(1)	LEI (if any) of issuer. In the case of a holding in a fund that is a series of a series trust, report the LEI of the series.

If "other" provide a brief description.

For portfolio investments with multiple liquidity classifications, indicate the percentage amount attributable to each classification.
(11)	Funds may choose to indicate the percentage amount of a holding attributable to multiple classification categories only in the following circumstances: (1) if portions of the position have differing liquidity features that justify treating the portions separately; (2) if a fund has multiple sub-advisers with differing liquidity views; or (3) if the fund chooses to classify the position through evaluation of how long it would take to liquidate the entire position (rather than basing it on the sizes it would reasonably anticipated trading). In (1) and (2), a fund would classify using the reasonably anticipated trade size for each portion of the position.
(12)	Indicate the level within the fair value hierarchy in which the fair value measurements fall pursuant to U.S. Generally Accepted Accounting Principles 7 (ASC 820, Fair Value Measurement). (16)	Description of the reference instrument, including the name of issuer, title of issue, and currency in which denominated, as well as CUSIP of reference instrument, ISIN (if CUSIP is not available), ticker (if CUSIP and ISIN are not available), or other identifier (if CUSIP, ISIN, and ticker are not available). (18)	Select the category that reflects the transaction (repurchase, reverse repurchase). Select "repurchase agreement" if the Fund is the cash lender and receives collateral. Select "reverse repurchase agreement" if the Fund is the cash borrower and posts collateral.
(19)	If multiple securities of an issuer are subject to the repurchase agreement, those securities may be aggregated.
(20)	Category of investments that most closely represents the collateral, selected from among the following (asset-backed securities; agency collateralized mortgage obligations; agency debentures and agency strips; agency mortgage-backed securities; private label collateralized mortgage obligations; corporate debt securities; equities; money market; U.S. Treasuries (including strips); other instrument). If "other instrument", include a brief description, including, if applicable, whether it is a collateralized debt obligation, municipal debt, whole loan, or international debt
(21)	Type of derivative instrument that most closely represents the investment, selected from among the following (forward, future, option, swaption, swap (including but not limited to total return swaps, credit default swaps, and interest rate swaps), warrant, other).

(26)	If the reference instrument is an index or custom basket, and if the index's or custom basket's components are publicly available on a website and are updated on that website no less frequently than quarterly, identify the index and provide the index identifier, if any. If the index's or custom basket's components are not publicly available in that manner, and the notional amount of the derivative represents more than 5% of the net asset value of the Fund, provide the (i) name, (ii) identifier, (iii) number of shares or notional amount or contract value as of the trade date (all of which would be reported as negative for short positions), and (iv) value of every component in the index or custom basket. 1. ORGANIZATION

Ares Private Markets Fund (the "Fund") was organized as a Delaware statutory trust on July 28, 2021 and commenced operations on April 1, 2022. The Fund is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as a closed-end, non-diversified, management investment company. The Fund currently offers three separate classes of shares of beneficial interest designated as Class A, Class D, and Class I shares ("Shares"). Each class of Shares is subject to different fees and expenses. No Class A Shares were outstanding as of December 31, 2023. The Fund's investment objective is to seek attractive long-term capital appreciation. In pursuing its investment objective, the Fund invests in an actively managed portfolio of private equity and other private assets (collectively, "Private Assets"). The Fund may gain access to Private Assets through a number of different approaches, including: (i) secondary purchases of interests in private equity and other private asset funds managed by unaffiliated asset managers ("Portfolio Funds"), including through privately negotiated transactions, from investors in a Portfolio Fund or directly from the Portfolio Fund ("Secondary Investments"); (ii) primary investments in Portfolio Funds ("Primary Investments"); and (iii) direct investments in the equity or debt of private companies, including investments alongside private equity firms ("Direct Investments/Co-Investments"). The Fund invests principally in Secondary Investments and, to a lesser degree, in Primary Investments and Direct Investments/Co-Investments, although the allocation among those types of investments may vary from time to time. The Fund may also invest a portion of its assets in a portfolio of liquid assets, including exchange traded funds.

Ares Capital Management II LLC (the "Adviser"), a wholly owned subsidiary of Ares Management Corporation, is responsible for the day-to-day management of the Fund's assets. Investments in the Fund may be made only by eligible investors that are both "accredited investors" as defined in Section 501(a) of Regulation D under the Securities Act of 1933, as amended, and "qualified clients" as defined in Rule 205-3 under the Investment Advisers Act of 1940, as amended.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed by the Fund in preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The Fund is an investment company and, accordingly, follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board Accounting Standards Codification ("ASC") Topic 946, Investment Companies.

Use of Estimates – The preparation of the financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. The Fund believes that these estimates utilized in preparing the financial statements are reasonable and prudent; however, actual results could differ from these estimates.

Income Taxes – It is the policy of the Fund to qualify as a regulated investment company ("RIC"), by complying with the requirements of Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code"), applicable to regulated investment companies, and by distributing substantially all of its taxable earnings to its shareholders.

Cash – Cash consists of monies held in a non-interest bearing account at UMB Bank, N.A. Such amounts, at times, may exceed federally insured limits. The Fund has not experienced any losses in such accounts and does not believe it is exposed to any significant credit risk on such accounts. There are no restrictions on the cash held by the Fund.

Valuation – The Fund values its investments monthly at fair value consistent with the principles of ASC Topic 820, Fair Value Measurements. The Fund has formal valuation policies and procedures (the "Valuation Procedures"), which have been approved by the Fund's Board of Trustees (the "Board"). Effective September 8, 2022, the Adviser was designated as the Valuation Designee (the "Valuation Designee") for the Fund pursuant to Rule 2a-5 under the 1940 Act. The Adviser's fair valuation team is responsible for monitoring developments that may impact fair valued securities. The Fund uses net asset value ("NAV") as a practical expedient to determine the fair value of its investments in Portfolio Funds. Ordinarily, the fair value of a Portfolio Fund held by the Fund is based on the NAV of that Portfolio Fund reported by its investment manager. If the Adviser determines that the most recent NAV reported by the investment manager of a Portfolio Fund does not represent the fair value or if the investment manager of a Portfolio Fund fails to report a NAV to the Fund, a fair value determination is made by the Adviser with oversight from the Board in accordance with the Fund's valuation procedures. This includes adjusting the previous NAV provided by an investment manager with other relevant information available at the time the Fund values its portfolio, including capital activity and events occurring between the reference dates of the investment manager's valuation and the relevant valuation date, to the extent that the Adviser is aware of such information. For investments that do not have readily determinable fair values and for which it is not possible to use NAV as a practical expedient, the Adviser will review and value such investments using one or more of the following types of analyses:

 Market comparable statistics and public trading multiples discounted for illiquidity, minority ownership and/or other factors for investments with similar characteristics.

- Discounted cash flow analysis, including a terminal value or exit multiple.
- The cost of the investment, if the cost is determined to best approximate the fair value of the investment.
- Valuations implied by third-party investment in similar assets or issuers.

Short-term Investments – Short-term investments represent investments in money market instruments and money market mutual funds, and are recorded at NAV per share which approximates fair value. Money market instruments are high quality, short-term fixed-income obligations, which generally have remaining maturities of one year or less and may include U.S. Government securities, commercial paper, certificates of deposit and bankers' acceptances issued by domestic branches of U.S. banks that are members of the Federal Deposit Insurance Corporation, and repurchase agreements. There are no restrictions on the short-term investments held by the Fund.

Income Recognition and Expenses – Income is recognized on an accrual basis as earned. Expenses are recognized on an accrual basis as incurred. Distributions from Portfolio Funds occur at irregular intervals and the exact timing of the distributions cannot be determined. The classification of distributions received, including return of capital, realized gains and dividend income, is based on information received from the investment manager of the Portfolio Fund. The change in unrealized appreciation on investments and foreign currency translation within the Consolidated Statement of Operations includes the Fund's share of unrealized gains and losses, realized undistributed gains and losses and the undistributed net investment income or loss on investments for the relevant period.

Shareholders' Allocation – The Fund currently offers Class A, Class D and Class I shares. Realized and unrealized gains and losses and net investment income, excluding class specific expenses, if any, are allocated to each class of common shares based upon the relative proportion of net assets of each class. Differences in per share distributions by class are generally due to differences in class specific expenses.

Dividends and Distributions - Dividends and distributions to shareholders, if any, are recorded on the ex-dividend date. Income dividends and capital gains distributions are determined in accordance with federal tax regulations and may differ from those determined in accordance with U.S. GAAP. To the extent these differences are permanent, such amounts are reclassified within the capital accounts based on their federal tax basis treatment; temporary differences do not require such reclassification.

Foreign Currency – Assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the rate of exchange of such currencies against U.S. dollars on the date of valuation. Purchases and sales of investments and income and expenses are translated at the rate of exchange quoted on the respective date that such transactions are recorded. The Fund does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of investments held. Such fluctuations are included with the net realized gain/(loss) and change in unrealized appreciation/(depreciation) from Private Assets and foreign currency transactions in the Consolidated Statement of Operations.

3. FAIR VALUE MEASUREMENTS

The Fund follows the provisions of ASC 820-10, Fair Value Measurements and Disclosures ("ASC 820-10"), which among other matters, requires enhanced disclosures about investments that are measured and reported at fair value. ASC 820-10 defines fair value, establishes a framework for measuring fair value in accordance with GAAP and expands disclosure of fair value measurements. ASC 820-10 determines fair value to be the price that would be received for an investment in a current sale, which assumes an orderly transaction between market participants on the measurement date. ASC 820-10 requires the Fund to assume that the portfolio investment is sold in its principal market to market participants or, in the absence of a principal market, the most advantageous market, which may be a hypothetical market. Market participants are defined as buyers and sellers in the principal or most advantageous market that are independent, knowledgeable, and willing and able to transact. In accordance with ASC 820-10, the Fund has considered its principal market as the market in which the Fund exits its portfolio investments with the greatest volume and level of activity. ASC 820-10 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. In accordance with ASC 820-10, these inputs are summarized in the three broad levels listed below:

The three-tier hierarchy of inputs is summarized below:

- Level 1 Inputs that reflect unadjusted quoted prices in active markets for identical financial instruments that the reporting entity has the ability to access at the measurement date.
- Level 2 Inputs other than quoted prices included within Level 1 that are observable for the financial instrument, either directly or indirectly. Level 2 inputs also include quoted prices for similar assets and liabilities in active markets, and quoted prices for identical or similar assets and liabilities in markets that are not active.
- Level 3 Significant unobservable inputs for the financial instrument (including management's own assumptions in determining the fair value of investments).

Investments in Portfolio Funds are recorded at fair value, using the Portfolio Funds' net asset value as a "practical expedient," in accordance with ASC 820-10.

Investments in Portfolio Funds generally are restricted securities that are subject to substantial holding periods and are not traded in public markets. Accordingly, the Fund may not be able to resell or realize some of its investments for extended periods, which may be several years. The types of Portfolio Funds that the Fund may make investments in include Primary and Secondary Investments.

The fair value relating to certain underlying investments of these Portfolio Funds, for which there is no public market, has been estimated by the respective Portfolio Funds' management and is based upon available information in the absence of readily ascertainable fair values and does not necessarily represent amounts that might ultimately be realized. Due to the inherent uncertainty of valuation, those estimated fair values may differ significantly from the values that would have been used had a public market for the investments existed. These differences could be material.

The Fund may also make Direct Investments/Co-Investments, which may include debt and/or equity securities issued by operating companies and are typically made as investments alongside a private equity fund.

The following table is a summary of information about the levels within the fair valuation hierarchy at which the Fund's investments are measured as of December 31, 2023:

Investments in Securities at Value	Level 1	Level 2	Level 3	Total
Short-Term Investments	\$ - \$	- \$	- \$	-
Total	\$ - \$	- \$	- \$	-

The Fund held Portfolio Funds with a fair value of \$729,854,779, that in accordance with ASC 820, are excluded from the fair value hierarchy as of December 31, 2023, as investments in Portfolio Funds valued at net asset value, as a "practical expedient", are not required to be included in the fair value hierarchy.

A listing of Private Asset types held by the Fund and related attributes, as of December 31, 2023, are shown in the below table:

Individual Private Asset investments may have terms that are more or less restrictive than those terms indicated for the investment type as a whole. In addition, most Private Asset investments have the flexibility, as provided for in their constituent documents, to modify and waive such terms.

4. RISK FACTORS

The following are certain principal risk factors that relate to the operations and terms of the Fund. These considerations, which do not purport to be a complete description of any of the particular risks referred to or a complete list of all risks involved in an investment in the Fund, should be carefully evaluated before determining whether to invest in the Fund. The Fund's investment program is speculative and entails substantial risks. In considering participation in the Fund, prospective investors should be aware of certain principal risk factors, including:

General Investment Risks. There is no assurance that the investments held by the Fund will be profitable, that there will be proceeds from such investments available for distribution to shareholders, or that the Fund will achieve its investment objective. An investment in the Fund is speculative and involves a high degree of risk.

Management Risk. The Fund is subject to management risk because it is an actively managed investment portfolio. The Adviser will apply investment techniques and risk analyses in making investment decisions for the Fund, but there can be no guarantee that these will produce the desired results. The Fund may be subject to a relatively high level of management risk because the Fund invests in Private Assets. The Fund's allocation of its investments across Portfolio Funds, Direct Investments and other portfolio investments representing various strategies, geographic regions, asset classes and sectors may vary significantly over time based on the Adviser's analysis and judgment. It is possible that the Fund will focus on an investment that performs poorly or underperforms other investments under various market conditions.

Closed-End Fund Structure; Liquidity Limited to Periodic Repurchases of Shares. An investment in the Fund, unlike an investment in a traditional listed closed-end fund, should be considered illiquid. The Shares are appropriate only for investors who are comfortable with investment in less liquid or illiquid portfolio investments within an illiquid fund. Unlike open-end funds (commonly known as mutual funds), which generally permit redemptions on a daily basis, the Shares will not be redeemable at a shareholder's option. Unlike stocks of listed closed-end funds, the Shares are not listed, and are not expected to be listed, for trading on any securities exchange, and the Fund does not expect any secondary market to develop for the Shares in the foreseeable future.

Restrictions on Transfers. Transfers of Shares may be made only with the prior written consent of the Board, which may be withheld in the Board's sole discretion. Notice to the Fund of any proposed transfer must include evidence satisfactory to the Board that the proposed transferee, at the time of transfer, meets any requirements imposed by the Fund with respect to investor eligibility and suitability.

Non-Diversified Status. The Fund is a "non-diversified" investment company for purposes of the 1940 Act, which means it is not subject to percentage limitations under the 1940 Act on assets that may be invested in the assets of any one issuer. Having a larger percentage of assets in a smaller number of issuers makes a non-diversified fund, like the Fund, more susceptible to the risk that one single event or occurrence can have a significant adverse impact upon the Fund.

^{**} Distributions from Private Asset investments occur at irregular intervals, and the exact timing of distributions from Private Asset investments cannot be determined. It is estimated that distributions will occur over the life of the Private Asset investments.

Valuation Risk. The Fund is subject to valuation risk, which is the risk that one or more of the Portfolio Funds in which the Fund invests are valued at prices that the Fund is unable to obtain upon sale due to factors such as incomplete data, market instability, human error, or, with respect to Portfolio Funds for which there are no readily available market quotations, the inherent difficulty in determining the fair value of certain types of investments. The Adviser may, but is not required to, use an independent pricing service or prices provided by dealers to value Portfolio Funds at their market value. Because the secondary markets for certain investments may be limited, such instruments may be difficult to value.

A substantial portion of the Fund's assets consist of Portfolio Funds for which there are no readily available market quotations. The information available in the marketplace for such companies, their securities and the status of their businesses and financial conditions is often extremely limited, outdated and difficult to confirm. Such securities are valued by the Fund at fair value as determined pursuant to policies and procedures approved by the Board.

The value at which the Fund's investments can be liquidated may differ, sometimes significantly, from the valuations assigned by the Fund. In addition, the timing of liquidations may also affect the values obtained on liquidation. The Fund will invest a significant amount of its assets in Private Assets for which no public market exists. There can be no guarantee that the Fund's investments could ultimately be realized at the Fund's valuation of such investments.

The Fund's net asset value is a critical component in several operational matters including computation of the Advisory Fee, the Incentive Fee and the Distribution and Servicing Fee, and determination of the price at which the Shares will be offered and at which a repurchase offer will be made. Consequently, variance in the valuation of the Fund's investments will impact, positively or negatively, the fees and expenses shareholders will pay, the price a shareholder will receive in connection with a repurchase offer and the number of Shares an investor will receive upon investing in the Fund.
