseases and biomarkers speeds up and simplifies laboratory workflow and standardizes lab procedures.

Molecular testing is the most dynamic segment of the global in vitro diagnostics market. The pandemic has demonstrated the value of molecular testing in healthcare and we expect the market to provide significant growth opportunities.

We have built a position as a preferred partner to co-develop companion diagnostics paired with targeted drugs and have created a rich pipeline of molecular tests that are transforming the treatment of cancer and other diseases. We have more than 30 master collaboration agreements with pharmaceutical industry customers, some with multiple co-development projects. In 2023, we continued to expand on these partnerships with new agreements, for example a new partnership with Servier for the development of a companion diagnostic in

## Management Report

Acute Myeloid Leukemia therapy. Also, our portfolio of assays was expanded following the FDA approval of a companion diagnostic for Blueprint Medicines' therapy for gastrointestinal stromal tumors. Companion diagnostics move

through clinical trials and regulatory approvals, along with the paired drugs, to commercialization and marketing to healthcare providers.

### Selected Molecular Diagnostics products

Sample technologies	Assay technologies	Instruments	Bioinformatics
For extraction from: <ul style="list-style-type: none"> <li>• Tissue</li> <li>• Blood</li> <li>• Swabs, other</li> </ul>	Indication areas <ul style="list-style-type: none"> <li>• Oncology</li> <li>• Immune modulation</li> <li>• Infectious diseases Technologies: QuantiFERON, Polymerase Chain Reaction (PCR), Next-generation sequencing (NGS)</li> </ul>	<ul style="list-style-type: none"> <li>• QIAstat-Dx</li> <li>• NeuMoDx</li> <li>• QIA Symphony RGQ</li> <li>• QIAcube Connect MDx</li> <li>• EZ2 Connect MDx</li> <li>• QIAstat Rise</li> </ul>	QIAGEN Clinical Insight (QCI) <ul style="list-style-type: none"> <li>• Hereditary diseases</li> <li>• Somatic and germline cancers</li> <li>• All diseases</li> </ul>

### Life Sciences

The Life Sciences market includes governments and biotechnology companies – and researchers using molecular testing technologies who are generally served by public funding in areas such as medicine and clinical development, forensics, and exploring the building blocks of life.

We partner with customers across diverse disciplines in academia and industry, providing sample technologies, assay technologies, bioinformatics and services to universities and institutes, pharmaceutical and biotech companies, government and law enforcement agencies.

We provide Sample to Insight solutions to academic and research institutions around the world. We focus on enabling researchers to use high-quality technologies to generate reliable, fast, highly reproducible results, sometimes replacing time-consuming traditional or in-house methods. We often partner with leading institutions on research projects and develop customized solutions such as NGS panels for the sequencing of multiple gene targets.

We are a global leader in solutions for governments and industry, particularly in forensic testing and human identification. The value of genetic

"fingerprinting" has been proven in criminal investigations and examinations of paternity or ancestry, as well as in food safety. We provide sample collection and analytical solutions for law enforcement and human identification labs, as well as advanced technologies for studies of microbiomes and their effect on health and the environment.

We have deep relationships with pharmaceutical and biotechnology companies. Drug discovery and development as well as translational research efforts increasingly employ genomic information, both to guide research in diseases and to differentiate patient populations that are most likely to respond to particular therapies. We estimate that about half of our sales to these companies supports research, while the other half supports clinical development, including stratification of patient populations based on genetic information. Also, QIAGEN Digital Insights solutions are widely used to guide pharmaceutical research and treatment options.

## Management Report

### Selected Life Sciences products

Sample technologies	Assay technologies	Instruments	Bioinformatics
~300 different kit types for extraction and purification of DNA, RNA and proteins from tissue, blood, cells, stool, plants, soil, and other sample types	<ul style="list-style-type: none"> <li>Real-time PCR</li> <li>Digital PCR</li> <li>Next-generation sequencing</li> </ul>	<ul style="list-style-type: none"> <li>QIAsymphony</li> <li>QIAcube Connect</li> <li>QIAcuity digital PCR</li> </ul>	<ul style="list-style-type: none"> <li>Ingenuity Pathway Analysis (IPA)</li> <li>Genomics Workbench/Server</li> <li>Microbial Pro Suite/RNA-seq</li> <li>Microbial Epigenetics</li> </ul>

### Competition

The markets for most of our products are very competitive. Competitors may have developed, or could develop in the future, new technologies that compete with our products or even render our products obsolete. In sample technology products, we experience competition in various markets from other companies providing sample preparation products in kit form and assay solutions. These competitors include, but are not limited to, companies with a focus on nucleic acid separation and purification kits, assay solutions, reagents and instrumentation. We compete with other suppliers through innovative technologies and products, offering a comprehensive solution for nucleic acid collection, pre-treatment, separation and purification needs as well as downstream applications, providing significant advantages in speed, reliability, accuracy, convenience, reproducibility and ease of use.

Some of our other products within our molecular diagnostics customer class, such as tests for chlamydia, gonorrhea, hepatitis B virus, herpes simplex virus and CMV (cytomegalovirus), compete against existing screening, monitoring and diagnostic technologies, including tissue culture and antigen-based diagnostic methodologies. We believe the primary competitive factors in the market for gene-based probe diagnostics and other screening devices are clinical validation, performance and reliability, ease of use, standardization, cost, proprietary position, competitors' market shares, access to distribution channels, regulatory approvals and reimbursement.

We believe our competitors typically do not have the same comprehensive approach to sample to insight solutions as we do, nor do they have the ability to provide the broad range of technologies and depth of products and services

that we offer. Current and potential competitors may be in the process of seeking FDA or foreign regulatory approvals for their respective products. Our continued future success will depend in large part on our ability to maintain our technological advantage over competing products, expand our market presence and preserve customer loyalty. There can be no assurance that we will be able to compete effectively in the future or that development by others will not render our technologies or products non-competitive.

### Global Presence by Product Category and Geographic Market

#### Product Category Information

Net sales for the product categories are attributed based on those revenues related to sample and assay products and related revenues including bioinformatics solutions, and revenues derived from instrumentation sales.

Net sales (in millions)	2023	2022	2021
Consumables and related revenues	\$1,726.2	\$1,888.9	\$1,986.3
Instrumentation	239.1	252.6	265.3
<b>Total</b>	<b>\$1,965.3</b>	<b>\$2,141.5</b>	<b>\$2,251.7</b>

#### Geographical Information

We sell our products in more than 170 countries. The following table shows total revenue by geographic market for the past three years (net sales are attributed to countries based on the location of the customer, as certain subsidiaries have international distribution):

## Management Report

Net sales (in millions)	2023	2022	2021
United States	\$935.3	\$909.6	\$909.7
Other Americas	84.8	88.1	97.7
Total Americas	1,020.1	997.8	1,007.4
Europe, Middle East and Africa	624.6	733.5	814.4
Asia Pacific, Japan and Rest of World	320.7	410.3	429.9
<b>Total</b>	<b>\$1,965.3</b>	<b>\$2,141.5</b>	<b>\$2,251.7</b>

We have built an increasing presence in key markets as a growth strategy. In 2023, the top six growth markets—China, Brazil, India, South Korea, Mexico and Türkiye—contributed 12% of net sales. Russia was excluded as a market in early 2022 following the invasion of Ukraine, and subsequent decision to stop business activities in Russia and Belarus.

### Seasonality

Our business is not significantly impacted by seasonal factors. Historically, a significant portion of our sales has been to researchers, universities, government laboratories and private foundations whose funding is dependent upon grants from government agencies, such as the National Institutes of Health and similar bodies. To the extent that our customers experience increases, decreases or delays in funding arrangements and budget approvals, and to the extent that customers' activities are slowed, such as during times of higher unemployment, vacation periods or delays in approval of government budgets, we may experience fluctuations in sales volumes during the year or delays from one period to the next in the recognition of sales. Additionally, we have customers who are active in the diagnostics testing market, and sales to these customers fluctuate to the extent that their activities are impacted by public health concerns - for example, the timing and severity of viral infections such as the influenza or SARS-CoV-2 viruses.

### Suppliers

We strive to ensure that our quality standards, compliance with laws and regulations as well as environmental and social standards are maintained along the entire value chain of suppliers and partners. We demand the same from our business partners. Suppliers are subjected to a risk analysis with regard to environmental and social criteria based on their geographic location. Our supplier policy, which all new suppliers sign, is available on our website and contains requirements with regard to legal compliance, bribery and corruption, labor rights, non-discrimination and fair treatment, health and safety, as well as environmental protection and conservation. In addition, first-tier suppliers must confirm REACH, RoHS and conflict minerals compliance as appropriate. As part of our supplier assessment procedures, we evaluate on a monthly basis the supply performance of our raw material and component suppliers, and we assess on a continuous basis potential alternative sources of such materials and components, and on a yearly basis the risks and benefits of reliance on our existing suppliers.

We buy materials for our products from many suppliers, and are not dependent on any one supplier or group of suppliers for our business as a whole. Raw materials generally include chemicals, raw separation media, biologics, plastics, electronics and packaging. Certain raw materials are produced under our specifications. We have inventory agreements with the majority of our suppliers and we closely monitor stock levels to maintain adequate supplies. In the second half of 2023, while the availability of raw materials improved over 2022, raw material prices continued to increase primarily driven by energy costs and inflation. We use long-term supply contracts when needed to secure raw materials and mitigate availability challenges when identified. The overall increase in energy costs and materials has had a significant adverse impact on our costs for raw materials, specifically plastics and packaging as well as for logistics. Long-term supply contracts have helped to limit the risks for shortages in electronic components, but have still resulted in price increases. We expect improved availability in 2024 under continued pricing pressure. We strive to maintain inventories at a sufficient level to ensure reasonable customer service levels and to guard against normal volatility in availability. These initiatives help us minimize shortages and pricing pressures.

## Management Report

### Research and Development

We are committed to expanding our global leadership in Sample to Insight solutions in Molecular Diagnostics and the Life Sciences. We target our research and development resources at the most promising technologies to address the unmet needs of our customers in healthcare and research labs in key geographic markets.

Innovation at QIAGEN follows parallel paths:

- Creating new systems for automation of workflows - platforms for laboratories, hospitals and other users of novel molecular technologies.
- Expanding our broad portfolio of novel content - including assays to detect and measure biomarkers for disease or genetic identification.
- Integrating QIAGEN Digital Insights with the testing process - software and cloud-based resources to interpret and transform raw molecular data into useful insights.

Innovation in automation systems positions us in fast-growing fields of molecular testing, and generates ongoing demand for our consumable products. We are developing and commercializing a deep pipeline of assays for preventive screening and diagnostic profiling of diseases, detection of biomarkers to guide Precision Diagnostics in cancer and other diseases, and other molecular targets. Our assay development program aims to commercialize tests that will add value to our QIA Symphony, QIAstat-Dx and NeuMoDx automation systems in the coming years, as well as next-generation sequencing (NGS) kits to support our universal NGS franchise and our in vitro diagnostics partnership with Illumina. We continue to develop applications for the QIAcuity digital PCR system which is designed to make digital PCR technology available to Life Sciences laboratories worldwide.

### Sales and Marketing

We market our products primarily through subsidiaries in markets with the greatest sales potential in the Americas, Europe, Australia and Asia. Experienced marketing and sales staff, many of them scientists with academic degrees in molecular biology or related areas, sell our products and support

our customers. Business managers oversee key accounts to ensure that we serve customers' commercial needs, such as procurement processes, financing, data on costs and the value of our systems, and collaborative relationships. In many markets, we have specialized independent distributors and importers.

Our marketing strategy focuses on providing differentiated, high-quality products across the value chain from Sample to Insight, integrating components into end-to-end solutions when possible, and enhancing relationships with commitment to technical excellence and customer service. Our omni-channel approach seeks to engage customers through their preferred channels - online, by phone, in person, etc. - and to optimize investment in different customer types.

We continue to drive the growth of our digital marketing channels – including our website at [www.qiagen.com](http://www.qiagen.com), product-specific sites and social media. Since the onset of the pandemic there has been an increase in virtual events and use of digital sales channels. We have likewise increased the activities in digital marketing to adapt to these market changes, such as installing an in-house studio to facilitate creation of video content and live virtual events.

Our eCommerce team works with clients to provide automated processes supporting a variety of electronic transactions and all major eProcurement systems. Information contained on our website, or accessed through it, is not part of this Annual Report.

My QIAGEN is an easy-to-use self-service portal that is personalized to our customers' needs and enables customers to manage different activities in one central place. Customers can now easily reorder, place bulk orders, apply quotes to their cart, and then track their order status. Functionality in the dashboard allows customers to monitor their instrument use and view the status of licenses and service agreements. Additionally, customers can access our exclusive content and services, such as webinars, handbooks and other documents.

Our GeneGlobe Design & Analysis Hub ([www.geneglobe.com](http://www.geneglobe.com)) is a valuable outreach to scientists in pharma and academia, enabling researchers to search and order from approximately 25 million pre-designed and custom

## Management Report

PCR assay kits, NGS assay panels and other products. The new hub brings next-level experiment planning, execution and follow-up to life science researchers, linking our QIAGEN Digital Insights solutions with ordering of assays to accelerate research.

We use a range of tools to provide customers with direct access to technical support, inform them of new product offerings, and enhance our reputation for technical excellence, high-quality products and commitment to service. For example, our technical service hotline allows existing or potential customers to discuss a wide range of questions about our products and molecular biology procedures, online or via phone, with Ph.D. and M.Sc. scientists at QIAGEN. Frequent communication with customers enables us to identify market needs, learn of new developments and opportunities, and respond with new products.

We also distribute publications, including our catalog, to existing and potential customers worldwide, providing new product information, updates, and articles about existing and new applications. In addition, we hold numerous scientific seminars at clinical, academic and industrial research institutes worldwide and at major scientific and clinical meetings. We conduct direct marketing campaigns to announce new products and special promotions, and we offer personalized electronic newsletters and webinars highlighting molecular biology applications.

For laboratories that frequently rely on our consumables, the QIAstock program maintains inventory on-site to keep up with their requirements. QIAGEN representatives make regular visits to replenish the stock and help with other needs, and we are automating this process with digital technologies. Easy-to-use digital ordering, inventory monitoring and customer-driven changes make QIAstock an efficient system for providing ready access to our products for the hundreds of customers worldwide who use this program.

### Intellectual Property, Proprietary Rights and Licenses

We have made and expect to continue to make investments in intellectual property. In 2023, additions to our intangible assets outside of business combinations totaled \$11.1 million and as of December 31, 2023, patent and license rights, net totaled \$75.6 million. While we do not depend solely on any

individual patent or technology, we are significantly dependent in the aggregate on technology that we own or license. Therefore, we consider protection of proprietary technologies and products one of the major keys to our business success. We rely on a combination of patents, licenses and trademarks to establish and protect proprietary rights. As of December 31, 2023, we owned 303 issued patents in the United States, 251 issued patents in Germany and 1,716 issued patents in other major industrialized countries. We had 360 pending patent applications. Our policy is to file patent applications in Western Europe, the United States and Japan. Patents in most countries have a term of 20 years from the date of filing the patent application. We intend to aggressively prosecute and enforce patents and to otherwise protect our proprietary technologies. We also rely on trade secrets, know-how, continuing technological innovation and licensing opportunities to develop and maintain our competitive position.

Our practice is to require employees, consultants, outside scientific collaborators, sponsored researchers and other advisers to execute confidentiality agreements upon commencement of their relationships with us. These agreements provide that all confidential information developed by or made known to the individual during the course of the relationship is to be kept confidential and not disclosed to third parties, subject to a right to publish certain information in scientific literature in certain circumstances and to other specific exceptions. In the case of our employees, the agreements provide that all inventions conceived by individuals in the course of their employment will be our exclusive property, subject to local laws.

See [Risk Factors](#) included in [Risks and Risk Management](#) for details regarding risks related to our reliance on patents and proprietary rights.

## Management Report

### Description of Property

Our primary production and manufacturing facilities for consumable products are located in Germany, the United States, Spain and China. Our facilities for software development are located in the United States, Germany, Poland, Denmark and Romania. In recent years, we have made investments in automated and interchangeable production equipment to increase our production capacity and improve efficiency. Our production and manufacturing operations are highly integrated and benefit from sophisticated inventory control. Production management personnel are highly qualified, and many have advanced degrees in engineering, business and science. We also have installed and continue to expand production-planning systems that are included in our integrated information and control system based on the SAP R/3 business software package from SAP SE. Worldwide, we use SAP R/3 software to integrate most of our operating subsidiaries and are currently undergoing a multi-year implementation of S/4HANA. Capital expenditures for property, plant and equipment totaled \$149.7 million, \$129.2 million and \$189.9 million for 2023, 2022 and 2021, respectively.

We have an established quality system, including standard manufacturing and documentation procedures, intended to ensure that products are produced and tested in accordance with the FDA's Quality System Regulations, which impose current Good Manufacturing Practice (cGMP) requirements. For facilities that accommodate cGMP production, special areas were built and these facilities operate in accordance with cGMP requirements.

The consumable products manufactured at QIAGEN GmbH in Germany, and QIAGEN Sciences LLC in Maryland, are produced under ISO 9001: 2015, ISO 13485:2016, MDSAP. Our certifications form part of our ongoing commitment to provide our customers with high-quality, state-of-the-art sample and assay technologies under our Total Quality Management system.

Our corporate headquarters are located in Venlo, The Netherlands. The below table summarizes our largest facilities. Other subsidiaries throughout the world lease smaller amounts of space.

## Management Report

Facility location	Country	Purpose	Owned or leased	Square feet
Hilden	Germany	Manufacturing, warehousing, distribution, research and development and administration	Owned	986,000
Germantown, Maryland	U.S.	Manufacturing, warehousing, distribution and administration	Owned	285,000
Ann Arbor, Michigan	U.S.	Service Solutions, manufacturing, warehousing, distribution and administration	Leased	109,000
Shenzhen	China	Development, manufacturing, warehousing, distribution and administration	Leased	107,200
Manchester	U.K.	Development and Service Solutions	Leased	96,300
Frederick, Maryland	U.S.	Development, Service Solutions, manufacturing, warehousing and distribution	Leased	76,500
Wroclaw	Poland	Business service center	Leased	65,100
Beverly, Massachusetts	U.S.	Enzyme manufacturing	Leased	44,000
Barcelona	Spain	Development, manufacturing, warehousing, distribution, and administration	Leased	31,900
Manila	Philippines	Business service center	Leased	29,300
Shanghai	China	Service Solutions and administration	Leased	28,400
Gdańsk	Poland	Enzyme manufacturing, development, warehousing and administration	Leased	27,100
Germantown, Maryland	U.S.	Service Solutions and training center	Leased	13,500
Redwood City, California	U.S.	Bioinformatics	Leased	12,700
Gdynia	Poland	Enzyme manufacturing, development and warehousing	Leased	11,200

Each of our owned facilities in Hilden, Germany and Germantown, Maryland, has capacity for future expansion of up to 300,000 square feet of facility space. In 2023, we invested in our Hilden, Germany site to add an emergency power supply and renewable heating systems in order to reduce our dependency on carbon energy sources and to reduce our carbon emissions.

We believe our existing production and distribution facilities can support anticipated production needs for the next 36 months. Our production and manufacturing operations are subject to various federal, state, and local laws and regulations including environmental regulations. We do not believe we have any material issues relating to these laws and regulations.

## Management Report

# Operating and Financial Review

This section contains a number of forward-looking statements. These statements are based on current management expectations, and actual results may differ materially. Among the factors that could cause actual results to differ from management's expectations are those described in [Risk Factors](#) and [Note Regarding Forward-looking Statements and Risk Factors](#) in this Annual Report. The discussion that follows focuses on 2023 with comparisons to 2022. For discussion of the year ended December 31, 2022, compared to 2021, refer to our December 31, 2022 Annual Report.

## Operating Results

### Overview

Net sales growth continued in 2023 in the non-COVID product portfolio amid a challenging macro-environment and total 2023 net sales of \$2.0 billion reflect the advancement of our strategy of "Focus and Balance" on areas offering the highest growth potential. Focus involves our Five Pillars of Growth strategy to make significant investments in the commercialization and development of (1) Sample technologies, (2) QuantiFERON, (3) QIAcuity, (4) NeuMoDx and (5) QIAcuity. Balance involves developing our portfolio to address more than 500,000 customers across the Life Sciences and Molecular Diagnostics, as well as to build out our global presence in markets around the world offering growth potential.

We made solid progress in driving growth of our consumables business, which accounts for over 85% of our sales, while expanding our installed instrument base.

Financial highlights of 2023 include:

- While net sales from our non-COVID product portfolio grew 8% in 2023, total net sales declined 8% over the year-ago period, reflecting a 66% decline in net sales from COVID-19 products.
- The operating income margin in 2023 was 20.9% of sales compared to 24.8% in 2022, reflecting lower sales contributions as well as higher

expenses from recent production capacity expansion projects, investments in research and development include BLIRT S.A. and Verogen, Inc. which we acquired in May 2022 and January 2023, respectively.

- Net cash provided by operating activities declined 36% to \$459 million in 2023 from \$715 million in 2022. Results in 2023 reflected the reduced net income compared with 2022 results, as well as higher working capital requirements, in particular an increase in inventories to ensure product availability.

We continue to invest to support internal growth with a high level of investment into research and development for menu expansion of our key platforms as well as our IT infrastructure. Additionally, in January 2024, we completed a synthetic share repurchase that combined a direct capital repayment to shareholders with a reverse stock split. This approach is designed to return cash to shareholders in a more efficient way than through a traditional open-market repurchase program.

In January 2023, we acquired Verogen, Inc., a leader in the use of next-generation sequencing (NGS) technologies to drive the future of human identification (HID) and forensic investigation. Verogen, a privately held company founded in 2017 based in San Diego, California, supports the global human identification community with NGS tools and professional services to help resolve criminal and missing-persons cases. In May 2022, we acquired BLIRT S.A., a supplier of standardized and customized solutions for proteins and enzymes as well as molecular biology reagents located in Gdańsk, Poland. These acquisitions were not significant to the overall consolidated financial statements.

As of April 1, 2022, the results of our subsidiary in Türkiye are reported under highly inflationary accounting, as the prior three-years cumulative inflation rate exceeded 100%.

### Foreign Currencies

The reporting currency of QIAGEN N.V. is the U.S. dollar. The functional currency of most of our subsidiaries are the local currencies of the countries in which they are headquartered. All amounts in the financial statements of entities

## Management Report

whose functional currency is not the U.S. dollar are translated into U.S. dollar equivalents at exchange rates as follows: (1) assets and liabilities at period-end rates, (2) income statement accounts at average exchange rates for the period, and (3) components of equity at historical rates. Translation gains or losses are

recorded in equity, and transaction gains and losses are reflected in net income.

### Year Ended December 31, 2023, Compared to 2022

#### Net Sales

(in millions)	2023		2022		
Product type	Net sales	% of net sales	Net sales	% of net sales	% change
Consumables and related revenues	\$1,726.2	88 %	\$1,888.9	88 %	-9 %
Instruments	239.1	12 %	252.6	12 %	-5 %
<b>Net sales</b>	<b>\$1,965.3</b>		<b>\$2,141.5</b>		<b>-8%</b>
Customer class					
Molecular Diagnostics	\$1,035.5	53 %	\$1,126.2	53 %	-8 %
Life Sciences	929.8	47 %	1,015.3	47 %	-8 %
<b>Net sales</b>	<b>\$1,965.3</b>		<b>\$2,141.5</b>		<b>-8%</b>

(in millions)	2023		2022		
Product group	Net sales	% of net sales	Net sales	% of net sales	% change
Sample technologies	\$663.0	34 %	\$796.9	37 %	-17 %
Diagnostic solutions	697.6	35 %	660.9	31 %	+6 %
PCR / Nucleic acid amplification	300.2	15 %	390.8	18 %	-23 %
Genomics / NGS	238.9	12 %	224.8	10 %	+6 %
Other	65.6	3 %	68.1	3 %	-4 %
<b>Net sales</b>	<b>\$1,965.3</b>		<b>\$2,141.5</b>		<b>-8%</b>

**Sample technologies** involve the sale of consumables kits and instruments for use in obtaining DNA, RNA and proteins from biological samples. Overall sales in this product group declined 17% in 2023 to \$663.0 million, due to significant drop-off in the pandemic testing demand. Growth in Non-COVID

product sales were supported by higher sales of consumables that more than offset the decline in instruments. Sales results for 2023 were adversely impacted by approximately one percentage point of currency movements over the prior year.

## Management Report

**Diagnostic Solutions** involve the sale of regulated consumables kits and instruments for use in clinical healthcare, as well as revenues from our Precision Diagnostics portfolio and companion diagnostic co-development projects with pharmaceutical companies. Sales in this product group grew 6% to \$697.6 million in 2023. The QuantiFERON-TB test for tuberculosis detection maintained a solid pace with 24% growth in 2023 and QIAstat-DX sales rose, supported by an ongoing high level of placements. NeuMoDx sales were down compared to the significant COVID-19 sales in 2022, but exceeded the annual sales goal in 2023. Sales in the rest of this product group declined, mainly due to lower sales of COVID-19 products.

**PCR / Nucleic Acid Amplification** involves consumables kits and instruments used in non-regulated applications. Sales in this product group fell 23% to \$300.2 million due to a sharp decline in COVID product group demand, as well as the drop-off in sales of OEM products. The QIAcuity digital PCR system delivered solid growth in 2023 over 2022 results, driven by increasing consumables pull through and new placements especially to biopharma customers.

**Genomics / NGS** involves our portfolio of universal solutions for use on any next-generation sequencer (NGS) as well as the QIAGEN Digital Insights bioinformatics business and other products used in genomics analysis workflows. Sales in this product group rose 6% to \$238.9 million in 2023 driven by business expansion in the bioinformatics business and the portfolios of universal NGS solutions for use with various third-party NGS systems.

Geographic region (in millions)	2023	2022	% change
Americas	\$1,020.1	\$997.8	+2%
Europe, Middle East and Africa	624.6	733.5	-15%
Asia Pacific, Japan and Rest of World	320.7	410.3	-22%
<b>Net sales</b>	<b>\$1,965.3</b>	<b>\$2,141.5</b>	<b>-8%</b>

The **Americas** region led the performance among our three regions, with overall results reflecting the COVID-19 product contributions in 2022. Higher sales were seen in the U.S. and Mexico, against lower results in Canada over the prior year. Sales in this region were not materially affected by currency movements.

The **Europe, Middle East and Africa (EMEA)** region's results were also affected by the decline in COVID-19 sales, partially offset by one percentage point of favorable currency movements against the U.S. dollar. Among the top-performing countries in 2023 were Spain, France and the United Kingdom.

The **Asia Pacific, Japan and Rest of World** region saw an overall sales decline in 2023 over the prior year. Sales in this region were adversely impacted by three percentage points from unfavorable currency movements against the U.S. dollar.

### Gross Profit

(in millions)	2023	2022	% change
Gross profit	\$1,233.7	\$1,384.6	-11%
Gross margin	62.8%	64.7%	

The gross margin in 2023 primarily reflects changes in individual product sales and mix. Generally, our consumables and related products have a higher gross margin than our instrumentation products and service arrangements. Fluctuations in the sales levels between periods can cause changes in gross profit between periods. In 2023, gross margin decreased in line with the significant decline in the overall sales level, which was mainly due to the sharp reduction in COVID-19 product group revenues. The gross margin in 2023 also includes costs for higher material and logistics costs over the year-ago periods.

The amortization expense on acquisition-related intangibles within cost of sales increased to \$64.2 million in 2023 compared to \$60.5 million in 2022 and includes amortization related to Verogen acquired in January 2023. Our acquisition-related intangible amortization will increase in the event of future acquisitions.

## Management Report

### Operating Expenses

(in millions)	2023		2022		% change
	Expenses	% of net sales	Expenses	% of net sales	
Sales and marketing	\$459.9	23.4 %	\$474.2	22.1 %	-3%
Research and development	198.5	10.1 %	189.9	8.9 %	+5%
General and administrative	119.3	6.1 %	129.7	6.1 %	-8%
Acquisition-related intangible amortization	10.8	0.5 %	14.5	0.7 %	-26%
Restructuring, acquisition, integration and other, net	35.3	1.8 %	44.8	2.1 %	-21.1%
<b>Total operating expenses</b>	<b>\$823.8</b>	<b>41.9 %</b>	<b>\$853.1</b>	<b>39.8 %</b>	
Income from operations	\$409.9	20.9 %	\$531.5	24.8 %	

#### Sales and Marketing

Sales and marketing expenses declined 3% to \$459.9 million over 2022, and rose to 23.4% of sales from 22.1% in 2022. The overall decrease in sales and marketing expenses primarily reflects lower freight and other supply chain costs. Sales and marketing expenses are primarily associated with personnel, commissions, advertising, trade shows, publications, freight and logistics expenses, and other promotional expenses. The increased use of digital customer engagement continues to build on the new habits of customers and enhance customer engagement with a focus on greater efficiency and effectiveness.

#### Research and Development

Research and development expenses increased 5% to \$198.5 million in 2023 compared to 2022 and rose to 10.1% of sales from 8.9% in 2022. Results for 2023 included \$2.6 million of unfavorable currency exchange movements. Research and development expense reflects our continued focus on our Five Pillars of Growth, including investments in NeuMoDx, QIAstat-Dx and QIAcuity. These investments are targeting new applications within our Five Pillars of Growth to drive sustainable post-pandemic expansion. As we continue to discover, develop and acquire new products and technologies, we expect to incur additional expenses related to facilities, licenses and employees engaged in research and development. Overall, research and development costs are

expected to increase as a result of seeking regulatory approvals, including U.S. FDA Pre-Market Approval (PMA), U.S. FDA 510(k) clearance and EU CE approval of certain assays or instruments. Further, business combinations, along with the acquisition of new technologies, may increase our research and development costs in the future. We have a strong commitment to innovation and expect to continue to make investments in our research and development efforts.

#### General and Administrative

General and administrative expenses declined 8% to \$119.3 million in 2023 and remained unchanged to 6.1% of sales compared in 2022. These results reflect lower share-based compensation expense together with efficiency gains across many administrative functions partially offset by investments into our information technology systems (including an upgrade of the SAP enterprise resource planning system) and into cyber security measures. Results for 2023 included \$1.0 million of unfavorable currency exchange movements. We expect future costs to increase due to higher licensing and information technology costs as well as increased cyber security costs.

## Management Report

### Acquisition-Related Intangible Amortization

Amortization expense on acquisition-related intangibles within operating expense declined 26% to \$10.8 million from \$14.5 million in 2022. The decrease reflects the full amortization of certain previously acquired assets. Amortization expense related to developed technology and patent and license rights acquired in business combinations are included in cost of sales. Amortization of trademarks and customer base acquired in business combinations are recorded in operating expense under the caption "acquisition-related intangible amortization." Amortization expenses of intangible assets not acquired in business combinations are recorded within cost of sales, research and development, or sales and marketing line items based on the use of the asset. Our acquisition-related intangible amortization recorded in operating expenses will increase in the event of future acquisitions.

### Restructuring, Acquisition, Integration and Other, net

Restructuring, acquisition, integration and other, net expenses decreased to \$35.3 million in 2023, or 1.8% of sales, from \$44.8 million, or 2.1% of sales, in 2022. Expenses incurred in 2023 included charges related to the 2022 restructuring program, as discussed further in Note 6 "Restructuring," as well as costs related to our acquisition of Verogen, Inc. in January 2023. Expenses incurred in 2022 included costs related to our BLIRT S.A. acquisition in May 2022 and impairments and charges related to our decision to suspend business in Russia, Ukraine and Belarus in the first quarter of 2022 as well as impairments to intangible assets of \$12.8 million an impairments related to Ellume, as further discussed in Note 11 "Goodwill and Intangible Assets." Additionally in 2022, we incurred \$4.6 million of charges related to the 2022 restructuring program.

### Other Income (Expense), net

(in millions)	2023	2022	% change
Interest income	\$79.0	\$32.8	+141 %
Interest expense	(53.4)	(58.4)	-8 %
Other (expense) income, net	(5.7)	6.7	-185 %
<b>Total other income (expense), net</b>	<b>\$19.9</b>	<b>(\$18.9)</b>	<b>-205%</b>

Interest income includes interest earned on cash, cash equivalents and short-term investments, income related to certain interest rate derivatives as discussed in Note 14 "Derivatives and Hedging" and other components including the interest portion of operating lease transactions. The increase in 2023 compared to the prior year was due to increasing interest rates and the duration and level of short-term investments held during the period.

Interest expense primarily relates to debt, as discussed in Note 16 "Debt" in the accompanying notes to consolidated financial statements. The decrease in 2023 compared to 2022 is driven by the repayment of the 2023 Notes that matured in September 2023 totaling \$400.0 million partially offset by the issuance of German private placement bonds in July and August 2022 totaling €370.0 million.

Other (expense) income, net was \$5.7 million of expense for the year ended December 31, 2023. Other expense included a loss of \$5.8 million on foreign currency transactions and \$4.2 million of impairments in non-marketable investments not accounted for under the equity method, partially offset by \$4.2 million of income from equity method investments.

Other (expense) income, net was \$6.7 million of income for the year ended December 31, 2022. Other income included \$3.8 million of income from equity method investments and a gain of \$2.7 million on foreign currency transactions.

## Management Report

### Income Tax Expense

(in millions)	2023	2022	% change
Income before income taxes	\$429.8	\$512.6	-16%
Income tax expense	88.5	89.4	-1%
<b>Net income</b>	<b>\$341.3</b>	<b>\$423.2</b>	
Effective tax rate	20.6 %	17.4 %	

In 2023, our effective tax rate was 20.6% compared to 17.4% in 2022. Our effective tax rate differs from the Netherlands statutory tax rate of 25.8% due in part to our operating subsidiaries being exposed to statutory tax rates ranging from zero to 35%. Fluctuations in the distribution of pre-tax income or loss among our operating subsidiaries can lead to fluctuations of the effective tax rate in the consolidated financial statements. We record partial tax exemptions on foreign income primarily derived from operations in Germany. These foreign tax benefits are due to a combination of favorable tax laws and exemptions in these jurisdictions, including intercompany foreign royalty income in Germany which is statutorily exempt from trade tax. Further, we have intercompany financing arrangements in which the intercompany income is nontaxable in Dubai. The effective tax rate in 2022 reflects the release of uncertain tax positions following the conclusion of tax audits covering the 2014 to 2016 years in the second quarter of 2022. See Note 17 "Income Taxes" to the consolidated financial statements for a full reconciliation of the Netherlands' statutory income tax rate to the effective tax rate.

In future periods, our effective tax rate may fluctuate due to similar or other factors as discussed in "Changes in tax laws or their application or the termination or reduction of certain government tax incentives, could adversely impact our overall effective tax rate, results of operations or financial flexibility" in [Risk Factors](#).

### Liquidity and Capital Resources

To date, we have funded our business through internally generated funds, debt, as well as private and public sales of equity. Our primary use of cash has been to strengthen our business operations, while our investing activities have focused on capital expenditure requirements and acquisitions.

(in millions)	2023	2022
Cash and cash equivalents	\$668.1	\$730.7
Short-term investments	389.7	687.6
<b>Total cash and cash equivalents and short-term investments</b>	<b>\$1,057.8</b>	<b>\$1,418.3</b>
Working capital	\$1,068.3	\$1,419.4

Cash and cash equivalents are primarily held in U.S. dollars and euros, other than those cash balances maintained in the local currency of subsidiaries to meet local working capital needs. At December 31, 2023, cash and cash equivalents had decreased by \$62.6 million from December 31, 2022, primarily as a result of cash used in financing activities of \$433.8 million and cash used in investing activities of \$87.7 million, partially offset by cash provided by operating activities of \$459.5 million as discussed in the Cash Flow Summary below. The decrease in short-term investments at December 31, 2023, is the result of our active cash management. The overall lower cash and cash equivalent balance together with a higher current portion of long-term debt led to the decrease of working capital at December 31, 2023.

## Management Report

### Cash Flow Summary

(in millions)	2023	2022
Net cash provided by operating activities	\$459.5	\$715.3
Net cash used in investing activities	(87.7)	(726.8)
Net cash used in financing activities	(433.8)	(125.8)
Effect of exchange rate changes on cash and cash equivalents	(0.6)	(12.5)
<b>Net decrease in cash and cash equivalents</b>	<b>(\$62.6)</b>	<b>(\$149.8)</b>

#### Operating Activities

For the year ended December 31, 2023, we generated net cash from operating activities of \$459.5 million compared to \$715.3 million in 2022. While net income was \$341.3 million in 2023, non-cash components in income included \$205.3 million of depreciation and amortization, \$47.1 million of share-based compensation and \$30.2 million of amortization of debt discount and issuance costs. Cash flow impacts from changes in operating assets and liabilities primarily reflect increased inventories to support customer demand trends in light of global supply chain tensions. Given that we rely heavily on cash generated from our operating activities to fund our business, a decrease in demand for our products, longer collection cycles or significant technology advances by competitors could have a negative impact on our liquidity.

#### Investing Activities

Approximately \$87.7 million of cash was used in investing activities in 2023 compared to \$726.8 million in 2022. Investing activities during 2023 consisted principally of \$1.0 billion for purchases of short-term investments, \$149.7 million in cash paid for purchases of property and equipment, \$149.5 million of net cash paid for the acquisition of Verogen, Inc., \$66.6 million paid to our derivative counterparties to collateralize our derivative liabilities with them as discussed in Note 14 "Derivatives and Hedging," and \$13.1 million paid for intangible assets. This was partially offset by cash inflows of \$1.3 billion from the redemption of short-term investments.

Cash used in investing activities during 2022 consisted principally of \$1.4 billion for purchases of short-term investments, \$129.2 million for purchases of property, plant and equipment, \$63.7 million of net cash paid for the acquisition of BLIRT S.A., \$20.1 million paid for intangible assets and \$9.9 million returned to us from our derivative counterparties with cash provided to them to collateralize our derivative liabilities with them. This was partially offset by cash inflows of \$883.1 million from the redemption of short-term investments.

#### Financing Activities

For the year ended December 31, 2023, cash used in financing activities was \$433.8 million compared to \$125.8 million in 2022. Financing activities during 2023 included \$400.0 million for the repayment of long-term debt, \$17.7 million paid in connection with net share settlement for tax withholding related to the vesting of stock awards, and \$16.3 million paid to our derivative counterparties to collateralize derivative assets that we hold with them.

In 2022, cash used in financing activities totaled \$125.8 million and consisted of \$480.0 million for the repayment of long-term debt, \$25.4 million paid in connection with net share settlement for tax withholding related to the vesting of stock awards, and \$4.6 million in cash paid for contingent consideration. This was partially offset by proceeds of \$371.5 million from the issuance of long-term debt and \$12.6 million received from our derivative counterparties to collateralize derivative assets that we hold with them.

#### Other Factors Affecting Liquidity and Capital Resources

As of December 31, 2023, we carry \$1.5 billion of long-term debt, of which \$0.6 billion is current and \$0.9 billion is long-term.

In July and August 2022, we completed a German private placement bond (2022 Schuldschein), which was issued in various tranches totaling €370.0 million (\$371.5 million) due in various periods through 2035 as described more fully in Note 16 "Debt." The interest rate is linked to our ESG performance. As of December 31, 2023, a total of \$408.0 million is outstanding.

## Management Report

In December 2020, we issued \$500.0 million aggregate principal amount of zero coupon Convertible Notes due in 2027 (2027 Notes). The 2027 Notes will mature on December 17, 2027, unless converted in accordance with their terms prior to such date as described more fully in Note 16 "Debt."

In November 2018, we issued \$500.0 million aggregate principal amount of Cash Convertible Senior Notes due in 2024 (2024 Notes). Interest on the 2024 Notes is payable semiannually in arrears at a rate of 1.000% per annum. The 2024 Notes will mature on November 13, 2024, unless repurchased or converted in accordance with their terms prior to such date.

In September 2017, we issued \$400.0 million aggregate principal amount of Cash Convertible Senior Notes due in 2023 (2023 Notes) which were due and repaid in September 2023.

In 2017, we completed a German private placement (2017 Schuldschein) consisting of various tranches denominated in U.S. dollars or euros at either floating or fixed rates, and due at various dates through June 2027. As of December 31, 2023, a total of \$121.0 million is outstanding.

In December 2020, we obtained a €400 million syndicated revolving credit facility with a contractual life of three years, and with the ability to be extended twice by a one-year period. No amounts were utilized during 2023. The facility can be utilized in euros and bears interest of 0.550% to 1.500% above EURIBOR, and is offered with interest periods of one, three or six months. The interest rate is linked to our ESG performance. We have additional credit lines totaling €13.0 million with no expiration date. None of these credit lines were utilized in 2023.

We have lease obligations, including interest, in the aggregate amount of \$109.9 million, of which \$25.1 million was current as of December 31, 2023. We also have purchase obligations of \$98.8 million and license commitments of \$7.2 million. In connection with certain acquisitions that we have completed, QIAGEN could be required to make additional contingent cash payments of up to \$20.7 million based on the achievement of certain revenue and operating results milestones. These obligations are further discussed in Note 12 "Leases"

and Note 20 "Commitments and Contingencies" in the consolidated financial statements.

Liabilities associated with uncertain tax positions, including interest and penalties, were estimated at \$98.9 million as of December 31, 2023. Ultimate settlement of these liabilities is dependent on factors outside of our control, such as examinations by the respective taxing authorities and expiration of statutes of limitation for assessment of additional taxes. Therefore, we cannot reasonably estimate when, if ever, this amount will be paid.

In January 2024, we completed a synthetic share repurchase that combined a direct capital repayment with a reverse stock split. The transaction was announced on January 7, 2024, and involved an approach used by various large, multinational Dutch companies to provide returns to all shareholders in a faster and more efficient manner than traditional open-market repurchases. \$295.2 million was returned to shareholders through the transaction, which reduced the total number of issued Common Shares by approximately 3% to 223.9 million (of which 2.5 million are held in Treasury Shares) as of January 31, 2024.

We did not use special purpose entities and did not have any off-balance sheet financing arrangements during the years ended December 31, 2023, 2022 and 2021.

We expect that cash from financing activities will continue to be impacted by issuances of our common shares in connection with our equity compensation plans, and that the market performance of our shares will impact the timing and volume of the issuances. Additionally, we may make future acquisitions or investments requiring cash payments, the issuance of additional debt or equity financing.

We believe that funds from operations, existing cash and cash equivalents, together with the proceeds from any public and private sales of equity, and availability of financing facilities, would be sufficient to fund our planned operations and expansion in the coming year. However, any global economic downturn may have a greater impact on our business than currently expected, and we may experience a decrease in the sales of our products, which could

## Management Report

impact our ability to generate cash. If our future cash flows from operations and other capital resources are not adequate to fund our liquidity needs, we may be required to obtain additional debt or equity financing or to reduce or delay our capital expenditures, acquisitions or research and development projects. If we could not obtain financing on a timely basis or at satisfactory terms, or implement timely reductions in our expenditures, our business could be adversely affected.

### Policy on Dividend Distribution

We have not paid any dividends on our Shares since our inception and do not intend to pay any dividends in the foreseeable future. We intend to retain our earnings, if any, for the development of our business. In January 2017 and January 2024 we completed synthetic share repurchases that combined direct capital repayments with reverse stock splits.

### Credit Rating

We currently do not have a rating issued by any credit rating agency.

### Critical Accounting Estimates

The preparation of our financial statements in accordance with accounting principles generally accepted in the United States requires management to make assumptions that affect the reported amounts of assets, liabilities and disclosure of contingencies as of the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting period. Critical accounting estimates are those that require the most complex or subjective judgments, often as a result of the need to make estimates about the effects of matters that are inherently uncertain. Thus, to the extent that actual events differ from management's estimates and assumptions, there could be a material impact to the financial statements. In applying our critical accounting estimates, at times we used accounting estimates that either required us to make assumptions about matters that were highly uncertain at the time the estimate was made, or it is reasonably likely that changes in the accounting estimate may occur from period to period that would have a material impact on the presentation of our results of operations, financial position or cash flows. Our critical accounting estimates are those related to income taxes, share-based

compensation, acquisitions, amortized intangible assets, and fair value measurements.

### Income Taxes

Calculation of our tax provision is complex due to our international operations and the multiple taxing jurisdictions in which we operate. Some of our deferred tax assets relate to net operating losses (NOL). The utilization of NOLs is not assured and is dependent on generating sufficient taxable income in the future. To the extent that our estimates of future taxable income are insufficient to utilize all available NOLs, a valuation allowance will be recorded in the provision for income taxes in the period the determination is made, and the deferred tax assets will be reduced by this amount, which could be material. In the event that actual circumstances differ from management's estimates, or to the extent that these estimates are adjusted in the future, any changes to the valuation allowance could materially impact our financial position and results of operations.

The calculation of our tax liabilities involves dealing with uncertainties in the application of complex tax laws and regulations in many jurisdictions across our global operations. ASC 740 states that a tax benefit from an uncertain tax position may be recognized when it is more likely than not that the position will be sustained upon examination, including resolutions of any related appeals or litigation processes on the basis of technical merits. We record unrecognized tax positions in accordance with ASC 740 and adjust these liabilities when our judgment changes as a result of the evaluation of new information not previously available. Because of the complexity of some of these uncertainties, the ultimate resolution may result in a payment that is materially different from our current estimate of the unrecognized tax liabilities. These differences will be reflected as increases or decreases to income tax expense in the period in which the new information is available.

### Share-Based Compensation

Our stock plan allows for the granting of stock rights, incentive stock options, as well as for non-qualified options, stock grants and stock-based awards. We grant performance-based stock units subject to performance periods of three

## Management Report

years. Thus, the estimates of performance achieved during the performance period may be subject to significant changes from period to period as the performance is completed. Any increase or decrease in share-based compensation expense resulting from an adjustment in the estimated shares to be released is treated as a cumulative catch-up in the period of adjustment. If any of the assumptions or estimates used change significantly, share-based compensation expense may differ materially from what we have recorded in the current period.

### Acquisitions

We frequently enter into business combinations and must determine whether an acquired entity is considered to be a business or an asset or group of assets. A portion of the purchase price can only be allocated to goodwill in a business combination. Transaction costs are expensed in a business combination, yet capitalized in an asset acquisition. Contingent payments and in-process research and development costs are also handled differently. A set of assets is not a business if substantially all of the fair value of the acquired gross assets is concentrated in a single asset or group of similar identifiable assets. In determining whether an acquired entity is considered to be a business or a set of assets, application of the "substantially all" threshold requires judgment.

The purchase price allocation for acquisitions of a business requires extensive use of accounting estimates and judgments to allocate the purchase price to the identifiable tangible and intangible assets acquired, including in-process research and development, and liabilities assumed based on their respective fair values. An acquisition may include contingent consideration as part of the purchase price. Contingent consideration is accounted for at fair value at the acquisition date, with subsequent changes to the fair value being recognized in earnings.

We have made several acquisitions of businesses in recent years. The purchase prices for the acquisitions were allocated to tangible and intangible assets acquired and liabilities assumed based on their estimated fair values at the acquisition dates. In most acquisitions, we engage an independent third-party valuation firm to assist us in determining the estimated fair values of acquired in-process research and development and identifiable intangible assets. Such a

valuation requires significant estimates and assumptions, including but not limited to determining the timing and estimated costs to complete the in-process projects, projecting regulatory approvals, estimating projected revenue and related growth rates, estimating future cash flows, estimating customer attrition rates, and developing appropriate discount rates. We believe the estimated fair values of contingent consideration and assets acquired and liabilities assumed are based on reasonable assumptions. However, the fair value estimates for the purchase price allocations may change during the allowable allocation period, which is up to one year from the acquisition dates, if additional information becomes available.

### Amortized Intangible Assets

We assess amortized intangible assets at least annually, as of October 1st of each year, for indications of impairment and immediately upon an indicator of possible impairment. Intangibles are assessed for recoverability considering the contract life, where applicable, and the period of time over which the intangible will contribute to future cash flow. The unamortized cost of intangible assets, where cash flows are independent and identifiable from other assets, is evaluated periodically and adjusted, if necessary, if events and circumstances indicate that a decline in value below the carrying amount has occurred. Due to the numerous variables associated with our judgments and assumptions, and the effects of changes in circumstances affecting the valuation, both the precision and reliability of the resulting estimates are subject to uncertainty. As additional information becomes known, we may change our estimates.

### Fair Value Measurements

We have categorized our assets and liabilities that are measured at fair value, based on the priority of the inputs to the valuation techniques, in a three-level fair value hierarchy: Level 1 - using quoted prices in active markets for identical assets or liabilities; Level 2 - using observable inputs other than quoted prices; and Level 3 - using unobservable inputs. We primarily apply the market approach for recurring fair value measurements, maximize our use of observable inputs and minimize our use of unobservable inputs. We utilize the mid-point price between bid and ask prices for valuing the majority of our assets and liabilities measured and reported at fair value. In addition to using

## Management Report

market data, we make assumptions in valuing assets and liabilities, including assumptions about risk and the risks inherent in the inputs to the valuation technique.

Certain of our derivative instruments, which are classified in Level 2 of the fair value hierarchy, are valued using industry-standard models that consider various inputs, including time value, volatility factors, and current market and contractual prices for the underlying instruments, as well as other relevant economic measures. Substantially all of these inputs are observable in the marketplace throughout the full term of the instrument, can be derived from observable data, or are supported by observable prices at which transactions are executed in the marketplace.

Certain of our acquisitions involve contingent consideration, the payment of which is contingent on the occurrence of future events. Contingent consideration is classified in Level 3 of the fair value hierarchy and is initially recognized at fair value as a cost of the acquisition. After the acquisition, the contingent consideration liability is remeasured each reporting period. The fair value of contingent consideration is measured predominantly on unobservable inputs such as assumptions about the likelihood of achieving specified milestone criteria, projections of future financial performance, assumed discount rates, and assumed weightings applied to potential scenarios in deriving a probability weighted fair value. Significant judgment is used in developing these estimates and assumptions both at the acquisition date and in subsequent periods. If actual events differ from management's estimates, or to the extent these estimates are adjusted in the future, our financial position or results of operations could be affected in the period of any change.

Additionally, our Level 3 instruments include non-marketable equity security investments. Under the measurement alternative, the carrying value is measured at cost, less any impairment, plus or minus changes resulting from observable price changes in orderly transactions for identical or similar investments of the same issuer. Adjustments are determined primarily based on a market approach as of the transaction date.

For other fair value measurements, we generally use an income approach to measure fair value when there is not a market observable price for an identical or similar asset or liability. This approach utilizes management's best assumptions regarding expectations of projected cash flows, and discounts the expected cash flows using a commensurate risk-adjusted discount rate.

The above listing is not intended to be a comprehensive list of all our accounting policies. In many cases, the accounting treatment of a particular transaction is specifically dictated by generally accepted accounting principles in the United States, with limited or no need for management's judgment. There are also areas in which management's judgment in selecting available alternatives may or may not produce a materially different result. See our audited consolidated financial statements and notes thereto in this Annual Report, containing a description of accounting policies and other disclosures required by generally accepted accounting principles in the United States.

### Legal Proceedings

While no assurances can be given regarding the outcome of any proceedings, based on information currently available, we believe that the resolution of these matters is unlikely to have a material adverse effect on our financial position or results of future operations for QIAGEN N.V. as a whole. However, because of the nature and inherent uncertainties of litigation, should the outcomes be unfavorable, certain aspects of our business, financial condition, and results of operations and cash flows could be materially adversely affected.

For information on legal proceedings, see Note 20 "Commitments and Contingencies" of the Notes to Consolidated Financial Statements.

## Management Report

# Risks and Risk Management

## Risk Management

Our risk management approach embodies the key elements of a sound risk management system including (1) active Supervisory Board and senior management involvement; (2) adequate policies and procedures; (3) adequate risk management, monitoring and information systems; and (4) comprehensive internal controls.

QIAGEN is managed by a Managing Board and an independent Supervisory Board appointed by the General Meeting of Shareholders. One of the Managing Board's responsibilities is the oversight of the risk management system. The Managing Board has developed and implemented strategies, controls and mitigation measures to identify current and developing risks as part of this system. These policies and procedures are embodied in our corporate governance, code of ethics and financial reporting controls and procedures. A variety of functional experts evaluate these business risks, attempting to mitigate and manage them on an ongoing basis.

Identified risks are sub-divided into three types:

- a base business risk that is specific to us or our industry and threatens our existing business;
- a business growth risk that is specific to us or our industry and threatens our future business growth; and
- an underlying business risk that is not specific to us or our industry, but applies to a larger number of public companies.

All identified risks are evaluated based on their likelihood of occurring and their potential impact (estimated in monetary terms) on disrupting our progress in achieving our business objectives. The overall risk management goal is to identify risks that could significantly threaten our success and to provide management the opportunity to successfully implement mitigation actions on a timely basis. The results of the risk assessment, and any updates, are reported to the Audit Committee of the Supervisory Board on a regular basis. A detailed risk reporting update is provided each quarter to the Audit Committee for specific risks that have been newly identified or have changed since the previous assessment. At least once on an annual basis, the Supervisory Board discusses the corporate strategy and business risks, as well as the results of an assessment by the Managing Board and the Audit Committee of the structure and operations of the internal risk management and control systems, including any significant changes.

Our corporate governance structure outlines the responsibilities of our Managing Board and Supervisory Board (discussed in more detail in their respective sections in the Corporate Governance chapter) and the function of the Audit Committee of the Supervisory Board (discussed in more detail in the Supervisory Board Report ). We maintain internal controls to ensure the integrity of financial reporting, which is described further in [Controls and Procedures](#). Additionally, we have a Compliance Committee that consists of senior executives from various functional areas who are responsible for ensuring compliance with legal and regulatory requirements, as well as overseeing the communication of corporate policies, including our Code of Ethics as described further in the Governance section of our Sustainability Statement of this Annual Report.

## Management Report

---

### Risk types

---

#### Base Business Risk

- Identification and monitoring of competitive business threats
- Monitoring complexity of product portfolio
- Monitoring dependence on key customers for single product groups
- Reviewing dependence on individual production sites or suppliers
- Evaluating purchasing initiatives, price controls and changes to reimbursements
- Monitoring production risks, including contamination prevention and high-quality product assurance
- Ensuring our ability to defend against intellectual property infringements and maintain competitive advantage after expiration

---

#### Business Growth Risk

- Managing the development and successful completion of key R&D projects
- Managing successful integration of acquisitions to achieve anticipated benefits

---

#### Underlying Business Risk

- Evaluating financial risks, including global economic risks and currency rate fluctuations against the U.S. dollar (our reporting currency)
  - Evaluating and monitoring international hostilities
  - Monitoring financial reporting risks, including multi-jurisdiction tax compliance
  - Reviewing possible asset impairment events
  - Assessing cyber security, compliance and legal risks, including safety in operations and environmental hazard risks, compliance with various regulatory bodies and pending product approvals
  - Monitoring risks of FCPA (Foreign Corrupt Practices Act) or antitrust concerns arising from a network of subsidiaries and distributors in foreign countries
- 

### Risk Factors

The risks described below are listed in the order of our current view of their expected significance. Describing the risk factors in order of significance does not imply that a lower-listed risk factor may not have a material adverse impact on our results of operations, liquidity or capital resources.

#### **Our continued growth is dependent on the development and success of new products.**

Rapid technological change and frequent new product introductions are typical in the markets we serve. Our success will depend in part on continuous, timely development and introduction of new products that address sometimes rapidly evolving market requirements, such as the pandemic caused by the SARS-CoV-2 virus. We believe successful new product introductions provide a significant competitive advantage because many customers make an investment of time into selecting and learning how to use a new product and are reluctant to switch after these efforts. To the extent that we fail to introduce new and

innovative products, or such products suffer significant delays in development or are not accepted by customers, we may lose market share to our competitors that would be difficult or impossible to regain. An inability to successfully develop and introduce new products, for technological or other reasons, could reduce our growth prospects or otherwise have an adverse effect on our business. In the past, we have experienced delays in the development and introduction of new products, caused by delays in regulatory approvals, for example, or decisions to stop development of projects, and we may experience delays or make decisions to stop certain product development in the future.

As a result, we cannot assure you that we will keep pace with the rapid rate of developments in our markets or that our new products will adequately meet the requirements of the marketplace, achieve market acceptance or regulatory approval, or compete successfully with companies offering similar or new technologies. Some of the factors affecting market acceptance of a new product include:

## Management Report

- availability, quality and price relative to existing competitor products;
- the timing of introduction of the new product relative to competitive products;
- perceptions of the new product's utility;
- citation of the new product in published research;
- regulatory trends and approvals; and
- general trends in life sciences research, applied markets and molecular diagnostics.

In the development of new products, we may make significant investments in intellectual property, software solutions and manufacturing capacity. These investments increase our fixed costs, resulting in higher operational costs in the short term that will negatively impact our gross profit and operating income until products potentially reach a minimum level of market acceptance and sales. The expenses or losses associated with unsuccessful product development activities or lack of market acceptance of our new products could materially have an adverse effect on our business, financial condition and results of operations.

Our continued growth depends significantly on the success of new products in the molecular research and testing markets that we serve, and our ability to scale manufacturing capacities to meet customer demands. Important product programs in early commercialization stage include the QIAstat-Dx system for one-step, fully integrated molecular analysis of hard-to-diagnose syndromes, the NeuMoDx 96 and 288 systems offering fully integrated PCR clinical testing, and the QIAcuity digital PCR system.

The speed and level of adoption of our new automation platforms will affect sales not only of instrumentation but also of consumables kits – identified as sample and assay kits – that are designed to run on the systems in a "razor-razorblade" model. The rollout of new automation platforms are intended to drive the dissemination and increasing sales of consumables for these systems. We are developing or co-developing new kits for these platforms and seeking regulatory approvals for a number of new products. In turn, the availability and

regulatory approval of more tests for processing on the QIAstat-Dx, NeuMoDx and QIAcuity systems will influence the value of the instruments to prospective customers. Slower adoption of these systems could significantly affect sales of instruments as well as consumables products designed to run on these platforms.

### **An inability to manage our growth, manage the expansion of our operations, or successfully integrate acquired businesses could adversely affect our business.**

Our business has grown in recent years, with total net sales increasing to \$1.97 billion in 2023 from \$1.53 billion in 2019. In addition to incremental sales from our global response to the COVID-19 pandemic, we have made a series of acquisitions in recent years, including the acquisitions of Verogen, Inc. in January 2023 and BLIRT S.A. in 2022. We intend to identify and acquire other businesses in the future that support our strategy to build on our global leadership position in providing Sample to Insight solutions focused on molecular research and clinical testing. The successful integration of acquired businesses requires a significant effort and expense across all operational areas.

We continue to make investments to expand our existing business operations. These projects increase our fixed costs, resulting in higher operational costs in the short term that will negatively impact our gross profit and operating income until we more fully utilize the additional capacity of these facilities. The expansion of our business and the addition of new personnel may place a strain on our management and operational systems. As we continue to upgrade our operating and financial systems, as well as expand the geographic presence of our operations, we intend to continue to assess the need to reallocate existing resources or hire new employees, as well as increase responsibilities for both existing and new management personnel.

Our future operating results will depend on our ability to continue to implement and improve our research, product development, manufacturing, sales and marketing and customer support programs, enhance our operational and financial control systems, expand, train and manage our employee base, integrate acquired businesses, and effectively address new issues related to our

## Management Report

growth as they arise. There can be no assurance that we will be able to manage our recent or any future expansion or acquisitions successfully, and any inability to do so could have a material adverse effect on our results of operations.

### **Our acquisitions expose us to new risks, and we may not achieve the anticipated benefits of acquisitions of technologies and businesses.**

During the past several years, we have acquired and integrated a number of companies, as mentioned earlier, through which we have gained access to new technologies, products and businesses that complement our internally developed product lines. In the future, we expect to acquire additional technologies, products or businesses to expand our operations. Acquisitions potentially expose us to new operating and financial risks, including risks associated with the:

- assimilation of new products, technologies, operations, sites and personnel;
- integration and retention of fundamental personnel and technical expertise;
- application for and achievement of regulatory approvals or other clearances;
- diversion of resources from our existing products, business and technologies;
- generation of sales;
- implementation and maintenance of uniform standards and effective controls and procedures;
- exposure to cyber security risks or compromise of acquired entities;
- maintenance of relationships with employees, customers and suppliers, and integration of new management personnel;
- issuance of initially dilutive equity securities;
- incurrence or assumption of debt and contingent liabilities;
- increased exposure to geopolitical risks;

- amortization or impairment of acquired intangible assets or potential businesses; and
- exposure to liabilities of and claims against acquired entities or personnel, including patent litigation.

Our failure to address the above risks successfully in the future may prevent us from achieving the anticipated benefits from any acquisition in a reasonable time frame, or at all.

### **Global economic conditions could adversely affect our business, results of operations and financial condition.**

Our results of operations could be materially affected by adverse general conditions in the global economy and financial markets, including inflation and rising interest rates. Direct conflicts, such as the ongoing wars in Ukraine and the Middle East, and an increasingly challenging economic environment lead to uncertainty about the future. Trade restrictions or export controls, as were seen with the Russia-Ukraine war, could disrupt our supply chain and flow of products if they disturb the international flow of goods and increase costs.

Our results of operations could also be negatively impacted if the U.S. federal government were to enact automatic spending cuts (sequestration), which have occurred in the past. Such a decision could add uncertainty to the timing and the availability of budget funds for investment decisions by our customers—particularly researchers, universities, government laboratories and private foundations whose funding is dependent upon grants from government agencies, such as the U.S. National Institutes of Health (NIH) and similar bodies.

While there has been global economic recovery from the COVID-19 pandemic, higher inflation continues, including on raw material prices which also reflect higher energy costs. The overall increase in energy costs and materials has had a significant adverse impact on our business.

Access to financing in the global financial markets has been adversely affected for many businesses in light of the high-inflation environment. The central banks in the U.S., the United Kingdom and the Euro Zone tightened their monetary

## Management Report

policies materially beginning in 2022 by raising interest rates, and continued headwinds and volatility are expected in 2024. This may impact our ability to obtain new or refinance existing debt facilities at competitive rates.

Additionally, our customers may face internal financing pressures that adversely impact spending decisions or the ability to purchase our products, or that lead to a delay in collection of receivables and thus negatively impact our cash flow. A severe or prolonged economic downturn could result in a variety of risks to our business that would adversely impact our results of operations, including the reduction or delay in planned improvements to healthcare systems in various countries, the reduction of funding for life sciences research, and intensified efforts by governments and healthcare payors regarding cost-containment efforts.

As is the case for many businesses, we face the following risks in regard to financial markets:

- severely limited access to financing over an extended period of time, which may affect our ability to fund our growth strategy and could result in delays to capital expenditures, acquisitions or research and development projects;
- failures of currently solvent financial institutions, which may cause losses from our short-term cash investments or our hedging transactions due to a counterparty's inability to fulfil its payment obligations;
- inability to refinance existing debt at competitive rates, reasonable terms or sufficient amounts; and
- increased volatility or adverse movements in foreign currency exchange rates.

**Our global operations may be affected by actions of governments, global or regional economic or public health developments, weather or transportation delays, epidemics or pandemics, natural disasters or other force majeure events (collectively, unforeseen events) which may negatively impact our suppliers, our customers or us.**

Our business involves operations around the world. Our primary manufacturing facilities are located in Germany, the U.S., Spain and China. We have established sales subsidiaries in numerous countries, and our products are sold through independent distributors serving more than 60 countries. Our global footprint exposes us to unforeseen events, such as the COVID-19 pandemic, or other natural events. We have analyzed climate change risk and its potential impact on our largest production and logistics sites, as well as important sites of our key suppliers. No material risks were identified that could potentially impact our business, operations, sales or expenditures. However, our facilities may be harmed by unforeseen events. In the event that we or our customers are affected by a disaster, we may experience delays or reductions in sales or production. We may also face significantly increased costs or be required to identify alternate suppliers and/or rely on third-party manufacturers.

To the extent that our suppliers are impacted by a natural disaster or other disruption, we may experience periods of reduced production. Any unexpected interruptions in our production capabilities may lead to delayed or lost sales and adversely affect our results of operations for a specific period.

In addition, to the extent we temporarily shut down any facility following such an unforeseen event, we may experience disruptions in our ability to manufacture or ship products to customers or otherwise operate our business. Many of our products are manufactured in a single location, and we may experience significantly adverse effects to the extent that these manufacturing operations are disrupted and cannot be replaced elsewhere.

While our global operations give us the ability to ship some products from alternative sites, we may not be able to do so because the facilities of our customers are shut or the local logistics infrastructure is not functioning. As a result, our sales, profitability and cash flows would suffer.

Damage to our property due to unforeseen events, and the resulting disruption of our business, may be covered by insurance. However, this insurance may not be sufficient to cover all of our potential losses, and the insurance coverage may not continue to be available to us on acceptable terms, or at all. In

## Management Report

addition, we may incur incremental costs following an unforeseen event, which will reduce profits and adversely affect our results of operations.

### **Terrorist attacks and international hostilities and instability in any region could adversely affect our business.**

Terrorist attacks, the outbreak of war, or the existence of international hostilities could damage the world economy, adversely affect the global supply chain and materially impact the availability of and prices for energy and other raw materials. In February 2022, the government of Russia invaded Ukraine. The ongoing war is so far confined to Ukraine, but any expansion into other countries could materially disrupt our operations in Europe and/or increase our operating costs. In addition, Russia's prior annexation of Crimea, the annexation of various regions of Ukraine and subsequent military interventions have led to sanctions being levied by the European Union, the U.S. and other countries against Russia. Additionally, in October 2023, Hamas launched a series of coordinated attacks on Israeli targets, and Israel responded by formally declaring war on Hamas. The armed conflict is ongoing and rapidly evolving as of the date of this filing, and its length and outcome are highly unpredictable.

These conflicts and similar current and future conflicts could lead to significant market and other disruptions, instability in financial markets, supply chain interruptions, political and social instability and other material and adverse effects on macroeconomic conditions, any of which could magnify the impact of other risks described in this Annual Report.

### **We depend on suppliers for materials used to manufacture our products, and if shipments from these suppliers are delayed or interrupted, we may be unable to manufacture our products.**

We buy materials to create our products from a number of suppliers and are not dependent on any one supplier or group of suppliers for our business as a whole. However, key components of certain products, including certain instrumentation and chemicals, are available only from a single source. If supplies from these vendors are delayed or interrupted for any reason, we may not be able to obtain these materials in a timely manner or in sufficient quantity

or quality to produce certain products, and this could have an adverse impact on our results of operations.

In 2022, the volatility in product availability and pricing drastically increased compared to previous years. In 2023, while availability continued to improve, raw material prices increased, reflecting higher energy costs and inflation. Supply chain constraints have required, and may continue to require, in certain instances, alternative delivery arrangements and increased costs and could have a material adverse effect on our business and operations.

### **We rely heavily on air cargo carriers and other overnight logistics services, and shipping delays or interruptions could harm our business.**

Our customers typically keep only a modest inventory of our consumables kits on hand, and consequently often require rapid delivery of purchases. Additionally, some of our products require complex supply chains, such as constant cold storage or shipment using dry ice. As a result, we rely heavily on air cargo carriers and logistic suppliers. If these services are suspended or delayed, and other delivery and logistic suppliers cannot provide satisfactory services, customers may be forced to suspend a significant amount of their work. The lack of adequate delivery alternatives would have a serious adverse impact on our customer relations and results of operations.

### **Changes in tax laws or their application or the termination or reduction of certain government tax incentives, could adversely impact our overall effective tax rate, results of operations or financial flexibility.**

Our effective tax rate reflects the benefit of some income being partially exempt from income taxes due to various inter-company operating and financing activities. The benefit also derives from our global operations, where income or loss in some jurisdictions is taxed at rates higher or lower than the statutory rate of 25.8% in the Netherlands. Changes in tax laws, including changes resulting from the current work being led by the Organization for Economic Co-operation and Development (OECD) Inclusive Framework focused on "Addressing the Challenges of the Digitalization of the Economy", or their application with respect to matters such as changes in tax rates, transfer pricing

## Management Report

and income allocation, utilization of tax loss carry-forwards, inter-company dividends, controlled corporations, and limitations on the deductibility of interest and foreign related-party expenses, and changes to tax credit mechanisms, could increase our effective tax rate and adversely affect our results of operations and limit our ability to repurchase our Common Shares without experiencing adverse tax consequences.

The breadth of the OECD project extends beyond pure digital businesses and is likely to impact most large multinational businesses by both redefining jurisdictional taxation rights and establishing a 15% global minimum tax (referred to as Pillar Two). The Netherlands formally enacted the Pillar Two legislation into domestic law and certain aspects of Pillar Two are effective January 1, 2024, and other aspects effective January 1, 2025. Although global enactment has begun, the OECD and participating countries continue to work on defining the underlying rules and administrative procedures. Pillar Two is effective for us in 2024.

The increased tax burden as a result of changes in law could be material and may adversely affect our results of operations, cash taxes and effective tax rate. Additionally, depending on the timing of effective dates, changes in tax law may limit our ability to accurately forecast the related tax impacts. If our tax positions are challenged by taxing authorities or other governmental bodies, such as the European Commission, we could incur additional tax liabilities, which could also have an adverse effect on our results of operations, financial flexibility or cash flow.

**We rely on secure communication and information systems and are subject to privacy and data security laws which, in the event of a disruption, breach, violation or failure, could adversely affect our business.**

We rely heavily on communications and information systems to conduct our business. In the ordinary course of business, we collect and store sensitive data, including our own intellectual property and other proprietary business information and that of our customers, suppliers and business partners, as well as personally identifiable information (PII) of our customers and employees, in our data centers and on our networks or in the cloud. Our operations rely on

the secure processing, storage and transmission of confidential and other information on both our own and cloud-based computer systems and networks. We have made significant investments to ensure our employees are aware of cyber security risks facing our company and how to prevent data breaches. We have modernized our cyber security tools, and are continually updating our cyber security processes, in an attempt to keep pace with evolving cyber security risks. In spite of our efforts, we are unable to completely eliminate these risks, and occasionally experience minor cyber security incidents. External phishing emails (occurring outside of our computer services) are a growing threat for our customers. These emails could lead to the disclosing of intellectual property or personally identifiable information, which could lead to financial harm or reputational damage. While our cyber security team works diligently with our employees around the world, as well as with our customers, to mitigate these threats by helping to identify and analyze phishing emails, we cannot guarantee that sensitive data will not be lost or stolen.

A breach in cyber security due to unauthorized access to our computer systems or misuse could include the misappropriation of assets or sensitive information, the corruption of data, or other operational disruption. Failures in our computer systems and networks could be caused by internal or external events, such as incursions by intruders or hackers, computer viruses, failures in hardware or software, or cyber-terrorists. Furthermore, there is an increased risk of cyber security attacks by state actors due to the Russian war with Ukraine. Russian ransomware gangs have threatened to increase hacking activity against critical infrastructure of any nation or organization that retaliates against Russia. Any such increase in such attacks on our third-party providers or other systems could adversely affect our network systems or other operations. If we experience a breach or failure of our systems, we could experience potentially significant operational delays due to the disruption of systems, loss due to theft or misappropriation of assets or data, or negative impacts from the loss of confidential data or intellectual property. We may face significant liability in the event personal information that we maintain is lost or otherwise subject to misuse or other wrongful use, access or disclosure. Furthermore, we could experience significant negative publicity that could result in reputation or brand damage with customers or partners.

## Management Report

Additionally, we are subject to privacy and data security laws across multiple jurisdictions. These include laws relating to the storage of health information that are complex, overlapping, sometimes contradictory and rapidly evolving. In the U.S., individual states regulate requirements and have authority over privacy and personal data protection. For example, the California Consumer Privacy Act of 2018 (CCPA), which took effect on January 1, 2020, imposes expansive new requirements and protections upon the processing of personal data, aimed at giving California consumers more visibility into and control over their personal information. The U.S. states of Virginia and Colorado also enacted comprehensive data privacy laws similar to the CCPA, both of which became effective in 2023. In addition, laws in all 50 U.S. states require businesses to provide notice to consumers whose personal information has been disclosed as a result of a data breach. State laws are changing rapidly and there is discussion in the U.S. Congress of a new comprehensive federal data privacy law to which we would become subject if it is enacted. There are also European privacy laws, such as the General Data Protection Regulation (GDPR) of the European Union, that impose restrictions on the transfer, access, use and disclosure of health and other personal information. As our activities continue to evolve and expand, we may be subject to additional laws that impose further restrictions on the transfer, access, use and disclosure of health and other personal information, which may impact our business either directly or indirectly. A failure to comply with applicable privacy or security laws or significant changes in these laws could subject us to costly regulatory action or lawsuits, and could adversely impact our reputation, business and future business plans.

**We may encounter delays in receipt, or limits in the amount, of reimbursement approvals and public health funding, which may negatively impact our ability to grow revenues in the healthcare market or our profitability.**

Changes in the market availability or reimbursement of our diagnostic testing products by insurance providers and health maintenance organizations could have a significant adverse impact on our results of operations. Third-party payors are often reluctant to reimburse healthcare providers for the use of medical tests that involve new technologies or provide novel diagnostic

information. In addition, third-party payors are increasingly limiting reimbursement coverage for medical diagnostic products and, in many instances, are even exerting pressure on suppliers to reduce their prices. Since each third-party payor often makes reimbursement decisions on an individual patient basis, obtaining such approvals is a time-consuming and costly process that requires us to provide scientific and clinical data supporting the clinical benefits of each of our products. As a result, there can be no assurance that reimbursement approvals will be obtained, and the process can delay the broad market introduction of new products. If third-party reimbursement is not consistent or financially adequate to cover the cost of our products, this could limit our ability to sell our products or cause us to reduce prices, which would adversely affect our results of operations.

Further, the ability of many of our customers to successfully market their products depends in part on the extent to which reimbursement for the costs of these products is available from governmental health administrations, private health insurers and other organizations. Governmental and other third-party payors are increasingly seeking to contain healthcare costs and to reduce the price of medical products and services. With evolving political realities in the United States, certain sections of the Patient Protection and Affordable Care Act of 2010 (ACA) have not been fully implemented and the direction of healthcare policy is unpredictable. Uncertainty around the future of the ACA, and in particular the impact on reimbursement levels, may lead to uncertainty or delay in the purchasing decisions of our customers, which may in turn negatively impact our product sales. In accordance with the Protecting Access to Medicare Act of 2014 (PAMA), the Centers for Medicare & Medicaid Services calculate Medicare reimbursement rates for certain clinical diagnostic tests using weighted median private payor rates, which are based on rate information reported by applicable laboratories. This new rate methodology means the lower reimbursement rates previously experienced in the field of molecular pathology testing now extend to additional diagnostic testing codes on the Clinical Laboratory Fee Schedule (CLFS). If there are not adequate reimbursement levels, our business and results of operations could be adversely affected.

## Management Report

### **Reduction in R&D budgets and government funding may result in reduced sales.**

Our customers include researchers at pharmaceutical and biotechnology companies, academic institutions, and government and private laboratories. Fluctuations in the research and development budgets of these organizations could have a significant adverse effect on demand for our products. Research and development budgets are affected by changes in available resources, the mergers of pharmaceutical and biotechnology companies, changes in spending priorities and institutional budgetary policies. Our results of operations could be adversely affected by any significant decrease in expenditures for life sciences research and development by pharmaceutical and biotechnology companies, academic institutions, and government and private laboratories. In addition, short-term changes in administrative, regulatory or purchasing-related procedures can create uncertainties or other impediments that can have an adverse impact on our results of operations.

In recent years, the pharmaceutical and biotechnology industries have undergone substantial restructuring and consolidation. Additional mergers or consolidation within the pharmaceutical and biotechnology industries could cause us to lose existing customers and potential future customers, which could have a material adverse impact on our results of operations.

We sell our products to universities, government laboratories and private foundations, whose funding is dependent on grants from government agencies, such as the NIH (National Institutes of Health) in the U.S. which accounts for the majority of Life Science funding in the country. Although the level of research funding has been increasing in recent years, we cannot ensure that this trend will continue given federal and state budget constraints. Government funding of research and development is subject to the political process, which is inherently unpredictable. Future sales may be adversely affected if our customers delay purchases as a result of uncertainties regarding the approval of government budget proposals. Also, government proposals to reduce or eliminate budgetary deficits have sometimes included reduced allocations to the NIH and government agencies in other countries that fund life sciences research and development activities. A reduction in government funding for the NIH or

government research agencies in other countries could have a serious adverse impact on our results of operations.

### **Competition could reduce our sales.**

The markets for most of our products are very competitive. Competitors may have significant advantages in financial, operational, sales and marketing resources as well as experience in research and development. These competitors may have developed, or could develop in the future, new technologies that compete with our products or even render our products obsolete. Some competitors may obtain regulatory approval from the U.S. Food and Drug Administration (FDA) or similar non-U.S. authorities. Our competitors' development of alternative products offering superior technology, greater cost-effectiveness and/or receiving regulatory approval could have a material adverse effect on our sales and results of operations.

The growth of our business depends in part on the continued conversion of users from competitive products to our sample and assay technologies and other solutions. Lack of conversion could have a material adverse effect on our sales and results of operations.

It can be difficult for users of our products to switch from their current supplier of a particular product, primarily due to the time and expense required to properly integrate new products into their operations. As a result, if we are unable to be the first to develop and supply new products, our competitive position may suffer, resulting in a material adverse effect on our sales and results of operations.

For our commercial clinical assays, we often compete with solutions developed by our laboratory customers, and driving conversion from such laboratory-developed tests (LDTs) to commercial diagnostics assays can be challenging.

### **The time and expense needed to obtain regulatory approval and respond to changes in regulatory requirements could adversely affect our ability to commercially distribute our products and generate sales.**

We and our customers operate in a highly regulated environment characterized by frequent changes in the governing regulatory framework. Genetic research

## Management Report

activities and products commonly referred to as “genetically engineered” (such as certain food and therapeutic products) are subject to extensive governmental regulation in most developed countries, especially in the major markets for pharmaceutical and diagnostic products such as the European Union, the U.S., China and Japan. In recent years, several highly publicized scientific events (notably in genomic research, gene editing and cloning) have prompted intense public debate on the ethical, philosophical and religious implications of an unlimited expansion in genetic research and the use of products emerging from this research. As a result of this debate, some key countries may increase or establish regulatory barriers, which could adversely affect demand for our products and prevent us from fulfilling our growth expectations. Furthermore, there can be no assurance that any future changes in applicable regulations will not require further expenditures or an alteration, suspension or liquidation of our operations in certain areas, or even in their entirety.

Changes in the existing regulations or adoption of new requirements or policies could adversely affect our ability to sell our approved or cleared products, or to seek approvals for new products in other countries around the world. Sales of certain products now in development may be dependent upon us successfully conducting preclinical studies, clinical trials and other tasks required to gain regulatory approvals and meet other requirements from the In Vitro Diagnostic Device Regulation in the European Union, the FDA in the U.S. and regulatory agencies in other countries. If we are not able to meet the applicable requirements, we will not be able to commercialize our products and tests, which will have a material adverse effect on our business.

Several of our key products and programs are medical devices that are subject to extensive regulation by the FDA under the U.S. Food, Drug and Cosmetic Act. We plan to apply for FDA clearance or approval of additional products in the future. Regulatory agencies in other countries also have medical device and in vitro diagnostic medical devices (IVD) approval requirements that are becoming more extensive. These regulations govern most commercial activities associated with medical devices, including indications for the use of these products as well as other aspects that include product development, testing,

manufacturing, labeling, storage, record-keeping, advertising and promotion. Compliance with these regulations is expensive and time-consuming.

Our cleared or approved devices, including diagnostic tests and related equipment, are subject to numerous post-approval requirements. We are subject to inspection and marketing surveillance by the FDA to determine our compliance with regulatory requirements. If the FDA determines that we have failed to comply, it can institute a wide variety of enforcement actions, ranging from warning letters to more severe sanctions such as fines, injunctions and civil penalties, recalls or seizures of our products, operating restrictions, partial suspension or total shutdown of production, denial of our requests for 510(k) clearance or pre-market approval of product candidates, withdrawal of 510(k) clearance or pre-market approval already granted and civil or criminal prosecution. Any enforcement action by the FDA may affect our ability to commercially distribute these products in the U.S.

Some of our products are sold for research purposes in the U.S. We do not promote these products for clinical diagnostic use, and they are labeled “For Research Use Only” (RUO) or “For Molecular Biology Applications.” If the FDA were to disagree with our designation of a product as having RUO status, we could be forced to stop selling it until appropriate regulatory clearance or approval has been obtained.

### **We are subject to risks associated with patent litigation.**

The biotechnology industry has been characterized by extensive litigation regarding patents and other intellectual property rights, particularly since industry competitors gravitate around common technology platforms. We are aware that patents have been applied for and/or issued to third parties claiming technologies for sample and assay technologies that are closely related to those we use. From time to time, we receive inquiries requesting confirmation that we do not infringe patents of third parties. We endeavor to follow developments in this field, and we do not believe that our technologies or products infringe any proprietary rights of third parties. However, there can be no assurance that third parties will not challenge our activities or, if so challenged, that we will prevail. In addition, the patent and proprietary rights of others could require that we alter our products or processes, pay licensing

## Management Report

fees or cease certain activities, and there can be no assurance that we will be able to license any technologies that we may require on acceptable terms. In addition, litigation, including proceedings that may be declared by the U.S. Patent and Trademark Office or the International Trade Commission, may be necessary to respond to any assertions of infringement, enforce our patent rights and/or determine the scope and validity of our proprietary rights or those of third parties. Litigation, or threatened litigation, could involve substantial cost, and there can be no assurance that we would prevail in any proceedings.

### **We rely on collaborative commercial relationships to develop and/or market some of our products.**

Our long-term business strategy involves entering into strategic alliances as well as marketing and distribution arrangements with academic, corporate and other partners relating to the development, commercialization, marketing and distribution of certain of our existing and potential products. We may be unable to continue to negotiate these collaborative arrangements on acceptable terms, and these relationships also may not be scientifically or commercially successful. In addition, we may be unable to maintain these relationships, and our collaborative partners may pursue or develop competing products or technologies, either on their own or in collaboration with others.

Our Precision Diagnostics business includes projects with pharmaceutical and biotechnology companies to co-develop companion diagnostics paired with drugs that those companies either market currently or are developing for future use. The success of these co-development programs, including regulatory approvals for the companion diagnostics, depends upon the continued commitment of our partners to the development of their drugs, the outcome of clinical trials for the drugs and diagnostics, and regulatory approvals of the tests and drugs. In addition, the future level of sales for companion diagnostics depends to a high degree on the commercial success of the related medicines for which the tests have been designed. More companion diagnostics would be sold in combination with a widely prescribed drug than one with limited use.

The successful marketing of QIAGEN products, in some cases, depends on commercial relationships such as joint ventures or distributorships, particularly in emerging markets where we partner with local companies to augment our

less-established commercial relationships and infrastructure. The continued commitment of our partners to these ventures, as well as the management of the commercial efforts, could influence QIAGEN's sales and profitability in these markets.

### **We have made investments in and are expanding our business into growth markets, which exposes us to risks.**

Our top six emerging growth markets are Brazil, China, India, South Korea, Mexico, and Türkiye, which together accounted in 2023 for 12% of total sales. Russia was removed as a top growth market in 2022 following the invasion of Ukraine and the subsequent decision to suspend business operations in Russia and Belarus, which made up less than 1% of total sales. We expect to continue to focus on expanding our business in these or other fast-growing markets, including those in the Middle East and Asia. In addition to the currency and operating risks described above, our international operations are subject to a variety of risks arising from the economy, political outlook, language and cultural barriers in countries where we have operations or do business. In many of these emerging markets, we may face several risks that are more significant than in other countries where we have a history of doing business. These risks include economies that may be dependent on only a few products and are therefore subject to significant fluctuations, weak legal systems that may affect our ability to enforce contractual rights, exchange controls, unstable governments, and privatization or other government actions affecting the flow of goods and currency. In conducting our business, we move products from one country to another and may provide services in one country from a subsidiary located in another country. Accordingly, we are vulnerable to abrupt changes in customs and tax regimes that could have significant negative impacts on our results of operations.

### **Some of our customers are requiring us to change our sales arrangements to lower their costs, and this may limit our pricing flexibility and harm our business.**

Some of our customers have developed purchasing initiatives to reduce the number of vendors from which they purchase products in order to lower their supply costs. In some cases, these customers have established agreements with

## Management Report

large distributors, which include discounts and direct involvement in the distributor's purchasing process. These activities may force us to supply large distributors with our products at discounts in order to continue providing products to some customers. For similar reasons, many larger customers, including the U.S. federal government, have requested, and may request in the future, special pricing arrangements, which can include blanket purchase agreements. These agreements may limit our pricing flexibility, which could harm our business and affect our results of operations. For a limited number of customers, and at the request of customers, we have conducted sales transactions through distribution and other value-added partners. If sales grow through these intermediaries, this could adversely impact our results of operations, in particular our gross profit.

### **Exchange rate fluctuations may adversely affect our business and operating results.**

Given that we currently market our products throughout the world, a significant portion of our business is conducted in currencies other than the U.S. dollar, our reporting currency. As a result, fluctuations in value relative to the U.S. dollar of the currencies in which we conduct our business have caused and will continue to cause foreign currency transaction gains and losses. Foreign currency transaction gains and losses arising from normal business operations are charged against earnings in the period when incurred. Due to the number of currencies involved, the variability of currency exposures and the potential volatility of currency exchange rates, we cannot predict the effects of future exchange rate fluctuations. As of April 1, 2022, the results of operations from our subsidiary in Türkiye have been reported under highly inflationary accounting as the prior three-years cumulative inflation rate exceeded 100%. While we may engage in foreign exchange hedging transactions to manage our foreign currency exposure, there can be no assurance that our hedging strategy will adequately protect our operating results from the effects of future exchange rate fluctuations.

### **Our success depends on the continued employment of qualified personnel, any of whom we may lose at any time.**

Although we have not experienced any difficulties attracting or retaining management and scientific staff, our ability to recruit and retain qualified, skilled employees will continue to be critical to our success. Given the intense competition for experienced scientists and managers among pharmaceutical and biotechnology companies, as well as academic and other research institutions, there can be no assurance that we will be able to attract and retain employees critical to our success on acceptable terms. Initiatives to expand QIAGEN will also require additional employees, including management with expertise in areas such as research and development, manufacturing, digitization, sales and marketing, and the development of existing managers to lead a growing organization. The failure to recruit and retain qualified employees, or develop existing employees, could have a material adverse impact on our results of operations.

### **Our ability to accurately forecast our results during each quarter may be negatively impacted by the fact that at times a high percentage of our sales may be recorded in the final weeks or days of the quarter.**

In the markets we serve, a high percentage of purchase orders can be received in the final few weeks or days of each quarter. Although this varies from quarter to quarter, many customers make a large portion of their purchase decisions late in each quarter, in particular because they receive new information during this period on their budgets and requirements. Additionally, volatility in the timing of revenue from companion diagnostic partnerships can be difficult to predict. As a result, even late in each quarter, we cannot predict with certainty whether our sales forecasts for the quarter will be achieved.

Historically, we have been able to rely on the overall pattern of customer purchase orders during prior periods to project with reasonable accuracy our anticipated sales for the current or coming quarters. However, if customer purchasing trends during a quarter vary from historical patterns, as may occur with changes in market and economic conditions, our quarterly financial results could deviate significantly from our projections. As a result, our sales forecasts

## Management Report

for any given quarter may prove not to be accurate. We also may not have sufficient, timely information to confirm or revise our sales projections for a specific quarter. If we fail to achieve our forecasted sales for a particular quarter, the value of our Common Shares could be significantly affected.

### **We have a significant amount of debt that may adversely affect our financial condition and flexibility.**

We have a significant amount of debt, debt service obligations and restrictive covenants imposed by our lenders. A high level of indebtedness increases the risk that we may default on our debt obligations, and restrictive covenants may prevent us from borrowing additional funds. There is no assurance that we will be able to generate sufficient cash flow to pay the interest on our debt and comply with our debt covenants, or that future working capital, borrowings or equity financing will be available to repay or refinance our debt. If we are unable to generate sufficient cash flow to pay the interest on our debt and comply with our debt covenants, we may have to delay or curtail our research and development programs. The level of our indebtedness could, among other things:

- make it difficult for us to make required payments on our debt;
- make it difficult in the future for us to obtain financing necessary for working capital, capital expenditures, debt service requirements or other purposes;
- limit our flexibility in planning for, or reacting to, changes in our business and the industry in which we compete; and
- make us more vulnerable in the event of a downturn in our business.

### **Our business may require substantial additional capital, which we may not be able to obtain on terms acceptable to us, if at all.**

Our future capital requirements and level of expenses will depend on numerous factors, including the costs associated with:

- marketing, sales and customer support;
- research and development;
- expansion of our facilities;

- possible future acquisitions of technologies, products or businesses;
- demand for our products and services;
- repayment or refinancing of debt; and
- payments in connection with our hedging activities and/or taxes.

We currently anticipate that our short-term capital requirements will be satisfied by cash flow from our operations and/or cash on hand. As of December 31, 2023, we had outstanding long-term debt of \$1.5 billion, of which \$588.0 million was current. We may choose to refinance these liabilities.

If at some point in time our existing resources should be insufficient to fund our activities, we may need to raise funds through public or private debt or equity financings. The funds for the refinancing of existing liabilities or for the ongoing funding of our business may not be available or, if available, not on terms acceptable to us. If adequate funds are not available, we may be required to reduce or delay expenditures for research and development, production, marketing, capital expenditures and/or acquisitions, which could have a material adverse effect on our business and results of operations. To the extent that additional capital is raised through the sale of equity or convertible securities, the issuance of any securities could result in dilution to our shareholders.

### **The accounting for the cash convertible notes we have issued will result in recognition of interest expense significantly greater than the stated interest rate of the notes and may result in volatility to our Consolidated Statements of Income.**

We will settle any conversions of the Cash Convertible Notes described under the heading "Other Factors Affecting Liquidity and Capital Resources" elsewhere in this Annual Report, entirely in cash. Accordingly, the conversion option that is part of the Cash Convertible Notes is accounted for as a derivative pursuant to accounting standards relating to derivative instruments and hedging activities. Refer to Note 14 "Derivatives and Hedging" and Note 16 "Debt" of the Notes to Consolidated Financial Statements. In general, this resulted in an initial valuation of the conversion option separate from the debt

## Management Report

component of the Cash Convertible Notes, resulting in an original issue discount. The original issue discount will be accreted to interest expense over the term of the Cash Convertible Notes, which will result in an effective interest rate reported in our financial statements significantly in excess of the stated coupon rates of the Cash Convertible Notes. This accounting treatment will reduce our earnings. For each financial statement period after the issuance of the Cash Convertible Notes, a gain (or loss) will be reported in our financial statements to the extent the valuation of the conversion option changes from the previous period. The Call Options issued in connection with the Cash Convertible Notes will also be accounted for as derivative instruments, substantially offsetting the gain (or loss) associated with changes to the valuation of the conversion option. This may result in increased volatility to our results of operations.

### **The cash convertible note hedge and warrant transactions we entered into in connection with the issuance of our Cash Convertible Notes may not provide the benefits we anticipate, and may have a dilutive effect on our common stock.**

Concurrently with the issuance of the Cash Convertible Notes, we entered into Call Options and issued Warrants. We entered into the Call Options with the expectation that they would offset potential cash payments by us in excess of the principal amount of the Cash Convertible Notes upon conversion of the Cash Convertible Notes. In the event that the hedge counter-parties fail to deliver potential cash payments to us, as required under the Call Options, we would not receive the benefit of such transaction. Separately, we also issued Warrants. The Warrants could separately have a dilutive effect to the extent that the market price per share of our common stock, as measured under the terms of the Warrants, exceeds the strike price of the Warrants.

### **An impairment of goodwill and intangible assets could reduce our earnings.**

At December 31, 2023, our consolidated balance sheet reflected \$2.5 billion of goodwill and \$526.8 million of intangible assets. Goodwill is recorded when the purchase price of a business exceeds the fair value of the tangible and separately measurable intangible net assets. U.S. generally accepted

accounting principles (GAAP) require us to test goodwill for impairment on an annual basis or when events or circumstances occur indicating that goodwill might be impaired. Long-lived assets, such as intangible assets with finite useful lives, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. The impairment review often cannot be done at the level of the individual asset and it must instead be applied to a group of assets. For the purpose of our annual goodwill impairment testing based on the current circumstances of how we manage our business, this group of assets is the Company as a whole. If we determine that any of our goodwill or intangible assets were impaired, we will be required to take an immediate charge to earnings and our results of operations could be adversely affected.

### **Our strategic equity investments may result in losses.**

We have made, and may continue to make, strategic investments in businesses as opportunities arise. We periodically review the carrying value of these investments for impairment, considering factors that include the most recent stock transactions, book values from the most recent financial statements, and forecasts and expectations of the investee. The results of these valuations may fluctuate due to market conditions and other conditions over which we have no control.

Estimating the fair value of non-marketable equity investments in life science companies is inherently subjective. If actual events differ from our assumptions and unfavorable fluctuations in the valuations of the investments are indicated, we could be required to write down the investment. This could result in future charges on our earnings that could materially have an adverse effect on our results of operations. It is uncertain whether or not we will realize any long-term benefits from these strategic investments.

### **Doing business internationally creates certain risks.**

Our business involves operations in several countries around the world. Our consumables manufacturing facilities are located in Germany, China, Spain and the U.S. We source raw materials and subcomponents to manufacture our products from different countries. We have established sales subsidiaries in

## Management Report

numerous countries. In addition, our products are sold through independent distributors serving more than 60 countries. Conducting and launching operations on an international scale requires close coordination of activities across multiple jurisdictions and time zones and consumes significant management resources. We have invested heavily in computerized information systems in order to manage more efficiently the widely dispersed components of our operations. Worldwide, we currently use SAP R/3 software to integrate most of our operating subsidiaries and are currently undergoing a multi-year implementation of S/4HANA. If we fail to coordinate and manage these activities effectively, or if we face a loss of information or the non-availability of any system, our business and results of operations will be adversely affected.

Our operations are subject to other risks inherent in international business activities, such as the general economic and public health conditions in the countries in which we operate, trade restrictions and changes in tariffs, longer accounts receivable payment cycles in certain countries, overlap of different tax structures, unexpected changes in regulatory requirements, and compliance with a variety of foreign laws and regulations. Other risks associated with international operations include import and export licensing requirements, climate change legislation, exchange controls and changes in freight rates, as may occur as a result of rising energy costs. Further, any misuse or other wrongful use of our products could expose us to negative publicity resulting in reputation or brand damage with customers or partners. As a result of these conditions, an inability to successfully manage our international operations could have a material adverse impact on our business and results of operations.

In any of the markets in which we do business, increasing attention to environmental, social and governance (ESG) matters may result in new or expanded legal or regulatory requirements or expectations specific to ESG matters. A failure to meet investor or other stakeholder expectations may result in adverse reputation impacts, loss of business or a negative impact to attract and retain talent. Further, working to adhere to any new or expanded legal or regulatory requirements may require additional investments which could negatively impact our profitability.

### **Unethical behavior and non-compliance with laws by our sales representatives, other employees, consultants, commercial partners or distributors or employees could seriously harm our business.**

Our operations include doing business in countries with a history of corruption and involve transactions with foreign governments. These factors may increase the risks associated with our international activities. We are subject to the U.S. Foreign Corrupt Practices Act (FCPA), the U.K. Bribery Act and other laws that prohibit improper payments or offers of payments to foreign governments and their officials and political parties by business entities for the purpose of obtaining or retaining business. We have operations, agreements with third parties and sales in countries known to experience corruption. Further international expansion may involve increased exposure to these types of practices. Our activities in these countries and others create risks of unauthorized payments or offers of payments, non-compliance with laws, or other unethical behavior by any of our employees, consultants, sales agents or distributors, that could be in violation of various laws, including the FCPA, even though these parties are not always subject to our control.

Our policy is to implement safeguards to discourage these or other unethical practices by our employees and distributors, including online and in-person employee trainings, periodic internal audits, and standard reviews of our distributors. However, our existing safeguards and any future improvements may not prove to be effective, and our employees, consultants, sales agents or distributors may engage in conduct for which we might be held responsible. Violations of the FCPA and other laws may result in criminal or civil sanctions, which could be severe, and we may be subject to other liabilities, which could negatively affect our business, results of operations and financial condition.

### **Real or perceived defects in or misuse of our products could adversely affect our results of operations, growth prospects and reputation.**

We currently market our products in over 130 countries either directly or indirectly through commercial partners and distributors. Due to the size and breadth of our operations, we may not always be able to track the use of our

## Management Report

products by the end users. If our products are misused or are perceived to be misused, this could adversely affect our reputation and our customers' willingness to buy from us, and adversely affect market acceptance or perception of our products.

Many of our customers - especially those in law enforcement and government who use our products for forensic testing, human identification, food testing or other purposes - use our products in applications that are of public interest or critical to their businesses or missions. As a result, they may have a lower risk tolerance to defects in our products than to defects in other less critical products. A defect in or misuse of any of our products by our law enforcement customers could lead to interference with the administration of justice, such as damage to forensic evidence. Any defects or misuse, real or perceived, could cause us to lose sales opportunities, increase our service costs, incur replacement costs, cause reputational damage, lose customers or subject us to liability for damages and divert our resources from other tasks. Any one of these factors could materially and adversely affect our business and results of operations. In addition, our products could be perceived as ineffective for reasons outside of our control.

Additionally, if any of our customers, government or otherwise, use or are perceived to use our products in a manner that is unethical, unlawful or inconsistent with our values, this may damage our reputation and results of operations. We strive to ensure that our products are used only in ethical and lawful ways, but we cannot provide any assurance that we will not be subject to claims from third parties alleging that our products were misused. Any allegations of misuse by our customers or third parties may damage our reputation, even if we took no part in the misuse or take immediate action to sever ties with such customers.

We believe that our brand and reputation are critical to driving our business. Building our brand will depend largely on our ability to continue to provide top-tier service, including high quality products at appropriate price points, which we may not do successfully. Negative reviews or publicity about our products or business, especially on media outlets, could harm our reputation and

diminish our ability to make additional sales, which would adversely affect our business, financial condition, and results of operations.

### **We depend on patents and proprietary rights that may fail to protect our business.**

Our success depends to a large extent on our ability to develop proprietary products and technologies and to establish and protect our patent and trademark rights in these products and technologies. As of December 31, 2023, we owned 303 issued patents in the United States, 251 issued patents in Germany and 1,716 issued patents in other major industrialized countries. In addition, as of December 31, 2023, we had 360 pending patent applications, and we intend to file applications for additional patents as our products and technologies are developed. The patent positions of technology-based companies involve complex legal and factual questions and may be uncertain, and the laws governing the scope of patent coverage and the periods of enforceability of patent protection are subject to change. In addition, patent applications in the United States are maintained in secrecy until patents issue, and publication of discoveries in the scientific or patent literature tends to lag behind actual discoveries by several months. Therefore, no assurance can be given that patents will issue from any patent applications that we own or license, or if patents do issue, that the claims allowed will be sufficiently broad to protect our technology. In addition, no assurance can be given that any issued patents that we own or license will not be challenged, invalidated or circumvented, or that the rights granted thereunder will provide us competitive advantages. Further, as issued patents expire, we may lose some competitive advantage as others develop competing products and as a result, we may lose revenue.

Some of our products incorporate patents and technologies that are licensed from third parties and for certain products, these in-licensed patents together with other patents provide us with a competitive advantage. These licenses impose various commercialization, sub-licensing and other obligations on us. Our failure to comply with these requirements could result in the conversion of the applicable license from being exclusive to non-exclusive or, in some cases,

## Management Report

termination of the license, and as a result, we may lose some competitive advantage and experience a loss of revenue.

We also rely on trade secrets and proprietary know-how, which we seek to protect through confidentiality agreements with our employees and consultants. There can be no assurance that any confidentiality agreements that we have with our employees, consultants, outside scientific collaborators and sponsored researchers and other advisors will provide meaningful protection for our trade secrets or adequate remedies in the event of unauthorized use or disclosure of such information. There can also be no assurance that our trade secrets will not otherwise become known or be independently developed by competitors.

We currently engage in, and may continue to engage in, collaborations with academic researchers and institutions. There can be no assurance that under the terms of such collaborations, third parties will not acquire rights in certain inventions developed during the course of these collaborations.

### **Our business exposes us to potential product liability.**

The marketing and sale of our products and services for certain applications entail a potential risk of product liability. Although we are not currently subject to any material product liability claims, product liability claims may be brought against us in the future. Further, there can be no assurance that our products will not be included in unethical, illegal or inappropriate research or applications, which may in turn put us at risk of litigation. We carry product liability insurance coverage, which is limited in scope and amount. There can be no assurance that we will be able to maintain this insurance at a reasonable cost and on reasonable terms, or that this insurance will be adequate to protect us against any or all potential claims or losses.

We are subject to various laws and regulations generally applicable to businesses in the different jurisdictions in which we operate, including laws and regulations applicable to the handling and disposal of hazardous substances. The risk of accidental contamination or injury from these materials cannot be completely eliminated. In the event of such an accident, we could be held liable for any damages that result, and any such liability could have a material adverse impact on us.

### **Our operating results may vary significantly from period to period and this may affect the market price of our Common Shares.**

Our operating results may vary significantly from quarter to quarter, and also year to year, since they are dependent upon a broad range of factors that include demand for our products, the level and timing of customer research budgets and commercialization efforts, the timing of government funding budgets of our customers, the timing of our research and development activities and related regulatory approvals, the impact of sales and marketing expenses, restructuring activities, introduction of new products by us or our competitors, competitive market conditions, exchange rate fluctuations and general economic conditions. Our expense levels are based in part on our expectations as to future sales trends. As a result, sales and earnings may vary significantly from quarter to quarter or from year to year, and actual sales and earnings results in any one period will not necessarily be indicative of results to be anticipated in subsequent periods. Our results may also fail to meet or exceed the expectations of securities analysts or investors, which could cause a decline in the market price of our Common Shares.

### **Our holding company structure makes us dependent on the operations of our subsidiaries.**

QIAGEN N.V. is incorporated under Dutch law as a public limited liability company (naamloze vennootschap), and is organized as a holding company. Currently, the material assets are the outstanding shares of the QIAGEN subsidiaries, intercompany receivables and other financial assets such as cash, short-term investments and derivative instruments. As a result, QIAGEN N.V. is dependent upon payments, dividends and distributions from the subsidiaries for funds to pay operating and other expenses as well as to pay future cash dividends or distributions, if any, to holders of our Common Shares. Dividends or distributions by subsidiaries in a currency other than the U.S. dollar may result in a loss upon a subsequent conversion into U.S. dollars.

### **Our Common Shares may have a volatile public trading price.**

The market price of our Common Shares since our initial public offering in September 1996 has increased significantly and been highly volatile. Since

## Management Report

January 10, 2018, our shares have been listed on the New York Stock Exchange (NYSE). Before that, our shares were listed on the NASDAQ through January 9, 2018. In the last two years, the price of our Common Shares has ranged from a high of \$55.12 to a low of \$34.74. On the Frankfurt Stock Exchange our Common Shares have ranged from a high of €49.37 to a low of €32.74 during the last two years.

In addition to overall stock market fluctuations, factors that may have a significant impact on the price of our Common Shares include:

- announcements of technological innovations or the introduction of new products by us or our competitors;
- developments in our relationships with collaborative partners;
- quarterly variations in our operating results or those of our peer companies;
- changes in government regulations, tax laws or patent laws;
- developments in patent or other intellectual property rights;
- developments in government spending budgets for life sciences-related research;
- general market conditions relating to the diagnostics, applied testing, pharmaceutical and biotechnology industries; and
- impact from foreign exchange rates.

The stock market has from time to time experienced extreme price and trading volume fluctuations that have particularly affected the market for technology-based companies. These fluctuations have not necessarily been related to the operating performance of these companies. These broad market fluctuations may adversely affect the market price of our Common Shares.

### **Holders of our Common Shares should not expect to receive dividend income.**

QIAGEN has not paid an annual dividend since its inception, and does not intend to implement one at this time. However, in January 2017 and January 2024 we completed synthetic share repurchases that combined direct capital

repayments with reverse stock splits. Although we do not anticipate paying any cash dividends on a regular basis, the distribution of cash through another synthetic share repurchase in a currency other than the U.S. dollar will be subject to the risk of foreign currency transaction losses. Investors should not invest in our Common Shares if they are seeking dividend income; the only return that may be realized through investing in our Common Shares would be through an appreciation in the share price.

### **Future sales and issuances of our Common Shares could adversely affect our stock price.**

Any future sale or issuance of a substantial number of our Common Shares in the public market, or any perception that a sale may occur, could adversely affect the market price of our Common Shares. Under Dutch law, a company can issue shares up to its authorized share capital provided for in its Articles of Association. Pursuant to our Articles of Association, our authorized share capital amounts to EUR 9.0 million, which is divided into 410.0 million common shares, 40.0 million financing preference shares and 450.0 million preference shares, with all shares having a EUR 0.01 par value. As of December 31, 2023, a total of approximately 228.2 million Common Shares were outstanding along with approximately 20.9 million Common Shares reserved under our stock plans as of December 31, 2023, including the shares subject to outstanding awards. Additionally, an aggregate of 17.1 million shares of Common Shares or up to a maximum of 27.0 million shares, subject to customary adjustments under certain circumstance, may be issued upon conversion of debt or warrants. The majority of our outstanding Common Shares may be sold without restriction, except shares held by our affiliates, which are subject to certain limitations on resale.

### **Shareholders who are United States residents could be subject to unfavorable tax treatment.**

We may be classified as a “passive foreign investment company”, or a PFIC, for U.S. federal income tax purposes if certain tests are met. Our treatment as a PFIC could result in a reduction in the after-tax return to holders of Common Shares and would likely cause a reduction in the value of these shares. If we were determined to be a PFIC for U.S. federal income tax purposes, highly

## Management Report

complex rules would apply to our U.S. shareholders. We would be considered a PFIC with respect to a U.S. shareholder if for any taxable year in which the U.S. shareholder held the Common Shares, either (i) 75% or more of our gross income for the taxable year is passive income; or (ii) the average value of our assets (during the taxable year) which produce or are held for the production of passive income is at least 50% of the average value of all assets for such year. Based on our income, assets and activities, we do not believe that we were a PFIC for U.S. federal income tax purposes for our taxable year ended December 31, 2023, and do not expect to be a PFIC for the current taxable year or any future taxable year. No assurances can be made, however, that the Internal Revenue Service will not challenge this position or that we will not subsequently become a PFIC.

### **Provisions of our Articles of Association and Dutch law and an option we have granted may make it difficult to replace or remove management and may inhibit or delay a takeover.**

Our Articles of Association (Articles) provide that our shareholders may only suspend or dismiss our Managing Directors and Supervisory Directors against their wishes with a vote of two-thirds of the votes cast if such votes represent more than 50% of our issued share capital. If the proposal was made by the joint meeting of the Supervisory Board and the Managing Board, a simple majority is sufficient. The Articles also provide that if the members of our Supervisory Board and our Managing Board have been nominated by the joint meeting of the Supervisory Board and Managing Board, shareholders may only overrule this nomination with a vote of two-thirds of the votes cast if such votes represent more than 50% of our issued share capital.

Certain other provisions of our Articles allow us, under certain circumstances, to prevent a third party from obtaining a majority of the voting control of our Common Shares through the issuance of Preference Shares. Pursuant to our Articles and the resolution adopted by our General Meeting of Shareholders, our Supervisory Board is entitled to issue Preference Shares in case of an intended takeover of our company by (i) any person who alone or with one or more other persons, directly or indirectly, have acquired or given notice of an intent to acquire (beneficial) ownership of an equity stake which in aggregate

equals 20% or more of our share capital then outstanding or (ii) an “adverse person” as determined by the Supervisory Board. If the Supervisory Board opposes an intended takeover and authorizes the issuance of Preference Shares, the bidder may withdraw its bid or enter into negotiations with the Managing Board and/or Supervisory Board and agree on a higher bid price for our Shares.

In 2004, we granted an option to the Stichting Preferente Aandelen QIAGEN, or the Foundation (*Stichting*), subject to the conditions described in the paragraph above, which allows the Foundation to acquire Preference Shares from us. The option enables the Foundation to acquire such number of Preference Shares as equals the number of our outstanding Common Shares at the time of the relevant exercise of the option, less one Preference Share. When exercising the option and exercising its voting rights on these Preference Shares, the Foundation must act in our interest and the interests of our stakeholders. The purpose of the Foundation option is to prevent or delay a change of control that would not be in the best interests of our stakeholders. An important restriction on the Foundation’s ability to prevent or delay a change of control is that a public offer must be announced by a third party before it can issue (preference or other) protective shares that would enable the Foundation to exercise rights to 30% or more of the voting rights without an obligation to make a mandatory offer for all shares held by the remaining shareholders. In addition, the holding period for these shares by the Foundation is restricted to two years, and this protective stake must fall below the 30% voting rights threshold before the two-year period ends.

### **Note Regarding Forward-Looking Statements and Risk Factors**

Our future operating results may be affected by various risk factors, many of which are beyond our control. Certain statements included in this Annual Report and the documents incorporated herein by reference may be forward-looking statements within the meaning of Section 27A of the U.S. Securities Act of 1933, as amended, and Section 21E of the U.S. Securities Exchange Act of 1934, as amended, including statements regarding potential future net sales, gross profit, net income and liquidity. These statements can be identified by the use of forward-looking terminology such as “believe”, “hope”, “plan”, “intend”,

## Management Report

“seek”, “may”, “will”, “could”, “should”, “would”, “expect”, “anticipate”, “estimate”, “continue” or other similar words. Reference is made in particular to the description of our plans and objectives for future operations, assumptions underlying such plans and objectives, and other forward-looking statements. Such statements are based on management’s current expectations and are subject to a number of factors and uncertainties that could cause actual results to differ materially from those described in the forward-looking statements. We caution investors that there can be no assurance that actual results or business conditions will not differ materially from those projected or suggested in such forward-looking statements as a result of various factors. Factors which could cause such results to differ materially from those described in the forward-looking statements include those set forth in the risk factors above. As a result, our future success involves a high degree of risk. When considering forward-looking statements, you should keep in mind that the risk factors could cause our actual results to differ significantly from those contained in any forward-looking statement.

## Quantitative and Qualitative Disclosures About Market Risk

### Derivatives and Hedging

In the ordinary course of business, we use derivative instruments, including swaps, forwards and / or options, to manage potential losses from foreign currency exposures and variable rate debt. The principal objective of such derivative instruments is to minimize the risks and / or costs associated with global financial and operating activities. We do not utilize derivative or other financial instruments for trading or speculative purposes. We recognize all derivatives as either assets or liabilities on the balance sheet, measure those instruments at fair value and recognize the change in fair value in earnings in the period of change, unless the derivative qualifies as an effective hedge that offsets certain exposures. In determining fair value, we consider both the counterparty credit risk and our own creditworthiness, to the extent that the derivatives are not covered by collateral agreements with the respective

counterparties. To determine our own credit risk, we estimated our own credit rating by benchmarking the price of our outstanding debt to publicly available comparable data from rated companies. Using the estimated rating, we quantify our credit risk by reference to publicly traded debt with a corresponding rating.

### Foreign Currency Derivatives

As a globally active enterprise, we are subject to risks associated with fluctuations in foreign currencies in our ordinary operations. This includes foreign currency-denominated receivables, payables, debt and other balance sheet positions including inter-company items. We manage our balance sheet exposure on a group-wide basis using foreign exchange forwards, options and cross-currency swaps.

### Interest Rate Derivatives

We use interest rate derivative contracts on certain borrowing transactions to hedge interest rate exposures. We have previously entered into interest rate swaps in which we agree to exchange, at specified intervals, the difference between fixed and floating interest amounts calculated by reference to an agreed-upon notional principal amount.

We also make use of economic hedges. Further details of our derivative and hedging activities can be found in Note 14 "Derivatives and Hedging" in the accompanying consolidated financial statements.

Our market risk relates primarily to interest rate exposures on cash, short-term investments and borrowings, and foreign currency exposures. Financial risk is centrally managed and is regulated by internal guidelines which require a continuous internal risk analysis. The overall objective of our risk management is to reduce the potential negative earnings effects from changes in interest and foreign exchange rates. Exposures are managed through operational methods and financial instruments relating to interest rate and foreign exchange risks. In the ordinary course of business, we use derivative instruments, including swaps, forwards and/or options, to manage potential losses from foreign currency exposures and interest rates. The principal objective of such derivative instruments is to minimize the risks and/or costs associated with global

## Management Report

financial and operating activities. We do not utilize derivative or other financial instruments for trading or other speculative purposes. All derivatives are recognized as either assets or liabilities in the balance sheet and are measured at fair value with any change in fair value recognized in earnings in the period of change, unless the derivative qualifies as an effective hedge that offsets certain exposures. In determining fair value, we consider both the counterparty credit risk and our own creditworthiness, to the extent that the derivatives are not covered by collateral agreements with the respective counterparties.

Further details of our derivative and hedging activities can be found in Note 14 "Derivatives and Hedging" in the accompanying consolidated financial statements.

### Interest Rate Risk

We use interest rate derivatives to align our portfolio of interest-bearing assets and liabilities with our risk management objectives.

At December 31, 2023, we are party to cross-currency interest rate swaps through 2025 for a total notional amount of €180.0 million under which we exchange, at specified intervals, the difference between the euro and USD interest amounts calculated on their respective fixed rates by reference to an agreed-upon euro and USD notional principal amounts. Also at December 31, 2023, we are party to cross-currency interest rate swaps through 2025 for a total notional amount of CHF 542.0 million under which we exchange, at specified intervals, the difference between the CHF and USD interest amounts calculated on their respective fixed rates by reference to an agreed-upon CHF and USD notional principal amounts.

At December 31, 2023, we had \$668.1 million in cash and cash equivalents as well as \$389.7 million in short-term investments. Interest income earned on our cash investments is affected by changes in the relative levels of market interest rates. We only invest in high-grade investment instruments. A hypothetical adverse 10% movement in market interest rates would have impacted our financial statements by approximately \$5.7 million.

Borrowings against lines of credit are at variable interest rates. We had no amounts outstanding against our lines of credit at December 31, 2023.

A hypothetical adverse 10% movement in market interest rates would not have materially impacted our financial statements.

At December 31, 2023, we had \$1.5 billion in long-term debt of which \$245.5 million is floating interest rate debt. A hypothetical adverse 10% movement in market interest rates would not have materially impacted our financial statements, as the increased interest expense would have been completely offset by increased interest income from our variable rate financial assets.

### Foreign Currency Exchange Rate Risk

As a global enterprise, we are subject to risks associated with fluctuations in foreign currencies with regard to our ordinary operations. This includes foreign currency-denominated receivables, payables, debt and other balance sheet positions as well as future cash flows resulting from anticipated transactions including intra-group transactions. We manage our balance sheet exposure on a group-wide basis primarily using foreign exchange forward contracts, options and cross-currency swaps.

Russia's February 2022 invasion of Ukraine and the sanctions imposed in response have led to a decline in the value of the ruble which is expected to remain highly volatile. In 2022, we suspended our activities in Russia. As of April 1, 2022, the results of our subsidiary in Türkiye are reported under highly inflationary accounting as the prior three-years cumulative inflation rate exceeded 100 per cent.

A significant portion of our revenues and expenses are earned and incurred in currencies other than the U.S. dollar. The euro is the most significant such currency, with others including the, British pound, Chinese renminbi, Japanese yen, and Swiss franc. Fluctuations in the value of the currencies in which we conduct our business relative to the U.S. dollar have caused and will continue to cause U.S. dollar translations of such currencies to vary from one period to another. Due to the number of currencies involved, the constantly changing currency exposures, and the potential substantial volatility of currency exchange rates, we cannot predict the effect of exchange rate fluctuations upon future operating results. In general terms, depreciation of the U.S. dollar against our

## Management Report

other foreign currencies will increase reported net sales. However, this effect is, at least partially, offset by the fact that we also incur substantial expenses in foreign currencies.

We have significant production and manufacturing facilities located in Germany and inter-company sales of inventory also expose us to foreign currency exchange rate risk. Inter-company sales of inventory are generally denominated in the local currency of the subsidiary purchasing the inventory in order to centralize foreign currency risk with the manufacturing subsidiary. We use an in-house bank approach to net and settle inter-company payables and receivables, as well as inter-company foreign exchanged swaps and forward contracts in order to centralize the foreign exchange rate risk to the extent possible. We have entered in the past and may enter in the future into foreign exchange derivatives including forwards, swaps and options to manage the remaining foreign exchange exposure.

### Credit Risk

Financial instruments that potentially subject us to concentrations of credit risk are cash and cash equivalents, financial assets, and accounts receivable. We attempt to minimize the risks related to cash and cash equivalents and financial assets by dealing with highly rated financial institutions, and investing in a broad and diverse range of financial instruments.

We have established guidelines related to credit quality and maturities of investments intended to maintain safety and liquidity. Concentration of credit risk with respect to accounts receivable is limited due to a large and diverse customer base, which is dispersed over different geographic areas. Allowances are maintained for potential credit losses and such losses have historically been within expected ranges. There were no significant concentrations of credit risk during the reporting period. The maximum exposure to credit risk is represented by the carrying amount of each financial asset in the statement of financial position.

Credit risk is managed on a Company basis, except for credit risk relating to accounts receivable balances. Each local entity is responsible for managing

and analyzing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered.

### Counterparty Risk

The financial instruments used in managing our foreign currency, equity and interest rate exposures have an element of risk in that the counterparties may be unable to meet the terms of the agreements. To the extent that derivatives are not subject to mutual collateralization agreements, we attempt to minimize this risk by limiting the counterparties to a diverse group of highly rated international financial institutions.

The carrying values of our financial instruments incorporate the non-performance risk by using market pricing for credit risk.

However, we have no reason to believe that any counterparties will default on their obligations and therefore do not expect to record any losses as a result of counterparty default. In order to minimize our exposure with any single counterparty, we have entered into all derivative agreements, with the exception of the Call Spread Overlay, under master agreement which allow us to manage the exposure with the respective counterparty on a net basis. Most of these master agreements, include bilateral collateral agreements.

### Commodities

We have exposure to price risk related to anticipated purchases of certain commodities used as raw materials in our business.

A change in commodity prices may alter the gross margin, but due to the limited exposure to any single raw material, a price change is unlikely to have a material unforeseen impact on earnings.

However, the volatility in product availability and pricing continued in 2023, and we expect some level of market constraints to continue in 2024.

## Management Report

# Sustainability

## Profile and business model

As a leading provider of Sample to Insight solutions, we realize our vision of making improvements in life possible by supporting our global customers across the molecular diagnostic and life science markets. Our products are used to advance science and improve outcomes for patients around the world. We are committed to being a sustainable business and consider the views of our stakeholders – customers, employees, authorities, regulators, suppliers, and shareholders – in how we operate. Details about our business, operating environment and products are included in the section [Business and Operating Environment](#).

## Building a sustainable business

In 2023, our growth strategy continues to be anchored in our Five Pillars of Growth:

- Sample technologies
- The digital PCR (Polymerase Chain Reaction) platform QIAcuity
- The clinical PCR automation solutions QIAstat-Dx
- The clinical PCR automation solutions NeuMoDx
- The QuantiFERON technology platform used to detect diseases (such as latent tuberculosis)

Since 2017, we have focused on integrating sustainability throughout the entire value chain and aligning our vision with a sustainable business which includes reducing our impact on the environment and minimizing the carbon footprint of our products. Our key strategic sustainability activities target increasing numbers of women in leadership positions, reducing our emissions, avoiding cyber security incidents, and ensuring a consistent 100% completion rate for new employee compliance trainings and the commitment of our strategic suppliers to sustainable improvement goals.

# General Approach to Sustainability

## Sustainability governance

### Aligning the QIAGEN vision with sustainable business

QIAGEN plays a vital role in helping to advance our understanding about the building blocks of life – DNA, RNA, and proteins. Our products are used to advance science and improve outcomes for patients around the world. This is underscored by our vision of “making improvements in life possible”, which extends to our commitment of being a sustainable business ensuring that we do not negatively impact our environment, community or society as a whole. We take into consideration the views of our stakeholders in making decisions on the way to operate our business. Our approach to sustainability is to consider our actual or potential positive and negative impacts throughout each area of our business. In line with our vision of making improvements in life possible, we have a commitment to deliver the best possible portfolio of product and services while leaving the smallest possible footprint on our planet. From whom we source to how we produce, we approach each step with the intention to do so in a sustainable way. We know our people are our most critical asset and we care about them - from their working environment to career development and opportunity. We aim to attract and retain talents that contribute to our vibrant workforce and our culture of empowerment.

### Sustainability anchored in two-tier corporate governance structure

The Nomination & Environmental, Social, and Governance (ESG) Committee, a dedicated Supervisory Board Committee, oversees the strategy, development and performance measurements of our sustainability initiatives. The strength of the committee lies in the extensive leadership experience of its current members, as each one of them has served as either the CEO or CFO of publicly listed companies. (Refer to [Corporate Governance](#) and our website for more details, including the Nomination & ESG Committee charter.) Their background equips them with a profound understanding of the intricate business implications associated with sustainability targets, the imperative need for effective risk management, and the comprehensive reporting requirements spanning both

## Management Report

financial and non-financial domains. The Nomination & ESG Committee reviews the operational activities of the Corporate ESG Committee, a cross-functional team with representatives from across the Company. The Corporate ESG Committee is led by our Head of ESG Strategy & Impacts Programs under the supervision of the Executive Committee. This Committee formulates and secures approval for our sustainability strategy and actively drives its implementation throughout the year. Additionally, a key responsibility of the Corporate ESG Committee is to inform the Audit Committee and Nomination & ESG Committee about new or updated regulatory requirements, such as the Corporate Sustainability Reporting Directive (CSRD), the EU Taxonomy and the German Supply Chain Act. In October 2023, the Corporate ESG Committee conducted a regulatory update with the Audit and Nomination & ESG Committees and instructed attendees on the relevant requirements from these three upcoming regulations. This update served to equip the Supervisory Board with the necessary information to guide their role in overseeing the effectiveness of internal controls and the risk management system pertaining to sustainability reporting. The Executive Committee receives updates on the progress of the implementation of the sustainability strategy and on regulatory changes on a quarterly basis while the Supervisory Board is informed of these updates at least twice a year. In 2023, the Corporate ESG Committee met with the Nomination & ESG Committee twice to review and approve the sustainability strategy, its implementation plan and the content of the Sustainability Statement that is disclosed in the Management Report.

The significance of sustainability within QIAGEN is firmly embedded in our culture and linked through the compensation system, wherein ESG objectives are incorporated into the annual Team Goals. These goals serve as the foundation for a substantial portion of variable short-term incentive compensation for our global workforce and the Managing Board. In acknowledgment of the paramount importance of sustainability, we have elevated the weight and influence of these objectives in line with our sustainability aspirations, a commitment that aligns with our broader promises on ESG matters.

### **Risk management and internal controls over sustainability reporting**

Our risk management approach is discussed under section [Risks and Risk Management](#). To ensure that newly established sustainability topics are integrated into the risk management approach, specialized teams were collaboratively formed in 2023 comprised of representatives from the owners of material topics and the ESG Reporting team. These teams included experts from global functions such as Accounting, ESG, U.S. Securities Exchange Commission (SEC) Reporting, and Corporate Communications. During the 2023 reporting process, provided guidance by these teams on process requirements was applied by all owners of material topics and documented accordingly, including applicable reviews.

### **Reporting boundaries**

The basis of our Sustainability reporting is defined in the EU Non-financial Reporting Directive (2014) and the EU Corporate Sustainability Reporting Directive (in effect since 2024), including the EU Taxonomy (partially in effect since 2022), and the proposed EU Sustainability Reporting Standards (in effect since 2024). The Sustainability reporting has also been aligned with the guidelines of the Global Reporting Initiative (GRI) and has been prepared in accordance with the GRI Standards. We also take into account the relevant requirements of the Sustainability Accounting Standards Board (SASB) for the Medical Equipment & Supplies industry. Where possible we follow the

## Management Report

recommendations of the Task Force on Climate-Related Financial Disclosures (TCFD). Our Sustainability Report is available on our website.

### Committed to the Sustainable Development Goals

As a global company, QIAGEN supports the Sustainable Development Goals (SDGs) of the United Nations (UN). The SDGs identify starting points for policy-makers, businesses, and private individuals worldwide to tackle the major challenges of our time - from resource consumption and global inequality to climate change. The 17 SDGs and the 169 targets were adopted by all UN member states in 2015 in what is termed the "Agenda 2030." Companies can make a major contribution to the implementation of the SDGs due to their influence on the environment and society in many ways – from production to distribution of products, the actions and behaviors of employees, and cooperations with partners, suppliers and customers along the supply chain. We are aware of this responsibility and want to make an impactful contribution to the SDGs that can be influenced by our business activities.

Looking at the impact of our business activities on sustainable development, we have identified five SDGs where QIAGEN can contribute the most:

- SDG 3 Good Health and Well Being
- SDG 5 Gender Equality
- SDG 8 Decent Work and Economic Growth
- SDG 12 Responsible Consumption and Production
- SDG 13 Climate Action

We value this alignment and the way our use of technology, resources and knowledge contributes to the United Nation's global mission of achieving the SDGs.

### Validation of Carbon Emission Targets

Our carbon emissions targets have now been validated by the Science Based Targets initiative (SBTi), endorsing our ambition to honor the Paris Agreement's climate goals.

The SBTi is a global body that enables companies to set ambitious emissions reductions targets in line with the latest climate science. The initiative is a collaboration between the Carbon Disclosure Project (CDP), the United Nations Global Compact, the World Resources Institute (WRI) and the World Wide Fund for Nature (WWF), and one of the We Mean Business Coalition commitments. The SBTi defines and promotes best practice in science-based target setting, offers resources and guidance to reduce barriers to adoption, and independently assesses and approves companies' targets. We are seeking to achieve net-zero status by 2050 by cutting direct and indirect emissions throughout our operations. We disclose our strategy to meet our targets in the Sustainability Report available on our website.

### Stakeholder engagement

We regard dialogue with our stakeholders as a central element in our development and the achievement of our long-term vision. We are aware that the shift toward a more sustainable economy and society requires intensive dialogue and cooperation with various stakeholder groups. We welcome this engagement and see these discussions as a way to identify important trends and developments in society and in our business fields. We take the outcomes of these discussions into account when shaping our business strategy as well as our sustainability agenda and objectives.

## Management Report

# Environmental Responsibility

### Approach to environmental protection

We make considerable investments into improving our environmental performance, striving to prevent or mitigate negative impacts from our business activities, products, or services. Our priority is implementing effective measures to comply with regulations, protecting the environment, and avoiding reputational damage or financial loss.

### Minimize Carbon Footprint

#### Climate strategy and value chain

We recognize climate change as one of the most pressing global challenges, bringing with it risks such as extreme weather events, changes in regulations, and changes in customer needs and behavior. Operations could, for example, be negatively impacted by fluctuations in the cost of raw materials, components, freight and energy. New laws and regulations adopted in response to climate change could cause a further rise in energy prices, as well as the price of certain raw materials, components, packaging and transportation. Based on our 2022 materiality analysis, dialogue with our stakeholders and ESG ratings evaluations, we concluded that the majority of our internal and external stakeholders, including our employees and customers, are very conscious of environmental issues, including plastic consumption and the recyclability and durability of products. Among others, these factors influence our customers' choice of supplier. We recognize that urgent action is required and are committed to reducing our greenhouse gas emissions in line with the EU Paris-Agreement.

### Science Base Target Initiative (SBTi) Validation

In 2019 we began setting emission reduction goals, and in 2021 we committed to reducing greenhouse gas emissions in line with the most recent criteria set out by the SBTi. These targets have been validated and approved by the SBTi in 2023. The SBTi has assessed our near-term and net-zero targets against the SBTi's Net-Zero Standard Criteria and the SBTi Near-Term Target Criteria and Recommendations (Version 5). The SBTi target validation team has classified QIAGEN's Scope 1 and 2 target ambition and has determined that it is in line with a 1.5°C trajectory. Our approved targets are:

- Overall Net-Zero Target: We commit to reach net-zero greenhouse gas emissions (GHG) across the value chain by 2050 from a 2020 base year.
- Near-Term Targets: We commit to reduce absolute Scope 1 and 2 GHG emissions 42% by 2030 from a 2020 base year. We also commit to reducing our absolute Scope 3 GHG emissions from business travel, use of sold products, and end-of-life treatment of sold products 25% within the same timeframe. We further commit that 67% of our suppliers by emissions covering purchased goods and services, capital goods and upstream transportation and distribution will have science-based targets by 2027.
- Long-Term Targets: We commit to reduce absolute Scope 1, 2 and 3 GHG emissions 90% by 2050 from a 2020 base year.

## Management Report

### Investing in People

#### Employees

QIAGEN’s success starts with our people. Our long-term success and growth depend on the knowledge, skill and passion of our employees. Investing in our people, therefore, drives our economic performance and considerably influences the sustainability of our operations. The attraction, development and retention of our employees is an integral factor in creating value for customers, colleagues, partners and shareholders. During 2023, we continued our strategic focus on being recognized as an employer of choice, which enables us to attract, develop and retain top talents that are critical to our long-term success.

Our Corporate Code of Conduct and Ethics provides our employees with a clear understanding of the principles of business conduct and ethics that are expected of them. Additionally, respect for human rights is a fundamental value of QIAGEN. Our Human Rights Policy defines how we strive to respect and promote human rights in our relationships with our employees, suppliers and other stakeholders. The policies are reviewed and updated annually and are both available on our website.

As a company headquartered in the European Union, freedom of association and collective bargaining are cornerstones of the good relationship between management and representatives of employees. The majority of our workforce is employed in member states of the OSCE (Organization for Security and Cooperation in Europe), which includes states from Europe, Central Asia and North America. In all regions where we operate, we comply with all applicable laws regarding freedom of association and collective bargaining and respect local laws and regulations concerning labor relations as outlined in our Human Rights Policy. Management believes that its relations with regional labor unions and employees are good.

The following tables provide information on the number of employees by geographical region and main category of activity. We acknowledge and respect all gender identities, understanding that individuals may identify as female, male, non-binary, or in various other ways. The gender data in the tables in this report are presented in the female or male format.

Employees by region	2023				2022			
	Female	Male	Total <sup>(1)</sup>	Percentage	Female	Male	Total	Percentage
EMEA	1,800	1,652	3,453	57.9 %	1,863	1,695	3,558	57.6 %
Americas	609	720	1,329	22.3 %	610	760	1,370	22.2 %
APAC	595	590	1,185	19.9 %	632	618	1,250	20.2 %
<b>Total employees</b>	<b>3,004</b>	<b>2,962</b>	<b>5,967</b>	<b>100.0 %</b>	<b>3,105</b>	<b>3,073</b>	<b>6,178</b>	<b>100.0 %</b>
	50.3 %	49.6 %			50.3 %	49.7 %		

<sup>(1)</sup> As of December 31, 2023, one employee identified their gender as non-binary or chose not to disclose.

## Management Report

Employees by function	2023	2022	2021
Production	28 %	29 %	30 %
Research & Development	18 %	17 %	16 %
Sales	37 %	37 %	37 %
Marketing	6 %	6 %	6 %
Administration	11 %	11 %	11 %
<b>Total</b>	<b>100 %</b>	<b>100 %</b>	<b>100 %</b>

In 2023, the number of employees working in production decreased as business conditions continued to reset following the significant ramp-up of production during the COVID-19 pandemic when we employed workers for this specific need under limited time contracts.

Depending on local laws and customs, there are different types of employment ranging from long-term fixed contracts to temporary positions. In addition, part-time, full-time and temporary employees may have access to benefits that offer flexible time and programs for parents following childbirth and during schooling, for example. In 2023, part-time employees represented 5.7% of our workforce and temporary employees, with a fixed-term work contract representing 7.3%.

### Employee Attraction and Development

QIAGEN’s goal is to be the industry employer of choice by attracting, developing and retaining diverse top talent. Enabling a fair, respectful and inclusive work environment is embedded in our culture. To drive our economic performance and create value, we focus on building excellent teams with remarkable talents. To adapt in the competitive field of talent attraction, the global Talent Acquisition Policy has been revised in line with an improved Talent Acquisition Strategy to enhance the global overall recruiting process, the commitment to diversity and inclusion, our internal application processes, work with hiring agencies, and adherence to official regulations.

We strive to create a work environment that empowers and involves employees at all levels. In 2023, we continued our global QIAGEN EMPOWER cultural

change initiative, originally launched in 2021 with voluntary ambassadors who actively facilitated discussions and practices around empowerment. The EMPOWER initiative aims at fostering inclusive networks and inspiring a culture of empowerment. The initiative also serves as a foundation for the professional and personal development of each employee. Our goal is to provide our employees with opportunities to develop, be venturesome, think and act long-term and, at the same time, motivate them to perform to the best of their ability with discipline, empathy and trust. We seek to inspire our people to grow so they have the right mindset and skills to thrive and achieve both professional and personal objectives. With our focus on performance management, employee, career and leadership development, we seek to foster effectiveness and performance. As anchored in our formal coaching guidelines, we empower every employee and encourage them to take on the responsibility for their learning and personal growth.

The talent, skills and passion of our employees are key to our success and value creation. The opportunity to develop personally and professionally is a core aspiration, both for employees who have recently joined QIAGEN and for those who have been with QIAGEN for quite some time. Our objective is to foster a learning culture that gives our employees the opportunity to develop their own unique career paths while collectively enhancing our ability to achieve our business objectives and secure a robust pipeline of talent to deliver on our long-term strategies.

### Diversity & Inclusion

At QIAGEN, we firmly believe that diverse teams are the cornerstone of our success. We recognize that a variety of perspectives, ideas and approaches foster innovation and drive our business forward. Our commitment to diversity and inclusion is steadfast, as we strive to cultivate an environment where every employee feels valued and empowered to contribute their unique talents and experiences.

Regardless of age, educational background, gender, sexual orientation, gender identity, nationality, ethnicity, veteran status, abilities, religion, or any other distinguishing characteristic protected by law, we are dedicated to providing

## Management Report

equal opportunities for all. We firmly believe that diversity is not only a moral imperative but also a competitive advantage that propels us forward.

Central to our diversity and inclusion efforts is our Executive Council of Equal Opportunity (ECEO), a diverse body of volunteers from across the company, including executives, managers and individual contributors. This cross-functional council oversees our initiatives aimed at fostering diversity and inclusion within our organization.

In 2018, we started our strategic initiative on gender diversity with a focus on improving the number of women in management. The participation of women in management roles increased from approximately 28% in 2018 to 36% in 2023 (2022: 35%). This was achieved because of strategic initiatives to drive awareness, engagement and development of better gender representation among our management team. We continue to work towards gender parity, and it is our goal to achieve at least 40% of women in management in the mid-term in accordance with our Gender Diversity Policy.

### Occupational Health and Safety

Safe workplaces and healthy employees are a top priority at QIAGEN. All employees are required to adhere to local and global health and safety procedures and practices. We place the health and safety of our employees above all other considerations and have introduced multiple measures to foster a serious culture of safety awareness. Our Global Environment, Health and Safety team (EHS team) oversees the conscientious implementation of global EHS policies and procedures. Our local EHS teams constantly manage and monitor site-specific occupational health and safety risks and activities.

Global processes include the implementation of a Global EHS Management system based on the ISO45001 standard. The EHS management system aims to reduce health and safety risks, related injuries, illness and unplanned events within our business operations to minimize safety risks for employees. All employees, service providers and company-managed contractors are required to follow the standards and requirements in our EHS management system.

## Management Report

### Serving Society

Making improvements in life possible is our vision. As a global provider of resources and tools in molecular testing, we continue to contribute to improving human health by ensuring communities around the world have access to our products and solutions. Our global reach extends to encompass public health organizations and commercial partners in more than 170 countries. We strive to provide innovative solutions to our customers and their patients by delivering high-quality products and modern technologies that enable new insights for scientific research, forensics, food safety or better informed treatment decisions.

#### Quality and product safety

QIAGEN stands for quality. Since our founding in 1984, our products are manufactured and distributed in compliance with global regulatory requirements. Our processes are designed to set state-of-the-art usability standards and are verified and validated according to their intended purpose.

All processes at QIAGEN are customer- and patient-oriented. Our activities are systematically and consistently integrated into cross-functional end-to-end processes. Based on collected insights and facts, reliable and sound information, and relevant measured data, we continuously monitor and improve our processes. This assures effectiveness and efficiency of our Quality Management System (QMS).

#### Customer Satisfaction

We are committed to continually improving our customers' experiences, taking into account their evolving needs and expectations. Since our products extend across different market segments, our customers have some common overlapping needs but also hold market-specific expectations for the use of our products and services. We strive to exceed customer expectations and establish trustful relationships that translate into customer loyalty, allowing us to best market our current and developing product portfolio across an established, diverse set of customers.

### Access to Healthcare

Improving access to diagnostics remains one of the world's greatest healthcare challenges. Our vision of Access to Healthcare is to ensure that every person who may benefit from a QIAGEN testing solution has access to one, regardless of where they live in the world and regardless of their economic status or background. Our commitment to Access to Healthcare is focused on three pillars: Accessibility, Affordability and Collaboration, with special focus on therapeutic areas that disproportionately affect vulnerable populations, including elimination of Tuberculosis (TB), HIV, COVID-19, Human Papilloma Virus (HPV), and MPOX, among other infectious and neglected diseases. As described in our Access to Healthcare policy, our Global Public Health Task Force (GPHTF) is the highest governing body, responsible for oversight of QIAGEN's Access to Healthcare strategy and objectives, including allocation of resources and overseeing project expansion in crucial regions. The GPHTF is composed of a diverse population of employees, with representation from each sales region encompassing APAC, EMEA, and the Americas. It also integrates members from every functional domain in Molecular Diagnostics, Life Sciences, and QIAGEN Digital Insights. While public health touches every region, particular consideration is given to Low and Middle-Income Countries (LMICs) where global health access pricing of our products is offered.

## Management Report

### Ensuring Business with Integrity

As a publicly listed company with international operations, we are subject to regulations in various jurisdictions. Unethical behavior and non-compliance with laws and regulations has the potential to seriously harm our business, our reputation, our shareholders, and expose our employees to personal liability. We have established a comprehensive Compliance Program which is overseen by the Global Compliance Manager and the Compliance Committee, under the leadership of the Head of Global Legal Affairs and Compliance, who reports in this function directly to the Audit Committee of the Supervisory Board. The Compliance Committee consists of managers from Legal, Internal Audit, Human Resources, SEC Reporting, Clinical and Medical Affairs, and Trade Compliance.

The Compliance Committee is responsible for our Corporate Code of Conduct and Ethics, which is updated annually, supplements specific policies for our employees, and meets the requirements of the SEC and the NYSE Listed Company Manual. The Corporate Code of Conduct and Ethics applies to all employees including the chief executive officer, chief financial officer, the principal accounting officer or controller, and other persons performing similar functions. The full text of our Corporate Code of Conduct and Ethics can be found on our website, [www.qiagen.com](http://www.qiagen.com), on the Compliance page under Investor Relations.

#### QIAGEN Integrity Line

Our hotline for the good faith reporting of violations of the law or our compliance policies is in accordance with the applicable German Whistleblower Act (*Hinweisgeberschutzgesetz*), the U.S. Sarbanes-Oxley Act, and the listing standards of the NYSE. We follow a strict non-retaliation policy. Upon identification of a report, we diligently investigate all such complaints and protect the anonymity of the complainant to ensure protection from retaliation as well as to secure the employment status of the complainant. We also offer a direct email and telephone hotline for employees to communicate questions or make suggestions for our Compliance Program.

In 2023, we updated our Whistleblower Policy to allow compliance- or audit-related complaints to be collected from outside the organization and not limited to only reports by employees. The new QIAGEN Integrity line is accessible via the QIAGEN Website. It is open for all persons or groups of persons who are directly or indirectly affected by human rights or environmental risks or violations within QIAGEN's own business area or within QIAGEN's supply chains. A written or oral report can be submitted via the digital reporting system, with text available in 19 languages.

#### Conflict minerals

U.S. legislation has been enacted to improve transparency and accountability concerning the sourcing of conflict minerals from mines located in the conflict zones of the Democratic Republic of Congo (DRC) and its adjoining countries. Conflict minerals comprise tantalum, tin, tungsten (or their ores) and gold. Certain of our instrumentation product components that we purchase from third party suppliers contain gold. This U.S. legislation requires manufacturers, such as us, to investigate our supply chain and disclose if there is any use of conflict minerals originating in the DRC or adjoining countries. We conduct due diligence measures annually to determine the presence of conflict minerals in our products and the source of any such conflict minerals. Because we do not purchase conflict minerals directly from smelters or refineries, we rely on our suppliers to specify to us their conflict minerals sources and declare their conflict minerals status. We disclosed our most recent conflict minerals findings to the Securities Exchange Commission for the calendar year ending December 31, 2022, on Form SD on May 30, 2023, and will provide updated disclosure to the Securities Exchange Commission as required.

#### Human Rights

Respect for human rights is an essential component of promoting sustainability in our global business. As a publicly listed company with international operations, we regard ourselves as a responsible corporate citizen in all the countries and regions where we do business. This role includes rights and obligations governed by international and national law, with human rights as one of the foundational elements. Our Human Rights Policy is designed to provide guidance on all human rights issues in our sphere of influence,

## Management Report

including our relationships with customers, employees and in our supply chain. Our Human Rights Policy can be found on our sustainability webpage.

### Data and Cyber Security

Considering the increasingly challenging cyber threat landscape, the realities of a remote workforce and our steadily progressing digitalization efforts, cyber security remains an important topic for our organization. We have made investments to improve the cyber-resilience of our organization, products and services. Preserving the trust of our customers, partners and employees is our goal.

Despite our security measures, the risk of data breaches remains. Potential incidents can have severe ramifications including financial loss, reputational damage, and legal penalties. Cyber-attacks, such as ransomware, can cause significant operational disruptions, impeding the timely delivery of services and products and potentially impacting our commitments to our stakeholders. We are aware that some of the data we are processing, if leaked, may harm the trust of the general public, our partners and customers. Our cyber security program, therefore, aims to implement robust measures ensuring the confidentiality, availability and integrity of critical data and services.

Our cyber security efforts are based on the ISO 27001 standard and incorporate the Information Security Forum "Standard of Good Practice for Information Security." Global cyber security and privacy requirements are actively monitored for and discussed as part of our Cyber Security Council as well as during Data Protection Committee meetings, both held multiple times a year.

To facilitate information and knowledge exchange, QIAGEN has joined well-known industry and governmental cyber security communities like the Information Security Forum (ISF), Allianz fuer Cyber-Sicherheit and Health-ISAC. Our Cyber Security Team consists of members with varying professional, educational, cultural and industry backgrounds, as well as a balanced mix of technical and managerial skills. We encourage and support our cyber security employees to further develop their skill set and participate in relevant security industry and community activities.

Our cyber security program considers evolving business requirements, regulatory guidance, and emerging threats. We have supporting privacy and cyber security policies and guidelines in place, which are reviewed and approved as part of our Cyber Security Council and Compliance Committee procedures. These policies and guidelines are applicable to all employees and are available on our intranet. Furthermore, we offer employees mandatory training during which we carry out knowledge checks to ensure that the content was understood by the trainees.

For our mandatory cyber security awareness training, we have, on average, approximately 85% of our staff worldwide successfully complete the training. We also conduct regular 'phishing' simulations, providing all staff members with an opportunity to interact in a safe manner with up-to-date phishing threats as observed from real threat actors. We offer frequent awareness webinars and workshops on important security topics, including new phishing trends, as well as role-specific trainings. In addition, the cyber security team regularly conducts incident response exercises to evaluate the organization's established procedures, including an analysis of each applicable incident response stage.

We are monitoring our organization's externally exposed assets and services (Attack Surface Monitoring), as well as information exposure (Dark Web Monitoring) to identify blind spots and potential weaknesses. Our vulnerability management program covers our global networks, digital workplaces and corporate cloud environments. We are working with Council for Registered Ethical Security Testers (CREST) certified partners to conduct regular, at least annual, security assessments of our global infrastructure. We further engage with external partners as needed to utilize their expertise for advanced security assessments. Cyber security risks are considered in context of our Enterprise Risk Management.

# Corporate Governance

## Governance Structure

QIAGEN is a 'Naamloze Vennootschap,' or N.V., a Dutch limited liability company similar to a corporation in the United States. We have a two-tier board structure under which QIAGEN is managed by a Managing Board consisting of executive management and acting under the supervision of an independent Supervisory Board (non-executives).

It is in the interest of QIAGEN and all our stakeholders, including shareholders, that each Board performs its functions appropriately with a clear division of responsibilities, as well as in terms of interaction with the General Meeting of Shareholders (General Meeting) and the external auditor, in a well-functioning system of checks and balances.

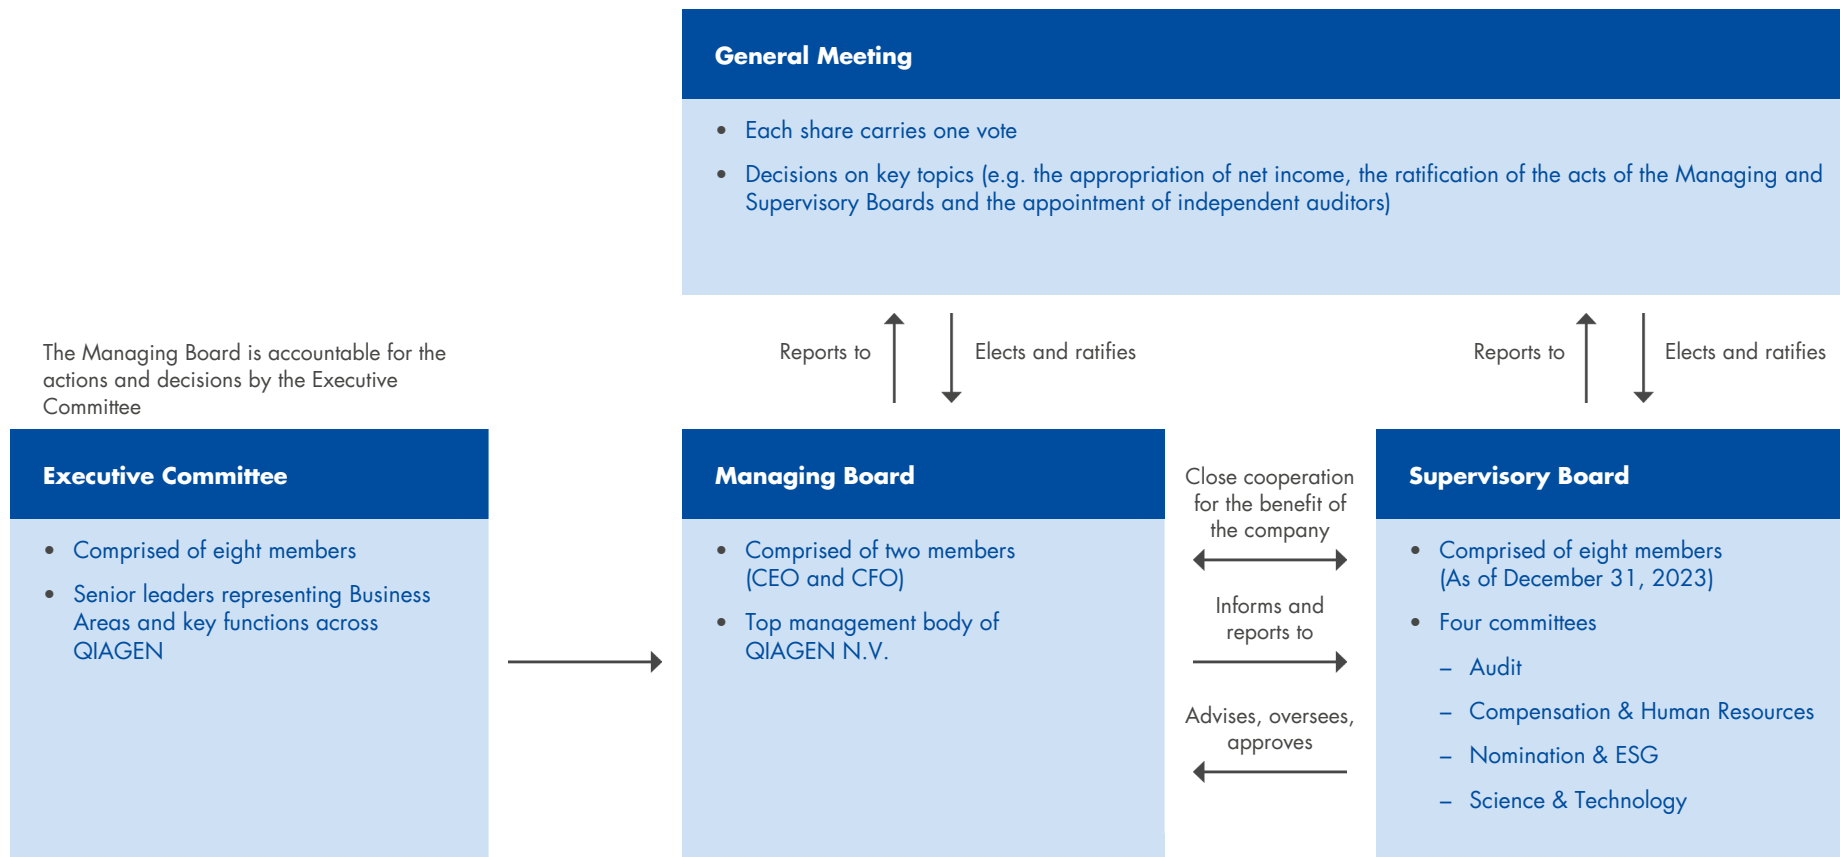

The Supervisory Board follows the principle of increasing stakeholder value and has always pursued the highest standards in Corporate Governance.

QIAGEN is committed to ensuring a corporate governance structure that best suits its business and stakeholders, and that complies with relevant rules and regulations. We follow applicable Dutch law and the principles described in the Dutch Code, although there are some minor deviations due to factors such as legal requirements imposed by other jurisdictions in which QIAGEN's Shares are listed as well as due to industry standards. A brief summary of the principal differences is presented in the section [Dutch Corporate Governance Code - Comply or Explain](#).

We believe all of our operations are carried out in accordance with legal frameworks, including Dutch Corporate Law, U.S. laws and regulations, EU regulations and applicable German and U.S. capital market laws.

## Corporate Governance

### QIAGEN operates under a two-tier corporate structure

**Corporate Governance**

## Managing Board

### General

The Managing Board is responsible for defining and achieving our aims, strategy, policies and results through the management of QIAGEN worldwide. The Managing Board is also responsible for financing, managing the risks associated with our business activities and complying with all relevant legislation and regulations. Additionally, the Managing Board (specifically the Chief Financial Officer) is informed of the findings of the Internal Audit function, which operates under the direct responsibility of the Supervisory Board through the Audit Committee. The Managing Board provides timely information to the Supervisory Board for discussions on the development of QIAGEN, and in particular reviews internal risk management and control systems with the Audit Committee.

The Managing Board is accountable for the performance of its duties to the Supervisory Board and the General Meeting. In discharging its duties, the Managing Board takes into account the interests of all stakeholders, including shareholders, in a commitment to sustainable long-term value creation.

### Composition and Appointment

The Managing Board consists of one or more members as determined by the Supervisory Board. The Managing Board members are appointed by the General Meeting upon the Joint Meeting of the Supervisory Board and the Managing Board (the Joint Meeting), which makes binding nominations. The General Meeting may overrule the binding nature of any nomination by a resolution adopted by at least a two-thirds majority of the votes cast, if such majority represents more than half of the issued share capital.

Managing Board members are appointed annually for one-year terms in the period beginning on the day following the Annual General Meeting up to and including the day of the Annual General Meeting held in the following year.

Managing Board members may be suspended and dismissed by the General Meeting by a resolution adopted by a two-thirds majority of the votes cast, if

such majority represents more than half of the issued share capital, unless the proposal was made by the Joint Meeting, in which case a simple majority of votes cast is sufficient. Furthermore, the Supervisory Board may at any time suspend (but not dismiss) a member of the Managing Board.

### Managing Board Members

The following were our Managing Board members for the year ended December 31, 2023:

**Thierry Bernard**

Chief Executive Officer  
(1964, U.S./French)

Thierry Bernard joined QIAGEN in February 2015 to lead our growing presence in molecular diagnostics, the application of Sample to Insight solutions for molecular testing in human healthcare. He was named Chief Executive Officer in March 2020 after serving in this role on an interim basis, and became a member of the Managing Board in 2021. Previously, Mr. Bernard held roles of increasing responsibility during 15 years with bioMérieux SA, most recently as Corporate Vice President, Global Commercial Operations, Investor Relations and the Greater China Region. He also held senior management roles in other leading international companies. He was named in March 2023 as Chair of the AdvaMedDx Board of Directors, a U.S. industry trade association. Mr. Bernard has earned degrees and certifications from Sciences Po, LSE, the College of Europe, Harvard Business School, Centro de Comercio Exterior de Barcelona, and has been appointed Conseiller du Commerce Extérieur by the French government.

## Corporate Governance

### Roland Sackers

Chief Financial Officer  
(1968, German)

Roland Sackers joined QIAGEN in 1999 as Vice President, Finance. He became Chief Financial Officer in 2004, and joined the Managing Board in 2006. From 1995 to 1999, he was an auditor with Arthur Andersen Wirtschaftsprüfungsgesellschaft Steuerberatungsgesellschaft. Since 2019, Mr. Sackers has served on the Supervisory Board of Evotec SE, a publicly listed company based in Germany, including as Chair of the Audit Committee since 2019 and as Vice Chair of the Supervisory Board since 2021. He is also a member of the Board of the industry association BIO Deutschland. Mr. Sackers earned his Diplom-Kaufmann from the University of Münster.

## Supervisory Board

### General

The Supervisory Board supervises the policies of the Managing Board, the general course of our business and strategy for, among other things, sustainable long-term value creation.

The Supervisory Board assists the Managing Board by providing advice relating to the business activities of QIAGEN. Meetings are held in the absence of the Managing Board for select topics at each regular meeting.

In discharging its duties, the Supervisory Board takes into account the interests of QIAGEN and all stakeholders, including shareholders, in its aim to create long-term value. The Supervisory Board is responsible for the quality of its own performance, and conducts a self-evaluation on an annual basis. Our Supervisory Board has specified matters requiring its approval, including decisions and actions that would fundamentally change our assets, financial position or results of operations.

The Supervisory Board has established four Committees - Audit, Compensation & Human Resources, Nomination & ESG, and Science & Technology - from among its members. Additional Committees can be established or existing Committees modified in terms of charter as deemed beneficial. The Supervisory Board has approved charters for each of these Committees. An overview of these Committees and meeting attendance is provided below.

### Composition and Appointment

The Supervisory Board consists of at least three members, or a larger number as determined by the Joint Meeting. Members of the Supervisory Board are appointed by the General Meeting upon the Joint Meeting having made a binding nomination for each vacancy. However, the General Meeting may overrule the binding nature of any nomination by a resolution adopted by at least a two-thirds majority of the votes cast, if such majority represents more than half of the issued share capital.

The Supervisory Board shall be composed in a way that enables it to carry out its duties properly and enables its members to act critically and independently of one another and of the Managing Board and any particular interests. As a result, the Supervisory Board has adopted a profile in terms of its size and composition that takes into account the nature of our business, activities and the desired diversity, expertise and background of the Supervisory Board members. The current profile of the Supervisory Board can be found on our website ([www.qiagen.com](http://www.qiagen.com)). The Supervisory Board has appointed a Chair from its members who has the duties assigned by the Articles of Association and the Dutch Code.

Members of the Supervisory Board are appointed annually for the period beginning on the day following the Annual General Meeting of our shareholders up to and including the day of the Annual General Meeting held in the following year. Members of the Supervisory Board may be suspended and dismissed by the General Meeting by a resolution adopted by a two-thirds majority of the votes cast, if such majority represents more than half of the issued share capital, unless the proposal was made by the Joint Meeting, in which case a simple majority of votes cast is sufficient.

## Corporate Governance

The composition of our Supervisory Board is diverse in gender, nationality, background, knowledge and experience. The targeted profile of the Supervisory Board is reflected in its regulations, which are published on our website under “Supervisory Board.”

### Independence

The NYSE listing standards require a majority of the Supervisory Board Members to be independent, which is the case for QIAGEN.

Additionally, the Dutch Code distinguishes between certain independence criteria that may be fulfilled by not more than one Supervisory Board Member (e.g., prior employment with the Company, receiving personal financial compensation from the Company, or having an important business relationship with the Company) and other criteria that may not be fulfilled by more than the majority of the Supervisory Board members. In some cases, Dutch independence requirements are more stringent, such as by requiring a longer “look back” period (five years) for former executives to become Supervisory Board members.

In other cases, the NYSE rules are more stringent, such as having a broader definition of disqualifying affiliations. The majority of members of our Supervisory Board are currently considered “independent” under both the NYSE and Dutch requirements.

### Supervisory Board Members

The following is a brief summary of Supervisory Board members for the year ended December 31, 2023:

#### Lawrence A. Rosen

Chair  
Committees: Audit, Nomination & ESG (Chair),  
Compensation & Human Resources  
(1957, U.S.)

Lawrence A. Rosen joined the Supervisory Board in 2013 and was appointed Chair in 2020. He is currently Chair of the Nomination & ESG Committee and

a member of the Audit Committee. Mr. Rosen also serves on the Supervisory Boards of Lanxess AG and Deutsche Post AG, where he previously was a member of the Board of Management and Chief Financial Officer from 2009 to 2016. He served as Chief Financial Officer of Fresenius Medical Care AG & Co. KGaA from 2003 to 2009, and earlier as Senior Vice President and Treasurer of Aventis SA in Strasbourg. A U.S. citizen, Mr. Rosen holds a bachelor’s degree from the State University of New York and an MBA from the University of Michigan.

#### Dr. Metin Colpan

Committees: Science & Technology (Chair), Nomination & ESG  
(1955, German)

Metin Colpan Ph.D. co-founded QIAGEN and served as its first Chief Executive Officer and a Managing Director from 1985 to 2003. A member of the Supervisory Board since 2004, Dr. Colpan is currently Chair of the Science & Technology Committee and a member of the Nomination & ESG Committee. Prior to co-founding QIAGEN, Dr. Colpan was an Assistant Investigator at the Institute for Biophysics at the University of Düsseldorf. He has extensive experience in Sample technologies, in particular the separation and purification of nucleic acids, and has many patents in the field. Dr. Colpan obtained his Ph.D. and master’s degree from the Darmstadt Institute of Technology.

#### Dr. Toralf Haag

Committee: Audit (Chair and Financial Expert)  
(1966, German)

Toralf Haag Ph.D. joined the Supervisory Board in 2021 and currently serves as Chair of the Audit Committee. Dr. Haag is Chief Executive Officer and Chairman of the Corporate Board of Management of Voith GmbH & Co.

## Corporate Governance

KGaA, a privately held German technology company. Before joining Voith as Chief Financial Officer in 2016, Dr. Haag served for more than 11 years as Chief Financial Officer and Member of the Executive Committee of Lonza Group AG. Dr. Haag earned a degree in business administration from the University of Augsburg and a Ph.D. from the University of Kiel.

### Prof. Dr. Ross L. Levine

Committee: Science & Technology  
(1972, U.S.)

Ross L. Levine M.D. joined the Supervisory Board in 2016 and serves on the Science & Technology Committee. In 2021, he became Chair of QIAGEN's Scientific Advisory Board. A physician-scientist focused on researching and treating blood and bone-marrow cancers, Dr. Levine is the Laurence Joseph Dineen Chair in Leukemia Research, the Chief of Molecular Cancer Medicine and an Attending Physician at Memorial Sloan Kettering Cancer Center, and Professor of Medicine at Weill Cornell Medicine. Board-certified in internal medicine and hematology-oncology, Dr. Levine received a bachelor's degree from Harvard College and his M.D. from The Johns Hopkins University School of Medicine.

### Prof. Dr. Elaine Mardis

Committees: Compensation & Human Resources, Science & Technology  
(1962, U.S.)

Elaine Mardis Ph.D. joined the Supervisory Board in 2014 and serves on the Science & Technology Committee and the Compensation & Human Resources Committee. Dr. Mardis is Co-Executive Director of the Steve and Cindy Rasmussen Institute for Genomic Medicine at Nationwide Children's Hospital in Columbus, Ohio, and Professor of Pediatrics at The Ohio State University

College of Medicine. Previously, she was the Robert E. and Louise F. Dunn Distinguished Professor of Medical Sciences at Washington University School of Medicine and President of the American Association for Cancer Research. Dr. Mardis is a scientific advisor to Scorpion Therapeutics LLC, an elected member of the U.S. National Academy of Medicine, and a member of the Board of Directors of Singular Genomics Systems, Inc., a publicly listed company based in the U.S. Dr. Mardis received her bachelor's degree and Ph.D. from the University of Oklahoma.

### Dr. Eva Pisa

Committees: Compensation & Human Resources  
(1954, Swedish/Swiss)

Eva Pisa Ph.D. joined the Supervisory Board in 2022 and serves on the Compensation & Human Resources Committee. She is an advisor to several life science and diagnostic companies through her company piMed Consulting, and she previously held senior leadership positions in Roche Diagnostics International from 2007 to 2020, most recently as Senior Vice President at Roche Centralized and POC Solutions. Prior to joining Roche, she was Chief Executive Officer of Sangtec Molecular Diagnostics AB, a Swedish start-up, from 2001 to 2007. Dr. Pisa holds a Ph.D. from the Karolinska Institutet and an MBA from Heriot-Watt University.

### Stephen H. Rusckowski

Committees: Compensation & Human Resources, Nomination & ESG  
(1957, U.S.)

Stephen H. Rusckowski joined the Supervisory Board in April 2023 and serves on the Compensation & Human Resources Committee. He most recently served as Chairman, President and Chief Executive Officer of Quest Diagnostics. He

## Corporate Governance

joined Quest Diagnostics as President and Chief Executive Officer in May 2012 and was named Chairman in 2016. He stepped down from his role as President and CEO in 2022, and as Chairman in early 2023. Prior to joining Quest Diagnostics, Mr. Rusckowski was CEO of Philips Healthcare, which he joined in 2001 when Philips acquired the Healthcare Solutions Group that he was leading at Hewlett-Packard/Agilent Technologies. Mr. Rusckowski also serves on the Board of Directors of Baxter International Inc., and previously served as a member of the Board of Directors of Xerox Holdings Corporation and Covidien plc. He earned a bachelor’s degree in Mechanical Engineering from Worcester Polytechnic Institute and a master’s in Management from the Massachusetts Institute of Technology’s Sloan School of Management.

---

### **Elizabeth E. Tallett**

Committees: Audit, Compensation & Human Resources (Chair),  
Nomination & ESG  
(1949, U.S./British)

---

Elizabeth E. Tallett joined the Supervisory Board in 2011. She is Chair of the Compensation & Human Resources Committee and a member of the Audit Committee and the Nomination & ESG Committee. Ms. Tallett is Chair of the Board of Directors of Elevance Health, Inc., and a member of the Board of Directors of Moderna, Inc., both publicly listed companies based in the U.S. From 2002 to 2015, she was a Principal of Hunter Partners, LLC, a management company for pharmaceutical, biotechnology and medical device companies, and continues to consult with early-stage healthcare companies. She previously served as President and Chief Executive Officer of Transcell Technologies Inc.; President of Centocor Pharmaceuticals; a member of the Parke-Davis Executive Committee, and Director of Worldwide Strategic Planning for Warner-Lambert Company. A founding Board member of the Biotechnology Council of New Jersey, Ms. Tallett received bachelor’s degrees in mathematics and economics from the University of Nottingham.

## Corporate Governance

The following table outlines the current Supervisory Board members and a selection of their skills and experience:

Key competencies	Lawrence A. Rosen (Chair)	Dr. Metin Colpan	Dr. Toralf Haag	Prof. Dr. Ross L. Levine	Prof. Dr. Elaine Mardis	Dr. Eva Pisa	Stephen H. Rusckowski	Elizabeth E. Tallett

\*Supervisory Board members are reappointed annually, for one-year terms.

## Corporate Governance

### Supervisory Board composition

The composition of our Supervisory Board is diverse in gender, nationality, background, knowledge and experience. As of March 2024, the Board was comprised of five men and four women. Four members are American, two are German, one is U.K.-American, and one is Swedish-Swiss. Many have spent considerable time during their careers living and working outside their home countries in developing global management and leadership capabilities.

Following best practice 2.1.10 of the Dutch Corporate Governance Code, the Supervisory Board establishes that its members are able to act critically and independently of one another and of the Managing Board. To safeguard this, the Supervisory Board is composed in such a way that all its members are independent in the meaning of best practice 2.1.8 of the Dutch Corporate Governance Code. As a result, the Supervisory Board confirms being of the opinion that the independence requirements referred to in best practice 2.1.7 to 2.1.9 inclusive of the Dutch Corporate Governance Code have been fulfilled. We further believe that all Supervisory Board members qualify as independent under the independence standards set forth in the New York Stock Exchange (NYSE) Listed Company Manual. Pursuant to the NYSE rules, a majority of the Supervisory Board members must qualify as independent, as defined in the Rules. The targeted profile of the Supervisory Board is reflected in its regulations, which are published on our website under "Supervisory Board."

Please refer to the discussion below under "Supervisory Board committees" for information on the principal positions and relevant other positions held by members of the Supervisory Board. Further detailed information is also available on the company website at [www.qiagen.com](http://www.qiagen.com).

### Supervisory Board meetings in 2023

The Supervisory Board held six meetings in 2023, with each member attending all meetings. Of these meetings, five were held in person and one was held virtually. All Managing Board members were also present for these Supervisory Board meetings in 2023.

The Supervisory Board meetings and the Supervisory Board committee meetings are held over a number of days, ensuring there is time for review and

discussion. At each meeting, the members discuss among themselves the goals and outcome of the meeting, as well as topics such as the functioning and composition of the Supervisory Board and the Managing Board.

Members of senior management are also regularly invited to provide updates on topics within their area of expertise.

This gives the Supervisory Board the opportunity to get acquainted with a variety of managers across QIAGEN, which the Supervisory Board considers very useful in connection with its talent management and succession planning activities.

The Supervisory Board also reviewed and discussed agenda items in the absence of the Managing Board members in each meeting, such as performance and strategy, as well as to discuss compensation matters.

### Supervisory Board committees

The Board has four Committees to cover key areas in greater detail:

- Audit Committee
- Compensation & Human Resources Committee
- Nomination & ESG (Environment, Social and Governance) Committee
- Science & Technology Committee

The Supervisory Board can establish other committees as deemed beneficial. Charters have been approved by the Supervisory Board under which each of the committees operates. These charters are published on our website at [www.qiagen.com](http://www.qiagen.com) under "Supervisory Board."

## Corporate Governance

The following table outlines the committee membership and meetings attended during 2023:

	Supervisory Board	Audit Committee	Compensation & Human Resources Committee	Nomination & ESG Committee	Meeting Attendance Science & Technology Committee
Lawrence A. Rosen	6/6	7/7	4/4	4/4 (Chair)	
Dr. Metin Colpan	6/6			4/4	4/4 (Chair)
Thomas Ebeling <sup>(1)</sup>	3/3			3/3	
Dr. Toralf Haag	6/6	7/7 (Chair)			
Prof. Dr. Ross L. Levine	6/6				4/4
Prof. Dr. Elaine Mardis	6/6		6/6		4/4
Dr. Eva Pisa	6/6		6/6		
Stephen H. Ruscowski <sup>(2)</sup>	5/5		3/3		
Elizabeth E. Tallett	6/6	7/7	6/6 (Chair)	4/4	

<sup>(1)</sup> Mr. Ebeling did not stand for re-appointment at the AGM in June 2023.

<sup>(2)</sup> Mr. Ruscowski joined the Supervisory Board in April 2023.

### Audit Committee

The Audit Committee members are appointed annually by the Supervisory Board for one-year terms. In 2023, the Audit Committee consisted of three members and met at least quarterly during the year. We believe that all members of this Committee meet the independence requirements as set forth in Rule 10A-3 of the Securities Exchange Act of 1934, as amended, and the New York Stock Exchange Listed Company Manual.

The Supervisory Board has designated Dr. Toralf Haag as an “audit committee financial expert” as that term is defined in the U.S. Securities and Exchange Commission rules adopted pursuant to the Sarbanes-Oxley Act of 2002, and as referred to in the Dutch Decree on Audit Committees (*Besluit instelling auditcommissie*).

The Committee performs a self-evaluation of its activities on an annual basis. The Committee's primary duties and responsibilities include, among other things, to serve as an independent and objective party to monitor QIAGEN's accounting and financial reporting process, control and compliance systems and internal risk management, including risks related to cyber security. This Committee also is directly responsible for proposing the external auditor to the Supervisory Board, which then proposes the appointment of the external auditor to the Annual General Meeting.

Furthermore, this Committee is responsible for the compensation and oversight of QIAGEN's external auditor and for providing an open avenue of communication among the external auditor as well as the Managing Board and the Supervisory Board. Our Internal Audit and Compliance functions operate under the direct responsibility of the Audit Committee. Additionally, this Committee is responsible for establishing procedures to allow for the

## Corporate Governance

confidential and or anonymous submission by employees of concerns, including the receipt, retention and treatment of submissions received regarding accounting, internal accounting controls, or auditing matters.

The Audit Committee met seven times in 2023, and also met with the external auditor excluding members of the Managing Board in August 2023. The Committee discussed, among other matters, the following topics, and provided updates to the Supervisory Board:

- the adequacy of our financial accounting (including reporting principles and policies), financial and operating controls and procedures with the external auditor and management;
- consideration and approval of any recommendations regarding changes to our accounting principles, policies and processes;
- reviewed with management and the external auditor our quarterly earnings reports prior to their public release;
- reviewed the quarterly and annual reports (reported on Forms 6-K and 20-F) to be furnished to or filed with the U.S. Securities and Exchange Commission and the Deutsche Boerse in Germany;
- reviewed the annual report to be filed with the Dutch Authority for the Financial Markets; and
- reviewed major risk exposures (including cyber security) and reviewed any legal matter including compliance topics that could have a significant impact on the financial statements.

### Compensation & Human Resources Committee

The Compensation & Human Resources Committee currently consists of four members that are appointed annually by the Supervisory Board for one-year terms.

Its primary duties and responsibilities include, among other things, oversight of our programs, policies and practices related to the management of human capital resources, including talent management, culture, diversity and inclusion; the preparation of a proposal to the Supervisory Board regarding the

Remuneration Policy for the Managing Board and Supervisory Board and proposal for adoption by the General Meeting; preparation of a proposal concerning the individual compensation for Managing Board members to be adopted by the Supervisory Board; and preparation of the Remuneration Report that outlines compensation for the Managing Board and Supervisory Board members to be adopted by the Supervisory Board, and submitted to the Annual General Meeting for an advisory vote in accordance with Dutch law. The Remuneration Report outlines the implementation of the Remuneration Policies for the most recent year.

This Committee engaged during 2023 with external consultants to ensure that the overall remuneration levels are benchmarked regularly against a selected group of companies and key markets in which QIAGEN operates.

The Compensation & Human Resources Committee met six times in 2023. The Committee discussed, among other matters, the following topics, and provided updates to the Supervisory Board:

- policies and practices related to management of human capital resources including talent management and diversity;
- review and approve all share-based compensation;
- review and approve the annual salaries, bonuses and other benefits of the Executive Committee, and
- review of general policies relating to employee compensation and benefits.

### Nomination & ESG Committee

The Nomination & ESG Committee currently consists of three members that are appointed by the Supervisory Board annually for one-year terms.

Its primary responsibilities include, among other things, preparing the selection criteria and appointment procedures for members of the Supervisory Board and Managing Board; periodically evaluating the scope and composition of the Managing Board and Supervisory Board; periodically evaluating the functioning of individual members of the Managing Board and Supervisory Board, and reporting these results to the Supervisory Board; proposing

## Corporate Governance

(re-)appointments of members of the Supervisory Board and Managing Board; conducting periodic evaluations of QIAGEN's ESG (Environmental, Social and Governance) policies and related public disclosures; and periodically reviewing the Corporate Governance structure in line with applicable legal requirements and recommend changes to the Supervisory Board.

The Nomination & ESG Committee met four times in 2023. The Committee discussed, among other matters, the following topics, and provided updates to the Supervisory Board:

- the nomination of Stephen H. Rusckowski as a new member of the Supervisory Board;
- an annual evaluation on the scope and composition of the Managing Board and the Supervisory Board, including the profile of the Supervisory Board as well as the functioning of individual members of Boards;
- proposals for the (re-)appointment of members of the Managing Board and Supervisory Board, and supervised the Managing Board in relation to the selection and appointment criteria for senior management;
- the search and selection process for new members and succession planning considerations for the Supervisory Board, Managing Board, Executive Committee and other senior management positions, taking into account short-, medium- and longer-term perspectives;
- the preparation of the Supervisory Board self-evaluation process, which involved an external expert; and
- regular updates on the progress of our ESG programs, including a review and discussion of the Gender Diversity Policy.

### Science & Technology Committee

The Science & Technology Committee currently consists of three members that are appointed annually by the Supervisory Board for one-year terms. The Committee works with the Scientific Advisory Board, which was established in 2021 to provide early evaluation of market and technology developments that

could have an influence on QIAGEN's development and positioning in the Life Sciences and Molecular Diagnostics.

The Committee's primary responsibilities include, among other things, reviewing and monitoring research and development projects, programs, budgets, and infrastructure management; and overseeing the management risks related to our portfolio and information technology platforms.

This Committee met four times in 2023. The Committee discussed, among other matters, the following topics, and provided updates to the Supervisory Board:

- discussions to gain understanding, clarification and validation of the fundamental technical basis of our businesses in order to enable the Supervisory Board to make informed, strategic business decisions and vote on related matters; and
- guided the Managing Board to ensure that QIAGEN can develop and leverage powerful, world-class science to create value for our stakeholders, including shareholders.

### Stakeholder management as a central responsibility

The Supervisory Board acts in accordance with the interests of the company and the business connected with it, taking into consideration the interests of our stakeholders. The members of the Supervisory Board are in regular close contact with the Managing Board members, and the same applies to the members of the Audit Committee.

In 2023, five of the six Supervisory Board meetings were in-person. The in-person meetings were held at various QIAGEN sites that provided the opportunity to interact with QIAGEN employees. These meetings also enabled the Supervisory Board to receive information on relevant topics from senior leaders and experts, both internally and externally, during committee meetings, full Supervisory Board meetings, and also as part of their ongoing professional education.

Direct, one-to-one contact between Supervisory Board members and Managing Board and Executive Committee members generally builds on the topics discussed in the meetings of the Supervisory Board. These discussions draw on

## Corporate Governance

the expertise of individual Supervisory Board members, whose advice is sought on a wide range of topics.

The Supervisory Board takes an active interest in maintaining a good understanding of our stakeholders and their positions on various topics related to QIAGEN's areas of business. This includes the perceptions of our shareholders, which is received through direct interaction and calls with major institutional shareholders. The Supervisory Board is also informed of the position of the range of QIAGEN stakeholders by the Managing Board and other senior managers. In addition, the Supervisory Board members collect information through their own individual networks, and this is shared with other Board members and the Managing Board.

### Role of the Supervisory Board

The Supervisory Board has the task of supervising the activities of the Managing Board and the general affairs of QIAGEN, including:

- the achievement of corporate objectives;
- the strategy and the risks inherent in the business activities;
- the structure and operation of the internal risk management and control systems;
- the financial and sustainability reporting process; and
- the observance of good corporate governance.

Throughout 2023, the Supervisory Board agenda was centered around the strategy and its execution, financial and operational performance, business developments, risk management, and people and organization. Based on the strategic priorities for QIAGEN as agreed in the annual strategy review, several topics were extensively discussed by means of deep dives, allowing a focused and in-depth review.

With the strong demand for QIAGEN's products in combination with the Company's focus on the execution of its strategic priorities, the Supervisory Board has confidence in QIAGEN's long-term growth opportunities and the continued delivery of value to its stakeholders. As part of the annual strategy

review, we held dedicated discussions focused on QIAGEN's strategy, in particular the Five Pillars of Growth. An in-depth review was performed of the short-, medium- and long-term market developments in the markets served by QIAGEN and the related plans to meet customer demands. Additional sessions were focused on longer-term growth opportunities. In line with our overall strategy, the Supervisory Board also regularly discusses M&A strategy and relevant developments within our sectors. The Supervisory Board was regularly informed and kept up to date on the process of reviewing potential M&A targets during the year. These sessions enable an engaged and focused discussion between the Supervisory Board and Managing Board on key strategic matters, and we highly value this way of contributing to the strategic decision-making process.

## Corporate Governance

### Board-Related Matters

#### Diversity within the Managing Board and Supervisory Board

On January 1, 2022, a new Dutch gender diversity bill became effective. Although it does not apply to Dutch companies listed outside of the Netherlands, the gender diversity bill imposes new requirements on so-called "large" companies such as QIAGEN to formulate appropriate and ambitious gender balance targets for the Supervisory Board, Managing Board and senior management.

Accordingly, we have established gender balance targets that we consider appropriate and ambitious as follows:

- Our objective is for at least 40% of the Supervisory Board members to be women and at least 40% men in the mid-term. To achieve this goal, gender diversity is one of the key selection criteria for new members. As of December 31, 2023, the Supervisory Board was comprised of 37.5% women, and in early 2024 the Supervisory Board was expanded with 40% of the members being women.
- Our current Managing Board consists of two members, the CEO and the CFO, who are ultimately accountable for the actions and decisions of QIAGEN. If there is a change of a current Managing Board member, an expansion in the number or a change in the governance structure, we will seek to have at least 30% women as members and at least 30% men. We will consider internal candidates from QIAGEN's senior management who fulfill the desired profile for any open position or by defining selection criteria for new hires that include, among other factors, gender diversity.
- In senior management, our goal is to have at least 40% women and 40% men in these roles in the mid-term. To achieve this goal, gender diversity is a goal that is part of our annual Team Goals, as well as a priority in our recruiting practices and talent development programs. As of December 31, 2023, 36% of senior management roles were held by women, having increased from 28% in 2018.

Although we are not subject to quota requirements for gender diversity within the Managing Board and Supervisory Board, we support the trend toward higher participation of women. At the same time, QIAGEN believes that gender is only one aspect of diversity and strives to ensure a diverse composition in terms of factors such as age, nationality, public reputation, industry or academic experience, etc.

We are committed to increasing diversity while pursuing individuals for these Boards and senior management roles who offer a unique blend of scientific and commercial expertise combined with leadership capabilities that will contribute to the future success of QIAGEN. Management development programs support the career advancement of leaders regardless of gender and other factors. As a result, the number of women in key leadership roles, particularly in commercial and operational positions, has increased within QIAGEN in recent years. In line with this commitment, our Nomination & ESG Committee will continue to select future members for the Managing Board and Supervisory Board with due observance of its aim to ensure a diverse leadership team on the basis of gender, but also on the basis of other factors - all without compromising our commitment to hiring the best individuals for those positions. More information about diversity at QIAGEN can be found below under the section [Dutch Corporate Governance Code - Comply or explain](#).

#### Culture

We have a culture at QIAGEN deeply embedded with a commitment to quality, ingenuity and accessibility - all aligned with our QIAGEN brand values - to help our customers advance science and improve outcomes for patients around the world.

This commitment is reflected in our EMPOWER culture that seeks to empower employees to take ownership – with accountability – in making decisions in the best interests of QIAGEN, our customers and other stakeholders.

This culture is additionally reflected in our approach to compensation in rewarding performance in terms of "what" goals are achieved as well as "how" they are achieved in terms of our cultural aspirations.

## Corporate Governance

Checks and balances are in place to guide the ethical standards and healthy business practices we adhere to:

(i) Our Corporate Code of Conduct and Ethics that reflects the highest standards;

(ii) Our QIAintegrity Line, a web based, independent, impartial and confidential reporting tool that provides employees and third parties the opportunity to report misconduct within our Company or in our supply chain; and

(iii) Our Compliance Committee that consists of senior executives from various functions responsible for ensuring compliance with our Corporate Code of Conduct and Ethics.

### **Conflicts of Interest, Loans or Similar Benefits**

Resolutions to enter into transactions under which members of the Managing Board or Supervisory Board could have a conflict of interest with QIAGEN, and which may have a material significance to either QIAGEN or a member, must be reported for review and approval by the Supervisory Board.

In 2023, neither QIAGEN nor any of its Supervisory Board members entered into any such transactions.

No credit, loans or similar benefits were granted to members of the Managing Board or Supervisory Board.

Additionally, the Managing Board and Supervisory Board members did not receive any benefits from third parties that were either promised or granted in view of their position with QIAGEN.

## Corporate Governance

# Shareholder Meetings and Share Capital

### Shareholder Meetings

Our Shareholders exercise their voting rights through the Annual General Meeting, and also through any Extraordinary General Meeting that may be called.

Resolutions at a General Meeting are adopted by an absolute majority of votes cast, unless a different majority of votes or quorum is required by Dutch law or the Articles of Association. Each Share confers the right to cast one vote.

Furthermore, the Managing Board, or where appropriate the Supervisory Board, shall provide all shareholders and other stakeholders with equal and simultaneous public information about any matters deemed to be materially relevant and could significantly influence QIAGEN's Share price.

QIAGEN is required to convene an Annual General Meeting in the Netherlands no later than six months following the end of each year. The agenda must contain certain matters as specified in our Articles of Association and under Dutch law, including, among other things, the adoption of the Annual Financial Statements.

Additional Extraordinary General Meetings may be convened at any time by the Managing Board, the Supervisory Board, or by one or more shareholders jointly representing at least 40% of the issued share capital. Furthermore, one or more shareholders who jointly represent at least 10% of QIAGEN's issued share capital may, on their application, be authorized by a District Court Judge in the Netherlands to convene a General Meeting.

Shareholders are entitled to propose items for the agenda provided that they hold at least 3% of the issued share capital.

Proposals for agenda items must be submitted at least 60 days prior to the General Meeting date. The notice convening a General Meeting, accompanied by the agenda, shall be sent no later than 42 days prior to the meeting date. QIAGEN informs the General Meeting by means of explanatory notes to the agenda, providing all information relevant to the proposed resolutions.

Pursuant to the Dutch Code, all transactions between QIAGEN and legal or natural persons who hold at least 10% of the shares in the Company shall be agreed on terms that are customary to our industry. Decisions to enter into transactions in which there are considered to be conflicts of interest of material significance to the Company and/or to the people involved require the approval of the Supervisory Board. QIAGEN did not enter into any such transaction in 2023.

Furthermore, pursuant to the Dutch implementation of the Shareholders Rights Directive II (SRD II), certain material transactions with related parties (in the meaning of the standards adopted by the International Accounting Standards Board and approved by the European Commission) require the approval of the Supervisory Board, or, if all Supervisory Board members are involved in such transactions, the General Meeting of Shareholders.

### Major Shareholders

The following table sets forth certain information concerning the ownership of our Shares by holders with at least 5% ownership. None of these holders have any different voting rights than other shareholders.

## Corporate Governance

Name and country of residence	Number	Shares beneficially owned	
			Percent ownership <sup>(1)</sup>
BlackRock, Inc., United States and United Kingdom	27,411,334	(2)	12.01 %
Massachusetts Financial Services Company, United States and Canada	24,066,569	(3)	10.55 %

<sup>(1)</sup> The percentage ownership was calculated based on 228,202,755 Common Shares outstanding as of December 31, 2023.

<sup>(2)</sup> Of the 27,411,334 shares attributed to BlackRock, Inc., it has sole voting power over 25,864,730 and sole dispositive power over all 27,411,334 shares. This information is based solely on the Schedule 13G filed by BlackRock, Inc. with the Securities and Exchange Commission on January 23, 2024, which reported ownership as of December 31, 2023.

<sup>(3)</sup> Of the 24,066,569 shares attributed to Massachusetts Financial Services Company, it has sole voting power over 20,451,464 and sole dispositive power over all 24,066,569 shares. This information is based solely on the Schedule 13G filed by Massachusetts Financial Services Company with the Securities and Exchange Commission on February 9, 2024, which reported ownership as of December 31, 2023.

### Control of Registrant

To our knowledge, QIAGEN is not directly or indirectly owned or controlled by another corporation, by any foreign government, or by any other natural or legal person.

As of January 31, 2024, the officers and directors of QIAGEN as a group beneficially owned 0.9 million Shares, or 0.4% of outstanding Shares.

### Holders of any securities with special control rights

Not applicable.

### System of control of any employee share scheme where the control rights are not exercised directly by the employees

Not applicable.

### Restrictions on voting rights

At the General Meeting, each Share shall confer the right to cast one vote, unless otherwise provided by law or our Articles. No votes may be cast in respect of Shares that we or our subsidiaries hold, or by usufructuaries and pledgees.

All shareholders and other persons entitled to vote at General Meetings are entitled to attend General Meetings, to address the meeting and to vote.

They must notify the Managing Board in writing of their intention to be present or represented no later than on the third day prior to the day of the General Meeting, unless the Managing Board permits notification within a shorter period of time prior to the Meeting. Subject to certain exceptions, resolutions may be passed by a simple majority of the votes cast.

### Agreements between shareholders known to the Company and may result in restrictions on the transfer of securities and/or voting rights

Not applicable.

### Rules governing the appointment and replacement of Board members and amendments of the Articles of Association

Supervisory Board and Managing Board members are appointed annually for the period beginning on the day following the Annual General Meeting up to and including the day of the Annual General Meeting held the following year.

Managing Board members shall be appointed by the General Meeting upon the Joint Meeting having made a binding nomination. However, the General Meeting may overrule the binding nature of a nomination by a resolution adopted by at least a two-thirds majority of the votes cast, if such majority represents more than half the issued share capital. This is different from the provisions of many U.S. corporate statutes, including the Delaware General

## Corporate Governance

Corporation Law, which give the directors of a corporation greater authority in choosing the executive officers.

Under our Articles, the General Meeting may suspend or dismiss a Managing Board member at any time. The Supervisory Board shall also be entitled at all times to suspend (but not to dismiss) a Managing Director. The Articles also provide that the Supervisory Board may adopt management rules governing the internal organization of the Managing Board.

The Supervisory Board members shall be appointed by the General Meeting upon the Joint Meeting having made binding nominations. If a vacancy occurs in the Supervisory Board during the year, the Supervisory Board may appoint a new member who will cease to hold office at the next Annual General Meeting, where this member may stand for appointment to a one-year term along with other Supervisory Board and Managing Board members.

Under Dutch law, in the event that there is a conflict of interest between a Supervisory Board member and QIAGEN involving our business, the involved Supervisory Board member shall not participate in the discussions and voting on that matter. Additionally, the Dutch law stipulates that a Supervisory or Managing Board member should report any conflict of interest or potential conflict of interest in a transaction that is of material significance to the Company and/or to the member to the Chair of the Supervisory Board without delay. The Supervisory Board should decide, outside the presence of the involved Supervisory Board member, whether there is a conflict of interest. If all Supervisory Board members have a conflict of interest, the relevant resolution shall be voted on by the General Meeting. Decisions to enter into transactions under which a Supervisory Board member has a conflict of interest require the approval of the Supervisory Board.

The Nomination & ESG Committee is primarily responsible for the preparation of selection criteria and appointment procedures for members of the Supervisory Board and Managing Board as well as the periodic evaluation of the scope and composition of the two Boards, including the profile of the Supervisory Board. It also proposes the (re-)appointments of the members for

both Boards and supervises the policy of our Managing Board in relation to selection and appointment criteria for senior management.

A resolution of the General Meeting to amend our Articles, dissolve QIAGEN, issue shares or grant rights to subscribe for shares or limit or exclude any pre-emptive rights to which shareholders shall be entitled is valid only if proposed to the General Meeting by the Supervisory Board.

A resolution of the General Meeting to amend our Articles is further only valid if the complete proposal has been made available for inspection by the shareholders and the other persons entitled to attend General Meetings at our offices as from the day of notice convening such meeting until the end of the meeting. A resolution to amend our Articles to change the rights attached to the shares of a specific class requires the approval of the relevant class meeting.

### **Powers of Board members, including to issue or buy back shares**

The Managing Board manages QIAGEN and is responsible for defining and achieving QIAGEN's aims, strategy, policies and results. It is also responsible for complying with all relevant legislation and regulations, as well as for managing the risks associated with our business activities and financing requirements.

The Managing Board provides the Supervisory Board with timely information necessary for the exercise of the duties of the Supervisory Board, and takes into account the interests of QIAGEN, its enterprises and all parties involved in QIAGEN, including shareholders and other stakeholders.

Supervisory Board members have the powers assigned to them by Dutch law, the Articles of Association and in certain cases powers assigned by the General Meeting.

The Supervisory Board assists the Managing Board by providing advice relating to the business activities and strategy. In discharging its duties, the Supervisory Board also takes into account the interests of QIAGEN, its enterprise and all parties involved in QIAGEN, including shareholders and other stakeholders.

## Corporate Governance

On June 22, 2023, the General Meeting authorized the Supervisory Board until December 22, 2024 (i), to issue a number of ordinary shares and financing preference shares and grant rights to subscribe for such shares, the aggregate par value of which shall be equal to the aggregate par value of fifty percent (50%) of the shares issued and outstanding in the capital of the Company as at December 31, 2022, as included in the Annual Accounts for Calendar Year 2022 and (ii) to restrict or exclude the pre-emptive rights with respect to issuing ordinary shares or granting subscription rights, the aggregate par value of such shares or subscription rights shall be up to a maximum of ten percent (10%) of the aggregate par value of all shares issued and outstanding in the capital of the Company as at December 31, 2022.

We may acquire our own shares, subject to certain provisions of Dutch law and our Articles, if (i) shareholders' equity less the payment required to make the acquisition does not fall below the sum of paid-up and called-up capital and any reserves required by Dutch law or the Articles, and (ii) we and our subsidiaries would not thereafter hold shares with an aggregate nominal value exceeding half of our issued share capital. Shares that we hold in our own capital or shares held by one of our subsidiaries may not be voted. The Managing Board, subject to the approval of the Supervisory Board, may effect the acquisition of shares in our own capital. Our acquisitions of shares in our own capital may only take place if the General Meeting has granted to the Managing Board the authority to effect such acquisitions. Such authority may apply for a maximum period of eighteen months and must specify the number of shares that may be acquired, the manner in which shares may be acquired and the price limits within which shares may be acquired. Dutch corporate law allows for the authorization of the Managing Board to purchase a number of shares equal to up to 50% of the Company's issued share capital on the date of the acquisition. On June 22, 2023, the General Meeting resolved to extend the authorization of the Managing Board in such manner that the Managing Board may cause us to acquire shares in our own share capital, for an 18-month period beginning June 22, 2023, until December 23, 2024, without limitation at a price between one euro cent (EUR 0.01) and one hundred ten percent (110%) of the higher of the average closing price of our shares on the New York Stock Exchange or, as applicable, the Frankfurt Stock Exchange, for

the five trading days prior to the day of purchase, or, with respect to Preference and Finance Preference shares, against a price between one euro cent (EUR 0.01) and three times the issuance price and in accordance with applicable provisions of Dutch law and our Articles.

### **Significant agreements to which the Company is a party and which take effect after or terminate upon a change of control of the Company following a takeover bid**

Certain other provisions of our Articles allow us, under certain circumstances, to prevent a third party from obtaining a majority of the voting control of our Common Shares through the issuance of Preference Shares. Pursuant to our Articles and the resolution adopted by our General Meeting, our Supervisory Board is entitled to issue Preference Shares in case of an intended takeover of our company by (i) any person who alone or with one or more other persons, directly or indirectly, have acquired or given notice of an intent to acquire (beneficial) ownership of an equity stake which in aggregate equals 20% or more of our share capital then outstanding or (ii) an "adverse person" as determined by the Supervisory Board. If the Supervisory Board opposes an intended takeover and authorizes the issuance of Preference Shares, the bidder may withdraw its bid or enter into negotiations with the Managing Board and/or Supervisory Board and agree on a higher bid price for our Shares.

In 2004 (as amended in 2012), we granted an option to the Stichting Preferente Aandelen QIAGEN (the "Foundation" (Stichting)), whereby the exercise of the option by the Foundation is subject to the conditions described in the paragraph above and which option allows the Foundation to acquire preference shares from us. The option enables the Foundation to acquire such number of preference shares as equals the number of our outstanding common shares at the time of the relevant exercise of the right less one share. When exercising the option and exercising its voting rights on such shares, the Foundation must act in our interest and the interests of our stakeholders. The purpose of the Foundation option is to prevent or delay a change of control that would not be in the best interests of us and our stakeholders. An important restriction on the Foundation's ability to prevent or delay a change of control is that issuing (preference or other) protective shares enabling the Foundation to

## Corporate Governance

exercise 30% or more of the voting rights without the obligation to make a mandatory offer for all shares held by the remaining shareholders, is only allowed after a public offer has been announced by a third party. In addition, the holding of such a block of shares by the Foundation is restricted to two years and, as a consequence, the size of the protective stake will need to be decreased below the 30% voting rights threshold before the two-year period lapses.

Pursuant to our stock plans, the vesting and exercisability of certain stock rights will be accelerated in the event of a change of control, as defined in the agreements under the 2014 and 2023 Stock Plans. Further, certain of our employment contracts contain provisions which guarantee the payments of certain amounts in the event of a change in control, or if the executive is terminated for reasons other than cause, as defined in the agreements.

### **Agreements between the Company and its Board members or employees providing for compensation in case of resignation or termination without valid reason or if employment ceases due to a change of control**

The Managing Board members are appointed annually to one-year terms by the General Meeting based on the nomination of the Joint Meeting. Further, the Managing Board members have entered into employment agreements with QIAGEN N.V. and other QIAGEN affiliates. The terms of these agreements vary for each Managing Board member due to individual arrangements, and these go beyond the one-year term of appointment as Managing Directors. These agreements cannot be terminated without cause and, absent such cause, have to be fulfilled under the terms. These agreements contain provisions that guarantee certain payments in the event of a change in control, as defined in the agreements. There are no arrangements for any extra compensation in case of resignation or termination.

The Supervisory Board members are also appointed annually by the General Meeting based on the nomination of the Joint Meeting.

There are no additional employments in place and there are no arrangements for any extra compensation in case of resignation or termination.

The General Meeting determines the remuneration of the members of the Supervisory Board.

### **Reporting in accordance with Directive 2004/25/EC of the European Parliament and of the Council of April 21, 2004, on takeover bids**

Not applicable

### **Structure of our capital, including securities which are not admitted to trading on a regulated market in a Member State of the European Union**

The authorized classes of our shares consist of common shares, Financing Preference Shares and Preference Shares. No Financing Preference Shares or Preference Shares have been issued.

As of December 31, 2023, a total of approximately 228.2 million Common Shares were outstanding along with approximately 4.0 million additional shares reserved for issuance upon the vesting of outstanding stock awards. Additionally, convertible debt issued in 2020 and Warrants issued as part of the Call Spread Overlay discussed further in Note 16 "Financial Debts" cover an aggregate of 17.1 million underlying shares of common stock or up to a maximum of 27.0 million shares, subject to customary adjustments under certain circumstances.

### **Shares - restrictions on the transfer of securities**

Our Shares are issued in registered form only. No Share certificates are issued for our Shares, which are registered in either our Shareholders Register with Equiniti Trust Company, LLC, our transfer agent and registrar in New York, or our shareholder register with TMF Fund Services B.V., Westblaak 89, 3012 KG Rotterdam, the Netherlands.

The transfer of registered Shares requires a written instrument of transfer and the written acknowledgment of such transfer by QIAGEN or the New York Transfer Agent (in our name).

## Corporate Governance

### Anti-Takeover Measures

In 2004, the Supervisory Board granted an option to the Dutch Foundation Stichting Preferente Aandelen QIAGEN that allows the Foundation to acquire preference shares from QIAGEN if (i) a person has (directly or indirectly) acquired or has expressed a desire to acquire more than 20% of our issued share capital, or (ii) a person holding at least a 10% interest in the share capital has been designated as a hostile person by our Supervisory Board. The option enables the Foundation to acquire preference shares equal to the number of our outstanding common shares at the time of the relevant exercise of the right, less one share. When exercising the option and exercising its voting rights on these shares, the Foundation must act in the interest of QIAGEN and the interests of our stakeholders. No preference shares are currently outstanding.

## Additional Information

### Cyber Security

Cyber security risks are managed at multiple levels throughout the Company and are considered in the context of our overall Enterprise Risk Management as discussed under Risks and Risk Management. Cyber security risks facing our business that are reasonably likely to materially affect us, including our business strategy, results of operations or financial condition, are described in [Risks and Risk Management](#) under “[We rely on secure communication and information systems and are subject to privacy and data security laws which, in the event of a disruption, breach, violation or failure, could adversely affect our business.](#)” In the last three years through the date of this annual report, there have been no breaches of cyber security or other related risk threats that have or are reasonably likely to have, a material impact to our business. We have not incurred any material expenses and have not incurred any penalties or settlements.

### Cyber Security Risk Management and Strategy

Embedded in our risk management strategy, we maintain a comprehensive cyber security program to identify and assess material risks, including external

threats, to ensure the confidentiality and integrity of our information assets, and to ensure our IT systems operate effectively. Reporting to our Chief Financial Officer, our Chief Information Security Officer (CISO) is responsible for our enterprise and cyber risk management and leads our cyber security program. A subject-matter expert with more than a decade of experience leading information security programs, our CISO is supported by a global team of security professionals. These security professionals focus on information security and evaluate our global processes and relevant cyber security threats. The severity and materiality of incidences are address through an incident reporting process, and if necessary are escalated internally to senior management, which assesses the need for public disclosure.

Our cyber security program includes robust testing and training and we engage third parties in connection with such processes to ensure the effectiveness of our cyber security controls. Additionally, relevant third-party service providers are subject to cyber security review. Further details are discussed under [Data and Cyber Security](#).

### Cyber Security Governance

The Managing Board is ultimately responsible for cyber security management, which is overseen by our Audit Committee, a committee of our Supervisory Board. The CISO reports to the Audit Committee on cyber security risks and incidents. This reporting includes an update on cyber risk management, internal security awareness testing results, cyber incident response, and planned improvements. In the event of a material incidence, the Audit Committee would be informed in a timely manner and kept updated regarding the mitigation and remediation of such incidence, and would be involved in the assessment of any public disclosure.

### Stock Plans

The stock plan is administered by the Compensation & Human Resources Committee of the Supervisory Board, which selects participants from among eligible employees, consultants and directors, and determines the number of shares subject to the stock-based award, the length of time the award will remain outstanding, the manner and time of the award's vesting, the price per

## Corporate Governance

share subject to the award, and other terms and conditions of the award consistent with the Plan. The Compensation & Human Resources Committee's decisions are subject to the approval of the Supervisory Board.

The Compensation & Human Resources Committee has the power, subject to Supervisory Board approval, to interpret the plans and to adopt such rules and regulations (including the adoption of "sub plans" applicable to participants in specified jurisdictions) as it may deem necessary or appropriate. The Compensation & Human Resources Committee or the Supervisory Board may at any time amend the plans in any respect, subject to Supervisory Board approval, and except that (i) no amendment that would adversely affect the rights of any participant under any option previously granted may be made without such participant's consent, and (ii) no amendment shall be effective prior to shareholder approval to the extent such approval is required to ensure favorable tax treatment for incentive stock options or to ensure compliance with Rule 16b-3 under the United States Securities Exchange Act of 1934, as amended (the Exchange Act) at such times as any participants are subject to Section 16 of the Exchange Act.

On June 22, 2023, our shareholders approved the QIAGEN N.V. 2023 Stock Plan, which will replace the 2014 Stock Plan in May 2024. Further detailed information regarding stock options and awards granted under the plan can be found in Note 22 "Share-Based Compensation" included in the Consolidated Financial Statements.

### Whistleblower Policy and Corporate Code of Conduct and Ethics

We have a formal Whistleblower Policy concerning the reporting of alleged irregularities within QIAGEN of a general, operational or financial nature. Furthermore, we have a published Corporate Code of Conduct and Ethics that outlines business principles for our employees and rules of conduct. The Corporate Code of Conduct and Ethics can be found on our website at [www.qiagen.com](http://www.qiagen.com).

### Insider Trading Policy

Dealings in our Shares based on material non-public information about QIAGEN is strictly prohibited under U.S. and German securities laws.

These laws are complex and penalties can be severe. In order to protect QIAGEN and its employees from such sanctions, we have adopted an Insider Trading Policy that outlines basic rules, including procedures governing any dealings in our Shares, that apply to potential Insiders (individuals with knowledge of non-public material information) and holders of QIAGEN Shares (including stock options and Restricted Stock Units). The Insider Trading Policy applies to the Supervisory Board, Managing Board, and all employees of QIAGEN N.V. and its subsidiaries.

### Clawback Policy

To create and maintain a culture that emphasizes integrity and accountability and that reinforces our pay-for-performance compensation philosophy, the Managing Board and Supervisory Board adopted a policy which provides for the recoupment of certain executive compensation in the event of an accounting restatement resulting from material non-compliance with financial reporting requirements under the federal securities laws (Clawback Policy). The Clawback Policy applies to our current and former executive officers, as determined by the Supervisory Board, in accordance with the requirements of Section 10D of the Exchange Act and any applicable rules or standards adopted by the SEC and any national securities exchange on which our securities are listed, and such other employees who may from time to time be deemed subject to the Clawback Policy by the Supervisory Board.

### Independent Auditors

In accordance with the requirements of Dutch law, our independent auditor for our statutory consolidated financial statements prepared in accordance with International Financial Reporting Standards as adopted by the European Union and filed with the Netherlands Authority for the Financial Markets (AFM), is appointed, and may be removed by, the General Meeting. The Supervisory Board nominates a candidate for the appointment as external auditor, for which the Audit Committee advises the Supervisory Board. At the Annual General Meeting in 2023, KPMG Accountants N.V. was appointed as external auditor for the Company for the 2023 year. The external auditor is invited to attend the meeting of the Supervisory Board at which the statutory financial statements prepared in accordance with International Financial Reporting

## Corporate Governance

Standards and filed with the AFM shall be approved and is furthermore invited to attend the General Meeting at which the statutory financial statements are adopted, and may be questioned by the General Meeting on its statement on the fairness of our annual accounts prepared in accordance with International Financial Reporting Standards.

Following the appointment of KPMG Accountants N.V. for the audit of our statutory consolidated financial statements, the external auditor for our consolidated financial statements prepared under U.S. generally accepted accounting principles is KPMG AG Wirtschaftsprüfungsgesellschaft, which audited the U.S. GAAP consolidated financial statements as of and for the year ended December 31, 2023.

The remuneration of the external auditor, and instructions to the external auditor to provide non-audit services, shall be approved by the Supervisory Board on the recommendation of the Audit Committee, and after consultation with the Managing Board. At least once every four years, the Supervisory Board and the Audit Committee shall conduct a thorough assessment of the functioning of the external auditor. The main conclusions of this assessment shall be communicated to the General Meeting for the purposes of assessing the nomination for the appointment of the external auditor.

KPMG Accountants N.V. have been our auditor since 2015. According to Dutch regulations, an audit firm can be elected only for a period of 10 subsequent years. Therefore, we must appoint a new auditor beginning 2025. Accordingly, the Supervisory Board has decided to nominate Ernst & Young Accountants LLP as its external auditor for the reporting year 2025. The formal appointment of Ernst & Young Accountants LLP will be submitted for voting at QIAGEN's 2024 AGM.

### Dutch Corporate Governance Code – Comply or Explain

The corporate governance structure and compliance with the Dutch Code is the joint responsibility of the Managing Board and the Supervisory Board. They are accountable for this responsibility to the General Meeting. We continue to seek ways to improve our corporate governance by measuring itself against

international best practice. The Dutch Code was last amended on December 20, 2022, and can be found at [www.mccg.nl](http://www.mccg.nl).

Non-application of a specific best practice provision is not in itself considered objectionable by the Dutch Code, and may well be justified because of particular circumstances relevant to a company. In accordance with Dutch law, we disclose in our Annual Report the application of the Dutch Code's principles and best practice provisions.

To the extent that we do not apply certain principles and best practice provisions, or do not intend to apply these in the current or the subsequent year, we state the reasons.

We take a positive view of the Dutch Code and apply nearly all of the best practice provisions. However, we prefer not to apply some provisions due to the international character of our business as well as the fact - acknowledged by the Commission that drafted the Dutch Code - that existing contractual agreements between QIAGEN and individual members of the Managing Board cannot be set aside at will.

The following provides an overview of exceptions that we have identified:

*1. Best practice provision 2.2.2 recommends that a Supervisory Board member is appointed for a period of four years and may then be reappointed once for another four-year period. The Supervisory Board member may then subsequently be reappointed again for a period of two years, which appointment may be extended by at most two years.*

Members of the Supervisory Board are appointed annually for a one-year period beginning on the day following the General Meeting up to and including the day of the General Meeting held in the following year. Dr. Metin Colpan joined the Supervisory Board in 2004, while Ms. Elizabeth Tallett has been a Supervisory Board member since 2011, Mr. Lawrence A. Rosen since 2013 and Prof. Dr. Elaine Mardis since 2014. Dr. Colpan brings extensive contributions to the Supervisory Board based on his in-depth scientific and commercial experience, and above all his role as a co-founder of QIAGEN. He has also served as a board member for various other

## Corporate Governance

healthcare industry companies, which provides unique perspectives and valuable contributions to the discussions of our Board. Ms. Tallett has executive- and board-level experience at a number of international companies, in particular in the pharmaceutical, biotechnology and healthcare and payor industries. Areas of expertise include international operations, mergers and acquisitions, strategic planning, marketing, product development, talent management and executive compensation. Mr. Rosen is a highly experienced executive who has served at the highest levels of various publicly-listed multinational companies, including Deutsche Post AG, Fresenius Medical Care AG & Co. KGaA and Aventis SA. He contributes to the profile of the Supervisory Board with his knowledge and cross-border expertise developed during a career working primarily in Europe and outside his home country of the United States. Key areas in which Mr. Rosen contributes his expertise include finance, strategy, mergers and acquisitions, investor relations, corporate governance and engagement with the capital markets. Prof. Dr. Mardis provides significant scientific acumen to QIAGEN, especially given her international reputation and many contributions to advancing our knowledge about biology. QIAGEN highly values and appreciates the full engagement of Dr. Colpan, Ms. Tallett, Mr. Rosen and Prof. Dr. Mardis to the success of our Company, and believes that they beneficially supplement the diverse and mixed profile of the Supervisory Board.

2. *Best practice provision 2.2.4 recommends that the Supervisory Board should draw up a retirement schedule in order to avoid, as far as possible, a situation in which many Supervisory Board members retire simultaneously. The retirement schedule should be made generally available and should be posted on the company's website.*

The Supervisory Board follows the practice to discuss retirement plans of individual members early to proactively manage continuity within the Supervisory Board. QIAGEN believes that this practice provides a more flexible and better succession planning than a fixed retirement schedule.

3. *Best practice provision 3.1.2 vi recommends that when formulating the remuneration policy, it should be considered that shares awarded to*

*members of the Management Board should be held for a period of at least five years*

Pursuant to the Company's Remuneration Policy, long-term equity-based grants to members of the Managing Board under the 2022 Plan primarily consist of an award of performance stock units, i.e., long-term incentive awards which are dependent upon the achievement of pre-defined performance goals. Grants of restricted stock units, which are based on time vesting only, are no longer to be granted. Performance stock units and restricted stock units granted until February 2018 are basically structured so that 40% of a grant vests after three years, 50% after five years, and the remaining 10% after ten years. Grants of performance stock units and restricted stock units granted after February 2018 vest 40% after three years, 60% after five years. Beginning in February 2021, grants of performance stock units vest after three years.

4. *Best practice provision 3.2.3 recommends that the maximum remuneration in the event of dismissal of a Management Board member may not exceed one year's salary (the "fixed" remuneration component).*

Our Managing Board members have entered into agreements with QIAGEN N.V. and some QIAGEN affiliates for which they hold managing positions. In case of termination of an agreement without serious cause as defined by the applicable law, the respective affiliate would remain obliged to compensate the Managing Board member for the remaining term of the employment agreement.

5. *Best practice provision 3.3.2 recommends that a Supervisory Board member may not be granted any shares and/or rights to shares by way of remuneration.*

QIAGEN has granted stock options to the members of the Supervisory Board as a remuneration component since its establishment until 2013, when we stopped granting stock options. Since 2007, Supervisory Board members have been granted restricted stock units. We believe that the reasonable level of equity-based compensation which we practice allows a positive alignment of shareholder interests with the other duties of the Supervisory

## Corporate Governance

Board and that this practice is necessary to attract and retain Supervisory Board members as the granting of share-based compensation to Supervisory Board members is a common practice in our industry.

### NYSE Exemptions

Exemptions from the NYSE corporate governance standards are available to foreign private issuers, such as QIAGEN when those standards are contrary to a law, rule or regulation of any public authority exercising jurisdiction over such issuer or contrary to generally accepted business practices in the issuer's country of domicile. In connection with QIAGEN's listing on the NYSE, the NYSE accepted QIAGEN's exemptions from certain corporate governance standards that are contrary to the laws, rules, regulations or generally accepted business practices of the Netherlands. These exemptions and the practices followed by QIAGEN are described below:

- QIAGEN is exempt from NYSE's quorum requirements applicable to meetings of ordinary shareholders. In keeping with the law of the Netherlands and generally accepted business practices in the Netherlands, QIAGEN's Articles of Association provide that there are no quorum requirements generally applicable to meetings of the General Meeting.
- QIAGEN is exempt from NYSE's requirements that shareholder approval be obtained prior to the establishment of, or material amendments to, stock option or purchase plans and other equity compensation arrangements pursuant to which options or stock may be acquired by directors, officers, employees or consultants. QIAGEN is also exempt from NYSE's requirements that shareholder approval be obtained prior to certain issuances of stock resulting in a change of control, occurring in connection with acquisitions of stock or assets of another company or issued at a price less than the greater of book or market value other than in a public offering. QIAGEN's Articles of Association do not require approval of the General Meeting prior to the establishment of a stock plan. The Articles of Association also permit the General Meeting to grant the Supervisory Board general authority to issue shares without further approval of the General Meeting. QIAGEN's General Meeting has granted the Supervisory Board general authority to issue up to a maximum of our authorized capital without further approval of the General

Meeting. QIAGEN plans to seek approval of the General Meetings for stock plans and stock issuances only where required under the law of the Netherlands or under QIAGEN's Articles of Association.

**Corporate Governance**

## Compensation of Managing and Supervisory Boards

The Remuneration Policy for the Managing Board was approved by shareholders at the Annual General Meeting (AGM) in June 2021, and came into force the day after the AGM. This policy complies with the Dutch law provisions implementing the Shareholders Rights Directive II (EU Directive 2017/828). Under Dutch law, the Supervisory Board will be required to submit a proposal to adopt a Remuneration Policy for the Managing Board no later than at the AGM to be held in 2025.

### Managing Board Remuneration Policy

Remuneration of Managing Board members consists of a combination of base salary, short-term variable cash incentive (STI) tied to the achievement of annual Corporate Goals and Team Goals, and a long-term incentive (LTI) granted in share units that only vest after multiple years upon the achievement of pre-defined targets. In addition, Managing Board members can receive deferred compensation contributions and other benefits in line with market practices.

The Remuneration Policy complies with the best practices in Corporate Governance in the U.S. and Germany, where our shares are listed on the New

York Stock Exchange (NYSE) and the Frankfurt Stock Exchange, respectively. The inclusion of perspectives from the U.S. is particularly important given that this country is the domicile of many of our competitors, and for many members of our leadership and senior executive team, and also a country that represents more than 45% of our annual sales.

The remuneration package for Managing Board members is designed to have a significant portion of total compensation in variable awards. The value of these awards can differ substantially from year to year depending on actual performance. Within the variable component, the incentives for short-term performance targets have a lower weight than those for long-term incentives, which are aimed at delivering sustainable value creation for our stakeholders, including shareholders.

A copy of the Remuneration Policy for the Managing Board can be found on our website at [www.qiagen.com](http://www.qiagen.com).

### Managing Board Compensation for 2023

For the year ended December 31, 2023, the Managing Board members received the following compensation:

Managing board member	Fixed salary	Variable cash bonus	Annual compensation			Long-term compensation	
			Other <sup>(1)</sup>	Total	Benefit plans	Performance stock units granted	
Thierry Bernard	\$978,500	780,354	33,320	\$1,792,174	\$199,700	119,695	
Roland Sackers	\$588,000	319,730	40,270	\$948,000	\$117,270	67,723	

<sup>(1)</sup> Amounts include, among others, car lease and reimbursed personal expenses such as tax consulting. We also occasionally reimburse our Managing Board members' personal expenses related to attending out-of-town meetings but not directly related to their attendance. Amounts do not include the reimbursement of certain expenses relating to travel incurred at the request of QIAGEN, other reimbursements or payments that in total did not exceed \$10,000, or tax amounts paid by the Company to taxing authorities in order to avoid double-taxation under multi-tax jurisdiction employment agreements.

## Corporate Governance

### Supervisory Board Remuneration Policy

At the Annual General Meeting of Shareholders in 2021, an update to the Remuneration Policy for the Supervisory Board was adopted to harmonize the annual compensation granted to members of certain Board committees. This policy complies with the Dutch law provisions implementing the Shareholders Rights Directive II (EU Directive 2017/828). Under Dutch law, the Supervisory Board will be required to submit a proposal to adopt a Remuneration Policy for the Supervisory Board no later than at the Annual General Meeting to be held in 2024.

The objective of the Remuneration Policy for the Supervisory Board is to attract, retain, and motivate highly qualified Board members, taking into account QIAGEN's mission and vision, as well as strategic initiatives and opportunities to create value for stakeholders, including shareholders. It focuses on achieving a total remuneration level, both short-term and long term, that is comparable with levels provided by other European and U.S.-based companies.

This Policy supports the long-term development and strategy of QIAGEN in a highly dynamic environment, while aiming to address the requests of various stakeholders and maintaining an acceptable risk profile. It builds on remuneration principles and practices that have proven to be both fitting and effective for us, especially as a Dutch incorporated company with global operations, as well as stock market listings in the U.S. and Germany. The Supervisory Board ensures that the Policy and its implementation are linked to our objectives.

### Supervisory Board Compensation for 2023

The Supervisory Board compensation for 2023 consists of fixed compensation and additional amounts for Chair and Vice Chair. Annual remuneration of the Supervisory Board members is as follows:

Fee payable to the Chair of the Supervisory Board	\$150,000
Fee payable to each member of the Supervisory Board	\$57,500
Additional compensation payable to members holding the following positions:	
Chair of the Audit Committee	\$25,000
Member of the Audit Committee	\$15,000
Chair of the (i) Compensation & Human Resources Committee, (ii) the Nomination & ESG Committee, or (iii) the Science & Technology Committee	\$18,000
Member of the (i) Compensation & Human Resources Committee, (ii) the Nomination & ESG Committee, or (iii) the Science & Technology Committee	\$11,000
Chair of other committees	\$12,000
Member of other committees	\$6,000

Supervisory Board members will also be reimbursed for tax consulting costs incurred in connection with the preparation of their tax returns up to an amount of €5,000 per person per year.

Supervisory Board members also receive a variable component, in the form of share-based compensation. We did not pay any agency or advisory service fees to members of the Supervisory Board in 2023.

The Supervisory Board meetings and the Supervisory Board committee meetings are held over a number of days, ensuring there is time for review and discussion. At each meeting, the Supervisory Board members discuss among themselves the goals and outcome of the meeting, as well as topics such as the functioning and composition of the Supervisory Board and the Managing Board. The Supervisory Board Report contains an overview of the committee membership and meetings attended in 2023.

## Corporate Governance

For the year ended December 31, 2023, members of the Supervisory Board received the following compensation:

Supervisory board member	Fixed remuneration	Committee chair	Committee membership	Total <sup>(1)</sup>	Restricted stock units
Lawrence A. Rosen	\$150,000	18,000	20,500	\$188,500	7,917
Dr. Metin Colpan	\$57,500	18,000	11,000	\$86,500	7,917
Thomas Ebeling <sup>(2)</sup>	\$28,750	—	5,500	\$34,250	7,917
Dr. Toralf Haag	\$57,500	25,000	—	\$82,500	7,917
Dr. Ross L. Levine	\$57,500	—	11,000	\$68,500	7,917
Dr. Elaine Mardis	\$57,500	—	22,000	\$79,500	7,917
Dr. Eva Pisa	\$57,500	—	11,000	\$68,500	7,917
Stephen H. Rusckowski <sup>(3)</sup>	\$40,570	—	5,500	\$46,070	—
Elizabeth E. Tallett	\$57,500	18,000	26,000	\$101,500	7,917

<sup>(1)</sup> Supervisory Board members are reimbursed for travel costs and for any value added tax to be paid on their remuneration. These reimbursements are excluded from the amounts presented herein.

<sup>(2)</sup> Thomas Ebeling did not stand for re-appointment at AGM in June 2023.

<sup>(3)</sup> Stephen H. Rusckowski joined the Supervisory Board in April 2023, and was not eligible for the equity grant for 2023.

## Corporate Governance

### Share Ownership

The following table sets forth certain information as of January 31, 2024, concerning the ownership of Common Shares by members of the Managing

Board and Supervisory Board. In preparing the following table, we have relied on information furnished by such persons.

Name and country of residence	Number <sup>(2)</sup>	Shares beneficially owned <sup>(1)</sup>	
		Percent ownership	
Thierry Bernard, United States	182,662	(3)	*
Roland Sackers, Germany	246,377	(4)	*
Dr. Metin Colpan, Germany	410,886	(5)	*
Dr. Toralf Haag, Germany	679	(6)	*
Dr. Ross L. Levine, United States	12,793	(7)	*
Dr. Elaine Mardis, United States	—	(8)	*
Dr. Eva Pisa, Switzerland	—		*
Lawrence A. Rosen, United States	10,399	(9)	*
Stephen H. Rusckowski, United States	25		*
Elizabeth Tallett, United States	44,011	(10)	*

- <sup>(1)</sup> \*Indicates that the person beneficially owns less than 0.5% of the Common Shares issued and outstanding as of January 31, 2024. The number of Common Shares outstanding as of January 31, 2024 was 221,356,630. The persons named in the table have sole voting and investment power with respect to all shares shown as beneficially owned by them and have the same voting rights as shareholders with respect to Common Shares.
- <sup>(2)</sup> Does not include Common Shares subject to options or awards held by such persons as of January 31, 2024. See footnotes below for information regarding stock awards that could become releasable within 60 days of the date of this table.
- <sup>(3)</sup> Does not include 101,129 shares issuable upon the release of unvested stock awards that could become releasable within 60 days from the date of this table.
- <sup>(4)</sup> Does not include 200,158 shares issuable upon the release of unvested stock awards that could become releasable within 60 days from the date of this table.
- <sup>(5)</sup> Includes 347,156 shares held by CC Verwaltungs GmbH, an entity which is controlled by Dr. Colpan. Does not include 8,591 shares issuable upon the release of unvested stock awards that could become releasable within 60 days from the date of this table.
- <sup>(6)</sup> Does not include 2,992 shares issuable upon the release of unvested stock awards that could become releasable within 60 days from the date of this table.
- <sup>(7)</sup> Does not include 8,591 shares issuable upon the release of unvested stock awards that could become releasable within 60 days from the date of this table.
- <sup>(8)</sup> Does not include 8,591 shares issuable upon the release of unvested stock awards that could become releasable within 60 days from the date of this table.
- <sup>(9)</sup> Does not include 8,591 shares issuable upon the release of unvested stock awards that could become releasable within 60 days from the date of this table.
- <sup>(10)</sup> Does not include 8,591 shares issuable upon the release of unvested stock awards that could become releasable within 60 days from the date of this table.

## Consolidated Financial Statements

### Report of Independent Registered Public Accounting Firm

To the Shareholders and Supervisory Board

QIAGEN N.V.:

#### *Opinion on the Consolidated Financial Statements*

We have audited the accompanying consolidated balance sheets of QIAGEN N.V. and subsidiaries (the Company) as of December 31, 2023 and 2022, the related consolidated statements of income, comprehensive income, changes in equity, and cash flows for each of the years in the three-year period ended December 31, 2023, and the related notes (collectively, the consolidated financial statements). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2023 and 2022, and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 2023, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of December 31, 2023, based on criteria established in *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission, and our report dated March 8, 2024 expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

#### *Change in Accounting Principle*

As discussed in Note 2 to the consolidated financial statements, in 2021, the Company changed its method of accounting for convertible instruments due to the adoption of ASU 2020-06, Debt-Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging—Contracts in Entity's Own Equity (Subtopic 815-40): Accounting for Convertible Instruments and Contracts in an Entity's Own Equity.

#### *Basis for Opinion*

These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

## Consolidated Financial Statements

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

### *Critical Audit Matter*

The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that: (1) relates to accounts or disclosures that are material to the consolidated financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of a critical audit matter does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

#### *Assessment of unrecognized tax benefits*

As discussed in Note 17 to the consolidated financial statements, the Company conducts its business globally and operates more than 50 consolidated subsidiaries in multiple tax jurisdictions. This multi-jurisdictional business operation involves complex intercompany operating and financing activities. The nature of these activities can result in uncertainties in the estimation of the related income tax exposures. The Company initially recognizes and subsequently measures the unrecognized tax benefit in its consolidated financial statements when it is more likely than not that the position will be sustained upon examination by the taxing authorities. As of December 31, 2023, the Company recorded unrecognized tax benefits of \$95.6 million.

We identified the assessment of unrecognized tax benefits as a critical audit matter. Complex auditor judgment and specialized skills and knowledge were required in evaluating the Company's interpretation and application of tax laws in the jurisdictions where it operates and its estimate of the resolution of the tax position.

The following are the primary procedures we performed to address this critical audit matter. We evaluated the design and tested the operating effectiveness of certain internal controls related to the Company's unrecognized tax benefit process, including controls related to (1) its interpretation and application of tax statutes and legislation, and changes thereto, in the various jurisdictions in which it operates and (2) its determination of the estimate for the associated unrecognized tax benefit. We inspected the Company's legal composition to identify and assess changes in operating

## Consolidated Financial Statements

structures and financing arrangements. We inquired of the Company's tax department in combination with inspecting correspondence with the responsible taxing authorities with respect to the results of inspections by taxing authorities. We involved tax and transfer pricing professionals with specialized skills and knowledge, who assisted in:

- analyzing the Company's interpretation and application of multi-jurisdictional income tax laws, and changes thereto, and its impact on the unrecognized tax benefit by reading advice obtained from the Company's external specialists
- inspecting the lapse of statute of limitations and settlements with taxing authorities over a selection of unrecognized tax benefits to evaluate the amount in the settlement documents compared to the unrecognized tax benefit, and
- inspecting a selection of intercompany operating and financing activities between group entities to assess the sustainability of tax positions based on their technical merits and the probabilities of possible settlement alternatives.

## Consolidated Financial Statements

### Report of Independent Registered Public Accounting Firm

To the Shareholders and Supervisory Board

QIAGEN N.V.:

#### *Opinion on Internal Control Over Financial Reporting*

We have audited QIAGEN N.V. and subsidiaries' (the Company) internal control over financial reporting as of December 31, 2023, based on criteria established in *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2023, based on criteria established in *Internal Control – Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheets of the Company as of December 31, 2023 and 2022, the related consolidated statements of income, comprehensive income, changes in equity, and cash flows for each of the years in the three-year period ended December 31, 2023, and the related notes (collectively, the consolidated financial statements), and our report dated March 8, 2024 expressed an unqualified opinion on those consolidated financial statements.

#### *Basis for Opinion*

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying 'Report of Management on Internal Control over Financial Reporting'. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

## Consolidated Financial Statements

### *Definition and Limitations of Internal Control Over Financial Reporting*

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

# Notes to the Consolidated Financial Statements

December 31, 2023

## 1. Corporate Information and Basis of Presentation

### Corporate Information

QIAGEN N.V. is a public limited liability company (naamloze vennootschap) under Dutch law with a registered office at Hulsterweg 82, 5912 PL Venlo, The Netherlands. QIAGEN N.V., a Netherlands holding company, and subsidiaries (we, our or the Company) is a leading global provider of Sample to Insight solutions that enable customers to gain valuable molecular insights from samples containing the building blocks of life. Our sample technologies isolate and process DNA, RNA and proteins from blood, tissue and other materials. Assay technologies make these biomolecules visible and ready for analysis. Bioinformatics software and knowledge bases interpret genomic data to report relevant, actionable insights. Automation solutions tie these together in seamless and cost-effective workflows. We provide solutions to more than 500,000 customers around the world in Molecular Diagnostics (human healthcare) and Life Sciences (academia, pharma R&D and industrial applications, primarily forensics). As of December 31, 2023, we employed approximately 6,000 people in over 35 locations worldwide.

### Basis of Presentation

The accompanying consolidated financial statements were prepared in accordance with U.S. generally accepted accounting principles (GAAP) and all amounts are presented in U.S. dollars rounded to the nearest thousand, unless otherwise indicated.

As of April 1, 2022, the results of our subsidiary in Türkiye are reported under highly inflationary accounting as the prior three-years cumulative inflation rate exceeded 100 percent.

QIAGEN has a subsidiary in Moscow, Russia. Due to uncertainties related to the war in Ukraine, and although not material to our consolidated results of operations, during the year ended December 31, 2022, we recorded a combination of credit losses, write-offs and impairments related to our business in Russia totaling \$4.0 million. These charges are included in the line item restructuring, acquisition, integration and other, net in the accompanying consolidated statement of income. We have suspended activities in Russia and also with our former commercial partner in Belarus.

We undertake acquisitions to complement our own internal product development activities. In January 2023, we acquired Verogen, Inc., a leader in the use of next-generation sequencing (NGS) technologies to drive the future of human identification (HID) and forensic investigation located in San Diego, California. In May 2022, we acquired BLIRT S.A., a supplier of standardized and customized solutions for proteins and enzymes as well as molecular biology reagents located in Gdańsk, Poland. At the acquisition dates, all the assets acquired and liabilities assumed were recorded at their respective fair values and our consolidated results of operations include the operating results from the acquired companies from the acquisition dates. These acquisitions were not significant to the overall consolidated financial statements.

## Notes to the Consolidated Financial Statements

### 2. Effects of New Accounting Pronouncements

The following new Financial Accounting Standards Board (FASB) Accounting Standards Updates (ASU) were adopted in 2023, 2022 and 2021:

#### **Adoption of New Accounting Standards in 2023**

No adoption of new accounting standards in 2023.

#### **Adoption of New Accounting Standards in 2022**

ASU 2021-08, Accounting for Contract Assets and Contract Liabilities from Contracts with Customers, creates an exception to the recognition and measurement principles in ASC 805, Business Combinations. The amendments require an acquirer to use the guidance in ASC 606, Revenue from Contracts with Customers, rather than using fair value, when recognizing and measuring contract assets and contract liabilities related to customer contracts assumed in a business combination. We early adopted ASU 2021-08 on January 1, 2022. The amended guidance applies on a prospective basis to business combinations that occur after the adoption date.

#### **Adoption of New Accounting Standards in 2021**

ASU 2019-12, Income Taxes (Topic 740): Simplifying the Accounting for Income Taxes, removed certain exceptions for recognizing deferred taxes for investments, performing intraperiod tax allocations and calculating income taxes in interim periods. The ASU also adds guidance to reduce complexity in certain areas, including recognizing deferred taxes for tax goodwill and allocating income taxes to members of a consolidated group. We adopted the ASU on the effective date of January 1, 2021 and the adoption of this guidance did not have an impact on our consolidated financial statements on the date of adoption.

ASU 2020-06, Debt-Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging—Contracts in Entity's Own Equity (Subtopic 815-40): Accounting for Convertible Instruments and Contracts in an Entity's Own Equity, reduced the number of accounting models for convertible instruments. The ASU also amended diluted earnings per share (EPS) calculations for convertible instruments, which will result in more dilutive EPS results, and also amended the requirements for a contract (or embedded derivative) that is potentially settled in an entity's own shares to be classified in equity. ASU 2020-06 was effective for annual periods beginning on January 1, 2022, with earlier adoption on January 1, 2021 permitted. We adopted ASU 2020-06 early on January 1, 2021 and this resulted in a decrease of \$54.1 million to additional paid-in capital and an increase of \$0.3 million to retained earnings for the conversion feature to the liability for our 2027 Convertible Notes further discussed in Note 16 "Debt."

## Notes to the Consolidated Financial Statements

### New Accounting Standards Not Yet Adopted

The following new FASB Accounting Standards Updates were not yet adopted as of December 31, 2023:

ASU 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures was issued in response to stakeholder requests for more decision-useful information about reportable segments. The amendments in ASU 2023-07 improve reportable segment disclosure requirements through enhanced disclosures. This ASU does not change how a public entity identifies its operating segments, aggregates those operating segments or applies the quantitative thresholds to determine reportable segments. This ASU is effective for fiscal years beginning after December 15, 2023, and early adoption is permitted. We will adopt the new disclosures retrospectively to all prior periods presented in the financial statements beginning with the annual reporting for the year ended December 31, 2024.

ASU 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures enhances annual income tax disclosures to address investor requests for more information about the tax risks and opportunities present in an entity's worldwide operations. The two primary enhancements disaggregate existing income tax disclosures related to the effective tax rate reconciliation and income taxes paid. This ASU is effective for annual periods beginning after December 15, 2024, and early adoption is permitted. We will adopt the new disclosures prospectively beginning with the annual reporting for the year ended December 31, 2025.

## 3. Summary of Significant Accounting Policies

### Principles of Consolidation

The consolidated financial statements include the accounts of QIAGEN N.V. and its wholly-owned subsidiaries. All significant intercompany accounts and transactions have been eliminated. Investments in either common stock or in-substance common stock of companies where we exercise significant influence over the operations but do not have control, and where we are not the primary beneficiary, are accounted for using the equity method. All other investments are accounted for as discussed under "Non-Marketable Investments" below. When there is a portion of equity in an acquired subsidiary not attributable, directly or indirectly, to the Company, we record the fair value of the noncontrolling interests at the acquisition date and classify the amounts attributable to noncontrolling interests separately in equity in the consolidated financial statements. Any subsequent changes in the Company's ownership interest while the Company retains its controlling financial interest in its subsidiary are accounted for as equity transactions.

### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosure of contingencies at the date of the financial statements as well as the reported amounts of revenues and

## Notes to the Consolidated Financial Statements

expenses during the reporting period. While changing conditions in our global environment present additional uncertainty, we continue to use the best information available to form our estimates. Actual results could differ from those estimates.

### Concentrations of Risk

We buy materials for products from many suppliers and are not dependent on any one supplier or group of suppliers for the business as a whole. However, key components of certain products, including certain instrumentation components and chemicals, are available only from a single source. If supplies from these vendors were delayed or interrupted for any reason, we may not be able to obtain these materials timely or in sufficient quantities in order to produce certain products and sales levels could be negatively affected. Additionally, our customers include researchers at pharmaceutical and biotechnology companies, academic institutions, and government and private laboratories. Fluctuations in the research and development budgets of these researchers and their organizations for applications in which our products are used could have a significant effect on the demand for our products.

The financial instruments used in managing our foreign currency, equity and interest rate exposures have an element of risk in that the counterparties may be unable to meet the terms of the agreements. We attempt to minimize this risk by limiting the counterparties to a diverse group of highly rated international financial institutions. The carrying values of our financial instruments incorporate the non-performance risk by using market pricing for credit risk. However, we have no reason to believe that any counterparties will default on their obligations. In order to minimize our exposure with any single counterparty, we have entered into master agreements which allow us to manage the exposure with the respective counterparty on a net basis.

Other financial instruments that potentially subject us to concentrations of credit risk are cash and cash equivalents, short-term investments, and accounts receivable. We attempt to minimize the risks related to cash and cash equivalents and short-term investments by dealing with highly rated financial institutions and investing in a broad and diverse range of financial instruments. We have established guidelines related to credit quality and maturities of investments intended to maintain safety and liquidity. Concentration of credit risk with respect to accounts receivable is limited due to a large and diverse customer base which is dispersed over different geographic areas. Allowances are maintained for potential credit losses and such losses have historically been within expected ranges.

## Notes to the Consolidated Financial Statements

### Foreign Currency Translation

Our reporting currency is the U.S. dollar and the functional currencies of our subsidiaries are generally the local currency of the respective countries in which they are headquartered. All amounts in the financial statements of entities whose functional currency is not the U.S. dollar, except for Türkiye (which became hyperinflationary and reports in U.S. dollars), are translated into U.S. dollar equivalents at exchange rates as follows: (1) assets and liabilities at period-end rates, (2) income statement accounts at average exchange rates for the period, and (3) components of equity at historical rates. Translation gains or losses are recorded in equity, and transaction gains and losses are reflected in net income as a component of other (expense) income, net. Realized gains or losses on the value of derivative contracts entered into to hedge the exchange rate exposure of receivables and payables are also included in net income as a component of other (expense) income, net. The net gain or loss on foreign currency transactions was a net loss of \$5.8 million in 2023, a net gain of \$2.7 million in 2022, and a net loss of \$9.0 million in 2021 and is included in other (expense) income, net.

The exchange rates of key currencies were as follows:

(USD equivalent for one)	Closing rate at December 31,			Annual average rate	
	2023	2022	2023	2022	2021
Euro (EUR)	1.1050	1.0666	1.0814	1.0542	1.1832
Pound Sterling (GBP)	1.2715	1.2026	1.2435	1.2376	1.3758
Swiss Franc (CHF)	1.1933	1.0832	1.1133	1.0486	1.0940
Japanese Yen (JPY)	0.0071	0.0076	0.0071	0.0077	0.0091
Chinese Yuan (CNY)	0.1408	0.1450	0.1413	0.1489	0.1550

### Segment Information

We determined that we operate as one operating segment in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 280, Segment Reporting. Our chief operating decision maker (CODM) makes decisions based on the Company as a whole. In addition, we have a common basis of organization and types of products and services which derive revenues and consistent product margins. Accordingly, we operate and make decisions as one reporting unit.

### Revenue Recognition

We recognize revenue when control of promised goods or services transfers to our customers in an amount that reflects the consideration that is expected to be received in exchange for those goods or services. The majority of our sales revenue is recognized when products are shipped to the customers, at which point control transfers.

## Notes to the Consolidated Financial Statements

### Warranty

We provide warranties on our products against defects in materials and workmanship for a period of one year. A provision for estimated future warranty costs is recorded in cost of sales at the time product revenue is recognized. Product warranty obligations are included in accrued and other current liabilities in the accompanying consolidated balance sheets.

### Research and Development

Research and product development costs are expensed as incurred. Research and development expenses consist primarily of salaries and related expenses, facility costs, and amounts paid to contract research organizations and laboratories for the provision of services and materials as well as costs for internal use or clinical trials.

### Government Grants

We recognize government grants when there is reasonable assurance that all conditions will be complied with and the grant will be received. Our government grants generally represent subsidies for specified activities and are therefore recognized when earned as a reduction of the expenses recorded for the activity that the grants are intended to compensate. Thus, when the grant relates to research and development expense, the grant is recognized over the same period that the related costs are incurred. Otherwise, amounts received under government grants are recorded as liabilities in the balance sheet. When the grant relates to an asset, the nominal amount of the grant is deducted from the carrying amount of the asset and recognized over the same period that the related asset is depreciated.

### Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that takes a substantial period of time to prepare for its intended use or sale are capitalized as part of the cost of the respective assets (qualifying asset) when such borrowing costs are significant. All other borrowing costs are expensed in the period they occur.

### Shipping and Handling Income and Costs

Shipping and handling costs charged to customers are recorded as revenue in the period that the related product sales revenue is recorded. Associated costs of shipping and handling are included in sales and marketing expenses. For the years ended December 31, 2023, 2022 and 2021, shipping and handling costs totaled \$32.4 million, \$34.4 million and \$31.7 million, respectively.

### Advertising Costs

The costs of advertising are expensed as incurred and are included as a component of sales and marketing expense. Advertising costs for the years ended December 31, 2023, 2022 and 2021 were \$11.5 million, \$15.8 million and \$13.5 million, respectively.

## Notes to the Consolidated Financial Statements

### General and Administrative

General and administrative expenses primarily represent the costs required to support administrative infrastructure. These costs include licensing costs in connection with continued investments in information technology improvements, including cyber security, across the organization as well as personnel in administrative functions.

### Restructuring, Acquisition, Integration and Other

We incur indirect acquisition and business integration costs in connection with business combinations which are expensed when incurred. These costs represent incremental costs that we believe would not have been incurred absent the business combinations. Major components of these costs include consulting and related fees incurred to integrate or restructure the acquired operations, payroll and related costs for employees remaining with the Company on a transitional basis and public relations, advertising and media costs for re-branding of the combined organization.

Restructuring costs include personnel costs (principally termination benefits) as well as contract and other costs, primarily contract termination costs. Termination benefits are accounted for in accordance with FASB ASC Topic 712, Compensation - Nonretirement Postemployment Benefits, and are recorded when it is probable that employees will be entitled to benefits and the amounts can be reasonably estimated. Estimates of termination benefits are based on the frequency of past termination benefits, the similarity of benefits under the current plan and prior plans, and the existence of statutory required minimum benefits. Contract and other costs are accounted for in accordance with FASB ASC Topic 420, Exit or Disposal Cost Obligations and are recorded when the liability is incurred. Additionally, expenses incurred may also include costs that are an integral component of, and are directly attributable to, restructuring activities which do not qualify as exit and disposal costs, such as intangible asset impairments and other asset related write-offs. The specific restructuring measures and associated estimated costs are based on management's best business judgment under the existing circumstances at the time the estimates are made. If future events require changes to these estimates, such adjustments will be reflected in the period of the revised estimate.

### Income Taxes

We account for income taxes under the liability method. Under this method, total income tax expense is the amount of income taxes expected to be payable for the current year plus the change from the beginning of the year for deferred tax assets and liabilities established for the expected future tax consequences resulting from differences between the financial statement carrying amount and the tax basis of assets and liabilities. Deferred tax assets and/or liabilities are determined by multiplying the differences between the financial statement carrying amount and the tax bases of assets and liabilities by the enacted tax rates expected to be in effect when such differences are reversed or settled. Deferred tax assets are reduced by a valuation allowance to the amount more likely than not to be realized. The effect on deferred taxes of a change in tax rates is recognized in income in the period that includes the enactment date.

## Notes to the Consolidated Financial Statements

The financial statement effects of a tax position are initially recognized in the financial statements when it is more likely than not that the position will be sustained upon examination by the taxing authorities. Such tax positions are initially and subsequently measured as the largest amount of tax benefit that is greater than 50 percent likely of being realized upon settlement with the taxing authority using the cumulative probability method, assuming the taxing authority has full knowledge of the position and all relevant facts. Our policy is to recognize interest accrued related to income taxes in interest expense and penalties related to income taxes within the income tax expense.

### Derivative Instruments

We enter into derivative financial instrument contracts to minimize the variability of cash flows or income statement impact associated with the anticipated transactions being hedged or to hedge fluctuating interest rates. As changes in foreign currencies or interest rates impact the value of anticipated transactions, the fair value of the forward or swap contracts also changes, offsetting foreign currency or interest rate fluctuations. Derivative instruments are recorded on the balance sheet at fair value. Changes in fair values of derivatives are recorded in current earnings or other comprehensive income (loss), depending on whether a derivative is designated as part of a hedge transaction.

### Share-Based Payments

Compensation costs for all share-based payments are recorded based on the grant date fair value, less an estimate for pre-vesting forfeitures, recognized in expense over the service period using an accelerated method.

**Forfeiture Rate** - This is the estimated percentage of grants that are expected to be forfeited or canceled on an annual basis before becoming fully vested. We estimated the forfeiture rate based on historical forfeiture experience.

**Restricted Stock Units and Performance Stock Units** - Restricted stock units and performance stock units represent rights to receive Common Shares at a future date. The fair market value of restricted and performance stock units is determined based on the number of stock units granted and the fair market value of our shares on the grant date. The fair market value at the time of the grant, less an estimate for pre-vesting forfeitures, is recognized in expense over the vesting period. At each reporting period, the estimated performance achievement of the performance stock units is assessed and any change in the estimated achievement is recorded on a cumulative basis in the period of adjustment.

### Cash and Cash Equivalents

Cash and cash equivalents consist of cash on deposit in banks and other cash invested temporarily in various instruments that are short-term and highly liquid with an original maturity of less than three months at the date of purchase. Cash

## Notes to the Consolidated Financial Statements

equivalents are carried at amortized cost which approximates fair value. Cash and cash equivalents as of December 31, 2023 and 2022 were as follows:

(in thousands)	2023	2022
Cash at bank and on hand	\$87,380	\$122,314
Money market funds	481,360	289,394
Commercial paper	9,982	94,828
Short-term bank deposits	89,362	224,133
<b>Cash and cash equivalents</b>	<b>\$668,084</b>	<b>\$730,669</b>

### Short-Term Investments

Short-term investments include cash investments with original maturities of more than three months which are classified as “available for sale” and stated at fair value, which is equivalent to the amortized cost, in the accompanying consolidated balance sheet. Interest income is accrued when earned and changes in fair market values are reflected in other (expense) income, net. The amortization of premiums and accretion of discounts to maturity arising from acquisition are included in interest income. A decline in fair value that is judged to be other-than-temporary is accounted for as a realized loss and the write-down is included in the consolidated statements of income. Realized gains and losses, determined on a specific identification basis on the sale of short-term investments, are included in other (expense) income, net.

Short-term investments consisting of marketable equity securities are reported at fair value with gains and losses recorded in earnings.

### Fair Value of Financial Instruments

The carrying amount of cash and cash equivalents, notes receivable, accounts receivable, accounts payable and accrued liabilities approximate their fair values because of the short maturities of those instruments. The carrying value of our variable rate debt and leases approximates their fair values because of the short maturities and/or interest rates which are comparable to those available to us on similar terms. The fair values of the zero coupon convertible debt and the Cash Convertible Notes are based on an estimation using available over-the-counter market information. The fair values of the German Private Placement are based on an estimation using changes in the euro swap rates.

### Accounts Receivable, Loans and Other Receivables and Allowance for Credit Losses

Our accounts receivable consist of unsecured customer obligations and we are at risk to the extent such amounts become uncollectible. We maintain allowances for credit losses resulting from the expected failure or inability of our customers to make required payments. We recognize the allowance for expected credit losses at inception and reassess regularly considering historical experience with bad debts, the aging of the receivables, credit quality of the customer base, current

## Notes to the Consolidated Financial Statements

economic conditions and other reasonable and supportable expectations for future conditions, if applicable. Once a receivable is determined to be uncollectible, the balance is charged against the allowance.

We sell our products worldwide through sales subsidiaries and distributors. There is no concentration of credit risk with respect to trade accounts receivable as we have a large number of internationally dispersed customers. Trade accounts receivable are non-interest bearing and mostly have payment terms of 30-90 days. For all years presented, no single customer represented more than ten percent of accounts receivable or consolidated net sales.

The changes in the allowance for credit losses on accounts receivable and loans and other receivables for the years ended December 31, 2023, 2022 and 2021 are as follows:

(in thousands)	Accounts receivable			Loans and other receivables		
	2023	2022	2021	2023	2022	2021
Balance at beginning of year	\$22,880	\$23,124	\$27,052	\$10,598	\$5,142	\$9,132
Provisions for expected credit losses	(2,873)	4,483	18	5	5,574	2,155
Deductions from allowance	(2,378)	(2,685)	(1,249)	(10,552)	—	(6,049)
Recoveries collected	—	—	288	—	—	12
Currency translation adjustments and other	(333)	(2,042)	(2,985)	2	(118)	(108)
<b>Balance at end of year</b>	<b>\$17,296</b>	<b>\$22,880</b>	<b>\$23,124</b>	<b>\$53</b>	<b>\$10,598</b>	<b>\$5,142</b>

In 2023, a \$10.6 million loan receivable from a related party was written off against the reserve as described in Note 24 "Related Party Transactions."

### Inventories

Inventories are stated at the lower of cost or net realizable value, determined on either a weighted average cost basis or a standard cost basis which is regularly adjusted to actual. Inventories include material, direct labor and overhead costs and are reduced for estimated obsolescence. Inventories consisted of the following as of December 31, 2023 and 2022:

(in thousands)	2023	2022
Raw materials	\$91,204	\$97,613
Work in process	94,736	85,488
Finished goods	212,445	174,859
<b>Total inventories, net</b>	<b>\$398,385</b>	<b>\$357,960</b>

## Notes to the Consolidated Financial Statements

### Property, Plant and Equipment

Property, plant and equipment are stated at cost less accumulated amortization. Capitalized internal-use software costs include only those direct costs associated with the actual development or acquisition of computer software solely to meet internal needs and cloud-based applications to deliver our service and comprise costs associated with the design, coding, installation and testing of the system. Costs associated with preliminary development, such as the evaluation and selection of alternatives, as well as training, maintenance and support are expensed as incurred. Costs for software to be sold, leased or otherwise marketed that are related to the conceptual formulation and design are expensed as incurred. Costs incurred to produce software products and the software components of products to be sold, leased or marketed after technological feasibility is established are capitalized and amortized in accordance with the accounting standards for the costs of software to be sold, leased, or otherwise marketed. Depreciation is computed using the straight-line method over the estimated useful lives of the assets. Amortization of leasehold improvements is computed on a straight-line basis over the lesser of the remaining life of the lease or the estimated useful life of the improvement asset. We have a policy of capitalizing expenditures that materially increase assets' useful lives and charging ordinary maintenance and repairs to operations as incurred. When property or equipment is disposed of, the cost and related accumulated depreciation and amortization are removed from the accounts and any gain or loss is included in earnings.

### Leases

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

### Company as a lessee

Leases are recognized as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use or at the lease commencement date. Leases are classified as finance or operating based on the criteria according to ASC 842 Leases, with classification affecting the pattern of expense recognition and amortization of the right-of-use asset in the income statement.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments, including in-substance fixed payments, less any lease incentives received;
- variable lease payments that are based on an index or a rate;
- amounts expected to be payable to the lessee under residual value guarantees;
- the exercise price of a purchase option if the lessee is reasonably certain to exercise that option; and

## Notes to the Consolidated Financial Statements

- payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be determined, the lessee's incremental borrowing rate at the lease commencement date is used, which is based on an assessment of interest rates the company would have to pay to borrow funds, including the consideration of factors such as the nature of the asset and location, collateral, market terms and conditions, as applicable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced by the lease payments made.

Each lease payment is allocated between the liability and finance charges. The interest element of the finance cost is recognized in the income statement over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of the lease liability;
- any lease payments made at or before the commencement date less any lease incentives received;
- any initial direct costs; and
- restoration costs.

The company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised. The company applies judgment in evaluating whether it is reasonably certain to exercise the option to renew. That is, it considers all relevant factors that create an economic incentive for it to exercise the renewal.

The company leases various items of real estate, vehicles and other equipment. Rental contracts are typically made for fixed periods but may have extension or termination options.

### Company as a lessor

When the company acts as a lessor, it determines at lease inception whether a lease is a finance lease or an operating lease. Leases in which the company does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. The company recognizes lease payments received under operating leases as income on a straight-line basis over the lease terms in the Income Statement.

## Notes to the Consolidated Financial Statements

### Business Combinations

We include the results of operations of the businesses that we acquire as of the acquisition date. The purchase price of an acquired business is allocated to the individual assets acquired and liabilities assumed based on their fair values at the date of acquisition. Those fair values are determined using income, cost and market approaches, most of which depend upon significant inputs that are not observable in the market, or Level 3 measurements. The excess of purchase price over the fair value of identifiable assets acquired and liabilities assumed is recorded as goodwill. Acquisition-related expenses are expensed as incurred.

The purchase price for some business combinations includes consideration that is contingent on the achievement of net sales or earnings targets by the acquired business. Contingent consideration is measured initially and on a recurring basis at fair value. Payments to settle the acquisition date fair value of contingent consideration are presented as financing activities on the statement of cash flows; any payments in excess of the acquisition date fair value are presented as operating activities.

### Acquired Intangibles and Goodwill

Acquired intangibles with future uses are carried at cost less accumulated amortization and consist of licenses to technology held by third parties and other acquired intangible assets. Amortization related to patents are computed over the estimated useful life of the underlying patent, which has historically ranged from 1 to 20 years. Purchased intangible assets acquired in business combinations, other than goodwill, are amortized over their estimated useful lives unless these lives are determined to be indefinite. Intangibles are assessed for recoverability considering the contract life and the period of time over which the intangible will contribute to future cash flow. The unamortized cost of intangible assets, where cash flows are independent and identifiable from other assets, is evaluated periodically and adjusted, if necessary, if events and circumstances indicate that a decline in value below the carrying amount has occurred.

Amortization expense related to developed technology and patent and license rights which have been acquired in a business combination is included in cost of sales. Amortization of trademarks, customer base and non-compete agreements which have been acquired in a business combination is recorded in operating expense under acquisition-related intangible amortization. Amortization expenses of intangible assets not acquired in a business combination are recorded within either the cost of sales, research and development or sales and marketing line items based on the use of the asset.

We dispose the gross carrying amount and accumulated amortization of fully amortized intangible assets from historic business combinations once they are considered fully integrated into our business.

The fair value of in-process research and development (IPR&D) acquired in a business combination is capitalized as an indefinite-lived intangible asset until completion or abandonment of the related research and development activities. IPR&D is tested for impairment annually or when any event or circumstance indicates that the fair value may be below the

## Notes to the Consolidated Financial Statements

carrying value. If and when research and development is complete, the associated asset is amortized over the estimated useful life.

Goodwill represents the difference between the purchase price and the estimated fair value of the net assets acquired arising from business combinations. Goodwill is subject to impairment tests annually or earlier if indicators of potential impairment exist. We have elected to perform our annual test for indications of impairment as of October 1st of each year. Following the annual impairment tests for the years ended December 31, 2023, 2022 and 2021, goodwill has not been impaired.

### Non-Marketable Investments

We have investments in non-marketable equity securities issued by privately held companies. These investments are included in other long-term assets in the accompanying consolidated balance sheets. Non-marketable investments through which we exercise significant influence but do not have control are accounted for using the equity method, which requires that we recorded our share of unrealized gains and losses on our equity method investments in other (expense) income, net. We monitor for changes in circumstances that may require a reassessment of the level of influence. Our non-marketable equity securities not accounted for under the equity method are accounted for under the measurement alternative. Under the measurement alternative, the carrying value is measured at cost, less any impairment, plus or minus changes resulting from observable price changes in orderly transactions for identical or similar investments of the same issuer. Adjustments are determined primarily based on a market approach as of the transaction date.

Investments are evaluated periodically, or when impairment indicators are noted, to determine if declines in value are other-than-temporary. In making that determination, we consider all available evidence relating to the realizable value of a security. This evidence includes, but is not limited to, the following:

- adverse financial conditions of a specific issuer, segment, industry, region or other variables;
- the length of time and the extent to which the fair value has been less than cost; and
- the financial condition and near-term prospects of the issuer.

We consider whether the fair values of any of our non-marketable investments have declined below their carrying value whenever adverse events or changes in circumstances indicate that recorded values may not be recoverable. If any such decline is considered to be other-than-temporary (based on various factors, including historical financial results, product development activities and the overall health of the affiliate's industry), then a write-down of the investment would be recorded in operating expense to its estimated fair value. Investment impairments recorded during the year ended December 31, 2023 are discussed in Note 10 "Investments."

## Notes to the Consolidated Financial Statements

### Variable Interest Entities

We evaluate at the inception of each arrangement whether we have made an investment in an entity that is considered a variable interest entity (VIE) or if we hold other variable interests in an arrangement that is considered a variable interest entity. We consolidate VIEs when we are the primary beneficiary. The primary beneficiary of a VIE is the party that meets both of the following criteria: (1) has the power to make decisions that most significantly affect the economic performance of the VIE; and (2) has the obligation to absorb losses or the right to receive benefits that in either case could potentially be significant to the VIE. Periodically, we assess whether any changes in our interest or relationship with the entity affect our determination of whether the entity is still a VIE and, if so, whether we are the primary beneficiary. If we are not the primary beneficiary in a VIE, we account for the investment or other variable interests in a VIE as an investment in a non-marketable investment or in accordance with other applicable GAAP.

### Impairment of Long-Lived Assets

We review our long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset or a group of assets may not be recoverable. We consider, amongst other indicators, a history of operating losses or a change in expected sales levels to be indicators of potential impairment. Assets are grouped and evaluated for impairment at the lowest level for which there are identifiable cash flows that are largely independent of the cash flows of other groups of assets. If an asset is determined to be impaired, the loss is measured as the amount by which the carrying amount of the asset exceeds the fair value as determined by applicable market prices, when available. When market prices are not available, we generally measure fair value by discounting projected future cash flows of the asset. Considerable judgment is necessary to estimate discounted future cash flows. Accordingly, actual results could differ from such estimates.

## Notes to the Consolidated Financial Statements

### 4. Revenue

#### Nature of Goods and Services

Our revenues are reported net of sales and value added taxes and accruals for estimated rebates and returns and are derived primarily from the sale of consumable and instrumentation products, and to a much lesser extent, from the sale of services, intellectual property and technology. Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services. From time to time, we enter into contracts that can include various combinations of products and services, which are generally distinct and accounted for as separate performance obligations. The transaction price is allocated to performance obligations based on their relative stand-alone selling prices.

We offer warranties on our products. Certain of our warranties are assurance-type in nature and do not cover anything beyond ensuring that the product is functioning as intended. Based on the guidance in FASB ASC Topic 606, assurance-type warranties do not represent separate performance obligations. The Company also sells separately-priced service contracts which qualify as service-type warranties and represent separate performance obligations.

We sell our products and services both directly to customers and through distributors generally under agreements with payment terms typically less than 90 days and, in most cases, not exceeding one year and therefore contracts do not contain a significant financing component.

#### Consumable and Related Revenue

**Consumable Products:** In the last three years, revenue from consumable product sales has accounted for between 78-81% of our net sales and revenue is recognized when performance obligations under the terms of a contract with a customer are satisfied. The majority of our contracts have either a single performance obligation to transfer a single consumable product or multiple performance obligations to transfer multiple products concurrently. Accordingly, we recognize revenue when control of the products has transferred to the customer, which is generally at the time of shipment of products as this is when title and risk of loss have been transferred. In addition, invoicing typically occurs at this time so this is when we have a present right to payment. Revenue is measured as the amount of consideration we expect to receive in exchange for transferring products and is generally based upon a negotiated formula, list or fixed price.

**Related Revenue:** Revenues from related products include software-as-a-service (SaaS), licenses, intellectual property and patent sales, royalties and milestone payments and over the last three years has accounted for between 7-10% of our net sales.

## Notes to the Consolidated Financial Statements

*SaaS arrangements:* Revenue from SaaS arrangements, which allow customers to use hosted software over the contract period without taking possession of the software, is recognized over the duration of the agreement unless the terms of the agreement indicate that revenue should be recognized in a different pattern, for example, based on usage.

*Licenses:* Licenses for on-site software, which allow customers to use the software as it exists when made available, are sold as perpetual licenses or term licenses. Revenue from on-site licenses is recognized at the later of when the software is made available to the customer or the beginning of the license term. When a portion of the transaction price is allocated to a performance obligation to provide support and/or updates, revenue is recognized as the updates/support are provided, generally over the life of the license. Fees from research collaborations include payments for technology transfer and access rights. Royalties from licensees of intellectual property are based on sales of licensed products and revenues are recognized at the later of (i) when the related sales occur, or (ii) when the performance obligation to which some or all of the royalty has been allocated has been satisfied (or partially satisfied).

*Milestone Payments:* At the inception of each companion diagnostic co-development arrangement that includes development milestone payments, which represent variable consideration, we evaluate whether the milestones are probable of being reached and estimate the amount to be included in the transaction price using the most likely amount method. If it is probable that a significant revenue reversal would not occur, the associated milestone value is included in the transaction price. Milestone payments that are not within our control, such as milestones which are achieved through regulatory approvals, are considered to be constrained and excluded from the transaction price until the required approvals are received. Revenue is recognized following the input method as this is considered to best depict the timing of the transfer of control. This involves measuring actual hours incurred to date as a proportion of the total budgeted hours of the project. At the end of each subsequent reporting period, the proportion of completion is trued-up. We also re-evaluate the probability of achievement of development milestones and any related constraint on a periodic basis and, if necessary, adjust our estimate of the overall transaction price. Any such adjustments are recorded on a cumulative catch-up basis, which would affect revenues and earnings in the period of adjustment.

### Instruments

Revenue from instrumentation includes the instrumentation equipment, installation, training and other instrumentation services, such as extended warranty services or product maintenance contracts, and over the last three years has accounted for 12% of net sales. Revenue from instrumentation equipment is recognized when the customer obtains control of the instrument which is predominantly at the time of delivery or upon customer acceptance, where applicable. Service revenue is recognized over the term of the service period as the customers benefit from the service throughout the service period. Revenue related to services performed on a time-and-materials basis is recognized when performed.

## Notes to the Consolidated Financial Statements

### Contract Estimates

The majority of our revenue is derived from contracts (i) with an original expected length of one year or less and (ii) contracts for which we recognize revenue at the amount in which we have the right to invoice as product is delivered. We have elected the practical expedient not to disclose the value of remaining performance obligations associated with these types of contracts.

However, we have certain companion diagnostic co-development contracts to provide research and development activities in which our performance obligations extend over multiple years. As of December 31, 2023, remaining performance obligations totaled \$55.5 million for which the transaction price is not constrained related to these contracts which we expect to recognize over the next 12 to 18 months.

Revenue expected to be recognized in any future year related to remaining performance obligations, excluding revenue pertaining to contracts that have an original expected duration of one year or less, contracts where revenue is recognized as invoiced and contracts with variable consideration related to undelivered performance obligations, is not material.

### Contract Balances

The timing of revenue recognition, billings and cash collections can result in billed accounts receivable, unbilled receivables (contract assets), and customer advances and deposits (contract liabilities) in the consolidated balance sheet.

Contract assets as of December 31, 2023 and 2022 totaled \$15.0 million and \$9.8 million, respectively, and are included in prepaid expenses and other current assets in the accompanying consolidated balance sheets and relate to the companion diagnostic co-development contracts discussed above.

Contract liabilities primarily relate to non-cancellable advances or deposits received from customers before revenue is recognized and are primarily related to instrument service and software-as-a-service (SaaS) arrangements. As of December 31, 2023 and 2022, contract liabilities totaled \$82.1 million and \$84.2 million, respectively, of which \$66.4 million and \$69.0 million is included in accrued and other current liabilities, respectively, and \$15.7 million and \$15.2 million is included in other long-term liabilities, respectively. During the years ended December 31, 2023 and 2022, we satisfied the associated performance obligations and recognized revenue of \$66.8 million and \$57.6 million, respectively, related to advance customer payments previously received.

## Notes to the Consolidated Financial Statements

### Disaggregation of Revenue

We disaggregate our revenue based on product type and customer class as shown below for the years ended December 31, 2023, 2022 and 2021:

(in thousands)	2023	2022	2021
Consumables and related revenues	\$951,366	\$1,029,791	\$1,027,215
Instruments	84,111	96,436	116,449
Molecular Diagnostics	1,035,477	1,126,227	1,143,664
Consumables and related revenues	774,847	859,133	959,093
Instruments	154,987	156,158	148,900
Life Sciences	929,834	1,015,291	1,107,993
<b>Total net sales</b>	<b>\$1,965,311</b>	<b>\$2,141,518</b>	<b>\$2,251,657</b>

Additionally, we disaggregate our revenue based on the product categories as shown below for the years ended December 31, 2023, 2022 and 2021:

(in thousands)	2023	2022	2021
Sample technologies	\$662,991	\$796,932	\$850,636
Diagnostic solutions	697,630	660,879	638,759
PCR / Nucleic acid amplification	300,204	390,804	433,972
Genomics / NGS	238,910	224,797	245,066
Other	65,576	68,106	83,224
<b>Total net sales</b>	<b>\$1,965,311</b>	<b>\$2,141,518</b>	<b>\$2,251,657</b>

Refer to Note 21 "Segment Information" for disclosure of revenue by geographic region.

## Notes to the Consolidated Financial Statements

### 5. Acquisitions

We undertake acquisitions to complement our own internal product development activities. Our acquisitions have historically been made at prices above the fair value of the acquired net assets, resulting in goodwill, due to expectations of synergies of combining the businesses. These synergies include use of our existing infrastructure, such as sales force, business service centers, distribution channels and customer relations, to expand sales of an acquired business' products; use of the infrastructure of the acquired businesses to cost-effectively expand sales of our products; and elimination of duplicative facilities, functions and staffing.

#### 2023 Business Combination

On January 3, 2023, we acquired 100% of the shares of Verogen, Inc., a leader in the use of next-generation sequencing (NGS) technologies to drive the future of human identification (HID) and forensic investigation. Verogen, a privately held company founded in 2017 and based in San Diego, California, supports the global human identification community with NGS tools and professional services to help resolve criminal and missing-persons cases. The cash consideration, net of cash acquired was \$149.5 million. The acquisition is not significant to the overall consolidated financial statements and as of September 30, 2023, the allocation of the purchase price was final. At the acquisition date, all the assets acquired and liabilities assumed were recorded at their respective fair values and our consolidated results of operations include the operating results from the acquired company from the acquisition date. The acquisition did not have a material impact to net sales, net income or earnings per common share and therefore no pro forma information has been provided herein.

#### 2022 Business Combination

On May 11, 2022, we acquired BLIRT S.A., a supplier of standardized and customized solutions for proteins and enzymes as well as molecular biology reagents located in Gdańsk, Poland. Its offering includes proteins and enzymes that are critical to the life sciences industry and diagnostic kit manufacturers. The cash consideration, net of cash acquired was \$63.7 million. The acquisition was not significant to the overall consolidated financial statements. At the acquisition date, all the assets acquired and liabilities assumed were recorded at their respective fair values and our consolidated results of operations include the operating results from the acquired company from the acquisition date. The acquisition did not have a material impact to net sales, net income or earnings per share and therefore no pro forma information has been provided herein.

## Notes to the Consolidated Financial Statements

### 6. Restructuring

During the fourth quarter of 2022, we initiated a restructuring plan to discontinue our third-party instrument service business and realign certain management positions and personnel in order to improve the overall management structure.

The below table shows the pre-tax restructuring charges recorded in 2023 and 2022 in the accompanying consolidated statements of income.

(in thousands)	2023	2022
Cost of sales	\$—	\$391
Restructuring, acquisition, integration and other, net	6,948	4,612
<b>Total restructuring charges</b>	<b>\$6,948</b>	<b>\$5,003</b>

Cost of sales charges in 2022 were for inventory write-downs.

A summary of the restructuring liability, which is recorded in accrued and other current liabilities in the accompanying consolidated balance sheets, as of December 31, 2023 and 2022 is as follows:

(in thousands)	Personnel related	Contract and other costs	Total
Liability at December 31, 2021	\$—	\$—	\$—
Cost incurred in 2022	4,121	491	4,612
Foreign currency translation adjustment	24	3	27
<b>Liability at December 31, 2022</b>	<b>\$4,145</b>	<b>\$494</b>	<b>\$4,639</b>
Costs incurred in 2023	7,457	160	7,617
Release of accruals	(662)	(7)	(669)
Payments	(3,667)	(500)	(4,167)
Foreign currency translation adjustment	137	—	137
<b>Liability at December 31, 2023</b>	<b>\$7,410</b>	<b>\$147</b>	<b>\$7,557</b>

No further charges related to this program are expected to be incurred in 2024.

## Notes to the Consolidated Financial Statements

### 7. Short-Term Investments

As of December 31, 2023 and 2022, short-term investments were as follows:

(in thousands)	2023	2022
Commercial paper	\$81,023	\$672,597
Money market deposits	308,675	15,000
<b>Total short-term investments</b>	<b>\$389,698</b>	<b>\$687,597</b>

Short-term investments are highly liquid deposits and fixed-income securities denominated in U.S. dollars. At December 31, 2023 and 2022, we had \$389.7 million and \$687.6 million, respectively, of commercial paper and money market deposits due from financial and nonfinancial institutions.

Investments in commercial paper, a marketable debt security, are classified as available for sale investments and are carried at amortized cost, which approximates fair market value. Interest income is calculated and accrued using the effective interest method.

Money market deposits are interest-bearing deposit accounts, valued at cost with interest income accrued as earned. All instruments are classified as current assets in the accompanying balance sheet as they have an original maturity of less than one year. Interest income is determined using the effective interest rate method.

## Notes to the Consolidated Financial Statements

### 8. Prepaid Expenses and Other Current Assets

Prepaid expenses and other current assets are summarized as follows as of December 31, 2023 and 2022:

(in thousands)	Notes	2023	2022
Cash collateral	(14)	\$87,666	\$21,083
Income taxes receivable	(17)	60,639	53,394
Prepaid expenses		44,854	50,958
Fair value of derivative instruments	(14)	43,230	111,617
Other receivables		38,177	19,026
Value added tax		19,911	28,130
Contract assets	(4)	15,039	9,768
<b>Total prepaid expenses and other current assets</b>		<b>\$309,516</b>	<b>\$293,976</b>

## Notes to the Consolidated Financial Statements

### 9. Property, Plant and Equipment

Property, plant and equipment as of December 31, 2023 and 2022 were as follows:

(in thousands)	Estimated useful lives (in years)	2023	2022
Land		\$26,239	\$25,480
Buildings and improvements	up to 60	382,836	362,794
Machinery and equipment	3-10	309,930	294,156
Computer software	3-20	267,572	262,007
Furniture and office equipment	3-10	91,247	90,293
Construction in progress		203,978	130,407
Total property, plant and equipment		1,281,802	1,165,137
Less: Accumulated depreciation and amortization		(516,765)	(502,967)
<b>Total property, plant and equipment, net</b>		<b>\$765,037</b>	<b>\$662,170</b>

For the year ended December 31, 2023, construction in progress primarily includes amounts related to projects to expand production lines and increase capacity of manufacturing as well as ongoing software development projects. For the year ended December 31, 2023, interest capitalized in connection with these projects totaled \$1.2 million. No significant interest was capitalized for the years ended December 31, 2022 and 2021.

For the years ended December 31, 2023, 2022 and 2021, depreciation and amortization expense totaled \$85.6 million, \$89.5 million and \$85.4 million, respectively. For the years ended December 31, 2023, 2022 and 2021, amortization related to computer software to be sold, leased or marketed totaled \$11.7 million, \$10.8 million and \$9.2 million, respectively. As of December 31, 2023 and 2022, the unamortized balance of computer software to be sold, leased or marketed was \$97.9 million and \$69.2 million, respectively.

Repairs and maintenance expense was \$19.3 million, \$16.8 million and \$16.2 million in 2023, 2022 and 2021, respectively.

## Notes to the Consolidated Financial Statements

### 10. Investments

#### Non-Marketable Investments

We have made strategic investments in certain privately-held companies without readily determinable market values.

#### Non-Marketable Investments Accounted for Under the Equity Method

A summary of our non-marketable investments accounted for as equity method investments is as follows:

(in thousands)	Ownership percentage	Equity investments as of December 31,		Share of income (loss) for the years ended December 31,		
		2023	2022	2023	2022	2021
PreAnalytiX GmbH	50.00 %	\$3,422	\$6,856	\$4,977	\$4,377	\$10,412
Apis Assay Technologies Ltd	19.90 %	2,408	4,102	(1,694)	389	1,773
TVM Life Science Ventures III	3.10 %	7,198	3,872	947	(901)	(264)
Suzhou Fuda Business Management and Consulting Partnership	33.67 %	2,581	2,608	49	—	—
Actome GmbH	12.50 %	586	779	(216)	(201)	(31)
Hombrechtikon Systems Engineering AG	19.00 %	(275)	(311)	100	94	97
<b>Total</b>		<b>\$15,920</b>	<b>\$17,906</b>	<b>\$4,163</b>	<b>\$3,758</b>	<b>\$11,987</b>

Of the \$15.9 million of non-marketable investments accounted for as equity method investments, \$16.2 million is included in other long-term assets and \$0.3 million, where we are committed to fund losses, is included in other long-term liabilities in the accompanying consolidated balance sheet as of December 31, 2023.

TVM Life Science Ventures III (TVM) is a limited partnership and we account for our 3.1% investment under the equity method as we have the ability to exercise significant influence over the limited partnership. This investment is valued at net asset value (NAV) reported by the counterparty, adjusted as necessary. During the years ended December 31, 2023, 2022 and 2021, we made \$2.4 million, \$1.1 million and \$2.4 million, respectively, in additional cash payments to TVM and, as of December 31, 2023, have \$6.8 million of unfunded commitments through 2029 related to this investment. We do not have the right to redeem these funds under the normal course of operations of this partnership.

During the years ended December 31, 2023, 2022 and 2021, we received dividends of \$9.1 million, \$7.5 million and \$4.7 million, respectively, from PreAnalytiX GmbH. These dividends are included in other items, net including fair value changes in derivatives in the accompanying consolidated statement of cash flows as they are a return on investment and therefore classified as cash flows from operating activities.

## Notes to the Consolidated Financial Statements

As of December 31, 2023, four of our equity method investments are variable interest entities and we are not the primary beneficiary as we do not hold the power to direct the activities that most significantly impact the economic performance. Therefore, these investments are not consolidated. As of December 31, 2023, these investments had a total net carrying value of \$9.9 million, of which \$10.2 million, representing our maximum exposure to loss, is included in other long-term assets and \$0.3 million is included in other long-term liabilities in the accompanying consolidated balance sheet. As of December 31, 2022, these investments held a balance of \$8.4 million, of which \$8.7 million is included in other long-term assets and \$0.3 million is included in other long-term liabilities in the accompanying consolidated balance sheet.

### Non-Marketable Investments Not Accounted for Under the Equity Method

At December 31, 2023 and 2022, we had investments in non-publicly traded companies that do not have readily determinable fair values with carrying amounts that totaled \$4.4 million and \$5.3 million, respectively, which are included in other long-term assets. These investments are measured at cost, less any impairment, plus or minus changes resulting from observable price changes in orderly transactions for the identical or a similar investment of the same issuer. Changes resulting from impairment and observable price changes are recognized in the statements of income during the period the change is identified.

The changes in non-marketable investments not accounted for under the equity method for the years ended December 31, 2023 and 2022 are as follows:

(in thousands)	2023	2022
Balance at beginning of year	\$5,329	\$3,945
Impairments	(4,158)	—
Cash investments in equity securities, net	491	52
Shares received in exchange for services performed	2,604	1,475
Foreign currency translation adjustments	169	(143)
<b>Balance at end of year</b>	<b>\$4,435</b>	<b>\$5,329</b>

During 2023, we fully impaired an investment following adverse changes in an investee's solvency that indicated that the carrying value was no longer recoverable. The impairment of \$4.2 million is recorded in other (expense) income, net in the accompanying consolidated statement of income.

## Notes to the Consolidated Financial Statements

### Marketable Equity Securities

During the year ended December 31, 2021, we sold all previously held investments in marketable equity securities that had readily determinable fair values. These investments were reported at fair value with gains and losses recorded in earnings.

The changes in marketable equity securities during the year ended December 31, 2021 are presented below.

(in thousands, except shares)	Invitae Corporation (Invitae)		OncoCyte Corporation (OncoCyte)		Oncimmune Holdings plc (Oncimmune)		HTG Molecular Diagnostics, Inc (HTGM)	
	Shares	Amount	Shares	Amount	Shares	Amount	Shares	Amount
Balance at December 31, 2020	2,769,189	\$115,780	88,101	\$211	560,416	\$1,258	55,556	\$266
Shares received upon milestone achievement	1,100,190	35,338	30,152	147	86,218	220	—	—
(Loss) gain on change in fair value	—	(3,066)	—	123	—	61	—	65
Sale of investment	(3,869,379)	(148,052)	(118,253)	(481)	(646,634)	(1,539)	(55,556)	(331)
<b>Balance at December 31, 2021</b>	<b>—</b>	<b>\$—</b>	<b>—</b>	<b>\$—</b>	<b>—</b>	<b>\$—</b>	<b>—</b>	<b>\$—</b>

During 2021, we sold all shares received from Invitae upon milestone achievement and realized a gain of \$32.3 million in other (expense) income, net in the accompanying consolidated statement of income.

## Notes to the Consolidated Financial Statements

### 11. Goodwill and Intangible Assets

The following sets forth the intangible assets by major asset class as of December 31, 2023 and 2022:

(in thousands)	Weighted average life (in years)	2023		2022	
		Gross carrying amount	Accumulated amortization	Gross carrying amount	Accumulated amortization
Amortized intangible assets:					
Patent and license rights	10.35	\$202,785	(\$127,163)	\$203,549	(\$140,632)
Developed technology	11.01	798,571	(447,989)	780,233	(407,401)
Customer base, trademarks, and non-compete agreements	10.97	212,285	(173,438)	227,171	(179,658)
<b>Total amortized intangible assets</b>	<b>10.90</b>	<b>\$1,213,641</b>	<b>(\$748,590)</b>	<b>\$1,210,953</b>	<b>(\$727,691)</b>
Unamortized intangible assets:					
In-process research and development		\$61,770		\$61,534	
Goodwill		2,475,732		2,352,569	
<b>Total unamortized intangible assets</b>		<b>\$2,537,502</b>		<b>\$2,414,103</b>	

During 2023 and 2022, certain fully amortized intangible assets with a gross carrying amount of \$87.3 million and \$135.3 million, respectively, were retired.

In-process research and development is from the acquisitions of NeuMoDx in 2020 and STAT-Dx in 2018. The estimated fair value of acquired in-process research and development projects which have not reached technological feasibility at the date of acquisition are capitalized and subsequently tested for impairment through completion of the development process, at which point the capitalized amounts are amortized over their estimated useful life. If a project is abandoned rather than completed, all capitalized amounts are written-off immediately.

## Notes to the Consolidated Financial Statements

The changes in intangible assets, net excluding goodwill for the years ended December 31, 2023 and 2022 are as follows:

(in thousands)	2023	2022
Balance at beginning of year	\$544,796	\$627,436
Additions	11,077	19,632
Additions from acquisitions	58,000	17,247
Amortization	(93,755)	(93,714)
Disposals	—	(35)
Impairments	—	(12,829)
Foreign currency translation adjustments	6,703	(12,941)
<b>Balance at end of year</b>	<b>\$526,821</b>	<b>\$544,796</b>

Cash paid for purchases of intangible assets during the year ended December 31, 2023 totaled \$13.1 million which includes \$10.8 million of cash paid for current year additions and \$2.3 million of payments for assets that were accrued as of December 31, 2022.

Intangible additions of \$19.6 million in 2022 include \$10.9 million of cash paid during the year ended December 31, 2022 together with \$7.0 million of additions which were previously recorded as prepayments and \$1.7 million of additions that were accrued as of December 31, 2022. Cash paid for purchases of intangible assets during the year ended December 31, 2022 totaled \$20.1 million of which \$4.8 million is related to payments in 2022 for assets that were accrued as of December 31, 2021 and \$4.4 million are prepayments recorded in other long-term assets in the accompanying consolidated balance sheet as of December 31, 2022.

Amortization expense on intangible assets totaled approximately \$93.8 million, \$93.7 million and \$104.4 million, respectively, for the years ended December 31, 2023, 2022 and 2021. During 2022, we recorded a charge to restructuring, acquisition, integration and other, net in the accompanying statement of income to fully impair a license with a carrying value of \$12.8 million. This license was to use technology of Ellume Limited, Australia. In connection with Ellume starting insolvency proceedings in September 2022, we decided to cease all product development and manufacturing activities associated with this license and determined that there was no alternative use nor recoverable value. Accordingly, the license was fully impaired.

## Notes to the Consolidated Financial Statements

Amortization of intangibles for the next five years for the years ended December 31 is expected to be approximately:

(in thousands)	
2024	\$91,349
2025	\$79,841
2026	\$72,334
2027	\$66,847
2028	\$59,787

The changes in goodwill for the years ended December 31, 2023 and 2022 are as follows:

(in thousands)	2023	2022
Balance at beginning of year	\$2,352,569	\$2,350,763
Business combinations	95,136	42,201
Purchase adjustments	(4,350)	(303)
Foreign currency translation adjustments	32,377	(40,092)
<b>Balance at end of year</b>	<b>\$2,475,732</b>	<b>\$2,352,569</b>

The changes in the carrying amount of goodwill during the year ended December 31, 2023 resulted primarily from the acquisition of Verogen, Inc. in January 2023 and foreign currency translation adjustments driven by changes in the euro, Swiss franc and British pound. The changes in goodwill during the year ended December 31, 2022 resulted primarily from the acquisition of BLIRT S.A. in May 2022 and foreign currency translation adjustments.

## 12. Leases

We have operating leases primarily for real estate. The leases generally have terms which range from one year to 15 years, some include options to extend or renew, and some include options to early terminate the leases. As of December 31, 2023 and 2022, no such options have been recognized as part of the right-of-use assets and lease liabilities.

Operating leases can contain variable lease charges based on an index like consumer prices or rates. During the years ended December 31, 2023 and 2022, amounts recorded as variable lease payments not included in the operating lease liability were not material.

## Notes to the Consolidated Financial Statements

When the interest rate implicit in each lease is not readily determinable, we apply our incremental borrowing rate in determining the present value of lease payments. All operating lease expense is recognized on a straight-line basis over the lease term. For the years ended December 31, 2023 and 2022, we recognized \$28.6 million and \$27.0 million in total lease costs, respectively.

Supplemental balance sheet and other information related to operating leases as of December 31, 2023 and 2022 are as follows:

(in thousands, except lease term and discount rate)	Location in consolidated balance sheet	2023	2022
Operating lease right-of-use assets	Other long-term assets	\$105,240	\$95,523
Current operating lease liabilities	Accrued and other current liabilities	\$22,268	\$22,220
Long-term operating lease liabilities	Other long-term liabilities	\$79,063	\$71,406
Weighted average remaining lease term		6.80 years	6.92 years
Weighted average discount rate		2.85%	2.08%

Supplemental cash flow information related to operating leases for the years ended December 31, 2023 and 2022 is as follows:

(in thousands)	2023	2022
Cash paid for operating leases included in cash flows from operating activities	\$29,300	\$26,842
Operating lease right-of-use assets obtained in exchange for lease obligations	\$30,911	\$25,148

## Notes to the Consolidated Financial Statements

Future maturities of operating lease liabilities as of December 31, 2023 are as follows:

Years ending December 31, (in thousands)	
2024	\$25,123
2025	20,876
2026	15,049
2027	11,531
2028	8,162
Thereafter	29,159
Total lease payments	109,900
Less: Imputed interest	(8,569)
<b>Total</b>	<b>\$101,331</b>

As of December 31, 2023, we do not have any material operating lease that have not yet commenced. We did not hold any material finance leases as of December 31, 2023 and 2022.

## Notes to the Consolidated Financial Statements

### 13. Accrued and Other Current Liabilities

Accrued and other current liabilities at December 31, 2023 and 2022 consist of the following:

(in thousands)	Notes	2023	2022
Payroll and related accruals		\$81,377	\$99,885
Accrued expenses		70,007	62,469
Deferred revenue	(4)	66,432	69,000
Other liabilities	(6)	62,819	59,187
Fair value of derivative instruments	(14)	49,774	111,252
Operating lease liabilities	(12)	22,268	22,220
Accrued contingent consideration and milestone payments	(15)	18,359	8,181
Income taxes payable	(17)	12,475	13,980
Accrued royalties	(20)	9,699	12,877
Accrued interest on long-term debt	(16)	8,518	5,431
Cash collateral	(14)	5,440	21,755
<b>Total accrued and other current liabilities</b>		<b>\$407,168</b>	<b>\$486,237</b>

### 14. Derivatives and Hedging

#### Objective and Strategy

In the ordinary course of business, we use derivative instruments, including swaps, forwards and/or options, to manage potential losses from foreign currency exposures and interest-bearing assets or liabilities. The principal objective of such derivative instruments is to minimize the risks and/or costs associated with our global financial and operating activities. We do not utilize derivative or other financial instruments for trading or other speculative purposes. We recognize all derivatives as either assets or liabilities on the balance sheet on a gross basis, measure those instruments at fair value and recognize the change in fair value in earnings in the period of change, unless the derivative qualifies as an effective hedge that offsets certain exposures. We have agreed with almost all of our counterparties with whom we had entered into cross-currency swaps, interest rate swaps or foreign exchange contracts, to enter into bilateral collateralization contracts under which we will receive or provide cash collateral, as the case may be, for the net position with each of these counterparties. As of December 31, 2023, cash collateral positions consisted of \$5.4 million recorded in accrued and other current

## Notes to the Consolidated Financial Statements

liabilities and \$87.7 million recorded in prepaid expenses and other current assets in the accompanying consolidated balance sheet. As of December 31, 2022, we had cash collateral positions consisting of \$21.8 million recorded in accrued and other current liabilities and \$21.1 million recorded in prepaid expenses and other current assets in the accompanying consolidated balance sheet.

### Non-Derivative Hedging Instrument

#### Net Investment Hedge

We are party to a foreign currency non-derivative hedging instrument that is designated and qualifies as a net investment hedge. The objective of the hedge is to protect part of the net investment in foreign operations against adverse changes in the exchange rate between the euro and the U.S. dollar. The non-derivative hedging instrument is the German private corporate bond (2017 Schuldschein) which was issued in 2017 in the total amount of \$331.1 million as described in Note 16 "Debt." Of the \$331.1 million, which is held in both U.S. dollars and euros, €255.0 million was designated as the hedging instrument as of December 31, 2022 against a portion of our euro net investments in our foreign operations. As further described in Note 16, four tranches of the 2017 Schuldschein matured and were paid in October 2022 and two tranches of the 2017 Schuldschein matured and were paid during 2021. As a result, €109.5 million remained designated as a hedging instrument as of December 31, 2023. In July 2022, we issued an additional €370.0 million German private corporate bond (2022 Schuldschein) as described in Note 16, and it is designated in its entirety as the hedging instrument against a portion of our euro net investments in our foreign operations. The relative changes in both the hedged item and hedging instrument are calculated by applying the change in spot rate between two assessment dates against the respective notional amount. The effective portion of the hedge is recorded in the cumulative translation adjustment account within accumulated other comprehensive loss. Based on the spot rate method, the unrealized loss recorded in equity as of December 31, 2023 and 2022 is \$35.2 million and \$22.6 million, respectively. Since we are using the debt as the hedging instrument, which is also remeasured based on the spot rate method, there is no hedge ineffectiveness related to the net investment hedge as of December 31, 2023 and 2022.

### Derivatives Designated as Hedging Instruments

#### Net Investment Hedge

In September 2022, we entered into a one-month interest rate derivative contract for a total notional amount €135.0 million, that matured on October 13, 2022, which qualified as a net investment hedge. The objective of the hedge was to protect the additional investments in foreign operations in September 2022 against adverse changes in the exchange rate between the euro and the functional currency of the U.S. dollar. The relative changes in both the hedged item and derivative hedging instrument were calculated by applying the change in spot rate between two assessment dates against the respective notional amount. The effective portion of the hedge is recorded in the cumulative translation adjustment account within accumulated other comprehensive loss and will be reclassified to earnings upon the disposal or

## Notes to the Consolidated Financial Statements

liquidation of the foreign operations. In October 2022, the interest rate derivative contract expired and the unrealized gain recorded in equity was \$5.8 million as of December 31, 2022.

### Cash Flow Hedges

As of December 31, 2023 and 2022, we held derivative instruments that are designated and qualify as cash flow hedges, where the effective portion of the gain or loss on the derivative is reported as a component of other comprehensive loss and reclassified into earnings in the same period or periods during which the hedged transaction affects earnings. Gains and losses on the derivative representing either hedge ineffectiveness or hedge components excluded from the assessment of effectiveness are recognized in current earnings. To date, we have not recorded any hedge ineffectiveness related to any cash flow hedges in earnings. Based on their valuation as of December 31, 2023, we expect approximately \$2.1 million of derivative gains included in accumulated other comprehensive loss will be reclassified into income during the next 12 months. The cash flows derived from derivatives are classified in the consolidated statements of cash flows in the same category as the hedged item.

We use interest rate derivative contracts to align our portfolio of interest-bearing assets and liabilities with our risk management objectives. Since 2015, we have been a party to five cross-currency interest rate swaps through 2025 for a total notional amount of €180.0 million which qualify for hedge accounting as cash flow hedges. In September 2022, we entered into five new cross-currency interest rate swaps through 2025 for a total notional amount of CHF 542.0 million which qualify for hedge accounting as cash flow hedges. We determined that no ineffectiveness exists related to these swaps. As of December 31, 2023 and 2022, interest receivables of \$8.4 million and \$5.5 million, respectively, are recorded in prepaid expenses and other current assets in the accompanying consolidated balance sheets.

### Fair Value Hedges

Until October 2022, we held derivative instruments that qualified for hedge accounting as fair value hedges. For derivative instruments that are designated and qualify as a fair value hedge, the effective portion of the gain or loss on the derivative is reflected in earnings. This effect on earnings is offset by the change in the fair value of the hedged item attributable to the risk being hedged that is also recorded in earnings. The cash flows derived from derivatives are classified in the consolidated statement of cash flows in the same category as the consolidated balance sheet account of the underlying item.

We held interest rate swaps which effectively fixed the fair value of a portion of our fixed rate private placement debt and qualified for hedge accounting as fair value hedges. These interest rate swap derivative instruments expired along with the repayment of the private placement debt in October 2022, as described in Note 16 "Debt." There had been no ineffectiveness related to the interest rate swaps.

## Notes to the Consolidated Financial Statements

### Derivatives Not Designated as Hedging Instruments

#### Call Options

We entered into Call Options which, along with the sale of the Warrants, represent the Call Spread Overlay entered into in connection with the Cash Convertible Notes and which are more fully described in Note 16 "Debt." In these transactions, the Call Options are intended to address the equity price risk inherent in the cash conversion feature of each instrument by offsetting cash payments in excess of the principal amount due upon any conversion of the Cash Convertible Notes. Accordingly, the derivative is presented as either current or long-term based upon the classification of the related debt.

Aside from the initial payment of premiums for the Call Options, we will not be required to make any cash payments under the Call Options. We will, however, be entitled to receive under the terms of the Call Options, an amount of cash generally equal to the amount by which the market price per share of our common stock exceeds the exercise price of the Call Options during the relevant valuation period. The exercise price under the Call Options is equal to the conversion price of the Cash Convertible Notes.

The Call Options, for which our common stock is the underlying security, are derivative assets that require mark-to-market accounting treatment. The Call Options are measured and reported at fair value on a recurring basis within Level 2 of the fair value hierarchy. The change in fair value is recognized immediately in our consolidated statements of income in other (expense) income, net.

#### Cash Convertible Notes Embedded Cash Conversion Option

The embedded cash conversion option within the Cash Convertible Notes discussed in Note 16 "Debt" is required to be separated from the Cash Convertible Notes and accounted for separately as a derivative liability, with changes in fair value reported in our consolidated statements of income in other (expense) income, net until the cash conversion option settles or expires. The embedded cash conversion option is measured and reported at fair value on a recurring basis within Level 2 of the fair value hierarchy.

Because the terms of the Cash Convertible Notes' embedded cash conversion option are substantially similar to those of the Call Options, discussed above, we expect the effect on earnings from these two derivative instruments to mostly offset each other. In September 2023, the 2023 Notes and the related Call Options have been settled as described in Note 16 and we recognized a gain of \$0.9 million in other (expense) income, net in the accompanying consolidated statement of income.

## Notes to the Consolidated Financial Statements

### Foreign Exchange Contracts

As a globally active enterprise, we are subject to risks associated with fluctuations in foreign currencies in our ordinary operations. This includes foreign currency-denominated receivables, payables, debt and other balance sheet positions including intercompany items. We manage balance sheet exposure on a group-wide basis using foreign exchange forward contracts, foreign exchange options and cross-currency swaps.

We are party to various foreign exchange forward, option and swap arrangements which had an aggregate notional value of \$590.9 million at December 31, 2023, which expire at various dates through September 2024. At December 31, 2022, these arrangements had an aggregate notional value of \$466.0 million, which expired at various dates through July 2023. The transactions have been entered into to offset the effects from short-term balance sheet exposure to foreign currency exchange risk. Changes in the fair value of these arrangements have been recognized in other (expense) income, net.

### Fair Values of Derivative Instruments

The following table summarizes the fair value amounts of derivative instruments reported in the consolidated balance sheets as of December 31, 2023 and 2022:

(in thousands)	2023		2022	
	Current asset	Long-term asset	Current asset	Long-term asset
Assets:				
Derivative instruments designated as hedges				
Interest rate contracts - cash flow hedge <sup>(1)</sup>	\$—	\$3,083	\$—	\$12,256
Total derivative instruments designated as hedges	—	3,083	—	12,256
Undesignated derivative instruments				
Equity options	39,759	—	102,671	119,098
Foreign exchange forwards and options	3,471	—	8,946	—
Total undesignated derivative instruments	43,230	—	111,617	119,098
<b>Total derivative assets</b>	<b>\$43,230</b>	<b>\$3,083</b>	<b>\$111,617</b>	<b>\$131,354</b>

## Notes to the Consolidated Financial Statements

(in thousands)	2023		2022	
	Current liability	Long-term liability	Current liability	Long-term liability

<sup>(1)</sup> The fair value amounts for the interest rate contracts do not include accrued interest.

## Notes to the Consolidated Financial Statements

### Gains and Losses on Derivative Instruments

The following tables summarize the gains and losses on derivative instruments for the years ended December 31, 2023, 2022 and 2021:

(in thousands)	2023	2022	2021
	Other (expense) income, net	Other (expense) income, net	Other (expense) income, net
Total amounts presented in the Consolidated Statements of Income in which the effects of cash flow and fair value hedges are recorded	(\$5,711)	\$6,741	\$40,671
Gains (losses) on derivatives in cash flow hedges:			
Interest rate contracts			
Amount of gain (loss) reclassified from accumulated other comprehensive loss	\$66,600	\$21,940	(\$17,010)
Amounts excluded from effectiveness testing	—	—	—
Gains (losses) on derivatives in fair value hedges:			
Interest rate contracts			
Hedged item	—	1,971	3,072
Derivatives designated as hedging instruments	—	(1,971)	(3,072)
Gains (losses) on derivatives not designated as hedging instruments:			
Equity options	(182,011)	(130,801)	(23,882)
Cash convertible notes embedded cash conversion option	182,802	131,227	28,154
Foreign exchange forwards and options	(8,610)	72,641	10,333
<b>Total gains (losses) on derivative instruments</b>	<b>\$58,781</b>	<b>\$95,007</b>	<b>(\$2,405)</b>

Notes to the Consolidated Financial Statements

## 15. Financial Instruments and Fair Value Measurements

Assets and liabilities are measured at fair value according to a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value as follows:

- *Level 1.* Observable inputs, such as quoted prices in active markets;
- *Level 2.* Inputs, other than the quoted price in active markets, that are observable either directly or indirectly; and
- *Level 3.* Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

The following table presents our fair value hierarchy for our financial assets and liabilities measured at fair value on a recurring basis as of December 31, 2023 and 2022:

(in thousands)	2023			2022				
	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total
<b>Assets:</b>								
Cash equivalents	\$481,360	\$9,982	\$—	\$491,342	\$289,394	\$94,828	\$—	\$384,222
Short-term investments	—	81,023	—	81,023	79,600	592,997	—	672,597
Non-marketable equity securities	—	—	4,435	4,435	—	—	5,329	5,329
Equity options	—	39,759	—	39,759	—	221,769	—	221,769
Foreign exchange forwards and options	—	3,471	—	3,471	—	8,946	—	8,946
Interest rate contracts - cash flow hedge	—	3,083	—	3,083	—	12,256	—	12,256
<b>Total financial assets</b>	<b>\$481,360</b>	<b>\$137,318</b>	<b>\$4,435</b>	<b>\$623,113</b>	<b>\$368,994</b>	<b>\$930,796</b>	<b>\$5,329</b>	<b>\$1,305,119</b>
<b>Liabilities:</b>								
Cash convertible notes embedded conversion option	\$—	(\$39,830)	\$—	(\$39,830)	\$—	(\$222,632)	\$—	(\$222,632)
Foreign exchange forwards and options	—	(9,944)	—	(9,944)	—	(8,356)	—	(8,356)
Interest rate contracts - cash flow hedge	—	(98,908)	—	(98,908)	—	(36,982)	—	(36,982)
Contingent consideration	—	—	(18,359)	(18,359)	—	—	(18,088)	(18,088)
<b>Total financial liabilities</b>	<b>\$—</b>	<b>(\$148,682)</b>	<b>(\$18,359)</b>	<b>(\$167,041)</b>	<b>\$—</b>	<b>(\$267,970)</b>	<b>(\$18,088)</b>	<b>(\$286,058)</b>

## Notes to the Consolidated Financial Statements

The carrying values of financial instruments, including cash and cash equivalents, accounts receivable, accounts payable and other accrued liabilities, approximate their fair values due to their short-term maturities.

Our assets and liabilities measured at fair value on a recurring basis consist of cash equivalents and short-term investments, which are classified in Level 1 and Level 2 of the fair value hierarchy; derivative contracts used to hedge currency and interest rate risk and derivative financial instruments entered into in connection with the Cash Convertible Notes discussed in Note 16 "Debt," which are classified in Level 2 of the fair value hierarchy; contingent consideration accruals, which are classified in Level 3 of the fair value hierarchy; and non-marketable equity securities remeasured during the years ended December 31, 2023 and 2022 classified within Level 3 in the fair value hierarchy. There were no transfers between levels for the year ended December 31, 2023.

In determining fair value for Level 2 instruments, we apply a market approach using quoted active market prices relevant to the particular instrument under valuation, giving consideration to the credit risk of both the respective counterparty to the contract and the Company. To determine our credit risk, we estimated our credit rating by benchmarking the price of outstanding debt to publicly-available comparable data from rated companies. Using the estimated rating, our credit risk was quantified by reference to publicly-traded debt with a corresponding rating. The Level 2 derivative financial instruments include the Call Options asset and the embedded conversion option liability. See Note 16 "Debt" and Note 14 "Derivatives and Hedging" for further information. The derivatives are not actively traded and are valued based on an option pricing model that uses observable market data for inputs. Significant market data inputs used to determine fair values included our common stock price, the risk-free interest rate, and the implied volatility of our common stock. The Call Options asset and the embedded cash conversion option liability were designed with the intent that changes in their fair values would substantially offset, with limited net impact to our earnings. Therefore, the sensitivity of changes in the unobservable inputs to the option pricing model for such instruments is substantially mitigated.

Our Level 3 instruments include non-marketable equity security investments. Under the measurement alternative, the carrying value is measured at cost, less any impairment, plus or minus changes resulting from observable price changes in orderly transactions for identical or similar investments of the same issuer. Adjustments are determined primarily based on a market approach as of the transaction date. Refer to Note 10 "Investments" for the change in non-marketable equity securities with Level 3 inputs during the years ended December 31, 2023 and 2022.

Our Level 3 instruments also include contingent consideration liabilities. We value contingent consideration liabilities using unobservable inputs, applying the income approach, such as the discounted cash flow technique or the probability-weighted scenario method. Contingent consideration arrangements obligate us to pay the sellers of an acquired entity if specified future events occur or conditions are met, such as the achievement of technological or revenue milestones. We use various key assumptions, such as the probability of achievement of the milestones (0% to 100%) and the discount rate (between 6.5% and 6.6%), to represent the non-performing risk factors and time value when applying the income

## Notes to the Consolidated Financial Statements

approach. We regularly review the fair value of the contingent consideration and reflect any change in the accrual in the consolidated statements of income in the line items commensurate with the underlying nature of milestone arrangements.

For contingent consideration liabilities with Level 3 inputs, the following table summarizes the activity for the years ended December 31, 2023 and 2022, all of which is related to the 2018 acquisition of STAT-Dx:

(in thousands)	2023	2022
Balance at beginning of year	(\$18,088)	(\$24,100)
Changes in fair value	(271)	112
Payments	—	5,900
<b>Balance at end of year</b>	<b>(\$18,359)</b>	<b>(\$18,088)</b>

As of December 31, 2023, \$18.4 million was accrued for contingent consideration and is included in accrued and other current liabilities in the accompanying consolidated balance sheet. As of December 31, 2022, \$18.1 million was accrued for contingent consideration, of which \$8.2 million was included in accrued and other current liabilities and \$9.9 million was included in other long-term liabilities in the accompanying consolidated balance sheet.

The estimated fair value of long-term debt, as disclosed in Note 16 "Debt," was based on current interest rates for similar types of borrowings. The estimated fair values may not represent actual values of the financial instruments that could be realized as of the balance sheet date or that will be realized in the future.

The fair values of the financial instruments are presented in Note 16 "Debt" and were determined as follows:

*Cash Convertible Notes and Convertible Notes:* Fair value is based on an estimation using available over-the-counter market information on the Cash Convertible Notes due in 2024 as well as the Convertible Notes due in 2027.

*German Private Placements:* Fair value is based on an estimation using changes in the euro swap rates.

There were no adjustments in the years ended December 31, 2023 and 2022 for nonfinancial assets or liabilities required to be measured at fair value on a nonrecurring basis.

## Notes to the Consolidated Financial Statements

### 16. Debt

At December 31, 2023 and 2022, total long-term debt, net of debt issuance costs of \$4.0 million and \$6.6 million, respectively, consists of the following:

(in thousands)	2023	2022
0.500% Senior Unsecured Cash Convertible Notes due 2023	\$—	\$389,552
1.000% Senior Unsecured Cash Convertible Notes due 2024	483,019	464,331
0.000% Senior Unsecured Convertible Notes due 2027	497,869	497,336
German Private Placement (2017 Schuldschein)	120,956	116,699
German Private Placement (2022 Schuldschein)	407,950	393,532
<b>Total long-term debt</b>	<b>1,509,794</b>	<b>1,861,450</b>
Less: Current portion	587,970	389,552
<b>Long-term portion</b>	<b>\$921,824</b>	<b>\$1,471,898</b>

The notes are all unsecured obligations that rank pari passu. No Contingent Conversion Conditions were triggered as of December 31, 2023.

Repayments of long-term debt for the years ended December 31, 2023, 2022 and 2021 consisted of:

(in thousands)	2023	2022	2021
German Private Placement (2017 Schuldschein)	\$—	\$153,003	\$41,145
0.500% Senior Unsecured Cash Convertible Notes due 2023	400,000	—	—
0.875% Senior Unsecured Cash Convertible Notes due 2021	—	—	200
3.75% Series B Senior Notes due October 16, 2022	—	300,000	—
3.90% Series C Senior Notes due October 16, 2024	—	27,000	—
<b>Total repayment of long-term debt</b>	<b>\$400,000</b>	<b>\$480,003</b>	<b>\$41,345</b>

## Notes to the Consolidated Financial Statements

The principal amount, carrying amount and fair values of long-term debt instruments as of December 31, 2023 and 2022 are summarized below:

(in thousands)	Principal amount	Unamortized debt discount and issuance costs	Carrying amount	2023	
				Amount	Fair value Leveling
Cash Convertible Notes due 2024	\$500,000	(\$16,981)	\$483,019	\$513,500	Level 1
Convertible Notes due 2027	500,000	(2,131)	497,869	453,185	Level 1
German Private Placement (2017 Schuldschein)	121,009	(53)	120,956	118,978	Level 2
German Private Placement (2022 Schuldschein)	408,846	(896)	407,950	401,684	Level 2
	<b>\$1,529,855</b>	<b>(\$20,061)</b>	<b>\$1,509,794</b>	<b>\$1,487,347</b>	

(in thousands)	Principal amount	Unamortized debt discount and issuance costs	Carrying amount	2022	
				Amount	Fair value Leveling
Cash Convertible Notes due 2023	\$400,000	(\$10,448)	\$389,552	\$493,436	Level 1
Cash Convertible Notes due 2024	500,000	(35,669)	464,331	596,485	Level 1
Convertible Notes due 2027	500,000	(2,664)	497,336	471,545	Level 1
German Private Placement (2017 Schuldschein)	116,821	(122)	116,699	112,401	Level 2
German Private Placement (2022 Schuldschein)	394,638	(1,106)	393,532	378,302	Level 2
	<b>\$1,911,459</b>	<b>(\$50,009)</b>	<b>\$1,861,450</b>	<b>\$2,052,169</b>	

## Notes to the Consolidated Financial Statements

Future maturities of long-term debt stated at the carrying values as of December 31, 2023 are as follows:

Years ending December 31, (in thousands)	
2024	\$587,970
2025	56,836
2026	—
2027	614,800
2028	—
Thereafter	250,188
	<b>\$1,509,794</b>

Interest expense on long-term debt was \$52.4 million, \$55.1 million and \$50.7 million for the years ended December 31, 2023, 2022 and 2021, respectively.

Interest expense for the years ended December 31, 2023 and 2022 related to the 2027 Notes and the Cash Convertible Notes was comprised of the following:

(in thousands)	2023	2022
Coupon interest	\$4,169	\$7,000
Amortization of original issuance discount	27,341	30,170
Amortization of debt issuance costs	2,328	2,593
<b>Total interest expense related to the convertible notes</b>	<b>\$33,838</b>	<b>\$39,763</b>

### Convertible Notes due 2027

On December 17, 2020, we issued zero coupon convertible notes in an aggregate principal amount of \$500.0 million with a maturity date of December 17, 2027 (2027 Notes). The 2027 Notes carry no coupon interest. The net proceeds of the 2027 Notes totaled \$497.6 million, after payment of debt issuance costs of \$3.7 million.

In accounting for the issuance of the 2027 Notes in 2020 prior to the adoption of ASU 2020-06, we separated the 2027 Notes into liability and equity components. We allocated \$445.9 million of the 2027 Notes to the liability component, representing the fair value of a similar debt instrument that does not have an associated convertible feature; and \$54.1 million to the equity component, representing the conversion option, which did not meet the criteria for separate accounting as a derivative as it is indexed to our own stock. ASU 2020-06 was adopted on January 1, 2021, and this

## Notes to the Consolidated Financial Statements

resulted in a decrease of \$54.1 million to additional paid-in capital and an increase of \$0.3 million to retained earnings for the conversion feature related to the liability for the 2027 Notes.

The effective interest rate of the 2027 Notes is 1.65%, which is imputed based on the amortization of the fair value of the embedded conversion option over the remaining term of the 2027 Notes.

The 2027 Notes are convertible into common shares based on an initial conversion rate, subject to adjustment, of 2,477.65 shares per \$200,000 principal amount of notes (which represented an initial conversion price of \$80.7218 per share or 6.2 million underlying shares). Following the January 2024 synthetic share repurchase discussed in Note 18 "Equity," the adjusted conversion rate became 2,475.26 shares per \$200,000 principal amount of notes, which represents an adjusted conversion price per share of \$80.7996. At conversion, we will settle the 2027 Notes by repaying the principal portion in cash and any excess of the conversion value over the principal amount in shares of common shares.

The notes may be redeemed at the option of each noteholder at their principal amount on December 17, 2025 or in connection with a change of control or delisting event (as further described in the 2027 Notes).

The 2027 Notes are convertible in whole, but not in part, at the option of the noteholders on a net share settlement basis, at the prevailing conversion price, in the following circumstances beginning after January 27, 2021 through June 16, 2027:

- if the last reported sale price of our common shares for at least 20-consecutive trading days during a period of 30-consecutive trading days ending on the last trading day of the immediately preceding calendar quarter is greater than or equal to 130% of the conversion price on each applicable trading day; or
- if we undergo certain fundamental changes, including a change of control, as defined in the agreement; or
- if a parity event or trading price unavailability event, as the case may be, occurs during the period of 10 days, including the first business day following the relevant trading price notification date; or
- if we distribute assets or property to all or substantially all of the holders of our common shares and those assets or other property have a value of more than 25% of the average daily volume-weighted average trading price of our common shares for the prior 20 consecutive trading days; or
- in case of early redemption in respect of the outstanding notes at our option, where the conversion date falls in the period from (and including) the date on which the call notice is published to (and including) the 45th business day prior to the redemption date; or

## Notes to the Consolidated Financial Statements

- if we experience certain customary events of default, including defaults under certain other indebtedness, until such event of default has been cured or waived.

The noteholders may convert their notes at any time, without condition, on or after June 17, 2027 until the 45th business day prior to December 17, 2027.

No Contingent Conversion Conditions were triggered for the 2027 Notes as of December 31, 2023 or December 31, 2022.

### Cash Convertible Notes due 2023 and 2024

On September 13, 2017, we issued \$400.0 million aggregate principal amount of Cash Convertible Senior Notes which were due and repaid in September 2023 (2023 Notes). The net proceeds of the 2023 Notes were \$365.6 million, after payment of the net cost of the Call Spread Overlay described below and transaction costs.

On November 13, 2018, we issued \$500.0 million aggregate principal amount of Cash Convertible Senior Notes which is due in 2024 (2024 Notes). The net proceeds of the 2024 Notes were \$468.9 million, after payment of the net cost of the Call Spread Overlay described below and transaction costs.

We refer to the 2023 Notes and 2024 Notes, collectively as the "Cash Convertible Notes."

Interest on the Cash Convertible Notes is payable semi-annually in arrears and will mature on the maturity date unless repurchased or converted with their terms prior to such date. The interest rate and corresponding maturity of each Note are summarized in the table below. The Cash Convertible Notes that remain outstanding as of December 31, 2023 are solely convertible into cash in whole, but not in part, at the option of noteholders under the circumstances described below and during the contingent conversion periods as shown in the table below.

Cash convertible notes	Annual interest rate	Date of interest payments	Maturity date	Contingent conversion period	Conversion rate per \$200,000 principal amount <sup>(1)</sup>
2024 Notes	1.000%	May 13 and November 13	November 13, 2024	From December 24, 2018 to August 2, 2024	4,360.3098

<sup>(1)</sup> Following the January 2024 synthetic share repurchase discussed in Note 18 "Equity," the conversion rate was adjusted to 4,356.8531.

Additionally, conversion may occur at any time following a Contingent Conversion Period through the fifth business day immediately preceding the applicable maturity date.

Upon conversion, noteholders will receive an amount in cash equal to the Cash Settlement Amount, calculated as described below. The Cash Convertible Notes are not convertible into shares of our common stock or any other securities.

## Notes to the Consolidated Financial Statements

Noteholders may convert Cash Convertible Notes into cash at their option at any time during the Contingent Conversion Periods described above only under the following circumstances (Contingent Conversion Conditions):

- if the last reported sale price of our common shares for at least 20-consecutive trading days during a period of 30-consecutive trading days ending on the last trading day of the immediately preceding calendar quarter is greater than or equal to 130% of the conversion price on each applicable trading day;
- if we undergo certain fundamental changes, including a change of control, as defined in the agreement; or
- if a parity event or trading price unavailability event, as the case may be, occurs during the period of 10 days, including the first business day following the relevant trading price notification date; or
- if we elect to distribute assets or property to all or substantially all of the holders of our common shares and those assets or other property have a value of more than 25% of the average daily volume-weighted average trading price of our common shares for the prior 20 consecutive trading days; or
- if we elect to redeem the Cash Convertible Notes; or
- if we experience certain customary events of default, including defaults under certain other indebtedness until such event has been cured or waived or the payment of the Cash Convertible Notes have been accelerated.

For the 2023 Notes, the Contingent Conversion Period expired on March 13, 2023 and, as of March 31, 2023, the Contingent Conversion Conditions for the 2023 Notes could no longer be triggered. No Contingent Conversion Conditions were triggered for the 2023 Notes as of December 31, 2022.

No Contingent Conversion Conditions were triggered for the 2024 Notes as of December 31, 2023 or December 31, 2022.

The Contingent Conversion Conditions in the 2023 Notes and 2024 Notes noted above have been analyzed under ASC 815, Derivatives and Hedging, and, based on our analysis, we determined that each of the embedded features listed above are clearly and closely related to the 2023 Notes and 2024 Notes (i.e., the host contracts). As a result, pursuant to the accounting provisions of ASC 815, Derivatives and Hedging, these features noted above are not required to be bifurcated as separate instruments.

Upon conversion, holders are entitled to a cash payment (Cash Settlement Amount) equal to the average of the conversion rate multiplied by the daily volume-weighted average trading price for our common shares over a 50-day period. The conversion rate is subject to adjustment in certain instances but will not be adjusted for any accrued and unpaid interest. In addition, following the occurrence of certain corporate events that may occur prior to the applicable maturity date, we may

## Notes to the Consolidated Financial Statements

be required to pay a cash make-whole premium by increasing the conversion rate for any holder who elects to convert Cash Convertible Notes in connection with the occurrence of such a corporate event.

We may redeem the Cash Convertible Notes in their entirety at a price equal to 100% of the principal amount of the applicable Cash Convertible Notes plus accrued interest at any time when 20% or less of the aggregate principal amount of the applicable Cash Convertible Notes originally issued remain outstanding.

Because the Cash Convertible Notes contain an embedded cash conversion option, we have determined that the embedded cash conversion option is a derivative financial instrument, which is required to be separated from the Cash Convertible Notes and accounted for separately as a derivative liability, with changes in fair value reported in our consolidated statements of income until the cash conversion option transaction settles or expires. The initial fair value liability of the embedded cash conversion option was \$74.5 million for the 2023 Notes and \$98.5 million for the 2024 Notes, which simultaneously reduced the carrying value of the Cash Convertible Notes (effectively serving as an original issuance discount). For further discussion of the derivative financial instruments relating to the Cash Convertible Notes, refer to Note 14 "Derivatives and Hedging."

As noted above, the reduced carrying value on the Cash Convertible Notes resulted in a debt discount that is amortized to the principal amount through the recognition of non-cash interest expense using the effective interest method over the expected life of the debt, six years for both the 2023 Notes and 2024 Notes. This resulted in our recognition of interest expense on the Cash Convertible Notes at an effective rate approximating what we would have incurred had nonconvertible debt with otherwise similar terms been issued. The effective interest rate is 3.997% for 2023 Notes and 4.782% for the 2024 Notes, which is imputed based on the amortization of the fair value of the embedded cash conversion option over the remaining term of the Cash Convertible Notes.

We incurred approximately \$6.2 million and \$5.7 million in transaction costs for the 2023 Notes and 2024 Notes, respectively. Such costs have been allocated to the Cash Convertible Notes and deferred and are being amortized to interest expense over the terms of the Cash Convertible Notes using the effective interest method.

### Cash Convertible Notes Call Spread Overlay

Concurrent with the issuance of the Cash Convertible Notes, we entered into privately negotiated hedge transactions (Call Options) with, and issued warrants to purchase shares of our common stock (Warrants) to, certain financial institutions. We refer to the Call Options and Warrants collectively as the "Call Spread Overlay." The Call Options are intended to offset any cash payments payable by us in excess of the principal amount due upon any conversion of the Cash Convertible Notes. The Call Options are derivative financial instruments and are discussed further in Note 14 "Derivatives and Hedging." The Warrants are equity instruments and are further discussed in Note 18 "Equity."

## Notes to the Consolidated Financial Statements

Aside from the initial payment of a premium, we will not be required to make any cash payments under the Call Options, and will be entitled to receive an amount of cash, generally equal to the amount by which the market price per share of our common shares exceeds the exercise price of the Call Options during the relevant valuation period. The exercise price under the Call Options is initially equal to the conversion price of the Cash Convertible Notes.

During the third quarter of 2023, we received \$36.8 million in cash upon the exercise of Call Options in connection with the repayment of 2023 Notes. In the same transaction, we paid \$36.8 million for the intrinsic value of the 2023 Notes' embedded conversion option.

The Warrants that were issued with our Cash Convertible Notes, could have a dilutive effect to the extent that the price of our common stock exceeds the applicable strike price of the Warrants. For each Warrant that is exercised, we will deliver to the holder a number of shares of our common stock equal to the amount by which the settlement price exceeds the exercise price, plus cash in lieu of any fractional shares. We will not receive any proceeds if the Warrants are exercised.

### U.S. Private Placement

On October 16, 2012, we completed a private placement through the issuance of new senior unsecured notes at a total amount of \$400.0 million with a weighted average interest rate of 3.66% (settled on October 16, 2012). The notes were issued in three series: (1) \$73.0 million 7-year term due and paid on October 16, 2019 (3.19%); (2) \$300.0 million 10-year term due and paid on October 16, 2022 (3.75%); and (3) \$27.0 million 12-year term due on October 16, 2024 (3.90%) but called and paid in October 2022. We paid \$2.1 million in debt issuance costs which were amortized through interest expense using the effective interest method over the lifetime of the notes. The note purchase agreement contained certain financial and non-financial covenants, including but not limited to, restrictions on priority indebtedness and the maintenance of certain financial ratios. We were in compliance with these covenants at December 31, 2022. During 2014, we entered into interest rate swaps, which effectively fixed the fair value of \$200.0 million of this debt. The interest rate swaps expired in October 2022 following the repayments of \$127.0 million in 2022 and \$73.0 million in 2019. These interest rate swaps qualify for hedge accounting as fair value hedges as further described in Note 14 "Derivatives and Hedging."

### German Private Placement (2017 Schuldschein)

In 2017, we completed a German private placement bond (2017 Schuldschein) which was issued in several tranches totaling \$331.1 million due in various periods through 2027. In the first quarter of 2021, we repaid \$41.1 million for two tranches that matured. In October 2022, we repaid \$153.0 million for the four tranches that matured. The euro tranches are designated as a foreign currency non-derivative hedging instrument that qualifies as a net investment hedge as described in Note 14 "Derivatives and Hedging." Based on the spot rate method, the change in the carrying value of the euro-denominated tranches attributed to the net investment hedge as of December 31, 2023 totaled \$1.0 million of

## Notes to the Consolidated Financial Statements

unrealized gain and is recorded in equity. We paid \$1.2 million in debt issuance costs which are being amortized through interest expense over the lifetime of the notes.

A summary of the tranches is as follows:

Currency	Notional amount	Interest rate	Maturity	Carrying value (in thousands) as of December 31,	
				2023	2022
EUR	€64.0 million	Fixed 1.09%	June 2024	\$70,704	\$68,215
EUR	€31.0 million	Floating EURIBOR + 0.7%	June 2024	34,247	33,041
EUR	€14.5 million	Fixed 1.61%	June 2027	16,005	15,443
				<b>\$120,956</b>	<b>\$116,699</b>

### German Private Placement (2022 Schuldschein)

In July and August 2022, we completed another German private placement bond (2022 Schuldschein) which was issued in several tranches totaling €370.0 million due in various periods through 2035. The 2022 Schuldschein consists of euro-denominated tranches which have either a fixed or floating rate. All tranches except for the €70.0 million fixed 3.04% tranche due August 2035 are ESG-linked wherein the interest rate is subject to adjustment of +/- 0.025% if our ESG rating changes. The euro tranches are designated as a foreign currency non-derivative hedging instrument that qualifies as a net investment hedge as described in Note 14 "Derivatives and Hedging." Based on the spot rate method, the change in the carrying value of the euro-denominated tranches attributed to the net investment hedge as of December 31, 2023 totaled \$36.2 million of unrealized loss and is recorded in equity. We paid \$1.2 million in debt issuance costs which are being amortized through interest expense using the effective interest method over the lifetime of the notes.

## Notes to the Consolidated Financial Statements

A summary of the tranches is as follows:

Currency	Notional amount	Interest rate	Maturity	Carrying value (in thousands) as of December 31,	
				2023	2022
EUR	€51.5 million	Floating 6M EURIBOR + 0.55%	July 2025	\$56,836	\$54,803
EUR	€62.0 million	Fixed 2.741%	July 2027	68,388	65,967
EUR	€29.5 million	Floating 6M EURIBOR + 0.70%	July 2027	32,539	31,388
EUR	€37.0 million	Fixed 3.044%	July 2029	40,803	39,365
EUR	€103.0 million	Floating 6M EURIBOR + 0.85%	July 2029	113,586	109,585
EUR	€9.5 million	Fixed 3.386%	July 2032	10,475	10,107
EUR	€7.5 million	Floating 6M EURIBOR + 1.0%	July 2032	8,269	7,979
EUR	€70.0 million	Fixed 3.04%	August 2035	77,054	74,338
				<b>\$407,950</b>	<b>\$393,532</b>

### Revolving Credit Facility

Our credit facilities available and undrawn at December 31, 2023 total €413.0 million (approximately \$456.4 million). This includes a €400.0 million syndicated ESG-linked revolving credit facility expiring December 2025 and two other lines of credit amounting to €13.0 million with no expiration date. The €400.0 million facility can be utilized in euro and bears interest of 0.550% to 1.500% above EURIBOR, and is offered with interest periods of one, three or six months. The commitment fee is calculated based on 35% of the applicable margin. Commitment fees of \$0.9 million were paid in each of the years ended December 31, 2023 and 2022. The revolving facility agreement contains certain financial and non-financial covenants including, but not limited to, restrictions on the encumbrance of assets and the maintenance of certain financial ratios. We were in compliance with these covenants at December 31, 2023. The credit facilities are for general corporate purposes and no amounts were utilized at December 31, 2023.

## Notes to the Consolidated Financial Statements

### 17. Income Taxes

Income before income tax expense for the years ended December 31, 2023, 2022 and 2021 consisted of:

(in thousands)	2023	2022	2021
Pretax income in the Netherlands	\$18,591	\$14,551	\$7,062
Pretax income from foreign operations	411,218	498,050	618,771
<b>Total income before income tax expense</b>	<b>\$429,809</b>	<b>\$512,601</b>	<b>\$625,833</b>

Income tax expense for the years ended December 31, 2023, 2022 and 2021 are as follows:

(in thousands)	2023	2022	2021
Current:			
The Netherlands	\$11,393	\$9,672	\$1,714
Foreign	66,382	89,321	116,808
	77,775	98,993	118,522
Deferred:			
The Netherlands	(5,535)	(683)	(1,776)
Foreign	16,266	(8,920)	(3,512)
	10,731	(9,603)	(5,288)
<b>Total income tax expense</b>	<b>\$88,506</b>	<b>\$89,390</b>	<b>\$113,234</b>

The Netherlands' statutory income tax rate, the income tax rate of our country of domicile, was 25.8% for the years ended December 31, 2023 and 2022 and 25% for the year ended December 31, 2021. Income from foreign subsidiaries is generally taxed at the statutory income tax rates applicable in the respective countries of domicile.

## Notes to the Consolidated Financial Statements

The principal items comprising the differences between income taxes computed at the Netherlands' statutory income tax rate and our effective tax rate for the years ended December 31, 2023, 2022 and 2021 are as follows:

	2023	2022	2021
The Netherlands' statutory income tax rate	25.8%	25.8%	25.0%
Taxation of foreign operations, net <sup>(1)</sup>	(7.6)	(4.9)	(3.0)
Unrecognized tax benefits <sup>(2)</sup>	3.1	0.9	1.6
Excess tax benefit related to share-based compensation	(0.3)	(0.5)	(1.0)
Prior year taxes	0.3	(1.1)	0.6
Government incentives <sup>(3)</sup>	(1.0)	(0.5)	(0.6)
Changes in tax laws and rates	0.2	(0.2)	(0.4)
Tax impact from nondeductible (deductible) items	1.3	(1.9)	0.2
Valuation allowance	(1.8)	0.0	(4.4)
Other items, net	0.6	(0.2)	0.1
<b>Effective tax rate</b>	<b>20.6%</b>	<b>17.4%</b>	<b>18.1%</b>

<sup>(1)</sup> Our effective tax rate reflects our global operations where certain income or loss is taxed at rates higher or lower than the Netherlands' statutory income tax rate as well as the benefit of some income being partially exempt from income taxes. These foreign tax benefits are due to a combination of favorable tax laws, regulations and exemptions in certain jurisdictions. Partial tax exemptions exist on foreign income primarily derived from operations in Germany. Further, we have intercompany financing arrangements in which the intercompany income is nontaxable in Dubai or partially exempt or subject to lower statutory income tax rates.

<sup>(2)</sup> Unrecognized tax benefits include the impact from reassessment of accruals for tax contingencies, primarily related to ongoing taxing authority examinations.

<sup>(3)</sup> Government incentives include tax credits in the U.S. relating to research and development expense.

We conduct business globally and, as a result, file numerous consolidated and separate income tax returns in the Netherlands, Germany and the U.S. federal jurisdiction, as well as in various other state and foreign jurisdictions. In the normal course of business, we are subject to examination by taxing authorities throughout the world. Tax years in the Netherlands are potentially open back to 2011 for income tax examinations by the Netherlands taxing authority. The German group is open to examination for the tax years starting in 2017 and in 2022, the German taxing authority commenced an examination covering the 2017 to 2019 tax years. The U.S. consolidated group is subject to federal and most state income tax examinations by taxing authorities beginning with the year ending December 31, 2020 through the current period. In late 2023, the U.S. Internal Revenue Service commenced a U.S. federal income tax examination for the periods 2014 to 2020. The examination was triggered by our 5-year net operating loss carryback under the CARES Act.

## Notes to the Consolidated Financial Statements

Our other subsidiaries, with few exceptions, are no longer subject to income tax examinations by taxing authorities for years before 2019.

Changes in the amount of unrecognized tax benefits for the years ended December 31, 2023, 2022 and 2021 are as follows:

(in thousands)	2023	2022	2021
Balance at beginning of year	\$79,283	\$103,618	\$100,092
Additions based on tax positions related to the current year	9,632	9,754	6,629
Additions for tax positions of prior years	7,839	4,544	5,036
Decrease for tax position of prior years	(3,832)	(8,958)	(266)
Decrease related to settlements	(119)	(23,346)	—
Decrease due to lapse of statute of limitations	—	(580)	(344)
Increase (decrease) from currency translation	2,755	(5,749)	(7,529)
<b>Balance at end of year</b>	<b>\$95,558</b>	<b>\$79,283</b>	<b>\$103,618</b>

At December 31, 2023 and 2022, our net unrecognized tax benefits totaled approximately \$95.6 million and \$79.3 million, respectively, which, if recognized, would favorably affect our effective tax rate in any future period. It is reasonably possible that approximately \$30.8 million of the unrecognized tax benefits may be released or utilized during the next 12 months due to lapse of statute of limitations or settlements with taxing authorities. However, various events could cause our current expectations to change in the future. The above unrecognized tax benefits, if ever recognized in the financial statements, would be recorded in the statements of income as part of income tax expense.

Our policy is to recognize interest accrued related to income taxes in interest expense and penalties within income tax expense. For the years ended December 31, 2023, 2022 and 2021, we recognized income for interest and penalties of \$0.4 million, \$0.4 million and \$0.6 million, respectively. At December 31, 2023 and 2022, we have accrued interest and penalties of \$3.3 million and \$3.5 million, respectively, which are not included in the table above.

## Notes to the Consolidated Financial Statements

At December 31, 2023 and 2022, in the consolidated balance sheets, we have recorded deferred tax assets of \$38.6 million and \$56.3 million in other long-term assets and deferred tax liabilities of \$12.8 million and \$17.5 million in other long-term liabilities, respectively. The components of the net deferred tax assets at December 31, 2023 and 2022 are as follows:

(in thousands)	2023	2022
Deferred tax assets:		
Net operating loss and tax credit carryforwards	\$42,944	\$53,155
Intangible assets	30,084	33,510
Accrued and other liabilities	25,375	27,544
Share-based compensation	25,598	21,792
Property, plant and equipment	2,249	4,032
Convertible notes	2,173	3,621
Inventories	4,268	3,003
Disallowed interest carryforwards	1,157	1,511
Other	7,133	6,479
Total deferred tax assets before valuation allowance	140,981	154,647
Valuation allowance	(13,214)	(21,265)
Total deferred tax assets, after valuation allowance	\$127,767	\$133,382
Deferred tax liabilities:		
Intangible assets	(\$50,723)	(\$55,921)
Property, plant and equipment	(46,536)	(33,847)
Inventories	(579)	(820)
Other	(4,178)	(3,997)
Total deferred tax liabilities	(\$102,016)	(\$94,585)
<b>Deferred tax assets, net</b>	<b>\$25,751</b>	<b>\$38,797</b>

## Notes to the Consolidated Financial Statements

As of December 31, 2023, the valuation allowance principally relates to net operating loss carryforwards. A deferred tax asset can only be recognized to the extent it is "more likely than not" that the assets will be realized. Judgments around realizability depend on the availability and weight of both positive and negative evidence.

At December 31, 2023, we had \$486.4 million in total net operating loss (NOL) carryforwards which included \$144.1 million for the U.S., \$237.3 million for Germany, \$30.5 million for the U.K., \$15.2 million for the Netherlands, and \$59.3 million for other foreign jurisdictions. The NOL carryforwards in Germany, the Netherlands and the U.K. carryforward indefinitely. The entire NOL carryforward in the U.S. is subject to limitations under Section 382 of the U.S. Internal Revenue Code which limits the amount that can be used each year. The NOL carryforwards in the U.S. expire between 2024 and 2034. NOL carryforwards of \$21.3 million in other foreign jurisdictions expire between 2024 and 2031 while the remainder can be carried forward indefinitely. At December 31, 2023, tax credits total \$6.7 million and expire between 2032 and 2041.

The changes in the valuation allowance for the years ended December 31, 2023, 2022 and 2021 were as follows:

(in thousands)	2023	2022	2021
Balance at beginning of year	(\$21,265)	(\$21,326)	(\$37,332)
Additions charged to income tax expense	(2,015)	(4,470)	(620)
Deductions charged to income tax expense	9,719	4,287	28,251
Additions charged to additional paid-in capital	—	—	(13,513)
Currency translation	347	244	1,888
<b>Balance at end of year</b>	<b>(\$13,214)</b>	<b>(\$21,265)</b>	<b>(\$21,326)</b>

In 2021, \$13.5 million of the valuation allowance, which had been established in additional paid-in capital in 2020 related to the 2027 Convertible Notes, was reversed due to adopting ASU 2020-06.

As of December 31, 2023, a deferred tax liability has not been recognized for residual income taxes in the Netherlands on the undistributed earnings of the majority of our foreign subsidiaries as these earnings are considered to be either indefinitely reinvested or can be repatriated tax free under the Dutch participation exemption. The indefinitely reinvested earnings retained by our subsidiaries that would be subject to tax if distributed amounted to \$1.2 billion at December 31, 2023. Estimating the amount of the unrecognized deferred tax liability on indefinitely reinvested foreign earnings is not practicable. Should the earnings be remitted as dividends, we may be subject to taxes including withholding tax. We have \$14.5 million of undistributed earnings that we do not consider indefinitely reinvested and have recorded a deferred tax liability at December 31, 2023 and 2022 of \$0.7 million and \$1.0 million, respectively.

## Notes to the Consolidated Financial Statements

# 18. Equity

### Shares

The authorized classes of our shares consist of Common Shares (410 million authorized), Preference Shares (450 million authorized) and Financing Preference Shares (40 million authorized). All classes of shares have a par value of €0.01. No Financing Preference Shares or Preference Shares have been issued. Common Shares are translated to U.S. dollars at the foreign exchange rates in effect when the shares are issued.

### Synthetic Share Repurchase

In January 2024, we completed a synthetic share repurchase that combined a direct capital repayment with a reverse stock split. The transaction was announced on January 7, 2024 and involved an approach used by various large, multinational Dutch companies to provide returns to all shareholders in a faster and more efficient manner than traditional open-market repurchases. \$295.2 million was returned to shareholders through the transaction, which reduced the total number of issued Common Shares by approximately 3% to 223.9 million (of which 2.5 million Common Shares are held in Treasury Shares) as of January 31, 2024.

### Issuance and Conversion of Warrants

In connection with the issuance of the Cash Convertible Notes as described in Note 16 "Debt," we issued Warrants as summarized in the table below. The number of warrants and exercise prices are subject to customary adjustments under certain circumstances. The proceeds, net of issuance costs, from the sale of the Warrants are included as additional paid-in capital in the accompanying consolidated balance sheets.

The Warrants are exercisable only upon expiration. For each Warrant that is exercised, we will deliver to the holder a number of shares of our common stock equal to the amount by which the settlement price exceeds the exercise price, divided by the settlement price, plus cash in lieu of any fractional shares. The Warrants could separately have a dilutive effect on shares of our common stock to the extent that the market value per share of our common stock exceeds the applicable exercise price of the Warrants (as measured under the terms of the Warrants).

## Notes to the Consolidated Financial Statements

Cash convertible notes	Issued on	Number of share warrants issued (in millions)	Weighted average exercise price per share	Proceeds from issuance of warrants, net of issuance costs (in millions)	Warrants expire over a period of 50 trading days beginning on
2023 Notes	September 13, 2017	9.7	\$49.9775	\$45.3	June 26, 2023
2024 Notes	November 13, 2018	10.9	\$50.2947	\$72.4	August 27, 2024

All Warrants related to the 2023 Notes that matured in September 2023 expired unexercised. Following the January 2024 synthetic share repurchase discussed above, the adjusted weighted average exercise price per share for the 2024 Notes is \$50.3346.

### Share Repurchase Programs

On July 12, 2021, we announced our seventh share repurchase program of up to \$100 million of our common shares. During 2021, we repurchased 1.9 million QIAGEN shares for \$100.0 million (including transaction costs). This program ended on October 29, 2021.

The cost of repurchased shares is included in treasury stock and reported as a reduction in total equity when a repurchase occurs. Repurchased shares will be held in treasury in order to satisfy various obligations, which include exchangeable debt instruments, warrants and employee share-based remuneration plans.

### Accumulated Other Comprehensive Loss

The following table is a summary of the components of accumulated other comprehensive loss as of December 31, 2023 and 2022:

(in thousands)	2023	2022
Net unrealized loss on hedging contracts, net of tax	(\$37,372)	(\$15,637)
Net unrealized gain on pension, net of tax	812	645
Foreign currency effects from intercompany long-term investment transactions, net of tax benefits of \$13.2 million in 2023 and 2022	(33,648)	(33,311)
Foreign currency translation adjustments	(363,622)	(355,788)
<b>Accumulated other comprehensive loss</b>	<b>(\$433,830)</b>	<b>(\$404,091)</b>

Notes to the Consolidated Financial Statements

## 19. Earnings Per Common Share

We present basic and diluted earnings per common share. Basic earnings per common share is calculated by dividing the net income by the weighted average number of common shares outstanding. Diluted earnings per common share reflect the potential dilution of earnings that would occur if all "in the money" securities to issue common shares were exercised.

The following schedule summarizes the information used to compute earnings per common share for the years ended December 31, 2023, 2022 and 2021:

(in thousands, except per share data)	2023	2022	2021
Net income	\$341,303	\$423,211	\$512,599
Weighted average number of common shares used to compute basic earnings per common share	228,146	227,577	227,983
Dilutive effect of outstanding stock options and restricted stock units	2,473	2,555	3,403
Dilutive effect of outstanding warrants	—	4	648
<b>Weighted average number of common shares used to compute diluted earnings per common share</b>	<b>230,619</b>	<b>230,136</b>	<b>232,034</b>
Outstanding stock options and awards having no dilutive effect, not included in above calculation	1	146	8
Outstanding warrants having no dilutive effect, not included in above calculation	17,562	20,556	19,912
Basic earnings per common share	\$1.50	\$1.86	\$2.25
Diluted earnings per common share	\$1.48	\$1.84	\$2.21

For purposes of considering the 2027 Notes, as discussed further in Note 16 "Debt," in determining diluted earnings per common share, only an excess of the conversion value over the principal amount would have a dilutive impact using the treasury stock method. Since the 2027 Notes were out of the money and anti-dilutive during the period from January 1, 2021 through December 31, 2023, they were excluded from the diluted earnings per common share calculation in 2021, 2022 and 2023.

Notes to the Consolidated Financial Statements

## 20. Commitments and Contingencies

### Licensing and Purchase Commitments

We have licensing agreements with companies, universities and individuals, some of which require certain up-front payments. Royalty payments are required on net product sales ranging from 0.45 percent to 25 percent of covered products or based on quantities sold. Several of these agreements have minimum royalty requirements. The accompanying consolidated balance sheets include accrued royalties relating to these agreements in the amount of \$9.7 million and \$12.9 million at December 31, 2023 and 2022, respectively. Royalty expense relating to these agreements amounted to \$13.9 million, \$15.5 million, and \$18.5 million for the years ended December 31, 2023, 2022 and 2021, respectively. Royalty expense is primarily recorded in cost of sales, with a small portion recorded as research and development expense depending on the use of the technology under license. Some of these agreements also have minimum raw material purchase requirements and requirements to perform specific types of research.

At December 31, 2023, we had commitments to purchase goods or services and to make future license and royalty payments. They are as follows:

Years ending December 31, (in thousands)	Purchase commitments	License & royalty commitments
2024	\$37,396	\$1,926
2025	35,992	1,453
2026	13,150	783
2027	11,383	766
2028	903	560
Thereafter	—	1,729
	<b>\$98,824</b>	<b>\$7,217</b>

### Contingent Consideration Commitments

Pursuant to the purchase agreements for certain acquisitions, we could be required to make additional contingent cash payments for a previous business combination based on the achievement of certain FDA approval milestones. Potential milestone payments total \$20.7 million and may be triggered by the end of 2024. The total milestone payments of \$18.4 million is included in accrued and other current liabilities in the accompanying consolidated balance sheet as of December 31, 2023. Refer to Note 15 "Financial Instruments and Fair Value Measurements" for changes in the contingent consideration liabilities.

## Notes to the Consolidated Financial Statements

### Employment Agreements

Certain of our employment contracts contain provisions which guarantee payments in the event of a change in control, as defined in the agreements, or if the executive is terminated for reasons other than cause, as defined in the agreements. At December 31, 2023, the commitment under these agreements totaled \$11.5 million.

### Contingencies

In the ordinary course of business, we provide a warranty to customers that our products are free of defects and will conform to published specifications. Generally, the applicable product warranty period is one year from the date of delivery of the product to the customer or of site acceptance, if required. Additionally, we typically provide limited warranties with respect to our services. We provide for estimated warranty costs at the time of the product sale. The changes in the carrying amount of warranty obligations for the years ended December 31, 2023 and 2022 are as follows:

(in thousands)	2023	2022
Balance at beginning of year	\$4,899	\$6,324
Provision charged to cost of sales	3,947	4,606
Usage	(3,451)	(4,517)
Adjustments to previously provided warranties, net	(1,501)	(1,277)
Currency translation	50	(237)
<b>Balance at end of year</b>	<b>\$3,944</b>	<b>\$4,899</b>

### Litigation

From time to time, we may be party to legal proceedings incidental to our business. As of December 31, 2023, certain claims, suits or legal proceedings arising out of the normal course of business have been filed or were pending against QIAGEN N.V. or subsidiaries. These matters have arisen in the ordinary course and conduct of business as well as through acquisition. Because litigation is inherently unpredictable and unfavorable resolutions could occur, assessing litigation contingencies is highly subjective and requires judgments about future events. Although it is not possible to predict the outcome of such litigation, we assess the degree of probability and evaluate the reasonably possible losses that we could incur as a result of these matters. We accrue for any estimated loss when it is probable that a liability has been incurred and the amount of probable loss can be estimated. Litigation accruals recorded in accrued and other current liabilities as of December 31, 2023 and 2022 totaled \$4.8 million and \$6.5 million, respectively. As of December 31, 2023, \$4.7 million was accrued in other long-term liabilities in the accompanying consolidated balance sheet.

## Notes to the Consolidated Financial Statements

We are not party to any material legal proceeding as of the date of this report except for the matters listed below.

### Patent Litigation

#### Archer DX

In 2018, ArcherDX (a company which spun out as an independent company in conjunction with QIAGEN's acquisition of Enzymatics in 2015 and was later acquired by Invitae in 2021) and Massachusetts General Hospital (MGH) sued QIAGEN for patent infringement. In August 2021, a federal jury ruled that QIAGEN infringed two patents owned by ArcherDX and awarded damages of \$4.7 million which were accrued in 2021 and, as of December 31, 2023, are included in other long-term liabilities in the accompanying consolidated balance sheet. We filed an appeal in August 2023 after the verdict was entered.

#### Bio-Rad Laboratories, Inc.

In April 2022, QIAGEN filed a lawsuit in a U.S. federal court against Bio-Rad Laboratories, Inc. (Bio-Rad) seeking a declaratory judgment of non-infringement of certain Bio-Rad patents related to digital PCR technology. In July 2023, the parties agreed to a settlement that provided for a cross-licensing agreement granting each company mutual rights to their respective digital PCR technologies.

### Other Litigation Matters

For all other matters, a total of \$4.8 million is accrued as of December 31, 2023 in accrued and other current liabilities. The estimated range of possible losses for these other matters as of December 31, 2023 is between \$4.0 million and \$10.1 million.

Based on the facts known to QIAGEN and after consultation with legal counsel, management believes that such litigation will not have a material adverse effect on our financial position or results of operations above the amounts accrued. However, the outcome of these matters is ultimately uncertain. Any settlements or judgments against us in excess of management's expectations could have a material adverse effect on our financial position, results of operations or cash flows.

## 21. Segment Information

We operate as one operating segment. We have a common basis of organization, we make decisions with regards to business operations and resource allocation based on evaluations of QIAGEN as a whole and our products and services are offered globally. Product category and geographic information follows below.

## Notes to the Consolidated Financial Statements

### Product Category Information

Refer to Note 4 "Revenue" for disaggregation of revenue based on product categories, product type and customer class.

### Geographical Information

Net sales are attributed to countries based on the location of the customer. Our primary manufacturing facilities are located in Germany, China, and the United States and supply products to customers as well as to our subsidiaries in other countries. The intercompany portions of such net sales are excluded to derive consolidated net sales. No single customer represents more than ten percent of consolidated net sales. Our country of domicile is the Netherlands, which reported net sales of \$20.3 million, \$31.5 million and \$28.3 million for the years ended 2023, 2022 and 2021, respectively, and these amounts are included in the line item Europe, Middle East and Africa in the table below.

Net sales by geographical location for the years ended December 31, 2023, 2022 and 2021 are as follows:

(in thousands)	2023	2022	2021
Americas:			
United States	\$935,281	\$909,616	\$909,690
Other Americas	84,774	88,139	97,686
Total Americas	1,020,055	997,755	1,007,376
Europe, Middle East and Africa	624,573	733,469	814,417
Asia Pacific, Japan and Rest of World	320,683	410,294	429,864
<b>Total net sales</b>	<b>\$1,965,311</b>	<b>\$2,141,518</b>	<b>\$2,251,657</b>

## Notes to the Consolidated Financial Statements

Long-lived assets include property, plant and equipment. The Netherlands, which is included in the balances for Europe in the table below, reported long-lived assets of \$1.3 million and \$1.1 million as of December 31, 2023 and 2022, respectively.

Long-lived assets by geographical location as of December 31, 2023 and 2022 are as follows:

(in thousands)	2023	2022
Americas:		
United States	\$164,865	\$161,645
Other Americas	3,657	2,997
Total Americas	168,522	164,642
Europe, Middle East and Africa:		
Germany	496,386	400,009
Other Europe, Middle East and Africa	76,306	75,045
Total Europe, Middle East and Africa	572,692	475,054
Asia Pacific, Japan and Rest of World	23,823	22,474
<b>Total long-lived assets</b>	<b>\$765,037</b>	<b>\$662,170</b>

## 22. Share-Based Compensation

We adopted the QIAGEN N.V. Amended and Restated 2005 Stock Plan (the 2005 Plan) in 2005 and the QIAGEN N.V. 2014 Stock Plan (the 2014 Plan) in 2014. The 2005 Plan expired by its terms in April 2015 and no further awards will be granted under the 2005 Plan. The 2014 Plan expires in May 2024. The QIAGEN N.V. 2023 Stock Plan (the 2023 Plan) was approved at the June 2023 Annual General Meeting and at December 31, 2023, we had approximately 20.9 million Common Shares reserved and available for issuance under the 2005, 2014, and 2023 Plans.

The plans allow for the granting of stock rights and incentive stock options, as well as non-qualified options, stock grants and stock-based awards, generally with terms of up to 3 years, with previous grants through 2020 having terms of 5 years subject to earlier termination in certain situations. The vesting and exercisability of certain stock rights will be accelerated in the event of a Change of Control, as defined in the plans. All option grants were at the market value on the grant date

## Notes to the Consolidated Financial Statements

or at a premium above the closing market price on the grant date. We issue Treasury Shares to satisfy option exercises and award releases.

### Stock Units

Stock units represent rights to receive Common Shares at a future date and include restricted stock units which are subject to time-vesting only and performance stock units which include performance conditions in addition to time-vesting. The final number of performance stock units earned is based on the performance achievement which for some grants can reach up to 200% of the granted shares. There is no exercise price and the fair market value at the time of the grant is recognized over the requisite vesting period. The fair market value is determined based on the number of stock units granted and the market value of our shares on the grant date. Pre-vesting forfeitures were estimated to be approximately 6.0%. At December 31, 2023, there was \$59.8 million remaining in unrecognized compensation cost including estimated forfeitures related to these awards, which is expected to be recognized over a weighted average period of 1.34 years. The weighted average grant date fair value of stock units granted during the years ended December 31, 2023, 2022 and 2021 was \$44.37, \$45.49 and \$48.77, respectively. The total fair value of stock units that vested during the years ended December 31, 2023, 2022 and 2021 was \$39.4 million, \$55.8 million and \$52.6 million, respectively.

A summary of stock units as of December 31, 2023 and changes during the year are presented below.

Stock units	Number of stock units (in thousands)	Weighted average contractual term (in years)	Aggregate intrinsic value (in thousands)
Outstanding at January 1, 2023	3,771		
Granted	1,185		
Vested	(864)		
Forfeited	(77)		
<b>Outstanding at December 31, 2023</b>	<b>4,015</b>	<b>1.34</b>	<b>\$174,364</b>
Vested and expected to vest at December 31, 2023	3,744	1.29	\$162,610

We net share settle for the tax withholding upon the vesting of awards. Shares are issued on the vesting dates net of the applicable statutory tax withholding to be paid by us on behalf of our employees. As a result, fewer shares are issued than the number of stock units outstanding. We record a liability for the tax withholding to be paid by us as a reduction to treasury shares.

## Notes to the Consolidated Financial Statements

### Stock Options

We have not granted stock options since 2013. A summary of the status of employee stock options as of December 31, 2023 and changes during the year then ended is presented below.

Stock options	Number of shares (in thousands)	Weighted average exercise price
Outstanding at January 1, 2023	9	\$18.68
Exercised	(9)	\$18.68
<b>Outstanding at December 31, 2023</b>	<b>–</b>	<b>\$–</b>

The total intrinsic value of options exercised was \$0.2 million in each of the years ended December 31, 2023 and 2022 and \$14.4 million for the year ended December 31, 2021. The actual tax benefit for the tax deductions from option exercises totaled \$0.1 million in each of the years ended December 31, 2023 and 2022 and \$2.2 million during the year ended December 31, 2021. At December 31, 2023, there was no unrecognized share-based compensation expense related to employee stock option awards.

There were no options outstanding at December 31, 2023. At December 31, 2022 and 2021, 9 thousand and 18 thousand options were exercisable at a weighted average price of \$18.68 and \$17.79 per share, respectively.

## Notes to the Consolidated Financial Statements

### Compensation Expense

Share-based compensation expense before taxes for the years ended December 31, 2023, 2022 and 2021 totaled approximately \$47.1 million, \$49.5 million and \$38.4 million, respectively, as shown in the table below.

(in thousands)	2023	2022	2021
Cost of sales	\$3,296	\$2,577	\$40
Research and development	7,484	6,504	4,909
Sales and marketing	14,495	16,076	13,630
General and administrative	21,825	24,350	19,812
Share-based compensation expense	47,100	49,507	38,391
Less: Income tax benefit <sup>(1)</sup>	11,035	10,703	8,956
<b>Share-based compensation expense, after tax</b>	<b>\$36,065</b>	<b>\$38,804</b>	<b>\$29,435</b>

<sup>(1)</sup> Does not include the excess tax benefit realized for the tax deductions of the share-based payment arrangements which totaled \$1.3 million, \$2.7 million and \$6.5 million, respectively, for the years ended December 31, 2023, 2022 and 2021.

The lower share-based compensation expense in cost of sales in 2021 resulted from forfeitures upon the separation of an executive who received a cash severance payment in lieu of accelerated vesting upon separation per the terms of the arrangement. The cash separation accrual offset the share-based compensation forfeiture.

## 23. Employee Benefits

We maintain various benefit plans, including defined contribution and defined benefit plans. Our U.S. defined contribution plan is qualified under Section 401(k) of the Internal Revenue Code and covers substantially all U.S. employees. Participants may contribute a portion of their compensation not exceeding a limit set annually by the Internal Revenue Service. This plan includes a provision for us to match a portion of employee contributions. Total expenses under the 401(k) plans were \$4.5 million for each of the years ended December 31, 2023 and 2022 and \$4.3 million for the year ended December 31, 2021. We also have a defined contribution plan which covers certain executives. We make matching contributions up to an established maximum. Matching contributions made to the plan, and expensed, totaled approximately \$0.1 million for each of the years ended December 31, 2023 and 2022 and \$0.2 million for the year ended December 31, 2021.

## Notes to the Consolidated Financial Statements

We have seven defined benefit, non-contributory retirement or termination plans that cover certain employees in Germany, France, Italy, Japan, Poland, Philippines and the United Arab Emirates. These defined benefit plans provide benefits to covered individuals satisfying certain age and/or service requirements. For certain plans, we calculate the vested benefits to which employees are entitled if they separate immediately. The benefits accrued on a pro-rata basis during the employees' employment period are based on the individuals' salaries, adjusted for inflation. All defined benefit plans are unfunded. The liability under the defined benefit plans totaled \$7.4 million and \$7.2 million as of December 31, 2023 and 2022, respectively, and is included as a component of other long-term liabilities on the accompanying consolidated balance sheets.

### 24. Related Party Transactions

From time to time, we have transactions with other companies in which we hold an interest as summarized in the table below.

Net sales to related parties for the years ended December 31, 2023, 2022 and 2021 are as follows:

(in thousands)	2023	2022	2021
Net sales	\$9,039	\$8,474	\$9,089

As of December 31, 2023 and 2022, balances with related parties are as follows:

(in thousands)	2023	2022
Accounts receivable	\$2,890	\$5,136
Prepaid expenses and other current assets	\$78	\$11,929
Accounts payable	\$700	\$2,708
Accrued and other current liabilities	\$2,893	\$3,518

Prepaid expenses and other current assets include loan receivables and supplier advances from companies with which we have an investment or partnership interest.

As of December 31, 2022, prepaid expenses and other current assets included a \$10.6 million convertible note from Ellume Limited, Australia, which bears interest at 10% and was due on December 31, 2022. As of December 31, 2022, we retained the loan receivable, while fully reserved, as we awaited the outcome of voluntary administration and any creditor arrangement. During 2023, we had no possibility of collection from Ellume and no expectation of any recovery of the defaulted amount. Accordingly, the loan receivable was fully written off against the reserve in 2023. Additional

## Notes to the Consolidated Financial Statements

financial impacts of these proceedings with this related party for the fiscal year ended December 31, 2022 included a \$4.6 million write off on advances to suppliers and a \$12.8 million impairment loss on intangible assets, both recognized in restructuring, acquisition, integration and other, net in the accompanying consolidated statement of income. Refer to Note 11 "Goodwill and Intangible Assets."

### 25. Subsequent Event

In January 2024, we completed a synthetic share repurchase that combined a direct capital repayment with a reverse stock split as discussed in Note 18 "Equity."

# Appendices

## Memorandum and Articles of Association

We are a public company with limited liability (naamloze vennootschap) incorporated under Dutch law and registered with the Dutch Trade Register under file number 12036979. Set forth below is a summary of certain provisions of our Articles of Association, as lastly amended on January 29, 2024 (the Articles), and Dutch law, where appropriate. The below also contains information on provisions of the Dutch Corporate Governance Code 2022, (the Dutch Code), which contains principles of good corporate governance and best practice provisions that regulate relations between the Managing Board, the Supervisory Board and the Shareholders. The principles and provisions are aimed at defining responsibilities for sustainable long-term value creation, risk control, effective management and supervision, remuneration and the relationship with Shareholders, including the General Meeting, and other stakeholders. A listed company should either comply, or if not, explain in its management report why and to what extent it does not comply, with the principles of the Dutch Code. The Dutch Code has been taken into account in the summary below.

This summary does not purport to be complete and is qualified in its entirety by reference to the Articles, Dutch Law and the Dutch Code.

### Corporate Purpose

Our objectives include, without limitation, the performance of activities in the biotechnology industry, as well as incorporating, acquiring, participating in, financing, managing and having any other interest in companies or enterprises of any nature, raising and lending funds and such other acts as may be conducive to our business.

### Managing Directors

QIAGEN shall be managed by a Managing Board consisting of one or more Managing Directors under the supervision of the Supervisory Board. The Managing Board is responsible for our continuity and our affiliated enterprise. The Managing Board focuses on our sustainable long-term value creation and our affiliated enterprise, and takes into account the impact the actions of the

Company and its affiliated enterprise have on people and the environment as well as our stakeholders' interests that are relevant in this context, which include but are not limited to our shareholders. Managing Directors shall be appointed by the General Meeting upon the joint meeting of the Supervisory Board and the Managing Board (Joint Meeting), having made a binding nomination for each vacancy. However, the General Meeting may at all times overrule the binding nature of such a nomination by a resolution adopted by at least a two-thirds majority of the votes cast, if such majority represents more than half the issued share capital. This is different from the provisions of many American corporate statutes, including the Delaware General Corporation Law, which give the directors of a corporation greater authority in choosing the executive officers of a corporation. Under our Articles, the General Meeting may suspend or dismiss a Managing Director at any time by a resolution adopted by at least a two-thirds majority of the votes cast, if such majority represents more than half of the issued share capital, or by a simple majority of votes cast without any quorum requirements required to be satisfied, if the suspension or dismissal is proposed by the Joint Meeting. The Supervisory Board shall also at all times be entitled to suspend (but not to dismiss) a Managing Director. The Articles provide that the Supervisory Board may adopt management board rules governing the internal organization of the Managing Board.

Furthermore, the Supervisory Board shall determine the salary, the bonus, if any, and the other compensation terms and conditions of service of the Managing Directors within the scope of the remuneration policy. The current remuneration policy of the Managing Board was adopted in our Annual General Meeting on June 29, 2021.

Resolutions of the Managing Board shall be validly adopted, if adopted by simple majority of votes, at least one of whom voting in favor of the proposal must be the Chairman. Each Managing Director has the right to cast one vote.

Under Dutch law, in the event that there is a conflict of interest between a Managing Director and us and our business on a certain matter, that Managing Director shall not participate in the discussions and voting on that matter. If all Managing Directors have a conflict of interest, such resolution

## Appendices

shall be adopted by the Supervisory Board. If all Supervisory Directors have a conflict of interest as well, the General Meeting will be authorized to resolve on the matter. According to the Dutch Code, any conflict of interest or apparent conflict of interest between the Company and Managing Directors should be prevented. To avoid conflicts of interest, adequate measures should be taken. Under the Dutch Code, the Supervisory Board is responsible for the decision-making on dealing with conflicts of interest regarding Managing Directors, Supervisory Directors and majority shareholders in relation to us. A Managing Director should report any potential conflict of interest in a transaction that is of material significance to the Company and/or to such Managing Director to the Chairman of the Supervisory Board and to the other members of the Managing Board without delay. The Supervisory Board should decide, outside the presence of the Managing Director, whether there is a conflict of interest. All transactions in which there are conflicts of interest with Managing Directors shall be agreed on terms that are customary in the sector concerned. Decisions to enter into transactions under which a Supervisory Director would have a conflict of interest that are of material significance to QIAGEN and/or to the Managing Director concerned, require the approval of the Supervisory Board.

### Supervisory Directors

The Supervisory Board shall be responsible for supervising the policy pursued by the Managing Board and our general course of affairs. Under our Articles, the Supervisory Directors are required to serve the interests of our Company and our business and the interest of all stakeholders (which includes but is not limited to our shareholders) in fulfilling their duties. The Supervisory Board shall consist of such number of members as the Joint Meeting may from time to time determine, with a minimum of three members. The Supervisory Directors shall be appointed by the General Meeting upon the Joint Meeting having made a binding nomination for each vacancy. However, the General Meeting may at all times overrule the binding nature of such a nomination by a resolution adopted by at least a two-thirds majority of the votes cast, if such majority represents more than half the issued share capital. If during a financial year a vacancy occurs in the Supervisory Board, the Supervisory Board may appoint a Supervisory Director who will cease to hold office at the next Annual

General Meeting, provided that the number of Supervisory Directors that may be appointed in this manner is limited to one-third of the number of Supervisory Directors determined by the Joint Meeting. This is different from the provisions of many American corporate statutes, including the Delaware General Corporation Law, which provides that directors may vote to fill vacancies on the board of directors of a corporation. Under our Articles, the General Meeting may suspend or dismiss a Supervisory Director at any time by a resolution adopted by at least a two-thirds majority of the votes cast, if such majority represents more than half of the issued share capital, or by a simple majority of votes cast without any quorum requirements required to be satisfied, if the suspension or dismissal is proposed by the Joint Meeting.

Under Dutch law, in the event that there is a conflict of interest between a Supervisory Director and us and our business on a certain matter, that Supervisory Director shall not participate in the discussions and voting on that matter. Under the Dutch Code, a Supervisory Director should report any conflict of interest or potential conflict of interest in a transaction that is of material significance to the Company and/or to such Supervisory Director to the Chairman of the Supervisory Board without delay. The Supervisory Board should decide, outside the presence of the Supervisory Director concerned, whether there is a conflict of interest. If all Supervisory Directors have a conflict of interest, the relevant resolution shall be adopted by the General Meeting. All transactions in which there are conflicts of interest with Supervisory Directors shall be agreed on terms that are customary in the sector concerned. Decisions to enter into transactions under which a Supervisory Director would have a conflict of interest that are of material significance to QIAGEN and/or to the Supervisory Director concerned, require the approval of the Supervisory Board.

In accordance with Dutch law and the Dutch Code, the General Meeting determines the compensation of the Supervisory Directors upon the proposal of the Compensation Committee with due observance of the remuneration policy for Supervisory Directors as adopted at the 2021 Annual General Meeting. Under the Dutch Code, any shares held by a Supervisory Director in the Company on whose board he or she sits should be long-term investments.

## Appendices

### Liability of Managing Directors and Supervisory Directors

Under Dutch law, as a general rule, Managing Directors and Supervisory Directors are not liable for obligations we incur. Under certain circumstances, however, they may become liable, either towards QIAGEN (internal liability) or to others (external liability), although some exceptions are described below.

### Liability towards QIAGEN

Failure of a Managing Director or Supervisory Director to perform his or her duties does not automatically lead to liability. Liability is only incurred in the case of a clear, indisputable shortcoming about which no reasonably judging business-person would have any doubt. In addition, the Managing Director or Supervisory Director must be deemed to have been grossly negligent. Managing Directors are jointly and severally liable for failure of the Managing Board as a whole, but an individual Managing Director will not be held liable if he or she is determined not to have been responsible for the mismanagement and has not been negligent in preventing its consequences. Supervisory Directors are jointly and severally liable for failure of the Supervisory Board as a whole, but an individual Supervisory Director will not be held liable if he or she is determined not to have been responsible for the mismanagement and has not been negligent in preventing its consequences.

### Liability for Misrepresentation in Annual Accounts

Managing Directors and Supervisory Directors are also jointly and severally liable to any third party for damages suffered as a result of misrepresentation in the annual accounts, management commentary or interim statements of QIAGEN, although a Managing Director or Supervisory Director will not be held liable if found not to be personally responsible for the misrepresentation. Moreover, a Managing Director or Supervisory Director may be found to be criminally liable if he or she deliberately publishes false annual accounts or deliberately allows the publication of such false annual accounts.

### Tort Liability

Under Dutch law, there can be liability if one has committed a tort (onrechtmatige daad) against another person. Although there is no clear definition of "tort" under Dutch law, breach of a duty of care towards a third

party is generally considered to be a tort. Therefore, a Dutch corporation may be held liable by any third party under the general rule of Dutch laws regarding tort claims. In exceptional cases, Managing Directors and Supervisory Directors have been found liable on the basis of tort under Dutch common law, but it is generally difficult to hold a Managing Director or Supervisory Director personally liable for a tort claim. Shareholders cannot base a tort claim on any losses which derive from and coincide with losses we suffered. In such cases, only we can sue the Managing Directors or Supervisory Directors.

### Criminal Liability

Under Dutch law, if a legal entity has committed a criminal offense, criminal proceedings may be instituted against the legal entity itself as well as against those who gave order to or were in charge of the forbidden act. As a general rule, it is held that a Managing Director is only criminally liable if he or she played a reasonably active role in the criminal act.

### Indemnification

Article 27 of our Articles provides that we shall indemnify every person who is or was a Managing Director or Supervisory Director against all expenses (including attorneys' fees), judgments, fines and amounts paid in settlement with respect to any threatened pending or completed action, suit or proceeding as well as against expenses (including attorneys' fees) actually and reasonably incurred in connection with the defense or settlement of an action or proceeding, if such person acted in good faith and in a manner he or she reasonably could believe to be in or not opposed to our best interests. An exception is made in respect to any claim, issue or matter as to which such person shall have been adjudged to be liable for gross negligence or willful misconduct in the performance of his or her duty to us.

### Classes of Shares

The authorized classes of our shares consist of Common Shares, Financing Preference Shares and Preference Shares. No Financing Preference Shares or Preference Shares have been issued.

## Appendices

### Common Shares

Common Shares are issued in registered form only. No share certificates are issued for Common Shares and Common Shares are registered in either our shareholders register with Equiniti Trust Company LLC, our transfer agent and registrar in New York, or our shareholder register with TMF Fund Services B.V., Westblaak 89, 3012 KG Rotterdam, the Netherlands.

The transfer of registered shares requires a written instrument of transfer and the written acknowledgment of such transfer by us or the New York Transfer Agent (in our name).

### Financing Preference Shares

No Financing Preference Shares are currently issued or outstanding. If issued, Financing Preference Shares will be issued in registered form only. No share certificates are issued for Financing Preference Shares. Financing Preference Shares must be fully paid up upon issue. The preferred dividend rights attached to Financing Preference Shares are described under "Dividends" below. We have no present plans to issue any Financing Preference Shares.

### Preference Shares

No Preference Shares are currently issued or outstanding. If issued, Preference Shares will be issued in registered form only. No share certificates shall be issued for Preference Shares. Only 25% of the nominal value thereof is required to be paid upon subscription for Preference Shares. The obligatory payable part of the nominal amount (or the call) must be equal for each Preference Share. The Managing Board may, subject to the approval of the Supervisory Board, resolve on which day and up to which amount a further call must be paid on Preference Shares which have not yet been paid up in full. The preferred dividend rights attached to Preference Shares are described under "Dividends" below.

Pursuant to our Articles, QIAGEN's Supervisory Board is entitled, if and in so far as the Supervisory Board has been designated by our General Meeting, to resolve to issue Preference Shares in the event that (i) any person who alone or with one or more other persons, directly or indirectly, have acquired or given notice of an intent to acquire (beneficial) ownership of an equity stake which

in aggregate equals 20% or more of our share capital then outstanding, or (ii) the Supervisory Board has determined a person to be an "adverse person." For this purpose, an "adverse person" is generally any (legal) person, alone or together with affiliates or associates, with an equity stake in our Company which the Supervisory Board considers to be substantial, which must be at least 10% of the issued share capital, and where the Supervisory Board is of the opinion that this (legal) person has engaged in an acquisition that is intended to cause or pressure QIAGEN to enter into transactions intended to provide such person with short-term financial gain under circumstances that would not be in the interest of QIAGEN and our shareholders or whose ownership is reasonably likely to cause a material adverse impact on our business prospects. Currently the Supervisory Board has not been designated to issue Preference Shares.

On August 2, 2004, we entered into an agreement (Option Agreement) with Stichting Preferente Aandelen QIAGEN (SPAQ) which was most recently amended on June 4, 2012. Pursuant to the Option Agreement, SPAQ was granted an option to acquire such number of Preference Shares as are equal to the total number of all outstanding Common Shares minus one in our share capital at the time of the relevant exercise of the right. SPAQ may exercise its right to acquire the Preference Shares in all situations that it believes that our interest or our stakeholders' interests are at risk (which situations include but are not limited to (i) receipt of a notification from the Managing Board that a takeover is imminent, and (ii) receipt of a notification from the Managing Board that one or more activist shareholders take a position that is not in the interest of QIAGEN, our shareholders or our other stakeholders), provided that the conditions mentioned in the previous paragraph have been met. Due to the implementation of the EC Directive on Takeover Bids in Dutch legislation, the exercise of the option to acquire Preference Shares by SPAQ and the subsequent issuance of Preference Shares to SPAQ needs to be done with due observance and in consideration of the restrictions imposed by the Public Offer Rules.

SPAQ was incorporated on August 2, 2004. Its principal office is located at Hulsterweg 82, 5912 PL Venlo, The Netherlands. Its statutory objectives are to

## Appendices

protect our interests and our enterprise and the enterprises of companies which are linked to us. SPAQ shall attempt to accomplish its objectives by way of acquiring Preference Shares in the share capital of QIAGEN and to exercise the voting rights in our interests and the interests of our stakeholders.

The board of SPAQ shall consist of at least two directors. Upon incorporation of SPAQ, two members were appointed to the board of SPAQ who resigned in 2019. In December 2019, two new members were appointed. After serving on the board of SPAQ for four years, these board members were reappointed at the end of 2023 for an additional two year term each. The board of SPAQ may appoint additional members to the board. Board resolutions will be adopted by unanimity of the votes cast. SPAQ will be represented either by its board or by the chairman of its board.

### Issuance of shares

Under our Articles, the Supervisory Board has the power to issue Shares and determine the issue price and further conditions of such issuance, provided that it has been authorized by the General Meeting to do so. The authorization referred to in the preceding sentence can only be granted for a specific period of time not exceeding five years and may be extended in the same manner. If there is no designation of the Supervisory Board to issue shares in force, the General Meeting shall have authority to issue shares, but only upon the proposal of, and in accordance with the issue price and further conditions as determined by, the Supervisory Board. For these purposes, issuances of shares include the granting of rights to subscribe for shares, such as options and warrants, but not the issue of shares upon exercise of such rights.

On June 22, 2023, the General Meeting resolved to authorize the Supervisory Board until December 22, 2024, to issue Common Shares and Financing Preference Shares or grant rights to subscribe for such shares, the aggregate par value of which shall be equal to the aggregate par value of 50% of the shares issued and outstanding in the capital of the Company as of December 31, 2022, as included in the Annual Accounts for Calendar Year 2022.

### Pre-emptive Rights

Under our Articles, existing holders of Common Shares will have pre-emptive rights in respect of future issuances of Common Shares in proportion to the number of Common Shares held by them, unless limited or excluded as described below. Holders of Common Shares shall not have pre-emptive rights in respect of future issuances of Financing Preference Shares or Preference Shares. Holders of Financing Preference Shares and Preference Shares shall not have pre-emptive rights in respect of any future issuances of share capital. Pre-emptive rights do not apply with respect to shares issued against contributions other than in cash or shares issued to employees of the Company or one of our group companies. Under our Articles, the Supervisory Board has the power to limit or exclude any pre-emptive rights to which shareholders may be entitled, provided that it has been authorized by the General Meeting to do so. The authority of the Supervisory Board to limit or exclude pre-emptive rights can only be exercised if at that time the Supervisory Board's authority to issue shares is in full force and effect. The authority to limit or exclude pre-emptive rights may be extended in the same manner as the authority to issue shares. If there is no designation of the Supervisory Board to limit or exclude pre-emptive rights in force, the General Meeting shall have authority to limit or exclude such pre-emptive rights, but only upon the proposal of the Supervisory Board.

Resolutions of the General Meeting (i) to limit or exclude pre-emptive rights or (ii) to designate the Supervisory Board as the corporate body that has authority to limit or exclude pre-emptive rights, require a majority of at least two-thirds of the votes cast in a meeting of shareholders if less than 50% of the issued share capital is present or represented. For these purposes, issuances of shares include the granting of rights to subscribe for shares, such as options and warrants, but not the issue of shares upon exercise of such rights.

On June 22, 2023, the General Meeting resolved to grant the authority to restrict or exclude pre-emptive rights until December 22, 2024. However, the General Meeting has limited this authority in a way that the Supervisory Board can only exclude or limit the pre-emptive rights in relation to no more than 10% of the aggregate par value of all shares issued and outstanding in the capital of the Company as of December 31, 2022.

## Appendices

### Acquisition of Our Own Shares

We may acquire our own shares, subject to certain provisions of Dutch law and our Articles, if (i) shareholders' equity less the payment required to make the acquisition does not fall below the sum of paid-up and called-up capital and any reserves required by Dutch law or the Articles, and (ii) we and our subsidiaries would not thereafter hold shares with an aggregate nominal value exceeding half of our issued share capital. Shares that we hold in our own capital or shares held by one of our subsidiaries may not be voted. The Managing Board, subject to the approval of the Supervisory Board, may effect the acquisition of shares in our own capital. Our acquisitions of shares in our own capital may only take place if the General Meeting has granted to the Managing Board the authority to effect such acquisitions. Such authority may apply for a maximum period of eighteen months and must specify the number of shares that may be acquired, the manner in which shares may be acquired and the price limits within which shares may be acquired. Dutch corporate law allows for the authorization of the Managing Board to purchase a number of shares equal to up to 50% of the Company's issued share capital on the date of the acquisition. On June 22, 2023, the General Meeting resolved to extend the authorization of the Managing Board in such manner that the Managing Board may, for an 18-month period beginning June 22, 2023, until December 24, 2024, cause us to acquire shares in our own share capital, up to 10% of the Company's issued share capital on the date of the acquisition and provided that the Company or any subsidiary shall not hold more than 10% of the Company's issued share capital at any time, without limitation at a price between one euro cent (euro 0.01) and one hundred ten percent (110%) of the higher of the average closing price of our shares on the New York Stock Exchange or, as applicable, the Frankfurt Stock Exchange, for the five trading days prior to the day of purchase, or, with respect to Preference and Finance Preference shares, against a price between one euro cent (euro 0.01) and three times the issuance price and in accordance with applicable provisions of Dutch law and our Articles.

### Synthetic Share Repurchase

During the Annual General Meeting held on June 22, 2023, the General Meeting approved a proposal to allow the Managing Board, subject to the

approval of the Supervisory Board, to, during a period of 18 months from the date of the Annual General Meeting, i.e. until December 22, 2024, adjust the Company's capital structure and to repay capital to our shareholders via a synthetic share repurchase within predetermined boundaries, and with the key consequences of such synthetic share repurchase being that: (i) an amount to be determined by the Managing Board, subject to the approval of the Supervisory Board, of up to a maximum \$300 million would be paid to our shareholders as a capital repayment, and (ii) the number of outstanding Common Shares would at least be decreased by a number of Common Shares approximately equal to the number of Common Shares that the Company, theoretically, could have repurchased for the aggregate amount repaid to our shareholders.

For more information on the synthetic share repurchase, we refer to the explanatory notes to agenda item 14 in the proxy statement relating to the Annual General Meeting of June 22, 2023 as well as our press release of January 18, 2024.

### Capital Reduction

Subject to the provisions of Dutch law and our Articles, the General Meeting may, upon the proposal of the Supervisory Board, resolve to reduce the issued share capital by (i) canceling shares, or (ii) reducing the nominal value of shares through an amendment of our Articles. Cancellation with repayment of shares or partial repayment on shares or release from the obligation to pay up may also be made or given exclusively with respect to Common Shares, Financing Preference Shares or Preference Shares.

### Cancellation of Fractional Common Shares

Prior to the synthetic share repurchase described above, the Company held fractional Common Shares and as part of the synthetic share repurchase, the Company acquired additional fractional Common Shares. In an effort to, as much as possible, clean up the composition of the Company's share capital, the General Meeting of June 22, 2023 resolved to reduce the issued share capital of the Company by cancelling all fractional Common Shares (i) the Company holds in its own capital at the date of the 2023 Annual General

## Appendices

Meeting, or will hold in its own share capital following execution of certain steps making-whole the then issued and outstanding fractional Common Shares, and (ii) the Company will hold in its own capital as a result of the synthetic share repurchase described above and the execution of certain steps making-whole the then issued and outstanding fractional Common Shares. The cancellation may be implemented in one or more tranches, at the discretion of the Managing Board.

### Financial Year, Annual Accounts and Independent Registered Public Accounting Firm

Our financial year coincides with the calendar year. Dutch law requires that within four months after the end of the financial year, the Managing Board must make available a report with respect to such financial year, including our financial statements for such year prepared under International Financial Reporting Standards and accompanied by a report of an Independent Registered Public Accounting Firm. The annual report is submitted to the Annual General Meeting for adoption.

The General Meeting appoints the external auditor of our statutory financial statements prepared in accordance with International Financial Reporting Standards and to issue a report thereon. On June 22, 2023, our shareholders appointed KPMG Accountants N.V. to serve as our external auditor for our statutory consolidated financial statements prepared in accordance with International Financial Reporting Standards for the year ending December 31, 2023.

### Dividends and Other Distributions

Subject to certain exceptions, dividends may only be paid out of profits as shown in our annual financial statements as adopted by the General Meeting. Distributions may not be made if the distribution would reduce shareholders' equity below the sum of the paid-up and called-up capital and called-up and any reserves required by Dutch law or our Articles.

Out of profits, dividends must first be paid on any outstanding Preference Shares (the Preference Share Dividend) in a percentage (the Preference Share Dividend Percentage) of the obligatory call amount paid up on such shares at

the beginning of the financial year in respect of which the distribution is made. The Preference Share Dividend Percentage is equal to the average main refinancing rates during the financial year for which the distribution is made. Average main refinancing rate shall be understood to mean the average value on each individual day during the financial year for which the distribution is made of the main refinancing rates prevailing on such day. The main refinancing rate shall be understood to mean the rate of the Main Refinancing Operation as determined and published from time to time by the European Central Bank. If and to the extent that profits are not sufficient to pay the Preference Share Dividend in full, the deficit shall be paid out of the reserves, with the exception of any reserve, which was formed as share premium reserve upon the issue of Financing Preference Shares. If in any financial year the profit is not sufficient to make the distributions referred to above and if no distribution or only a partial distribution is made from the reserves referred to above, such that the deficit is not fully made good, no further distributions will be made as described below until the deficit has been made good.

Out of profits remaining after payment of any dividends on Preference Shares, the Supervisory Board shall determine such amounts as shall be kept in reserve as determined by the Supervisory Board. Out of any remaining profits not allocated to reserve, a dividend (the Financing Preference Share Dividend) shall be paid on the Financing Preference Shares equal to a percentage (the Financing Preference Share Dividend Percentage) over the nominal value of the Financing Preference Shares, increased by the amount of share premium that was paid upon the first issue of Financing Preference Shares. The Financing Preference Shares Dividend Percentage which percentage is related to a fixed average effective yield on the prime interest rate on corporate loans in the United States as quoted in the Wall Street Journal as set forth in article 40.4 of our Articles. If and to the extent that the profits are not sufficient to pay the Financing Preference Share Dividend in full, the deficit may be paid out of the reserves if the Managing Board so decides with the approval of the Supervisory Board, with the exception of the reserve which was formed as share premium upon the issue of Financing Preference Shares.

## Appendices

Insofar as the profits have not been distributed or allocated to reserves as specified above, the General Meeting may act to allocate such profits, provided that no further dividends will be distributed on the Preference Shares or the Financing Preference Shares.

The Managing Board may, with due observance of Article 2:105 of the Dutch Civil Code and with the approval of the Supervisory Board, distribute an interim dividend, if and to the extent that the profits so permit. Interim dividends may be distributed on one class of shares only.

The General Meeting may resolve, on the proposal of the Supervisory Board, to distribute dividends or reserves, wholly or partially, in the form of shares.

Distributions as described above are payable as from a date to be determined by the Supervisory Board. Distributions will be made payable at an address or addresses in the Netherlands to be determined by the Supervisory Board, as well as at least one address in each country where the shares are listed or quoted for trading. The Supervisory Board may determine the method of payment of cash distributions. Distributions in cash that have not been collected within five years and two days after they have become due and payable shall revert to QIAGEN.

Dutch law provides that the declaration of dividends out of the profits that are at the free disposal of the General Meeting is the exclusive right of the General Meeting. This is different from the corporate law of most jurisdictions in the United States, which permits a corporation's board of directors to declare dividends.

### **Shareholder Meetings, Voting Rights and Other Shareholder Rights**

The Annual General Meeting is required to be held within six months after the end of each financial year for the purpose of, among other things, adopting the annual accounts and filling of any vacancies on the Managing Board and Supervisory Board.

Extraordinary General Meetings are held as often as deemed necessary by the Managing Board or Supervisory Board, or upon a request to the Managing

Board or Supervisory Board by one or more shareholders and other persons entitled to attend meetings jointly representing (i) at least 40% of our issued share capital, with those persons jointly being authorized to convene such meeting themselves in case the Boards do not timely comply with the request, in accordance with the Articles of Association, or (ii) at least 10% of our issued share capital, with those persons jointly being authorized to convene such meeting themselves in case the Boards do not timely comply with the request, but only if and to the extent authorized thereto by a competent Dutch court in accordance with the laws of the Netherlands.

General Meetings are held in Amsterdam, Haarlemmermeer (Schiphol Airport), Arnhem, Maastricht, Rotterdam, Venlo or The Hague. The notice convening a General Meeting must be given in such manner as shall be authorized by law including but not limited to an announcement published by electronic means no later than the forty-second day prior to day of the general meeting. The notice will contain the agenda for the meeting or the notice is published along with the agenda.

The agenda shall contain such subjects to be considered at the General Meeting, as the persons convening or requesting the meeting shall decide. Under Dutch law, holders of shares representing solely or jointly at least three hundredth part of the issued share capital may request QIAGEN not later than on the sixtieth day prior to the day of the General Meeting, to include certain subjects in the notice convening a meeting. No valid resolutions can be adopted at a General Meeting in respect of subjects which are not mentioned in the agenda.

Dutch corporate law sets a mandatory (participation and voting) record date for Dutch listed companies fixed at the twenty-eighth day prior to the day of the shareholders' meeting. Shareholders registered at such record date are entitled to attend and exercise their rights as shareholders at the General Meeting, regardless of a sale of shares after the record date.

General Meetings are presided over by the Chairman of the Supervisory Board or, in his absence, by any person nominated by the Supervisory Board.

## Appendices

At the General Meeting, each share shall confer the right to cast one vote, unless otherwise provided by law or our Articles. No votes may be cast in respect of shares that we or our subsidiaries hold, or by usufructuaries and pledgees. All shareholders and other persons entitled to vote at General Meetings are entitled to attend General Meetings, to address the meeting and to vote. They must notify the Managing Board in writing of their intention to be present or represented not later than on the third day prior to the day of the meeting, unless the Managing Board permits notification within a shorter period of time prior to any such meeting. Subject to certain exceptions, resolutions may be passed by a simple majority of the votes cast.

Except for resolutions to be adopted by the meeting of holders of Preference Shares, our Articles do not allow the adoption of shareholders resolutions by written consent (or otherwise without holding a meeting).

A resolution of the General Meeting to amend our Articles, dissolve QIAGEN, issue shares or grant rights to subscribe for shares or limit or exclude any pre-emptive rights to which shareholders shall be entitled is valid only if proposed to the General Meeting by the Supervisory Board.

A resolution of the General Meeting to amend our Articles is further only valid if the complete proposal has been made available for inspection by the shareholders and the other persons entitled to attend General Meetings at our offices as from the day of notice convening such meeting until the end of the meeting. A resolution to amend our Articles to change the rights attached to the shares of a specific class requires the approval of the relevant class meeting.

Resolutions of the General Meeting in a meeting that has not been convened by the Managing Board and/or the Supervisory Board, or resolutions included on the agenda for the meeting at the request of shareholders, will be valid only if adopted with a majority of two-thirds of votes cast representing more than half the issued share capital, unless our Articles require a greater majority or quorum.

A resolution of the General Meeting to approve a legal merger or the sale of all or substantially all of our assets is valid only if adopted by a vote of at least

two-thirds of the issued share capital, unless proposed by the Supervisory Board, in which case a simple majority of the votes cast shall be sufficient.

A shareholder shall upon request be provided, free of charge, with written evidence of the contents of the share register with regard to the shares registered in its name. Furthermore, any shareholder shall, upon written request, have the right, during normal business hours, to inspect our share register and a list of our shareholders and their addresses and shareholdings, and to make copies or extracts therefrom. Such request must be directed to our Managing Directors at our registered office in the Netherlands or at our principal place of business. Financial records and other company documents (other than those made public) are not available in this manner for shareholder review, but an extract of the minutes of the General Meeting shall be made available.

According to Dutch law and our Articles, certain resolutions of the Managing Board regarding a significant change in the identity or nature of us or our enterprise are subject to the approval of the General Meeting. The following resolutions of the Managing Board require the approval of the General Meeting in any event:

- (1) the transfer of our enterprise or practically our entire enterprise to a third party;
- (2) the entry into or termination of a long-term cooperation by us or one of our subsidiaries (dochtermaatschappijen) with another legal person or partnership or as a fully liable general partner of a limited partnership or a general partnership, if such cooperation or termination is of a far-reaching significance for us; and
- (3) the acquisition or divestment by us or one of our subsidiaries (dochtermaatschappijen) of a participating interest in the capital of a company with a value of at least one-third of the sum of our assets according to our consolidated balance sheet and explanatory notes in our last adopted annual accounts.

## Appendices

### **No Derivative Actions; Right to Request Independent Inquiry**

Dutch law does not afford shareholders the right to institute actions on behalf of us or in our interest. Shareholders, acting alone or together, holding at least one-tenth of our issued capital, or shares representing an aggregate nominal value of EUR 225,000 may inform the Managing Board and the Supervisory Board of their objections as to our policy or the course of our affairs and, within a reasonable time thereafter, may request the Enterprise Chamber of the Court of Appeal in Amsterdam to order an inquiry into the policy and the course of our affairs by independent investigators. If such an inquiry is ordered and the investigators conclude that there has been mismanagement, the shareholders can request the Enterprise Chamber to order certain measures such as a suspension or annulment of resolutions.

### **Dissolution and Liquidation**

The General Meeting may resolve to dissolve QIAGEN upon the proposal of the Supervisory Board. If QIAGEN is dissolved, the liquidation shall be carried out by the person designated for that purpose by the General Meeting, under the supervision of the Supervisory Board. The General Meeting shall upon the proposal of the Supervisory Board determine the remuneration payable to the liquidators and to the person responsible for supervising the liquidation.

During the liquidation process, the provisions of our Articles will remain applicable to the extent possible.

In the event of our dissolution and liquidation, the assets remaining after payment of all debts and liquidation expenses will be distributed among registered holders of Common Shares in proportion to the nominal value of their Common Shares, subject to liquidation preference rights of holders of Preference Shares and Financing Preference Shares, if any.

### **Restrictions on Transfer of Preference Shares**

The Supervisory Board, upon application in writing, must approve each transfer of Preference Shares. If approval is refused, the Supervisory Board will designate prospective purchasers willing and able to purchase the shares, otherwise the transfer will be deemed approved.

### **Limitations in our Articles on Rights to Own Securities**

Other than with respect to usufructuaries and pledgees who have no voting rights, our Articles do not impose limitations on rights to own our securities including the rights of non-resident or foreign shareholders to hold or exercise voting rights on the securities imposed by foreign law or by the charter or other constituent document of the Company or state.

### **Provisions which May Defer or Prevent a Change in Control**

The Option Agreement and our Articles could, under certain circumstances, prevent a third party from obtaining a majority of the voting control of our shares by issuing Preference Shares. Under the Option Agreement, SPAQ could acquire Preference Shares subject to the provisions referred to under "Preference Shares."

If SPAQ acquires the Preference Shares, the bidder may withdraw its bid or enter into negotiations with the Managing Board and/or Supervisory Board and agree on a higher bid price for our shares.

Shareholders who obtain control of a company are obliged to make a mandatory offer to all other shareholders. The threshold for a mandatory offer is set at the ability to exercise 30% of the voting rights at the general meeting of shareholders in a Dutch public limited company (naamloze vennootschap) whose securities are admitted to trading on a regulated market in the EU, such as QIAGEN.

### **Ownership Threshold Requiring Disclosure**

Our Articles do not provide an ownership threshold above which ownership must be disclosed. However, there are statutory requirements to disclose share ownership above certain thresholds under Dutch law — see "Obligation of Shareholders to Disclose Major Holdings."

### **Obligation of Shareholders to Disclose Major Holdings**

Holders of our shares or rights to acquire shares (which include options and convertible bonds - see also below) may be subject to notification obligations under the Dutch Financial Markets Supervision Act (FMSA).

## Appendices

Pursuant to the FMSA, any person who, directly or indirectly, acquires or disposes of an interest (including a potential interest, such as options and convertible bonds) in our issued share capital or voting rights must notify the Netherlands Authority for the Financial Markets (AFM) without delay, if as a result of such acquisition or disposal, the percentage of capital interest or voting rights held by such person in QIAGEN reaches, exceeds or falls below any of the following thresholds: 3%, 5%, 10%, 15%, 20%, 25%, 30%, 40%, 50%, 60%, 75% and 95%. The notifications should be made electronically through the notification system of the AFM.

A notification requirement also applies if a person's capital interest or voting rights reaches, exceeds or falls below the above-mentioned thresholds as a result of a change in our total issued share capital or voting rights. Such notification has to be made no later than the fourth trading day after the AFM has published our notification as described below.

Under the FMSA, we are required to notify the AFM without delay of the changes to our total issued share capital or voting rights if our issued share capital or voting rights changes by 1% or more since our previous notification. We must furthermore quarterly notify the AFM within eight days after the end of the relevant quarter, in the event our issued share capital or voting rights changed by less than 1% in that relevant quarter since our previous notification.

Furthermore, each person who is or ought to be aware that, as a result of the exchange of certain financial instruments, such as options for shares, his actual capital or voting interest in QIAGEN, reaches, exceeds or falls below any of the following thresholds: 3%, 5%, 10%, 15%, 20%, 25%, 30%, 40%, 50%, 60%, 75% and 95%, vis-à-vis his most recent notification to the AFM, must give notice to the AFM no later than the fourth trading day after he became or ought to be aware of this change.

Controlled entities, within the meaning of the FMSA, do not have notification obligations under the FMSA, as their direct and indirect interests are attributed to their (ultimate) parent. Any person may qualify as a parent for purposes of the FMSA, including an individual. A person who has a 3% or larger interest

in our share capital or voting rights and who ceases to be a controlled entity for these purposes must notify the AFM without delay. As of the date of that notification, all notification obligations under the FMSA will become applicable to that entity.

For the purpose of calculating the percentage of capital interest or voting rights, the following interests must, inter alia, be taken into account: (i) our shares or voting rights on our shares directly held (or acquired or disposed of) by a person, (ii) our shares or voting rights on our shares held (or acquired or disposed of) by such person's controlled entity, or by a third party for such person's account or by a third party with whom such person has concluded an oral or written voting agreement (including a discretionary power of attorney), and (iii) our shares or voting rights on our shares which such person, or any subsidiary or third party referred to above, may acquire pursuant to any option or other right held by such person (or acquired or disposed of, including, but not limited to, on the basis of convertible bonds). Special rules apply with respect to the attribution of our shares or voting rights on our shares which are part of the property of a partnership or other community of property. A holder of a pledge or right of usufruct (vruchtgebruik) in respect of our shares can also be subject to the notification obligations of the FMSA, if such person has, or can acquire, the right to vote on our shares or, in the case of depository receipts, our underlying shares. The acquisition of (conditional) voting rights by a pledgee or usufructuary may also trigger the notification obligations as if the pledgee or beneficial owner were the legal holder of our shares or voting rights on our shares. A holding in certain cash settled derivatives (such as cash settled call options and total equity return swaps) referencing to our shares should also be taken into account for the purpose of calculating the percentage of capital interest.

Gross short positions in our shares must also be notified to the AFM. For these gross short positions, the same thresholds apply as for notifying an actual or potential interest in our issued share capital and/or voting rights as referred to above, and without any set-off against long positions.

In addition, pursuant to Regulation (EU) No 236/2012, each person holding a net short position amounting to 0.2% of our issued share capital is required

## Appendices

to report such position to the AFM. Each subsequent increase of this position by 0.1% above 0.2% will also need to be reported. Each net short position equal to 0.5% of our issued share capital and any subsequent increase of that position by 0.1% will be made public via the AFM short selling register. To calculate whether a natural person or legal person has a net short position, their short positions and long positions must be set-off. A short transaction in a share can only be contracted if a reasonable case can be made that the shares sold can actually be delivered, which requires confirmation of a third party that the shares have been located.

The AFM does not issue separate public announcements of the above notifications. However, it does keep a public register of all notifications made pursuant to the above disclosure obligations under the FMSA on its website [www.afm.nl](http://www.afm.nl). Third parties can request to be notified automatically by e-mail of changes to the public register in relation to a particular company's shares or a particular notifying party.

Non-compliance with the notification obligations under the FMSA may lead to criminal fines, administrative fines, imprisonment or other sanctions. In addition, non-compliance with the shareholding disclosure obligations under the FMSA may lead to civil sanctions, including suspension of the voting rights relating to our shares held by the offender for a period of not more than three years and a prohibition applicable to the offender to acquire any of our shares or voting rights on our shares for a period of up to five years.

### Management Notifications

Pursuant to the FMSA, each Managing Director and each Supervisory Director must notify the AFM: (a) within two weeks after his or her appointment of the number of our shares or rights to acquire shares he or she holds and the number of votes he or she is entitled to cast in respect to our issued share capital, and (b) subsequently, each change in the number of our shares or rights to acquire shares such member holds and of each change in the number of votes he or she is entitled to cast in respect of our issued share capital, immediately after the relevant change. If a Managing Director or Supervisory Director has notified the AFM of a change in shareholding under the FMSA as described above under "Obligation of Shareholders to Disclose Major

Holdings," such notification is sufficient for the purposes as described in this paragraph.

Furthermore, pursuant to European Union Regulation (EU) No 596/2014 (the Market Abuse Regulation) and the regulations promulgated thereunder, any Managing Director and Supervisory Director, as well as any other person discharging managerial responsibilities in respect of QIAGEN who has regular access to inside information relating directly or indirectly to QIAGEN and power to take managerial decisions affecting future developments and business prospects of QIAGEN, must notify the AFM and QIAGEN by means of a standard form of any transactions conducted for his or her own account relating to the shares or debt instruments of QIAGEN or to derivatives or other financial instruments linked thereto.

In addition, pursuant to the Market Abuse Regulation, certain persons who are closely associated with Managing Directors and Supervisory Directors or any of the other persons as described above, are required to notify the AFM and QIAGEN of any transactions conducted for their own account relating to the shares or debt instruments of QIAGEN or to derivatives or other financial instruments linked thereto. The Market Abuse Regulation covers, inter alia, the following categories of persons: (i) the spouse or any partner considered by national law as equivalent to the spouse; (ii) dependent children; (iii) other relatives who have shared the same household for at least one year at the relevant transaction date; and (iv) any legal person, trust or partnership whose, among other things, managerial responsibilities are discharged by a person referred to under (i) to (iii) above or by the relevant Managing Directors and Supervisory Directors or other person discharging the managerial responsibilities in respect of QIAGEN as described above.

The notifications pursuant to the Market Abuse Regulation described above must be made to the AFM no later than the third business day following the relevant transaction date. Under certain circumstances, these notifications may be postponed until all transactions within a calendar year have reached a total amount of €5,000 (calculated without netting). Any subsequent transaction must be notified as set forth above. If a Managing Director or Supervisory Director has notified a change in the number of our shares or options to

## Appendices

acquire shares such member holds or a change in the number of votes he or she is entitled to cast to the AFM under the FMSA as described in the first paragraph above, such notification - but only to the extent there is an overlap with the notifications obligations under the Market Abuse Regulation - is sufficient for the purposes of the Market Abuse Regulation as described in this paragraph.

### Principal Accountant Fees and Services

#### Audit Committee Pre-Approval Policies and Procedures

Our independent registered public accounting firm is KPMG AG Wirtschaftsprüfungsgesellschaft, Düsseldorf, Germany, Auditor Firm ID: 1021.

The Audit Committee has adopted a policy that requires the pre-approval of all services performed for us by our independent registered public accounting

(in millions)	2023	2022
Audit fees	\$2.9	\$2.8
Consolidated financial statements	2.4	2.1
Statutory financial statements	0.5	0.7
Audit-related fees	—	—
Tax fees	0.2	0.3
All other fees	—	—
<b>Total</b>	<b>\$3.1</b>	<b>\$3.1</b>

Audit fees consist of fees and expenses billed for the annual audit and quarterly review of QIAGEN's consolidated financial statements. They also include fees billed for other audit services, which are those services that only the statutory auditor can provide, and include the review of documents filed with the Securities Exchange Commission.

Audit-related fees consist of fees and expenses billed for assurance and related services that are related to the performance of the audit or review of QIAGEN's financial statements and include consultations concerning financial

firm. Additionally, the Audit Committee has delegated to the Committee Chair full authority to approve any management request for pre-approval, provided the Chair presents any approval given at its next scheduled meeting. All audit-related services, tax services and other services rendered by our independent registered public accounting firm or their affiliates were pre-approved by the Audit Committee and are compatible with maintaining the auditor's independence.

Set forth below are the total fees billed (or expected to be billed), on a consolidated basis, by the independent registered public accounting firm or their affiliates for providing audit and other professional services in each of the last two years:

accounting and reporting standards and review of the opening balance sheets of newly acquired companies.

Tax fees include fees and expenses billed for tax compliance services, including assistance on the preparation of tax returns and claims for refund; tax consultations, such as assistance and representation in connection with tax audits and appeals. All other fees include various fees and expenses billed for services, such as transaction due diligence, as approved by the Audit Committee and as permitted by the Sarbanes-Oxley Act of 2002.

## Appendices

### Taxation

The following is a general summary of certain material United States federal income tax consequences to holders of our Common Shares who are “U.S. Holders” (as such term is defined below) and certain material Netherlands tax consequences to holders of our Common Shares who are “non-resident Shareholders” or “Shareholders” (as each term is defined below). This summary does not discuss every aspect of such taxation that may be relevant to such holders. Therefore, all prospective purchasers of our Common Shares described above are advised to consult their own tax advisors with respect to the United States federal, state and local tax consequences, as well as the Netherlands tax consequences, of the ownership of our Common Shares.

The statements of the Netherlands and United States tax laws set out below are based on the laws in force as of the date of this Annual Report on Form 20-F, and as a consequence are subject to any changes in United States or the Netherlands law, or in the taxation conventions concluded by the United States and the Netherlands, occurring after such date. Tax considerations associated with currently enacted laws which are not in force as of this date have not been addressed in this description.

#### Netherlands Tax Considerations

The following describes the material tax consequences under Netherlands law of an investment in our Common Shares. Such description is based on current understanding of Netherlands tax law currently in force as interpreted under officially published case law and in published policy, and is limited to the tax implications for an owner of our Common Shares who is not, or is not deemed to be, a resident of the Netherlands for purposes of the relevant tax laws (a “non-resident Shareholder” or “Shareholder”).

#### Dividend Withholding Tax

##### General

Upon distribution of dividends, we are obligated to withhold 15% dividend tax at source and to pay the amount withheld to the Netherlands taxing

authorities. The term “dividends” means income from shares or other rights participating in profits, as well as income from other corporate rights that is subjected to the same taxation treatment as income from shares by the laws of the Netherlands. Dividends include dividends in cash or in kind, constructive dividends, certain repayments of capital qualified as dividends, interest on loans that are treated as equity instruments for Netherlands corporate income tax purposes and liquidation proceeds in excess of, for Netherlands tax purposes, recognized paid-in capital. Stock dividends are also subject to withholding tax, unless derived from our paid-in share premium that is recognized as equity for Netherlands tax purposes.

No dividend withholding tax should apply on the proceeds resulting from the sale or disposition of our Common Shares to persons other than QIAGEN and our affiliates. A disposition of our Common Shares to QIAGEN or to our affiliates should in general be subject to withholding tax.

A domestic exemption from Netherlands dividend withholding tax may apply when dividends are paid to a corporate Shareholder that owns 5% or more of the nominal paid-up share capital and qualifies as a beneficial owner and is solely resident in an EU/EEA Member State or in a country with which the Netherlands has concluded a tax convention that includes a dividend article. This general exemption does not apply to abusive structures. A structure is deemed abusive if a corporate Shareholder owns our Common Shares with the main purpose or one of the main purposes to avoid tax for another person and the structure is considered artificial (i.e., not put into place for valid commercial reasons that reflect economic reality). This domestic exemption may under conditions further not apply in case of hybrid mismatches.

A corporate Shareholder may also be eligible for relief of Netherlands dividend withholding tax under Netherlands tax law, or under a tax convention that is in force between the country of residence of the Shareholder and the Netherlands.

##### Specific for U.S. Shareholders

The regular 15% dividend withholding tax is withheld by us on dividends we pay to a resident of the United States. For a corporate U.S. Shareholder that

## Appendices

cannot benefit from the Dutch domestic exemption (as explained above), withholding tax on dividends may still be reduced to 5% or 0% if the recipient is entitled to benefits under the Tax Convention between the Netherlands and the United States (the Convention), and the relevant specific conditions are met. Dividends we pay to U.S. pension funds and U.S. tax-exempt organizations may be eligible for an exemption from dividend withholding tax under the Convention.

### Dividend Stripping

A refund, reduction, exemption, or credit of Netherlands dividend withholding tax on the basis of Netherlands tax law or on the basis of a tax convention between the Netherlands and another state, will only be granted if the dividends are paid to the beneficial owner (“uiteindelijk gerechtigde”) of the dividends. A recipient of a dividend is amongst others not considered to be the beneficial owner of a dividend in an event of “dividend stripping.” In general terms, “dividend stripping” can be described as the situation in which a foreign or domestic person (usually, but not necessarily, the original shareholder) has transferred in return for a consideration its shares or its entitlement to the dividend distributions to a party that has a more favorable right to a refund or reduction of Netherlands dividend withholding tax than the foreign or domestic person. In these situations, the foreign or domestic person (usually the original shareholder) avoids Netherlands dividend withholding tax while retaining an interest in the shares and the dividend distributions, by transferring its shares or its entitlement to the dividend distributions in exchange for a consideration.

## Income Tax and Corporate Income Tax

### General

A non-resident Shareholder will not be subject to Netherlands income tax or corporate income tax with respect to dividends we distribute on our Common Shares or with respect to capital gains derived from the sale or disposition of our Common Shares, provided that:

- a. the non-resident Shareholder does not carry on or have an interest in a business in the Netherlands through a permanent establishment or a

permanent representative to which or to whom the Common Shares are attributable or deemed to be attributable;

- b. the non-resident Shareholder does not have a direct or indirect substantial or deemed substantial interest (“aanmerkelijk belang,” as defined in the Netherlands tax law) in our share capital or, in case of an individual, such a substantial interest, such interest is a “business asset,” or, in case of a corporate Shareholder, the arrangement or a series of arrangements are not put in place with the main purpose or one of the main purposes to avoid Netherlands income tax for another person or cannot be considered artificial. An arrangement or series of arrangements are considered artificial to the extent not put in place for valid commercial reasons that reflect economic reality; and
- c. the non-resident Shareholder is not entitled to a share in the profits of an enterprise, to which our Common Shares are attributable and that is effectively managed in the Netherlands, other than by way of securities or through an employment contract.

In general terms, a substantial interest (“aanmerkelijk belang”) in our share capital does not exist if the Shareholder (individuals as well as corporations), alone or together with his partner, does not own, directly or indirectly, 5% or more of the issued capital of (a class of) our shares, and does not have the right to acquire 5% or more of the issued capital of (a class of) our shares and does not have the right to share in our profit or liquidation revenue amounting to 5% or more of the annual profits or liquidation revenue.

There is no all-encompassing definition of the term “business asset”; whether this determination can be made in general depends on the facts presented and in particular on the activities performed by the Shareholder. If the Shareholder materially conducts a business activity, while the key motive of his investment in our Shares is not be his earnings out of the investment in our Shares but our economic activity, an investment in our Shares will generally be deemed to constitute a business asset, in particular if the Shareholder’s involvement in our business will exceed regular monitoring of his investment in our Shares.

## Appendices

A non-resident Shareholder that holds a substantial interest in our share capital may be eligible for an exemption or a reduction of Netherlands income tax or corporate income tax under a tax convention.

### Specific for U.S. Shareholders

U.S. Shareholders that do not own a substantial interest should not be subject to Dutch Personal Income Tax or Dutch Corporate Income Tax (as explained above). For U.S. Shareholders that do own a substantial interest, Dutch Personal Income Tax or Dutch Corporate Income Tax could be due. However, U.S. Shareholders that are entitled to benefits of the Convention may be eligible for tax relief.

### Gift and Inheritance Tax

A gift or inheritance of our Common Shares from a non-resident Shareholder should generally not be subject to a Netherlands gift and inheritance tax, provided that the Shareholder is not considered a (deemed) resident of the Netherlands. The Netherlands has concluded a tax convention with the United States based on which double taxation on inheritances may be avoided if the inheritance is subject to Netherlands and/or U.S. inheritance tax and the deceased was a resident of either the Netherlands or the United States.

### United States Federal Income Tax Considerations

The following summary describes certain U.S. federal income tax considerations generally applicable to U.S. Holders (as defined below) of our Common Shares. This summary deals only with our Common Shares held as capital assets within the meaning of Section 1221 of the Internal Revenue Code of 1986, as amended (the Code). This summary also does not address the tax consequences that may be relevant to holders in special tax situations including, without limitation, dealers in securities; traders that elect to use a mark-to-market method of accounting; pass-through entities such as partnerships, S corporations, disregarded entities for U.S. federal income tax purposes and limited liability companies (and investors therein); holders that own our Common Shares as part of a "straddle," "hedge," "conversion transaction," or other integrated investment; banks or other financial institutions; individual retirement accounts and other tax-deferred accounts;

insurance companies; tax-exempt organizations; U.S. expatriates; holders whose functional currency is not the U.S. dollar; holders subject to the alternative minimum tax; holders that acquired our Common Shares in a compensatory transaction; holders subject to special tax accounting rules as a result of any item of gross income with respect to the Common Shares being taken into account in an applicable financial statement; or holders that have owned or will (directly, indirectly or constructively) own 10% or more of the total voting power or value of our Common Shares.

This summary is based upon the Code, applicable U.S. Treasury regulations, administrative pronouncements and judicial decisions, in each case as in effect on the date hereof, all of which are subject to change (possibly with retroactive effect). No ruling will be or has been requested from the Internal Revenue Service (IRS) regarding the tax consequences described herein, and there can be no assurance that the IRS will agree with the discussion set out below. This summary does not address any consequences other than U.S. federal income tax consequences (such as the estate and gift tax, the Medicare tax on net investment income, state and local tax, or non-U.S. tax). Except as specifically set forth below, this summary does not discuss applicable tax reporting requirements.

As used herein, the term "U.S. Holder" means a beneficial owner of our Common Shares that is, for U.S. federal income tax purposes, (i) a citizen or resident of the United States, (ii) a corporation or other entity taxable as a corporation created in or organized under the laws of the United States or any state thereof or therein or the District of Columbia, (iii) an estate the income of which is subject to U.S. federal income taxation regardless of its source, or (iv) a trust (a) that is subject to the supervision of a court within the United States and the control of one or more United States persons as described in Section 7701(a)(30) of the Code, or (b) that has a valid election in effect under applicable U.S. Treasury regulations to be treated as a United States person.

If an entity or other arrangement classified as a partnership for U.S. federal income tax purposes acquires our Common Shares, the tax treatment of a partner in the partnership generally will depend upon the status of the partner

## Appendices

and the activities of the partnership. Partners of a partnership considering an investment in our Common Shares should consult their tax advisors regarding the U.S. federal income tax consequences of acquiring, owning and disposing our Common Shares.

### Taxation of Dividends

Subject to the discussion below under “Passive Foreign Investment Company Status,” the sum of any cash plus the fair market value of any property that we distribute (before reduction for Netherlands withholding tax) to a U.S. Holder with respect to our Common Shares generally will be included in the U.S. Holder’s gross income as a dividend, taxable as ordinary income from foreign sources to the extent of our current or accumulated earnings and profits (as determined for U.S. federal income tax purposes).

Dividends paid to a non-corporate U.S. Holder by a “qualified foreign corporation” may be subject to a reduced rate of tax if certain conditions are met including the following: QIAGEN must not be classified as a “passive foreign investment company” (PFIC) (discussed below), QIAGEN must be a “qualified foreign corporation” (as defined below), the U.S. Holder must satisfy a holding period requirement, and the distribution must not be treated to the U.S. Holder as “investment income” for purposes of the investment interest deduction rules. A “qualified foreign corporation” generally includes a foreign corporation (other than a foreign corporation that is a PFIC with respect to the relevant U.S. Holder for the taxable year in which the dividends are paid or for the preceding taxable year) (i) whose Common Shares are readily tradable on an established securities market in the United States, or (ii) which is eligible for benefits under a comprehensive U.S. income tax treaty that includes an exchange of information program and which the U.S. Treasury Department has determined is satisfactory for these purposes. Our Common Shares are expected to be readily tradable on the NYSE, an established securities market. U.S. Holders should consult their own tax advisors regarding the availability of the reduced tax rate on dividends in light of their particular circumstances. Dividends on our Common Shares generally will not be eligible for the dividends received deduction available to corporations in respect of dividends received from other U.S. corporations.

Distributions in excess of our earnings and profits (as determined for U.S. federal income tax purposes) will be treated as a non-taxable return of capital to the extent of the U.S. Holder’s adjusted tax basis in our Common Shares and thereafter as capital gain. However, we do not intend to calculate our earnings and profits under U.S. federal income tax principles. Therefore, U.S. Holders should expect that a distribution will generally be treated as a dividend even if that distribution would otherwise be treated as a non-taxable return of capital or as capital gain under the rules described above.

### Foreign Tax Credit

Subject to the PFIC rules discussed below, a U.S. Holder that is subject to Netherlands withholding tax with respect to dividends paid on the Common Shares generally will be entitled, at the election of such U.S. Holder, to receive either a deduction or a credit for such Netherlands withholding tax. Generally, subject to the limitations described in the next paragraph, a credit will reduce a U.S. Holder’s U.S. federal income tax liability on a dollar-for-dollar basis, whereas a deduction will reduce a U.S. Holder’s income subject to U.S. federal income tax. This election is made on a year-by-year basis and generally applies to all foreign taxes paid (whether directly or through withholding) or accrued by a U.S. Holder during a year.

Limitations apply to the foreign tax credit, including the general limitation that the credit cannot exceed the proportionate share of a U.S. Holder’s U.S. federal income tax liability (determined before application of the foreign tax credit) that such U.S. Holder’s “foreign source” taxable income bears to such U.S. Holder’s worldwide taxable income. In applying this limitation, a U.S. Holder’s various items of income and deduction must be classified, under complex rules, as either “foreign source” or “U.S. source” and the limitation is calculated separately for each with respect to specific categories of income. Generally, dividends paid by a foreign corporation should be treated as foreign source for this purpose, and gains recognized on the sale of stock of a foreign corporation by a U.S. Holder should generally be treated as U.S. source for this purpose, except as otherwise provided in an applicable income tax treaty or if an election is properly made under the Code. However, the amount of a distribution with respect to the Common Shares that is treated as a

## Appendices

“dividend” may be lower for U.S. federal income tax purposes than it is for Netherlands tax purposes, resulting in a reduced foreign tax credit allowance to a U.S. Holder.

Each U.S. Holder should consult its own U.S. tax advisor regarding the foreign tax credit rules.

### Disposition of our Common Shares

Subject to the PFIC rules discussed below, upon the sale or other disposition of our Common Shares, a U.S. Holder will recognize capital gain or loss for U.S. federal income tax purposes equal to the difference between the amount realized on the disposition of our Common Shares and the U.S. Holder’s adjusted tax basis in our Common Shares. Such capital gain or loss generally will be subject to U.S. federal income tax. In general, capital gains recognized by a non-corporate U.S. Holder, including an individual, are subject to a lower rate under current law if such U.S. Holder held shares for more than one year. The deductibility of capital losses is subject to limitations. Any such gain or loss generally will be treated as U.S. source income or loss for purposes of the foreign tax credit. A U.S. Holder’s initial tax basis in Common Shares generally will equal the cost of such shares.

### Passive Foreign Investment Company Status

We may be classified as a PFIC for U.S. federal income tax purposes if certain tests are met. We will be a PFIC with respect to a U.S. Holder if, for any taxable year in which the U.S. Holder held our Common Shares, either (i) 75% or more of our gross income for the taxable year is passive income; or (ii) the average value of our assets (during the taxable year) which produce or are held for the production of passive income is at least 50% of the average value of all assets for such year. Passive income means, in general, dividends, interest, royalties, rents (other than rents and royalties derived in the active conduct of a trade or business and not derived from a related person), annuities, and gains from assets which would produce such income other than sales of inventory. Passive assets for this purpose generally include assets held for the production of passive income. Accordingly, passive assets generally include any cash, cash equivalents and cash invested in short-term, interest-

bearing debt instruments or bank deposits that are readily convertible into cash. For the purpose of the PFIC tests, if a foreign corporation owns at least 25% (by value) of the stock of another corporation, the foreign corporation is treated as owning its proportionate share of the assets of the other corporation, and as if it had received directly its proportionate share of the income of such other corporation (the “look-through rule”). The effect of the look-through rule with respect to QIAGEN and our ownership of our subsidiaries is that, for purposes of the income and assets tests described above, we will be treated as owning our proportionate share of the assets of our subsidiaries and of earning our proportionate share of each of our subsidiary’s income, if any, so long as we own, directly or indirectly, at least 25% of the value of the particular subsidiary’s stock. Active business income of our subsidiaries will be treated as our active business income, rather than as passive income. Based on our income, assets and activities, we do not believe that we were a PFIC for our taxable years ended December 31, 2021, December 31, 2022, and December 31, 2023, and do not expect to be a PFIC for the current taxable year. No assurances can be made, however, that the IRS will not challenge this position or that we will not subsequently become a PFIC. Following the close of any tax year, we intend to promptly send a notice to all shareholders of record at any time during such year, if we determine that we are a PFIC.

If we are considered a PFIC for any taxable year that a U.S. Holder holds our Common Shares, any gain recognized by the U.S. Holder on a sale or other disposition of our Common Shares would be allocated pro-rata over the U.S. Holder’s holding period for our Common Shares. The amounts allocated to the taxable year of the sale or other disposition and to any year before we became a PFIC would be taxed as ordinary income. The amount allocated to each other taxable year would be subject to tax at the highest rate in effect for individuals or corporations, as appropriate, for that taxable year, and an interest charge would be imposed with respect to any amount allocated to any prior taxable year that we were a PFIC. Further, if we are a PFIC for any taxable year, to the extent that any distribution received by a U.S. Holder on our Common Shares exceeds 125% of the average of the annual distributions on our Common Shares received during the preceding three years or the U.S.

## Appendices

Holder's holding period, whichever is shorter, such excess amount would be subject to taxation in the same manner as gain on the sale or other disposition of Common Shares if we were a PFIC, described above. Certain elections may be available that would result in alternative treatments (such as mark-to-market treatment) of our Common Shares. If we are treated as a PFIC with respect to a U.S. Holder for any taxable year, the U.S. Holder will be deemed to own shares in any of our subsidiaries that also are PFICs. A timely election to treat us as a qualified electing fund under the Code would result in an alternative treatment. However, we do not intend to prepare or provide the information that would enable U.S. Holders to make a qualified electing fund election. If we are considered a PFIC, a U.S. Holder also will be subject to annual information reporting requirements.

Prospective purchasers of our Common Shares are urged to consult their tax advisors regarding the potential application of the PFIC rules to an investment in the Common Shares.

### Foreign Currency Issues

If dividends on our Common Shares are paid in euros, the amount of the dividend distribution included in the income of a U.S. Holder will be the U.S. dollar value of the payments made in euros, determined at a spot, euro/U.S. dollar rate applicable to the date such dividend is includible in the income of the U.S. Holder, regardless of whether the payment is in fact converted into U.S. dollars. Generally, gain or loss (if any) resulting from currency exchange fluctuations during the period from the date the dividend is paid to the date such payment is converted into U.S. dollars will be treated as ordinary income or loss.

### Backup Withholding and Information Reporting

U.S. backup withholding and information reporting requirements generally apply to payments made to non-corporate holders of Common Shares that are paid within the United States or through certain U.S. related financial intermediaries. Information reporting will apply to payments of dividends on, and to proceeds from the disposition of, Common Shares by a paying agent within the United States (or through certain U.S. related financial

intermediaries) to a U.S. Holder, other than U.S. Holders that are exempt from information reporting and properly certify their exemption. A paying agent within the United States (or through certain U.S. related financial intermediaries) will be required to withhold at the applicable statutory rate, currently 24%, in respect of any payments of dividends on, and the proceeds from the disposition of, Common Shares to a U.S. Holder (other than U.S. Holders that are exempt from backup withholding and properly certify their exemption) if the holder fails to furnish its correct taxpayer identification number or otherwise fails to comply with applicable backup withholding requirements. U.S. Holders who are required to establish their exempt status generally must provide a properly completed IRS Form W-9.

Backup withholding is not an additional tax. Amounts withheld as backup withholding may be credited against a U.S. Holder's U.S. federal income tax liability. A U.S. Holder generally may obtain a refund of any amounts withheld under the backup withholding rules that exceed such U.S. Holder's income tax liability by filing a refund claim with the IRS in a timely manner and furnishing required information.

### Foreign Financial Asset Reporting

Certain U.S. Holders who hold "specified foreign financial assets" (as defined in Section 6038D of the Code), including stock of a non-U.S. corporation that is not held in an account maintained by a U.S. "financial institution" (as defined in Section 6038D of the Code), whose aggregate value exceeds \$50,000 on the last day of the taxable year or \$75,000 at any time during the tax year, may be required to attach to their tax returns for the year certain specified information (on IRS Form 8938) (higher thresholds apply to married individuals filing a joint return and certain individuals residing outside of the United States). Persons who fail to timely furnish the required information may be subject to substantial penalties. Additionally, in the event a U.S. Holder does not file such a report, the statute of limitations on the assessment and collection of U.S. federal income taxes of such U.S. Holder for the related tax year may not close before such report is filed. U.S. Holders (including entities) should consult their own tax advisors regarding their reporting obligations and

## Appendices

the possible application of such reporting obligations to the holding of Common Shares.

### Government Regulations

We are subject to a variety of laws and regulations in the European Union, the United States and other countries. The level and scope of the regulation varies depending on the country or defined economic region, but may include, among other things, the research, development, testing, clinical trials, manufacture, storage, recordkeeping, approval, labeling, promotion and commercial sales and distribution, of many of our products.

#### European Union Regulations

In the European Union, in vitro diagnostic medical devices (IVDs) had been regulated under EU-Directive 98/79/EC (IVD Directive) and corresponding national provisions. The IVD Directive required that medical devices meet the essential requirements, including those relating to device safety and efficacy, set out in an annex of the Directive. According to the IVD Directive, EU Member States have presumed compliance with these essential requirements for devices that are in conformity with the relevant national standards transposing the harmonized standards, such as ISO 13485:2016, the quality system standard for medical device manufacturers.

IVD medical devices, other than devices for performance evaluation, must bear the CE marking of conformity when they are placed on the European market. The CE mark is a declaration by the manufacturer that the product meets all the appropriate provisions of the applicable legislation implementing the relevant European Directive. As a general rule, the manufacturer must follow the EU declaration of conformity procedure to obtain or apply a CE mark.

In May 2022, the Directive was replaced by the In Vitro Diagnostic Device Regulation (IVDR) (EU) 2017/746 that was published in May 2017 and given a 5-year transition period until its full implementation on May 26, 2022. Unlike the IVD Directive, the IVDR has binding legal force throughout every Member State. The major goal of the IVDR was to standardize diagnostic

procedures within the EU, increase reliability of diagnostic analysis and enhance patient safety. Under the IVDR as enacted by the European Commission (EC), IVDs are subject to additional legal regulatory requirements. Among other things, the IVDR introduces a new risk-based classification system and requirements for conformity assessments. Under the IVDR and subsequent amendments, IVDs already certified by a Notified Body under the IVD Directive may remain on the market until May 26, 2025, and IVDs certified without the involvement of a Notified Body may be placed on, or remain in, the market for up to three years (until May 26, 2028) depending on the classification of the IVD. More recently on January 23, 2024 the European Commission has published a legislative proposal which would extend the time for legacy IVDs to transition to the IVDR regulation. Nonetheless, the manufacturers of such devices must comply with specific requirements in the IVDR according to the timelines established, but ultimately, such products, as with all new IVDs, will have to undergo the IVDR's conformity assessment procedures. Under the IVD Directive the majority of QIAGEN products were classified as self-declared, while under the IVDR most of QIAGEN products will require pre-approval, and those that are in the highest risk class will have to be tested by a Designated Reference Laboratory. In addition, the IVDR imposes additional requirements relating to post-market surveillance and submission of post-market performance follow-up reports.

The EC has designated twelve (12) Notified Bodies to perform conformity assessments under the IVDR, including QIAGEN's Notified Bodies, TÜV Rheinland and BSI. MedTech Europe has issued guidance relating to the IVDR in several areas, e.g., clinical benefit, technical documentation, state of art, accessories, and EUDAMED. On December 5, 2023, the European Commission adopted Implementing Regulation (EU) 2023/2713 designating five EU Reference Laboratories covering the following types of high risk, class D IVDs: hepatitis and retroviruses; herpesviruses; bacterial agents; respiratory viruses that cause life-threatening diseases. The designated EU Reference Laboratories are responsible for verifying performance of IVDs in accordance with common specifications, batch testing of class D IVDs, collaborating with Notified Bodies to develop best practices for IVD conformity assessments, and

## Appendices

providing scientific and technical assistance on the implementation of the IVDR.

The General Data Protection Regulation (GDPR) of the European Union, imposes restrictions on the transfer, access, use, and disclosure of health and other personal information. We have implemented the requirements set forth by the GDPR, which took effect on May 25, 2018. GDPR and other EU data privacy and security laws impact our business either directly or indirectly. Our failure to comply with applicable privacy or security laws or significant changes in these laws could significantly impact our business and future business plans. For example, we may be subject to regulatory action, fines, or lawsuits in the event we fail to comply with applicable privacy laws. We may face significant liability in the event any of the personal information we maintain is lost or otherwise subject to misuse or other wrongful use, access or disclosure.

### United Kingdom

The U.K.'s withdrawal from the EU has major ramifications for IVD manufacturers. Among other things, companies now have to follow new procedures that apply in the U.K., including appointment of a U.K. Responsible Person rather than relying on European Authorized Representatives, to manage their compliance efforts in the U.K.

The U.K. Medicine and Healthcare Products Regulatory Agency (MHRA) issued guidance on how the country will regulate IVDs after January 1, 2021. According to MHRA, IVDs will require certification in the U.K., which is defined as England, Scotland and Wales, while companies will still be able to sell tests in Northern Ireland under existing EU IVD regulations. Under subsequent amendments to MHRA guidance, MHRA will continue to recognize CE marks for IVDs certified under the IVD Directive until the earlier of June 30, 2028 or the expiration of the certificate and for IVDs certified under the IVDR until June 30, 2028. Companies must register with the MHRA before placing IVDs on the U.K. market. To continue marketing CE marked IVDs in the U.K. once the designated MHRA recognition period has lapsed, companies selling in the U.K. will have to obtain a new marking authorization, called a U.K. Conformity Assessed mark (UKCA), for each IVD product.

### United States

In the United States, in vitro diagnostic products are subject to regulation by the FDA as medical devices to the extent that they are intended for use in the diagnosis, treatment, mitigation or prevention of disease or other conditions.

Certain types of tests, like some that we manufacture and sell for research use only in the United States, are not subject to the FDA's premarket review and controls because we do not promote these tests for clinical diagnostic use, and they are labeled "For Research Use Only," or RUO, as required by the FDA. Other tests, known as laboratory developed tests (LDTs), which are IVDs that are designed, manufactured and used within a single, CLIA-certified, clinical laboratory that meets applicable requirements to perform high-complexity testing, have generally been subject to enforcement discretion and not actively regulated by the FDA. As LDTs have increased in complexity, the FDA has taken steps towards developing a risk-based approach to the regulation of LDTs; however, most LDTs currently remain under FDA enforcement discretion. Congress has also signaled interest in clarifying the regulatory landscape for LDTs. Following several years of inaction by Congress on this issue, the FDA issued a proposed rule in October 2023 to regulate LDTs under the current medical device framework and proposing to phase out the current enforcement discretion policy; the public comment period ended in early December 2023. The FDA's proposal envisions that the LDT enforcement policy phase-out process would occur in gradual stages over a total period of four years, with premarket approval applications for high-risk tests to be submitted by the 3.5-year mark, although more details are expected to be provided with the upcoming final rule. However, the likelihood of the FDA finalizing the proposed rule in April 2024 (as is currently projected), as well as potential litigation challenging the agency's authority to take such action, is uncertain at this time.

Separately, members of Congress have been working with stakeholders for several years on a possible bill to regulate in vitro clinical tests including LDTs. For example, legislation called the Verifying Accurate, Leading-edge IVCT Development (VALID) Act, as drafted and re-introduced for consideration by the current Congress, would codify into law the term "in vitro clinical

## Appendices

test" (IVCT) and establish a new regulatory framework for the review and oversight of IVCTs separate and apart from the medical device framework under the Food, Drug and Cosmetic Act (FDCA). The new IVCT product category would include products currently regulated as IVDs, in addition to LDTs. The proposed regulatory framework adopts various concepts from the FDCA, utilizing a risk-based approach that aims to ensure that all marketed IVCTs have a reasonable assurance of both analytical and clinical validity.

It is unclear whether the VALID Act will be passed by Congress in its current form or signed into law by the President; if enacted, however, it is expected to require clinical laboratories to spend significant time, resources, and money towards ensuring compliance. Until the FDA finalizes LDT regulations through its recently initiated notice-and-comment rule making process, or the VALID Act or other legislation is passed reforming the federal government's current regulatory approach to LDTs, it is unknown how the FDA may regulate LDT products in the future or what testing and data may be required to support clearance or approval for such products.

Medical devices, including IVDs, are classified into one of three classes depending on the controls deemed by the FDA to be necessary to reasonably assure their safety and effectiveness. Class I devices are generally exempt from premarket review and are subject to general controls, including adherence to the FDA's Quality System Regulation (QSR), which describes device-specific current good manufacturing practices, as well as regulations requiring facility registration and product listing, reporting of adverse medical events, and appropriate, truthful and non-misleading labeling, advertising and promotional materials. Class II devices are generally subject to premarket notification (or 510(k) clearance), general controls and special controls, including performance standards, post-market surveillance, patient registries or FDA guidance documents describing device-specific special controls. Class III devices are subject to most of the previously identified requirements as well as to premarket approval (PMA). The payment of a user fee, which is typically adjusted annually, to the FDA is usually required upon filing a premarket submission (e.g., premarket notification, premarket approval application, or De Novo classification request) for FDA review.

510(k) Premarket Notification. A 510(k) premarket notification requires the sponsor to demonstrate that a medical device is substantially equivalent to another marketed device, termed a "predicate device," that is legally marketed in the United States and is not subject to premarket approval. A device is substantially equivalent to a predicate device if its intended use(s), performance, safety and technological characteristics are similar to those of the predicate; or has a similar intended use but different technological characteristics, where the information submitted to the FDA does not raise new questions of safety and effectiveness and demonstrates that the device is at least as safe and effective as the legally marketed device.

If the FDA determines that the device (1) is not substantially equivalent to a predicate device, (2) has a new intended use compared to the identified predicate, (3) has different technological characteristics that raise different questions of safety and effectiveness, or (4) has new indications for use or technological characteristics and required performance data were not provided, it will issue a "Not Substantially Equivalent" (NSE) determination. If the FDA determines that the applicant's device is substantially equivalent to the identified predicate device(s), the agency will issue a 510(k) clearance letter that authorizes commercial marketing of the device for one or more specific indications for use.

### De Novo Classification

If a previously unclassified new medical device does not qualify for the 510(k) premarket notification process because no predicate device to which it is substantially equivalent can be identified, the device is automatically classified into Class III. However, if such a device would be considered low or moderate risk (in other words, it does not rise to the level of requiring the approval of a PMA), it may be eligible for the De Novo classification process. The De Novo classification process allows a device developer to request that the novel medical device be reclassified as either a Class I or Class II device, rather than having it regulated as a high risk Class III device subject to the PMA requirements. If the manufacturer seeks reclassification into Class II, the classification request must include a draft proposal for special controls that are

## Appendices

necessary to provide a reasonable assurance of the safety and effectiveness of the medical device.

### Premarket Approval

The PMA process is more complex, costly and time consuming than either the 510(k) process or De Novo classification. A PMA must be supported by more detailed and comprehensive scientific evidence, including clinical data, to demonstrate the safety and efficacy of the medical device for its intended purpose. A clinical trial involving a “significant risk” device may not begin until the sponsor submits an investigational device exemption (IDE) application to the FDA and obtains approval to begin the trial.

After the PMA is submitted, the FDA has 45 days to make a threshold determination that the PMA is sufficiently complete to permit a substantive review. If the PMA is complete, the FDA will file the PMA and begin the substantive review process. The FDA is subject to a performance goal review time for a PMA that is 180 days from the date of filing, although in practice this review time is longer. Questions from the FDA, requests for additional data and referrals to advisory committees may delay the process considerably. The total process may take several years and there is no guarantee that the PMA will ever be approved. Even if approved, the FDA may limit the indications for which the device may be marketed. The FDA may also request additional clinical data as a condition of approval or after the PMA is approved. Any changes to the medical device may require a supplemental PMA to be submitted and approved before the modified device may be marketed.

Any products manufactured and sold by us pursuant to FDA clearances or approvals will be subject to pervasive and continuing regulation by the FDA, including quality system requirements, record-keeping requirements, reporting of adverse experiences with the use of the device and restrictions on the advertising and promotion of our products. Device manufacturers are required to register their establishments and list their devices with the FDA and are subject to periodic inspections by the FDA and certain state agencies. Noncompliance with applicable FDA requirements can result in, among other things, warning letters, fines, injunctions, civil penalties, recalls or seizures of products, total or partial suspension of production, refusal of the FDA to grant

for new devices, withdrawal of existing marketing authorizations and criminal prosecution.

As a result of the COVID-19 pandemic, the Secretary of the U.S. Department of Health and Human Services declared a public health emergency and authorized the FDA to issue emergency use authorizations (EUAs) to provide more timely access to critical medical countermeasures (including medicines and diagnostic tests) when there are no adequate, approved, and available alternative options. EUAs remain in effect until the device emergency use declarations related to COVID-19 under Section 564 of the FDCA are terminated, unless the FDA decides to revise or revoke an EUA at an earlier point as the agency considers public health needs during the emergency and new data on an authorized product’s safety and effectiveness, or as products meet the criteria for FDA approval or clearance. Manufacturers of several types of SARS-CoV-2 assays have been granted EUAs, including QIAGEN. The FDA has indicated the withdrawal of EUAs for COVID-19 countermeasures will be done in a gradual, phased process and issued final guidance on a transitional plan.

### Regulation of Companion Diagnostic Devices

If a sponsor or the FDA believes that a diagnostic test is essential for the safe and effective use of a corresponding therapeutic product, the sponsor of the therapeutic product will typically work with a collaborator to develop an in vitro companion diagnostic device. The FDA defines an IVD companion diagnostic device as a device that provides information that is essential for the safe and effective use of a corresponding therapeutic product.

The FDA has also introduced the concept of complementary diagnostics that are distinct from companion diagnostics because they provide additional information about how a drug is used or identify patients who are likely to derive the greatest benefit from therapy without being required for the safe and effective use of that drug. The FDA has not yet provided much guidance on the regulation and use of complementary diagnostics, but several have been approved.

## Appendices

The FDA indicated that it will apply a risk-based approach to determine the regulatory pathway for IVD companion diagnostic devices, as it does with all medical devices. This means that the regulatory pathway will depend on the level of risk to patients, based on the intended use of the IVD companion diagnostic device and the controls necessary to provide a reasonable assurance of safety and effectiveness. We expect that any IVD companion diagnostic device that we develop will utilize the PMA pathway and that a clinical trial performed under an IDE will have to be completed before the PMA may be submitted.

The FDA expects that the therapeutic sponsor will address the need for an IVD companion diagnostic device in its therapeutic product development plan and that, in most cases, the therapeutic product and its corresponding IVD companion diagnostic device will be developed contemporaneously. If the companion diagnostic test will be used to make critical treatment decisions such as patient selection, treatment assignment, or treatment arm, it will likely be considered a significant risk device for which a clinical trial will be required.

The sponsor of the IVD companion diagnostic device will be required to comply with the FDA's IDE requirements that apply to clinical trials of significant risk devices. If the diagnostic test and the therapeutic drug are studied together to support their respective approvals, the clinical trial must meet both the IDE and IND requirements.

### Regulation of Research Use Only Products

Some of our products are sold for research purposes in the United States, and labeled "For Research Use Only" (RUO) or "for molecular biology applications." RUO refers to devices that are in the laboratory phase of development, while investigational use only, or IVO, refers to devices that are in the product testing phase of development. These types of devices are exempt from most regulatory controls pursuant to long-standing FDA guidance on RUO/IVO diagnostics. Because we do not promote our RUOs for clinical diagnostic use, or provide technical assistance to clinical laboratories with respect to these tests, we believe that these tests are exempt from FDA's premarket review and other requirements. If the FDA were to disagree with our

designation of any of these products, we could be forced to stop selling the product until we obtain appropriate regulatory clearance or approval. Further, it is possible that some of our RUOs may be used by some customers without our knowledge in their LDTs, which they may then develop, validate and promote for clinical use. However, QIAGEN does not promote these products for use in LDTs or assist in the development of such LDTs for clinical diagnostic use.

### HIPAA and Other Privacy and Security Laws

The Health Insurance Portability and Accountability Act of 1996 (HIPAA), established comprehensive federal standards for the privacy and security of health information. The HIPAA standards apply to health plans, healthcare clearing houses, and healthcare providers that conduct certain healthcare transactions electronically (Covered Entities), as well as individuals or entities that perform services for them involving the use, or disclosure of, individually identifiable health information or "protected health information" under HIPAA. Such service providers are called "Business Associates." Title II of HIPAA, the Administrative Simplification Act, contains provisions that address the privacy of health data, the security of health data, the standardization of identifying numbers used in the healthcare system and the standardization of certain healthcare transactions. The privacy regulations protect medical records and other protected health information by limiting their use and release, giving patients the right to access their medical records and limiting most disclosures of health information to the minimum amount necessary to accomplish an intended purpose. The HIPAA security standards require the adoption of administrative, physical, and technical safeguards and the adoption of written security policies and procedures to maintain the security of protected health information.

Congress subsequently enacted Subtitle D of the Health Information Technology for Economic and Clinical Health Act (HITECH) provisions of the American Recovery and Reinvestment Act of 2009. HITECH expanded and strengthened HIPAA, created new targets for enforcement, imposed new penalties for noncompliance and established new breach notification requirements for Covered Entities and Business Associates.

## Appendices

Under 'HITECH's breach notification requirements, Covered Entities must report breaches of protected health information that has not been encrypted or otherwise secured. Required breach notices must be made as soon as is reasonably practicable, but no later than 60 days following discovery of the breach. Reports must be made to affected individuals and to the Secretary and, in some cases depending on the size of the breach, they must be reported through local and national media. Breach reports can lead to investigation, enforcement and civil litigation, including class action lawsuits.

Our Redwood City entity serves in some cases as a Business Associate to customers who are subject to the HIPAA regulations. In this capacity, we maintain an active compliance program that is designed to identify security incidents and other issues in a timely fashion and enable us to remediate, mitigate harm or report if required by law. We are subject to prosecution and/or administrative enforcement and increased civil and criminal penalties for non-compliance, including a four-tiered system of monetary penalties adopted under HITECH. We are also subject to enforcement by state attorneys general who were given authority to enforce HIPAA under HITECH. To avoid penalties under the HITECH breach notification provisions, we must ensure that breaches of protected health information are promptly detected and reported within the company, so that we can make all required notifications on a timely basis. However, even if we make required reports on a timely basis, we may still be subject to penalties for the underlying breach.

California has also adopted the California Consumer Privacy Act of 2018, or CCPA, which took effect on January 1, 2020 and became enforceable by the state attorney general on July 1, 2020. The CCPA establishes a new privacy framework for covered businesses by creating an expanded definition of personal information, establishing new data privacy rights for consumers in the State of California, imposing special rules on the collection of consumer data from minors, and creating a new and potentially severe statutory damages framework for violations of the CCPA and for businesses that fail to implement reasonable security procedures and practices to prevent data breaches.

The regulations issued under the CCPA have been modified several times. Additionally, a new privacy law, the California Privacy Rights Act, or CPRA,

was approved by California voters in the election on November 3, 2020. The CPRA imposes additional data protection obligations on companies doing business in California, including additional consumer rights processes, limitations on data uses, new audit requirements for higher risk data, and opt outs for certain uses of sensitive data. It also created a new California data protection agency authorized to issue substantive regulations and could result in increased privacy and information security enforcement. The majority of the provisions became effective on January 1, 2023, and additional compliance investment and potential business process changes may be required. Similar laws have been adopted in other states (for example, Nevada, Virginia, Connecticut, Utah and Colorado) or proposed in other states and at the federal level, and if passed, such laws may have potentially conflicting requirements that would make compliance challenging.

Many states have also implemented genetic testing and privacy laws imposing specific patient consent requirements and protecting test results by strictly limiting the disclosure of those results. State requirements are particularly stringent regarding predictive genetic tests, due to the risk of genetic discrimination against healthy patients identified through testing as being at a high risk for disease. We believe that we have taken the steps required of us to comply with health information privacy and security statutes and regulations, including genetic testing and genetic information privacy laws in all jurisdictions, both state and federal. However, these laws constantly change, and we may not be able to maintain compliance in all jurisdictions where we do business. Failure to maintain compliance, or changes in state or federal laws regarding privacy or security could result in civil and/or criminal penalties, significant reputational damage and could have a material adverse effect on our business.

### U.S. Fraud and Abuse Laws and Other Healthcare Regulations

A variety of state and federal laws prohibit fraud and abuse involving state and federal healthcare programs, as well as commercial insurers. These laws are interpreted broadly and enforced aggressively by various federal and state agencies, including the Centers for Medicare & Medicaid Services (CMS), the Department of Justice (DOJ), and the Office of Inspector General for the U.S.

## Appendices

Department of Health and Human Services (OIG). The Company seeks to conduct its business in compliance with all applicable federal and state laws.

State and federal fraud and abuse laws may be interpreted and applied differently, and arrangements and business practices could be subject to scrutiny under them by federal or state enforcement agencies. Sanctions for violations of these laws could result in a wide range of penalties, including but not limited to significant criminal sanctions, civil fines and penalties.

### The Anti-Kickback Statute

The federal Anti-Kickback Statute (AKS) is a criminal statute that prohibits, in pertinent part, persons from knowingly and willfully soliciting, receiving, offering or paying remuneration, directly or indirectly, in cash or in kind, in exchange for or to induce a person:

- To refer an individual to a person for the furnishing or arranging for the furnishing of any item or service for which payment may be made by federal healthcare programs; or
- To purchase, lease, order, or arrange for or recommend purchasing, leasing, or ordering, any good, facility, service, or item for which payment may be made by a federal healthcare program.

A person or entity does not need to have actual knowledge of the AKS or specific intent to violate it to have committed a violation. Recognizing that the AKS is broad and potentially applies to innocuous or beneficial arrangements, the OIG issued regulations, commonly known as “safe harbors,” which set forth certain requirements that, if fully met, insulate a given arrangement or conduct from prosecution under the AKS. The AKS also has statutory exceptions that provide protection similar to that of safe harbors. If, however, an arrangement does not meet every requirement of an exception or safe harbor, the arrangement does not necessarily violate the AKS. A facts-and-circumstances analysis is necessary to determine AKS compliance or lack thereof. Potential statutory penalties for violating the AKS include imprisonment and criminal fines. In addition, through application of other laws, conduct that violates the AKS can give rise to civil monetary penalties and possible exclusion from participation in Medicare, Medicaid, and other federal

healthcare programs. Claims including items or services resulting from a violation of the AKS also constitute a false or fraudulent claim for purposes of the False Claims Act.

In addition to the federal AKS, many states have their own anti-kickback laws. Often, these laws closely follow the language of the federal law, although they do not always have the same scope, exceptions, safe harbors or sanctions. In some states, these anti-kickback laws apply to both state healthcare programs and commercial insurers. The penalties for violating state anti-kickback provisions can be severe, including criminal and civil penalties (including penalties under the state false claims law), imprisonment, and exclusion from state healthcare programs.

### The False Claims Act

The federal False Claims Act (FCA) imposes civil liability on any person or entity that, among other things, knowingly presents, or causes to be presented, to the federal government, claims for payment that are false or fraudulent; knowingly makes, uses or causes to be made or used, a false statement or record material to a false or fraudulent claim or obligation to pay or transmit money or property to the federal government; or knowingly conceals or knowingly and improperly avoids or decreases an obligation to pay money to the federal government. The FCA also prohibits the knowing retention of overpayments (sometimes referred to as “reverse false claims”).

In addition, the FCA permits a private individual acting as a “whistleblower” (also referred to as a “relator”) to bring FCA actions on behalf of the federal government under the statute’s qui tam provisions, and to share in any monetary recovery. The federal government may elect or decline to intervene in such matters, but if the government declines intervention, the whistleblower may still proceed with the litigation on the government’s behalf.

Penalties for violating the FCA include payment of up to three times the actual damages sustained by the government, plus substantial per-claim statutory penalties, as well as possible exclusion from participation in federal healthcare programs.

## Appendices

Various states have enacted similar laws modeled after the FCA that apply to items and services reimbursed under Medicaid and other state healthcare programs, and, in several states, such laws apply to claims submitted to any payor, including commercial insurers.

There is also a federal criminal false claims statute that prohibits, in pertinent part, the making or presentation of a false claim, knowing such claim to be false, to any person or officer in the civil, military, or naval service or any department or agency thereof. Potential penalties for violating this statute include fines or imprisonment.

### Health Care Fraud and False Statements

The federal healthcare fraud statute criminalizes, in pertinent part, knowingly and willfully defrauding a healthcare benefit program, which is defined to include commercial insurers. A violation of this statute may result in fines, imprisonment, or exclusion from participation in federal healthcare programs. The federal criminal statute prohibiting false statements relating to health care matters prohibits, in pertinent part, knowingly and willfully (i) falsifying, concealing, or covering up a material fact, or (ii) making a materially false, fictitious, or fraudulent statement or representation, or making or using any materially false writing or document knowing that writing or document to contain any materially false, fictitious, or fraudulent statements, in connection with the delivery of or payment for healthcare benefits, items, or services. A violation of this statute may result in fines or imprisonment.

### Civil Monetary Penalties Law

The federal Civil Monetary Penalties Law (CMP Law) prohibits, among other things, (1) the offering or transfer of remuneration to a beneficiary of Medicare or a state healthcare program if the person knows or should know it is likely to influence the beneficiary's selection of a particular provider, practitioner, or supplier of services reimbursable by Medicare or a state healthcare program, unless an exception applies; (2) employing or contracting with an individual or entity that the provider knows or should know is excluded from participation in a federal healthcare program; (3) billing for services requested by an unlicensed physician or an excluded provider; and (4) billing for medically

unnecessary services. The potential penalties for violating the CMP Law include exclusion from participation in federal healthcare programs, substantial fines, and payment of up to three times the amount billed, depending on the nature of the offense.

### Physician Payments Sunshine Act

The federal Physician Payments Sunshine Act (Sunshine Act) imposes reporting requirements on manufacturers of certain devices, drugs, biologics, and medical supplies for which payment is available under Medicare, Medicaid, or the Children's Health Insurance Program (CHIP), with certain exceptions. Manufacturers to which the Sunshine Act applies must collect and report annually certain data on certain payments and transfers of value by them (and in some cases their distributors) to physicians, teaching hospitals, and certain advanced non-physician healthcare practitioners, as well as ownership and investment interests held by physicians and their immediate family members. For reporting beginning January 1, 2022, U.S.-licensed physician assistants, clinical nurse specialists, certified nurse-midwives, certified nurse anesthetists, and nurse practitioners must be included in the provider types subject to Sunshine Act reporting. The reporting program (known as the Open Payments program) is administered by CMS.

There are also an increasing number of state "sunshine" laws that require manufacturers to provide reports to state governments on pricing and marketing information. Several states have enacted legislation requiring manufacturers, including medical device companies to, among other things, establish marketing compliance programs, file periodic reports with the state, make periodic public disclosures on sales and marketing activities, and to prohibit or limit certain other sales and marketing practices.

Failure to comply with the Sunshine Act or state equivalents could result in civil monetary penalties, among other sanctions, depending upon the nature of the violation.

### Foreign Corrupt Practices Act

Despite extensive procedures to ensure compliance, we may also be exposed to liabilities under the U.S. Foreign Corrupt Practices Act (FCPA), which

## Appendices

generally prohibits companies and their intermediaries from making corrupt payments to foreign officials for the purpose of obtaining or maintaining business or otherwise obtaining favorable treatment, and requires companies to maintain adequate record-keeping and internal accounting practices to accurately reflect the transactions of the company. We are also subject to a number of other laws and regulations relating to money laundering, international money transfers and electronic fund transfers. These laws apply to companies, individual directors, officers, employees and agents.

### Environment, Health and Safety

We are subject to laws and regulations related to the protection of the environment, the health and safety of employees and the handling, transportation and disposal of medical specimens, infectious and hazardous waste and radioactive materials. For example, the U.S. Occupational Safety and Health Administration (OSHA) has established extensive requirements relating specifically to workplace safety for healthcare employers in the U.S. This includes requirements to develop and implement multi-faceted programs to protect workers from exposure to blood-borne pathogens, such as HIV and hepatitis B and C, including preventing or minimizing any exposure through needle stick injuries. For purposes of transportation, some biological materials and laboratory supplies are classified as hazardous materials and are subject to regulation by one or more of the following agencies: the U.S. Department of Transportation, the U.S. Public Health Service, the United States Postal Service and the International Air Transport Association. The U.S. Environmental Protection Agency (EPA) has also promulgated regulations setting forth importation, labelling, and registration requirements, among others, which may apply to certain products and/or establishments of the company.

### Rest of the World Regulation

In addition to regulations in the United States and the EU, we are subject to a variety of regulations governing clinical studies and commercial sales and distribution of molecular testing instruments, consumables and digital solutions in other jurisdictions around the world. These laws and regulations typically require the licensing of manufacturing facilities, as well as controlled research, testing and governmental authorization of product candidates. Additionally,

they may require adherence to good manufacturing, clinical and laboratory practices.

We must obtain approval from regulatory authorities in all countries where we distribute our products. The requirements governing the conduct of product authorization, pricing and reimbursement vary greatly from country to country. If we fail to comply with applicable regulatory requirements, we may be subject to, among other things, fines, suspension or withdrawal of regulatory approvals, product recalls, seizure of products, operating restrictions, or criminal prosecution.

### Reimbursement

#### United States

In the United States, payments for diagnostic tests come from several sources, including commercial insurers, (which might include health maintenance organizations and preferred provider organizations); government healthcare programs (such as Medicare or Medicaid); and, in many cases, the patients themselves. For many years, federal and state governments in the United States have pursued methods to reduce the cost of healthcare delivery. For example, in 2010, the United States enacted major healthcare reform legislation known as the Patient Protection and Affordable Care Act (ACA). Such changes have had, and are expected to continue to have, an impact on our business.

In addition, in August 2011, the Budget Control Act of 2011, among other things, created measures for spending reductions by Congress. A Joint Select Committee on Deficit Reduction, tasked with recommending a targeted deficit reduction of at least \$1.2 trillion for the years 2013 through 2021, was unable to reach required goals, thereby triggering the legislation's automatic reduction to several government programs. This includes aggregate reductions of Medicare payments to providers up to 2% per fiscal year, and, due to subsequent legislative amendments, will remain in effect through 2032 unless additional Congressional action is taken.

We frequently identify value propositions on our products and communicate them to payors, providers, and patient stakeholders and attempt to positively

## Appendices

impact coverage, coding and payment pathways. However, we have no direct control over payor decisions with respect to coverage and payment levels for our products. The manner and level of reimbursement may depend on the site of care, the procedure(s) performed, the final patient diagnosis, the device(s) and/or drug(s) utilized, the available budget, or a combination of these factors, and coverage and payment levels are determined at each payor's discretion. Changes in reimbursement levels or methods may positively or negatively affect sales of our products in any given country for any given product. At QIAGEN, we work with several specialized reimbursement consulting companies and maintain regular contact with payors.

As government programs seek to expand healthcare coverage for their citizens, they have at the same time sought to control costs by limiting the amount of reimbursement they will pay for particular procedures, products or services. Many third-party payors have developed payment and delivery mechanisms to support cost control efforts and to focus on paying for quality. Such mechanisms include payment reductions, pay-for-performance metrics, quality-based performance payments, restrictive coverage policies, studies to compare effectiveness and patient outcomes, and technology assessments. These changes have increased emphasis on the delivery of more cost-effective and quality-driven healthcare.

### Code Assignment

In the United States, a third-party payor's decisions regarding coverage and payment are impacted, in large part, by the specific Current Procedural Terminology (CPT) code used to identify a test. The American Medical Association (AMA) publishes the CPT, which identifies codes, along with descriptions, for reporting medical services and procedures. The purpose of the CPT is to provide a uniform language that accurately describes medical, surgical, and diagnostic services and therefore to ensure reliable nationwide communication among healthcare providers, patients, and third-party payors. CMS uses its own Healthcare Common Procedure Coding System (HCPCS) codes for medical billing and reimbursement purposes. Level I HCPCS codes are comprised of current CPT codes, while Level II HCPCS codes primarily represent non-physician services and Level III HCPCS codes are local codes

developed by Medicaid agencies, Medicare contractors and commercial insurers. Proprietary Laboratory Analyses (PLA) Codes are an addition to the CPT® code set approved by the AMA CPT® Editorial Panel. They are alphanumeric CPT codes with a corresponding descriptor for labs or manufacturers that want to more specifically identify their test.

A manufacturer of in vitro diagnostic kits or a provider of laboratory services may request establishment of a Category I CPT code for a new product or a PLA Code or both. In addition, Z-Code identifiers are unique five-character alphanumeric tracking codes associated with a specific molecular diagnostic test. When a claim is submitted, it includes the associated CPT code and the Z-Code identifier is entered as a device code. Assignment of a specific CPT code ensures routine processing and payment for a diagnostic test by both commercial insurers and government payors.

The AMA has specific procedures for establishing a new CPT code and, if appropriate, for modifying existing nomenclature to incorporate a new test into an existing code. If the AMA concludes that a new code or modification of nomenclature is unnecessary, the AMA will inform the requestor how to use one or more existing codes to report the test.

While the AMA's decision is pending, billing and collection may be sought under an existing, non-specific CPT code. A manufacturer or provider may decide not to request assignment of a CPT code and instead use an existing, non-specific code for reimbursement purposes. However, use of such codes may result in more frequent denials and/or requests for supporting clinical documentation from the third-party payor and in lower reimbursement rates, which may vary based on geographical location.

CMS reimbursement rates for clinical diagnostic tests are defined by CPT and HCPCS codes in the Clinical Laboratory Fee Schedule (CLFS). In 2012, the AMA added 127 new CPT codes for molecular pathology services that became effective on January 1, 2013. These new CPT codes are biomarker specific and were designed to replace the previous methodology of billing for molecular pathology testing, which involved "stacking" a series of non-biomarker specific CPT codes together to describe the testing performed. CMS

## Appendices

issued final national reimbursement prices for the new CPT codes in November 2013. These federal reimbursement amounts are widely acknowledged to be lower than the reimbursement obtained by the now outdated “stacking” method, but commercial insurers and Medicare contractors are still in the process of solidifying their coverage and reimbursement policies for the testing described by these new CPT codes.

As of January 1, 2018, in accordance with the Protecting Access to Medicare Act of 2014 (PAMA), applicable laboratories are required to report to CMS commercial insurer payment rates and volumes for their tests. CMS uses the data reported and the HCPCS code associated with the test to calculate a weighted median payment rate for each test, which is used to establish revised Medicare CLFS reimbursement rates for certain clinical diagnostic laboratory tests (CDLTs), subject to certain phase-in limits. For a CDLT that is assigned a new or substantially revised CPT code, the initial payment rate is assigned using the gap-fill methodology.

If the test at issue falls into the category of new advanced diagnostic laboratory test (ADLT) instead of CDLT, the test will be paid based on an actual list charge for an initial period of three quarters, before being shifted to the weighted median commercial insurer rate reported by the laboratory performing the ADLT. Laboratories offering ADLTs are subject to recoupment if the actual list charge exceeds the weighted median private payor rate by a certain amount.

Since December 2019, Congress has passed a series of laws to modify PAMA’s statutory requirements related to the data reporting period and phase-in of payment reductions under the CLFS for CDLTs that are not ADLTs. Most recently, the Further Continuing Appropriations and Other Extensions Act of 2024 (Pub. L. 118-22, enacted on November 16, 2023) further delayed the reporting requirement as well as the application of the 15 percent phase-in reduction. Under these statutory provisions, the next data reporting period for CDLTs that are not ADLTs will be January 1, 2025 through March 31, 2025, and will be based on the most recent data collection period of January 1, 2019 through June 30, 2019. After this data reporting period, the three-year data reporting cycle for these tests will resume (e.g., 2028, 2031, etc.).

This same series of laws passed since December 2019 also modified the phase-in of payment reductions resulting from private payor rate implementation so that a 0.0 percent reduction limit was applied for calendar years 2021 through 2023, as compared to the payment amounts for a test the preceding year. The Further Continuing Appropriations and Other Extensions Act of 2024 further applied a 0.0 reduction limit for calendar year 2024. As a result, payment may not be reduced by more than 15 percent per year for calendar years 2025, 2026, and 2027, as compared to the payment amount established for a test the prior year.

CMS’s methodology under PAMA (as well as the willingness of commercial insurers to recognize the value of diagnostic testing and pay for that testing accordingly) renders commercial insurer payment levels even more significant. This calculation methodology has resulted in significant reductions in reimbursement, even though CMS imposed caps on those reductions. Given the many uncertainties built into PAMA’s price-setting process, it is difficult to predict how payments made by CMS under the CLFS may change from year to year.

### Coverage Decisions

When deciding whether to cover a particular diagnostic test, third-party payors generally consider whether the test is a medically necessary and, if so, whether the test will directly impact clinical decision making. For coverage, the testing method should be considered scientifically valid to identify the specific gene biomarker or gene mutation, and must have been demonstrated to improve clinical outcomes for the patient’s condition. Coverage of a drug therapy and its companion diagnostic for cancer treatment indications may be validated by a NCCN category 1, 2A or 2B recommendation. However, most third-party payors do not cover experimental services. Coverage determinations are often influenced by current standards of practice and clinical data, particularly at the local level. CMS has the authority to make coverage determinations on a national basis, but most Medicare coverage decisions are made at the local level by contractors that administer the Medicare program in specified geographic areas. Commercial insurers and government payors have separate processes for making coverage

## Appendices

determinations, and commercial insurer may or may not follow Medicare's coverage decisions. If a third-party payor has a coverage determination in place for a particular diagnostic test, billing for that test must comply with the established policy. Otherwise, the third-party payor makes reimbursement decisions on a case-by-case basis.

### Payment

Payment for covered diagnostic tests is determined based on various methodologies, including prospective payment systems and fee schedules. In addition, commercial insurers may negotiate contractual rates with participating providers, establish fee schedule rates, or set rates as a percentage of the billed charge. Diagnostic tests furnished to Medicare inpatients generally are included in the bundled payment made to the hospital under Medicare's Inpatient Prospective Payment System, utilizing Diagnosis Related Groups (DRGs) depending on the patient's condition. Payment rates for diagnostic tests furnished to Medicare beneficiaries in outpatient settings are the lesser of the amount billed, the local fee for a geographic area, or a national limit. Each year, the fee schedule is updated for inflation and could be modified by Congress in accordance with the CLFS rules and provisions. Medicaid programs generally pay for diagnostic tests based on a fee schedule, but reimbursement varies by geographic region.

### European Union

In the European Union, the reimbursement mechanisms used by private and public health insurers vary by country. For the public systems, reimbursement is determined by guidelines established by the legislator or responsible national authority. As elsewhere, inclusion in reimbursement catalogues focuses on the medical usefulness, need, quality and economic benefits to patients and the healthcare system. Acceptance for reimbursement comes with cost, use, and often volume restrictions, which again can vary by country.

## Exchange Controls

There are currently no limitations either under the laws of the Netherlands or in our Articles, to the rights of shareholders from outside the Netherlands to hold or vote Common Shares. Under current foreign exchange regulations in the Netherlands, there are no material limitations on the amount of cash payments that we may remit to residents of foreign countries.

## Documents on Display

Documents referred to in this Annual Report may be inspected at our principal executive office located at Hulsterweg 82, 5912 PL Venlo, The Netherlands. We file reports, including annual reports on Form 20-F, furnish periodic reports on Form 6-K and other information with the SEC pursuant to the rules and regulations of the SEC that apply to foreign private issuers. The SEC website at [www.sec.gov](http://www.sec.gov) contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC, from which the public may obtain any materials the company files with the SEC. The address of the SEC's website is provided solely for information purposes and is not intended to be an active link.

## Controls and Procedures

### Disclosure Controls and Procedures

Our Managing Directors, with the assistance of other members of management, performed an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as that term is defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended, within 90 days of the date of this Annual Report. Based on that evaluation, they concluded that as of December 31, 2023, our disclosure controls and procedures were effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods

## Appendices

specified in the SEC’s rules and forms, and is accumulated and communicated to our management, including our Managing Directors, as appropriate to allow timely decisions regarding required disclosure.

There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, no matter how well designed, such as the possibility of human error and the circumvention or overriding of the controls and procedures. Therefore, even those systems determined to be effective may not prevent or detect misstatements and can provide only reasonable assurance of achieving their control objectives. In addition, any determination of effectiveness of controls is not a projection of any effectiveness of those controls to future periods, as those controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

### Report of Management on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934, as amended. The Company’s system of internal controls over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the consolidated financial statements in accordance with generally accepted accounting principles.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements and even when determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Our management assessed the effectiveness of the Company’s internal control over financial reporting as of December 31, 2023. In making this assessment, management used the updated criteria set forth in 2013 by the Committee of

Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control-Integrated Framework.

Based on our assessment under the COSO Internal Control-Integrated Framework, management believes that, as of December 31, 2023, our internal control over financial reporting is effective.

### Attestation Report of the Independent Registered Public Accounting Firm

KPMG AG Wirtschaftsprüfungsgesellschaft, the independent registered public accounting firm that audited our consolidated financial statements prepared in accordance with U.S. generally accepted accounting principles (GAAP) as of and for the year ended December 31, 2023, has also audited the effectiveness of the Company’s internal control over financial reporting as of December 31, 2023. Their reports are included in this Annual Report on Form 20-F beginning on page 99.

### Changes in Internal Control over Financial Reporting

There has been no change in our internal control over financial reporting during 2023 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

## Appendices

### Disclosure pursuant to Section 219 of the Iran Threat Reduction & Syria Human Rights Act (ITRA)

QIAGEN is a global leader in Sample to Insight solutions that transform biological samples into valuable molecular insights. QIAGEN GmbH, our subsidiary located in Hilden, Germany, has conducted limited business with certain Iranian and Syrian entities consisting of sales for our consumables and instrumentation products. In 2023, sales to Iran totaled \$1.4 million, or approximately 0.07% of our consolidated net sales, and were primarily for consumables labelled for use in diagnostic testing for tuberculosis (QuantiFERON tests) and the detection of amniotic fluid (AmniSure ROM test). These transactions were processed through two distributors and under general license by the Office of Foreign Assets Control (OFAC) for Medicine and Medical Devices and in compliance with German and European Union customs regulations and do not include any products that are “dual-use” products or products requiring special clearance from the German customs authorities. There were no sales to Syria in 2023.

Although these activities are compliant with applicable law and not financially material, the Iran Threat Reduction and Syria Human Rights Act of 2012 (the Act) requires us to include the following disclosures in this Annual Report. U.S. affiliates, or foreign affiliates controlled by U.S. affiliates, are not involved in these sales activities and we have not knowingly conducted a transaction

or dealt with a person or entity designated in U.S. Executive Orders No. 13224 and 13382. No business has been transacted with the Governments of Iran or Syria as defined in the Act. We do not believe any of our activities are sanctionable under the Iran Sanctions Act or the Comprehensive Iran Sanctions, Accountability, and Divestment Act of 2010.

In light of the nature of the products concerned, we do not currently anticipate any change in activities in Iran that would result in a material impact on QIAGEN. We do not have any employees in Iran or Syria.

QIAGEN N.V.

By: /s/ Thierry Bernard

Thierry Bernard, Chief Executive  
Officer

/s/ Roland Sackers

Roland Sackers, Chief Financial  
Officer

The undersigned:

Casper Robert Nagtegaal, candidate civil law notary, acting for Professor Martin van Olfen, civil law notary Amsterdam, declares with respect to the articles of association (the "**Articles of Association**") of the public limited liability company: **QIAGEN N.V.**, with seat in Venlo, the Netherlands (the "**Company**") as follows:

- (i) the Articles of Association correspond with the document in the Dutch language which is attached to this declaration;
- (ii) the document in the English language attached to this declaration is an unofficial translation of the Articles of Association; if differences occur in the translation, the Dutch text will govern by law; and
- (iii) the Articles of Association were mostly recently amended by deed (the "**Deed**") executed on 29 January 2024 before a deputy of Professor M. van Olfen, civil law notary in Amsterdam.

When issuing the statements included above under (i) and (iii) I, C.R. Nagtegaal, deputy, based any observations entirely on the information stated in the extract from the Trade Register of the registration of the Company and on an official copy of the Deed.

Signed in Amsterdam on 29 January 2024.

**ARTICLES OF ASSOCIATION**

of:

QIAGEN N.V.

with seat in Venlo

dated 29 January 2024

**Name, Seat.****Article 1.**

- 1.1. The name of the company is: **QIAGEN N.V.**
- 1.2. The company is established at Venlo, the Netherlands.

**Objects.****Article 2.**

The objects of the company are:

- a. to incorporate, acquire, participate in, finance, manage and to have any other interest in other companies or enterprises of any nature;
- b. to perform activities in the field of the biotechnology industry;
- c. to raise funds by way of securities, bank loans, bond issues, notes and to borrow in any other way, to lend, to provide guarantees, including guarantees for debts of other persons, to assume commitments in the name of any enterprises with which it may be associated within a group of companies,

and to perform all acts which in the broadest sense of the term, may be connected with or may be conducive to the foregoing.

**Capital.****Article 3.**

- 3.1. The authorised capital of the company amounts to nine million euro (EUR 9,000,000), divided into four hundred and ten million (410,000,000) ordinary shares of one eurocent (EUR 0.01) each, forty million (40,000,000) financing preference shares of one eurocent (EUR 0.01) each and four hundred and fifty million (450,000,000) preference shares of one eurocent (EUR 0.01) each.
- 3.2. Where in these articles of association reference is made to shares and shareholders it shall include respectively the ordinary shares, the financing preference shares and the preference shares and the holders of ordinary shares, the holders of financing preference shares and the holders of preference shares unless the contrary is expressly stated.

**Issuance of shares. Pre-emptive rights.****Article 4.**

- 4.1. The supervisory board shall have the power to resolve upon the issue of shares and to determine the price and further terms and conditions of such share issue, if and in so far as the supervisory board has been designated by the general meeting of shareholders, hereinafter referred to as: the general meeting, as the authorized "orgaan" (corporate body) for this purpose. A designation as referred to above shall only be valid for a specific period of no more than five years and may from time to time be extended with a period of no more than five years.
- 4.2. If a designation as referred to in paragraph 1 is not in force, the general meeting of shareholders shall have power to resolve upon the issue of shares, but only upon the

DE BRAUW  
BLACKSTONE  
WESTBROEK

- proposal of and for a price and against such further terms and conditions to be determined by the supervisory board.
- 4.3. In the event of an issue of ordinary shares, the shareholders shall have a pre-emptive right in proportion to the number of ordinary shares which they own. Holders of preference shares and holders of financing preference shares shall have no pre-emptive right in respect of shares to be issued. Holders of ordinary shares shall have no pre-emptive right in respect of preference shares or financing preference shares to be issued. In respect of the issue of shares there shall be no pre-emptive right to shares issued against a contribution other than in cash or issued to employees of the company or of a group company. The supervisory board shall have the power to limit or exclude any pre-emptive rights to which shareholders shall be entitled, but only if and in so far as it has been granted such authority by the general meeting, and provided further that the supervisory board can only exercise such authority if at that time it also has authority to resolve upon the issue of shares. The provisions in the second sentence of paragraph 1 of this article shall equally apply.
- 4.4. If a designation as referred to in paragraph 3 is not in force, the general meeting shall have power to limit or exclude any pre-emptive rights to which shareholders shall be entitled, but only upon the proposal of the supervisory board.
- 4.5. A resolution by the general meeting in accordance with paragraph 3 or 4 of this article requires in order to be validly adopted a majority of at least two-thirds of the votes cast in a meeting of shareholders if less than fifty per cent (50%) of the issued share capital is present or represented.
- 4.6. A previous or simultaneous approving resolution of each group of holders of shares of the same class whose rights are prejudiced by such issue shall be required for the validity of a resolution of the general meeting to issue shares or to designate the supervisory board as referred to above.
- 4.7. This article 4 shall equally apply to the granting of rights to subscribe for shares, but shall not apply to the issue of shares to a person who exercises a previously acquired right to subscribe for shares, in which case no pre-emptive right exists.
- 4.8. A resolution to issue preference shares shall only be valid in the event that:
- 1) in the opinion of the supervisory board, a Person, who is not a Founding Shareholder of the company as defined below, shall, alone or pursuant to a mutual arrangement for co-operation jointly with one or more other Persons, directly or indirectly have acquired or given notice of an intent to acquire (beneficial) ownership of a nominal amount of ordinary shares or financing preference shares, which in aggregate equals twenty percent (20%) or more of the share capital of the company then outstanding in the form of ordinary shares and of financing preference shares; or
  - 2) the supervisory board shall declare any Person to be an Adverse Person, upon a determination that such Person, alone or together with its Affiliates and Associates, has become the (beneficial) owner of a nominal amount of ordinary shares or financing preference shares which the supervisory board determines to be substantial (which amount shall in no event be less than ten per cent (10%) of the shares then outstanding) and a determination by the supervisory board after reasonable inquiry and investigation, which may include a review of the public record regarding such Person and any information the supervisory board may request from such Person and consultation with such persons as such board members shall deem appropriate, that (a) such (beneficial) Ownership by such Person is intended to cause the company to repurchase the shares (beneficially) owned by such Person or to cause pressure on the company to

**DE BRAUW  
BLACKSTONE  
WESTBROEK**

take action or enter into a transaction or series of transactions intended to provide such Person with short-term financial gain under circumstances where such members of the supervisory board determine that the best long term interest of the company and its shareholders would not be served by taking such action or entering into such transaction or series of transactions at that time or (b) such (beneficial) ownership by such Person is causing or is reasonably likely to cause a material adverse impact (including but not limited to, impairment of relationships with customers or impairment of the company's ability to maintain its competitive position) on the business prospects of the company.

The holding of shares, or the acquisition of shares for the purposes of the preceding sentence includes the having of a right of usufruct or a right of pledge, or the acquisition of a right of usufruct or a right of pledge, in or on shares, insofar as in addition to this the voting right vests in the holder of a usufruct or pledge.

A Person shall be deemed the ("beneficial) owner" of and shall be deemed to ("beneficially) own" any shares:

- (i) which such Person or any of such Person's Affiliates or Associates (beneficially) owns, directly or indirectly, where a (beneficial) owner of a share includes any Person who, directly or indirectly, has or shares (a) voting power which includes the power to vote, or to direct the voting of such shares; and/ or (b) investment power which includes the power to dispose, or to direct the disposition of, such shares;
- (ii) of which such Person or any of such Person's Affiliates or Associates, directly or indirectly, has the right to acquire (beneficial) ownership pursuant to any agreement, arrangement or understanding, or upon the exercise of conversion rights, exchange rights, rights, warrants or options, or otherwise;
- or
- (iii) which are (beneficially) owned, directly or indirectly, by any other Person (or any Affiliate or Associate of such other Person) with which such Person or any of such Person's Affiliates or Associates has any agreement, arrangement or understanding for the purpose of acquiring, holding, voting or disposing of any securities of the company.

Notwithstanding anything in this provision to the contrary, the phrase "then outstanding," when used with reference to a Person's (beneficial) ownership of securities of the company, shall mean the total number of shares of the company then issued and outstanding together with the number of such shares not then actually issued and outstanding which such Person would be deemed to own (beneficially) hereunder. As used above, the term "Associate" of a specified Person means a Person that directly or indirectly controls or is controlled by, or is under common control with, the Person specified and the term "Affiliate" means (i) any corporation or organization of which such Person is an officer or partner or is, directly or indirectly, the (beneficial) owner of ten percent (10%) or more of any class of equity securities, (ii) any trust or other estate in which such Person has a substantial beneficial interest or as to which such Person serves as trustee or in a similar fiduciary capacity, or (iii) any relative or spouse of such Person, or any relative of such spouse, who has the same home as such Person.

"Person", for the purposes of this paragraph, shall mean any natural Person, company, government or political subdivision, agency or instrumentality of a government, and a "Founding Shareholder", for the purposes of this paragraph, shall include those persons who acquired shares pursuant to the deed of incorporation of the company.

- 4.9. A resolution to grant a right to subscribe for preference shares shall only be valid if the exercise of such right is subject to an event as described in paragraph 8.
- 4.10. All notifications to shareholders must be made in accordance with the provisions relating to the convening of a general meeting as set out in article 30, paragraph 2.

**Issuance price. Payment of shares.**

**Article 5.**

- 5.1. Without prejudice to what has been provided in section 2:80.2 Civil Code, shares shall at no time be issued below par. Ordinary shares and financing preference shares must be fully paid up upon issue.
- Preference shares may be issued against partial payment, with the proviso that the obligatory payable part of the nominal amount (call) must be equal in respect of each preference share - regardless of the time of issue of such preference share - and that at least one-fourth part of the nominal amount must be paid upon subscription for the share.
- 5.2. The managing board may with the approval of the supervisory board resolve on which day and up to which amount a further call must be paid on preference shares which have not yet been paid up in full. The managing board shall give immediate notice of such resolution to the holders of preference shares; the period intervening between that notice and the day, on which the call must have been paid, must be at least thirty days.
- 5.3. Payment must be made in cash to the extent that no other contribution has been agreed upon. If the company so agrees, payment in cash can be made in a currency other than Dutch currency.
- In the event of payment in a foreign currency the obligation to pay is fulfilled to the extent of the sum for which the payment is freely convertible into Dutch currency. The decisive factor is the rate of exchange on the day of payment, or as the case may be after application of the next sentence, on the day mentioned therein.
- The company can require payment at the rate of exchange on a certain day within two months prior to the ultimate day on which payment must be made, provided the shares or depositary receipts issued therefor shall immediately upon their issue be admitted to a listing at a stock exchange outside of the Netherlands.

**Acquisition by the company of its shares.**

**Article 6.**

Subject to authorisation by the general meeting and with due observance of the other provisions of Section 2:98 Civil Code, the managing board may cause the company to acquire for consideration fully paid up shares in its own share capital.

**Reduction of capital. Cancellation of shares.**

**Article 7.**

With due observance of the provisions of Section 2:99 Civil Code, upon the proposal of the supervisory board, the general meeting may resolve to reduce the issued capital by cancelling shares or by reducing the nominal amount of the shares by an amendment of the company's articles of association. The shares referred to in such resolution must be designated therein and provisions for the implementation of the resolution must be made therein.

Cancellation with repayment of shares or partial repayment on shares or release from the obligation to pay up as referred to in Section 2:99 Civil Code may also be made or be given exclusively with respect to ordinary shares or exclusively with respect to preference shares or exclusively with respect to financing preference shares.

A partial repayment or release must be made pro rata to all shares concerned. The pro rata requirement may be waived with the consent of all the shareholders concerned.

**Shares. Share certificates.**

**Article 8.**

- 8.1. Shares shall be issued in registered form only. The managing board may decide to identify all or part of the shares in such a manner that it deems appropriate, or to change or cancel the identification of all or part of the shares.
- 8.2. No share certificates shall be issued for shares.

**Share certificates.**

**Article 9.**

Deleted.

**Share register.**

**Article 10.**

- 10.1. Notwithstanding the applicable statutory provisions in respect of registered shares, a share register shall be kept by or on behalf of the company, which register shall be regularly updated and, at the discretion of the managing board, may, in whole or in part, be kept in more than one copy and at more than one address.  
Part of the register may be kept abroad in order to comply with applicable foreign statutory provisions or applicable provisions set by a foreign stock exchange.
- 10.2. Each shareholder's name, his address and such further information as required by law and such further information as the managing board deems appropriate, whether at the request of a shareholder or not, shall be recorded in the register.
- 10.3. The form and the contents of the register shall be determined by the managing board with due observance of the provisions of paragraphs 1 and 2 of this article.
- 10.4. Upon his request a shareholder shall be provided with written evidence of the contents of the register with regard to the shares registered in his name free of charge, and the statement so issued may be validly signed on behalf of the company by a person to be designated for that purpose by the managing board.
- 10.5. The provisions of paragraphs 1 up to and including 4 of this article shall equally apply to persons who hold a right of usufruct or a right of pledge on one or more shares.
- 10.6. The managing board and supervisory board shall have power and authority to permit inspection of the register and to provide information recorded therein as well as any other information regarding the direct or indirect shareholding of a shareholder of which the company has been notified by that shareholder to the authorities entrusted with the supervision and/or implementation of the trading of securities on a foreign stock exchange on behalf of the company and its shareholders, in order to comply with applicable foreign statutory provisions or applicable provisions set by such foreign stock exchange, if and to the extent such requirements apply to the company and its shareholders as a result of the listing of shares in the share capital of the company on such stock exchange or the registration of such shares or the registration of an offering of such shares under applicable foreign securities laws.
- 10.7. Any shareholder shall, upon written request, have the right during the usual hours for business to inspect the company's share register and a list of its shareholders and their addresses and shareholdings, and to make copies or extracts therefrom. The request shall be directed to the managing directors of the company at its registered office in the Netherlands or at its principal place of business.

**Fractional shares.**

**Article 11.**

- 11.1. Each ordinary share consists of two thousand and seven hundred (2,700) fractional shares. Each fractional share represents a one/two thousand seven hundredth (1/2,700) portion of the value of an ordinary share.
- 11.2. Every fractional share shall be in registered form.
- 11.3. Without prejudice to the other provisions of this article 11, the provisions of Title 4 of Book 2 of the Dutch Civil Code on shares and shareholders shall apply accordingly to fractional

DE BRAUW  
BLACKSTONE  
WESTBROEK

- shares and holders of fractional shares, to the extent not stipulated otherwise in those provisions.
- 11.4. The provisions of these articles of association with respect to shares and shareholders shall apply accordingly to fractional shares and holders of fractional shares, to the extent not stipulated otherwise in paragraphs 5 and 6 of this article 11.
- 11.5. A holder of one or more fractional shares may exercise the meeting and voting rights attaching to an ordinary share together with one or more other holders of one or more fractional shares to the extent the total number of fractional shares held by such holders of fractional shares equals two thousand and seven hundred (2,700) or a multiple thereof. These rights shall be exercised either by one of them who has been authorized to that effect by the others in writing, or by a proxy authorized to that effect by those holders of fractional shares in writing.
- 11.6. Every holder of a fractional share is entitled to a one/two thousand seven hundredth ( $1/2,700$ ) part of the (interim) dividend and any other distribution to which the holder of one (1) ordinary share is entitled.
- 11.7. In the event the holder of one or more fractional shares acquires such number of fractional shares that the total number of fractional shares held by him at least equals two thousand and seven hundred (2,700), then each time two thousand and seven hundred (2,700) fractional shares held by him shall by operation of law be consolidated into one (1) ordinary share; this shall be recorded in the shareholders' register.
- 11.8. One or more shares held by the company in its own share capital, can be divided into two thousand and seven hundred (2,700) fractional shares upon a resolution by the managing board. Fractional shares created in this way, will not be consolidated in accordance with article 11.7 as long as those fractional shares are held by the company, unless the managing board resolves to consolidate in accordance with article 11.7.

**Transfer of shares.**

**Article 12.**

- 12.1. The transfer of title to shares or the transfer of title to or a termination of a right of usufruct on shares or the creation or release of a right of usufruct or of a right of pledge on shares shall be effected by way of a written instrument of transfer, and in accordance with the (further) provisions set forth in section 2:86, or, as the case may be, section 2:86c, Civil Code.
- 12.2. The provisions of paragraph 1 of this article shall equally apply to (i) the allotment of shares in the event of a judicial partition of any community of property, (ii) the transfer of a registered share as a consequence of foreclosure of a right of pledge and (iii) the creation of limited rights in rem on a registered share.
- 12.3. Any requests made pursuant to and in accordance with the provisions of article 10 and this article 12 may be sent to the company at such address(es) as to be determined by the managing board, at all times including an address in the municipality or city where a stock exchange on which shares in the share capital of the company are listed has its principal place of business.
- 12.4. The company is authorized to charge such amounts as may be determined by the managing board provided they do not exceed cost price, to persons who have made a request pursuant to and in accordance with the provisions of article 10 and this article 12.

**Restriction on the transfer of preference shares.**

**Article 13.**

- 13.1. Each transfer of preference shares shall require the approval of the supervisory board. The approval shall be applied for in writing, stating the name and address of the intended transferee, as well as the price or other consideration which the intended transferee is willing to pay or give.

**DE BRAUW  
BLACKSTONE  
WESTBROEK**

- 13.2. If the approval is refused, the supervisory board shall at the same time designate one or more prospective purchasers who are willing and able to purchase all the shares to which the request for approval relates, against cash payment at a price to be fixed mutually by the transferor and the supervisory board within two months following such designation.
- 13.3. If, within three months of receipt by the company of the request to approve the intended transfer, the transferor has not received a written notice to that end from the company or due written refusal to approve the transfer was not simultaneously accompanied by the designation of one or more prospective purchasers as referred to in paragraph 2, the approval to transfer shall be deemed granted following expiry of said period or upon receipt of the notice of refusal.
- 13.4. If the transferor and the supervisory board have failed to reach agreement on the price meant in paragraph 2 within two months of the refusal of the approval, such price shall be fixed by an expert, to be designated by the transferor and the managing board by mutual agreement or, failing agreement about that within three months following the refusal of the approval, by the President of the Chamber of Commerce and Industry in the district in which the Company has its corporate seat according to its articles of association, at the request of the party who is first to take action.
- 13.5. The transferor shall have the right to abandon the transfer, provided he so notifies the managing board in writing within one month of his being informed of both the name of the designated prospective purchaser(s) and the fixed price.
- 13.6. In the event of approval of the transfer in the sense of paragraph 1 or paragraph 3 the transferor shall be entitled to transfer all shares, to which his request relates, to the purchaser mentioned in the request at the price or consideration mentioned by him, referred to in paragraph 1 of this article.
- 13.7. The costs connected with the transfer for the Company may be charged to the new transferee.

**Usufructuaries. Pledgees. Holders of depositary receipts.**

**Article 14.**

- 14.1. The usufructuary, who in conformity with the provisions of section 2:88, Civil Code has no right to vote, and the pledgee who in conformity with the provisions of section 2:89, Civil Code has no right to vote, shall not be entitled to the rights which by law have been conferred on holders of depositary receipts for shares issued with the cooperation of the company.
- 14.2. Where in these articles of association persons are mentioned who are entitled to attend meetings of shareholders, this shall include the holders of depositary receipts for shares issued with the cooperation of the company, and persons who in pursuance of section 2:88.4 or section 2:89.4, Civil Code have the rights that by law have been conferred on holders of depositary receipts for shares issued with the cooperation of the company.

**Managing board.**

**Article 15.**

- 15.1. The company shall be managed by a managing board consisting of one or more managing directors under the supervision of the supervisory board. The number of members of the managing board shall be determined by the supervisory board.
- 15.2. Managing directors shall be appointed by the general meeting upon the joint meeting of the supervisory board and the managing board hereinafter referred to as: the "Joint Meeting" having made a binding nomination for each vacancy. The managing board shall invite the Joint Meeting to make a nomination within sixty days. However, the general meeting may at all times overrule the binding nature of such a nomination by a resolution adopted by at least a two thirds majority of the votes cast, if such majority represents more than half the

issued share capital. A second general meeting as referred to in article 2:120, paragraph 3 Civil Code may not be convened.

The nomination shall be included in the notice of the general meeting at which the appointment shall be considered.

If a nomination has not been made or has not been made in due time, this shall be stated in the notice and the general meeting shall make such appointment at its discretion. The managing directors appointed by the general meeting shall be appointed for the period commencing on the date following the annual general meeting which must be held by virtue of section 2:108.2, Civil Code up to and including the date of that meeting held in the following financial year.

- 15.3. With due observance of these articles of association, the supervisory board may adopt a "directiereglement" (rules governing the internal organisation, hereinafter the "management rules") and the supervisory board shall have authority to amend the management rules from time to time.

Furthermore, the supervisory board may divide the duties among the managing directors, whether or not by way of a provision to that effect in the management rules. The management rules shall include directions to the managing board concerning the general financial, economic, personnel and social policy of the company, to be taken into consideration by the managing board in the performance of its duties.

- 15.4. The company has a policy in the area of remuneration of the managing board. The policy will be adopted by the general meeting upon a proposal of the supervisory board. The remuneration of members of the managing board will, with due observance of the policy as referred to in the preceding sentence, be determined by the supervisory board.

**Suspension or dismissal of managing directors.**

**Article 16.**

- 16.1. The general meeting shall at all times be entitled to suspend or dismiss a managing director. The general meeting may only adopt a resolution to suspend or dismiss a managing director by at least a two thirds majority of the votes cast, if such majority represents more than half of the issued share capital, unless the proposal was made by the Joint Meeting in which case a simple majority is sufficient.  
A second general meeting as referred to in Article 2:120, paragraph 3 Civil Code may not be convened.
- 16.2. The supervisory board shall also at all times be entitled to suspend (but not to dismiss) a managing director. Within three months after a suspension of a managing director has taken effect, a general meeting of shareholders shall be held, in which meeting a resolution must be adopted to either terminate or extend the suspension for a maximum period of another three months. If neither such resolution is adopted nor the general meeting of shareholders has resolved to dismiss the managing director, the suspension shall terminate after the period of suspension has expired.  
The managing director shall be given the opportunity to account for his actions at that meeting.

**Representation.**

**Article 17.**

- 17.1. The entire managing board as well as each managing director acting individually may represent the company and bind it vis-a-vis third parties.
- 17.2. The managing board may grant special and general powers of attorney to persons, whether or not such persons are employed by the company, authorizing them to represent the company and bind it vis-a-vis third parties. The scope and limits of such powers of attorney shall be determined by the managing board. The managing board may in addition grant to such persons such titles as it deems appropriate.

The powers of the managing board in this paragraph 2 shall be subject to the approval of the supervisory board to be specified in a resolution adopted pursuant to Article 19, paragraph 1.

- 17.3. The managing board shall have power to enter into and perform agreements and all "rechtshandelingen" (legal acts) contemplated thereby as specified in section 2:94.1, Civil Code in so far as such power is not expressly excluded or limited by any provision of these articles or by any resolution of the supervisory board.

**Chairman of the managing board. Resolutions of the managing board.**

**Article 18.**

- 18.1. The supervisory board shall appoint one of the managing directors as chairman of the managing board, who shall have the title of Chief Executive Officer.
- 18.2. Resolutions of the managing board shall be validly adopted, if adopted by simple majority of votes, at least one of whom so voting in favour of the proposal must be the chairman. Each managing director has the right to cast one vote. In case of absence a managing director may issue a proxy, however, only to another managing director.
- 18.3. The managing board may adopt resolutions without holding a meeting, provided such resolutions are adopted in writing or by legible and reproducible electronic communications and no managing director has objected to this method of adoption of a resolution.
- 18.4. A certificate signed by a managing director confirming that the managing board has adopted a particular resolution, shall constitute evidence of such resolution vis-a-vis third parties.
- 18.5. The management rules shall include provisions on the manner of convening board meetings and the internal procedure at such meetings. These meetings may be held by telephone conference communications, as well as by video communications, provided all participating managing directors can hear each other simultaneously.

**Mandatory prior approval for management action.**

**Article 19.**

- 19.1. Without prejudice to any other applicable provisions of these articles of association, the managing board shall require the prior approval of the supervisory board for any action specified from time to time by a resolution to that effect adopted by the supervisory board, of which the managing board has been informed in writing.
- 19.2. Without prejudice to any other applicable provisions of these articles of association, the managing board shall require the approval of the general meeting of shareholders if required by law and the provisions of these articles of association.

**Prevented from acting.**

**Article 20.**

- 20.1. In case a managing director is "belet of ontstent" (prevented from acting), the remaining managing directors or managing director shall temporarily be responsible for the entire management. In case all managing directors are, or the only managing director is prevented from acting, one or more persons appointed by the supervisory board for this purpose from time to time shall be temporarily responsible for the management.
- 20.2. In case a supervisory director is "belet of ontstent" (prevented from acting), the remaining supervisory directors or supervisory director shall temporarily be responsible for the supervision, notwithstanding article 22, paragraph 2.  
In case all supervisory directors are prevented from acting, the managing board shall designate one or more temporary supervisory directors who shall then take the necessary measures to make a definitive arrangement.

**Supervisory board.**

**Article 21.**

- 21.1. The supervisory board shall be responsible for supervising the policy pursued by the managing board and the general course of affairs of the company and the business enterprise which it operates. The supervisory board shall assist the managing board with advice relating to the general policy aspects connected with the activities of the company. In fulfilling their duties the supervisory directors shall serve the interests of the company and the business enterprise which it operates.
- 21.2. The managing board shall provide the supervisory board in good time with all relevant information as well as with all other information as the supervisory board may request, in connection with the exercise of its duties.
- 21.3. The general meeting shall determine the compensation of the members of the supervisory board, upon the (non-binding) recommendation by the compensation committee. Expenses incurred by the supervisory directors shall be reimbursed.

**Number of supervisory directors. Appointment.**

**Article 22.**

- 22.1. The supervisory board shall consist of such number of members as the Joint Meeting may from time to time determine, with a minimum of three members. Notwithstanding the provisions of paragraph 2 of this article the supervisory directors shall be appointed by the general meeting upon the Joint Meeting having made a binding nomination for each vacancy. Article 15, paragraph 2 applies equally. The supervisory directors appointed by the general meeting shall be appointed for the period commencing on the date following the annual general meeting which must be held by virtue of section 2:108.2, Civil Code up to and including the date of that meeting held in the following financial year.
- 22.2. If during a financial year a vacancy occurs in the supervisory board, the supervisory board may appoint a supervisory director who will cease to hold office at the next following annual general meeting as referred to in the previous paragraph. The supervisory board may in such manner appoint supervisory directors up to a maximum of one third (1/3) of the number of supervisory directors as determined in accordance with paragraph 1 of this article.
- 22.3. The supervisory board shall appoint one of its members as its chairman.
- 22.4. Whenever a supervisory director must be appointed by the general meeting the information referred to in section 2:142.3, Civil Code shall be made available to the shareholders for their prior inspection.

**Organisation of the supervisory board.**

**Article 23.**

- 23.1. With due observance of these articles of association, the supervisory board may adopt a "commissarissen reglement" (rules governing the internal organisation of the supervisory board, hereinafter the "supervision rules") and it may further establish such committees as it shall deem appropriate, provided that the powers and authority of such committees are set forth in the supervision rules.
- 23.2. The supervisory board may decide that one or more of its members shall have access to all premises of the company and that they shall be authorized to examine all books, correspondence and other records and to be fully informed of all actions which have taken place.
- 23.3. At the expense of the company, the supervisory board may obtain such advice from experts as the supervisory board deems desirable for the proper fulfillment of its duties.
- 23.4. If there is only one supervisory director in office, such supervisory director shall have all rights and obligations granted to and imposed on the supervisory board and the chairman of the supervisory board by law and by these articles of association.

**Suspension or dismissal of supervisory directors.**

**Article 24.**

**DE BRAUW  
BLACKSTONE  
WESTBROEK**

- 24.1. The general meeting shall at all times be entitled to suspend or dismiss a supervisory director. Article 16, paragraph 1, second and third sentence applies equally.
- 24.2. Within three months after a suspension of a supervisory director has taken effect, a general meeting shall be held, in which meeting a resolution must be adopted to either terminate or extend the suspension for a maximum period of another three months. If neither such resolution is adopted nor the general meeting of shareholders has resolved to dismiss the supervisory director, the suspension shall terminate after the period of suspension has expired. The supervisory director shall be given the opportunity to account for his actions at that meeting.

**Resolutions by the supervisory board.**

**Article 25.**

- 25.1. Resolutions of the supervisory board shall be validly adopted, if adopted by simple majority of votes in a meeting at which the majority of the supervisory directors is present or represented. Each supervisory director has the right to cast one vote. In case of absence, a supervisory director may issue a proxy, however, only to another supervisory director. The supervisory board may also adopt resolutions without holding a meeting, provided such resolutions are adopted in writing or by legible and reproducible electronic communications and no supervisory director has objected to this method of adoption of a resolution.
- 25.2. A certificate signed by a supervisory director confirming that the supervisory board has adopted a particular resolution, shall constitute evidence of such resolution vis-a-vis third parties.
- 25.3. The managing directors shall attend meetings of the supervisory board at the latter's request.
- 25.4. The supervisory board shall meet whenever two or more of its members or the managing board so requests. Meetings of the supervisory board shall be convened by the chairman of the supervisory board, either at the request of two or more supervisory directors or at the request of the managing board, or by the supervisory directors requesting the meeting to be held. If the chairman fails to convene a meeting so that it can be held within four weeks of the receipt of the request, the supervisory board members making the request are entitled to convene the meeting.
- 25.5. The supervisory rules shall include provisions on the manner of convening board meetings and the internal procedure at such meetings. These meetings may be held by telephone conference communications, as well as by video communications, provided all participating supervisory directors can hear each other simultaneously.

**Joint Meeting. Resolutions of the Joint Meeting.**

**Article 26.**

- 26.1. The Joint Meeting as referred to in these articles of association consists of the members of the supervisory board and the members of the managing board. The sole responsibility of the Joint Meeting shall be to make a binding nomination for each vacancy in the managing board and the supervisory board and the actions as referred to in article 16, paragraph 1 and article 22, paragraph 1.
- 26.2. The chairman of the supervisory board is the chairman of the Joint Meeting. The Joint Meeting shall appoint one of its members as secretary.
- 26.3. The Joint Meeting may only adopt resolutions if the majority of the members of the supervisory board and the majority of the members of the managing board are present or represented in such meeting. Resolutions of the Joint Meeting shall be validly adopted, if adopted by simple majority of votes. Each member of the Joint Meeting has the right to cast one vote. In case of absence a member of the Joint Meeting may issue a proxy, however, only to another member of the Joint Meeting.

**DE BRAUW  
BLACKSTONE  
WESTBROEK**

- 26.4. The Joint Meeting may adopt its resolutions without holding a meeting, provided that such resolutions are adopted in writing or by legible and reproducible electronic communications and no member of the Joint Meeting has objected to this method of adoption of a resolution.
- 26.5. A certificate signed by the chairman of the Joint Meeting confirming that the Joint Meeting has adopted a particular resolution, shall constitute evidence of such resolution vis-a-vis third parties.
- 26.6. The Joint Meeting shall adopt Joint Meeting rules. The Joint Meeting rules shall include provisions on the manner of convening meetings and the internal procedure at such meetings. These meetings may be held by telephone conference communications, as well as by video communications, provided all participating members can hear each other simultaneously.

**Indemnification.**

**Article 27.**

- 27.1. The company shall indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the company) by reason of the fact that he is or was a supervisory director, managing director, officer or agent of the company, or was serving at the request of the company as a supervisory director, managing director, officer or agent of another company, a partnership, joint venture, trust or other enterprise, against all expenses (including attorneys' fees) judgments, fines and amounts paid in settlement actually and reasonably incurred by him in connection with such action, suit or proceeding if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the company, and, with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful or out of his mandate. The termination of any action, suit or proceeding by a judgment, order, settlement, conviction, or upon a plea of nolo contendere or its equivalent, shall not, of itself, create a presumption that the person did not act in good faith and not in a manner which he reasonably could believe to be in or not opposed to the best interests of the company, and, with respect to any criminal action or proceeding, had reasonable cause to believe that his conduct was unlawful.
- 27.2. The company shall indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or proceeding by or in the right of the company to procure a judgment in its favor, by reason of the fact that he is or was a supervisory director, managing director, officer or agent of the company, or is or was serving at the request of the company as a supervisory director, managing director, officer or agent of another company, a partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees) actually and reasonably incurred by him in connection with the defense or settlement of such action or proceeding if he acted in good faith and in a manner he reasonably could believe to be in or not opposed to the best interests of the company and except that no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable for gross negligence or wilful misconduct in the performance of his duty to the company, unless and only to the extent that the court in which such action or proceeding was brought or any other court having appropriate jurisdiction shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnification against such expenses which the court in which such action or proceeding was brought or such other court having appropriate jurisdiction shall deem proper.

**DE BRAUW  
BLACKSTONE  
WESTBROEK**

- 27.3. To the extent that a supervisory director, managing director, officer or agent of the company has been successful on the merits or otherwise in defense of any action, suit or proceeding, referred to in paragraphs 1 and 2, or in defense of any claim, issue or matter therein, he shall be indemnified against expenses (including attorney's fees) actually and reasonable incurred by him in connection therewith.
- 27.4. Any indemnification by the company referred to in paragraphs 1 and 2 shall (unless ordered by a court) only be made upon a determination that indemnification of the supervisory director, managing director, officer or agent is proper in the circumstances because he had met the applicable standard of conduct set forth in paragraphs 1 and 2. Such determination shall be made:
- (a) either by the supervisory board by a majority vote in a meeting consisting of supervisory directors who were not parties to such action, suit or proceeding; or
  - (b) if the majority referred to under (a) adopts a resolution to that effect, by independent legal counsel in a written opinion; or
  - (c) by the general meeting of shareholders.
- 27.5. Expenses incurred in defending a civil or criminal action, suit or proceeding may be paid by the company in advance of the final disposition of such action, suit or proceeding upon a resolution of the supervisory board with respect to the specific case upon receipt of an undertaking by or on behalf of the supervisory director, managing director, officer or agent to repay such amount if it shall ultimately be determined that he is not entitled to be indemnified by the company as authorized in this article.
- 27.6. The indemnification provided for by this article shall not be deemed exclusive of any other right to which a person seeking indemnification may be entitled under any by-laws, agreement, resolution of the general meeting of shareholders or of the disinterested supervisory directors or otherwise, both as to actions in his official capacity and as to actions in another capacity while holding such position, and shall continue as to a person who has ceased to be a supervisory director, managing director, officer or agent and shall also inure to the benefit of the heirs, executors and administrators of such a person.
- 27.7. The company shall have the power to purchase and maintain insurance on behalf of any person who is or was a supervisory director, managing director, officer or agent of the company, or is or was serving at the request of the company as a supervisory director, managing director, officer, employee or agent of another company, a partnership, joint venture, trust or other enterprise, against any liability asserted against him and incurred by him in any such capacity or arising out of his capacity as such, whether or not the company would have the power to indemnify him against such liability under the provisions of this article.
- 27.8. Whenever in this article reference is made to the company, this shall include, in addition to the resulting or surviving company also any constituent company (including any constituent company of a constituent company) absorbed in a consolidation or merger which, if its separate existence had continued, would have had the power to indemnify its supervisory directors, managing directors, officers and agents, so that any person who is or was a supervisory director, managing director, officer or agent of such constituent company, or is or was serving at the request of such constituent company as a supervisory director, managing director, officer or agent of another company, a partnership, joint venture, trust or other enterprise, shall stand in the same position under the provisions of this article with respect to the resulting or surviving company as he would have with respect to such constituent company if its separate existence had continued.

**General meeting of shareholders.**

**Annual general meeting of shareholders.**

**Article 28.**

- 28.1. The annual general meeting shall be held within six months after the close of the financial year.
- 28.2. At this general meeting the following subjects shall be considered:
- a. the written annual report prepared by the managing board on the course of business of the company and the conduct of its affairs during the past financial year, and the report of the supervisory board on the annual accounts;
  - b. the adoption of the annual accounts;
  - c. the filling of any vacancies in the managing board and the supervisory board;
  - d. the proposals placed on the agenda by the managing board or by the supervisory board, together with proposals made by shareholders in accordance with paragraph 2 of Article 31.
- 28.3. If the agenda of a general meeting includes the granting of discharge to the members of the managing board and the supervisory board with respect to the performance of their duties in the respective financial year, the item of discharge will be put on the agenda as a separate item for the managing board and the supervisory board, respectively.

**Extraordinary general meetings.**

**Article 29.**

- 29.1. Extraordinary general meetings shall be held as often as deemed necessary by the managing board and/or the supervisory board and shall be held if one or more shareholders and other persons entitled to attend such meetings jointly representing at least forty per cent (40%) of the issued share capital make a written request to that effect to the managing board or supervisory board, specifying in detail the business to be considered.
- 29.2. If the managing board or the supervisory board fail to comply with a request referred to in paragraph 1 of this article in such manner that the general meeting can be held within twelve weeks after the request, the persons who have made the request may convene the meeting themselves.

**Place and notice of the general meetings.**

**Article 30.**

- 30.1. General meetings shall be held at Amsterdam, Haarlemmermeer (Schiphol Airport), Rotterdam, Arnhem, Maastricht, Venlo or The Hague. The notice convening the meeting shall inform the shareholders and other persons entitled to attend the general meeting accordingly.
- 30.2. The notice convening a general meeting shall be given in such manner as shall be authorized by law including but not limited to an announcement published by electronic means.
- 30.3. The notice convening a general meeting shall be sent by either the managing board, the supervisory board or the persons who according to the law or these articles of association are entitled thereto.

**Notice period. Agenda.**

**Article 31.**

- 31.1. The notice convening a general meeting shall be given with due observance of the statutory notice period. The notice shall contain the agenda and other meeting materials as required by applicable law or these articles of association.
- 31.2. The agenda shall contain such subjects to be considered at the meeting as the person(s) convening the meeting or requesting the meeting pursuant to article 29, paragraph 1 shall decide.  
Furthermore an item, which is requested in writing by one or more shareholders, who are entitled thereto pursuant to the law, shall be included in the agenda and announced in the same manner, provided such request is made in writing or by legible and reproducible

electronic communications in the form of a reasoned request or a proposal for a resolution to the supervisory board and the managing board, and such request is received no later than on the sixtieth day prior to the day of the meeting.

The agenda shall further specify that resolutions regarding such subjects can only be validly adopted in accordance with article 43, paragraph 1. No valid resolutions can be adopted at a general meeting of shareholders in respect of subjects which are not mentioned in the agenda.

**Chairman of general meetings. Minutes.**

**Article 32.**

- 32.1. General meetings shall be presided by the chairman of the supervisory board. In case of absence of the chairman of the supervisory board the meeting shall be presided by any other person nominated by the supervisory board. The chairman of the meeting shall appoint the secretary of that meeting.
- 32.2. The secretary of the meeting shall keep the minutes of the business transacted at the meeting, which minutes shall in evidence of their adoption be signed by the chairman and the secretary.
- 32.3. The chairman of the supervisory board may request a "notaris" (civil law notary) to include the minutes of the meeting in a "notarieel proces-verbaal" (notarial report).

**Attendance of general meetings.**

**Article 33.**

- 33.1. All shareholders and other persons entitled to vote at general meetings are entitled to attend the general meetings, to address the general meeting and to vote, provided that he has notified the managing board in writing of his intention to be present at the meeting or to be represented not later than on the close of business on the third day prior to the day of the meeting, unless the managing board determines to permit notification within a shorter period of time prior to any such meeting.  
For the purpose of the provisions of this paragraph holders of a usufruct who have a voting right and holders of a pledge who have a voting right are put on a par with shareholders.
- 33.2. The managing board may decide that the business transacted at a shareholders' meeting can be monitored by electronic means of communication.
- 33.3. The managing board may decide that each person entitled to attend general meetings (and vote thereat) may, either in person or by written proxy, vote at that meeting and/or participate in that meeting by electronic means of communication, provided that such person can be identified through the electronic means of communication and that such person can directly monitor the business transacted at the general meeting concerned. The managing board may attach conditions to the use of the electronic means of communication, provided these conditions are reasonable and necessary for the identification of such person and for the reliability and safety of the communication. Those conditions shall be made public at the convocation of the general meeting and shall be posted on the company's website.
- 33.4. Persons entitled to attend the general meeting are those who at the record date have these rights and have been registered as such in a register designated by the managing board for that purpose, regardless of who would have been entitled to attend the general meeting if no record date would apply. The record date shall be on such date prior to the day of the general meeting as prescribed by law. The convocation notice for the meeting shall state the record date and the manner in which the persons entitled to attend the general meeting may register and exercise their rights.
- 33.5. The general meeting may adopt rules regarding, inter alia, the length of time for which shareholders may speak. In so far as such rules are not applicable, the chairman may

determine the time for which shareholders may speak if he considers this desirable with a view to the orderly proceeding of the meeting.

- 33.6. The shareholders or their proxies must sign the attendance list, stating the number of the shares represented by them - insofar as applicable - the number of votes to be cast by them.

**Proxies.**

**Article 34.**

- 34.1. Shareholders and other persons entitled to attend a general meeting of shareholders may be represented by proxies duly authorised in writing, and such proxies shall be admitted upon production of such written instrument.
- 34.2. All matters regarding the admittance to the general meeting of shareholders, the exercise of voting rights and the result of votings, as well as any other matters regarding the proceedings at the general meeting of shareholders shall be decided upon by the chairman of that meeting, with due observance of the provisions of section 2:13, Civil Code.

**Adoption of resolutions.**

**Article 35.**

- 35.1. Unless otherwise stated in these articles, resolutions shall be validly adopted if adopted by a simple majority of votes cast. Blank and invalid votes shall not be counted. The chairman shall decide on the method of voting and on the possibility of voting by acclamation.
- 35.2. If the voting concerns the appointment of a person and more than one person has been nominated for appointment, then votes shall be taken until one of the nominees has obtained a simple majority of the votes cast, unless there is a tie vote concerning the appointment of persons, who have been named in a binding nomination, in which case the person first named in such nomination shall be deemed to have obtained most votes. The further votes may, at the chairman's discretion, be taken at a subsequent meeting.
- 35.3. Except as provided in paragraph 2, in case of an equality of the votes cast the supervisory board shall decide.

**Voting right per share.**

**Article 36.**

At the general meeting of shareholders each share shall confer the right to cast one vote, unless the law or the articles of association provides otherwise.

**Class meetings.**

**Article 37.**

- 37.1. A class meeting shall be held whenever a resolution by such meeting is required. Furthermore, such meeting shall be held if required by either the managing board or the supervisory board.
- 37.2. The articles 30 up to and including 36 shall be equally applicable to resolutions to be adopted by the meeting of holders of shares of a specific class, provided that the notice shall be sent not later than on the sixth day prior to the meeting, that the meeting itself appoints its chairman and that the meeting of holders of preference shares may also adopt all resolutions outside a meeting if so proposed by the supervisory board. A resolution outside a meeting is only valid if all holders of preference shares have cast their votes in writing by cable, by telex or by telecopier in favour of the proposal concerned.

**Annual accounts. Report of the board of management.**

**Article 38.**

- 38.1. The financial year of the company shall run from the first day of January up to and including the thirty-first day of December.
- 38.2. Each year the managing board shall cause annual accounts to be drawn up, consisting of a balance sheet as at the thirty-first day of December and a profit and loss account in

- respect of the preceding financial year, together with the explanatory notes thereto. The managing board shall furthermore prepare a report on the course of business of the company in the preceding year.
- 38.3. The managing board shall, within the provisions of the law, make available: the annual accounts, the annual report, the accountant(s) declaration and all other documents pursuant to the law.
- 38.4. The managing board shall draw up the annual accounts in accordance with applicable generally accepted accounting principles and all other applicable provisions of the law.
- 38.5. The supervisory board shall on behalf of the company, cause the annual accounts to be examined by one or more registered accountant(s) designated for the purposes by the general meeting of shareholders or other experts designated for the purpose in accordance with section 2:393, Civil Code. The auditor or the other expert designated shall report on his examination to the supervisory board and the managing board and shall issue a certificate containing the results thereof. The supervisory board shall ensure that the report on the annual accounts shall be available at the offices of the company for the shareholders.
- 38.6. Copies of the annual accounts, the annual report of the managing board, the report of the supervisory board, and the information to be added to each of such documents pursuant to the law shall be made available at the office of the company for inspection by the shareholders and the other persons entitled to attend meetings of shareholders, as from the date of the notice convening the general meeting of shareholders at which meeting they shall be discussed, until the close thereof.

**Discharge of managing board and supervisory board.**

**Article 39.**

If the agenda of a general meeting includes the granting of discharge to the members of the managing board and the supervisory board and if such discharge is granted, the members of the managing board and the supervisory board shall be fully discharged from liability in respect of the exercise of their duties during the financial year concerned, unless a proviso is made by the general meeting of shareholders, and without prejudice to the provisions of sections 2:138 and 2:149, Civil Code.

**Profit and loss.**

**Article 40.**

- 40.1. Out of the profit made in any financial year first of all, if possible, shall be distributed on the preference shares the percentage to be mentioned hereinafter of the amount (call) paid obligatory on those shares as at the commencement of the financial year for which the distribution is made.
- The above-mentioned percentage shall be equal to the Average Main Refinancing Rates during the financial year for which the distribution is made. Average Main Refinancing Rate shall be understood to mean the average value on each individual day during the financial year for which the distribution is made of the Main Refinancing Rates prevailing on such day. Main Refinancing Rate shall be understood to mean the rate of the Main Refinancing Operation as determined and published from time to time by the European Central Bank. If the amount paid obligatory on the preference shares has been decreased or, in pursuance of a resolution on a further call, has been increased in the financial year for which the above-mentioned distribution is made, the distribution shall be decreased, or, if possible, increased by an amount equalling the above-mentioned percentage of the amount of the decrease, or increase, calculated as from the date of the decrease, or as from the point of time, at which the further call has become obligatory.

**DE BRAUW  
BLACKSTONE  
WESTBROEK**

If preference shares have been issued in the course of any financial year, the dividend on the preference shares shall be decreased pro rata for such financial year until the date of issue, in which connection part of a month shall be counted as a full month.

If and to the extent that the profit is not sufficient to make the payment referred to in this paragraph in full, the deficit will be distributed against the reserves, with the exception of the reserve which was formed as share premium upon the issue of financing preference shares.

- 40.2. In the event of cancellation with repayment of preference shares a distribution will be made on the cancelled preference shares on the day of repayment, which distribution will be calculated as much as possible in accordance with the provisions of paragraph 1 and 3 of this article and pro rata temporis to be calculated on the period from the day on which a distribution as meant in paragraphs 1 and 3 was made for the last time - or if the preference shares have been issued following such day: from the day of issue - until the day of repayment, without prejudice to the provisions of article 2:105, paragraph 4 Civil Code.
- 40.3. If in any financial year the profit meant in paragraph 1 is not sufficient to make the distributions described above in this article and in addition no distribution or only a part distribution is made from the reserves, as meant in paragraph 1, such that the deficit is not fully distributed, the provisions above in this article and the provisions of paragraphs 4 and 7 shall not be applied until the deficit has been recovered.
- 40.4. Out of the profit remaining after application of the previous paragraphs such amounts shall be allocated to reserve as the supervisory board shall determine.  
Insofar as the profit is not allocated to reserve upon application of the preceding sentence:
- a. if possible, a dividend shall be distributed on each financing preference share equalling a percentage calculated on the nominal amount, increased by the amount of share premium that was paid upon the first issue of financing preference shares and which percentage is related to the average effective yield on the prime interest rate on corporate loans in the United States of America as quoted in the Wall Street Journal, calculated and fixed in the manner as stated hereinafter.
  - b. The percentage of the dividend for the financing preference shares is calculated by taking the average effective yield of the above-mentioned loans, for the last twenty exchange days, prior to the day on which financing preference shares are issued for the first time or on which the dividend percentage is adjusted, possibly increased or decreased by a maximum of one per cent point, depending on the then prevailing market conditions, as the managing board shall resolve subject to the approval of the supervisory board.
  - c. For the first time on the first of January of the calendar year following on the day after three years have lapsed since the day on which financing preference shares are issued for the first time and every time three years later, the dividend percentage of all financing preference shares concerned may be adjusted to the then average effective yield of the prime interest rate on corporate loans in the United States of America as quoted in the Wall Street Journal, calculated and fixed in the manner as stated in b.
- 40.5. If in any financial year the distributions meant above in paragraph 4 of this article have not been made, the provisions of paragraphs 4 second sentence and 7 of this article shall not be applied until the deficit has been recovered and after the provisions above in paragraphs 1 and 3 become applicable. The managing board shall be authorised subject to the approval of the supervisory board to decide to distribute an amount equal to the deficit meant in the previous sentence against the reserves, with the exception of the

- reserve which was formed as share premium upon the issue of financing preference shares.
- 40.6. If financing preference shares are issued in the course of any financial year, the dividend on the financing preference shares shall be decreased pro rata for such financial year until the first day of issue.
- 40.7. Insofar as the profit is not distributed or allocated to reserve upon application of the previous paragraphs of this article, it shall be at the free disposal of the general meeting, with the proviso that no further dividend will be distributed on the preference shares and the financing preference shares.
- 40.8. The managing board may with due observance of Article 2:105 Civil Code and with the approval of the supervisory board distribute an interim dividend, if and to the extent that the profit so permits. Interim dividends may be distributed on one class of shares only.
- 40.9. The general meeting may resolve on a proposal made by the supervisory board wholly or partly to distribute dividends or reserves, instead of cash, in the form of shares in the capital of the company.
- 40.10. In the event of cancellation with repayment of financing preference shares a distribution will be made on the cancelled financing preference shares on the day of repayment, which distribution will be calculated as much as possible in accordance with the provisions of paragraph 4 and 5 of this article that pro rata temporis to be calculated on the period from the day on which a distribution as meant in paragraphs 1 and 3 was made for the last time - or if the financing preference shares have been issued following such day: from the day of issue - until the day of repayment, without prejudice to the provisions of article 2:105.4 Civil Code.
- 40.11. A deficit as meant in article 2:104 Civil Code, may only be applied against the share premium formed upon the issue of financing preference shares, if all other reserves are depleted.
- 40.12. The company can only declare distributions in so far as its "eigen vermogen" (shareholders equity) exceeds the amount of the paid up and called portion of the share capital, plus the "wettelijke" (statutory) reserves.

**Distributions charged to share premium reserves or other reserves.**

**Article 41.**

Notwithstanding the provisions of article 40, paragraph 12, the supervisory board may cause the company to declare distributions out of a share premium reserve or out of any other reserve shown in the annual accounts, not being a "wettelijke" (statutory) reserve.

**Distributions. Payments.**

**Article 42.**

- 42.1. Distributions pursuant to article 40 or article 41 shall be payable as from a date to be determined by the supervisory board.
- 42.2. Distributions under article 40 or article 41 shall be made payable at an address or addresses in the Netherlands, to be determined by the supervisory board, as well as at least one address in each country where the shares of the company are listed on a stock exchange.
- 42.3. The supervisory board may determine the method of payment of cash distributions on shares.
- 42.4. The person entitled to a distribution shall be the person in whose name the share is registered at the date to be determined for that purpose by the supervisory board in respect of each distribution, which date should be between the date of determination of distributions and the date of payment.

- 42.5. Notice of distributions and of the dates and addresses referred to in the preceding paragraphs of this article shall in any event be published in the Netherlands, in a daily newspaper and further in such manner as the supervisory board may deem desirable.
- 42.6. Distributions in cash that have not been collected within five years and two days after they have become due and payable shall revert to the company.
- 42.7. In case of a distribution in the form of shares in the share capital of the company pursuant to article 40, paragraph 8, such shares shall be recorded in the share register.
- 42.8. The provisions of paragraph 5 shall apply equally in respect of distributions - including pre-emptive subscription rights in the event of a share issue - made otherwise than pursuant to article 40 or article 41, provided that in addition thereto in the "Staatscourant" (Dutch Official Gazette) shall be announced the issue of shares with a pre-emptive subscription right and the period within which such right can be exercised.  
Such pre-emptive subscription right can be exercised during at least two weeks after the day of notice in the "Staatscourant" (Dutch Official Gazette).

**Special resolutions of the general meeting.**

**Article 43.**

- 43.1. Resolutions of the general meeting in a meeting that has not been convened by the managing board and/or the supervisory board or resolutions regarding subjects included on the agenda for the meeting at the request of shareholders pursuant to article 31, paragraph 2 shall only be valid if adopted with a majority of two thirds (2/3) of the votes cast representing more than half of the issued share capital, unless these articles require a greater majority or quorum, in which case the greater majority or quorum shall apply, and provided, however, that as set forth in paragraph 2 of this article certain resolutions shall only be valid if proposed by the supervisory board. A second general meeting as referred to in Article 2:120, paragraph 3, Civil Code may not be convened.
- 43.2. A resolution of the general meeting to:
- a. amend the articles of association;
  - b. dissolve the company;
  - c. issue shares or to grant rights to subscribe for shares;
  - d. limit or exclude any pre-emptive rights to which shareholders shall be entitled, shall only be valid if such resolution has been proposed to the general meeting by the supervisory board.
- 43.3. A resolution of the general meeting to:
- a. a legal merger ("juridische fusie"), or
  - b. approve or authorize the managing board to sell all or substantially all of the assets of the company,
- shall only be valid if such resolution:
- (i) either has been proposed to the general meeting by the supervisory board and is adopted by a simple majority of the votes cast; or
  - (ii) such resolution is adopted by a majority representing at least two thirds (2/3) of the issued share capital.
- A second general meeting as referred to in Article 2:120, paragraph 3 Civil Code may not be convened.
- 43.4. A resolution of the general meeting to amend the articles of association shall further only be valid if:
- (i) the complete proposal has been made available for inspection by the shareholders and the other persons entitled to attend the general meeting of shareholders, at the office of the company as from the day of notice convening such meeting until the close of that meeting; and

- (ii) a resolution to amend the articles of association by which the rights conferred on holders of shares of a specific class as such are changed has been approved by the relevant class meeting.

**Dissolution. Liquidation.**

**Article 44.**

- 44.1. If the company is dissolved, the liquidation shall be carried out by the person designated for that purpose by the general meeting of shareholders, under the supervision of the supervisory board.
- 44.2. The general meeting of shareholders shall upon the proposal of the supervisory board determine the remuneration payable to the liquidators and to the person responsible for supervising the liquidation.
- 44.3. The liquidation shall take place with due observance of the provisions of the law. During the liquidation period these articles of association shall, to the extent possible, remain in full force and effect.
- 44.4. After settling the liquidation, the liquidators shall render account in accordance with the provisions of the law.
- 44.5. After the company has ceased to exist, the books and records of the company shall remain in the custody of the person designated for that purpose by the liquidators during a seven-year period.

**Distribution to shareholders upon dissolution.**

**Article 45.**

After payment of all liabilities and the cost of liquidation, the balance of the assets of the Company shall be divided as follows:

- a. in the first place, if possible, the holders of preference shares shall be paid the nominal amount paid on their preference shares, increased by the shortfall in the payment under article 40 and increased by an amount equal to the percentage on the nominal amount meant in article 40, calculated for the period, commencing on the first day of the last completely expired financial year preceding the dissolution and ending on the day of the distribution on preference shares meant in this article, with the proviso that all dividends which have been paid on the preference shares for this period shall be deducted from the distribution pursuant to this section;
- b. subsequently the holders of financing preference shares shall be paid the nominal amount paid on their financing preference shares, as well as the premium reserve paid on their shares upon issue of the same, increased by the shortfall in the payment under article 40 and increased by an amount equal to the percentage on the nominal amount meant in paragraph 4.a. of article 40 (as possibly adjusted on the basis of the provision of that article paragraph 4.c.) on the nominal amount after such amount has been increased by the premium reserve paid on their shares upon issue of the same, calculated for the period, commencing on the first day of the last completely expired financial year preceding the dissolution and ending on the day of the distribution on financing preference shares meant in this article, with the proviso that all dividends which have been paid on the preference shares for this period shall be deducted from the distribution pursuant to this section;
- c. the balance then remaining shall be distributed among the holders of ordinary shares in proportion to the number of ordinary shares held by each of them.

**Unclaimed distributions upon dissolution.**

**Article 46.**

Any amounts payable to shareholders or due to creditors which are not claimed within six (6) months after the last distribution was made payable, shall be deposited with the "consignatiekas" (Public Administrator of Unclaimed Debts).

QIAGEN N.V.  
2023 STOCK PLAN

1. DEFINITIONS.

Unless otherwise specified or unless the context otherwise requires, the following terms, as used in this QIAGEN N.V. 2023 Stock Plan, have the following meanings:

“**Administrator**” means the Board of Directors, unless it has delegated power to act on its behalf to the Committee, in which case the term “Administrator” means the Committee.

“**Affiliate**” means a corporation or other entity which is a parent or subsidiary of the Company, direct or indirect, in an unbroken chain of corporations if each of the corporations (except for the ultimate parent corporation) owns stock possessing 50 percent or more of the total combined voting power of all classes of stock in one of the other corporations in such chain.

“**Agreement**” means a written or electronic document setting forth the terms of a Stock Right delivered pursuant to the Plan, in such form as the Administrator shall approve.

“**Board of Directors**” means the Supervisory Board of the Company.

“**Code**” means the United States Internal Revenue Code of 1986, as amended, including any successor statute, regulation and guidance thereto.

“**Committee**” means the committee of the Board of Directors, if any, to which the Board of Directors has delegated power to act under or pursuant to the provisions of the Plan.

“**Common Stock**” means ordinary shares of the Company, 0.01 EUR par value per share.

“**Company**” means QIAGEN N.V., a limited liability company incorporated under the laws of The Netherlands having its corporate seat in the Venlo, The Netherlands.

“**Consultant**” means any natural person who is an advisor or consultant who provides bona fide services to the Company or its Affiliates, provided that such services are not in connection with the offer or sale of securities in a capital raising transaction, and do not directly or indirectly promote or maintain a market for the Company’s or its Affiliates’ securities.

“**Corporate Transaction**” means a merger, consolidation, or sale of all or substantially all of the Company’s assets or the acquisition of all of the outstanding voting stock of the Company (or similar transaction) in a single transaction or a series of related transactions by a single entity other than a transaction in which the Company is the surviving corporation. Where a Corporate Transaction involves a tender offer that is reasonably expected to be followed by a merger (as determined by the Administrator), the Corporate Transaction will be deemed to have occurred upon consummation of the tender offer.

“**Disability**” or “**Disabled**” means permanent and total disability in which an individual is unable to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.

“**Director**” means a member of the Board of Directors.

“**Employee**” means any employee of the Company or of an Affiliate (including, without limitation, an employee who is also serving as an officer or Director of the Company or of an Affiliate), designated by the Administrator to be eligible to be granted one or more Stock Rights.

“**Exchange Act**” means the United States Securities Exchange Act of 1934, as amended.

“**Fair Market Value**” of a Share of Common Stock means:

If the Common Stock is listed on a national securities exchange or traded in the over-the-counter market and sales prices are regularly reported for the Common Stock, the closing or, if

not applicable, the last price of the Common Stock on the consolidated tape or other comparable reporting system for the trading day on the applicable date and if such applicable date is not a trading day, the last market trading day prior to such date;

If the Common Stock is not traded on a national securities exchange but is traded on the over-the-counter market, if sales prices are not regularly reported for the Common Stock for the trading day referred to in clause (1), and if bid and asked prices for the Common Stock are regularly reported, the mean between the bid and the asked price for the Common Stock at the close of trading in the over-the-counter market for the most recent trading day on which Common Stock was traded on the applicable date and if such applicable date is not a trading day, the last market trading day prior to such date; and

If the Common Stock is neither listed on a national securities exchange nor traded in the over-the-counter market, such value as the Administrator, in good faith, shall determine in compliance with applicable laws.

“**ISO**” means a stock option intended to qualify as an incentive stock option under Section 422 of the Code.

“**Non-Qualified Option**” means a stock option which is not intended to qualify as an ISO.

“**Option**” means an ISO or Non-Qualified Option granted under the Plan.

“**Option Agreement**” means the Agreement setting forth the terms of an Option.

“**Participant**” means an Employee, Director or Consultant of the Company or an Affiliate to whom one or more Stock Rights are granted under the Plan. As used herein, “Participant” shall include “Participant’s Survivors” where the context requires.

“**Performance-Based Award**” means a Stock Grant or Stock-Based Award which vests based on the attainment of written Performance Goals as set forth in Paragraph 9 hereof.

“**Performance Goals**” means performance goals determined by the Committee in its sole discretion and set forth in an Agreement. The satisfaction of Performance Goals shall be subject to certification by the Committee. The Committee has the authority to take appropriate action with respect to the Performance Goals (including, without limitation, making adjustments to the Performance Goals or determining the satisfaction of the Performance Goals in connection with a Corporate Transaction) provided that any such action does not otherwise violate the terms of the Plan.

“**Plan**” means this QIAGEN N.V. 2023 Stock Plan.

“**SAR**” means a stock appreciation right.

“**Section 409A**” means Section 409A of the Code.

“**Section 422**” means Section 422 of the Code.

“**Securities Act**” means the United States Securities Act of 1933, as amended.

“**Shares**” means shares of the Common Stock as to which Stock Rights have been or may be granted under the Plan or any shares of capital stock into which the Shares are changed or for which they are exchanged within the provisions of Paragraph 3 of the Plan.

“**Stock-Based Award**” means a grant by the Company under the Plan of an equity award or an equity based award or a right to Shares or the value of Shares of the Company granted pursuant to the Plan which is not an Option or a Stock Grant.

“**Stock Grant**” means a grant by the Company of Shares under the Plan.

“**Stock Right**” means an ISO, a Non-Qualified Option, a Stock Grant or a Stock-Based Award.

“**Successor Board**” has the meaning ascribed to it in Paragraph 25(b) below.

“**Survivor**” means a deceased Participant’s legal representatives and/or any person or persons who acquired the Participant’s rights to a Stock Right by will or by the laws of descent and distribution.

Unless the context requires otherwise, a reference in this Plan to an “issue” or “issuance” of Shares also includes a reference to a “transfer” of treasury Shares.

## 2. PURPOSES OF THE PLAN.

The Plan is intended to attract and retain Participants, to induce them to work for the benefit of the Company or of an Affiliate and to provide additional incentive for them to promote the success of the Company or of an Affiliate, through the ownership of Shares. The Plan provides for the granting of ISOs, Non-Qualified Options, Stock Grants and Stock-Based Awards.

## 3. SHARES SUBJECT TO THE PLAN.

(a) The number of Shares which may be issued from time to time pursuant to this Plan shall be 10,000,000, or the equivalent of such number of Shares after the Administrator, in its sole discretion, has interpreted the effect of any stock split, stock dividend, combination, recapitalization or similar transaction in accordance with Paragraph 25 of the Plan, all of which Shares are eligible to be issued as ISOs.

(b) If an Option ceases to be “outstanding”, in whole or in part (other than by exercise), or if the Company shall reacquire (at not more than its original issuance price) any Shares issued pursuant to a Stock Grant or Stock-Based Award, or if any Stock Right expires or is forfeited, cancelled, or otherwise terminated or results in any Shares not being issued, the unissued or reacquired Shares which were subject to such Stock Right shall again be available for issuance from time to time pursuant to this Plan; provided, however, that the number of Shares underlying any awards under the Plan that are retained or repurchased on the exercise of an Option or the vesting or issuance of any Stock Right to cover the exercise price and/or tax withholding required by the Company in connection with vesting shall not be added back to the Shares available for issuance under the Plan; and provided, further that, in the case of ISOs, the foregoing provisions shall be subject to any limitations under the Code. In addition, any Shares repurchased using exercise price proceeds will not be available for issuance under the Plan.

## 4. ADMINISTRATION OF THE PLAN.

The Administrator of the Plan will be the Board of Directors, except to the extent the Board of Directors delegates its authority to the Committee, in which case the Committee shall be the Administrator. Subject to the provisions of the Plan, the Administrator is authorized to:

- (a) Interpret the provisions of the Plan and all Stock Rights and to make all rules and determinations which it deems necessary or advisable for the administration of the Plan;
- (b) Determine which Employees, Directors and Consultants shall be granted Stock Rights;
- (c) Determine the number of Shares for which a Stock Right or Stock Rights shall be granted;
- (d) Specify the terms and conditions upon which a Stock Right or Stock Rights may be granted;
- (e) Amend any term or condition of any outstanding Stock Right, other than reducing the exercise price or purchase price, provided that (i) such term or condition as amended is not prohibited by the Plan; and (ii) any such amendment shall not impair the rights of a Participant under any Stock Right previously granted

without such Participant's consent or in the event of death of the Participant the Participant's Survivors;

- (f) Determine and make any adjustments to the Performance Goals included in any Performance-Based Awards; and
- (g) Adopt any sub-plans applicable to residents of any specified jurisdiction as it deems necessary or appropriate in order to comply with or take advantage of any tax or other laws applicable to the Company, any Affiliate or to Participants or to otherwise facilitate the administration of the Plan, which sub-plans may include additional restrictions or conditions applicable to Stock Rights or Shares issuable pursuant to a Stock Right. Subject to the foregoing, the interpretation and construction by the Administrator of any provisions of the Plan or of any Stock Right granted under it shall be final, unless otherwise determined by the Board of Directors, if the Administrator is the Committee. In addition, if the Administrator is the Committee, the Board of Directors may take any action under the Plan that would otherwise be the responsibility of the Committee.

To the extent permitted under applicable law, the Board of Directors or the Committee may allocate all or any portion of its responsibilities and powers to any one or more of its members and may delegate all or any portion of its responsibilities and powers to any other person selected by it. The Board of Directors or the Committee may revoke any such allocation or delegation at any time.

#### 5. ELIGIBILITY FOR PARTICIPATION.

The Administrator will, in its sole discretion, name the Participants in the Plan; provided, however, that each Participant must be an Employee, Director or Consultant of the Company or of an Affiliate at the time a Stock Right is granted. Notwithstanding the foregoing, the Administrator may authorize the grant of a Stock Right to a person in anticipation of such person becoming an Employee, Director or Consultant of the Company or of an Affiliate; provided, that the actual grant of such Stock Right shall be conditioned upon such person becoming eligible to become a Participant at or prior to the time of the execution of the Agreement evidencing such Stock Right. ISOs may be granted only to Employees. Non-Qualified Options, Stock Grants and Stock-Based Awards may be granted to any Employee, Director or Consultant of the Company or an Affiliate. The granting of any Stock Right to any individual shall neither entitle that individual to, nor disqualify that individual from, participation in any other grant of Stock Rights or any grant under any other benefit plan established by the Company or any Affiliate for Employees, Directors or Consultants.

#### 6. TERMS AND CONDITIONS OF OPTIONS.

Each Option shall be set forth in an Option Agreement duly executed by the Company and, to the extent required by law or requested by the Company, by the Participant. The Administrator may provide that Options be granted subject to such terms and conditions, consistent with the terms and conditions specifically required under this Plan, as the Administrator may deem appropriate, including, without limitation, subsequent approval by the shareholders of the Company of this Plan or any amendments thereto. The Option Agreements shall be subject to at least the following terms and conditions:

- a. Non-Qualified Options. Each Option intended to be a Non-Qualified Option shall be subject to the terms and conditions which the Administrator determines to be appropriate and in the best interest of the Company, subject to the following minimum standards for any such Non-Qualified Option:
  - i. Exercise Price. Each Option Agreement shall state the exercise price (per share) of the Shares covered by each Option, which exercise price shall be

determined by the Administrator and shall be at least equal to the Fair Market Value per share of the Common Stock on the date of grant of the Option.

- ii. Number of Shares. Each Option Agreement shall state the number of Shares to which it pertains.
  - iii. Vesting. Each Option Agreement shall state the date or dates on which it first is exercisable and the date after which it may no longer be exercised, and may provide that the Option rights accrue or become exercisable in installments over a period of months or years, or upon the occurrence of certain performance conditions or the attainment of stated goals or events.
  - iv. Additional Conditions. Exercise of any Option may be conditioned upon the Participant's execution of a shareholders agreement in a form satisfactory to the Administrator providing for certain protections for the Company and its other shareholders, including requirements that:
    - A. The Participant's or the Participant's Survivors' right to sell or transfer the Shares may be restricted; and
    - B. The Participant or the Participant's Survivors may be required to execute letters of investment intent and must also acknowledge that the Shares will bear legends noting any applicable restrictions.
  - v. Term of Option. Each Option shall terminate not more than ten years from the date of the grant or at such earlier time as the Option Agreement may provide.
- b. ISOs. Each Option intended to be an ISO shall be issued only to an Employee who is deemed to be a resident of the United States for tax purposes, and shall be subject to the following terms and conditions, with such additional restrictions or changes as the Administrator determines are appropriate but not in conflict with Section 422 and relevant regulations and rulings of the Internal Revenue Service:
- i. Minimum Standards. The ISO shall meet the minimum standards required of Non-Qualified Options, as described in Paragraph 6(a) above, except clause (i) and (v) thereunder.
  - ii. Exercise Price. Immediately before the ISO is granted, if the Participant owns, directly or by reason of the applicable attribution rules in Section 424(d) of the Code:
    - A. 10% *or less* of the total combined voting power of all classes of stock of the Company or an Affiliate, the exercise price per share of the Shares covered by each ISO shall not be less than 100% of the Fair Market Value per share of the Common Stock on the date of grant of the Option; or
    - B. More than 10% of the total combined voting power of all classes of stock of the Company or an Affiliate, the exercise price per share of the Shares covered by each ISO shall not be less than 110% of the Fair Market Value per share of the Common Stock on the date of grant of the Option.
  - iii. Term of Option. For Participants who own:
    - A. 10% or less of the total combined voting power of all classes of stock of the Company or an Affiliate, each ISO shall terminate not more than ten years from the date of the grant or at such earlier time as the Option Agreement may provide; or

B. More than 10% of the total combined voting power of all classes of stock of the Company or an Affiliate, each ISO shall terminate not more than five years from the date of the grant or at such earlier time as the Option Agreement may provide.

iv. Limitation on Yearly Exercise. To the extent that aggregate Fair Market Value (determined on the date each ISO is granted) of the Shares with respect to which ISOs are exercisable for the first time by the Participant in any calendar year exceeds \$100,000, such Options shall be treated as Non-Qualified Options even if denominated ISOs at grant.

c. Except in connection with a corporate transaction involving the Company (which term includes, without limitation, any stock dividend, stock split, extraordinary cash dividend, recapitalization, reorganization, merger, consolidation, split-up, spin-off, combination or exchange of shares) or as otherwise contemplated by Paragraph 24 below, the Company may not, without obtaining stockholder approval, (i) amend the terms of outstanding Options to reduce the exercise price of such Options, (ii) cancel outstanding Options in exchange for Options that have an exercise price that is less than the exercise price value of the original Options, or (iii) cancel outstanding Options that have an exercise price greater than the Fair Market Value of a Share on the date of such cancellation in exchange for cash or other consideration.

## 7. TERMS AND CONDITIONS OF STOCK GRANTS.

Each Stock Grant to a Participant shall state the principal terms in an Agreement duly executed by the Company and, to the extent required by law or requested by the Company, by the Participant. The Agreement shall be in a form approved by the Administrator and shall contain terms and conditions which the Administrator determines to be appropriate and in the best interest of the Company, subject to the following minimum standards:

Each Agreement shall state the purchase price per share, if any, of the Shares covered by each Stock Grant, which purchase price shall be determined by the Administrator but shall not be less than the minimum consideration required by the law of The Netherlands on the date of the grant of the Stock Grant;

- (a) Each Agreement shall state the number of Shares to which the Stock Grant pertains;
- (b) Each Agreement shall include the terms of any right of the Company to restrict or reacquire the Shares subject to the Stock Grant, including the time period or attainment of Performance Goals or such other performance criteria upon which such rights shall accrue and the purchase price therefor, if any; and
- (c) Dividends (other than stock dividends to be issued pursuant to Paragraph 25 of the Plan) may accrue but shall not be paid prior to the time, and may be paid only to the extent that the restrictions or rights to reacquire the Shares subject to the Stock Grant lapse. Any entitlement to dividend equivalents or similar entitlements will be established and administered either consistent with an exemption from, or in compliance with the applicable requirements of Section 409A.

## 8. TERMS AND CONDITIONS OF OTHER STOCK-BASED AWARDS.

The Administrator shall have the right to grant other Stock-Based Awards based upon the Common Stock having such terms and conditions as the Administrator may determine, including, without limitation, the grant of Shares based upon certain conditions, the grant of

securities convertible into Shares and the grant of SARs, phantom stock awards or restricted stock units. The principal terms of each Stock-Based Award shall be set forth in an Agreement, duly executed by the Company and, to the extent required by law or requested by the Company, by the Participant. The Agreement shall be in a form approved by the Administrator and shall contain terms and conditions which the Administrator determines to be appropriate and in the best interest of the Company. Each Agreement shall include the terms of any right of the Company, including the right to terminate the Stock-Based Award without the issuance of Shares, the terms of any vesting conditions, Performance Goals or events upon which Shares shall be issued, provided that dividends (other than stock dividends to be issued pursuant to Paragraph 25 of the Plan) or dividend equivalents may accrue but shall not be paid prior to and may be paid only to the extent that the Shares subject to the Stock-Based Award vest. Under no circumstances may the Agreement covering SARs (a) have an exercise or base price (per share) that is less than the Fair Market Value per share of Common Stock on the date of grant or (b) expire more than ten years following the date of grant.

#### 9. PERFORMANCE-BASED AWARDS.

The Committee shall determine whether, with respect to a performance period, the applicable Performance Goals have been met with respect to a given Participant and, if they have, to so certify and ascertain the amount of the applicable Performance-Based Award. No Performance-Based Awards will be issued for such performance period until such certification is made by the Committee. The number of Shares issued in respect of a Performance-Based Award determined by the Committee for a performance period shall be paid to the Participant at such time as determined by the Committee in its sole discretion after the end of such performance period, and any dividends (other than stock dividends to be issued pursuant to Paragraph 25 of the Plan) or dividend equivalents that accrue shall only be paid in respect of the number of Shares earned in respect of such Performance-Based Award.

#### 10. EXERCISE OF OPTIONS AND ISSUE OF SHARES.

An Option (or any part or installment thereof) shall be exercised by giving written notice to the Company or its designee (in a form acceptable to the Administrator, which may include electronic notice), together with provision for payment of the aggregate exercise price in accordance with this Paragraph for the Shares as to which the Option is being exercised, and upon compliance with any other condition(s) set forth in the Option Agreement. Such notice shall be signed by the person exercising the Option (which signature may be provided electronically in a form acceptable to the Administrator), shall state the number of Shares with respect to which the Option is being exercised and shall contain any representation required by the Plan or the Option Agreement. Payment of the exercise price for the Shares as to which such Option is being exercised shall be made (a) in United States dollars in cash or by check; or (b) at the discretion of the Administrator, through delivery of shares of Common Stock held for at least six months (if required to avoid negative accounting treatment) having a Fair Market Value equal as of the date of the exercise to the aggregate cash exercise price for the number of Shares as to which the Option is being exercised; or (c) at the discretion of the Administrator, by having the Company retain from the Shares otherwise issuable upon exercise of the Option, a number of Shares having a Fair Market Value equal as of the date of exercise to the aggregate exercise price for the number of Shares as to which the Option is being exercised; or (d) at the discretion of the Administrator, in accordance with a cashless exercise program established with a securities brokerage firm, and approved by the Administrator; or (e) at the discretion of the Administrator, by any combination of (a), (b), (c) and (d) above or (f) at the discretion of the Administrator, by payment of such other lawful consideration as the Administrator may determine. Notwithstanding the foregoing, the Administrator shall accept only such payment on exercise of an ISO as is permitted by Section 422.

The Company shall then reasonably promptly deliver the Shares as to which such Option was exercised to the Participant (or to the Participant's Survivors, as the case may be). In determining what constitutes "reasonably promptly," it is expressly understood that the issuance and delivery of the Shares may be delayed by the Company if the Administrator determines it is necessary to comply with any law or regulation (including, without limitation, federal securities laws) that requires the Company to take any action with respect to the Shares prior to their issuance. The Shares shall, upon delivery, be fully paid, non-assessable Shares.

11. PAYMENT IN CONNECTION WITH THE ISSUANCE OF STOCK GRANTS AND STOCK-BASED AWARDS AND ISSUE OF SHARES.

Any Stock Grant or Stock-Based Award requiring payment of a purchase price for the Shares as to which such Stock Grant or Stock-Based Award is being granted shall be made (a) in United States dollars in cash or by check; or (b) at the discretion of the Administrator, through delivery of shares of Common Stock held for at least six months (if required to avoid negative accounting treatment) and having a Fair Market Value equal as of the date of payment to the purchase price of the Stock Grant or Stock-Based Award; or (c) by delivery of a promissory note, if the Board of Directors has expressly authorized the loan of funds to the Participant for the purpose of enabling or assisting the Participant to effect such purchase; (d) at the discretion of the Administrator, by any combination of (a) through (c) above; or (e) at the discretion of the Administrator, by payment of such other lawful consideration as the Administrator may determine.

The Company shall, when required by the applicable Agreement, reasonably promptly deliver the Shares as to which such Stock Grant or Stock-Based Award was made to the Participant (or to the Participant's Survivors, as the case may be), subject to any escrow provision set forth in the applicable Agreement. In determining what constitutes "reasonably promptly," it is expressly understood that the issuance and delivery of the Shares may be delayed by the Company if the Administrator determines it is necessary to comply with any law or regulation (including, without limitation, federal securities laws) which requires the Company to take any action with respect to the Shares prior to their issuance.

12. RIGHTS AS A SHAREHOLDER.

No Participant to whom a Stock Right has been granted shall have rights as a shareholder with respect to any Shares covered by such Stock Right except after due exercise of an Option or issuance of Shares as set forth in any Agreement, tender of the aggregate exercise or purchase price, if any, for the Shares being purchased and registration of the Shares in the Company's share register in the name of the Participant. In addition, at the discretion of the Administrator, the Company shall have received an opinion of its counsel that the Shares may be issued in compliance with the Securities Act without registration thereunder.

13. ASSIGNABILITY AND TRANSFERABILITY OF STOCK RIGHTS.

By its terms, a Stock Right granted to a Participant cannot be transferable by the Participant, which prohibition of transferability shall have property law effect (*goederenrechtelijke werking*) within the meaning of article 3:83(2) of the Dutch Civil Code, other than (i) by will or by the laws of descent and distribution, or (ii) as approved by the Administrator in its discretion and set forth in the applicable Agreement provided that no Stock Right may be transferred by a Participant for value. Notwithstanding the foregoing, an ISO transferred except in compliance with clause (i) above shall no longer qualify as an ISO. The designation of a beneficiary of a Stock Right by a Participant, with the prior approval of the Administrator and in such form as the Administrator shall prescribe, shall not be deemed a transfer prohibited by this Paragraph. Except as provided above, during the Participant's lifetime a Stock Right shall only be exercisable by or issued to such Participant (or his or her legal representative) and shall not be assigned, pledged or hypothecated in any way (whether by

operation of law or otherwise) and shall not be subject to execution, attachment or similar process. Any attempted transfer, assignment, pledge, hypothecation or other disposition of any Stock Right or of any rights granted thereunder contrary to the provisions of this Plan, or the levy of any attachment or similar process upon a Stock Right, shall be null and void.

14. EFFECT ON OPTIONS OF TERMINATION OF SERVICE OTHER THAN “FOR CAUSE” OR DEATH OR DISABILITY.

Except as otherwise provided in a Participant’s Option Agreement, in the event of a termination of service (whether as an Employee, Director or Consultant) with the Company or an Affiliate before the Participant has exercised an Option, the following rules apply:

- (a) A Participant who ceases to be an Employee, Director or Consultant of the Company or of an Affiliate (for any reason other than termination “for cause,” Disability, or death for which events there are special rules in Paragraphs 15, 16, and 17, respectively), may exercise any Option granted to such Participant to the extent that the Option is exercisable on the date of such termination of service, but only within such term as the Administrator has designated in a Participant’s Option Agreement.
- (b) Except as provided in Subparagraph (c) below, or Paragraph 16 or 17, in no event may an Option intended to be an ISO be exercised later than three months after the Participant’s termination of employment.
- (c) The provisions of this Paragraph, and not the provisions of Paragraph 16 or 17, shall apply to a Participant who subsequently becomes Disabled or dies after the termination of employment, Director status or consultancy; provided, however, in the case of a Participant’s Disability or death within three months after the termination of employment, Director status or consultancy, the Participant or the Participant’s Survivors may exercise the Option within one year after the date of the Participant’s termination of service, but in no event after the date of expiration of the term of the Option.
- (d) Notwithstanding anything herein to the contrary, if subsequent to a Participant’s termination of employment, termination of Director status or termination of consultancy, but prior to the exercise of an Option, the Administrator determines that, either prior or subsequent to the Participant’s termination, the Participant engaged in conduct which would constitute “cause,” then such Participant shall forthwith cease to have any right to exercise any Option.
- (e) A Participant to whom an Option has been granted under the Plan who is absent from the Company or an Affiliate because of temporary disability (any disability other than a Disability as defined in Paragraph 1 hereof), or who is on leave of absence for any purpose, shall not, during the period of any such absence, be deemed, by virtue of such absence alone, to have terminated such Participant’s employment, Director status or consultancy with the Company or with an Affiliate, except as the Administrator may otherwise expressly provide; provided, however, that, for ISOs, any leave of absence granted by the Administrator of greater than three months, unless pursuant to a contract or statute that guarantees the right to reemployment, shall cause such ISO to become a Non-Qualified Option on the date that is six months following the commencement of such leave of absence.
- (f) Except as required by law or as set forth in a Participant’s Option Agreement, Options granted under the Plan shall not be affected by any change of a Participant’s status within or among the Company and any Affiliates, so long as

the Participant continues to be an Employee, Director or Consultant of the Company or any Affiliate.

15. EFFECT ON OPTIONS OF TERMINATION OF SERVICE “FOR CAUSE.”

Except as otherwise provided in a Participant’s Option Agreement, the following rules apply if the Participant’s service (whether as an Employee, Director or Consultant) with the Company or an Affiliate is terminated “for cause” prior to the time that all his or her outstanding Options have been exercised:

- (a) All outstanding and unexercised Options as of the time the Participant is notified his or her service is terminated “for cause” will immediately be forfeited.
- (b) “Cause” is not limited to events which have occurred prior to a Participant’s termination of service, nor is it necessary that the Administrator’s finding of “cause” occur prior to termination. If the Administrator determines, subsequent to a Participant’s termination of service but prior to the exercise of an Option, that either prior or subsequent to the Participant’s termination the Participant engaged in conduct which would constitute “cause,” then the right to exercise any Option is forfeited.

16. EFFECT ON OPTIONS OF TERMINATION OF SERVICE FOR DISABILITY.

Except as otherwise provided in a Participant’s Option Agreement:

- (a) A Participant who ceases to be an Employee, Director or Consultant of the Company or of an Affiliate by reason of Disability may exercise any Option granted to such Participant to the extent that the Option has become exercisable but has not been exercised on the date of the Participant’s termination of service due to Disability; and in the event rights to exercise the Option accrue periodically, to the extent of a pro rata portion through the date of the Participant’s termination of service due to Disability of any additional vesting rights that would have accrued on the next vesting date had the Participant not become Disabled. The proration shall be based upon the number of days accrued in the current vesting period prior to the date of the Participant’s termination of service due to Disability.
- (b) A Disabled Participant may exercise the Option only within the period ending one year after the date of the Participant’s termination of service due to Disability, notwithstanding that the Participant might have been able to exercise the Option as to some or all of the Shares on a later date if the Participant had not been terminated due to Disability and had continued to be an Employee, Director or Consultant or, if earlier, within the originally prescribed term of the Option.
- (c) The Administrator shall make the determination both of whether Disability has occurred and the date of its occurrence (unless a procedure for such determination is set forth in another agreement between the Company and such Participant, in which case such procedure shall be used for such determination). If requested, the Participant shall be examined by a physician selected or approved by the Administrator, the cost of which examination shall be paid for by the Company.

17. EFFECT ON OPTIONS OF DEATH WHILE AN EMPLOYEE, DIRECTOR OR CONSULTANT.

Except as otherwise provided in a Participant’s Option Agreement:

- (a) In the event of the death of a Participant while the Participant is an Employee, Director or Consultant of the Company or of an Affiliate, such Option may be

exercised by the Participant's Survivors to the extent that the Option has become exercisable but has not been exercised on the date of death; and in the event rights to exercise the Option accrue periodically, to the extent of a pro rata portion through the date of death of any additional vesting rights that would have accrued on the next vesting date had the Participant not died. The proration shall be based upon the number of days accrued in the current vesting period prior to the Participant's date of death.

- (b) If the Participant's Survivors wish to exercise the Option, they must take all necessary steps to exercise the Option within one year after the date of death of such Participant, notwithstanding that the decedent might have been able to exercise the Option as to some or all of the Shares on a later date if he or she had not died and had continued to be an Employee, Director or Consultant or, if earlier, within the originally prescribed term of the Option.

#### 18. EFFECT OF TERMINATION OF SERVICE ON UNACCEPTED STOCK GRANTS AND STOCK-BASED AWARDS.

In the event of a termination of service (whether as an Employee, Director or Consultant) with the Company or an Affiliate for any reason before the Participant has accepted a Stock Grant or a Stock-Based Award and paid the purchase price, if required, such grant shall terminate.

For purposes of this Paragraph 18 and Paragraph 19 below, a Participant to whom a Stock Grant or a Stock-Based Award has been issued under the Plan who is absent from work with the Company or with an Affiliate because of temporary disability (any disability other than a Disability as defined in Paragraph 1 hereof), or who is on leave of absence for any purpose, shall not, during the period of any such absence, be deemed, by virtue of such absence alone, to have terminated such Participant's employment, Director status or consultancy with the Company or with an Affiliate, except as the Administrator may otherwise expressly provide.

In addition, for purposes of this Paragraph 18 and Paragraph 19 below, any change of employment or other service within or among the Company and any Affiliates shall not be treated as a termination of employment, Director status or consultancy so long as the Participant continues to be an Employee, Director or Consultant of the Company or any Affiliate.

#### 19. EFFECT ON STOCK GRANTS AND STOCK -BASED AWARDS OF TERMINATION OF SERVICE OTHER THAN "FOR CAUSE," DEATH OR DISABILITY.

Except as otherwise provided in a Participant's Agreement, in the event of a termination of service for any reason (whether as an Employee, Director or Consultant), other than termination "for cause," death or Disability for which there are special rules in Paragraphs 20, 21, and 22 below, before all forfeiture provisions or Company rights of repurchase shall have lapsed, then the Company shall have the right to cancel or repurchase that number of Shares subject to a Stock Grant or Stock-Based Award as to which the Company's forfeiture or repurchase rights have not lapsed.

#### 20. EFFECT ON STOCK GRANTS AND STOCK-BASED AWARDS OF TERMINATION OF SERVICE "FOR CAUSE."

Except as otherwise provided in a Participant's Agreement, the following rules apply if the Participant's service (whether as an Employee, Director or Consultant) with the Company or an Affiliate is terminated "for cause":

- (a) All Shares subject to any Stock Grant or Stock -Based Award that remain subject to forfeiture provisions or as to which the Company shall have a repurchase right

shall be immediately forfeited to the Company as of the time the Participant is notified his or her service is terminated “for cause.”

- (b) “Cause” is not limited to events which have occurred prior to a Participant’s termination of service, nor is it necessary that the Administrator’s finding of “cause” occur prior to termination. If the Administrator determines, subsequent to a Participant’s termination of service, that either prior or subsequent to the Participant’s termination the Participant engaged in conduct which would constitute “cause,” then all Shares subject to any Stock Grant or Stock-Based Award that remained subject to forfeiture provisions or as to which the Company had a repurchase right on the date of termination shall be immediately forfeited to the Company.

**21. EFFECT ON STOCK GRANTS AND STOCK-BASED AWARDS OF TERMINATION OF SERVICE FOR DISABILITY.**

Except as otherwise provided in a Participant’s Agreement, the following rules apply if a Participant ceases to be an Employee, Director or Consultant of the Company or of an Affiliate by reason of Disability: to the extent the forfeiture provisions or the Company’s rights of repurchase have not lapsed on the date of Disability, they shall be exercisable; provided, however, that in the event such forfeiture provisions or rights of repurchase lapse periodically, such provisions or rights shall lapse to the extent of a pro rata portion of the Shares subject to such Stock Grant or Stock-Based Award through the date of Disability as would have lapsed had the Participant not become Disabled. The proration shall be based upon the number of days accrued prior to the date of Disability.

The Administrator shall make the determination both as to whether Disability has occurred and the date of its occurrence (unless a procedure for such determination is set forth in another agreement between the Company and such Participant, in which case such procedure shall be used for such determination). If requested, the Participant shall be examined by a physician selected or approved by the Administrator, the cost of which examination shall be paid for by the Company.

**22. EFFECT ON STOCK GRANTS AND STOCK -BASED AWARDS OF DEATH WHILE AN EMPLOYEE, DIRECTOR OR CONSULTANT.**

Except as otherwise provided in a Participant’s Agreement, the following rules apply in the event of the death of a Participant while the Participant is an Employee, Director or Consultant of the Company or of an Affiliate: to the extent the forfeiture provisions or the Company’s rights of repurchase have not lapsed on the date of death, they shall be exercisable; provided, however, that in the event such forfeiture provisions or rights of repurchase lapse periodically, such provisions or rights shall lapse to the extent of a pro rata portion of the Shares subject to such Stock Grant or Stock-Based Award through the date of death as would have lapsed had the Participant not died. The proration shall be based upon the number of days accrued prior to the Participant’s date of death.

**23. PURCHASE FOR INVESTMENT.**

- (a) Unless the offering and sale of the Shares shall have been effectively registered under the Securities Act, the Company shall be under no obligation to issue Shares under the Plan unless and until the following conditions have been fulfilled:
- (b) The person who receives a Stock Right shall warrant to the Company, prior to the receipt of Shares, that such person is acquiring such Shares for his or her own account, for investment, and not with a view to, or for sale in connection with, the distribution of any such Shares, in which event the person acquiring such Shares

shall be bound by the provisions of the following legend (or a legend in substantially similar form) which shall be endorsed upon the certificate evidencing the Shares issued pursuant to such exercise or such grant of a Stock Right:

“The shares represented by this certificate have been taken for investment and they may not be sold or otherwise transferred by any person, including a pledgee, unless (1) either (a) a Registration Statement with respect to such shares shall be effective under the Securities Act of 1933, as amended, or (b) the Company shall have received an opinion of counsel satisfactory to it that an exemption from registration under such Act is then available, and (2) there shall have been compliance with all applicable state securities laws.”

24. DISSOLUTION OR LIQUIDATION OF THE COMPANY.

Upon the dissolution or liquidation of the Company, all Options granted under this Plan which as of such date shall not have been exercised and all Stock Grants and Stock-Based Awards which have not been accepted, to the extent required under the applicable Agreement, will terminate and become null and void; provided, however, that if the rights of a Participant or a Participant's Survivors have not otherwise terminated and expired, the Participant or the Participant's Survivors will have the right immediately prior to such dissolution or liquidation to exercise or accept any Stock Right to the extent that the Stock Right is exercisable or subject to acceptance as of the date immediately prior to such dissolution or liquidation. Upon the dissolution or liquidation of the Company, any outstanding Stock-Based Awards shall immediately terminate unless otherwise determined by the Administrator or specifically provided in the applicable Agreement.

25. ADJUSTMENTS.

Upon the occurrence of any of the following events, a Participant's rights with respect to any Stock Right granted to such Participant hereunder shall be adjusted as hereinafter provided, unless otherwise specifically provided in a Participant's Agreement.

(a) Stock Dividends and Stock Splits.

(i) If (1) the shares of Common Stock shall be subdivided or combined into a greater or smaller number of shares or if the Company shall issue any shares of Common Stock as a stock dividend on its outstanding Common Stock, or (2) additional shares or new or different shares or other securities of the Company or other non-cash assets are distributed with respect to such shares of Common Stock, each Stock Right and the number of shares of Common Stock deliverable thereunder shall be appropriately increased or decreased proportionately, and appropriate adjustments shall be made, including, in the exercise, base or purchase price per share and in the Performance Goals applicable to outstanding Performance-Based Awards to reflect such events. The number of Shares subject to the limitations in Paragraphs 3(a), 3(b), 3(d) and 4(c) shall also be proportionately adjusted upon the occurrence of such events.

(ii) The Administrator may also make adjustments of the type described in Paragraph 25(a)(i) above to take into account distributions to stockholders other than those provided for in Paragraphs 25(b) below, or any other event, if the Administrator determines that adjustments are appropriate to avoid distortion in the operation of the Plan or any award, having due regard for the qualification of ISOs under Section 422, the requirements of Section 409A, to the extent applicable.

(iii) References in the Plan to Shares will be construed to include any stock or securities resulting from an adjustment pursuant to this Paragraph 25(a).

(b) Corporate Transactions. Upon a Corporate Transaction, the Administrator or the board of directors of any entity assuming the obligations of the Company hereunder (the “**Successor Board**”), may, as to outstanding Options, take any of the following actions: (i) make appropriate provision for the continuation of such Options by substituting on an equitable basis for the Shares then subject to such Options either the consideration payable with respect to the outstanding shares of Common Stock in connection with the Corporate Transaction or securities of any successor or acquiring entity; or (ii) upon written notice to the Participants, provide that such Options must be exercised (either (A) to the extent then exercisable or (B) at the discretion of the Administrator, any such Options being made partially or fully exercisable for purposes of this Subparagraph), within a specified number of days of the date of such notice, at the end of which period such Options which have not been exercised shall terminate; or (iii) terminate such Options in exchange for payment of an amount equal to the consideration payable upon consummation of such Corporate Transaction to a holder of the number of shares of Common Stock into which such Option would have been exercisable (either (A) to the extent then exercisable or, (B) at the discretion of the Administrator, any such Options being made partially or fully exercisable for purposes of this Subparagraph) less the aggregate exercise price thereof. For purposes of determining the payments to be made pursuant to Subclause (iii) above, in the case of a Corporate Transaction the consideration for which, in whole or in part, is other than cash, the consideration other than cash shall be valued at the fair value thereof as determined in good faith by the Board of Directors. For the avoidance of doubt, if the per share exercise price of an Option or portion thereof is equal to or greater than the Fair Market Value of one Share of Common Stock, such Option may be cancelled with no payment due hereunder or otherwise in respect thereof.

With respect to outstanding Stock Grants or Stock-Based Awards, the Administrator or the Successor Board, shall make appropriate provision for the continuation of such Stock Grants or Stock-Based Awards on the same terms and conditions by substituting on an equitable basis for the Shares then subject to such Stock Grants or Stock-Based Awards either the consideration payable with respect to the outstanding Shares of Common Stock in connection with the Corporate Transaction or securities of any successor or acquiring entity. In lieu of the foregoing, in connection with any Corporate Transaction, the Administrator may provide that, upon consummation of the Corporate Transaction, each outstanding Stock Grant or Stock-Based Award shall be terminated in exchange for payment of an amount equal to the consideration payable upon consummation of such Corporate Transaction to a holder of the number of shares of Common Stock comprising such Stock Grant or Stock-Based Award (to the extent such Stock Grant or Stock-Based Award is no longer subject to any forfeiture or repurchase rights then in effect or, at the discretion of the Administrator, all forfeiture and repurchase rights being waived). For the avoidance of doubt, if the purchase or base price of a Stock Grant or Stock-Based Award or portion thereof is equal to or greater than the Fair Market Value of one Share of Common Stock, such Stock Grant or Stock-Based Award, as applicable, may be cancelled with no payment due hereunder or otherwise in respect thereof.

In taking any of the actions permitted under this Paragraph 25(b), the Administrator shall not be obligated by the Plan to treat all Stock Rights, all Stock Rights held by a Participant, or all Stock Rights of the same type, identically.

A Stock Right may be subject to acceleration of vesting and exercisability upon or after a change of control as may be provided in the Agreement for such Stock Right, in any other written agreement between the Company or any Affiliate and the Participant or in any Director compensation policy of the Company.

(c) Recapitalization or Reorganization. In the event of a recapitalization or reorganization of the Company other than a Corporate Transaction pursuant to which securities of the Company or of another corporation are issued with respect to the outstanding shares of Common Stock, a Participant upon exercising an Option or accepting a Stock Grant after the recapitalization or reorganization shall be entitled to receive for the price paid upon such exercise

or acceptance if any, the number of replacement securities which would have been received if such Option had been exercised or Stock Grant accepted prior to such recapitalization or reorganization.

(d) Adjustments to Stock-Based Awards. Upon the happening of any of the events described in Subparagraphs (a), (b) or (c) above, any outstanding Stock-Based Award shall be appropriately adjusted to reflect the events described in such Subparagraphs. The Administrator or the Successor Board shall determine the specific adjustments to be made under this Paragraph 25, including, but not limited to the effect of any, Corporate Transaction change of control and, subject to Paragraph 4, its determination shall be conclusive.

(e) Termination of Awards upon Consummation of Corporate Transaction. Except as the Administrator may otherwise determine, each Stock Right will automatically terminate (and in the case of outstanding Shares of restricted Common Stock, will automatically be forfeited) immediately upon the consummation of a Corporate Transaction, other than (i) any award that is assumed, continued or substituted pursuant to Paragraph 24(b) above, and (ii) any cash award that by its terms, or as a result of action taken by the Administrator, continues following the consummation of the Corporate Transaction.

## 26. ISSUANCES OF SECURITIES.

(a) Except as expressly provided herein, no issuance by the Company of shares of stock of any class, or securities convertible into shares of stock of any class, shall affect, and no adjustment by reason thereof shall be made with respect to, the number or price of shares subject to Stock Rights. Except as expressly provided herein, no adjustments shall be made for dividends paid in cash or in property (including without limitation, securities) of the Company prior to any issuance of Shares pursuant to a Stock Right.

(b) The Company will not be obligated to issue any Shares pursuant to the Plan or to remove any restriction from Shares previously issued under the Plan until: (i) the Company is satisfied that all legal matters in connection with the issuance of such Shares have been addressed and resolved; (ii) if the outstanding Shares is at the time of issuance listed on any stock exchange or national market system, the Shares to be issued have been listed or authorized to be listed on such exchange or system upon official notice of issuance; and (iii) all conditions of the award have been satisfied or waived. The Company may require, as a condition to the exercise of an award or the issuance of Shares under an award, such representations or agreements as counsel for the Company may consider appropriate to avoid violation of the Securities Act, as amended, or any applicable state or non-U.S. securities law. Any Shares issued under the Plan will be evidenced in such manner as the Administrator determines appropriate, including book-entry registration or delivery of stock certificates. In the event that the Administrator determines that stock certificates will be issued in connection with Shares issued under the Plan, the Administrator may require that such certificates bear an appropriate legend reflecting any restriction on transfer applicable to such Stock, and the Company may hold the certificates pending the lapse of the applicable restrictions.

## 27. FRACTIONAL SHARES.

No fractional shares shall be issued under the Plan and the person exercising a Stock Right shall receive from the Company cash in lieu of such fractional shares equal to the Fair Market Value thereof.

## 28. WITHHOLDING.

In the event that any federal, state, or local income taxes, employment taxes, Federal Insurance Contributions Act withholdings or other amounts are required by applicable law or governmental regulation to be withheld from the Participant's salary, wages or other remuneration in connection with the issuance of a Stock Right or Shares under the Plan or for

any other reason required by law, the Company may withhold from the Participant's compensation, if any, or may require that the Participant advance in cash to the Company, or to any Affiliate of the Company which employs or employed the Participant, the statutory minimum amount of such withholdings unless a different withholding arrangement, including the use of shares of the Company's Common Stock or a promissory note, is authorized by the Administrator (and permitted by law). For purposes hereof, the fair market value of the shares withheld for purposes of payroll withholding shall be determined in the manner set forth under the definition of Fair Market Value provided in Paragraph 1 above, as of the most recent practicable date. If the Fair Market Value of the shares withheld is less than the amount of payroll withholdings required, the Participant may be required to advance the difference in cash to the Company or the Affiliate employer.

29. TERMINATION OF THE PLAN.

The Plan will terminate on April 28, 2033, the date which is ten years from the earlier of the date of its adoption by the Board of Directors and the date of its approval by the shareholders of the Company. The Plan may be terminated at an earlier date by vote of the shareholders or the Board of Directors of the Company; provided, however, that any such earlier termination shall not affect any Agreements executed prior to the effective date of such termination. Termination of the Plan shall not affect any Stock Rights theretofore granted.

30. AMENDMENT OF THE PLAN AND AGREEMENTS.

The Plan may be amended by the shareholders of the Company. The Plan may also be amended by the Administrator; provided that any amendment approved by the Administrator which the Administrator determines is of a scope that requires shareholder approval shall be subject to obtaining such shareholder approval, including, without limitation, to the extent necessary to qualify any or all outstanding Stock Rights granted under the Plan or Stock Rights to be granted under the Plan for favorable federal income tax treatment as may be afforded ISOs under Section 422 and to the extent necessary to qualify the Shares issuable under the Plan for listing on any national securities exchange or quotation in any national automated quotation system of securities dealers.

Any modification or amendment of the Plan shall not, without the consent of a Participant, adversely affect his or her rights under a Stock Right previously granted to such Participant, unless such amendment is required by applicable law or necessary to preserve the economic value of such Stock Right. With the consent of the Participant affected, the Administrator may amend outstanding Agreements in a manner which may be adverse to such Participant but which is not inconsistent with the Plan. In the discretion of the Administrator, outstanding Agreements may be amended by the Administrator in a manner which is not adverse to the Participant. Nothing in this Paragraph 30 shall limit the Administrator's authority to take any action permitted pursuant to Paragraph 25.

31. EMPLOYMENT OR OTHER RELATIONSHIP.

Nothing in this Plan or any Agreement shall be deemed to prevent the Company or an Affiliate from terminating the employment, consultancy or Director status of a Participant, nor to prevent a Participant from terminating his or her own employment, consultancy or Director status or to give any Participant a right to be retained in employment or other service by the Company or any Affiliate for any period of time.

32. SECTION 409A AND SECTION 422.

The Company intends that the Plan and any Stock Rights granted hereunder be exempt from or comply with Section 409A, to the extent applicable. The Company intends that ISOs

comply with Section 422, to the extent applicable. Any ambiguities in the Plan or any Stock Right shall be construed to effect the intent as described in this Paragraph 32.

If a Participant is a “specified employee” as defined in Section 409A (and as applied according to procedures of the Company and its Affiliates) as of such Participant’s separation from service, to the extent any payment under this Plan or pursuant to a Stock Right constitutes non-exempt deferred compensation under Section 409A that is being paid by reason of the separation from service, no payments due under this Plan or pursuant to a Stock Right may be made until the earlier of: (i) the first day of the seventh month following the Participant’s separation from service, or (ii) the Participant’s date of death; provided, however, that any payments delayed during this six-month period shall be paid in the aggregate in a lump sum, without interest, on the first day of the seventh month following the Participant’s separation from service.

The Administrator shall administer the Plan with a view toward ensuring that Stock Rights under the Plan that are subject to Section 409A or Section 422, as applicable comply with the requirements thereof and that Options under the Plan be exempt from the requirements of Section 409A or compliant with Section 422, as applicable, but neither the Administrator nor any member of the Board of Directors, nor the Company nor any of its Affiliates, nor any other person acting hereunder on behalf of the Company, the Administrator or the Board of Directors shall be liable to a Participant or any Survivor by reason of the acceleration of any income, or the imposition of any additional tax or penalty, with respect to a Stock Right, whether by reason of a failure to satisfy the requirements of Section 409A or Section 422 or otherwise.

33. INDEMNITY.

Neither the Board of Directors nor the Administrator, nor any members of either, nor any employees of the Company or any parent, subsidiary, or other Affiliate, shall be liable for any act, omission, interpretation, construction or determination made in good faith in connection with their responsibilities with respect to this Plan, and the Company hereby agrees to indemnify the members of the Board or Directors, the members of the Committee, and the employees of the Company and its parent or subsidiaries in respect of any claim, loss, damage, or expense (including reasonable counsel fees) arising from any such act, omission, interpretation, construction or determination to the full extent permitted by law.

34. CLAWBACK.

Notwithstanding anything to the contrary contained in this Plan, the Company may recover from a Participant any compensation received from any Stock Right (whether or not settled) or cause a Participant to forfeit any Stock Right (whether or not vested) in the event that the Company’s clawback policy as then in effect is triggered.

35. GOVERNING LAW.

This Plan shall be construed and enforced in accordance with the law of The Netherlands.

36. WAIVER OF JURY TRIAL.

By accepting or being deemed to have accepted an award under the Plan, each Participant waives (or will be deemed to have waived), to the maximum extent permitted under applicable law, any right to a trial by jury in any action, proceeding or counterclaim concerning any rights under the Plan or any award, or under any amendment, waiver, consent, instrument, document or other agreement delivered or which in the future may be delivered in connection therewith, and agrees (or will be deemed to have agreed) that any such action, proceedings or counterclaim will be tried before a court and not before a jury. By accepting or being deemed to have accepted an award under the Plan, each Participant certifies that no officer, representative, or attorney of the Company has represented, expressly or otherwise, that the Company would not, in the event of

any action, proceeding or counterclaim, seek to enforce the foregoing waivers. Notwithstanding anything to the contrary in the Plan, nothing herein is to be construed as limiting the ability of the Company and a Participant to agree to submit any dispute arising under the terms of the Plan or any award to binding arbitration or as limiting the ability of the Company to require any individual to agree to submit such disputes to binding arbitration as a condition of receiving an award hereunder.

37. UNFUNDED OBLIGATIONS.

The Company's obligations under the Plan are unfunded, and no Participant will have any right to specific assets of the Company in respect of any award under the Plan. Participants will be general unsecured creditors of the Company with respect to any amounts due or payable under the Plan.

**LIST OF SUBSIDIARIES**

The following is a list of the Registrant's subsidiaries as of December 31, 2023, other than certain subsidiaries that did not in the aggregate constitute a significant subsidiary.

Company Name	Jurisdiction of Incorporation
Amnisure International LLC	USA
Life Biotech Partners B.V.	Netherlands
NeuMoDx Molecular Inc.	USA

QIAGEN Taiwan Co. Ltd.	Taiwan
QIAGEN Business Management MEA Ltd.	UAE
QIAGEN Wroclaw Sp.z.o.o.	Poland

Dealings in QIAGEN stock based on non-public material information about the Company are strictly prohibited under US and German Securities laws. These laws are complex and penalties can be severe. In order to protect QIAGEN and its employees from such sanctions, this policy explains the basic rules which apply to potential Insiders (individuals with knowledge of non-public material information) and holders of QIAGEN stock (including stock options and restricted stock units).

## 1. Who is covered by the policy

QIAGEN N.V. (the “Company”) hereby adopts this policy, which shall apply to all employees of the Company, the members of the Supervisory Board, the Executive Committee and all employees, directors and officers of its subsidiaries (collectively referred to herein as “Members”).

## 2. The need for a policy statement

This policy has been developed:

- To educate all Members of the Company and its subsidiaries;
- To set forth guidelines for courses of action;
- To protect the Company and its Members against legal liability; and
- To preserve the reputation of the Company and its Members.

As a result of the listing of the Common Stock of the Company on the Frankfurt Stock Exchange and the New York Stock Exchange (NYSE), transactions in the stock are subject to the securities laws of The Netherlands and Germany, in particular the EU Market Abuse Regulation 596/2014 (the “MAR”) and the United States, including, the Securities Act of 1933, the Securities Exchange Act of 1934, the Insider Trading and Securities Fraud Enforcement Act, and the regulations adopted by the United States Securities and Exchange Commission (the “SEC”).

These laws and regulations make it illegal for an individual to buy or sell securities while in the possession of material non-public information also known as “Insider Information.” The BaFin (Federal Financial Supervisory Authority), the SEC and other regulatory authorities take insider trading very seriously and devote significant resources to uncovering the activity and to prosecuting offenders. Liability may extend not only to the individuals who trade on Insider Information, but also to their “tippers.” The Company and its management may also be liable for violations by Members.

In addition to responding to the statutes and regulations, we are adopting this policy to avoid even the appearance of improper conduct on the part of anyone employed by or associated with

## Insider Trading Policy

our Company (not just so-called insiders). We have all worked hard over the years to establish our reputation for integrity and ethical conduct. We cannot afford to have it damaged.

### 3. The consequences

The consequences of insider trading violations can be severe:

**For individuals** who trade while in possession of Insider Information (or tip information to others):

- A civil penalty of up to three times the profit gained or loss avoided;
- A criminal fine (no matter how small the profit) of up to \$5 million; and
- A jail term of up to twenty years.

Needless to say, any of the above consequences, even an investigation by public regulatory authorities that does not result in prosecution, can tarnish one's reputation and irreparably damage a career.

**For a Company** up to 15% of the annual revenue and for any supervisory person that fails to take appropriate steps to prevent illegal trading:

- A civil penalty of the greater of \$1 million or three times the profit gained or loss avoided as a result of the employee's violation; and
- A criminal penalty of up to \$25 million.

Moreover, the Company can be exposed to shareholder lawsuits and significant damages.

### 4. Our policy

If any Member or any Family Member (as defined below) has material non-public information relating to the Company or its subsidiaries, it is the Company's policy that neither the Member nor any Family Member may buy or sell securities of the Company or engage in any other action to take advantage of, or pass on to others, that information.

Bona fide gifts of the Company's securities, such as gifts to Family Members or donations, are not transactions that are subject to this policy, unless the person making the gift has reason to believe that the recipient intends to sell the Company's securities while the donor is in possession of Insider Information.

Further, transactions in mutual funds that are invested in the Company's securities are not transactions subject to this policy.

## Insider Trading Policy

This policy also applies with equal force to information relating to any other company which is listed on a stock exchange or association, including our customers or suppliers, obtained by an individual during the course of his or her service to or employment by the Company.

Transactions in the Company's securities that may be necessary or justifiable for independent reasons (such as the need to raise money for an emergency expenditure) are no exception. Even the appearance of an improper transaction must be avoided to preserve our reputation for adhering to the highest standards of conduct.

**Insider Information.** Material non-public information or "Insider Information" is any non-public information that a reasonable investor would consider important in a decision to buy, hold or sell stock if he/she had knowledge of such information. In short, Insider Information is any information which could reasonably affect the price of the stock and which has not been publicly disclosed.

**Examples.** Common examples of information that will frequently be regarded as Insider Information are: financial information before it is announced publicly (e.g. quarterly results); projections of future earnings or losses; news of a pending or proposed merger, acquisition or tender offer; an important financing transaction; changes in dividend policies or the declaration of a stock split or the offering of additional securities; changes in management; significant new products or discoveries; impending bankruptcy or financial liquidity problems; internal financial information which departs from what the market would expect; and the gain or loss of a major contract. Either positive or negative information may be material. We emphasize that this list is merely illustrative.

**After-the-Fact Scrutiny.** Remember, if your securities transactions become the subject of scrutiny, they will be viewed after-the-fact with the benefit of hindsight. As a result, before engaging in any transaction, you should carefully consider how regulators and others might view your transaction in hindsight.

**Transactions by Family Members.** These restrictions also apply to (1) immediate family members who reside with you, (2) others living in your household (whether or not related to you), (3) family members who do not live in your household but whose transactions in the Company's securities are directed by you or are subject to your influence or control (e.g., parents or children who consult with you before they trade in the Company's securities) and (4) any entities that you influence or control, including any corporations, limited liability companies, partnerships or trusts (each person or entity identified in clauses (1) – (4) a "Family Member"). SEC regulations specifically provide that any material non-public information about the Company communicated to any spouse, parent, child or sibling is considered to have been communicated under a duty of trust or confidence; and that any trading in the Company's securities by such family members while they are aware of such information may, therefore,

## Insider Trading Policy

violate insider trading laws and regulations. Company personnel are expected to be responsible for the compliance of all Family Members with this Policy.

**Tipping Information to Others.** Whether the information is proprietary information about our Company or information that could have an impact on our stock price, Members must not pass the information on to others. The above penalties apply, whether or not you derive any benefit from another person's actions. For example, the SEC imposed a \$470,000 penalty on a tipper even though he did not profit from his tippee's trading. Material non-public information is often inadvertently disclosed or overheard in casual, social conversations. Care must be taken to avoid such disclosures.

**When Information is Public.** As you can appreciate, it is also improper for any employee or any of their Family Members to enter a trade immediately after the Company has made a public announcement of material information, including earnings releases. Because the Company's shareholders and the investing public should be afforded time to receive this information and to act upon it, as a general rule, you should not engage in any transactions until the third business day after the information has been released. Thus, if an announcement is made on a Monday, Thursday generally would be the first day on which you should trade. If an announcement is made on a Friday, Wednesday generally would be the first day on which you should trade. However, if the information released is complex, such as a prospective major financing or other transaction, it may be necessary to allow additional time for the information to be absorbed by investors. In such circumstances, you should consult with the Company's Head of Global Legal Affairs (contact as stated on QIANet under Legal Resources) regarding a suitable waiting period before trading. Remember, if you are in possession of material non-public information that was not part of the information released, you may not engage in transactions based on that information.

**Prevention of Insider Trading by Others.** If you become aware of a potential insider trading violation, you should immediately advise either the Company's Head of Global Legal Affairs or the Company's Chief Financial Officer. You should also take steps, where appropriate, to prevent persons under your control from using inside information for trading purposes.

**Confidentiality.** Serious problems could be caused for the Company by the unauthorized disclosure of internal information about the Company, whether or not for the purpose of facilitating improper trading in the Common Stock of the Company. Members should not discuss internal Company matters or developments with anyone outside of the Company, except as required in the performance of regular corporate duties. This prohibition applies specifically (but not exclusively) to inquiries about the Company that may be made by the financial press, investment analysts or others in the financial community and also includes posting material non-public information on any social media outlet such as LinkedIn, Facebook, Twitter, etc. It is important that all such communications on behalf of the Company be through an appropriately designated officer under carefully controlled circumstances. Unless you are expressly authorized to the contrary, if you receive any inquiries of this nature, you should decline

## Insider Trading Policy

comment and refer the inquirer either the Company's Head of Global Legal Affairs or the Company's Chief Financial Officer.

### 5. Additional prohibited transactions

To protect our Members, it is our recommendation to abstain from short-term or speculative transactions involving the securities of the Company. Therefore, all Members and their Family Members should refrain from the following activities with respect to securities of the Company, except in each case in limited circumstances with prior approval of either the Company's Head of Global Legal Affairs or the Company's Chief Financial Officer:

- Trading in the Company's Common Stock on a short-term basis. Any Common Stock of the Company purchased in the open market must be held for a minimum of six months and ideally longer.
- Purchases of the Company's Common Stock on margin or other loan.
- Short sales of the Company's Common Stock.
- Buying or selling puts or calls on the Company's Common Stock or transactions in straddles, collars or other similar risk reduction or hedging devices.
- Transactions in publicly-traded options relating to the Company's Common Stock (i.e., options that are not granted by the Company).

Management does not direct the Company's policy of short-term share price interests of investors. For this reason the Company warns all Members about highly speculative transactions with respect to securities of the Company, in the own interest of such Member.

### 6. Special procedures applying to prospective insiders

As used herein, the term "Prospective Insider" shall mean the following individuals:

- Members of the Supervisory Board;
- Members of the Executive Committee;
- Assistants to members of the Executive Committee; and Holders of QIAGEN Long Term Incentive instruments (as Restricted Stock Units, Performance Stock Units, Stock Options).

While it is never permissible to trade based on Insider Information, we are implementing the following procedure, to help prevent inadvertent violations and avoid even the appearance of an improper transaction which could result, for example, where a Prospective Insider engages in a trade while unaware of a pending major development:

**Pre-clearance of all trades.** All transactions in the Company's Securities (acquisitions, dispositions, transfers, etc.) by Members of the Supervisory Board and Members of the

## Insider Trading Policy

Executive Committee must be pre-cleared in advance by either the Company's Head of Global Legal Affairs or the Company's Chief Financial Officer. They will use his or her reasonable best efforts to provide approval or disapproval within two business days. You must wait until receiving pre-clearance to execute the transaction. Neither the Company nor the Chief Financial Officer or the Head of Global Legal Affairs shall be liable for any delays that may occur due to the pre-clearance process. If the transaction is pre-cleared by either the Company's Head of Global Legal Affairs or the Company's Chief Financial Officer, it must be executed by the end of the second business day after receipt of pre-clearance. Notwithstanding receipt of pre-clearance of a transaction, if you become aware of Insider Information about the Company after receiving the pre-clearance but prior to the execution of the transaction, you may not execute the transaction.

**Prohibited periods for trading.** Prospective Insiders and their Family Members are prohibited from trading in any securities of the Company during the following periods: The periods commencing 7 business days prior to the close of each of the first, second, third and fourth quarters and ending the third business day after the release of the Company's financial results for each quarter and, in the case of the fourth quarter, financial results for the year end (each a "black-out period"). In addition, the Company may from time to time require all Prospective Insiders, as well as all other employees, and their Family Members to refrain from trading during other specified periods when significant developments or announcements are anticipated. Even during such periods when trading is permitted, no one should trade in the securities of the Company if he or she possesses Insider Information.

## 7. Exemptions for transactions involving company equity plans

This policy does not apply to the following transactions, except as noted otherwise below:

- **Stock Option Exercises.** This policy does not apply to any sale of stock as part of a broker-assisted cashless exercise of an option, or any other market sale of stock for the purpose of generating the cash needed to pay the exercise price and or taxes upon the exercise of an option.
- **Restricted Stock Unit Awards and Performance Stock Unit Awards.** This policy does not apply to the vesting of restricted stock units or performance stock units where the Company withholds shares of stock to satisfy tax withholding requirements upon the vesting of any restricted stock or restricted stock unit. This policy does apply, however, to any market sale of restricted stock or shares received upon vesting of restricted stock units.

## 8. Exception for trading plans

Notwithstanding the restrictions and prohibitions on trading in the Company securities as set forth in this policy, persons subject to this policy are permitted to effect transactions in Company securities pursuant to approved trading plans established under Rule 10b5-1 under the Securities Exchange Act of 1934 ("Trading Plans"), including transactions during the black-out

## Insider Trading Policy

period discussed above. Rule 10b5-1 requires that these transactions be made pursuant to a plan that was established while the person was not in possession of Insider Information. In order to comply with this policy, the Company must pre-approve any such Trading Plan prior to its effectiveness. Once the Trading Plan is adopted, the following waiting periods must be observed prior to the first transaction:

- For members of the Supervisory Board and Senior Management, trading may not begin under a Trading Plan until the later of (i) 90 days following plan adoption or modification and (ii) two business days following the disclosure of the Company's financial results for the fiscal quarter in which the Trading Plan was adopted, either in a Form 20-F or Form 6-K, provided that the waiting period shall not be longer than 120 days.
- For all other persons, trading may not begin under a Trading Plan until 30 days following plan adoption or modification.

No influence over the amount of securities to be traded, the price at which they are to be traded or the dates of the trades may be exercised. The Trading Plan must either specify the amount, pricing and timing of transactions in advance or delegate discretion on these matters to an independent third party. In general, modification of a Trading Plan is the equivalent of entering into a new Trading Plan and cancelling the old Trading Plan.

It is generally prohibited to have more than one Trading Plan for open market purchases or sales of QIAGEN securities. This prohibition does not apply:

- Where a person transacts directly with the Company, such as participating in employee stock ownership plans which are not executed on the open market; and
- To Trading Plans authorizing an agent to sell only enough securities as are necessary to satisfy tax withholding obligations arising exclusively from the vesting of a compensatory award, such as on the vesting and settlement of restricted stock units ("sell-to-cover" Rule 10b5-1 plans), provided that the award holder is not permitted to exercise control over the timing of such sales.

In any 12-month period, a person is limited to one "single-trade plan" — one designed to effect the open market purchase or sale of the total amount of the securities subject to the plan as a single transaction.

A plan will not be treated as a single-trade plan if, for example, it gives the person's agent discretion over whether to execute the plan as a single transaction, or provides that the agent's future acts will depend on events or data not known at the time the plan is entered into and it is reasonably foreseeable at the time the plan is entered into that the plan might result in multiple trades. Also, sell-to-cover Rule 10b5-1 plans are exempt from this limitation.

Company personnel seeking to establish, modify or cancel a Trading Plan should contact the Chief Financial Officer or Head of Global Legal Affairs. All Company personnel seeking to enter

## Insider Trading Policy

into a Trading Plan or entering into a Trading Plan must act in good faith with respect to the Trading Plan for the duration of its existence.

### 9. Application of the Insider Trading Policy to persons who cease to be associated with the Company

The laws against insider trading continue to apply to anyone who has a material, non-public information about the Company. Therefore, even if an individual ceases to be associated with the Company, that person will continue to be prohibited by law from trading any securities of the Company for so long as he or she possesses Insider Information. As a precaution against inadvertent trades – again, to avoid even the appearance of impropriety – it is the Company’s policy that any Prospective Insider; and his or her Family Members who cease to hold such position in the Company after the first 45 days of a fiscal quarter shall be subject to the black-out period for that quarter, i.e. he or she shall be prohibited from trading securities of the Company during the period commencing 7 business days prior to the close of the quarter and ending the third business day after the public release of the Company’s financial results for that quarter (or the fiscal year, in the case of the fourth quarter). Thereafter, assuming the former member of Prospective Insider no longer holds any Insider Information about the Company, he or she is free to trade.

### 10. Company assistance

Any person who has any questions about specific transactions or this policy in general may obtain additional guidance from the Head of Global Legal Affairs (contact as stated on QIANet under Legal Resources). Remember, however, the ultimate responsibility for adhering to this policy and avoiding improper transactions rests with you. In this regard, it is imperative that you use your best judgment.

**CERTIFICATION UNDER SECTION 302**

I, Thierry Bernard, certify that:

1. I have reviewed this annual report on Form 20-F of QIAGEN N.V;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the company as of, and for, the periods presented in this report;
4. The company's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the company and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the company, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the company's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the company's internal control over financial reporting that occurred during the period covered by the annual report that has materially affected, or is reasonably likely to materially affect, the company's internal control over financial reporting; and
5. The company's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the company's auditors and the audit committee of the company's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the company's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the company's internal control over financial reporting.

**QIAGEN N.V.  
CLAWBACK POLICY**

**I. Introduction**

The Management Board and Supervisory Board of QIAGEN N.V. (the “**Company**”) believe that it is in the best interests of the Company and its shareholders to create and maintain a culture that emphasizes integrity and accountability and that reinforces the Company’s pay-for-performance compensation philosophy. The Management Board and Supervisory Board have therefore adopted this policy which provides for the recoupment of certain executive compensation in the event of an accounting restatement resulting from material noncompliance with financial reporting requirements under the federal securities laws (the “**Policy**”). This Policy is designed to comply with Section 10D of the Securities Exchange Act of 1934, as amended (the “**Exchange Act**”) and final rules and amendments adopted by the Securities and Exchange Commission (the “**SEC**”) to implement the aforementioned legislation.

**II. Administration**

This Policy shall be administered by the Supervisory Board or, if so designated by the Supervisory Board, the Compensation & Human Resources Committee of the Supervisory Board, in which case references herein to the Supervisory Board shall be deemed references to the Compensation & Human Resources Committee. Any determinations made by the Supervisory Board shall be final and binding on all affected individuals.

**III. Covered Executives**

This Policy applies to the Company’s current and former executive officers, as determined by the Supervisory Board in accordance with the requirements of Section 10D of the Exchange Act and any applicable rules or standards adopted by the SEC and any national securities exchange on which the Company’s securities are listed, and such other employees who may from time to time be deemed subject to the Policy by the Supervisory Board (“**Covered Executives**”).

**IV. Incentive-Based Compensation**

For purposes of this Policy, incentive-based compensation (“**Incentive-Based Compensation**”) includes any compensation that is granted, earned, or vested based wholly or in part upon the attainment of any financial reporting measures that are determined and presented in accordance with the accounting principles (“**GAAP Measures**”) used in preparing the Company’s financial statements and any measures derived wholly or in part from such measures, as well as non-GAAP Measures, stock price, and total shareholder return (collectively, “**Financial Reporting Measures**”). Incentive-Based Compensation is considered received in the fiscal period during which the applicable reporting measure is attained, even if the payment or grant of such award occurs after the end of that period. If an award is subject to both time-based and performance-based vesting conditions, the award is considered received upon satisfaction of the performance-based conditions, even if such an award continues to be subject to the time-based vesting conditions.

For the purposes of this Policy, Incentive-Based Compensation may include, among other things, any of the following:

- Annual bonuses and other short- and long-term cash incentives.
- Stock options.
- Stock appreciation rights.
- Restricted stock or restricted stock units.
- Performance shares or performance units.

For the purposes of this Policy, Incentive-Based Compensation does NOT include, among other things, any of the following:

- Bonuses or other cash awards paid solely upon satisfying one or more subjective standards and/or completion of a specified employment period;
- Bonuses or non-equity incentive plan or other cash awards earned solely upon satisfying one or more strategic or operational targets;
- Equity awards for which the grant is not contingent on any financial reporting measure and vesting is contingent solely upon completion of a specified employment period and/or attaining one or more non-financial reporting measures

#### **V. Recoupment; Accounting Restatement**

In the event the Company is required to prepare an accounting restatement of its financial statements due to the Company's material noncompliance with any financial reporting requirement under U.S. securities laws, including any required accounting restatement to correct an error in previously issued financial statements that (i) is material to the previously issued financial statements or (ii) is not material to previously issued financial statements, but that would result in a material misstatement if the error were corrected in the current period or left uncorrected in the current period, the Supervisory Board will require reimbursement or forfeiture of any excess Incentive-Based Compensation received by any Covered Executive during the three completed fiscal years immediately preceding the date on which the Company is required to prepare the accounting restatement (the "**Look-Back Period**"). For the purposes of this Policy, the date on which the Company is required to prepare an accounting restatement is the earlier of (i) the date the Supervisory Board concludes or reasonably should have concluded that the Company is required to prepare a restatement to correct a material error, and (ii) the date a court, regulator, or other legally authorized body directs the Company to restate its previously issued financial statements to correct a material error. The Company's obligation to recover erroneously awarded compensation is not dependent on if or when the restated financial statements are filed.

Recovery of the Incentive-Based Compensation is only required when the excess award is received by a Covered Executive (i) after the beginning of their service as a Covered Executive, (ii) who served as an executive officer at any time during the performance period for that Incentive-Based Compensation, (iii) while the Company has a class of securities listed on a national securities exchange or a national securities association, and (iv) during the Look-Back Period immediately preceding the date on which the Company is required to prepare an accounting restatement.

#### **VI. Excess Incentive Compensation: Amount Subject to Recovery**

The amount of Incentive-Based Compensation subject to recovery is the amount the Covered Executive received in excess of the amount of Incentive-Based Compensation that would have been paid to the Covered Executive had it been based on the restated financial statements, as determined by the Supervisory Board. The amount subject to recovery will be calculated on a pre-tax basis.

For Incentive-Based Compensation received as cash awards, the erroneously awarded compensation is the difference between the amount of the cash award that was received (whether payable in a lump sum or over time) and the amount that should have been received applying the restated Financial Reporting Measure. For cash awards paid from bonus pools, the erroneously awarded Incentive-Based Compensation is the pro rata portion of any deficiency that results from the aggregate bonus pool that is reduced based on applying the restated Financial Reporting Measure.

For Incentive-Based Compensation received as equity awards that are still held at the time of recovery, the amount subject to recovery is the number of shares or other equity awards received or vested in excess of the number that should have been received or vested applying the restated Financial Reporting Measure. If the equity award has been exercised, but the underlying shares have not been sold, the erroneously awarded compensation is the number of shares underlying the award.

In instances where the Company is not able to determine the amount of erroneously awarded Incentive-Based Compensation directly from the information in the accounting restatement, the amount will be based on the Company's reasonable estimate of the effect of the accounting restatement on the applicable measure. In such instances, the Company will maintain documentation of the determination of that reasonable estimate.

#### **VII. Method of Recoupment**

The Supervisory Board will determine, in its sole discretion, subject to applicable law, the method for recouping Incentive-Based Compensation hereunder, which may include, without limitation:

- requiring reimbursement of cash Incentive-Based Compensation previously paid;
- seeking recovery of any gain realized on the vesting, exercise, settlement, sale, transfer, or other disposition of any equity-based awards;
- offsetting the recouped amount from any compensation otherwise owed by the Company to the Covered Executive;
- cancelling outstanding vested or unvested equity awards; and/or
- taking any other remedial and recovery action permitted by law, as determined by the Supervisory Board.

#### **VIII. No Indemnification; Successors**

The Company shall not indemnify any Covered Executives against the loss of any incorrectly awarded Incentive-Based Compensation. This Policy shall be binding and enforceable against all Covered Executives and their beneficiaries, heirs, executors, administrators or other legal representatives.

#### **IX. Exception to Enforcement**

The Supervisory Board shall recover any excess Incentive-Based Compensation in accordance with this Policy unless such recovery would be impracticable, as determined by the Supervisory Board in accordance with Rule 10D-1 of the Exchange Act and any applicable rules or standards adopted by the SEC and the listing standards of any national securities exchange on which the Company's securities are listed.

#### **X. Interpretation**

The Supervisory Board is authorized to interpret and construe this Policy and to make all determinations necessary, appropriate, or advisable for the administration of this Policy. It is intended that this Policy be interpreted in a manner that is consistent with the requirements of Section 10D of the Exchange Act and any applicable rules or standards adopted by the SEC and any national securities exchange on which the Company's securities are listed.

#### **XI. Effective Date**

This Policy shall be effective as of the date it is adopted by the Supervisory Board (the "Effective Date") and shall apply to Incentive-Based Compensation that is received by a Covered Executive on or after October 2, 2023 as determined by the Supervisory Board in accordance with applicable rules or standards adopted by the SEC and the listing standards of any national securities exchange on which the Company's securities are listed.

#### **XII. Amendment; Termination**

The Supervisory Board may amend this Policy from time to time in its discretion and shall amend this Policy as it deems necessary to comply with any rules or standards adopted by the SEC and the listing standards of any national securities exchange on which the Company's securities are listed. The Supervisory Board may terminate this Policy at any time.

#### **XIII. Other Recoupment Rights**

Any right of recoupment under this Policy is in addition to, and not in lieu of, any other remedies or rights of recoupment that may be available to the Company pursuant to the terms of any similar policy in any employment agreement, equity award agreement, or similar agreement and any other legal remedies available to the Company.
