Strategic and operational highlights

- Our second customer fulfilment centre at Dordon, Warwickshire ("CFC2") became fully operational during the period, with stock building commencing in January and first customer orders being delivered on 24 February. The ramp up of CFC2 is progressing well.
- The Hatfield Customer Fulfilment Centre ("CFC1") continues to operate with improved efficiency.
- Our first dedicated non-food distribution centre became fully operational in January, one month ahead of schedule, supporting the strategy for further sales and range growth in non-food.
- We continued to improve our customer offering through the introduction of the Ocado Smart Pass which combines the benefits of our popular Delivery Pass and Saving Pass schemes, to give greater value and service to more of our customers.

Tim Steiner, Chief Executive Officer of Ocado, said:

"We maintained the momentum in sales growth and new customer acquisition with which we entered the year. Further improvements to the proposition to customers that we are making this year should enhance our appeal to shoppers and enable us to continue this momentum.

"We successfully opened CFC2 last month on time and on budget, and this substantially increases our capacity to serve the growing demand from many more customers who like shopping online for their groceries."
