LETTER FROM THE MANAGEMENT BOARD

Dear Shareholders,

With an EBITDA margin of 29.3%, we were able to achieve an extraordinarily good result in the second quarter of 2020. A solid first quarter with an EBITDA of EUR 1.2 million, which was mainly characterized by an intensification of marketing and sales expenses, was exceeded by 23.9% in the second quarter with an EBITDA of EUR 1.4 million. The profitability thus achieved in the first six months of 2020 is very satisfactory considering the general economic environment and meets our expectations. Compared to the previous year, we still have to record a slight reduction in the first half of the year, but we are still on a par with the previous year in terms of sales and EBITDA, particularly in the second quarter.

At EUR 9.6 million, sales in the first half of the year are still slightly below the previous year's level (EUR 9.8 million). In the detailed analysis, however, it becomes apparent that sales in the second quarter have already increased again by 5.4% compared to the previous quarter. We are currently seeing this recovery effect in incoming orders beyond the second quarter, which also makes us optimistic about the further business development.

The development of sales and profitability shows that the COVID-19 pandemic is currently having only a moderate impact overall on our business development. In the DACH market, the temporary restrictions on the travel activities of our sales representatives meant that we were unable to establish personal contact with customers, gynecologists and midwives to the extent we had hoped. The web-based communication tools we have established have had a stabilizing effect, but do not replace personal contact in the long term. However, the situation here has also improved again, especially in our core market DACH.

Accordingly, we can confirm our full-year forecast for 2020. We continue to expect EBITDA of between EUR 4.8 and 5.8 million. Without acquisitions, sales should reach a value between EUR 19.0 and 21.0 million.

Our earnings figures for the first half of the year already include one-off increases in legal and consulting fees incurred in the course of the takeover offer. Our actual operating earnings power is therefore actually slightly higher than we reported. For you, dear shareholders, the progress of the takeover offer was of course also of interest. We published our reasoned statement on our website on July 3, 2020. After their respective independent and autonomous examination of the offer document and the circumstances accompanying the offer, the Management Board and the Supervisory Board did not consider the amount of the offer price to be appropriate within the meaning of section 31 para. 1 WpÜG. The mandatory offer was accepted for 217,510 Vita 34 shares by the reporting date. This corresponds to a share of 5.25% of the share capital and voting rights of Vita 34 AG. According to its last voting rights announcement on August 5, 2020, AOC Health GmbH thus holds a total share of 36.44%.

At the Annual General Meeting on July 1, 2020, Mr. Florian Schuhbauer was elected to the Supervisory Board of Vita 34 AG. The Management Board warmly welcomes Mr. Florian Schuhbauer as a new member of the Supervisory Board of Vita 34 AG. We look forward to a good and trusting cooperation with him and our new major shareholder, AOC Health GmbH. In the constituent meeting on July 2, 2020, the Supervisory Board elected Mr. Florian Schuhbauer as Chairman of the Supervisory Board.

For the further development of the company, we continue to focus on the targeted expansion of our business model. The starting points are manifold, in particular we will in future focus on the storage of stem cells from the body's autologous fat as well as immune cells from peripheral blood. Based on our conviction that the body's autologous cells will increasingly become a valuable source material for individual medical therapies in the future, we see great development potential for Vita 34. Together, we want to leverage this additional potential for Vita 34 and for the people whom medical progress in personalized medicine can specifically help.

Leipzig, August 26, 2020
The Management Board of Vita 34 AG

INTERIM GROUP MANAGEMENT REPORT

Business Report

DIRECT EFFECTS OF THE COVID-19 PANDEMIC ON THE RESULTS OF OPERATIONS, FINANCIAL POSITION AND NET ASSETS

The COVID-19 pandemic had hardly any direct impact on the course of business as well as on the results of operations, financial position and net assets of the Vita 34 Group in the first half of 2020. The company also did not make use of any assistance measures such as short-time work or government assistance loans. There were minor effects on general operating procedures, for example, due to the security measures implemented, the temporary absence of travelling by the field sales force and a slightly higher stockpiling of individual input materials. These effects are difficult to show separately in the results of operations, financial position and net assets and were only of minor significance overall.

TAKEOVER OFFER OF AOC HEALTH GMBH

AOC Health GmbH has submitted a takeover offer to the shareholders of Vita 34 AG and published the corresponding offer document on the Internet on June 29, 2020. On July 3, 2020, the Management Board and the Supervisory Board published a joint reasoned statement pursuant to section 27 WpÜG on the mandatory offer of AOC Health GmbH. By the reporting date, the mandatory offer was accepted for 217,510 Vita 34 shares. This corresponds to 5.25% of the share capital and voting rights of Vita 34 AG. According to its last voting rights announcement on August 5, 2020, AOC Health GmbH thus holds a total share of 36.44%.

RESULTS OF OPERATIONS

FIRST HALF OF 2020

In the first six months of 2020, sales revenues of EUR 9,600 thousand were generated, which is approximately the same level as the previous year's EUR 9,768 thousand. After a still somewhat restrained start into 2020, Vita 34 was able to gain significant momentum, particularly in the course of the second quarter. Overall, the core market DACH proved stable with an overall improving performance during the reporting period.

The gross profit weakened in the first half of the year from EUR 6,015 thousand to EUR 5,749 thousand. The reasons were slightly higher cost of sales due to a slight increase in the number of employees as well as a rise in consulting costs compared to the same period of the previous year. Accordingly, the gross margin (based on revenues) fell slightly from 61.6% to 59.9%.

The development of earnings before interest, taxes, depreciation and amortization (EBITDA) shows that the ongoing, still very high cost discipline based on the cost efficiency measures implemented in 2019 is taking effect. It did fall slightly in absolute figures from EUR 2,798 thousand to EUR 2,607 thousand. However, the EBITDA margin of 27.2% was almost confirmed at the very high level of the previous year (28.6%) and increased significantly again, particularly in the second quarter of 2020.

Marketing and selling expenses increased slightly in the reporting period. Vita 34 had already begun to intensify its marketing and sales activities in a focused manner in the fourth quarter of 2019 and continued to do so in the first half of 2020. Accordingly, marketing and selling expenses increased by 1.7%. Administrative expenses fell again compared to the prior-year period (-10.3%).

The operating result (EBIT) for the first half of 2020 was EUR 1,388 thousand compared to EUR 1,560 thousand in the same period of the previous year.

The changed tax assessment for a previous year resulted in tax income, which reduced the tax burden of the reporting period on a one-off basis compared to the previous year. After EUR 1,048 thousand in the same period of the previous year, a result for the period of EUR 1,109 thousand was achieved in the first half of 2020. Earnings per share are calculated accordingly at EUR 0.27 (H1 2019: EUR 0.26).

SECOND QUARTER OF 2020

The second quarter showed a noticeable improvement in sales momentum compared with the first quarter. Thus, the sales of the first quarter were exceeded by 5.4% and with EUR 4,927 thousand the level of the previous year's quarter was reached (Q2 2019: EUR 4,983 thousand).

Despite a slightly lower gross profit margin of 61% (Q2 2019: 63%), EBITDA of EUR 1,442 thousand was maintained at the level of the prior-year quarter (Q2 2019: EUR 1,497 thousand) and thus an EBITDA margin of 29.3% (Q2 2019: 30.0%) was achieved. Further savings in administrative costs were decisive here. Other operating expenses of EUR 150 thousand in the second quarter already include significant consulting costs in connection with the takeover offer by AOC Health GmbH. EBIT reached EUR 833 thousand after EUR 883 thousand in the previous year. At EUR 741 thousand, the result for the period was above the level of the previous year (Q2 2019: EUR 586 thousand), influenced by the reported one-off tax effect.

FINANCIAL POSITION

Due to the good earnings development, Vita 34 was able to generate a cash flow from operating activities in the first half of 2020 of EUR 1,842 thousand, which was slightly below the previous year's value of EUR 2,359 thousand, but still underlines the high internal financing power of the company. Decisive factors for the small decline were the slightly higher stockpiling for precautionary reasons in the course of the COVID-19 pandemic, moderately increased receivables as well as higher income tax payments. The cash flow from investing activities amounted to EUR –385 thousand in the same period of the previous year, whereas in the past half-year, a cash inflow was generated by the sale of financial investments, which resulted in a cash inflow of EUR 92 thousand netted with investments in property, plant and equipment. The cash flow from financing activities of EUR –1,098 thousand (H1 2019: EUR –1,638 thousand) consists primarily of planned repayments (EUR –820 thousand) and lease payments (EUR –277 thousand). The difference compared to the previous year's period results from the resolution of the Annual General Meeting to retain the profit for 2019 in full and, in contrast to 2019, to waive a dividend.

In total, the planned repayment of financial loans in the reporting period was offset by a waiver of the dividend payment as well as a significant operating cash flow and a one-off effect from the sale of financial investments, so that cash and cash equivalents as of June 30, 2020 increased to EUR 9,938 thousand (December 31, 2019: EUR 9,102 thousand).

NET ASSETS

The balance sheet total remained stable at EUR 61,216 thousand compared with the figure of EUR 61,099 thousand as of December 31, 2019. On the assets side of the balance sheet, non-current assets including goodwill decreased from EUR 48,221 thousand to EUR 47,178 thousand. The reason for this is the scheduled amortization of intangible assets resulting from the valuation of customer contracts in the course of acquisitions. Goodwill remained unchanged at EUR 18,323 thousand as of June 30, 2020.

Current assets increased to EUR 14,038 thousand as of the reporting date (December 31, 2019: EUR 12,878 thousand). The rise is composed of slightly higher inventories, refund claims for income taxes and, in particular, increased cash and cash equivalents. The total trade receivables are almost constant.

On the equity and liabilities side of the balance sheet, equity increased from EUR 30,268 thousand to EUR 31,388 thousand due to the positive half-year result. The equity ratio improved from 49.5% to 51.3%.

Non-current liabilities decreased to EUR 21,691 thousand as of June 30, 2020 (December 31, 2019: EUR 22,414 thousand). The lower interest-bearing loans of EUR 3,048 thousand (December 31, 2019: EUR 3,799 thousand) were offset by slightly increased deferred income taxes (EUR +263 thousand). Current liabilities fell to EUR 8,138 thousand (December 31, 2019: EUR 8,417 thousand).

Opportunity and Risk Report

A detailed opportunity and risk report is contained in the Annual Report 2019 (page 28 et seq.). There were no material changes in the reporting period compared with the opportunities and risks described therein.

Forecast Report

Against the background of the stable business development in the first half of 2020 and the indications for the further course of business to date, the Management Board of Vita 34 AG continues to maintain its forecast for the full year 2020. Sales revenues of between EUR 19.0 and 21.0 million (without acquisitions) and EBITDA of between EUR 4.8 and 5.8 million are expected.

The Management Board continues to assess the sensitivity of the Vita 34 business model to economic fluctuations as low. Based on experience to date, the COVID-19 pandemic is also not expected to have any far-reaching effects on business development. Accordingly, the effects of a possible significant further spread of COVID-19 are not taken into account.

FORWARD-LOOKING STATEMENTS

This report contains forward-looking statements. They are based on the current information available to Vita 34 at the time of the preparation of this report. However, such forward-looking statements are subject to risks and uncertainties. Should the underlying assumptions not materialize or should further opportunities/risks arise, the actual results may differ from the estimates made. Therefore, Vita 34 cannot assume any responsibility for this information.

Notes to the Condensed Interim Consolidated Financial Statements

1. INFORMATION ON THE COMPANY

The unaudited condensed interim consolidated financial statements of Vita 34 AG include Vita 34 AG and its subsidiaries (together referred to as “Vita 34” or “Group”).

The parent company Vita 34 AG (the “company”), based in Leipzig (Germany), Deutscher Platz 5a, registered in the register court of the local court of Leipzig under HRB 20339, is a company whose corporate purpose is the collection, processing and storage of stem cells from umbilical cord blood and tissue, the development of cell therapeutic procedures as well as the implementation of projects in the field of biotechnology.

The interim consolidated financial statements for the period from January 1 to June 30, 2020 were approved for publication by the Management Board on August 26, 2020.

2. ACCOUNTING AND VALUATION PRINCIPLES

2.1. BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The condensed interim consolidated financial statements for the period from January 1 to June 30, 2020 have been prepared in accordance with IAS 34 “Interim Financial Reporting”.

The condensed interim consolidated financial statements do not include all the explanations and disclosures prescribed for the annual financial statements and should be read in conjunction with the consolidated financial statements as of December 31, 2019.

2.2. FIRST-TIME APPLICATION OF NEW STANDARDS

The accounting and valuation methods applied in the preparation of the condensed interim consolidated financial statements correspond in principle to the methods applied in the preparation of the consolidated financial statements for the financial year as of December 31, 2019, with the exception of the amendments or new IFRS regulations that have been mandatory since January 1, 2020.

3. SALES REVENUES FROM CONTRACTS WITH CUSTOMERS

The sales revenues reported in the income statement for continuing operations are broken down by type of service provided as follows:

EUR thousand	H1 2020	H1 2019
Revenue processing/production	6,911	7,152
Revenue from storage	2,677	2,603
Other revenue	12	13
	9,600	9,768

4. OTHER OPERATING EXPENSES

Other operating expenses include expenses for consulting services in connection with the mandatory offer submitted by AOC Health GmbH to acquire all shares of Vita 34 AG in the amount of EUR 115 thousand.

5. INCOME TAXES

The Group calculates the periodic income tax expense at the tax rate that would have to be applied to the expected total annual result. The income tax expense is composed as follows:

EUR thousand	H1 2020	H1 2019
Actual income tax expense	-135	-210
Actual income tax income for previous years	162	0
Deferred income tax expense	-262	-217
	-234	-427

The tax authorities granted an existing appeal against the tax assessment of a Group company for a previous year. This resulted in a repayment claim for taxes paid in excess in previous years in the amount of EUR 159 thousand.

The increase in deferred income tax expenses results from the use of tax losses carried forward at Group companies.

The cash outflows for income taxes in the first half of 2020 amount to EUR 369 thousand (H1 2019: EUR 178 thousand) and result primarily from the tax assessment of a subsidiary for the financial year 2018.

6. FINANCIAL ASSETS AND FINANCIAL LIABILITIES

The carrying amounts of financial assets and financial liabilities are presented in the following tables. The carrying amount corresponds to the fair value.

EUR thousand	06/30/2020	12/31/2019
Financial assets		
Financial assets at amortized cost		
Trade receivables	3,674	3,511
Other financial assets	151	116
	3,825	3,628
Financial assets at fair value through other comprehensive income (FVtOCI)		
Securities investments	100	100
Other financial assets	233	233
	332	332
Total financial assets	4,157	3,960
Financial liabilities		
Financial liabilities at amortized cost

Lease liabilities	1,668	1,902
Trade payables	1,351	1,266
Other financial liabilities	58	76
	7,659	8,627
Total financial liabilities	7,659	8,627

Current trade receivables, other financial receivables, trade payables and other financial liabilities regularly have short residual terms; the recognized values approximate the fair values.

The fair values of non-current trade receivables with residual terms of more than one year correspond to the present values of the payments associated with the assets, using a standard market interest rate. The classification was made in level 2 of the fair value hierarchy.

The fair value of securities investments is determined on the basis of stock exchange prices in active markets. The classification was made in level 1 of the fair value hierarchy.

The fair values of long-term loans and lease liabilities measured in the balance sheet at amortized cost were determined by discounting the expected future cash flows using standard market interest rates. In each case, the classification was made in level 2 of the fair value hierarchy.

The fair value of other financial assets is determined on the basis of suitable valuation methods. In each case, the classification was made in level 3 of the fair value hierarchy.

7. INFORMATION ON RELATIONS WITH RELATED COMPANIES AND PERSONS

Related companies and persons are subsidiaries not included in the consolidated financial statements, associated companies (and their subsidiaries), shareholders with significant influence and persons in key positions of the company.

The following tables contain significant transactions with related companies and persons for the period from January 1 to June 30, 2020 and 2019, respectively

EUR thousand	Revenues and earnings		Receivables	
	H1 2020	H1 2019	June 30, 2020	December 31, 2019
Non-consolidated subsidiaries	16	39	2	9

The Group maintains relations with non-consolidated subsidiaries in the course of its ordinary business activities. The Group generally sells services at market conditions.

8. EVENTS AFTER THE BALANCE SHEET DATE

After the reporting date of June 30, 2020, no reportable events have occurred.

Leipzig, August 26, 2020
