Results of Rocket Internet Group for the First Nine Months 2019 at a Glance

- Revenue of the Rocket Internet Group increased to EUR 47.8 million compared to EUR 32.4 million in the previous year period (+47%). This was mainly driven by the New Businesses (+75%), while revenue from other services remained at the previous year level.
- The first nine months profit amounts to EUR 285.0 million and declined slightly compared to a profit of EUR 296.3 million in the previous year period (-4%). This result is mainly driven by lower net gains on equity instruments recognized at fair value through profit or loss.
- Cash and cash equivalents increased from EUR 1,720.0 million as of December 31, 2018 to EUR 2,501.2 million as of September 30, 2019. The increase is attributable to the proceeds from the sale of non-consolidated equity instruments (shares in HelloFresh, Delivery Hero, Westwing and home24) as well as to proceeds from the sale of highly liquid, easily convertible into cash listed shares.

Rocket Internet Share

¹⁾ Cash and cash equivalents amounted to EUR 1,720.0 million as of December 31, 2018.

Revenue

Revenue increased from EUR 32.4 million in the first nine months 2018 to EUR 47.8 million in the first nine months 2019 mainly due to the significant revenue growth in the New Businesses by 75%. This is driven by a higher volume of FinTech loans. Revenue from other services which represents mainly income from consulting services and rental revenue remained approximately at the previous year level.

Share of profit/loss of associates and joint ventures

In the first nine months of 2019, the share of profit/loss of associates and joint ventures increased by EUR 64.9 million compared to the previous year period. This is mainly attributable to gains from the disposal of HelloFresh and Westwing shares. On the other hand, there are higher losses from home24, Traveloka and AEH New Africa II (Holding for parts of Jumia) compared to the previous year period.

EBITDA/EBIT

EBITDA improved from EUR 99.1 million in the first nine months 2018 by EUR 91.5 million to EUR 190.5 million in the first nine months 2019. The EBITDA improvement was mainly driven by a higher share of profit/loss of associates and joint ventures, the increase in revenue and a higher result from deconsolidation of subsidiaries. EBIT increased by EUR 82.3 million to EUR 180.5 million in the same period.

Financial result

The financial result declined by EUR 85.9 million mainly driven by EUR 143.2 million lower net gains (cumulated gains and losses) in the fair value of equity instruments accounted for at fair value through profit or loss. Net foreign exchange gains relating to loans and to cash and cash equivalents amount to EUR 23.2 million (previous year period EUR 16.4 million). Buyback-losses from convertible bonds of EUR 39.2 million lowered the first nine months 2018 financial result.

Profit for the period

The profit for the first nine months 2019 decreased by EUR 11.3 million to EUR 285.0 million compared to EUR 296.3 million in the previous year period. The first nine months 2019 were impacted by a lower financial result (reduction by EUR 85.9 million) as well as by a EUR 64.9 million growth in the share of profit/loss of associates and joint ventures.

Total comprehensive income for the period, net of tax

The total comprehensive income for the period, net of tax, increased from EUR 297.1 million in the first nine months 2018 by EUR 9.2 million to EUR 306.3 million in the first nine months 2019 and mainly includes in both periods the abovementioned profit for the period. In addition, in the first nine months of 2019, a positive amount of EUR 14.9 million (previous year period negative EUR 1.6 million) results from the changes in the net assets of associates/joint ventures that are recognized in OCI of the associates/joint ventures net of tax.

Cash and cash equivalents/Cash flow

Cash and cash equivalents increased from EUR 1,720.0 million as of December 31, 2018 by EUR 781.2 million to EUR 2,501.2 million as of September 30, 2019. The cash flow from operating activities increased by EUR 51.9 million to negative EUR 3.5 million primarily due to higher cash inflows from interest and repayments of operating financial assets (FinTech loans).

In the first nine months 2019, the positive cash flows from investing activities of EUR 786.2 million were mainly driven by the sales proceeds of non-consolidated equity instruments, particularly disposals of shares in HelloFresh, Delivery Hero, Westwing and home24. Furthermore, there are significant cash inflows in connection with short-term financial management of cash investments. They mainly relate to proceeds from the sale of highly liquid, easily convertible into cash listed shares. The cash flows from investing activities also include cash paid in connection with short-term bank deposits, cash paid for the acquisition of non-consolidated equity investments as well as for highly liquid, easily convertible into cash listed shares.

The cash flows from financing activities amounted to negative EUR 18.7 million (previous year period negative EUR 506.8 million) and mainly result from net-repayments of non-controlling interests classified as financial liabilities. In the first nine months 2018, the significantly higher negative figure was mainly driven by the repurchases of Rocket Internet's convertible bonds and own shares.

The Group continues to maintain a solid cash position. In addition to cash and cash equivalents, the Group had short-term restricted bank deposits of EUR 548.7 million as

well as easily convertible into cash listed shares of EUR 126.3 million as of September 30, 2019.
