QUARTERLY STATEMENT 9M|2021

January 1 to September 30, 2021

STRATEC POSTS SUBSTANTIAL GROWTH AND INCREASED PROFITABILITY IN FIRST NINE MONTHS OF 2021

- Sales in 9M/2021 increase by 29.5% at constant-currency to € 225.4 million (9M/2020: € 179.1 million); nominal +25.9%
- Adjusted EBIT in 9M/2021 rises by 73.1% to € 48.7 million (9M/2020: € 28.1 million)
- Adjusted EBIT margin improves by 590 basis points to 21.6% (9M/2020: 15.7%)
- Further product launches in third quarter of 2021 and well-filled development pipeline
- Recently raised guidance for 2021 confirmed: Constant-currency sales growth of at least 16.0% and adjusted margin of around 19.0% to 20.0% expected

Dear Shareholders, Dear Partners and Friends of STRATEC,

The STRATEC Group can report a highly successful business performance and set further new records for its sales and earnings in the first nine months of 2021. Notwithstanding the high standard for comparison provided by the previous year's period, the company generated substantial growth in all its segments in the third quarter of 2021 as well. Overall, we achieved year-on-year growth of 25.9% in our consolidated sales in the first nine months 2021 while increasing our adjusted EBIT by 73.1%. Given these pleasing results and the current order situation, we were recently able to further significantly raise our financial guidance for the 2021 financial year.

We pressed further ahead with our development pipeline once again in the third quarter of 2021, with one example being the achievement of a major development milestone for a project in the field of immunohematology. Furthermore, we launched new products onto the market together with our partners and recently started further promising negotiations for numerous new projects.

The number of system placements has risen significantly in recent quarters and we have seen that this is also having an increasingly positive impact on our business with service parts and consumables. In view of this, and together with our young product portfolio and our well-stocked development pipeline, we are positive in our assessment of our company's medium to long-term growth prospects. Thanks to our strong balance sheet and our pleasing cash flow performance, we also enjoy great flexibility with regard to potential acquisitions and external growth opportunities.

We are aware of the responsibility we bear towards our employees, customers, suppliers, and other stakeholders and have always accorded great value to a sustainable corporate strategy. It was this commitment which motivated us to join the UN Global Compact, the world's largest initiative for sustainable corporate governance, in August 2021.

Thank you for the trust you have placed in us.

On behalf of the Board of Management
STRATEC SE

Marcus Wolfinger
Chief Executive Officer

Key figures¹

€ 000s	9M 2021	9M 2020	Change	Q3 2021	Q3 2020	Change

BUSINESS PERFORMANCE

The STRATEC Group set further new records for its sales and earnings in the first nine months of 2021. Overall, consolidated sales grew year-on-year on a constant-currency basis by 29.5% (nominal: +25.9%) to € 225.4 million in the first nine months of 2021 (9M/2020: € 179.1 million). The third quarter of 2021 (consolidated sales Q3/2021: +16.7% at constant-currency) once again benefited from consistently dynamic developments in demand in all three company segments (Instrumentation, Diatron, Smart Consumables). Due to high ongoing utilization rates at systems placed with end customers and the significant expansion in the system installation basis in the preceding quarters, growth in the Service Parts and Consumables business has recently shown a further acceleration. Growth with Systems, particularly in the field of molecular diagnostics and immuno-hematology, also remained high in the third quarter of 2021. Furthermore, new market launches also contributed to the company's growth.

Adjusted EBIT for the first nine months of 2021 rose by 73.1% to € 48.7 million, compared with € 28.1 million in the previous year. Accordingly, the adjusted EBIT margin improved by 590 basis points to 21.6% (9M/2020: 15.7%). The margin performance was positively influenced by benefits of scale, as well as by a strong sales and product mix and the implementation of efficiency enhancement measures. Moreover, the charges recognized for stock appreciation rights (SARs) were significantly lower than in the previous year.

Consistent with the improvement in operating profitability, adjusted consolidated net income for the first nine months of 2021 also increased, in this case from € 23.8 million in the previous year to € 40.6 million. Adjusted earnings per share (basic) for the first nine months of 2021 rose by 70.1% to € 3.35 (9M/2020: € 1.97). Unadjusted earnings per share (basic) amounted to € 3.00, up from € 1.55 in the previous year.

To facilitate comparison, key earnings figures have been adjusted to exclude amortization resulting from acquisition-related purchase price allocations and an impairment recognized on a proprietary development project in the Diatron segment in the second quarter of 2021. A reconciliation of the adjusted figures with the figures reported in the consolidated income statement is provided below.

€ 000s	9M 2021	9M 2020

PROJECTS AND OTHER DEVELOPMENTS

STRATEC once again launched new products onto the market together with its partners in the first nine months of 2021, while pressing further ahead with numerous development and other projects. One example in the third quarter of 2021 involves the launch of a smart consumable for a fast-growing area of clinical diagnostics on behalf of a North American player. Moreover, STRATEC gained a further partner for its proprietary immunoassay platform KleeYa®. Given its well-stocked development pipeline, STRATEC expects to see numerous major market launches in the months ahead as well. The launch of a new molecular diagnostics product family for one of the market leaders in this field is expected to take place in 2022.

STRATEC has always accorded great value to sustainable corporate governance and responsible resource handling. In August 2021, STRATEC joined the UN Global Compact, the world's largest corporate sustainability initiative. This move, which has once again underlined STRATEC's commitment to the ten universal principles of the UN Global Compact in the fields of human rights, labor, environment and anti-corruption, represents a further step by the company towards incorporating sustainability considerations into its corporate strategy.

DEVELOPMENT IN PERSONNEL

Including personnel hired from a temporary employment agency and trainees, the STRATEC Group had 1,406 employees as of September 30, 2021 (previous year: 1,315). Compared with the previous year, this corresponds to a 6.9% expansion in the workforce, a development due among other factors to the significant increase in production capacity.

Number of employees

FINANCIAL GUIDANCE

Based on the above-budget performance in the third quarter of 2021 and given current order volumes and updated risk adjustments, on October 28, 2021 STRATEC once again raised its financial guidance for the 2021 financial year as whole and published this by ad-hoc announcement. For the 2021 financial year, STRATEC currently expects constant-currency sales growth of at least 16.0%. For its adjusted EBIT margin, the company has forecast a figure of around 19.0% to 20.0%.

In view of the COVID-19 pandemic, STRATEC continues to observe increased volatility in its customers' order behavior. Global supply chains also remain tense and subject to uncertainties. The above guidance therefore specifically includes risk discounts for both sales and product mixes in the fourth quarter of 2021, as well as for potential further increases in logistics costs.

Following the completion in 2020 of the construction measures to convert and extend buildings at the Birkenfeld location, STRATEC expects its investment ratio to decrease in 2021. The company expects total investments in property, plant and equipment and intangible assets in 2021 to correspond to around 6.0% to 8.0% of sales (2020: 10.2%).

ABOUT STRATEC

STRATEC SE (www.stratec.com) designs and manufactures fully automated analyzer systems for its partners in the fields of clinical diagnostics and life sciences. Furthermore, the company offers complex consumables for diagnostic and medical applications. For its analyzer systems and consumables, STRATEC covers the entire value chain – from development to design and production through to quality assurance.

The partners market the systems, software and consumables, in general together with their own reagents, as system solutions to laboratories, blood banks and research institutes around the world. STRATEC develops its products on the basis of patented technologies.

Shares in the company (ISIN: DE000STRA555) are traded in the Prime Standard segment of the Frankfurt Stock Exchange and are listed in the SDAX select index of the German Stock Exchange.

Notice

Forward-looking statements involve risks: This quarterly statement contains various statements concerning the future performance of STRATEC. These statements are based on both assumptions and estimates. Although we are convinced that these forward-looking statements are realistic, we can provide no guarantee of this. This is because our assumptions involve risks and uncertainties which could result in a substantial divergence between actual results and those expected. It is not planned to update these forward-looking statements.

This quarterly statement contains various disclosures that from an economic point of view are not required by the relevant accounting standards. These disclosures should be regarded as a supplement, rather than a substitute for the IFRS disclosures.

Apparent discrepancies may arise throughout this quarterly statement on account of mathematical rounding up or down in the course of addition.

In this quarterly statement, words in the masculine include words in the feminine; in parts of the quarterly statement, the masculine form has solely been used to make the document easier to read.

This quarterly statement is available in both German and English. Both versions can be downloaded from the company's website at www.stratec.com. In the event of any discrepancies between the two, the German report is the definitive version.
