

WashTec Safety Rules

We are convinced that all accidents, health hazards and damage to the environment can be prevented.

At WashTec we are committed to:

Always observe standards and procedures

- Abide to legal and customer-specific safety and environmental rules and regulations
- Act as a role model

Never perform any unsafe work

- Be observant and watch out for hazards
- Whenever unsafe: **STOP!**
 - Correct measures, request help or to inform supervisors

Look out for others and never tolerate any risks

- Look out for colleagues, third-parties involved and others
 - Address unsafe actions
 - Initiate the immediate **STOP** of dangerous work practices

Prevent accidents and risks

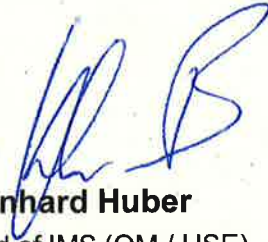

- For ongoing improvement of safety standards
- Report near miss, property damages and possible risk potentials

Zero tolerance at implementing our safety rules:

Safety is always the top priority for everyone

Michael Drolshagen
