¹ Ordinary operating EBITDA refers to Group EBITDA adjusted for non-operating effects, which mainly include expenses for share-based payments, M&A activities (realised and unrealised), reorganisation and other non-operating effects.

² A segment's ordinary operating EBITDA margin is defined as ordinary operating EBITDA as a percentage of external segment revenue.

³ Group EBITDA (unadjusted) is defined by analogy with the presentation in the consolidated statement of profit or loss as earnings before the financial result, income taxes, depreciation, amortisation and any impairment losses or reversals of impairment losses.
