Decline in revenue and earnings in 1Q15...

SFC Energy has reported a 1Q revenues decrease of 2.5% yoy and an adjusted EBITDA decline to EUR –580k as (1Q14: EUR –235k, see table on page 2 for detailed figures). **Segments:** Despite the oil slump, the Company's **Oil & Gas** segment showed a revenue increase in euros which, however, was only attributable to the exchange rate shifts (CAD/EUR).

This positive impact was more than offset by a yoy revenue decline of 16.4% in **Security & Industry**. According to SFC Energy, Security & Industry suffered from order postponements related to customers' working capital management measures. Within this segment, SFC's Dutch subsidiary, PBF Group B.V., suffered a revenue decline of -15.4% yoy and the Defence business was down by 56%; only the Industry business at the level of SFC Energy AG showed moderate growth of 2.2%.

The **Consumer** segment showed a sales decline of 5.9% and a drop in the gross profit margin by 200bp. Increased sales in Scandinavia could not fully offset the downward trend in France and Southern Europe.

...does not affect the outlook for the full year

The company confirmed its guidance for 2015 (revenues of EUR 55m - 65m, yoy improvement of operating results). On a sector view, management expects a **better performance from Security & Industry for the rest of the year** since 1) there have been increasing signs of a sustainable recovery in the defence sector (e.g. German decision to increase the Bundeswehr's budget for the first time in years; agreement of NATO members on a plan to increase their defence budgets significantly) and 2) the repeat order from Volkswagen/BAG in 1Q15 has triggered additional inquiries from large fleet operators and might generate new business opportunities. In the Oil & Gas segment, as a result of its expanded cooperation with Schneider Electric (see our update report from 13 April 2015), SFC plans a significant expansion of its customer base in North America and further organic growth despite the challenging market environment. In the Consumer segment, the marketing of SFC's new mobile power outlet EFOY GO! is expected to create additional momentum in 3Q15.

PT and BUY confirmed

In view of the excellent business prospects outlined above, we currently see no reason to change our sales and earnings estimates for 2015. We also leave our price target (EUR 6.60) unchanged. At our PT, the stock would trade at an EV/EBITDA 2016e multiple of 20.6x. We confirm our **BUY** rating.
