Quarterly release SURTECO Group

January – September 2024

Economic report

SALES AND BUSINESS PERFORMANCE SURTECO GROUP

During the first three quarters of 2024, sales revenues of the SURTECO Group increased by 4 % to € 662.2 million (2023: € 637.3 million). A key factor here related to the acquired divisions of Omnova, which were consolidated in the current reporting period for a total of nine months (2023: seven months). After adjustment for these sales, a slight drop in sales of -1 % reflected the ongoing subdued demand in our sectors. Hence, during the first three quarters of 2024, business in Germany fell by -4 % compared with the previous year. In the rest of Europe (not including Germany) business was subject to a drop of -3 %. On the back of the acquisition of Omnova, sales increased by 19 % in North America and South America and also rose in Asia, Australia and other markets by 1 % compared with the previous year.

SURFACES

The surface activities of the Group, including melamine edgebandings in Europe and South America, are grouped together in the Segment Surfaces. The sales revenues of the segment increased slightly in the first three quarters of 2024 to € 206.0 million after € 205.0 million in the year-earlier period. After business in the segments eased further in the first half of the year by -1 %, a modest improvement by 1 % was achieved during the months from January to September despite the ongoing restrained demand in Germany and Europe.

EDGEBANDS

The Segment Edgebands comprises all the plastic edging activities of the Group in Europe and South America. Owing to the ongoing weak demand in Europe, segment sales of € 114.7 million generated in the months from January to September 2024 were -2 % below the year-earlier level of € 117.0 million.

PROFILES

The Segment Profiles bundles the activities with technical extrusions (profiles), skirtings and associated products in Europe and South America. At € 100.3 million, the segment sales in the first three quarters of 2024 were -5 % below the value of € 105.9 million in the previous year. This fall is likewise attributed to faltering of the construction and refurbishment industries in Germany and Europe.

NORTH AMERICA

The Segment North America includes the activities with all the products of the Group in this region. Sales in the acquired divisions of Omnova are allocated to this segment and they include the manufacturing facility in Thailand. Sales of the segment increased by 20 % to € 205.1 million in the first three quarters of 2024 after € 170.5 million in the equivalent year-earlier period.

ASIA / PACIFIC

The Segment Asia / Pacific encompasses business with all product groups in the area of Asia, Australia and Oceania. During the months from January to September 2024, the Asian market was similarly impacted by a downward trend in demand. As a consequence, sales eased by -7 % to € 36.2 million (2023: € 39.0 million).

Net assets, financial position and result of operations

BALANCE SHEET PERFORMANCE / CASH FLOW STATEMENT

On 30 September 2024, the balance sheet total of the Group amounted to € 1,033.2 million after € 1,041.8 million at year-end 2023. Current assets increased from € 342.8 million at year-end 2023 to € 361.7 million on the balance sheet date. Reduced cash and cash equivalents resulting from repayment of financial liabilities were offset by higher trade accounts receivable and increased inventories. Non-current assets fell back primarily as a result of scheduled depreciation and amortization on assets from € 699.0 million at year-end 2023 to € 671.5 million on 30 September 2024. On the liabilities side of the balance sheet, current liabilities fell from € 199.9 million at year-end 2023 to € 197.9 million at the end of the third quarter of 2024 on account of settlement of financial liabilities. Non-current liabilities at € 440.0 million remained slightly below the level of year-end 2023 at € 449.0 million. Equity rose from € 392.9 million at year-end 2023 to the current level of € 395.3 million and the corresponding ratio (equity / balance sheet total) increased from 37.7 % to 38.3 % on 30 September 2024. After acquisition-related free cash flow of € -197.0 million in the first three quarters of the previous year, the value increased to € 23.8 million in the reporting period.

GROUP RESULTS

In the first three quarters of 2024, purchase prices of the most important raw materials for the Group were on average below the year-earlier level, essentially owing to weakness in the economy. In conjunction with improvements generated from the Performance Plus programme, the cost of materials ratio came down from 50.7 % in the previous year to 48.3 % during the reporting period. Personnel costs in relation to total output came down slightly from 26.5 % in the previous year to 25.9 % in the nine months from January to

September 2024. The ratio of other operating expenses eased primarily owing to the decline in acquisition-related one-off costs from 16.2 % in the previous year to 15.2 %. Overall, the expense items amounted to € -598.6 million compared to € -591.9 million in the previous year. On the basis of a total output of € 669.5 million (2023: € 633.7 million) and other operating income of € 5.3 million (2023: € 4.9 million), earnings before financial result, income tax and depreciation and amortization (EBITDA) rose by 63.1 % to € 76.1 million (2023: € 46.7 million). The EBITDA-margin (EBITDA/Sales) amounted to 11.5 % after 7.3 % in the previous year. Taking account of one-off expenses, adjusted EBITDA amounted to € 76.8 million in the first three quarters of 2024 after € 64.0 million in the previous year. The corresponding margin was 11.6 % (2023: 10.0 %). Amortization and depreciation at € -45.6 million were above the year-earlier value of € -42.6 million, primarily due to the purchase price allocation (PPA) arising from the Omnova acquisition. As a result, earnings before financial result and income tax (EBIT) of the Group amounted to € 30.5 million in the first three quarters of 2024 after € 4.1 million in the previous year. As a ratio of sales, the EBIT margin was 4.6 % (2023: 0.6 %). Interest expenses rose as a result of taking on outside capital for the acquisition of the Omnova divisions. Hence, the financial result amounted to € -14.0 million after € -8.6 million in the previous year. Overall, earnings before income tax (EBT) rose to € 16.5 million (2023: € -4.5 million). After deduction of € -8.9 million (2023: € -8.8 million) income tax and minority interests of € 0.1 million (2023: € 0.1 million), consolidated net profit amounts to € 7.8 million after a loss of € -13.3 million in the previous year. On the basis of the unchanged amount of 15,505,731 no-par value shares, the earnings per share amounted to € 0.50 in the nine months from January to September 2024 after € -0.86 in the previous year.

RESULT OF THE SEGMENTS

Adjusted EBITDA of € 21.2 million meant that earnings for the Segment Surfaces during the first three quarters of 2024 were above the year-earlier figure of € 11.2 million owing to improvements in the cost positions. The adjusted EBITDA of Edgebands at € 21.4 million was slightly below the level of € 22.1 million reported in the previous year. Primarily due to volume effects, adjusted EBITDA of Profiles at € 14.0 million was below the year-earlier value of € 17.5 million. As a result of the acquired divisions of Omnova, adjusted EBITDA for the Segment North America rose from € 12.3 million in the previous year to € 21.7 million in the first three quarters of 2024. Adjusted EBITDA of Asia / Pacific eased to € 5.4 million (2023: € 6.9 million), primarily on account of volume effects.

Outlook for the business year 2024

The demand in the most important sales markets of the Group has become even more significantly subdued compared with the first half year of 2024. This is likely to be due in particular to the very restrained construction activity being experienced. Consequently, there is an absence of significant stimuli resulting from downstream procurement of furniture and fittings. This situation is exacerbated by geopolitical uncertainties that can also lead to fluctuations in prices for raw materials. An improvement in the economic framework conditions is not expected in the near future.

As a result of the very difficult market conditions, Group sales will therefore be in the range between € 860 million and € 880 million, and adjusted EBITDA is anticipated to be between € 85 million and € 95 million. This is within the bounds of the forecast from the Annual Report for 2023.

Segment reporting

With effect from the business year 2023, the management of the company and hence the segment reporting will be carried out through the segments "Surfaces", "Edgebands" and "Profiles", which encompass the regions Europe and South America, and through the regional segments "North America" and "Asia / Pacific". The segments are organized across the companies on the basis of the sales markets. All surface activities including melamine edgings in Europe and South America are situated in Surfaces. The Segment Edgebands bundles the activities with plastic edgebandings in these regions, while the Segment Profiles concentrates on skirtings and technical extrusions (profiles). The regional segments comprise all activities in the relevant geographical markets irrespective of the specific products.
