NOTES

A. SELECTED NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS OF TLG IMMOBILIEN GMBH AS AT 30 JUNE 2014

1. Company information

TLG IMMOBILIEN GmbH, Berlin (TLG IMMOBILIEN), a German limited liability company (*Gesellschaft mit beschränkter Haftung*, "GmbH") domiciled in 10117 Berlin, Hausvogteiplatz 12, entered into the Berlin commercial register under no. HRB 38419 B, together with its subsidiaries (TLG Group), is among the largest commercial real estate companies in Berlin and eastern Germany.

The main activities of the Parent Company and its subsidiaries are the commercial exploitation, management, development and acquisition of land and buildings.

2. Group accounting principles

The interim consolidated financial statements of the TLG Group were prepared in accordance with IAS 34.10 (Interim Financial Reporting) in condensed form and in accordance with the International Financial Reporting Standards (IFRS) adopted and published by the International Accounting Standards Board (IASB), as adopted by the European Union. The interim consolidated financial statements were prepared in accordance with the provisions of Regulation (EC) No. 1606/2002 of the European Parliament and of the Council of 19 July 2002 concerning the application of international accounting standards in conjunction with section 315a (3) of the German Commercial Code (*Handelsgesetzbuch*, "HGB"), taking into account the supplementary commercial regulations. The requirements of IAS 34 (Interim Financial Reporting) have been complied with.

These interim consolidated financial statements do not include a separate presentation of the quarter from 1 April 2014 to 30 June 2014 because this is not a quarterly report, but rather a set of interim financial statements to be prepared once annually on special grounds.

The interim consolidated financial statements comprise the consolidated statement of financial position, the consolidated statement of comprehensive income, the consolidated statement of changes in equity, the consolidated cash flow statement and the notes to the consolidated financial statements.

The interim consolidated financial statements have been prepared in euros.

Unless otherwise stated, all amounts are rounded to thousands of euros. Due to rounding, the figures reported in tables and cross-references may deviate from their exact values as calculated.

The principal activities of the TLG Group are essentially unaffected by seasonal influences. The letting, sale and purchase of commercial real estate is impacted by economic influences, however.

3. Accounting policies

The accounting policies applied in these interim consolidated financial statements are essentially identical to those applied in the consolidated financial statements prepared in accordance with IFRSs. These interim consolidated financial statements should therefore be read in conjunction with the consolidated financial statements of TLG as at 31 December 2013.

The TLG Group has applied all new mandatory standards and interpretations as at 1 January 2014. The following standards and interpretations which were mandatory as at 1 January 2014 did not have any or no significant impact on the TLG Group's interim consolidated financial statements:

- IFRS 11, published by the IASB in May 2011, replaces IAS 31 and SIC-13.
- IFRS 12 "Disclosure of Interests in Other Entities" stipulates the disclosures required in the notes for interests in other entities with respect to risk and significance on the net assets, financial position and results of operations.
- The amendments to transitional provisions of IFRS 10, IFRS 11 and IFRS 12 are mainly limited to the figures from the prior year in the event of changes due to the application of the new standards to a comparison year.
- The IASB issued the revised IAS 27 in May 2011. With the publication of IFRS 10 and IFRS 12, the scope of application for IAS 27 was limited to accounting for investments in subsidiaries, associates and joint ventures in the separate financial statements of an entity.
- The interpretation of IFRIC 21 published in May 2013 clarifies at which time an entity recognises a liability for a levy imposed by a government.
- IFRS 10 "Consolidated Financial Statements" focuses in particular on the possibility of de facto control in consolidation issues.

- The new IAS 28 "Investments in Associates and Joint Ventures" addresses the accounting for shares in associates and joint ventures.
- The amendment of IAS 32 clarifies the requirements for offsetting financial instruments. In particular, it highlights the significance of the current legal right to offset. This is currently not expected to impact TLG.
- The amendment of IAS 39 permits the continuation of hedge accounting after novation of an over-the-counter (OTC) derivative as a hedging instrument. This is currently not expected to impact TLG.

The TLG Group applied IFRS 2 "Share-based Payment" for the first time in financial year 2014 due to the launch of a management share option programme in the course of financial year 2014.

4. Fair value measurement

All assets, equity instruments and liabilities measured at fair value on the basis of other standards (excluding IAS 17 "Leases" and IFRS 2 "Share-based Payment") are measured uniformly in accordance with IFRS 13. IFRS 13.9 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value of the financial instruments is determined on the basis of corresponding market values or measurement methods. For cash and other current primary financial instruments, the fair values are approximately equal to the carrying amounts recognised on the respective reporting dates.

For non-current receivables, other assets and liabilities, fair value is calculated on the basis of expected payment flows using the reference interest rates applicable on the reporting date. The fair values of financial instruments are determined on the basis of the reference interest rates on the reporting date plus the own or counterparty risk.

For the financial instruments to be recognised at fair value, fair value is always calculated using the corresponding market or stock exchange prices.

If there are no market or stock exchange prices, measurement is based on market measurement methods customary for the market using market parameters specific to the instrument. Fair value is determined using the discounted cash flow method, while individual credit ratings and other market conditions are used to calculate present value in the form of credit ratings or liquidity spreads customary for the market.

For the fair value measurement of financial instruments, the measurement model uses relevant market prices and interest rates observable on the reporting date obtained from external sources as inputs.

Investment property is measured at fair value. Fair value measurement of the investment property is classified as Level 3 under the fair value hierarchy of IFRS 13.86 (measurement on the basis of unobservable inputs).

The market value of the property held for generating rental income or for capital appreciation over the long term is determined by means of the discounted cash flow method (DCF). Properties with negative cash inflows (including permanently vacant properties) are valued using the liquidation method (land value less demolition costs, plus residual net income, if applicable). Appraisal of undeveloped land is conducted using the comparative value method taking into account standard land values of the local committees for property values.

Given that the investment property was measured in the same manner as in the 2013 consolidated financial statements, the detailed explanations relating to fair value measurement provided in the consolidated financial statements shall continue to apply

In summary, the fair value hierarchy as of 30 June 2014 is as follows:

| Fair value hierarchy | Level 1 | Level 2 | Level 3 |
|--|---------|---------|-----------|
| Investment property | | | 1,423,028 |
| Derivatives with positive market value | | 0 | |
| Financial liabilities* | | 727,949 | |
| Derivatives with negative market value | | 8,744 | |

^{*} Fair value is determined solely for informational purposes in the notes.

And the fair value hierarchy as of 31 December 2013 is as follows:

| Fair value hierarchy | Level 1 | Level 2 | Level 3 |
|--|---------|---------|-----------|
| Investment property | | | 1,414,691 |
| Derivatives with positive market value | | 15 | |
| Financial liabilities* | | 626,227 | |
| Derivatives with negative market value | | 18,788 | |

* Fair value is determined solely for informational purposes in the notes.

There were no transfers between levels of the fair value hierarchy during the first half of 2014.

5. Changes to the scope of consolidation

There have been no changes in the group of consolidated companies since 31 December 2013.

6. Significant judgements and estimates

The preparation of the interim consolidated financial statements in accordance with IFRSs requires the management to make assumptions and use estimates which have an impact on the carrying amounts reported for assets, liabilities, income and expenses, as well as on the disclosure of contingent liabilities. These assumptions and estimates relate in particular to the measurement of investment property, the recognition and measurement of assets and liabilities held for sale, the recognition and measurement of other provisions, the measurement of financial liabilities and the recognition of deferred tax assets.

Although the management believes that the assumptions made and estimates used are appropriate, any unforeseen changes in these assumptions may influence the TLG Group's financial position and performance.

7. Segment reporting

There have been no changes to the segment reporting as compared to the information provided by the management in the consolidated financial statements as at 31 December 2013. Accordingly, there is still only one single reporting segment in accordance with IFRS 8; this segment encompasses the TLG Group's operating activities and the chief operating decision makers receive regular reports on this segment.

8. Selected notes to the consolidated statement of financial position

In financial year 2013 and through to the reporting date for the 2014 interim consolidated financial statements, **investment property** as defined in IAS 40, including reclassifications as assets held for sale as defined in IFRS 5, developed as follows:

| | 01/01/2014 - 30/06/2014 | 01/01/2013 - 31/12/2013 |
|---|----------------------------|----------------------------|
| | EUR | '000 |
| Carrying amount as at 01/01 | 1,414,691 | 1,511,726 |
| Acquisitions | 20,028 | 3,591 |
| Capitalisation of construction activities | 7,031 | 36,396 |
| Reclassification as assets held for sale | (71,389) | (209,259) |
| Reclassification from property, plant and equipment | 1,335 | _ |
| Fair value adjustment | 51,330 | 72,237 |
| Carrying amount as at 30/06 and 31/12 | 1,423,028 | 1,414,691 |

TLG's portfolio strategy intends for a concentration on the retail and office asset classes, as well as on hotels with long-term leases in certain prime inner-city locations, particularly in Berlin and Dresden. While the office portfolio is intended to be largely limited to Berlin, Dresden, Leipzig and Rostock, the retail portfolio—which is currently dominated by food retail properties in the retail foodstuffs sector—is more broadly distributed. Decisions pertaining to acquisitions and disposals of properties and to necessary investments are subject to the aforementioned principles of portfolio strategy.

In the first half of 2014, the Berlin office portfolio added an attractive office property. After all project development properties were reclassified during the previous year as under management as at 31 December 2013, further expansion work was performed during the first half of 2014. The decline in project development activities is reflected in the amount capitalised for construction activities: (EUR 7,031 thousand; full year 2013: EUR 36,396 thousand).

EUR 71,389 thousand was reclassified as assets held for sale to reflect disposals in keeping with the portfolio strategy.

As in 2013, consistently favourable market conditions made it possible in particular to sell a number of inner-city development plots at attractive prices in the first half of 2014 as well, with the result that the EUR 51,330 thousand fair value adjustment in H1 2014 related to 75% of the assets held for sale. Properties reclassified as assets held for sale also included all sales conducted during the year, which had first been reclassified as assets held for sale and then sold off.

In addition to the aforementioned favourable market conditions, the declined EPRA vacancy rate of 4.9% (2013: 5.6%) in the first half year 2014 led to an increased fair value of the investment property.

The fair values of investment property were as follows, broken down by measurement approach and by asset class as at 30 June 2014:

Table 1:

| | Investment | | | | | | |
|--|------------|--------------------------|--------|---|-------|------------------|---|
| 30/06/2014 | properties | properties Discount rate | | | | Capitalisation r | ate |
| | EUR '000 | Min. | Max. | Weighted average (rated according to gross present value) | Min. | Max. | Weighted average (rated according to net sales price) |
| Valuation method = Discounted- Cashflow (DCF) | | | | | | | |

| Other properties | 27,131 | 3.00% | 8.00% | 5.07% | | _ | _ |
| Total (liquidation method) | 52,081 | 3.00% | 8.00% | 5.43% | | _ | _ |
| Total | 1,414,691 | | | | | | |
| Multiplier net rental | 12.68 | | | | | | |

Other financial assets included EUR 2,621 thousand in restricted funds as at 30 June 2014.

Cash and cash equivalents essentially consisted of bank balances. These included EUR 3,611 thousand in restricted funds as at 30 June 2014. The decrease resulted primarily from distributions to shareholders.

The change in the components of **Group equity** can be taken from the consolidated statement of changes in equity. In the first half of 2014, the distribution to the shareholders amounted to EUR 233,000 thousand. Of that amount, EUR 158,547 thousand was distributed from capital reserves, EUR 843 thousand from revenue reserves and EUR 73,610 thousand from retained earnings.

Liabilities due to financial institutions are broken down as follows:

| | 30/06/2014 | 31/12/2013 |
|-----------------------------------|------------|-------------|
| | EUR | '000 |
| Liabilities to banks | 727,949 | 626,227 |
| | 30/06/2014 | 31/12/2013 |
| | EUR | '000 |
| Remaining term up to 1 year | 55,574 | 113,225 |
| Remaining term longer than 1 year | 672,375 | 513,002 |

The increase in liabilities to banks resulted from the regular payments of principal, as well as from the draw-down of tranches from existing and new loans amounting to EUR 188,868 thousand. In addition, EUR 75,409 thousand in old loans was repaid.

Net leverage was calculated as follows as at 30 June 2014 and in comparison with the same period of the previous year:

| | 30/06/2014 | 31/12/2013 | |
|---|------------|------------|--|
| | EUR '000 | | |
| Investment property | 1,423,028 | 1,414,691 | |
| Prepayments for investment properties | 2,482 | 2,707 | |
| Owner-occupied properties | 15,139 | 16,464 | |
| Non-current assets held for sale | 41,558 | 17,817 | |
| Inventories | 13,318 | 13,385 | |
| Real estate | 1,495,524 | 1,465,064 | |
| Liabilities due to financial institutions | 727,949 | 626,227 | |
| Cash and cash equivalents | 24,540 | 138,930 | |
| Net debt | 703,409 | 487,298 | |
| Net Loan to Value (Net LTV) | 47.0% | 33.3% | |

The Group's Net LTV increased as at the end of the reporting period as a result of the increase in liabilities to banks through the draw-down of existing and new loan tranches and the decrease in cash.

Other provisions changed as follows:

| | As at 01/01/2014 | Additions | Utilisations | Reversals | As at 30/06/2014 |
|---|------------------|-----------|--------------|-----------|------------------|
| | | | EUR '000 | | |
| Provisions for personnel expenses from restructuring plan | 2,845 | | (2,614) | | 231 |
| Provisions for litigation risks | 12,871 | 842 | (42) | (2,284) | 11,387 |
| Other miscellaneous provisions | 477 | 386 | (150) | (3) | 711 |
| Total | 16,193 | 1,228 | (2,806) | (2,287) | 12,329 |

The provisions for litigation costs were reversed in part due to a litigation victory.

9. Selected notes to the consolidated statement of comprehensive income

Net operating income from letting activities declined as a result of the strategically driven portfolio optimisation.

Income from letting activities, which was lower in comparison to the same period of the previous year, resulted primarily from the sale of a portfolio of nursing home properties in November 2013.

Expenses related to letting activities experienced a relatively less sharp decrease because expenses were higher in relation to one property as a result of fire damage. This was offset by a corresponding insurance settlement payment, recognised under other operating income.

The **result from remeasurement of investment property** included EUR 38,439 thousand (half year 2013: EUR 2,466 thousand) for properties classified as long-term assets held for sale.

Personnel expenses developed as follows:

| | 01/01/2014 - 30/06/2014 | 01/01/2013 - 30/06/2013 |
|--|----------------------------|----------------------------|
| | EUR | '000 |
| Salaries | 5,839 | 6,636 |
| Social security contributions and cost of old age pensions | 1,041 | 1,261 |
| Bonuses | 778 | 628 |
| Severance packages | | 6,855 |
| Total | 7,658 | 15,380 |

The Company initiated significant restructuring measures in the beginning of 2013. Over the course of the year, the activities carried out by branch offices were integrated with the central office, thus concentrating operating activities there. Additionally, the workforce was streamlined. This streamlining goes hand-in-hand with the strategic objectives of the property portfolio.

TLG IMMOBILIEN is conscious of its social responsibility and on 7 March 2013 adopted measures for a reconciliation of interests on the basis of the social plan dated 1 November 2011. In this context, the Company has incurred expenses relating to severance packages.

The decrease in expenses for salaries and social security contributions was attributable primarily to the decline in the employee headcount in connection with the restructuring measures.

The **interest result** can be broken down as follows:

| | 01/01/2014 - 30/06/2014 | 01/01/2013 - 30/06/2013 |
|--|----------------------------|----------------------------|
| | EUR | '000 |
| Interest income from bank balances | (199) | (195) |
| Interest income from default interest and deferrals. | (174) | (161) |
| Other interest income | (6) | (3) |
| Total interest and similar income | (379) | (359) |
| Interest expenses for interest rate derivatives | 2,140 | 3,734 |
| Interest on loans | 8,816 | 14,177 |
| Other interest expenses | 1,138 | 177 |
| Total interest and similar expenses. | 12,094 | 18,088 |
| Interest result | 11,715 | 17,729 |

Despite the overall increase in liabilities due to financial institutions, the decrease in interest on loans was due to the optimisation of the Group's financing structure. Moreover, in the previous year a loan liability taken over by the shareholders increased liabilities. That loan was repaid in March 2014.

The interest expense for interest rate hedges was lower, particularly due to the fact that in March 2014 existing interest rate hedges were unwound and then replaced by hedges at more favourable conditions.

The **tax expense/income** can be broken down as follows:

| | 01/01/2014 - 30/06/2014 | 01/01/2013 - 30/06/2013 |
|---------------------------|----------------------------|----------------------------|
| | EUR | '000 |
| Current income tax | 17,469 | 16,450 |
| Deferred taxes | 8,348 | 5,541 |
| Tax expense/income | 25,817 | 21,991 |
| Prior-period income taxes | _ | 2 |

10. Additional disclosures relating to financial instruments

The table below presents the carrying amounts and fair values of financial instruments by class and measurement category:

| Total financial liabilities | | 660,321 | 667,033 | 18,608 | 180 | 7,537 | 679,109 |

Categorisation of underlying inputs for fair value measurement in accordance with IFRS 13.93(b) and IFRS 13.97:

LaR = Loans and Receivables

HfT = Held for Trading

AfS = Available for Sale

FLaC = Financial Liabilities at Cost

FAHfT = Financial Assets Held for Trading

FLHfT = Financial Liabilities Held for Trading

¹⁾ Derivatives: Level 2 within the *fair value* hierarchy (measured on the basis of observable inputs/market data).

¹⁾ Derivatives: Level 2 within the *fair value* hierarchy (measured on the basis of observable inputs/market data).

²⁾ Liabilities to banks: Level 2 within the fair value hierarchy (measured on the basis of observable inputs/market data).

The "Other financial assets" class includes AfS financial instruments amounting to EUR 124 thousand (31 December 2013: EUR 124 thousand). These are shares in entities which are not fully consolidated or measured in accordance with the equity method. The instruments are carried at amortised cost since there is no quoted price available for them on an active market and it is not possible to reliably determine their fair value.

The carrying amounts of cash and cash equivalents, trade and other receivables, other financial assets, trade and other payables and other liabilities for the most part have short remaining terms and approximated the fair values as at the reporting date.

11. Related parties

Related parties are defined as companies or persons which have the ability to control or exercise a material influence over the TLG Group, or which the TLG Group controls or exercises a material influence over.

Accordingly, the members and immediate relatives of the management and Advisory Board of TLG IMMOBILIEN GmbH are considered related parties, as are members of management who exercise key executive functions, as well as the TLG Group's subsidiaries and joint ventures.

In addition, LSREF II EAST ACQUICO S.à r.l. and Delpheast Beteiligungs GmbH & Co. KG and their related parties are considered related parties of TLG.

Related companies

In the first half of 2014, TLG distributed EUR 158,547 thousand from capital reserves, EUR 843 thousand from revenue reserves and EUR 73,610 thousand from retained earnings to shareholders.

Receivables from and liabilities to related companies in the first half of 2014 amounted to:

| | 30/06/2014 | 30/12/2013 |
|---|----------------------------|----------------------------|
| | EUR '000 | |
| Statement of financial position and statement of comprehensive income Liabilities to other related companies | 0 | 87 |
| In the first half of 2014, income and expenses from related companies amounted to: | | |
| | 01/01/2014 - 30/06/2014 | 01/01/2013 - 30/06/2013 |
| | EUR | '000 |
| Expenses for other related companies (interest) Expenses for other related companies (guarantee commissions) | 0 158 | 215 |
| Expenses for other related companies (guarantee commissions) | 130 | V |

Related persons

On 11 April 2014, the management of TLG IMMOBILIEN GmbH entered into a bilateral bonus agreement with the direct shareholders of the Company. Under the agreement, any future realised appreciation in the value of the Company will be passed on to the beneficiaries in the form of a cash bonus payment.

The amount of the bonus to be paid will be determined on the basis of a reference value which is designed to reflect the appreciation of shareholders' invested equity over the term of their investment. The reference value is determined as the total of distributions to the shareholders less contributions made by the shareholders into the investment. The bonus payment is based on a percentage of the reference value, linked to a 0.4% cap.

The bonus payment by the shareholders falls due if several cumulative requirements have been meet.

- Occurrence of an exit or partial exit event: neither the direct shareholders nor their associates continue to hold a
 direct or indirect interest in TLG IMMOBILIEN GmbH or the amount of their interest falls below the total of
 their current interest.
- Distributions must exceed contributions paid by the shareholders by more than 50%.
- At the (partial) exit date, the managing directors of TLG IMMOBILIEN GmbH must continue to be regularly employed by the Company.

The incentive programme stipulates a direct payment from the shareholders to the managing directors. The TLG Group is not obligated to make these payments. The bonus programme described is therefore accounted for analogously to share-based payments granted to the management of TLG IMMOBILIEN GmbH in accordance with IFRS 2. This is offset by an additional contribution by the shareholders into capital reserves.

Based on the assessment of the management of TLG IMMOBILIEN GmbH as to the likelihood of the aforementioned conditions being satisfied, a bonus payment can be considered likely. The bonus will vest over a total of 18 months after the agreement of the bonus arrangement.

As at 30 June 2014, TLG IMMOBILIEN GmbH recognised EUR 795 thousand as an expense in accordance with the provisions of IFRS 2.

An expense of EUR 2,217 thousand is expected for the remaining vesting period.

12. Contingent liabilities

There has been no change in contingent liabilities as compared to 31 December 2013.

13. Executive Board and Advisory Board

As at 30 June 2014, the composition of the Executive and Advisory Board has not changed since 31 December 2013.

14. Events after the reporting date

In July 2014, TLG had a purchase agreement notarised relating to a property with a volume of EUR 21,500 thousand. The transfer of benefits and risks of ownership is planned for September 2014.

Berlin, 29 August 2014
