

REA retains London Stock Exchange Green Economy Mark

,

Green Economy Mark Report 2023

London Stock Exchange's Green Economy Mark Report 2023 celebrates the cohort of 112 companies and funds, including REA, accredited with its Green Economy Mark.

The Green Economy Mark is a world-first accreditation which identifies companies and funds whose products and services contribute to meeting important environmental objectives. These include climate change mitigation, adaptation, waste and pollution reduction, the circular economy, protection of water and marine resources, and sustainable agriculture. To be considered, companies must derive 50% or more of their revenues from green products and services, as defined by FTSE Russell's Green Revenues Classification System.
